ABSTRACT

This directory lists institutions of higher education that offer degree and non-degree programs in various transportation fields and modes, including aviation, highway, urban mass transportation, railroad, water transport, pipeline, intermodal, and environmental and consumer education. The book catalogs courses and degrees offered, names of department chairmen, addresses, and phone numbers. It is divided into two sections, one identifying courses offered as part of degree programs and the second covering seminars, workshops, and institutes. (DT)

Stock Number

Foreword iv Introduction v Symbols and Abbreviations vi Section A—Degree Level Programs 1 Section B—Seminars, Institutes and Workshops 113 Index of Institutions by Mode 177

The first edition of this directory lists post-secondary institutions in the United States that offer: (1) degree-level programs in transportation and related areas, and (2) regularly scheduled transportation and related seminars, workshops or institutes (such as summer aerospace education workshops). All modes are included: air, highway, pipelines, rail, water, urban/mass transportation and intermodal.

This publication also contains transportation-oriented specialty or emphasis areas including but not limited to such disciplines as environmental sciences and engineering, noise abatement, structures, hydraulics, management, regional and city planning, mass transit, sanitary engineering, traffic engineering, reliability engineering, safety, economics and consumer education.

This publication was prepared jointly by the Aviation Education Programs Division staff, Federal Aviation Administration, (AGA-300) and the Office of Public Affairs of the U.S. Department of Transportation. The

Aviation Education Programs Division prepared the questionnaire and developed the format for this publication. The Office of Public Affairs was responsible for the final preparation for publication. The Federal Highway Administration provided the project with the expertise and support to make the information retrievable by computer, thus permitting rapid updating of information plus versatility in computer records and processing.

Appreciation is also expressed to the Education Sub-Committee of the National Defense Transportation Association for its assistance in developing the questionnaire and its willingness to help disseminate the directory through its channels of communication.

Finally, appreciation is expressed to representatives from the Federal Highway Administration, the Office of the Secretary, the National Highway Traffic Safety Administration, the Urban Mass Transportation Administration, and the U.S. Coast Guard for their inputs to the questionnaire and the format of information presented in the directory.

Oliver H. Laine, Project Officer Aviation Education Programs Division Federal Aviation Administration

C. Ramon Greenwood, Assistant to the Secretary and Director of Public Affairs
U.S. Department of Transportation

Arrangement of Data

In Sections A and B, the institutions are listed numerically according to the Federal Interagency Committee on Education (FICE) code and are grouped by states alphabetically. When there is more than one division or department offering a program in transportation, each division or department is separated by the last digit in the institution. In each listing, the person to be contacted for information is listed along with a telephone number and the area code.

Program information is presented differently for Sections A and B.

Section A (Degree Level Programs)

Each institutional listing includes one or more specific academic offerings along with letter codes to indicate its relationship to a particular mode of transportation or area of emphasis and the degree level for each offering.

Section B (Seminars, Institutes, Work: hops, etc.)

Each institutional listing for its program offering includes frequency of offering, period in academic year when normally offered, mode of transportation to which it pertains, and whether a certificate is awarded for completion of the program.

The FICE Code

The primary utility of the FICE code is the precise identification of a particular institution (the first seven digits) and of a particular division or department in that institution (the last digit). This number permits computer recording and processing, thus permitting rapid updating of the information in the directory.

The Modal Index at the end of the book lists institutions offering courses, workshops and seminars by type of mode. For example, those institutions offering courses dealing with aviation are listed together. In order to locate an institution listed in the index, refer to the FICE code number.

The following is a listing of the symbols and abbreviations used in the directory. A single letter is used to describe the modes of transportation covered by each school's programs as well as degree levels offered. The mode and degree level designations are represented by capital letters.

Department of Marketing and Transportation School of Business
Auburn, Alabama 36830

Auburn, Alabama 36830 James W. Adams Associate Director (205) 826-4350

Program Mode: I National Center of Transportation for the Handicapped

Seminars and workshops to promote better transportation facilities and accessibility for the nandicapped. In policy determinations.

Given As Required; No Certificate Awarded.

