Information

ABSTRACT

Several intermediate performance objectives and corresponding criterion measures are listed for each of four terminal objectives for a course in exploration of food management, production, and service occupations for 8th and 9th grade students. The materials were developed for a 12- to 18-week course designed to include awareness of the operation of food service enterprises; planning and providing food service for individuals and groups, including those with special needs; and equipment, materials, agencies, and legislation related to food service. Concepts in management, consumer education, sanitation, and safety are taught as they relate to instruction. A curriculum objective (diagnostic) test is also included. (This manual and 54 others were developed for various secondary level vocational courses using the System Approach for Education (SAFE) guidelines.) (HD)

COURSE DESCRIPTION

EXPLORATION OF FOOD MANAGEMENT, PRODUCTION AND SERVICE OCCUPATIONS

Accreditator No. 2762

Grade Level - 8th & 9th

Course Length - 12-18 weeks

This 12-18 week course for 8th or 9th grades is designed to include awareness of the operation of food service enterprises; planning and providing food service for individuals and groups, including those with special needs; and equipment, materials, agencies and legislation related to food service. Instruction includes hands-on laboratory experiences which are basic to specialized proficiencies needed for employment. Concepts in management, consumer education, sanitation and safety are taught as they relate to instruction.

$\underline{G} \ \underline{O} \ \underline{A} \ \underline{L}$

- (1) To provide experiences to assist students in exploring occupations in food management, production and services.
- (2) To provide opportunities for students to examine basic skills needed for successful employment in food management, production and services.
- (3) To provide opportunities for students to evaluate personal knowledge and interest in food management, production and service.

CURRICULUM OBJECTIVE

Upon completion of this course, at least 76% of the students will demonstrate knowledge and understanding of concepts as they relate to food management, production and service occupations and self employment in this field as evidenced by answering correctly at least 10 of the 15 items in the criterion test.

C.O Curriculum Objective Criterion Measure

MULTIPLE CHOICE: Circle the letter before the best choice.

- 1. Jobs found in the food management, production and service area include all except
 - a. meat wrapper, counter worker, cashier
 - b. interior decorator, motel manager, seamstress
 - c. bus boy/girl, cook, cake decorator
 - d. dietitian, food journalist, chain executive.
- 2. Common causes of accidents in the kitchen include
 - a. fatigue, carelessness
 - b. use of electrical equipment
 - c. working with hot foods
 - d. all the above.
- 3. The words "baste", "dredge! and "poach" are usually associated with which occupations?
 - a. sandwich maker, soda fountain worker
 - b. salad maker, vegetable cook
 - c. baker, cake decorator
 - d. cook, chef
- 4. A relatively new and very popular type of food service establishment is
 - a. restaurant
 - b. fast food service
 - c. cafeteria
 - d. tearoom.
- 5. In food service, a good cook
 - a. just throws something together
 - b. cooks "by ear"
 - c. follows recipes carefully
 - d. all the above.
- 6. Job opportunities in food service are
 - a. plentiful
 - b. scarce
 - c. limited to men
 - d. limited to college graduates
- 7. The most expensive foods, per serving, are
 - a. fruits and vegetables
 - b. appetizers, soups, desserts
 - c. breads and dereals
 - d. meat, milk, eggs.

Curriculum Objective Criterion Measure (continued)

- 8. Which of the traits listed below is not a trait needed for successful employment?
 - a. personal health and cleanliness
 - b. playful, "not too serious" attitude
 - c. ability to enjoy and work with people
 - d. feelings of duty and responsibility.
- 9. There are jobs in food service for the
 - a. interested high school graduate
 - b. young, ambitious teenager
 - c. older, mature men and women
 - d. all the above.
- 10. Intelligent care and use of equipment will
 - a. prolong life of the equipment
 - b. cut down on accidents
 - c. produce a superior product
 - d. all the above.
- 11. The duties of a waiter/waitress include all except
 - a. setting the table
 - b. taking the order
 - c. preparing short orders
 - d. folding napkins.
- 12. Using correct principles of cookery
 - a. will preserve vitamins, minerals and quality
 - b. is not always necessary
 - c. does not effect the product
 - d. all the above.
- 13. Food service workers have the responsibility to
 - a. provide nutritionally adequate meals
 - b. eat nutritionally adequate meals
 - c. know the principles of good nutrition
 - d. all the above.
- 14. Jobs which do not require college degrees include all except
 - a. host/hostess, bus boy/girl, cashier
 - b. dietitian, nutritionist, extention worker
 - c. chef, baker, caterer/cateress
 - d. salad worker, kitchen helper, sandwich maker.
- 15. Food-borne disease and illness is caused by
 - a. unsanitary food handlers
 - b. natural contamination of foods
 - c. improper food handling and storage
 - d. all the above.

2.0 Criterion Measure

TRUE - F	ALSE
1.	Diseases transmitted in foods include botulism and salmonella.
2.	A chief cause of accidents among kitchen workers is rushing.
3.	Food service workers should know simple first aid techniques.
4.	Wax coated and plastic containers cannot be recycled.
5.	What you do not see will not hurt you.
6.	Styles of kitchen workers' uniforms are not related to safety.
7.	Cleanliness of person, equipment and surroundings is required by law.
8.	All equipment should be used as the manufacturer's manual says to.
<u> </u>	Scales are used to measure ingredients in large quantity cooking.
10.	The use of paper products saves natural resources.
11.	Any unsafe conditions should be corrected or reported immediately.
12.	Knowledge of the meaning of many cooking terms is important in food production.
13.	A dull knife is a safe knife.
14.	Fire is no longer a danger in the modern kitchen.
15.	"Leftover" foods or improperly stored foods can be a source of serious illness.
16.	Using proper tools and equipment makes the job easier and safer.

	2.0 Cri	iterion Measure (continued) .
÷	(TRUE - I	FALSE)
	17.	Customers must realize a good waiter/waitress gets busy and tired.
	18.	Rats, mice and insects can transmit food-borne diseases.
	19.	Proper table setting is not as important as getting people served.
	20.	Cracked glasses, cups and plates should never be used.
g å e Brigglike laggernaderer av sta	21.	Eating habits affect health, personal appearance and work out-put.
•	22.	The overall appearance of a person does not reflect his standards.
	23.	Attitude is not important if the job is reasonably well done.
	24.	Recipes, in quantity cooking, should not be doubled.
	25.	Poor food service can cost the waiter/waitress a tip and lose customers for the restaurant.
