Annually, the Spanish Speaking Program Staff compiles a document on programs funded by the U.S. Office of Education which have impact on Hispanic Americans. The purpose of this annual compilation is to assist agencies, organizations, groups and interested individuals in identifying programs funded, their geographic locations and grant size.

It is expected that this information will help in making the U.S. Office of Education programs available to a greater number of people.

For additional information on the Spanish Speaking Program Staff, please see page 83.

BUREAU OF SCHOOL SYSTEMS

I. Elementary and Secondary Education Act of 1965 Title I (ESEA)

This program authorizes grants to local educational agencies and State agencies for supplementary educational services for (a) disadvantaged children in low-income areas, (b) children of migratory agricultural workers and fishermen, and (c) children in institutions operated or supported by State agencies for neglected or delinquent children.

C. Alcohol and Drug Abuse Education Program

This program encourages the development of new and improved curricula on the problems of drug abuse, disseminate curricular materials, and provide training programs for teachers, counselors, law enforcement officials, and other service and community leaders. It also offers education programs for parents and others on drug abuse.

Total FY 1976 funds - \$4,000,000	Amount obligated - \$245,000 to Spanish Speaking
Percentage - Spanish Speaking:	6%
Number of States Participating:	50
Number of projects funded:	35
Number of students served:	3,500 (est)
Percentage of total served:	Not available

During FY 1976, the Alcohol and Drug Abuse Education Program provided training and technical assistance to 187 newly funded leadership teams from local school districts. In addition, the program provided a second year of follow-up assistance to 574 teams during FY 1975.

The purpose was to provide teams with skills and resources necessary to start drug abuse prevention programs geared to their local settings and target populations. Of those individuals trained and receiving technical assistance (N-761), 35 teams or 4 percent specifically planned to impact Latino populations. Six of these teams were in the Northeast Region (New York), eight were in the Southeast Region (Miami), one was in the Midwest Region, 16 were in the Southwest Region, and four were in the Far West Region.

An additional program being supported is the Preservice Program at the University of California, Santa Cruz, to train future teachers and counselors in skills for drug abuse prevention. The program emphasizes field work in bilingual/bicultural school settings for approximately 45 student teachers.

II. Elementary and Secondary Education Act - Title II

A. School Library Resources, Textbooks and Other Instructional Materials Program

This program provides grants for the acquisition of school library resources, textbooks, and other printed and published instructional materials for the use of an estimated 42 million children and teachers in public and private elementary and secondary schools. Of this number, the estimated number of Spanish Speaking children enrolled in elementary and secondary schools is 1.5 million. About \$3.1 million in ESEA II funds were targeted towards these children in Fiscal Year 1975.

III. Civil Rights Act of 1964 - Title IV

Financial aid is provided for technical assistance and training services to help school districts in the preparation, adoption, and implementation of programs for the desegregation of public schools based on race, national origin, or sex. Title IV, as amended, made provisions for financial aid to General Assistance Centers and State Education Agencies to provide technical assistance to school districts for the desegregation of public schools with respect to non-English dominant minority group students. The following statistics are estimated calculations.

BUREAU OF OCCUPATIONAL AND ADULT EDUCATION

It is the function of this bureau to expand educational opportunities and encourage the establishment of programs of adult public education that will enable all adults to continue their education and make available the means to secure training that will increase their potential for employment and productivity. Programs under this bureau include the following.

I. Education Professions Development Act (EPDA)

The purpose of this program is to improve the quality of teaching and to help critical shortages of adequately trained educational personnel by providing high quality training and retraining opportunities, responsive to changing manpower needs and to the needs of the schools and colleges. The following programs are under EPDA:

A. Urban/Rural School Development Program

1.	Crystal City, Texas	\$ 70,000
2.	Edgewood, Texas	80,000
-	San Luis, Colorado	120,000
	Puerto Rico	160,000
5.	East Chicago, Illinois	115,000
6.	National Education Task Force	
	De La Raza	125,000

B. Increase participation of Spanish Speaking Americans in Vocational Education Project

The agency which directly affects Hispani: Americans, receiving funding is the Education Center located in Richardson, Texas. The negotiated funding level is at \$30,755. This program expects to:

- Increase the enrollment of Spanish Speaking American students in vocational-technical education programs;
- Increase the number of Spanish Speaking Americans in professional positions such as vocationaltechnical teachers, vocational guidance personnel, vocational administrators and teacher educators;
- 3) The development of a training package designed to enhance recruitment and involvement of Spanish Speaking Americans in vocational and technical education.