01010092

AUBURN UNIVERSITY

Auburn School of Aviation Auburn, Alabama 36830 H. F. Goff Program Director (205) 826-4597

Program
Flight Instructor Refresher Course

Mode: A

Mode: A

Mode: A

This is a one week seminar designed as a refresher for certificated flight instructors.

Given Annually, Summer Quarter; Certificate Awarded.

01010093

AUBURN UNIVERSITY

Aerospace Engineering Auburn, Alabama 36830 H. R. Decker Associate Professor (205) 826-4874

Program
Southeast Airport Management Seminar

This is a two day seminar reviewing approaches and techniques related to the management of airports for airport managers, planners, and those involved in policy determinations.

Given Annually, March: No Certificate Awarded.

01010361

Program

SAMFORD UNIVERSITY

School of Education 800 Lakeshore Drive Birmingham, Alabama 35209 Dr. John T. Carter Professor of Education (205)870-2941

Workshop in Aerospace Education

Two workshops for teachers; one designed primarily for high school teachers who will teach a course in

01010361 Continued

aerospace science, but who have limited background in the subject. The other is for both elementary and secondary teachers and is aimed at the incorporation of aerospace principles into other courses in the curriculum.

Given Twice Yearly, June, August; Certificate Awarded.

01010511

UNIVERSITY OF ALABAMA

College of Commerce and Business Administration University, Alabama 35486

A. A. Gordon

Director of Continuing Business Education (205) 348-6220

Program

Mode: I

Mode: A

Alabama Transportation and Distribution Forum

A two-day forum concerned with current transportation issues affecting the U.S., with special emphasis on problems of the Southeast and Alabama.

Given Annual, May, Certificate Awarded.

01010571

UNIVERSITY OF SOUTH ALABAMA

Education 307 University Blvd. Mobile, Alabama 36688 Dr. J. H. Hadley Dean (205) 460-6205

Program

Aerospace Education

Basic principles of flight; survey of space exploration military commercial and general aviation. Basic scientific principles applied in aerospace. Development of model rockets and aircraft. Preparation of material for use in teaching.

Given 1Qtr. Per Year, July, August; No Certificate Awarded.

04010721

COCHISE COLLEGE

Aviation & Technology Douglas, Arizona 85607 Lee Oppenheim Chief Flight Instructor (602) 364-3451 Ext. 302 or 309

Program Mode: R
In Service Training for Airframe & Powerplant & Prof Pilot
Professor

This course is intended as an aid for up-dating instructors in new technology in the industry. This seminar usually lasts for one (1) week and is conducted with consultants from various industrial concerns.

Given Semi-Annually, May; No Certificate Awarded.

Mode: A

Mode: L

Mode: I

04010811

ARIZONA STATE UNIVERSITY

Crash Research Institute College of Engineering Sciences Tempe, Arizona 85281 James W. Turnbow, Ph.D. Director (602) 965-6960

Program Crash Survival Investigators School Mode: A

This is a two-week school designed to train military and civilian students in the theory and practical applications of crash safety concepts. The knowledge gained during the course will be particularly useful in the investigation and evaluation of survival and crash injury aspects of aircraft accidents, in the development of general aviation safety education and injury prevention programs, in the evaluation of new aircraft mockups, and in the design of aircraft equipment.

Given Four Times Annually, September - May; Certificate Awarded.

04010812

ARIZONA STATE UNIVERSITY

Crash Research Institute College of Engineering Sciences Tempe, Arizona 85281 Dr. S. Harry Robertson Director (602) 965-6960 Program **Ground Safety School**

Mode: I

The object of this three-week safety school is to train military and civilian safety personnel in the theory and practical applications of accident prevention and safety management. With the increased emphasis on safety by both governmental and civilian agencies, this course will provide the knowledge and stimulus necessary to effectively establish and operate safety programs.

Given Four Times Annually, September — May; Certificate Awarded.

04010813

ARIZONA STATE UNIVERSITY

Crash Research Institute College of Engineering Sciences Tempe, Arizona 85281 Dr. S. Harry Robertson and Mr. Fred Arndt **Directors** (602) 965-6960

Program Vehicle Accident Investigation and Reconstruction

This is a two-week course on vehicle accident investigation and reconstruction, designed to educate military, law-enforcement, and civilian accident investigators in the various techniques and responsi-

04010813 Continued

bilities of accident investigation. The primary objectives of this course will be: (1) to teach the basic principles of crash investigation, reconstruction, and follow-up, (2) to teach procedures and techniques which will assure adequate data collection; (3) to provide classroom and field experience on selected real-world accidents; and (4) to expose the student, through classroom experience, to the rigors of litigation.

