Education Curriculum: \*Teaching Skills

- ABSTRACT

This fifth in a series of ten learning modules ca coordination of cooperative education is designed to give secondary and postsecondary vocational teacher-coordinators skill in matching students and training stations and in placing students on the job. Included is the setting up of training agreements and training plans for individual students. The terminal objective for the module is to place co-op students on the job, while serving as a teacher-coordinator in an actual school situation. Introductory sections relate the competencies dealt with here to others in the program and list both the enabling objectives for the five learning experiences and the resources required. Materials in the learning experiences include required reading, self-check quizzes, mcdel answers, performance checklists, model training agreements and plans, and the teacher performance assessment form for use in evaluation of the terminal objective. (The modules on coordination of cooperative education are part of a larger series of 100 performance-based teacher education (PBTE) self-contained learning packages for use in preservice or inservice training of teachers in all occupational areas. Each of the field-tested modules focuses on the development of one or more specific professional competencies identified through research as important to vocational teachers. Materials are designed for use by teachers, either on an individual or group basis, working under the direction of one or more resource persons/instructors.) (JT)

#### **FOREWORD**

This module is one of a series of 100 performance-based teacher education (PBTE) learning packages focusing upon specific professional competencies of vocational teachers. The competencies upon which these modules are based were identified and verified through research as being important to successful vocational teaching at both the secondary and post-secondary levels of instruction. The modules are suitable for the preparation of teachers in all occupational areas.

Each module provides learning experiences that integrate theory and application; each culminates with criterion referenced assessment of the teacher's performance of the specified competency. The materials are designed for use by individual or groups of teachers in training working under the direction and with the assistance of teacher educators acting as resource persons. Resource persons should be skilled in the teacher competency being developed and should be thoroughly oriented to PBTE concepts and procedures in using these materials.

The design of the materials provides considerable flexibility for planning and conducting performance-based preservice and inservice teacher preparation programs to meet a wide variety of individual needs and interests. The materials are intended for use by universities and colleges, state departments of education, post-secondary institutions, local education agencies, and others responsible for the professional development of vocational teachers. Further information about the use of the modules in teacher education programs is contained in three related documents: Student Guide to Using Performance-Based Teacher Education Materials and Guide to Implementation of Performance-Based Teacher Education.

The PBTE curriculum packages are products of a sustained research and development effort by The Center's Program for Professional Development for Vocational Education. Many individuals, institutions, and agencies participated with The Center and have made contributions to the systematic development, testing, revision, and refinement of these very significant training materials. Over 40 teacher educators provided input indevelopment of initial versions of the modules; over 2,000 teachers and 300 resource persons in 20 universities, colleges, and post-secondary institutions used the materials and provided feedback to The Center for revision and refinement.

Special recognition for major individual roles in the direction, development, coordination of testing, revision, and refinement of these materials is extended to the following program staff: — James B. Hamilton, Program Director; Robert E. Norton, As-

sociate Program Director; Glen E. Fardig, Specialist; Lois Harrington, Program Assistant; and Karen Quinn, Program Assistant. Recognition is also extended to Kristy Ross, Technical Assistant; Joan Jones, Technical Assistant; and Jean Wisenbaugh, Artist or their contributions to the final refinement of the materials: Contributions made by former program staff toward developmental versions of these materials are also acknowledged. Calvin J. Cotrell directed the vocational teacher competency research studies upon which these modules are based and also directed the curriculum development effort from 1971–1972. Curtis R. Finch provided leadership for the program from 1972–1974.

Appreciation is also extended to all those outside The Center (consultants, field site coordinators, teacher educators, teachers, and others) who contributed so generously in various phases of the total effort. Early versions of the materials were developed by The Center in cooperation with the vocational teacher education faculties at Oregon State University and at the University of Missouri-Columbia. Preliminary testing of the materials was conducted at Oregon State University, Temple University, and University of Missouri-Columbia.

