ABSTRACT

Provided is the manual for the "Think Aloud" program for young aggressive boys which is designed to slow down and inhibit. first associations; increase verbal mediation; inhibit immature, irrelevant speech; increase repertory of alternative responses; increase skill in staying with a plan and evaluating outcomes; and facilitate transfer of learned skills to life situations. (It is noted that the manual was prepared for use in half-hour daily sessions over a period of 8 weeks. Tasks, which progressively increase in difficulty, involve both impersonal cognitive problems; such as puzzles, mazes, and copying designs, and interpersonal problem situations. The program unfolds by first using the "copy cat" game on very simple cognitive tasks to engage the child in reacting to all features of the modeling; "copy cat" is then used to introduce the child to the four steps in dealing with a problem (identifying the problem, developing a plan, monitoring performance, and evaluating performance and outcome), and finally "copy cat" is faded and cue cards standing for each step are introduced to signal the child to verbalize both the question and the answer for himself. Instructions for the teacher, descriptions of materials, recording forms, and puzzle sheets are provided. (SBH)

Introduction

From our studies of cognitive functioning in young aggressive boys, (Camp, Impulsivity, verbal mediation and response inhibition in young aggressive boys, in preparation, 2975; Camp, Zimet, van Doorninck, & Dahlem, Verbal abilities in young aggressive boys, submitted for publication, 1973) we have arrived at the following characterization. In comparison with normal boys their verbal development is hasically adequate but they fail to use these abilities to think through and plan solutions to problems unless specifically requested to do so. They talk a lot, even when the task does not specifically, or ostensibly call. for it, but the majority of their verbal output is immature, self-stimulatory and often irrelevant to the task at hand. 🛴 Consequently it serves no useful purpose in problem solving. As a result they have more difficulty on tasks which do not explicitly call for verbal planning and reasoning (e.g. complex mazes) but which cannot be solved without it. was most evident in nonverbal test situations but could also be encountered in verbal tasks which require blocking of the first association prompted and reasoning to a solution (e.g. more difficult items in reasoning by analogy) Even when the rules of the game call for blocking the first; stimulated response they have more difficulty performing this inhibition (e.g. playing the Simon Says game). Their natural inclination is to respond rapidly, but when specifically instructed to verbalize overtly before responding they may achieve response inhibition more readily than normals. However, when merely whispering self-instructions, they are inconsistent in achieving response inhibition, They have difficulty with sequential memory, and reading achievement is depressed. Table 1 summarizes these characteristics.

Cognitive characteristics of Young Aggressive Boys

Adequate verbal ability

Impulsive - fast responder

Inconsistent inhibition of first response

Private speech immature and voluble

Decreased effect of covert commands

High threshold for verbal mediation

Poor reading

Poor sequential memory

The "Think Aloud" program was designed to attack the problems mentioned above. Impulsivity, failure to inhibit.

first responses and a high threshold for use of verbal mediational activity in problem solving were initially conceptualized as the key problems. To this was added the idea that slowing down, developing response inhibition and achieving facility with verbal mediation might not be enough. Some children might still have problems because of inability to stay with a plan, or because of a limited repertory of alternative ideas to use in a given situation and inability to evaluate outcomes. Further, after initial pilot work with the program, we recognized that immature chatter might actively prevent the child from using self-verbalization productively. And finally we realized that transfer of effects from the training session to life situations might not occur without specific training directed toward transfer.

With these considerations in mind, we designed a program with the following objectives: 1) slow down,
2) inhibit first associations, 3) increase verbal mediation,
4) inhibit immature, irrelevant speech, 5) increase repertory of alternative responses, 6) increase skill in staying with a plan and evaluating outcomes, and 7) transfer to life situations.

The first three of these objectives are approached initially through overt verbalization, rehearsal, self-instruction and evaluation before, during and after a task. Gradually, as overt self-instruction becomes efficient in helping the child to slow down, to block his first impulse and to verbalize his plan, he learns to fade the verbalization to a dovert level.

Inhibition of immature, irrelevant speech and behavior is sought initially through leightening the child's awareness of his silliness by introducing a signal for an incompatible activity. The eventual expectation is that the child will begin to apply the signal on his own and productive self-verbalization will eventually take over.

Increasing the child's repertory of responses is accomplished through modeling of effective thinking strategies, through modeling ways of coping with frustration and disappointment, through use of provocative situations and questions, and through emphasis on thinking of several different solutions, plans and possible consequences.

To increase skill in following a plan and evaluating outcomes, ongoing reminders and evaluation of different

aspects of performance are included in verbalization training, along with recognition of the relationships between actions and consequences. Several games also introduce feelings and fairness as important to evaluation of outcome.

Training for transfer to real life situations has been attempted through trying to provoke behavior and reactions in the training sessions which commonly occur in the classroom so that ways of using the training in real life contexts can be "tried-out". Such reactions and behavior are elicited by 1) including two children in the training sessions to provide the natural stimulus of other children, 2) suse of provocative questions and situations, and 3) dramatic enactment by the teacher of an individual child's reaction pattern, especially his aggressive reaction to frustration. Transfer is then approached through 1) stress on cooperation between the children and use of self-verbalization to achieve this, 2) stimulating empathetic responses, 3) providing cognitive strategies for coping with feelings as part of dramatic outbursts, 4) open discussions of other situations in which "Think Aloud" strategies may be helpful, and 5) simply connecting activity in the training program with the classroom by indicating that the regular teacher requested work on the activity.

And finally, many boys appear to be actively resistant to systematic use of verbal mediation rather than merely having a high threshold for arousal. Consequently dramatic staging, game format and props have been used liberally to sustain attention and improve motivation when performing is difficult.

The tasks presented to the children involve both impersonal cognitive problems such as puzzles, mazes, copying designs, and interpersonal problem situations. The manual was prepared for use in a hour daily sessions over a period of eight weeks and each day's materials are designed to fit within that time period.

The program unfolds by first using the "copy cat" game on very simple cognitive tasks to engage the child in reacting to all features of the modeling (speech and action). "Copy cat" is then used to introduce the child to the four steps in dealing with a problem 1) identifying the problem, 2) developing a plan, 3) monitoring performance and 4) evaluating performance and outcome. Then "copy cat" is faded and cue cards standing for each step

are introduced to signal the child to verbalize both the question (e.g. What is my problem?) and the answer for himself. In the meantime, cognitive tasks are increasing in difficulty and the child is encouraged to think of more than one plan before proceeding with a task. As the child becomes adjusted to "thinking out loud" in a systematic fashion (or earlier if the natural occasion arises), interpersonal situations are broached. The first social games prepare for dealing with interpersonal problems through exercises in identifying emotions, determining antecedents to an emotion, considering what might happen next in various situations, and evaluating fairness of outcomes. Cooperation in dealing with the impersonal cognitive tasks is also being stressed.

Sessions then proceed with a mixture of impersonal and interpersonal problems with increasing difficulty, complexity and emphasis on holding several things in mind at one time.

We have been fortunate to have the personal assistance of Donald H. Meichenbaum in development of this program. His work with Goodman (Training impulsive children to talk to themselves: A means of developing self-control. Journal of Abnormal Psychology, 1970, 77, 115-126) was the principle model for our approach to teaching children to "think out loud" in tackling new problems. Additional ideas were obtained from other publications of Meichenbaum and from papers by Palkes, Stewart, & Freedman (Improvement in maze performance of hyperactive boys as a function of verbal training procedures. Journal of Special Education, 1972, 5, 337-342) and Bornstein & Quevillon (The effects of a self-instructional package with overactive preschool boys. Journal of Applied Behavioral Analysis, in press).

We have leaned heavily on the work of Myrna Shure and George Spivack for an approach to interpersonal problems and repertory development in general. Personal consultation from Myrna Shure was of great assistance. As already indicated, Shure & Spivack have generously allowed us to use much of their material directly or in adaptation. In several wing tances, notably in introducing the Social lessons numbers, 8-19 (pages 83-103), we have departed from their technique by using cognitive modeling and by

using cue pictures to classify responses. Although the goals of the programs are similar, i.e. thinking of different ideas, Shure and Spivack try to guide the child toward development of his own ideas without suggesting specific solutions. Thus our use of their materials is virtually opposite to theirs.

The following colleagues assisted in reviewing, critiquing and providing new ideas for meeting particular problems: Gaston E. Blom, Frederick Hebert, Linda H. Reed, Margo Simmons, and William J. van Doorninck. And finally, we are indebted to the Denver Public Schools for their continued support and assistance and particularly to Dorothy Major, Walter Oliver, and Frank Roberts, whose insistence on the impracticality of using an individual program in schools opened our eyes to the advantages of having children work together.

Copy Cat

The copy cat game is introduced at the outset of the program to encourage verbalization and imitation, of the teacher's words and gestures. Continue the copy cat game as long as necessary to develop minimal fluency in repeating teacher's words verbatim.

Following Directions

These commands progress to complex chains of prepositional phrases typical of classroom instructions.

The children's performance on these commands will give
us a baseline to judge future progress.

Free Coloring

3

This task is included to help relax the children and to give us an example of the children's coloring ability. We will then be able to interpret if thinking out loud on the coloring shapes task alters their approach to coloring.

Emphasis on thinking out loud comfortably, low cognitive demands.

Copy Cat Introduction

Teacher:

WE'RE GOING TO DO SOME SPECIAL THINGS TOGETHER. WHO HAS PLAYED THE GAME COPY CAT? CAN SOMEBODY WHO HAS PLAYED COPY CAT TELL US HOW YOU PLAY THE GAME. (If child can't remember the rules or explains only part of the game, fill in details.) YES, YOU HAVE TO SAY WHAT I SAY AND DO (point finger) WHAT I DO. PLAY COPY CAT.* (If kids don't echo you, repeat.) > *LET'S PLAY COPY CAT.* YOU HAVE TO SAY WHAT I SAY AND DO WHAT I DO.* IF I POINT MY FINGER (point finger)* YOU HAVE TO POINT YOURS.* IF I STAMP MY FOOT* (stamp foot*) YOU HAVE TO STAMP YOURS.* YOU ARE GOOD COPY CATS.* OH, COME ON.* STOP COPYING ME.* (Hands on hips.)* HOW CAN I GET YOU TO STOP?* I NEED ♦A SIGNAL.* (Give "safe" sign and explain that will be the signal to stop copying.) SOMETIMES IT MAKES PEOPLE MAD WHEN YOU PLAY COPY CAT. WE NEED TO FIND OUT IF IT'S ALRIGHT WITH: OUR PRIENDS IF WE COPY WHAT THEY SAY AND DO. WE'LL USE THIS SIGNAL SO YOU KNOW WHEN TO STOP COPYING WHAT I SAY AND DO SHOW ME THE SIGNAL THAT MEANS TO STOP COPYING. WHAT WILL YOU DO WHEN I (give signal)? WE'LL PLAY COPY CAT ON LOTS OF DIFFERENT DAYS. IT WILL BE VERY IMPORTANT EOR YOU TO ISAY WHAT I SAY AND TO DO WHAT I DO.