II. Title I - Vocational Education

A. Bilingual Vocational Training - Part J

This program makes funds available for the development and dissemination of accurate information on the status of Bilingual Vocati. al Training and evaluates the impact of such vocational training on the shortages of well trained personnel, the unemployment or under-employment of persons with limited English-speaking ability and the ability of such persons to contribute fully to the economy of the United States. III. Consumer and Homemaker Education

Federal Funds are made available to States to be expended to:

- 1. Educational programs which:
 - a) Encourage home economics to give greater consideration to social and cultural conditions and needs;
 - b) Encourage preparation for professional leadership;
 - c) Are designed to prepare youths and adults for the role of homemaker, or to contribute to the employability of such youths and adults in the dual role of homemaker and wage earner;
 - d) Include consumer education programs including promotion of nutritional knowledge and food use and the understanding of the economic aspects of food use and purchase;
 - e) Are designed for persons who have entered, or are preparing to enter, the work of the home.
- 2. Ancillary services:
 - a) Teacher training and supervision;

b) Curriculum development research;

c) Special demonstration and experimental programs;

d) Program evaluation;

e) Development of instructional materials;

f) And State administration and leadership.

In Fiscal Year 1976 the Office of Consumers' Education will fund four projects that will affect Hispanic Americans. These include:

PR #0720 1. Colonias Del Valle, Inc. San Juan, Texas

> This project will serve a rural area of Texas with a population that is primarily Spanish Speaking and migrant. Among activities planned are courses in health education, family budgeting and citizenship. A Spanish language newsletter will be prepared.

PR #0430 2. Texas Technical University Lubbock, Texas

This project will serve the elderly in Lubbock by training and utilizing bilingual peer group counseling. A project manual and a resource book will be compiled in both Spanish and English.

3. Department of Consumer Affairs PR #0056 Ocean County, New Jersey

This project will, by means of a mobile van, reach local residents with a variety of consumer information materials in both Spanish and English. Special efforts will be made to recruit bilingual staff.

4. Mission Education Products, Inc. PR #0245 San Francisco, CA

This project will provide translation and dissemination services in the Mission District of San Francisco in Spanish and Tagalog. In addition to providing translated consumer education materials, hey will serve a coordinating function in relation to local agencies now offering limited consumer assistance and education services.

The Division of Adult Education does not collect data by race or ethnic groups on specific programs funded by the States. However, data is collected on total participation. The lastest reports from the States indicate that 25% of participants in the Adult Education programs are of Hispanic background. We estimate the following for FY 1976.

187,000 Number of Hispanic persons served 25% Percent of total served \$16,875,000 Estimated Cost

IV. Metric Education Program

The main purpose of this program is to teach school-age children and adults to use the International System of Units -- the revised metric system. Four kinds of projects have been funded to:

- -- span the curriculum of school-bases programs,
- -- plan programs directed by State Education Agencies,
- -- provide preservice and inservice training programs, and
- -- provide a national metric education technical support project.

V. Educational Opportunity Centers

This program has been awarded \$3 million to support 12 Educational Opportunity Centers located in areas with large concentrations of low-income families.

The centers, staffed by counselors, tutors, and recruiters, help people develop and carry out plans for education beyond high school. The centers also act as resource pools identifying and working with persons in post-secondary institutions who are interested in recruiting disadvantaged students. The colleges and schools assist EOC staffs in counseling student processing admissions, and providing needed financial aid.

The following is a listing of Educational Opportunity Center grantees by State and award amounts for Fiscal Year 1976.

BUREAU OF EDUCATION FOR THE HANDICAPPED

This bureau is the principal agency in the U.S. Office of Education for administering and carrying out programs and projects relating to the education and training of the handicapped and the talented and gifted. This includes programs and projects for the training of teachers of the handicapped and for research in such education and training. The following is a list of projects and grants from this bureau.