Following preliminary testing, major revision of all materials was performed by Center Staff with the assistance of numercus consultants and visiting scholars from throughout the country:

Advanced testing of the materials was carried out with assistance of the vocational teacher educators and students of Central Washington State College; Colorado State University; Ferris State College, Michigan; Fiorida State University; Holland College, F.E.I., Canada; Oklahoma State University; Rutgers University; State University Conege at Buffalo; Temple University University of Arizona; University of Michigan-Flint; University of Minnesota-Twin Cities; University of Nebraska-Lincoln; University of Northern Colorado; University of Pittsburgh; University of Tennessee; University of Vermont; and Utah State University.

The Center is grateful to the National Institute of Education for sponsorship of this PBTE curriculum development effort from 1972 through its completion. Appreciation is extended to the Bureau of Occupational and Adult Education of the U.S. Office of Education for their sponsorship of training and advanced testing of the materials at 10 sites under provisions of EPDA Part F, Section 553. Recognition of funding support of the advanced testing effort is also extended to Ferris State College, Holland College, Temple, University, and the University of Michigan-Flint.

Robert E. Taylor
Executive Director
The Center for Vocational Education

The Center for Vocational Education's mission is to Increase the ability of diverse agencies, institutions, and organizations to solve educational problems relating to individual career planning, preparation, and progression. The Center fulfills its mission by:

- Generating knowledge traough research.
- Developing educational programs and products.
- Evaluating individual program needs and outcomes.
- Installing educational programs and products.
  Operating information systems and services.
- Conducting leadership development and training programs.

#### AMERICAN ASSOCIATION FOR VOCATIONAL INSTRUCTIONAL MATERIALS

Engineering Center University of Georgia Athens, Georgia 30602

The American Association for Vocational Instructional Materials (AAVIM) is an interstate organization of universities, colleges and divisions of vocational education devoted to the improvement of teaching through better information and paching aids.

#### INTRODUCTION

A vital part of the many responsibilities of the teacher-coordinator in a cooperative vocational education program is placing a student on the job. There are claims that this activity is the most interesting work of the coordinator. Placement by the coordinator involves establishing training stations (student job stations), and helping cooperative students select job stations that parallel their interests and abilities. The challenge for the coordinator is to help establish the most effective situation for students to progress toward their career objectives, while meeting legal requirements.

At this point you have competency in establishing goals and criteria for your cooperative program, and in using these criteria to evaluate and enroll students and to evaluate and secure training stations. This module is designed to assist you in developing skills which will enable you to successfully match students and training stations and to place your students on the job.

### **ABOUT THIS MODULE**

#### **Objectives**

#### **Enabling Objectives:**

- After completing the required reading, demonstrate knowledge of the techniques and procedures for placing a student on the job (Learning Experience I).
- Given student data on three hypothetical students, tentatively match each student to appropriate training stations (Learning Experience II).
- For a hypothetical cooperative program in your service area, develop or revise a training agreement form which could be used in placing students on the job (Learning Experience III).
- Based-on-the preservice or inservice training program in which you are now involved, develop a training plan for yourself (Learning Experience IV).

#### **Prerequisites**

To complete this module, you must have competency in establishing guidelines for operating a cooperative vocational education program, in identifying and enrolling prospective students, and in identifying and securing prospective training stations. If you do not already have these competencies, meet with your resource person to determine what method you will use to gain these skills. One option is to complete the information and practice activities in the following modules:

- Establish Guidelines for Your Cooperative Vocational Program, Module J-1
- Enroll Students in Your Co-Op Program, Module J-3
- Secure Training Stations for Your Co-Op Program, Module J-4

#### Resources

A list of the outside resources which supplement those contained within the module follows. Check with your resource person (1) to determine the availability and the location of these resources, (2) to locate additional references in your occupational specialty, and (3) to get assistance in setting up activities with peers or observations of skilled teachers, if necessary. Your resource person may also be contacted if you have any difficulty with directions, or in assessing your progress at any time.