FOLLOWING DIRECTIONS

Teacher:

NOW WE'RE GOING TO PLAY ANOTHER KIND OF GAME. I CALL IT FOLLOWING DIRECTIONS. I'M GOING TO ASK YOU TO DO SOME THINGS. YOU LISTEN VERY CAREFULLY FOR YOUR NAME AND DO JUST WHAT I SAY. 2nd child's name, YOU TELL ME IF 1st child's name DOES JUST WHAT I TOLD HIM WHEN IT IS HIS TURN. 1st child's name, YOU TELL ME IF 2nd child's name DOES JUST WHAT I TOLD HIM ON HIS TURN. (Give Following Directions one at a time. Require child to do just what you asked. If he errs on a direction and "judge" does not catch it say, THAT'S NOT QUITE WHAT I ASKED. LISTEN AGAIN AND DO JUST WHAT I ASK. Record performance on Following Directions form, page 5).

Teacher: (To Child 1), CLOSE THE DOOR, PLEASE.

Child 1:

Teacher: Child 2:	2nd child, CLOSE THE BOX FOR ME AND PUT IT ON THE (CHAIR, TABLE) UNDERNEATH MY COAT.
Teache :	GOOD WORK. WE'RE GOING TO BEGIN WORKING ON LOTS OF SPECIAL PROBLEMS TOMORROW. AND WE'LL WORK EACH DAY AT THIS TIME FOR ABOUT 25 MINUTES. I'LL WANT YOU TO DO ALL THE THINGS I ASK YOU JUST THE WAY I SHOW YOU TO DO THEM. THAT'S WHY WE PRACTICED FOLLOWING DIRECTIONS TODAY. YOU DID EVERYTHING JUST THE WAY I ASKED YOU TO. AND YOU WERE BOTH REAL GOOD COPY CATS.
	A FREE COLORING
Teacher:	THE LAST THING I WANT YOU TO DO TODAY IS TO CHOOSE A PICTURE TO COLOR JUST THE WAY YOU WANT TO. AND WHEN YOU FINISH I'LL-ASK YOU EACH TO TELL ME A LITTLE ABOUT THE PICTURE. (Show children three pictures to select from. If children select the same picture to color say, I.ONLY HAVE ONE PICTURE LIKE THAT. WHAT WOULD BE A FAIR WAY TO DECIDE WHO CAN COLOR IT?)
Children:	
Te a cher:	(After one child finishes coloring say,) TELL ME A STORY ABOUT YOUR PICTURE. (Write on back of Daily Evaluation form the gist of child's "story" or description.)

DAY 2

Copy Cat

The Copy Cat game is played again to develop verbatim repetition of the teacher's words. This skill will facilitate the thinking out loud process introduced in coloring shapes.

"Cue pictures

problem, we introduce pictures that remind the children of the questions they ask and answer while they think out loud about a task. Pictures of a bear constructing a bird house help cue the children into the questions:

1) What is my problem? 2) How can I do it? 3) Am I using my plan? and 4) How did I do? We hope the image of the bear will facilitate the recall of what to think out loud:

Teacher:

LET'S PLAY COPY CAT AGAIN. REMEMBER YOU HAVE TO SAY WHAT I SAY AND DO WHAT I DO. IF I POINT MY FINGER YOU POINT YOUR FINGER.* (Continue with Copy Cat emphasizing DO WHAT I DO with gestures.)

Children:

Teacher:

GOOD. TODAY I'M GOING TO SHOW YOU A NEW WAY OF DOING A PROBLEM. I CALL IT THINKING OUT LOUD. WHAT DO I CALL IT?

Children:

Teacher:

WE'LL START WITH A REAL EASY PROBLEM: YOU PROBABLY WOULD NOT THINK OF IT AS A PROBLEM. BUT WE'RE GOING TO PRETEND IT IS LIKE A PROBLEM WE HAVE TO SOLVE. LATER ON WE WILL DO LOTS HARDER PROBLEMS AND THEN THIS THINKING OUT LOUD WILL REALLY HELP. TO TEACH YOU TO THINK OUT LOUD WE'LL USE OUR COPY CAT GAME. YOU WILL BE THE COPY CATS AND YOU MUST SAY AND DO JUST WHAT I SAY AND DO.

COLORING SHAPES

Teacher:

(Give children and yourself the paper of shapes to be colored. Select the circle with a fat border first.) WE EACH HAVE A PAPER WITH SOME SHAPES ON IT. THE PROBLEM children's classroom teacher's name GAVE US-IS TO COLOR THIS SHAPE THE BEST WE CAN WITHOUT GOING OUTSIDE THE LINES. PICK A COLORED PENCIL AND I'LL PICK ONE.

Teacher: '

LET'S LEARN TO THINK OUT LOUD TO HELP US DO THIS PAPER. REMEMBER YOU MUST COPY WHAT I SAY AND DO. LET'S TRY IT.

Teacher: (Without putting pencil to paper.) Q. OK. WHAT IS MY PROBLEM?*

- I AM SUPPOSED TO COLOR THIS CIRCLE WITHOUT GOING OUTSIDE THE LINES.*
- HOW CAN I DO IT?*
- I'LL GO SLOWLY.* I'LL BE CAREFUL.* I'LL OUTLINE THE CIRCLE FIRST. THEN I CAN GO FASTER IN THE MIDDLE.* OK, HERE I GO.* (Begin coloring.)

(Note: Children may become so intent on coloring that they fail to copy. Remind them as often as necessary, WHERE'S MY COPY CAT?)

Tescher: Q. AM I USING MY PLAN?

- A. YES. 4'M MAKING A FRAME AROUND THE OUTSIDE.* I'M GOING SLOWLY.* NOW I CAN GO FASTER IN THE MIDDLE. (Cross line boundary.) 000PS, I WENT TOO FAST.* I WENT OUTSIDE THE LINE.* THAT'S OK. I'LL BE MORE CAREFUL.* I'LL GO SLOWER.* THERE I DID IT.*

Telling a child he is very good at doing something is more powerful than telling his teacher the child is very good. Tell the children consistently before they begin a puzzle task that they "are very good at doing puzzles".

The children often persever on the coloring plan.

They consider it the only answer to HOW CAN I DO IT?

We are to establish early on that each problem requires

its own specific strategy. To enswer HOW CAN I DO IT?

The student must consider the given problem.

The teacher models an impulsive action then copes with her own impulsivity. These incidents provide models for slowing down and thinking of an alternative.

Teacher:

YESTERDAY WE LEARNED QUESTIONS WE ASK OURSELVES WHEN WE THINK OUT LOUD. LET'S SEE WHICH QUESTIONS YOU CAN REMEMBER. SEE IF THE PICTURES HELP YOU REMEMBER THEM. (Point to each cue picture and help children on those they do not recall.)

Children:

Teacher:

WHAT ELSE DID WE DO YESTERDAY? CAN YOU REMEMBER WHAT

PROBLEM YOU THOUGHT OUT LOUD ON?

Ghildren:

Teacher:

WHAT. IS OUR PLAN TO HELP US COLOR BETTER?

Children:

(Go slow, be careful, stay inside the lines, color-carefully around the edges first.)

Teacher:

GOOD. LET'S LEARN TO THINK OUT LOUD TO HELP US DO ANOTHER KIND OF PROBLEM. YOU BOTH ARE VERY GOOD AT DOING PUZZLES. SO LET'S PUT THESE PUZZLE PIECES TOGETHER JUST THE RIGHT WAY SO THEY MAKE A PICTURE. WE DI, NEED TO THINK OF A DIFFERENT PLAN TO HELP US SOLVE THE PUZZLE.

Teacher-

THINK OUT LOUD. THEN 1st child's name GETS TO PICK THE NEXT PIECE, AND 2nd child's name AND I WILL COPY WHAT YOU SAY, THEN IT WILL BE 2nd child's TURN TO PICK A PIECE. WHO WILL BE THE COPY CAT WHILE HE THINKS OUT LOUD?

Children:

Teacher:

I WILL PICK THE NEXT PIECE, AND WHO WILL COPY ME?

Children !:

Teacher:

GOOD, LET'S TRY IT. YOU ARE THE COPY CATS FIRST. YOU MUST SAY WHAT I SAY AND DO WHAT I DO.

Teacher:

Children:

Teacher:

LOOK AT THE PICTURES TO HELP YOU REMEMBER THE QUESTIONS YOU NEED TO ASK YOURSELF. YOU ANSWER THE QUESTIONS. LET ME

HEAR YOU THINK OUT LOUD.

Children:

Teacher:

(Assist children whenever necessary with solution cues as they think out loud independently - color, lines, shapes, familiarity. Encourage thinking out loud: WHAT DO WE ASK WHILE WE DO OUR WORK? - WHAT DO WE ASK WHEN WE FINISH OUR PROBLEM? - After puzzles have been completed, say) WE WORKED ON A NEW PROBLEM TO

TODAY. WHAT HAVE WE DONE TO HELP US ON BOTH OUR PROBLEMS?

Children:

Teacher: RIGHT, WE WILL THINK OUT LOUD TO HELP US ON LOTS OF PROBLEMS.

Teacher:

WHAT IS OUR PLAN TO HELP US PUT PUZZLES TOGETHER? WHAT CAN WE LOOK AT TO HELP US: (Prompt when necessary with look at all the pieces carefully and for pieces I know, and look at color, and line and shapes.)

Children:

The children are told that their classroom teacher wants them to put the puzzle together. Using the classroom teacher's name is an attempt to help elicit transfer to the children's classroom work.

The teacher impulsively grabs a piece and then copes, asking the children if she can have a turn. The slowing down gives the teacher time to recognize an error in her thinking and she then considers an alternative.

Find the Twins from Children's Fun Puzzles Magazine

The strategy for finding two identical pictures from a group of pictures is introduced to provide the child concrete details to use in his thinking about a problem. The thinking out loud necessarily slows down the child's responses and requires him to consider all alternatives.

What to think about is readily available through the concrete details of the pictures.

The teacher says that working hard makes her feel good. The idea of trying hard, despite the outcome, needs to become a satisfying experience for the children.

One child is asked to plan what he could do while the other child works on a problem. This plan helps the child recall that he has a problem of his own while others work on assigned tasks.

Teacher: WHO REMEMBERS WHAT WE DID TOGETHER YESTERDAY?

Children:

Teacher:

YOU ARE GETTING VERY GOOD AT THINKING OUT LOUD. WE WILL KEEP PRACTICING THINKING OUT LOUD SO IT WILL HELP YOU WHEN YOU DO PROBLEMS. WHAT QUESTIONS DO THESE PICTURES HELP YOU REMEMBER TO ASK YOURSELF WHEN YOU THINK OUT LOUD? (Alternately address children while pointing to 4 due pictures, helping them when necessary to recall one form of the questions.)

Children:

Fill in any clues the children may omit and have children repeat them.)

Child 1: (If child omits evaluation at end of task, prompt by pointing to Teacher: cue picture #4.) Child 1: Teacher: WHOSE TURN IS IT NOW? Children: 1st child AND I WILL BE COPY CATS WHILE YOU THINK OUT LOUD. Teacher: Child 2: GOOD WORK. (Keeping next worksheet covered,) NOW BOTH OF YOU CAN Teacher: TRY THE NEXT PROBLEM BY YOURSELVES. WHAT DO WE DO TO HELP US WITH OUR PROBLEMS? Children: WE WORKED HARD ON TWO DIFFERENT PROBLEMS TODAY. WHAT DID WE DO THE Teacher: SAME ON BOTH PROBLEMS? Child ren: YES, WE THOUGHT OUT LOUD. AND WHAT IS OUR PLAN FOR FINDING THE Teacher: TWINS? Children:

The teacher models evaluation of good parts of her performance and poor parts. Children need to recognize that even if the end result of work is inaccurate, parts of their performance can be good; thinking out loud, using my plan, trying hard.