Given Four Times Annually, September — May; Certificate Awarded.

04010814

ARIZONA STATE UNIVERSITY

Division of Technology Tempe, Arizona 85281 Frank Cox Department Chairman (602) 965-7775

Program Aerospace Education Workshop/Conference

This five-week program is designed to enhance the effectiveness of classroom teachers in presenting the established disciplines of the curriculum through use of aviation oriented information and concepts. Further, it prepares secondary teachers to develop separate courses and units in aviation.

Given Annually, June and July; No Certificate Awarded.

04010815

ARIZONA STATE UNIVERSITY

Geography Department Tempe, Arizona 85281 Professor H. Reid Wagstaff Associate Professor in Geography (602) 965-4065 Program

Transportation Geography

This course analyzes geographic factors as influences on transport systems, and the resulting socio-economic and environmental impacts.

Given Every Other Year, Spring Semester; No Certificate

04010821

NORTHERN ARIZONA UNIVERSITY

College of Public and Environmental Service Box 15700 Flagstaff, Arizona 86001 Dr. Richard O. Davies Dean (602) 523-2672 Program

Transportation Seminar

Flexible seminar to analyze critical trends and problems in transportation and transportation planning. Given Semi Annually, Fall-Spring Semesters: No Certificate Awarded.

04010831

THE UNIVERSITY OF ARIZONA

Aerospace & Mechanical Engineering Department Tucson, Arizona 85721 L. B. Scott, Jr. Professor and Head (602) 884-2237

Program
Project Engineering

Engineering students (usually juniors and seniors) undertake a project in the transportation area.

Given Variable, Summer School; No Certificate Awarded.

05011081

UNIVERSITY OF ARKANSAS

Department of Marketing and Transportation Business Administration Building 12-C Fayetteville, Arkansas 72701 Dr. Grant M. Davis Oren Harris Professor of Transportation 501-575-2754

Program Motor Carrier Management Seminar Mode: H

Mode: I

To provide motor carry managers with latest techniques in the area of computer sciences, marketing research, forecasting economic analysis.

Given Once Each Year, September; Certificate Awarded.

05011082

UNIVERSITY OF ARKANSAS

Department of Marketing and Transportation Business Administration Bldg. 12-C Fayetteville, Arkansas 72701 Dr. Grant M. Davis Oren Harris Professor of Transportation 501-575-2754

Program

Transportation Forum

Mode: I

Each year outstanding experts from government, industry, are assembled for a one day conference devoted to examining several phases of current transportation problems.

Given Once a Year, May; No Certificate Awarded.

Aerospace Education for Elementary Teachers

This is a basic course in aerospace education providing general coverage in three fields; general aviation, airline and military. The program will acquaint the classroom teacher with the field of aviation, provide some background training in aviation education, aid the classroom teacher in developing some aerospace class projects for students, and enable the classroom teacher to hear from speakers from the aviation industry. Added coverage will be provided in viewing some of the cument programs of activity in aviation on the comment activity in aviation on the

Geometric Design Workscop

Two-week workshop provides instruction and practice in geometric design of streets and highways. It is intended for traffic and junior design engineers engaged in various aspects of this changing field. Course includes lectures and discussions on geometric, functional and aesthetic aspects of all roadway design. Emphasis is on updated design criteria from recent studies of driver behavior and traffic operation. The workshop includes application of latest design procedures and techniques, stressing timesaving methods to produce high-quality designs. Application enables designer to tailor the facility to actions and responses of drivers.

Given Semi-Annually, October and May; Certificate Awarded.

Operating Engineers

Students operate several types of power construction equipment which include compressors, pumps, -- hoists, derricks, cranes, shovels, tractors, scrapers, or motor graders, to excavate and grade earth, erect structural and reinforcing steel, and pour concrete. Students are trained in controlling air and water output of compressors and pumps. They adjust handwheels and press pedals to drive machines and attachments, such as blades, buckets, scrapers, and swing booms. May clean, oil and grease equipment. Worker usually serves an apprenticeship during which he is instructed in the care and operation of increasingly complex machines.