#### Learning Experience I

#### Required

References (e.g., bulletins covering hazardous occupations, child labor laws, fair labor standards act; employment of students, etc.) covering the most up-to-date information regarding the legal considerations involved in placing students on the job. These are available at no cost from the U.S. Department of Labor, Wage and Hour Division.

#### Optional

Reference: A Guide for Cooperative Vocational Education. Minneapolis, MN: University of Minnesota, College of Education, Division of Vocational and Technical Education, 1969.

Reference: Mason, Ralph E. and Peter G. Haines. Cooperative Occupational Education and Work Experience in the Curriculum. Second Edition. Danville, IL: The Interstate Printers and Publishers, Inc., 1972.

Reference: Meyer, Warren G., Lucy C. Crawford, and Mary K. Klaurens. Coordination in Cooperative Vocational Education. Columbus, OH: Charles E. Merrill Publishing Co., 1975.

The videotepes, Richardson, Donalo and Charles Beall, "Training Plans," and "Placing Students," from the series, Coordinating Techniques, Colorado State Board for Community Colleges and Occupational Education, Colorado State University, Department of Vocational Education, Fort Collins, Colorado, 1976.

Videotape equipment for viewing the videotápes on training plans and student placement.

Materials to use in preparing a brochure (rough draft) for employers.

#### Learning Experience II-

No outside resources

#### Learning Experience III

#### Required

A training agreement to revise for use in a hypothetical cooperative program in your service area.

A resource person to evaluate your competency in developing or revising a training agreement.

#### Learning Experience IV

#### Required

A resource person to evaluate your competency in developing a training plan for yourself.

#### Learning Experience V

#### Required

An actual school situation in which, as part of your duties as a teacher-coordinator, you can place students on the job.

A resource person to assess your competency in placing students on the job.

#### NOTE:

In placing students on the job and developing training plans and agreements, you must be familiar with safety standards and regulations, especially those concerning hazardous occupations. Thus, it is recommended that the following recently published document be used as a supplement to this module: Wahl, Ray. A Safety and Health Guide for Vocational Educators: An Instructional Guide with Emphasis on Cooperative Education and Work-Study Programs: Harrisburg, PA: Pennsylvania. Department of Education, Bureau of Vocational Education, 1977.

This module covers performance element numbers 337, 338, 346–353, 357 from Calvin J. Cotrell et al., Model Curricula for Vocational and Technical Teacher Education: Report No. V (Columbus, OH: The Center for Vocational Education, The Ohio State University, 1972). The 384 elements in this document form the research base for all The Center's PBTE module development.

For information about the general organization of each module, general procedures for their use, and terminology which is common to all 100 modules, see About Using The Center's PBTE Modules on the inside back cover.

We would like to give special thanks to Elaine F. Uthe for the use of many of her ideas and materials in the development of modules in the J category. Information about the complete set of Uthe materials on the cooperative vocational program which were developed as part of a project at Michigan State University is available from Dr. Uthe at 3345 Carriage Lane, Lexington, KY 40502.

# Learning Experience I

#### **OVERVIEW**

#### Forms for Placement

The forms for placement which will be covered here are (1) application for a Social Security Number, (2) work permit (including intention to employ), (3) forms to meet special placement needs, (4) training agreement or memorandum, and (5) training plan. These are not presented here chronologically, since the appropriate time for completing each varies. In addition, some states combine the intention to employ, the training agreement, and the training plan into a single form. You will need to check to see if your district or state has specific forms you-must use. These forms will be treated separately here for simplicity's sake.

#### **Application for a Social Security Number**

If a student is employed and paid wages, then taxes and Social Security withholding will be deducted from those wages. In order to be covered by Social Security, the student must fill out an Application for a Social Security Number form (see Sample 2). There are 14 simple items to complete, and the place where the card should be sent when completed appears at the bottom of the card. This should be done well in advance of employment.

#### **Work Permit**

Work permits, also known as age or employment certificates, serve the function of protecting the employer from violating child labor laws (see Sample 3). Part A of this form, Intention to Employ, is completed by the employer when the employer decides to hire a particular student who is a minor. The employer includes the details regarding the amount of time and the hours which the student will be expected to work and the type of work the student will be doing.