Auditory Association

when have prepared several lists of words, some with phonetically similar words (look, luck, lake, lock) and some with semantically similar words (cat, dog, mouse, chase). The children are asked to lightly slap a card with a pink spot on it each time they hear a specified word. Research has suggested that younger children would tend to make errors of response on phonetically similar words whereas older children's errors would tend toward words of similar seaning. We suggest that introducing a strategy to impulsive boys to quietly remind themselves of their problem will decrease their errors given frequent practice. Hopefully, the attention required for these auditory tasks will give the children practice at attending to classroom instructions and responding to those directions.

Avain the teather evaluates both good and poor aspects of heart of formance.

DAY 6

The idea of fairness is introduced in a real situation. It is pursued on Day 13 through pictured situations.

The detective pictures introduce a more complex matching-identical-pictures task. The array of pictures is greater and the details more subtle.

Identifying Emotions

The first social lesson helps the children to determine how the teacher feels by seeing or hearing her. Then they are asked to decide which pictures show people who feel the same and people who feel different. Gradually the children are asked to consider people's feelings in response to their actions. Examples: How will your teacher feel when you show her these hard papers you did? How would the girl feel if you hit her? How will I feel if you won't do the special papers I brought for you?

This is the first of seven preliminary lessons which develop a sequence of responses the children will use to deal with social problems. These preliminary lessons are designed to give the children both linguistic and conceptual tools they will need to work through more explex pictured social situations.

DAY 7

Social #2

The Why-Because game develops the identification of emotions then extends the inquiry to sup sing causes for those emotions. The children are asked to think of many different causes for the emotion depicted. Finally they develop a list of things another child could do to create a happy feeling in a sad girl.

Auditory Association - 2nd presentation

The complexity of this inhibition task is increased. The children first learn to respond by hitting the spot card on Spoon. Immediately after learning the Spoon response, the children are told on the next trial not to hit on Spoon but to hit the spot every time they hear a word that names something we use in eating (knife, fork, bowl). The strategy developed for the Auditory Association 1st presentation presumably will aid the children in controlling impulsive responses on this auditory task. If they indeed do control such responses on this type of task, then we know they are capable of self-control.

DAY 8

Social #3

Why-Recause #2 introduces more practice developing multiple antecedents to a consequence.

Simon Says

The Simon Says game poses one of the more difficult inhibition tasks at the 5-7 age by asking the child to inhibit motor responses to certain verbal commands and not to others. Thinking out loud is introduced as a strategy to increase the child's response time so he has time to think before acting.

SOCIAL #3 - Why-Because (2) with Dragon Puppet, Dilly

Dilly: (Teacher manipulates and talks for Dilly.) I'M DILLY THE DRAGON.

I CAME TO PLAY THE WHY-BECAUSE GAME. LET ME SHOW YOU HOW TO PLAY.

FIRST I'LL PLAY WITH (PPA's name).

Dilly: (PPA's name), I'M VERY TIRED.

Teacher: WHY?

Dilly: BECAUSE I FORGOT TO TAKE MY NAP.

Dilly: (Facing children) NOW I'M GOING TO PLAY WITH YOU. WHEN I SAY

SOMETHING, YOU ASK, WHY? LET'S TRY IT.

<u>Dilly</u>: I'M VERY HUNGRY. NOW <u>ASK WHY</u>.

Children: Why?

Dilly: VERY GOOD. NOW REMEMBER, ASK WHY EVERY TIME I SAY SOMETHING.

Dilly: I'M VERY HUNGRY.

Children: Why?

Dilly: BECAUSE I HAVEN'T HAD MY LUNCH.

Dilly: I LIKE GOING, TO SCHOOL.

Children: Why?

Dilly: BECAUSE THE CHILDREN ARE MY FRIENDS.

<u>Dilly</u>: I CAN'T SING TODAY.

Children: Why?:

<u>Dilly</u>: <u>BECAUSE</u> MY THROAT HURTS.

Dilly: NOW LET'S CHANGE THE GAME I'M GOING TO ASK YOU WHY AND YOU MAKE

UP THE BECAUSE. NOW LISTEN, I'LL TRY IT WITH PPA's name FIRST.

(Manipulate Dilly as required.)

Dilly: (TO PPA) I AM GOING TO THE STORE. I AM GOING TO WALK. I AM NOT

GOING TO TAKE THE BUS. CAN YOU GUESS WHY I'M GOING TO WARK?

Teacher: BECAUSE YOUR FRIEND IS WALKING TO THE STORE AND YOU WANT TO WALK

WITH YOUR FRIEND.

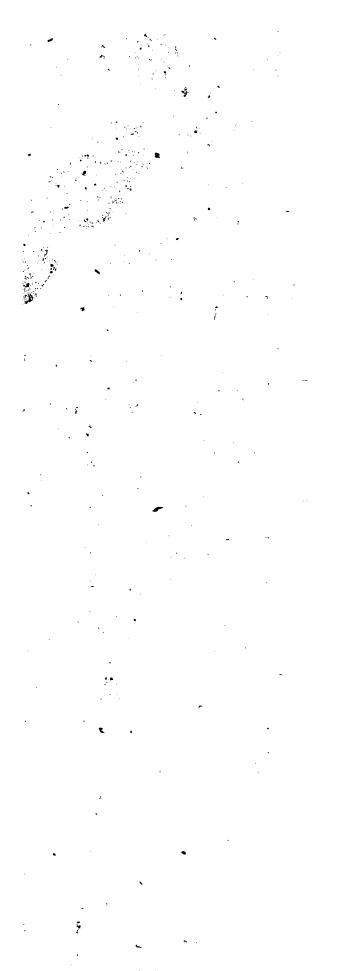

Dilly: MAYBE. CAN YOU THINK OF A DIFFERENT BECAUSE?

•	Teacher:	BECAUSE IT'S A NICE DAY OUT.
	Dilly:	(To children) SEE, THERE IS MORE THAN ONE BECAUSE. NOW LET'S PLAY TOGETHER.

	Dilly:	LET'S PLAY THIS GAME AGAIN. I LIKE BIRTHDAY PARTIES. CAN YOU . GUESS WHY I LIKE BIRTHDAY PARTIES?
	Children:	
	Dilly:	VERY GOOD. MAYBE I LIKE BIRTHDAY PARTIES BECAUSE (repeat child's response). (List and number all of children's responses.) NOW LET'S THINK OF A DIFFERENT BECAUSE. I LIKE BIRTHDAY PARTIES BECAUSE. (let children respond. Supply some of your own responses if children are limited.)

ERIC Pruli Text Provided by ERIC

Teacher:

(To chil' sot selected to play SS, say) SINCE YOU ARE VERY GOOD AT PUZZLES, teacher's name WANTS YOU TO PUT THIS PUZZLE TOGETHER WHILE 1st child AND I PLAY THIS GAME. IF YOU HAVE TIME YOU CAN WORK ON THESE OTHER PUZZLES YOU'VE DONE BEFORE. THEN IT WILL BE YOUR TURN TO PLAY THE GAME. WHAT IS YOUR PLAN FOR PUTTING PUZZLE PIECES TOGETHER?

Child:

Teacher:

- (To SS child) WE ARE GOING TO PLAY A GAME I KNOW YOU HAVE PLAYED BEFORE. BUT I'M, GOING TO CHANGE THE GAME A LITTLE BECAUSE WE'RE GOING TO DO THE SAME THING IN THIS GAME THAT WE'VE DONE TO HELP US ON ALL THE OTHER PROBLEMS. WHAT DO WE DO TO HELP US DO OUR WORK BETTER?

Child:

Teacher:

YES, THINKING OUT LOUD HELPS US DO BETTER. LET'S DO SOME EXERCISES TOGETHER FIRST. (Present Practice Exercises from chart. TOUCH YOUR NOSE, STAMP YOUR FEET, WAVE YOUR HAND, TOUCH YOUR TUMMY, ARMS UP, TOUCH YOUR KNEE, PUT YOUR HANDS ON YOUR HEAD, STEP FORWARD, STEP BACK, TOUCH THE FLOOR.)

Teacher

GOOD. NOW LET'S PLAY THE GAME. WE'RE GOING TO PLAY SIMON SAYS. DO YOU REMEMBER THAT GAME?

Child:

Teacher:

REMEMBER IN THE GAME I'LL DO ALL THE EXERCISES. SOMETIMES YOU ARE TO DO THEM WITH ME AND SOMETIMES YOU ARE NOT. IF I SAY 'SIMON SAYS', YOU DO THEM. IF I DON'T SAY 'SIMON SAYS', YOU DON'T DO THEM. WHEN WILL YOU DO THE EXECUSE?

Child:

Teacher:

GOOD. BUT REMEMBER WHEN WE PLAY THE GAME I WANT YOU TO THINK OUT LOUD. THIS IS HOW WE THINK OUT LOUD WHEN WE PLAY THON SAYS. AFTER I TELL YOU 'SIMON SAYS! DO SOMETHENG, YOU SAY 'SIMON SAYS DO IT', AND THEN DO IT. WHAT WILL YOU AND DO?

Child:

Teacher:

WHEN SIMON DOESN'T TELL YOU TO DO THE EXERCISE, SAY 'SIMON DIDN'T SAY, SO I WON'T' AND THEN DON'T DO IT. WHAT WILL YOU SAY WHEN SIMON DOESN'T TELL YOU TO DO IT?

Child:

. 7

Teacher:

(Be sure child can reproduce phrase 'Simon didn't say, so I won't or an equivalent.), GOOD. LET'S TRY SOME FOR PRACTICE. WHAT WOULD YOU SAY AND DO IF I SAY 'SIMON SAYS CLAP YOUR HANDS'? (Instruction Trials from chart: here the child is required to indicate what he would say and to do it. Prompt with WHAT WOULD YOU SAY? if necessary.)

ERIC

Child:

Teacher:

WHAT WOULD YOU SAY AND DO IF I ONLY SAY 'CLAP YOUR HANDS'?

(The child should say 'Simon didn't say so I won't' and not clap. If he errs, the absence of the "Simon Says" cue is pointed out and the third Instruction Trial is given. Instruction Trials are given only until child performs correctly on a starred (*) trial without help. Correct performance includes verbalizing before acting.)

Child:

Teacher:

GOOD. WHAT WILL YOU SAY AND DO IF SIMON DOESN'T TELL YOU TO DO THE EXERCISE?

Child:

Teacher:

GOOD. YOU'RE FOLLOWING DIRECTIONS VERY WELL. LET'S TRY THE GAME OUR NEW WAY. I'M GOING TO TRY TO MAKE YOU GOOF! LET'S SEE IF THINKING OUT LOUD HELPS YOU. (Present Simon Says, really hamming it up! Record respenses on hand card. Later transfer them to progressive Recording Form on SS Thinking Out Loud.)