I. Gifted and Talented Program

These two-year grants, provided under the Education Amendments of 1976 (P.L. 93-380), were awarded to 26 States to improve education services for youngsters identified as gifted and talented academically, artistically, creatively, and in leadership qualities.

Mini-grants awards under the same legislation are also announced for 18 local school districts. The awards in this category are going to a variety of exemplary programs for the gifted. They are intended as catalysts that will stimulate schools throughout the country to recognize the great need for special gifted and talented programs.

Program Title: Identification of Elementary Spanish Speaking Gifted (Philadelphia, Pennsylvania)

Summary - Initiate pilot study for 100 Spanish Speaking gifted elementary children. Identification will be based on screening and testing—utilizing Wisc, norms on Puerto Rican population to determine strengths and weaknesses.

Target Group - Puerto Ricans

Funds - \$15,464

Program Title: OPEN GATES (Opportunity for Providing Effective Nurture for Gifted/Talented Elementary Students) Brooklyn, N.Y.

Summary - Identify gifted and talented among economically disadvantaged and bilingual pupils in K-2. Establish classes with differentiated instruction. Develop dissemination package on educational methods and procedures.

Target Group - Puerto Ricans, Dominicans, Haitians, Blacks, Orientals, and Whites Funds - \$17,234

Program Title:

Summary - Saturday enrichment program in Spanish and English focusing on the development of the synergistic creative process of gifted and talented children at elementary, junior high and secondary level. Curriculum is designed to present an interdisciplinary creative exploratory activities to promote high level cognitive and effective processes in gifted and talented students.

Target Group - Spanish Speaking Gifted Funds - \$17,580

Program Title: Regional Leadership Clusters Project

Summary - Mexican Americans comprise 23% of the population in Texas.

The Texas Education Agency program proposes to implement a five-year plan for the gifted and talented through regional service centers. The basic concentration areas included in the plan are: 1) leadership development, 2) awareness, 3) model programming, and 4) statewide dissemination of ideas to all public schools.

Funds - \$65,000

II. The Handicapped Children's Early Education Program

This program supports demonstration projects serving young children with handicaps and their families in the Chicano, Puerto Rican and Portuguese American populations. Listed below are the projects providing services.

III. Regional Resource Centers and Area Learning Resource Centers

The RRC program provides evaluation and diagnostic services for many Hispanic children in Texas, California, New Mexico, Florida and New York. Many of the evaluations are actually re-evaluations for Spanish Speaking children who have been mislabled and placed in classes for the mentalizer retarded.

Over \$600,000 are spent for direct evaluation and diagnostic services for Hispanic children, workshops for teachers on instructional strategies to meet the needs of Hispanic children, workshops for psycologist and evaluators on assessment techniques and development of relevant media and materials for culture different populations.

IV. Teacher Training Grants

Approximately \$45 million has been awarded to the States and territories to prepare education personnel to work with handicapped children. The purpose of the teacher training grants is primarily to train teachers, supervisors, administrators, researchers, teacher educators, speech pathologists, and other special service personnel such as specialists iphysical education and recreation and paraprofessionals.

A brochure, <u>Special Education Career Preparation</u>, which lists programs receiving funds, may be obtained by writing: Closer Look, Box 1492 Washington, D.C. 20013. The following is a list of funding by State.

Arizona Department of Education - Arizona

Title - "Training Personnel for the Education of the Handicappet"

Indirectly affects Hispanic Americans by training teachers who will ultimately work with Hispanics. The SELECT program designed by SEA trains teachers in various rural areas through special study institutes

Northern Arizona University

Title - "Traineeship and Program Support in Special Education"

Trains teachers for (a) rural areas of Arizona and surrounging area, and (b) Indian Reservation (BIA schools and public schools). Indirectly affects Hispanic Americans by training teachers who may ultimately work with Hispanic Americans.

