ABSTRACT

This textbook is based on the SMSG kindergarten and first grade materials as a framework. This special edition is designed to meet the needs of disadvantaged children. Chapters in the book include: (1) Sets and Numbers; (2) Numerals and the Number Line; (3) Sets of Ten; and (4) Introduction to Addition and Subtraction. The student text contains a variety of activities and exercises with limited directions. Detailed instructions for the teacher and background materials are included in the Teacher's Commentary.