Recording:

On each item that the child performs an action, mark a "+".
On each item that a child does not perform an action, mark an "O". Where the child begins to initiate an action, indicate with a check in the Incipient action column. Where the child thinks out loud, indicate with a check in the Verbalize column. To record error score, count "O's" in Performance column and "+'s" and incipient actions in N.P. column.

Alternative: If child refuses to play or responds better when he gives rather than follows directions, allow him to tell you (after your commands) "Simon says to it, so you do it", or "Simon didn't say, so don't do it" or you might play like he's the teacher and you're the student that never learned how to play Simon Says.

Teacher: (Look at other child's puzzle so you can record his performance on Master Sheet. Then switch children.)

DAY 9

Social #4

The Emotional Causality lesson offers more practice determining possible antecedents to a boy's emotion from a picture in a story of Then reading the story shows that even the boy didn't know what caused his anger: he just felt man. The word "scowling" is introduced to describe a mad person.

First-graders are encouraged to begin fading verbalization to a covert level. Fading should be introduced only if the children are using thinking out loud effectively to guide their performance.

The teacher models frustration and anger in response to her own error then models coping with those feelings and finishes the task.

SOCIAL #4 - Emotional Causality (Use Bill Martin's story "David Was Mad" p. 210 from Sounds of a Powwow! and picture pages 216-217.) (Show picture pages 216-217.) HOW IS THIS BOY FEELING? Teacher: (Point to David.) Children: -HOW CAN YOU TELL? THIS BOY MIGHT BE MAD (SAD) BECAUSE _ Teacher: children's responses). Children: HE MIGHT BE MAD (SAD) BECAUSE (repeat children's responses). Teacher: (List and number all responses on back of Daily Evaluation Form.) THE IDEA OF THIS GAME IS TO THINK OF LOTS OF DIFFERENT BECAUSE'S. WHAT'S A DIFFERENT BECAUSE? Children: (Continue in this manner. If the children do not give the idea Teacher: that the other children in the picture might have made him mad (sad) say, MAYBE ONE OF THESE CHILDREN DID SOMETHING TO MAKE HIM FEEL MAD (SAD). LET'S THINK OF LOTS OF DIFFERENT THINGS THEY MIGHT HAVE DONE TO MAKE THE BOY FEEL MAD (SAD). Children: THAT'S ONE THING HE/THEY MIGHT HAVE DONE. HE/THEY MIGHT HAVE Teacher: (repeat child's response) OR HE/THEY MIGHT HAVE Children: NOW WE HAVE TWO THINGS HE/THEY MIGHT HAVE DONE TO MAKE THIS BOY Teacher: MAD (SAD). LET'S THINK OF ALL THE THINGS WE CAN. (Continue as above.) Children: , WHAT IS SOMETHING THIS BOY MIGHT HAVE SAID TO THIS Teacher:

BOY (David) TO MAKE HIM MAD (SAD)?

Teacher:

(Read story to boys. At end, turn back to picture on pages 216-217. Ask, boys if the children did make David mad. Then look at preceding pictures, asking how each person (Grandma, cat, sister, teacher) could tell David was mad, i.e., see, hear, feel. Review word "scowling": IS A SCOWLING PERSON SAD OR MAD?)

PMA - appropriate form for grade level of each child.

Teacher:

(For PMA K-1, ask which child remembers his plan for this kind of problem. One child can act as model while other evaluates completeness of plan.)

2 Teacher:

YOU ARE GETTING BETTER AT THINKING OUT LOUD ON THIS PROBLEM.
AS WE GET BETTER, WE CAN START THINKING MORE QUIETLY TO OURSELVES LIKE A WHISPER. TRY TO THINK QUIETLY - IN A WHISPER - ON THESE
PROBLEMS. (Provide brief whispering model on completed item.
Then allow 1st graders to continue independently. Work at
children's sides on your own material, occasionally muttering to
yourself what it is you're supposed to do.)

Teacner:

(Introduce PMA 2-4 to any 2nd graders, saying) WE HAVE WORKED ON SOME PROBLEMS WHERE WE HAD TO FIND PICTURES THAT LOOK THE SAME OR LOOK DIFFERENT. HERE'S A NEW PROBLEM. WE HAVE TO DRAW A CIRCLE AROUND THE TWO PICTURES IN THIS ROW THAT LOOK JUST ALIKE. I'LL TRY THE FIRST ONE. (S15 - hold a marker under S15 pictures.) YOU BE COPY CATS.

Te**a**cher:

- Q. WHAT AM I SUPPOSED TO DO? #
- A. I'M SUPPOSED TO DRAW A CIRCLE AROUND THE TWO PICTURES IN THIS ROW THAT LOOK JUST ALIKE.*
- Q. WHAT IS MY PLAN FOR THIS KIND OF PROBLEM?*
- A. I'LL LOOK AT EACH PICTURE CAREFULLY.* I'LL LOOK AT ALL FOR PICTURES TO SEE WHICH TWO LOOK EXACTLY ALIKE.* I'LL THINK' OUT LOUD.*

Teacher:

HERE I GO.* (Use marker to expose only first picture in row.) THIS DESIGN IS ALL BLACK ON TOP AND WHITE ON THE BOTTOM.* LET ME LOOK AT THE NEXT DESIGN.* (Reveal second picture in row.) NOPE, THIS ISN'T THE SAME * IT'S BLACK ON THE RIGHT SIDE, NOT ACROSS THE TOP.* OK. KEEP GOING.* I AM SUPPOSED TO FIND THE TWO PICTURES THAT LOOK JUST ALIKE.* (Reveal third picture in row.) THIS ONE'S BLACK ON THE RIGHT SIDE TOO.* IT LOOK JUST LIKE THIS ONE.* (Hold finger on 2nd picture in row.) I'LL HOLD MY FINGERS ON THESE TWO* WHILE I CHECK OUT THE LAST PICTURE.* (Reveal fourth picture in row.) THIS DESIGN IS ALL BLACK IN THE MIDDLE AND WHITE ON THE SIDES.* THIS ONE DOESN'T LOOK LIKE ANY OF THE OTHERS.* SO THESE TWO ARE THE SAME* -- BLACK ON THE RIGHT HALF* AND WHITE ON THE LEFT HALF.* I'LL DRAW A CIRCLE AROUND THESE TWO.*

. Teacher:

Q. HOW DID I DO?*

I WAS REALLY GOOD AT THINKING OUT LOUD* AND I LOOKED CARE-FULLY AT ALL FOUR PICTURES.*

Teacher:

, YOU TRY THINKING OUT LOUD ON THE NEXT ONE. (Reveal S16 row to child.) REMEMBER, YOUR PROBLEM IS TO FIND THE TWO PICTURES IN THE ROW THAT LOOK EXACTLY ALIKE: (Point to cue picture #1 to start child on task.)

Child:

Teacher:

(When child completes S16 ask,) IS TT A GOOD IDEA OR NOT A GOOD 'IDEA TO LOOK AT ALL FOUR PICTURES IN A ROW BEFORE YOU DRAW A

Child:

Teacher:

WHAT MIGHT HAPPEN NEXT IF YOU DON'T CHECK ALL FOUR PICTURES?

Child:

Teacher:

(Expose row S17. To other child, if both are 2nd graders)_ FIND THE TWO ELEPHANTS THAT LOOK JUST ALIKE. (Point to cue picture #1 to start the verbalization process.)

Child:

Teacher:

WE'RE GOOD AT THIS. I'LL TRY THE NEXT ONE. (Expose row 1.) I'M SUPPOSED TO FIND THE TWO PICTURES IN THIS ROW THAT LOOK JUST AL E. I'LL LOOK CAREFULLY AT ALL FOUR PICTURES BEFORE I DRAW TIRCLE. OK.

Teacher: '(Cover all but first picture in row.) THIS PICTURE HAS A BLACK DOOR ON THE LEFT (point to side of picture). IT HAS 1, 2, 3 WHITE TRIANGLES. AT THE TOP OF THE TRIANGLES IT HAS A BLACK STRIPE. THEN A WHITE STRIPE, THEN ANOTHER BLACK STRIPE. OK. I'LL LOOK AT THE NEXT PICTURE. . .

Teacher:

(Reveal second picture in row.) NOPE THIS DOESN'T LOOK THE SAME. THIS BLACK DOOR IS ON THE RIGHT SIDE HERE. LET ME SEE. IT HAS 1, 2 WHITE TRIANGLES. I'M USING MY PLAN: LOOK AT THE NEXT * 60 PICTURE.

Teacher:

(Reveal third picture in row.) THIS ONE HAS TWO WHITE TRIANGLES TOO. LET ME SEE IF THESE TWO ARE THE SAME. (Hold fingers on second and third pictures while comparing.) IT HAS A BLACK. STRIPE, THEN WHITE, THEN BLACK ABOVE THE TRIANGLES. HEY WAIT. THE BLACK DOOR IS ON THE WRONG SIDE. SO THESE TWO ARE NOT EXACTLY ALIKE. I BETTER CHECK OUT THE LAST PICTURE. YEP THESE TWO ARE THE SAME. I'LL DRAW A CIRCLE AROUND THEM. (Mark 3rd and 4th pictures.)

Teacher:

Q. HOW DID I DO?

A. I WAS GOOD AT THINKING OUT LOUD AND REMINDING MYSELF WHAT I HAD TO DO.

(If child catches error, say) I WAS $\underline{\text{NOT}}$ GOOD AT LOOKING CAREFULLY AT ALL $\underline{\text{FOUR}}$ PICTURES.

A. (If child has not caught error, say) I LOOKED CAREFULLY AT ALL FOUR PICTURES. WAIT: (Throw down pencil or cover face - whichever child does in response to difficulty.)
I DID IT WRONG. THIS ONE HAS 3 WHITE TRIANGLES. I WAS NOT GOOD AT LOOKING CAREFULLY. (Pout before regaining calm.) MAYBE I CAN STILL FIND THE TWO THAT LOOK ALIKE. I'LL BE MORE CAREFUL. (Pointing to first picture,) THIS ONE HAS 3 WHITE TRIANGLES LIKE THIS. AND IT HAS A BLACK DOOR ON THE LEFT. BLACK, WHITE, BLACK STRIPES...SO THESE TWO ARE ALIKE.

Teacher:

NOW I FEEL BETTER. I WAS WRONG AT FIRST BECAUSE I DIDN'T USE ALL OF MY PLAN. BUT I WORKED HARDER AND FOUND THE TWO THAT WERE JUST ALIKE. THAT MAKES ME FEEL GOOD.

Teacher:

结

(Allow 2nd graders to continue alone, quietly verbalizing through items 2 and 3 or as far as time permits. Insist on complete verbalizations: the children quickly become more fluent on this task.)

(Note: It works well to follow up the next day, with more PMA.

If a child is fluent on the task and the verbalization,
you soon might introduce individually Raven Children's
Progressive Matrices described under individualized
presentations.)

DAY 10

Social #5

What Might Happen Next? requires the children to develop consequences to a bay stactions in the story Is

Anybody Listening? Then they are guided to develop consequences for pupper children who were not listening when their teacher gave directions to the class.

