. Career Planning Support System

#### ABSTRACT

This guide is one of a set of twelve documents describing the Career Planning Support System (CPSS) and its use. GPSS is a comprehensive guidance program management system designed to provide information for local high schools to design, implement, and evaluate an upgraded career guidance program. CPSS describes how existing activities can be brought into an integrated systematic approach for the delivery of career guidance services which would enable teachers, counselors, students, and community members to decide on a specific program to be followed.) This guide is intended for the resource leader, for use in directing a task force to collect information on and account for the use of resources in the school and community, resulting in data which is to be used for the development and operation of the career guidance program. The major portion of this guide consists of thirty-nine forms designed to collect the following types of information: (1) current career guidance activities in the high school, its feeder schools, and the state and district, (2) available school and community resources that could be used in career development activities, and (3) a description of the school and community that includes population statistics, occupations in the community, and courses offered in the school. (TA)

Documents acquired by ERIC include many informal unpublished materials not available from other sources. ERIC makes every effort to obtain the best copy available. Nevertheless, items of marginal reproducibility are often encountered and this affects the quality of the microfiche and hardcopy reproductions ERIC makes available via the ERIC Document Reproduction Service (EDRS).

Is not responsible for the quality of the original document. Reproductions supplied by EDRS are the best that can be made from

THIS DOCUMENT HAS BEEN REPRODUCED EXACTLY AS RECEIVED FROM THE PERSON OR ORGANIZATION ORIGINATING IT POINTS OF VIEW OR OPINIONS CATALED DO NOT NECESSARILY REPRESENT OFFICIAL MATIONAL INSTITUTE OF SENT OFFICIAL MOTON OR POLICY EDUCATION POSITION OR POLICY

The Center for Vocational Education The Ohio State University 1960 Kenny Road Columbus, Ohio 43210

\*This document is part of the Career Planning Support System.

This publication was prepared pursuant to a contract (No. NE-C-00-3-0079) with the National Institute of Education, U.S. Department of Health, Education and Welfare. Contractors undertaking such projects under government sponsorship are encouraged to express freely their judgment in professional and technical matters. Points of view or opinions do not, therefore, necessarily represent official National Institute of Education position or policy

The Center for Vocational Education's mission is to increase the ability of diverse agencies, institutions, and organizations to solve educational problems relating to individual career planning, preparation, and progression. The Center fulfills its mission by.

- Generating knowledge through research
- Developing educational programs and products
- Evaluating individual program needs and outcomes
- Installing educational programs and products
- Operating information systems and services
- Conducting leadership development and training programs

The Center team responsible for the Career Planning Support System developed from the national field test, 1974.76, consisted of:

Dr. Robert E. Campbell, Program Director, 1974-76

Dr. Warren N. Suzuki Associate Program Director, 1974 Dr. Richard P. Coatney, Specialist and Coordinator of Revision, 1974-76

Mr. Harry N. Drier Associate Program Director, 1974-75

Mr. Paul Shaltry, National Field Test Coordinator, 1974-76

Dr. Marshall, Amesquita, Developer, 1974-76 Ms. Stephanie Butler, Project Secretary, 1974-76

Ms. Carolyn M. Burkhardt, Writer/Developer, 1976

Ms. Noreen Hayes, Developer, 1974

Mr. John Howard, Developer, 1974-75

Dr. H. Lawrence Hotchkiss, Evaluation Specialist, 1975-76

Dr. Ralph J. Kester, Developer, 1976

Ms. Karen Kimmel, Writer/Developer, 1974-75

Ms. Cheryl M. Lowry, Writer/Editor, 1974-76

Ms. Nancy Robinson, Project Secretary, 1976

Dr. John Russel, Developer, 1974-75

Dr. Anna Tso, Developer/Writer, 1974-76

### INTRODUCTION

Because most high school guidance programs tend to offer more services than their resources can adequately support, one of the first tasks prescribed in CPSS is an assessment of resources available for use in your new program. The information about resources will enable the Steering Committee to select goals for your new program based not only on what students need, but also on whether there are resources available for goals to meet those needs. Without such an assessment, an otherwise sound program could be ineffective because resources are not used efficiently.