University of Arizona

Title - "University of Arizona Innovative Programs to Meet National and Regional Special Education Priorities"

One of the program's priorities is to recruit Mexican Americans in Arizona and the Southwest for training

University of New Mexico - New Mexico

Title - "A Program for Training Teachers of Severely Handicapped"

The University has three bilingual faculty members; the proposal includes training teachers from sparsely-populated or rull areas. It can be assumed that this project impacts on Hispanic Adricans

Bank Street College - New York

Title - "Survey of Training Activities (inservice and preservice) for the Education of Handicapped Children of American-Hispanic Descendents"

Fordham University - New York

Title - "Pilot Project for Special Education Teachers in American-Hispanic School Districts"

Brown University - Rhode Island

Title - "Development of Language Teacher Training Program for Secondary Education of Bilingual Hearing-Impaired Students"

. The University of Texas at El Paso - Texas

Title - "Preparing Regular Classroom Teachers to Work with Handicapped Children"

Emphasis is given to the development of curriculum materials for the individualization of instruction for each of the project participants. Extensive workshops are given and academic-socio-economic problems which effect Mexican-Americans are discussed.

Our Lady of the Lake College - Texas

Title - "Personnel Preparation Master's Level Training in Speech Pathology and in Language and Learning Disabilities"

Addresses itself to training of students to work with Mexican American populations. The varied clinical educational facilities include many Mexican American children. At the same time, many of the student population is Mexican American and Spanish Speaking. The learning of the Spanish language is strongly suggested for the students who expect to remain in the geographical area. Strong socio-linguistic component

Stephen F. Austin State - Texas

Title - "Education of the Handicapped"

RIGHT TO READ OFFICE

The Right to Read Office has been established in an attempt to bring a coordinated effort to find a solution to the problem of illiteracy by involving the State education agencies (SEA), local education agencies (LEA), and nonprofit organizations as well as the private sector to meet the literacy needs of the citizens of the State. The following are programs in the Right to Read Office.

I. Elementary and P -elementary Reading Improvement Programs

This year 145 Right to Read grants totaling \$7,554,548 have been awarded to assist in improving the reading of elementary and pre-elementary school children in 46 States, the District of Columbia, Puerto Rico, and the Trust Territories of the Pacific Islands.

More than \$6.7 million was awarded to 120 state and local education agencies to strengthen reading instructional programs in elementary schools. The remaining \$801,003 went to 25 state and local education agencies and none ofit educational and child care institutions for establishment and improvement in pre-elementary schools, to develop the capacity for reading of these children who might otherwise develop reading deficiencies.

Each project will publish test results on student reading achievement, use bilingual education methods and techniques for those students of limited English-speaking ability, and disseminate information and materials of the project.

II. State Leadership and Training Programs

The leadership and training grants will fund scatewide activities aimed at increasing the reading ability of children, youths, and adults in the classroom and as individual learners by developing, organizing, and administering effective reading programs. Activities include such things as:

- -- Determining the state of the art in leading and reading instruction.
- -- Validate promising reading practices as well as organizational and administrative processes.
- -- Training for reading improvement based on the State realing assessment needs and standards of excellence for reading programs.
- -- Dissemina ion of information and materials of reading and reading p ograms.

The following is a list of such grants and award amounts:

TEACHER CORPS OFFICE

Teacher Corps provides a means whereby inexperienced teacher interns, experienced teachers and teacher aides can receive school-based training and retraining designed to better meet the educational needs of children from areas with large numbers of low income families.

A recent survey shows that of the 117 Teacher Corps projects funded in FY '76. 44 affect Spanish speaking students. These 44 projects, representing 38% of 211 Teacher Corps projects, received 38.6% or \$12.4 million, of the Teacher Corps total FY '76 grant funding of \$32.1 million In addition, 16 of them have been classified as bilingual projects.

The latest figures show that 64 Spanish speaking teacher interns are currently participating in Teacher Corps projects. They represent 12.9% of the 496 interns currently assigned to all projects. Their successful participation in a two-year Teacher Corps project will lead to a MA degree in education.

The following is a regional breakdown of the 44 10th and 11th Teacher Corps project serving Hispanic Americans. The 10th cycle projects began in 1975 and will end 1977. The 11th cycle projects are the 1976-1978 projects.