Mazes

Mazes are often approached by children as a letty perceptual task. Complex mazes, however, cannot be solved if thou; verbal mediation. So we introduce thinking out loud on an elementary trail where the planning aheat strategy necessarily slows down the children. The eyes and finger are trained to scan ahead before allowing the pencil to move.

SOCIAL #5 - What Might Happen Next?

Teacher:	(Read <u>Is Anybody Listening</u> ?, a story by Wayne Carley, 1971, Garrard Publishing Company, asking the following questions in appropriate places:)

I HAVE A NEW PROBLEM FOR US TODAY. WE ARE GOING TO MAKE TRAILS. WHAT IS A TRAIL?

Challecen:

YES, IT IS LIKE A SMALL ROAD WHERE MOTORCYCLES CAN GO OR WHERE PEOPLE CAN HIKE. (Show Adult Trail Making Part A.) THE PROBLEM IS TO DRAW A TRAIL FROM #1 TO #2 TO #3 AND SO ON WITHOUT LIFTING YOUR PENCIL FROM THE PAPER. I'LL TRY THE FIRST ONE. YOU BE COPY CATS.

Teacher:

If children don't catch you, say) OOPS.* I'M SUPPOSED TO KEEP MY PENCIL ON THE PAPER.* THAT'S KIND OF HARD.* I BETTER REMIND MYSELF -- KEEP MY PENCIL ON THE PAPER.* (Holding pencil on paper) OK, NOW WHERE DO I GO?* I'M AT #3 SO I BETTER FIND #4.* YEP.* (From #4 go directly to #6 without planning. When recognize error, feign madness and slam pencil on desk.) I DED IT WRONG.* I DIDN'T PLAN AHEAD.* I CAN'T EVEN DO THIS.* (Pout, in manner typical of boys, then calm yourself.) WELL I JUST WENT TOO FAST.* I KNEW I'D MAKE AMMISTAKE IF I WENT TOO FAST.* IF I SLOW DOWN I CAN DO ALL RIGHT? (Place pencil back at #4.)

A. OK, NOW I'M USING MY PLAN:* LOOKING AHEAD.* THERE'S #5 -THAT'S WHERE I NEWD TO #0 * I FEEL BETTER NOW -- I'M DOING
GOOD.* AFTER 5 COMES 6.* GOOD.* AND THAT'S HOW WE DO THIS
TRAIL. I'LL LET YOU HAVE A TURN NOW. -

Teacher:

- Q. HOW DID I DO?*
- A. I GOT KIND OF MAD, BUT THEN I SLOWED DOWN.* I DID BETTER WHEN I PLANNED AHEAD.* I WASN'T VERY GOOD AT KEEPING MY PENCIL ON THE PAPER.*

Teacher: YOU TRY MAKING A TRAIL. (Hand children Trail Making Part A Sample but turn paper over after brief exposure. Point to cue picture #1

if necessary to initiate verbalizations. If children want to silently verbalize while paper is overturned, that should be sufficient. When mazes become harder, overt verbalizations will be required.)

I'LL GIVE YOU A PICTURE OF A DOG, HIS NAME IS FIDO. HE IS TRYING TO GET ACROSS THE STREET WITHOUT BEING HIP BY A CAR. Teacher's name WANTS YOU TO FIND A TRAIL ACROSS THE STREET FOR HIM. Teacher:

(Show Little Red Riding Hood maze.) NOW IT'S MY TURN. Teacher's name WANTS ME TO GET LITTLE RED RIDING HOOD TO HER GRANDMOTHER'S HOUSE WITHOUT GETTING TRAPPED BY THE WOLF AND WITHOUT STEPPING ON ANY PLANTS, AND I CAN'T LIFT MY PENCIL FROM THE PAPER.

Teacher:

I'VE GOT A NEW PLAN. I WILL LOOK AHEAD WITH MY EYES AND FINGERS TO FIND THE BEST TRAIL FOR HER. I'LL HAVE TO GO SLOW SO I DON'T GET CAUGHT.

Teacher:

(1) THIS IS ONE WAY SHE COULD GO. (Trace with inger into wolf: trap plus along branches off of it.) NOPE, THIS WAY. I LL GET TRAPPED. (2) - (Eye trace south route from Red Riding Hood.) YES, I CAN GO THIS WAY. (Set pencil to paper.) GO SLOW CAUSE I CAN'T STEP ON ANY PLANTS. (Slowly finger trace backwards from house.) I HAVE TO GET TO THE HOUSE, RIGHT? GOOD. I CAN F GO THIS WAY. (Cut through tree leaf in haste.) OH I KNEW THAT WOULD HAPPEN IF I WENT FAST. NOW I MADE A MISTAKE AND I WAS DOING SO GOOD AT PLANNING AHEAD. (Calm self.) I'LL JUST HAVE TO BE MORE CAREFUL. NOW I'M DOING BETTER.

Teacher: →DONE. I WAS GOOD AT PLANNING AHEAD WITH MY FINGER AND EYES. I LEARNED I CAN PLAN FROM THE BEGINNING OR FROM THE END. BUT I'VE GOT TO REMIND MYSELF TO SLOW DOWN. I DON'T LIKE MYSELF WHEN I GO TOO FAST.

Teacher:

(Hand children Puddle maze.) YOU ARE SUPPOSED TO GET MARTHA TO SCHOOL WITHOUT STEPPING IN ANY PUDDLES. DON'T LIFT YOUR PENCILS FROM THE PAPER. IS IT A GOOD IDEA TO PLAN AHEAD FROM THE BEGINNING OR THE END?

Find a path to Grandmother's. Do not step on any plants.

DAY-11

Social #6

Is It a Good Idea? requires the children to judge the appropriateness of a pictured action. They are asked to think of alternative responses to inappropriate actions.

One child is given problems to work on independently. The teacher can evaluate if the child can stay on task while working alone and if he thinks out loud on familiar problems.

DAY 12

Inductive Reasoning

Inductive Reasoning is a complex auditory task requiring the children to think quietly to review the problem and to consider many alternatives before represented sponding. If they react too quickly they may overfook a distinguishing clue. More plusive clues are presented as the children become adept at recalling and working with a string of clues. This task might be considered a sophisticated following directions task. How far have the children come since Day 1?

A partner maze introduces the competition and the elements so common in classroom work. Dealling with contingent frustration or pride provides a good spuntantial social situation.

INDUCTIVE REASONING

Teacher: LET'S PUT ON OUR DETECTIVE HATS TODAY. (Pretend to put on

hat.) WHAT DOES A DETECTIVE DO?

Children: _____

Teacher:

YES, A DETECTIVE TRIES TO FIND CLUES SO HE CAN SOLVE ANTOBLEM.

Teacher's name GAVE US THREE CLUES AND SHE WANTS US TO COLVE

THE PROBLEM. LET ME SHOW YOU HOW A DETECTIVE WOULD SOLVE IT.

DON'T HELP ME AND I'LL TRY TO SOLVE IT MYSELF. Teacher's name

WANTS TO KNOW WHAT IS ROUND, WHITE AND COLD?

Teacher:

- Q. OK, WHAT IS MY PROBLEM?
- A. I HAVE TO FIGURE OUT WHAT IS ROUND, WHITE AND
- Q. HOW CAN I DO IT?
- A. L'LL HAVE TO FIGURE OUT SOME THINGS THAT ARE ROUND OF U.S. OR COLD. I'LL PROVE MY ANSWER FIES ALL THREE.

Teacher:

WHAT COULD IT BE? A BALL IS ROUND AND COULD BE WHITE BUT ISN'T COLD USUALLY. T'S PROBABLY NOT A BALL. A PLATE COULD BE WHITE, BUT USUALLY ISN'T COLD. MY FEW ISN'T WORKING, BECAUSE SOME OF THE CLUES AREN'T ALWAYS DOLE LET ME TRY TO THINK OF WHAT IS WHITE AND COLD FIRST, MAYER WILL BE EASIER. SNOW IS WHITE AND COLD, BUT IT ISN'T WOUND. HEY WAIT IF YOU PACK SNOW INTO A SNOWBALL IT'S WHITE, OUND AND WHITE AND COLD.

Teacher

THENKING OUT LOUD REALLY HELPED ME: I DIDN'T TAKE ANY WRONG GUESSES, I DID A HARD PROBLEM. THAT MAKES ME FEEL GOOD.

Teacher'

OK YOU TAKE TORNS BEING THE DETECTIVE. GIVE YOU teacher's THREE CLUES AND YOU THINK OUT LOUD CURE OUT JUST WHAT SHE'S THINKING OF. HOW CAN WESTED OUT IF HE WANTS OUR HELP?

Child:

Teacher:

OK MA DETECTIVE WHAT IS BROWN, IS TO OF PAPER AND IS USED TO CARRY GROCERIES? WHAT'S THE FIRST ONESTION YOU ASK YOURSELF? (Point to coe picture #1 to initiate versalizations. Do not require includion of cue question #2.)

Cha Ld:

Teaches:

(Move about list of Inductive Reasoning problems as seems appropriate by children's levels. Record responses using child's initials on recording form under Day 1 presentation. Required their responses. Ask other children if they accept the answer.

If child errs, inquire about his response in terms of the clue it does not fit.)

Teacher: ARE WE GOOD DETECTIVES?

Children:

Teacher: HOW DOES THAT MAKE YOU FEEL?

Children:

Teacher: WE'LL TRY MORE OF THESE ON ANOTHER DAY

Teacher: WHOSE TURN IS IT TO BE THE GOOD LISTENER TODAY?

Children:

Teacher:

(To other child,) YOU MAY WORK AT YOUR OWN TABLE TODAY. CHOOSE A PROBLEM FROM THE DETECTIVE FOLDER OR THE TRAIL FOLDER. WHAT TWO PICTURES ONLY SHOULD YOU COLOR IF YOU CHOOSE A DETECTIVE

PROBLEM?

Child:

GOOD. DO YOU HAVE A PLAN FOR FINDING A TRAIL? (Provide colored Teacher:

pencils - no erasers at work table.)

Child:

(To "Listening" child, present same COAT, LOOK sequence from Teacher:

Day 11.)

Child: ₹n 🛫

Teacher:

(Bring children back together for) Partner Maze, 'Who Will Get to Mars First?".) THE LAST THING TODAY IS A MAZE YOU WILL DO TOGETHER. A MAZE IS THE SAME KIND OF PROBLEM AS A TRAIL. (Give Thoys maze copies.) AT BLAST OFF EACH OF YOU MUST GUIDE YOUR

ROCKET BETWEEN THE STARS TO GET TO MARS. IF YOU BUMP INTO A STAR YOU MUST GO BACK AND START AGAIN. (Turn papers over and wait

for pre-verbalization.)

Children:

Note: Record on Master Sheet tasks independent child completes.

DAY 1.3

Social #7

The Fairness lesson requires the children to evaluate the justice of an act in a pictured situation and to develop alternatives for unfair acts.

We try to elicit in these small sessions behaviors similar to those that occur in a crowded classroom.

Offering a puppet to one child will undoubtedly provoke a negative response from the other child. This negative behavior can be handled using the standard social phrases:

"Would it be fair...," "How do you make us feel...," "Is it a good idea...," "What's a different thing you could do...," or "What might happen next?".