The CPSS resource assessment will help your school identify appropriate materials, space, equipment, people, and funds in both the school and community. Happily, such careful attention to resources may help you "discover" more career guidance tools than you knew you had.

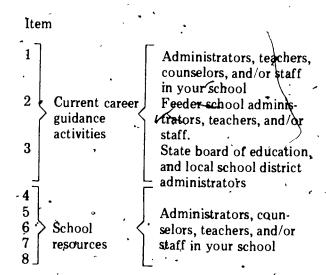

In addition to resource assessment, CPSS requires other activities associated with resources. Although they are not properly considered assessment, procedures for these tasks are included in this procedural guide since you, as resource leader, will be responsible for performing them.

A seven-member Resource Assessment Task Force, headed by you, will assess resources available in the school and community for your career guidance program. As resource leader, you are responsible for making sure that the work gets done and for acting as a liaison between your task force and the Steering Committee during assessment. Two other faculty/staff nembers and four students comprise the rest of the task force. You may want to assign a pair of students to work closely with each faculty/staff member.

The task force's job is to compile: (1) a list of current career guidance activities in the high school, its feeder schools,

and the state and district; (2) a list of available school and community resources that could be used in career development activities; and (3) a description of the school and community that includes population statistics, occupations in the community, and courses offered in the school. All three kinds of information will be helpful to the Steering Committee as it makes decisions about the scope and direction of your new-career guidance program. The list of current guidance activities should be useful when integrating successful current activities about your new program. The list of resources will provide a single-source reference concerning all the resources available to support career developmenf activities. This information about resources will include such things as who should be contacted about their use and any constraints that may be placed on their use. The descriptive data about the school and community will be used primarily as background information.

The task force will be filling out CPSS Program Information File items 1-33 during assessment. For your reference, copies of these items are in the Appendix of this procedural guide. The CPSS coordinator will give you duplicated copies of these items that you and your task force will be working with. The procedures in this guide will tell you how to direct the task force in filling out these items. The list below summarizes the items, their subject, and suggested sources of information:

Periodic and special reports prepared by state and local governmental agencies (state board of education, local school district) and non-governmental agencies (universities, banks, labor organizations, business and industry, publishing companies, social, cultural, service organizations).

·28

29

Administrators, counselors, teachers, and/ or staff in your school

Reports prepared by the Bureau of Labor Statistics, U.S. Labor Department, Bureau of the Census, Center for Educational Statistics, U.S. Department of Health, Education and Welfare, your local bureau of employment services

Information on both the school and community should be factual unless only estimates are available. In those cases, estimates should be noted as such. If the information located is based on categories that are different from the ones used in the items, you may advise task force members to use the available categories for those specific items. If information for certain items is already available in another form, you may suggest that task force members simply attach to the item or reference copies of that information and note where it is available.

Information sources listed above are merely examples. You may advise task force members to use any other sources that are available. The CPSS Advisory Committee members may be the best source of information about the community. Advisory Committee members may already have the information you need, may be able to acquire it, and/or may be able to verify or suggest a source for verification for information the task force has already collected. However, task force members seeking information on the community should contact Advisory Committee members only after exhausting other sources. The Advisory Committee may advise or help, but the work of assessing resources belongs to you and the rest of the task force.

If another schools in your district are using CPSS, you, the CPSS coordinator, and the principal will meet before the task force begins its work in order to decide whether to assess community resources in conjunction with the other schools. This is possible because the information to be collected about the community will be the same for all schools and will mean that no one school will have to collect all the information. If you do work with other schools, the coordinator will act as liaison between your school and the other schools involved. You and he/she will have to work closely so that the efforts of all schools contribute to a good resource assessment.

Once items 1-33 are completed, the task force will disband. Your responsibilities as resource leader, however, will continue. Because of your experience at assessing resources and your access to information, you will be considered the school's expert on resources. You will be called upon to assist career development unit instructors in assigning resources to each unit. As the school's most knowledgeable person concerning resources, you should be able to make valuable contributions to the CDU's and to make the CDU instructor's job easier.