OFFICE OF CAREER EDUCATION

Career education grants and contracts are aimed at making school more relevant to the working world and stimulating closer ties between educators and the business and labor community. This year 118 grants and contracts were awarded totaling more than \$10 million dollars. The grants and contracts are designed to support a variety of projects in State and local education agencies, institutions of higher education, and other nonprofit agencies. They support activities in five major areas:

- Kindergarten through high school career education programs.
- Particular settings, senior high schools, community colleges, adult and community agencies, 4 year colleges and universities.
- Handicapped, gifted and talented, minority and low-income youth.
- Training and retraining of persons conducting career education programs.
- Communicating to the public the methods, activities and evaluation results of career education.

The projects were funded under the Special Projects Act of the Education Accordance of 1974 (P.L. 93-380). For information, contact the State Departments of Education of the States listed below.

FUND FOR THE IMPROVEMENT OF POSTSECONDARY EDUCATION

A total of \$11.5 million has been awarded to enhance the vitality and improve the quality of postsecondary education. These new grants focus on the quality of learning. The Fund also stresses the economics of educational programs: encouraging more value for the same dollar. or the same value for fewer dollars.

Funded projects open up new means of access to education rather than provide basic student financial aid. Learner groups including innecity Blacks, Native-Americans, older adults, Mexican-American field workers, ex-offenders, rural dwellers and the deaf and hearing impaired are being served by programs tailored to their particular needs. These programs typically provide counseling and community support and, in some cases, services are delivered through innovative uses of technology.

There are important new applications of theories of human development in postsecondary education, building on the work of Piaget, Kohlbert, Perry and others. Testing and research organizations are working along with institutions which establish the competencies required for a college degree. The new initiative has important implications for program evaluation as well as for the assessment of individual learning.

Thirty-two projects feature new departures in the use of educational resources beyond the campus. These include coordination of academic programs and requirements with relevant business, labor and professional groups. Fund projects overcome traditional academic isolation by using sites and facilities in local libraries, museums, service agencies, legal clinics and union halls.

This year a number of grants are specifically devoted to new costsaving strategies, including the use of consortia, the crediting of already established training programs, new academic calendar and credit schemes, and articulation with secondary schools. Many of the grants support faculty in their pursuit of excellence in teaching, postsecondary education's most important resource.

THE SPANISH SPEAKING PROGRAM OFFICE

The Spanish Speaking Program Office's mission is broad. It provides the focal point in the U.S. Office of Education in directing Federal resources toward the education of children and adults of Hispanic American communities. The Spanish Speaking Program Office works particularly close with the U.S. Office of Education program managers responsible for the improvement of education at all levels.

A second major component of the Spanish Speaking Program Office is its emphasis on the employment of Spanish Speaking persons in professional and non-professional positions. This effort involves contacts with local, state, and Federal educational administrators including those at colleges and universities, and with community and professional organizations throughout the country.

The office develops information and designs ways of informing Hispanic Americans of improved approaches in gaining access to educational and employment opportunities. It assists groups and firms in developing materials relevant to the education of Spanish Speaking. It coordinates the various national efforts in their attempts to provide financial assistance and recruitment of Spanish Speaking into colleges and universities.

The Spanish Speaking Program Office provides direction in the planning of national, regional, and local workshops and conferences dealing with Educational concerns of Spanish Speaking Americans. Other related activities are:

- Studies the educational needs of Hispanic Americans; researches the services available within and outside the U.S. Office of Education; and makes recommendarions on improved services to meet those needs.
- 2) Updates and disseminates information on Office of Education and other related Federal programs and employment opportunities.
- 3) Works jointly with the Spanish Speaking Program Coordinators of other Federal agencies in delivering employment services to the Spanish Speaking.
- 4) In its liaison role with the Spanish Speaking community and Office of Education, the Spanish Speaking Program Office promotes awareness among Spanish Speaking and responsiveness within the Office of Education relative to the advancement of the Hispanic community.
- 5) Gives input for the development of the guidelines and regulations of U.S. Office of Education programs.
- 6) Participates in task forces and advisory committees which results in policy development.