SOCIAL #7 - Fairness (Use mounted Rosenzweig P-F pictures and Dragon & Wolf puppets.) . *

TODAY WE ARE GOING TO TALK, ABOUT FAIRNESS. LET'S LOOK AT THIS Teacher: PICTURE. (Show RPF #1 scotter.) THIS BOY TOOK THE GIRL'S SCOOTER AWAY FROM HER. WAS THAT A FAIR THING FOR HIM TO DO? Children: Teacher: WHY NOT? Children: WHAT IS THE PROBLEM? WHAT DOES THE BOY WANT TO DO? Teacher: Children: WHAT COULD HE SAY OR DO THAT WOULD BE FAIR SO HE CAN RIDE THE Teacher: SCOOTER? Children: Teacher: WHY WOULD THAT BE FAIR? Children: Teacher: HOW DOES THE GIRL FEEL, (least verbal child)? Child: Teacher: IS THAT FAIR? Child: LET'S PRETEND THAT The child's name HAS WALLY (hand Wolf puppet Teacher: to less demanding child. This action will no doubt provoke a spontaneous social situation that should be dealt with.) AND

I HAVE DILLY. YOU HAVE THIS TOY WHAT DILLY WANTS. SO DILLY GRABS IT.: (Use Dilly to grab at Wally.) IS THAT FAIR?

Since aggressive boys deal impulsivel in impersonal cognitive tasks, we would expect winterperson it problem situations to be even more provocative of tendencies to: do the first thing that comes to mind. Shure and Spivack, have shown that aggressive children may also be deficient in the ability to think of alternative ways of responding. Thus even if they refrain from reacting impulsively, their "repertoire, of possible solutions may still imit wheir ability to respond in a socially appropriate fashion. Previous social lessons have directed attention to the kinds of things people consider in evaluating interpersonal struations, (e.g. feelings, fairness, consequences), The following social problems from Shure and Spanack are designed to help the child to expand his repertoire of ways to cape with common interpersonal situations, to consider several possible consequences to each solution, and finally to evaluate the appropriateness of each solution though considering the desirability of its consequences.

As with the impersonal problems, each of the social problems is presented in the "Think Aloud" framework of the importance of developing several ideas at each step, several lessons deal only with developing solutions and several deal only with consequences became the two are combined.

We suggest that a set of three or four problems be presented each week in combination with the more distinct combitive tasks. You may determine which cognitive tasks to include, based on each child's needs. The children are more responsive to the social situations if they alternately presented at the beginning of the day is less and at the latter part of a day.

SOLUTIONS SET

Social 18; #9 #10 and #11 are all part of a Solutions

Set. The intent of the Set is to elicit multiple solutions

for each social problem. All solutuions that focus on the

given problem are accepted without evaluation. Each solution

is acknowledged as "an deal" Record each "idea". Social
cue pictures of response categories - ask, tell someone,

give, trad trick, hurt, share, wait - are introduced to

stimulate image recall of response repertory.

Drivene social problem should be presented per day.

The complete dialogue prescribed for Social #8 and #9 should be prefalized to problems #10 and #11.

CONSEQUENCES .SET

Set. The intent of this Set is to extend the Solutions Set to include prediction of possible consequences to proposed solutions to a problem.

A re-exploration of people's feelings precedes the first consequence problem. Then the children are again taked for multiple solutions to a given problem. At the teacher's discretion, a child is asked to name consequences to a solution he offered. It is recommended that the teacher not seek consequences for more than two solutions per social problem. Record each solution and consequence.

The complete dialogue prescribed for Social #12 should be generalized to problems #13, #14, and #15.

RECOMMENDED CONSEQUENCES SET:

Social Problem #12 - Mickey wants to play with Lucy and child, so he pushes Lucy.

Social Problem #13 - Boy wants Sister/Brother to look at his toy truck; but she/he is watching televis

Social Problem #15 - Your friend chases you in the hall, but running in the halls is against the rules

A minimum of three Consequences problems should be presented to the children.

SOLUTIONS-CONSEQUENCES PAIRING SET

The pairing of each solution with one consequence proceeds through each social problem with the children responsible for independently weighing alternatives.

The complete dialogue prescribed for Social #16 should be generalized to problems #17, #18 and #19.

RECOMMENDED SOLUTIONS-CONSEQUENCES PAIRING SET

Social Problem #16 - In gym you get the old bean bag

Social Problem #17 - Boy tries to cut in line in front of you at the drinking fountain.

Social Problem #18 - Girl grabs your friend's paper;

he tells you to get it back.

Social Problem #19 - Friend is talking when teacher gives directions for math paper.

OR

- Teacher asks a student to pass out workbooks, but he doesn't do it when she asks.

A minimum of three Solutions-Consequences problems should be presented to the child.

UNSCHEDULED MATERIALS

These materials can be used to best advantage in individual presentations. After the first ten days of training, if one child is absent the other child could be introduced to any of the following materials. On other days while one child works independently from the Trails or Detective folders, the teacher can present any-of these tasks to the other child. In fact, a setting where one child is working closely with the teacher often provides the conditions for using The Cooperation Dialogue.

For Mazes, Stencils, and Raven tasks present to each child only those items of appropriate difficulty on which he can effectively use his Think Aloud strategies. Accuracy is secondary to his choice and use of an appropriate solution method.

THINK ALOUD MAZES - First day presentation

(Only colored pencils without erasers should be available to the children.)

Teacher:

WE HAVE WORKED ON TRAILS WHEN WE CONNECTED NUMBERS AND WHEN WE LOOKED AT PICTURES. (Show examples of previously completed mazes as from Day 10 lesson.) TODAY WE HAVE A NEW TRAIL PROBLEM. (Show TA Maze 1.). I NEED TO GET THIS MOUSE TO THE CHEESE DOWN HERE (point to exit) WITHOUT LIFTING MY PENCIL FROM THE PAPER.

Teacher:

Q. WHAT'S MY PLAN?

A. WHEN I DO A TRAIL, THE PLAN THAT WORKS IS TO PLAN AHEAD WITH MY EYES AND MY FINGER. ON THIS TRAIL I'LL LOOK FOR OPEN DOORS. I CAN'T GO THROUGH ANY WALLS, AND I CAN'T LIFT MY PENCIL FROM THE PAPER.

Téacher:

OK. (Hold pencil beside paper,) (1) BOTH OF THESE DOORS ARE OPEN, BUT I'D GET STUCK IF I WENT THIS WAY (trace with finger to dead end). (Pencil in correct path to (2).), NOW WHICH WAY? Teacher:

(Where you feel you have reached a difficult level for a child, do the maze. Be a frustrated model and ask for children's help in planning ahead. Model short-distance-planning so children do not lose sight of what their planning showed them. Dramatize stopping outside maze "door ways" before turning down a "hall". On more difficult mazes, ask if planning from the end might help on hard problems.)

(Note: TA Mazes which you model and those that children do not perform perfectly on should be reintroduced as appropriate.)

In modeling procedure, stop at each numbered doorway to consider options.

Teacher: (Allow child to try A_B 5 and 6 independently. Help only with verbalizations, not with solution. Accept child's responses.)

Suggestions: Model #9. Choose an incorrect response of #10 or #11 mif child correctly responds so that he must defend his answer. Attempt #12 together if you believe it appropriate: #12 is extremely difficult.

*(Note: Child should be able to attempt items in Section B with little prompting. Proceed as far as you see fit but accept whatever answers child offers.)

STENCIL DESIGN - First day presentation

Teacher:

(Begin laying out 18 colored stencils.) <u>Teacher's name</u> GAVE US A NEW PROBLEM. YOU ARE VERY GOOD AT PUZZLES AND THIS PROBLEM IS A LOT LIKE A PUZZLE. WE NEED TO MAKE DESIGNS BY COMBINING JUST THE RIGHT CARDS FROM HERE. LET ME SHOW YOU HOW IT WORKS. YOU BE COPY CATS SO YOU LEARN A PLAN FOR SOLVING THIS PROBLEM.

Teacher: (Showi

(Showing design card #3.)

- Q. WHAT IS MY PROBLEM?*
- A. I HAVE TO PUT THE CARDS TOGETHER THAT WILL MAKE A DESIGN THAT LOOKS JUST LIKE THIS *
- Q. WHAT'S MY PLAN?*
- A. I'LL LOOK AT COLOR AND SHAPE.* FIRST I'LL PICK ALL THE CARDS OF THE COLORS I NEED.* LET ME SEE. (Pointing to respective colors on design card.) I NEED BLACK AND WHITE.* (Begin gathering all black solid and stencil cards and then white ones, stockpiling them in front of you. Use both hands to gather cards.) I'VE GOT THE RIGHT COLORS.*

Teacher: Q. AM I USING MY PLAN?

YES. I LOOKED AT THE COLOR.* NOW I'M LOOKING AT THE Α. SHAPES.* (Sort through white cards.) I DON'T NEED A CIRCLE SHAPE.* I CAN PUT THIS CARD BACK.* (Replace card in any position among the unused stencil cards.). I DON'T NEED A DIAMOND SHAPE EITHER.* (Replace it among unused stencil cards.) A WHITE SQUARE?* NOPE. (Replace it.) I GUESS THIS PLAIN WHITE ONE IS THE ONE I NEED.* IT'S THE ONLY ONE LEFT. * (Sort through black stencil cards. Place solid black card on top of selected white card.) IF I USED THIS BLACK CARD, YOU COULDN'T SEE ANY WHITE. * (Replace black . card.) I THINK I NEED THIS BLACK SQUARE.* IT LOOKS LIKE THE EDGE OF THE DESIGN.* (Place on top of solid white card.) THIS IS KIND OF FUN.* I'M LOOKING AT ALL THE CARDS.* (Take correct black stencil.) YEAH, THIS ONE HAS AN X IN THE MIDDLE.* (Place on top of black square/solid white sequence.) YEAH, I DID WHAT I WAS SUPPOSED TO.* I MADE THIS DESIGN.* (Comparing two designs,) NO, MY TRIANGLES ARE BLACK, BUT THESE ARE WHITE. * OH NO, I MADE A MISTAKE. * I BETTER TRY SOMETHING DIFFERENT.* (Try last black stencil,) NO THIS HAS A PLUS SIGN.* THAT'S NOT RIGHT.* (Replace it among other unused stencils.) WHAT AM I DOING WRONG?* (Remove black square.) OH NOW I GOT IT.* I ONLY NEEDED TWO CARDS.*

Teacher: Q. HOW DID I DO?*

A. MY PLAN WORKED.* I GOT ALL THE BLACK AND WHITE CARDS TOGETHER.*

*Indicates statement children should copy.

. THEN I PICKED THE SHAPES I NEEDED.* I WORKED HARD.* I PUT.
TWO TOGETHER JUST RIGHT SO THEY MADE THIS DESIGN.* Teacher's
name WILL BE HAPPY.*

Teacher:

(Replace all cards from your problem and present Sample Design to one child and #2 to other child.) YOUR TURN. YOU PUT THE CARDS TOGETHER THAT WILL MAKE A DESIGN JUST LIKE THIS. (Prompt for questions #1 and #2. Remind children of plan to look at colors and shapes, if necessary.)