Resource accounting activities—keeping track of the use of resources—begins once your new career guidance program is operating. You alone are responsible for these tasks, which require filling out CPSS Program Information items 34-39. Reference copies of these items

2

are in the Appendix of this procedural guide and instructions for filling them out are in the procedural section. The information that should be recorded on the items should be available immediately after each CDU plan is approved. You should complete the items at that time. Upon modification or termination of a CDU, you should make necessary changes on the items Your responsibility for resource accounting is ongoing throughout

the life of your new career guidance program.

Another of your responsibilities is the continuous updating of resource assessment information (items 2-33) initially collected by the task force. (Item 1 need not be updated.)

Your procedures for fulfilling your responsibilities as resource leader begin on the next page

### RESOURCE ASSESSMENT PROCEDURES

- Step 1 Study this procedural guide. (A reference copy of the CPSS Program Information File items dealing with resources is in the Appendix of this guide.) Address all questions to the CPSS coordinator.
- At the request of the coordinator, meet with him/her and the principal to consider whether your school will be filling out items 5 and 9-23 in conjunction with other schools also using CPSS. If so, decide how to proceed. You may want to have the task force skip those items for now and work on other items until you and the other schools decide which items will be completed by which schools.
- Step 3 Decide whether to permit task force members to contact Advisory Committee members for a sistance with items 5 and 9-23 (or those of them that your school will be responsible for) Are these specific Advisory Committee members who are likely to have information needed for particular items? You may want to contact the CPSS coordinator for assistance.
- Step 4 Estimate how many copies of each item the task force will need for resource assessment (deciding, for instance, whether you want all members to have a working copy of every item) Make sure to include in your estimate one extra copy of each item (called the final copy in this procedural guide) to be the copy forwarded to the coordinator for filing in the CPSS Program Information File. Ask the coordinator to duplicate those copies for you plus one copy each of resource accounting items 34-39. You won't need the accounting items until after the task force disbands.

ERIC Full Text Provided by ERIC

- Step 5 Hold the first meeting of the Resource Assessment Task Force.
  - A. View AV-1 and/or AV-2 with all members of the task force. Viewing AV-1 should be necessary only if members need or want an overview of CPSS at this time.
  - B. Explain resource assessment, answering all questions and making sure that the task force members understand their responsibilities.
  - C. Distribute working copies of all resource assessment items your school will be responsible for and review them with the task force.
  - D. Divide the work related to the items among the members, helping them decide among themselves who will complete which of the items you distributed.
  - E. Ask each member to prepare a rough draft response to his/her items before the next meeting. Each member also should identify the sources of information for the response
    - 1. Mention the sources of information indicated in the Introduction of this procedural guide. Indicate that the listed information sources are simply a suggested starting point and that task force members are free to locate other sources.
    - 2. If information is readily available for certain items (perhaps items concerning the school description), suggest that task force members merely attach copies of that information or reference on the items the place where the information is stored.
    - 3. Indicate that information about both the school and community should be factual unless only estimates are available. Estimates should be noted as such.
    - 4. Tell the members that, for those items asking for information that is categorized, they may use categories different from those in the item if information readily available is organized around different categories.
    - 5. Indicate that more than one source of information may be appropriate for a single statement, especially if the task force member has reason to believe that the sources may contradict one another.
    - 6. Ask members to leave blank those items for which they cannot find factual information or reasonable estimates.
    - 77. Tell the members which Advisory Committee members could be helpful with specific items, depending on what you, the coordinator, and the principal decided in Step 3. The Advisory Committee should be contacted only after other sources have been exhausted. Caution the task force that Advisory Committee members are likely to be very busy people and that they should carefully formulate the questions they plan to ask before they contact the Advisory Committee members.
  - F. Decide on a date, time, and place for the next meeting of the task force, allowing ample time for the completion of items.