Given Once Or Twice Yearly (When Needed) Spring and Summer, .

Program Laborers Mode: H

Performs any combination of the following duties on construction projects, usually working in utility capacity, by transferring from one task to another task where demands require workers with varied experience and ability to work without close supervision. Students measure distances from grade stakes, drive stakes, stretch tight line, and stack lumber according to dimensions. Training in leveling earth to fine grade specifications preparatory to pipe laying or for building, using shovel, is given. Students learn to give direction to workers engaged in dumping concrete into construction equipment, such as cranes, power shovels and backhoes, by verifying grades and signaling.

Given Once Or Twice Yearly (When Needed) Spring and Summer. .

17093323

Teamsters

STATE COMMUNITY COLLEGE OF EAST ST. LOUIS

Vocational Technical Programs Department 417 Missouri Avenue East Saint Louis, Illinois 62201 Rudolph Von Slaughter Assistant Dean (618) 875-9100 Ext. 343-49 Program

Students drive motor truck equipped with dump body to transport and dump loose materials which includes sand, gravel, crushed rock, coal or bituminous paving materials; pull levers or turn cranks to tilt body and dump contents. Instruction in hand and foot controls of trucks is provided. Students operate a variety of other vehicles for the movement of equipment and supplies.

Given Once Or Twice Yearly (When Needed) Spring Or Summer.

17093324

Vocational Technical Programs Department 417 Missouri Avenue East Saint Louis, Illinois 62201 Rudolph Von Slaughter **Assistant Dean** (618) 875-9100 Ext. 343-49

Program Cement Masons Mode: H

Students finish surfaces to freshly poured concrete roads, walkways, and combs to specified grade and contour while using ham wools, such as floats, trowels and screeds. Students learn to direct workers engaged in puddling and tamping concrete to insure that desired density is attained and learn to perform other tasks related to cement masonry.

Given Once Or Twice Yearly (When Needed) Spring and Summer.

17093325

STATE COMMUNITY COLLEGE OF EAST ST. LORIS

Vocational Technical Programs Department 417 Missouri Avenue East Saint Louis, Illinois 62201 Rudolph Von Slaughter Assistant Dean (618) 875-9100 Ext. 343-49

Program Carpenters Moore: H

Students build rough wooded structures within imclude concrete forms, scaffolds, tunned sewer support and temporary frame shelters according to sketches or oral instructions; they examine specifications to determine dimensions of structure. Students measure boards, timbers, or plywood by using a square, measuring tape, and ruler—then mark cutting lines on materials, using pencil and scriber. Saws boards and plywood panels to required sizes. Instruction is given in nailing cleats across boards to construct concrete forms, bracing forms implace with timbers, the rods and anchor bolts for use in building concrete piers, footings, and wall.

Given Once Or Twice Yearly (When Needed) Spring Or Summer.

17093326

STATE COMMUNITY COLLEGE OF EAST ST. LEGUIS

Vocational Technical Programs Department 417 Missouri Avenue East Saint Louis. Illinois 62201 Rudolph Von Slaughter Assistant Dean (618) 875-9100 Ext. 343-49

Program Ironworkers Mode H

Reinforcing ironworker students set steel bars in concrete forms to reinforce concrete structures. They place the steel bars on suitable supports in the concrete form and the bars together at intersections so that each bar receives its intended structural load. The bars are placed in concrete forms according to blueprints, specifications, or verbal instructions.

17093326 Continued

The rodmen use pliers and other tying tools to wire the rods securly in place. Students are instructed in the use of them.

Given Once Or Twice Yearly (When Needed) Spring Or Summer.

Defensive Driving for Adult Citizens

Mode: H

Mode: A

Trains in professional traffic avoidance techniques. Builds informed and constructive citizen support for official safety programs. Promotes among all motorists mutual understanding, courtesy, and cooperation, so that driving a motor vehicle on streets and highways is more civilized, safe, pleasant and successful for all. New River Community College, as a registered cooperation agency in the national safety council driver improvement program, is authorized to offer this program.

Given Quarterly, Oct. Jan. May & Summer; Certificate Awarded.