Children:

Teacher:

(If time, allow each child to do 2 stencils by himself while thinking out loud: Record results on Stencil Design Recording Form.)

STENCIL DESIGN - Second day presentation

Reacher:	(Laying out stencil cards.) REMEMBER THIS PUZZLE PROBLEM AND YOUR PLAN?
Children:	
Teacher:	(Show 2A Stencil Design to one child.) PUT THE CARDS TOGETHER THAT WILE TAKE A DESIGN THAT LOOKS JUST LIKE THIS. (Prompt for perbalizations.)
Child:	
Teacher:	(To other child,) YOU BE THE JUDGE. SEE IF HE USE, HIS PLAN.
Child:	
Teacher:	(Show 2B Stencil Design to 2nd child.) YOU TRY THIS ONE.
'Child:	
Teacher:	NOW IT'S MY TURN. (Show design card 44.)
	Q. WHAT IS MY PROBLEM?
	A. I HAVE TO FIND THE CARDS THAT WILL GO TOGETHER TO MAKE A DESIGN THAT LOOKS LIKE THIS.
Echer:	Q. WHAT'S MY PLAN?
	A. I'LL GET ALL THE WHITES, BLUES, AND REDS. (Stockpile cards in front of you.) NOW WHAT SHAPES DO I NEED?
Teacher:	LET ME THINK. I'M FIGURING OUT A NEW PLAN FOR THIS HARDER PROBLEM. (To children,) WHAT COLOR IS IN THE MIDDLE OF THIS DESIGN? (Hold finger in middle.)
Child r en:	
Teacher:	YES, IT IS WHITE. SO A WHITE CARD WILL BE ON THE BOTTOM. (Sorting through white cards.) NONE OF THESE HAVE ANY COLOR INSTHE MIDDLE. I NEED WHITE RIGHT IN THE MIDDLE. I GUESS I WEED THIS CARD ON THE BOTTOM. (Select solid white card and replace others among unused stencils.) (To children,) IS THE COLOR IN THE MIDDLE GOING TO BE THE TOP CARD OR THE BOTTOM CARD?
Children:	
Teacher:	YES. IT IS THE BOTTOM CARD. AND THE NEXT COLOR ON THE DESIGN WILL BE THE NEXT CARD. (To children,) WHAT IS THE NEXT COLOR IN THE DESIGN?
Children:	
ourraren:	-

OK, I HAVE TWO BLUE CARDS TO CHOOSE FROM. (Select solid blue Teacher: and place on top of selected white card.) IF I PUT ATHIS CARD ON TOP, I CAN'T SEE THE WHITE. THIS CAN'T BE IT. (Replace solid blue and try correct blue stencil on top of selected white.) YES. THAT'S RIGHT. THIS BLUE CARD MAKES A WHITE X LIKE ON THE DESIGN. (To children,) NOW WHAT'S THE NEXT COLOR I NEED? Children: Teacher: YES. I'M REMEMBERING MY NEW PLAN. THE COLOR IN THE MIDDLE IS THE BOTTOM CARD. NOW RED IS ON THE OUTSIDE OF THE DESIGN (point to edge of card). (To children,) WILL RED BE THE TOP OR BOTTOM CARD? Children: Teacher: YES, THE COLOR ON THE OUTSIDE WILL BE THE TOP CARD. WHICH CARD WILL THE OUTSIDE COLOR BE? Children: WHICH CARD WILL THE MIDDLE COLOR BE? (Point to white.) Teacher: Children: Teacher: OK. A RED CARD WILL BE ON TOP. (Trying solid red card.) THIS CAN'T BE IT. THE BLUE AND WHITE WOULDN'T SHOW. (Looking at other non-correct red stencil but without trying it.) THIS SURE IS NOT THE RIGHT SHAPE. I DON'T NEED A PLUS FOR THIS DESIGN. (Picking up octagonal red stencil.) THIS HAS TO BE IT. IT IS JUST THE RIGHT SHAPE. Teacher: HOW DID I DO? Q. I THOUGHT OF A REALLY GOOD PLAN FOR THESE HARD PROBLEMS. I GOT THE COLORS I NEEDED. THEN I LOOKED AT THE SHAPES. THEN I FIGURED OUT THE MIDDLE COLOR IS THE BOTTOM CARD AND (looking at child) WHICH CARD IS THE OUTSIDE COLOR? Children: YES. SO WE'VE GOT TWO REALLY GOOD PLANS FOR DOING THESE PROBLEMS. Teacher: NOW YOU TRY ONE. (Give each child 3-card design, #5 and #3A.) I WONDER IF YOU CAN REMEMBER MY NEW PLAN. Children: Teacher: (After children gather all colors of cards they need, ask) NOW WHATE IS THE PLAN THAT WILL HELP YOU KNOW WHICH COLOR GOES ON THE BOTTOM? Children:

Teacher: WHICH COLOR SHOULD YOU LOOK FOR FIRST?

ERIC Full Text Provided by ERIC

Children:		
Teacher:	(After children have completed task,) WHICH CARD WILL THOUTSIDE COLOR BE?	Æ
Children:		
Teacher:	HOW DID WE DO ON THESE PROBLEMS?	
Children:		
Teacher:	HOW DOES THAT MAKE YOU FEEL?	

STENCIL DESIGN - Third day presentation

Teacher:	WE FIGURED OUT TWO PLANS FOR SOLVING THESE PROBLEMS. WHICH PLAN CAN YOU REMEMBER,?
Child:	
Teacher:	(To other child,) CAN YOU REMEMBER THE OTHER PLAN?
· Child:	
Teacher:	(Show design #6.) LET'S MAKE THIS DESIGN TOGETHER. WHAT ARE WE SUPPOSED TO DO?
·Children:	
Teacher:	(Begin gathering white, blue, and red cards. Children will probably help.) NOW LET'S USE PLAN 2. WHAT COLOR IS IN THE
, v 📻	MIDDLE ON THIS DESIGN?
.Children:	
Teacher: ,.	YOU PICK THE WHITE CARD THAT GOES ON THE BOTTOM. (If necessary use Cooperation Strategy.)
Children;	
Teacher:	THE NEXT COLOR AFTER WHITE ISLET'S CHECK THE BLUES. (Children will probably begin to take over, and your verbalizations can fade.)
Children:	
•	(After' red card is placed, say) WE ARE REALLY WORKING HARD. OUR PLAN IS HELPING US ON THIS HARD PROBLEM. NOW WHAT COLOR GOES ON THE TOP? (Begin identifying shapes of white cards until square shape is located.) HERE IS THE WHITE ONE. (Place it on top.) WAIT. THAT DOESN'T LOOK QUITE THE SAME. (Twist square around to diamond position.) THAT LOOKS RIGHT BUT THE EDGES DON'T MATCH. (Leave shite stencils spread out so children can see correct one.) NOW WE'VE GOT IT.
Teacher:	HOW DID WE DO?
Children:	
Teacher:	OUR PLANS REALLY WORK. NOW YOU TRY SOME BY YOURSELVES. CAN THINKING OUT LOUD HELP YOU ON THE HARD DESIGNS?
Children:	
Teacher:	(Give each child a design.)
Children:	· · · · · · · · · · · · · · · · · · ·
	YOU ARE GETTING VERY GOOD AT USING THE PLANS. (Hand each child another design card.)
(Note:	On succeeding days, allow children to work on designs at their own pace and level. No more modeling should be necessary. Working together on hard designs will be beneficial.)

AUDITORY INCONGRUITIES - First day presentation SOME WORDS GO TOGETHER AND MAKE SENSE. OTHER WORDS DON'T MAKE Teacher: 🤈 SENSE TOGETHER. LET'S SEE SOME WORDS THAT DO GO TOGETHER. DO DOGS EAT? Child: YES, THOSE WORDS MAKE SENSE TOGETHER. DO DOGS RUN? Teacher: Child: YES, THEY GO TOGETHER AND MAKE SENSE. DO DOGS READ? Teacher: Child: Teacher: NO, DOGS CAN'T READ. THOSE WORDS DON'T MAKE SENSE. LET'S DO IT A DIFFERENT WAY. I'M GOING TO SHOW YOU A PICTURE. THEN I'LL SAY THREE WORDS. YOU COPY THE THREE WORDS: THEN TELL ME THE ONE THAT DOES NOT MAKE SENSE WITH THE PICTURE, WHAT TWO THINGS ARE YOU SUPPOSED TO DO? Child: WHAT'S YOUR PLAN? (See if child can offer "I'll listen care-Teacher: fully", as this is an auditory task, If mable to offer plan, ask WOULD IT BE A GOOD IDEA OR NOT A GOOD IDEA TO TALK WHILE I SAY THE WORDS? ____ WHY?) Child: HERE WE GO. (Show picture of dog.) EAT, READ, RUN. (If child Teacher: doesn't repeat words immediately, say) SAY THE WORDS. Child: WHICH WORD DOESN'T MAKE SENSE WITH THIS PICTURE? Teacher: Child: (Record child's response on Auditory Incongruities Recording . Teacher: Form.) LET'S PROVE IT. DOES A DOG EAT? Child: DOES A DOG READ? Teacher:

HOW DID YOU DO?

LET'S TRY SOME MORE. THIS TIME I WON'T SHOW YOU A PICTURE. INSTEAD I'LL SAY A WORD AND YOU MAKE A PICTURE IN YOUR HEAD. AM I GOING TO SHOW, YOU A.PICTURE THIS TIME? Child: Teacher: AFTER YOU GET A PICTURE IN YOUR HEAD OF MY WORD, I'LL SAY TWO MORE WORDS. YOU COPY THE WORDS AND THEN TELL ME WHICH ONE DOES NOT MAKE SENSE. (Wait for pre-verbalization.) Child: Teacher: LET'S'TRY IT. CHAIR - HAVE A PICTURE OF A CHAIR IN YOUR MIND? Child: SIT, -. DRESS (Record all of child's responses on Auditory Te**a**cher: Incongruities Recording Form.) Child: LET'S PROVE IT. CAN A CHAIR SIT? OR CAN WE SIT ON A CHAIR? Teacher: Child: Te**a**cher: CAN A CHAIR WEAR A DRESS? Child: Teacher: SO WE PROVED IT. A DRESS DOESN'T MAKE SENSE WITH CHAIR - THOSE TWO WORDS DON'T GO TOGETHER. READY FOR SOME MORE? Jhild: Teacher: BELL: (Pause.) GET A PICTURE IN YOUR HEAD. Child: Teacher: RING - LAUGH. Child: (Require child to complete task including proving answer before Teacher: giving next item.) HAIR - WHAT PICTURE DO YOU HAVE IN YOUR HEAD? Child: SEE - CURL. (Require child to complete task.) Teacher: Child: CLOTHES. (Pause.) WEAR - WALK. Teacher: Child:

TIME TO GET A PICTURE OF IT IN YOUR MIND. THEN I'LL SAY THREE WORDS. YOU COPY THE THREE WORDS AND TELL ME WHICH ONE DOES NOT MAKE SENSE. THEN PROVE IT. (Look at child for preliminary verbalizations, prompting as required.) Child: CORN - GOT THE PICTURE? Teacher: Child: EAT - RUN - GROW . Teacher: Child: BOTTLE. (Pause.) (Point to cue-picture #4.) Teacker: Child: Teacher: - WE'LL TRY MORE OF THESE ON ANOTHER DAY.