- Step 6 During the second and as many other meetings that you need, lead the task force in a review of all information prepared to complete the items.
  - A. Consider the probable appropriateness of the information (for example, look at the date of publication if the source of the information is a report, etc.).
  - B. If there is more than one source of information for a single item and the information is contradictory, decide which set of information appears to be most appropriate or resolve the contradiction.
  - C. If an item was left blank because factual information is not available, make an estimate to supply the information and write an "E" in front of it. If you cannot make an estimate, leave the item blank.
  - D. Add and complete additional items if you think information about resources not covered by the CPSS items would be useful in planning and implementing career development activities.
- Ask one or more task force members to prepare a draft of anothe completed items. Give a copy of this draft to the CPSS coordinator for review by the Steering Committee, and keep a copy yourself.
- Step 8 Receive the reviewed items from the CPSS coordinator. Make any corrections or additions deemed appropriate by the Steering Committee.
- Step 9 Ask some task force members to neatly write or type the final version of all items. Once this is finished, the task force should disband.
- Step 10 Make a copy of the items for your files and forward the final version to the coordinator.
- Step 11 Once CDU development begins, assist the CDU instructors at their request. Your task will be to identify resources required to support the recommended activities and to advise each CDU instructor on the availability of resources and, if necessary, to assist in finding ways to acquire the necessary resources. If the same resource is being considered by more than one CDU instructor for use at the same time, you should inform the CPSS coordinator and the CDU instructors involved of the possible conflict.

NOTE: Both you and the methods specialist deal with career development materials. The methods specialist identifies materials that are appropriate for a CDU, whereas you deal with the availability of those materials (in addition to appropriate people, space, equipment, and funds).

- Step 12 During the Steering Committee's review of each CDU before implementation, advise the committee of the appropriateness of the resources identified for it.
- Step 13 After each CDU is approved, record the appropriate information about the resources assigned to each CDU on items 34-39 (resource accounting items).

- Step 14 Later, make appropriate changes in these items when a CDU is modified or terminated so so that the items filed in the CPSS Program Information File continually reflect which resources are currently being used and which are available for assignment to other CDUs.
- Step 15 Make sure that you update continuously resource assessment items 2-33 initially completed by your task force.

## **APPENDIX**

Items (Information Tables) of Which
the Resource Assessment Task Force and
Resource Assessment Leader Will Document Information

### RESOURCE ASSESSMENT

## Current Career Development Activities

- 1. Descriptive and Evaluative Data on the Existing Career Guidance Program
- 2. Current Career-Related Programs in Feeder Schools
- 3. State and District Career Guidance/Development Goals

## School Resources

- 4. Faculty/Staff
- 5. Career Development Materials
- 6. Equipment
- 7. Space
- 8. Funds

## Community Resources

- 35. Equipment
  - <sup>1</sup>36. Materials
  - 37. Space
  - 38. Funds
  - 39. External Services

RESOURCE ASSESSMENT

Current Career Development Activities

- 1. Descriptive and Evaluative Data on the Existing Career Guidance Program.\* Insert after this page descriptions of career development activities being conducted by your school prior to the start of CPSS. Also provide any available evidence that indicates that the activities are effective. If possible, limit the description and evaluative data for each prior career development activity to one page. A suggested format for documenting an existing activity is given below.
  - A. Name of Activity Use only of the activity has an official and or popular designation that most people in the school will recognize.
  - B. " Goal(s) List the stated goal(s) for the activity, if available
  - C Objective(s) List the stated objective(s) for the activity, it available
  - D. Activity Leader(s) \*List the individual(s) within and, if appropriate, outside the school who has prime responsibility for the activity.
  - E. Infusion Point Identity where the activity is being conducted.
  - F Schedule Provide the date(s) or time period(s) during which the activity is conducted.
  - G. Activity Briefly describe the activity. If possible, include a description of at least the following: (1) methods, including materials used in the order of their use and (2) the amount of time needed by students to complete the method.

### H. Resources:

- a. People East the names of all individuals who are responsible for instruction, coordination, counseling, etc., in the activity. For each individual, provide the amount of time utilized for the activity.
- b. Materials List all materials used, such as pamphlets, films, books, mms, etc., and the amount of time each is used.
- c. Equipment List all equipment, such as projectors, tape recorders, etc., used and the amount of time each is used.
- d. Space List only unusual space requirements.
- e. Funds List the money that is being spent for the activity:
- I. Evaluative Data: Briefly describe evidence that indicates that the activity is effective.

  If available, cite the degree to which students achieve objectives and their reactions to participating in the activity.

<sup>\*</sup>Information for this item is collected only once.

2. Current Career-Related Programs in Feeder Schools. Identify and briefly describe career-related programs currently being conducted at the schools (elementary, middle, and junior high) whose majority of students eventually attend your high school. Use additional pages if necessary.