LET'S TRY SOME HARDER ONES. I'LL SAY A WORD AND I'LL GIVE YOU

Teacher:

AUDITORY INCONGRUITIES - Further presentations

Teacher:

YESTERDAY/ON ANOTHER DAY I ASKED YOU TO BE A GOOD LISTENER I SAID A WORD THAT YOU MADE INTO A PICTURE IN YOUR HEAD.
THEN WHAT HAPPENED NEXT?

Child:

Teacher:

(If child can't recall, say) NEXT I SAID TWO OR THREE WORDS THAT YOU COPIED. THEN YOU TOLD ME WHICH WORD DID NOT MAKE SENSE WITH THE WORD YOU HAD IN YOUR HEAD. LET'S TRY SOME TODAY. WHAT ARE YOU SUPPOSED TO DO?

Child:

Teacher:

WHAT IS YOUR PLAN? (Help child arrive at a plan to quietely remind himself to give the word that does not make sense. You might compare this reminder to that in Auditory Association task.)

Child:

Teacher:

(Present item components level of difficulty. Pause as necessary to be in hild is attempting to create visual image. Give words at 1 second intervals. Require child to copy words to do not require him to prove items at difficult level. At their levels, children often offer two words as incongruous. Help them arrive at a plan for selecting the word they know doesn't make sense, even though they do not know the meaning of another word. Remind them that the problem is to give the word that does not make sense with the picture. Present as many items as the child can handle on one occasion. For next presentation repeat any items he missed previously and proceed from there. Record second attempts on Recording Form.)

(Note: Some children rebel against always doing what you ask and enjoy the opportunity to do the directing. Therefore, where appropriate, ask child if he would like to try to make up some questions like these, and you solve the items he gives.)

AUDITORY INHIBITION - whole task should be completed at one sitting. ON OTHER DAYS WE HAVE LISTENED TO WORDS THAT SOUND A LITTLE Teacher: ALIKE AND YOU HAD TO HIT THE SPOT WHEN YOU HEARD ONE WORD. REMEMBER? Children: Step One TODAY WE'LL LISTEN TO WORDS AGAIN BUT THE GAME IS A LITTLE Teacher: DIFFERENT. THIS TIME I'LL SAY FOUR WORDS, THEN I'LL PAUSE; I'LL BE QUIET. IF YOU HEARD THE WORD BALL, HIT THE SPOT WHEN I PAUSE. WHAT ARE YOU SUPPOSED TO DO? Children: REMEMBER, LISTEN TO ALL FOUR WORDS FIRST. WHEN I STOP TALKING Teacher: IF YOU HEARD THE WORD BALL HIT THE SPOT ONCE. ARE YOU GOING TO HIT THE SPOT RIGHT WHEN YOU HEAR THE WORD BALL? Children: WHEN WILL YOU HIT THE SPOT? Teacher: Children: DO YOU HAVE A PLAN? (If not, encourage children to determine Teacher: a plan.) Children: IS IT A GOOD IDEA TO HIT THE SPOT REAL HARD? Teacher: Children: WHAT'S A DIFFERENT WAY YOU COULD STRIKE THE SPOT? Teacher: Children: Teacher: ___T'S TRY SOME FOR PRACTICE. RAT COME BALL ASK. Children: Teacher: & (Record children's performances on Auditory Inhibition Recording Form.) HOW DID YOU DO? DID YOUR PLAN WORK? Children:

Teacher:

I DO. (Repeat words *) DID WE SAY THE WORD BALL?

IF YOU HEAR THE WORD BALL, WHAT ARE YOU SUPPOSED TO DO?

WHAT DO YOU NEED TO REMIND YOURSELF?

(If child failed to hit spot during pause, say I'LL SAY THE

WORDS AGAIN AND YOU COPY THE WORDS - YOU SAY THE WORDS AFTER

Teacher:	LET'S TRY ANOTHER ONE. HAT ROLL PLANT SAW. (Continue in order through Step One items on Auditory Inhibition Recording Form.)
Children:	
	Step Two
Teacher:	NOW WE'LL CHANGE THE GAME A LITTLE. AGAIN I'LL SAY FOUR WORDS AND THEN PAUSE. THIS TIME YOU SHOULD LISTEN FOR A COLOR NAME. WHAT KIND OF WORD SHOULD YOU LISTEN FOR?
Children:	
Teacher:	IF YOU HEARD A COLOR NAME, HIT THE SPOT WHEN I PAUSE. WILL YOU HIT THE SPOT RIGHT WHEN YOU HEAR A COLOR NAME?
Children:	
Teacher:	WHAT IS YOUR PROBLEM?
Children:	
Teacher:	(Point to cue-picture #2 to elicit plan.) ARE YOU THINKING OF SOME WORDS YOU MIGHT HIT ON?
Children:	
Teacher:	(Pause so perhaps children will flash color names through their minds.) HERE WE GO. ANGEL DOT BROWN DRY.
Children:	
Teacher:	(Record responses under Step Two items on Recording Form: Continue through Step Two items. If a child begins to err, point to cue-picture #3 to elicit reminders to task. At conclusion of task, look to children for self-evaluation.)
	Step Three
Teacher:	NOW WE'LL CHANGE THE GAME AGAIN. I WILL STILL SAY FOUR WORDS. IF ONE OF THE WORDS IS BALL ALONE, DO NOT HIT THE SPOT. IF ONE OF THE WORDS IS A COLOR NAME ALONE, DO NOT HIT THE SPOT. IF I SAY THE WORD BALL AND A COLOR, DO HIT THE SPOT. WHEN WILL YOU
٠.	HIT THE SPOT?
Children:	
Teacher:	SHOULD YOU HIT THE SPOT IF YOU HEAR A COLOR NAME ONLY?
Children	
Teacher:	I'LL TRY A COUPLE TO SEE HOW IT WORKS.

- Q. WHAT'S MY PROBLEM?
- A. I'M SUPPOSED TO HIT THE SPOT IF I HEAR BOTH THE WORD BALL AND A COLOR NAME.

Teacher: Q. WHAT'S MY PLAN?

A. I'LL LISTEN TO ALL FOUR WORDS AND I'LL REMIND MYSELF TO LISTEN FOR BALL AND A COLOR. - BOTH.

Teacher: (Play tape recorded WATCH CUT BROWN BEACH. Modeling instructions: shake head on each non-ball, non-color, reminding yourself with whispered cue words - BALL, COLOR. When hearing color, whisper, OK THERE'S A COLOR. AFTER ALL FOUR WORDS, I'M NOT SUPPOSED TO HIT ON ONLY A COLOR; HAVE TO HEAR BALL TOO. I ONLY HEARD BROWN, SO I WON'T HIT.)

Teacher: Q. HOW DID I DO?

A. I REALLY THOUGHT QUIETLY SO I WOULDN'T MAKE A MISTAKE. I LISTENED CAREFULLY TO ALL THE WORDS. I WAITED FOR BALL, BUT I DIDN'T HEAR BALL SO I COULD NOT HIT.

Teacher: (Play ACT BALL BRIGHT PURPLE. Follow same modeling procedures. When you hear ball say OK. I HEARD BALL; NOW A COLOR. Shake head no on "bright" then repeat word "purple". PURPLE IS A COLOR. I HEARD BALL AND A COLOR SO WHAT SHOULD I DO? YES, I SHOULD HIT THE SPOT.

Teacher: I THOUGHT REALLY HARD. MY PLAN WORKED TO REMIND MYSELF QUIETLY WHAT TO LISTEN FOR. IS IT A GOOD IDEA TO TALK LOUDLY WHEN YOUR PROBLEM IS TO LISTEN?

Children:

Teacher: YOU TRY YOUR NEW PROBLEM. APPLE BALL RUN BLACK.

(Continue in order through Step Three items. If a child errs on "silver" or "white" items, repeat them at end of list. If he errs again, ask him to name all the colors he can. If he includes white, silver, and gold in list, repeat items. At end of task, look to children for self-evaluation.)

Children:

(Note: If a child likes to take teacher's role, allow him to make up a sequence of items and you assume role of student.)

Suggested Dialogue for Cooperation Training -

To be used upon first need: When one child helps other when assistance isn't requested.

Teacher: OH, DEAR, WE HAVE A NEW PROBLEM. WHOSE TURN IS IT?

Children:

Teacher: SO, WHO SHOULD BE THINKING OUT LOUD ON THIS PROBLEM?

Children:

Teacher: WAS (child's name) STUCK ON HIS PROBLEM?

Children:

Teacher: SOMETIMES IT IS GOOD TO HELB SOMEONE WORK ON HIS PROBLEMS

WHEN MIGHT IT BE A GOOD IDEA TO HELP EACH OTHER?

Children:

Teacher: HOW COULD WE TELL IF SOMEONE NEEDS HELP? HOW COULD

WE FIND OUT?

Children: (You can ask him. Look at his face.)

Teacher: * IF SOMEONE DOESN'T ASK FOR HELP AND THEY DON'T LOOK

"LIKE THEY NEED HELP, IS IT A GOOD IDEA TO HELP THEM?

Children:

Teacher: WHAT PLAN COULD WE MAKE FOR THIS NEW PROBLEM:

WE KNOW THE ANSWER BUT IT ISN'T OUR TURN?

Children:

Teacher: (Plan might take the following direction.)

- Q. WHAT'S MY PROBLEM?
- A. I KNOW THE ANSWER, BUT IT ISN'T MY TURN.
- Q. WHAT'S MY PLAN?
- A. I'LL WAIT. AND I'LL KEEP REMINDING MYSELF WHAT MY ANSWER IS.
- Q. HOW DID I DO?
- A. I WAS GOOD AT WAITING. I REMEMBERED THE ANSWER I THOUGHT WAS RIGHT.

Suggested Dialogue for Discouraging Name Calling or Belittling

To be used whenever need arises. At least to be introduced sometime following Is Anybody Listening lesson.

Teacher: IS IT A GOOD IDEA (TO LAUGH AT PEOPLE WHEN THEY
DON'T KNOW AN ANSWER) OR (TO CALL PEOPLE NAMES)?

Children:

Teacher: WAS IT A GOOD IDEA FOR MELVIN TO MAKE FUN OF BILLY?

Children:

Teacher: WHAT MIGHT HAPPEN NEXT (IF YOU LAUGH AT SOMEONE)

OR (IF YOU CALL SOMEONE A NAME)?

Children:

Teacher: WHAT PLAN COULD WE MAKE TO STOP US FROM (LAUGHING WHEN SOMEONE DOESN'T KNOW THE ANSWER) OR (CALLING SOMEONE A NAME)?

Children:

Teacher: (Plan might take the following direction.)

- Q. WHAT IS THE PROBLEM?
- A. I AM NOT SUPPOSED TO CALL PEOPLE A NAME,
 BUT I FEEL LIKE IT NOW.

WHAT'S MY PLAN?

I'LL (YAWN/SWALLOW/CLENCH MY TEETH) INSTEAD OF SAYING NAMES.

- d. HOM DID I DO 5
- A. I DIDN'T CALL HIM A NAME.