After Part A is completed, the student must have a parent or guardian complete Part B, Parent's Consent. This simply validates that the parent or

guardian is aware of the employment conditions and approves of them. The student then must have the principal or teacher-coordinator complete Part C, School Record. This is not a complete school record. It simply verifies that the student has a minimal grasp of the English language, and it indicates what grade the student has completed.

Finally, the student must take the completed form and proof of age (birth certificate, baptismal record, etc.) to the district or county superintendent of schools. If approved, the work permit box at the top will be checked.

#### Forms to Meet Special Placement Needs

During the placement process, you as a teacher-coordinator need to be aware of legal requirements (child labor laws) and assist employers in seeing that they are meeting all of these requirements.

For information explaining how to prepare students for making initial contacts with prospective employers, and describing the forms to be used in the job-placement process, read the following information sheet:

#### PLACING A STUDENT ON THE JOB

Once you have determined a prospective cooperative student's career objective, minimal basic skills, general occupational training, and specific job skills, etc., and once you have determined what types of jobs and learning experiences each prospective training station has available, you can tentatively begin to match students to training stations.

Each student should have the opportunity to talk to at least three employers, if possible. This gives

students experience in applying for a job, and gives them an element of choice. Furthermore, should their first choice fall through, it gives them other options. Each training station employer should have the opportunity to talk to at least three students. This gives employers the opportunity to choose the person whom they consider to be best suited to the job.

#### The interview

Before any student is sent out to talk to an employer, the teacher-coordinator is responsible for providing that student with interview skills. During

a pre-school orientation or in the first few weeks of school, all students, as a group or individually, should receive instruction on how to prepare for and act during an interview. This instruction should include—

- how to prepare a vita
- how to fill out written application forms
- what types of questions an employer typically asks
- what types of questions the student should be propared to ask

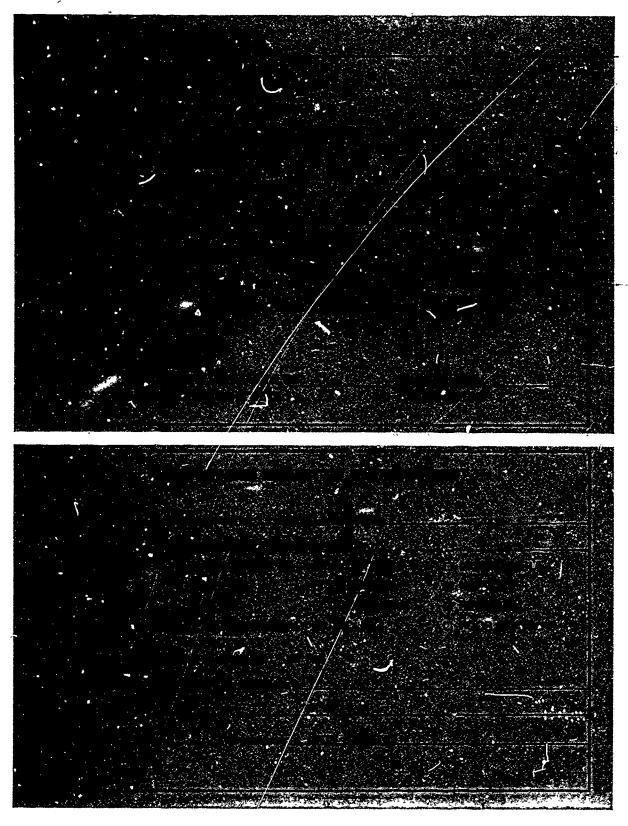

- how to prepare for an interview
- what the employer will be looking for during the interview in terms of appearance and presentation

It is helpful to allow the student an opportunity to practice these skills in a simulated situation before going out on an actual interview.<sup>1</sup>

The next step is to contact the employer and set a time for each interview. Sample 1 is a job interview card. The teacher-coordinator fills out and signs the front of this card and gives it to the student. This tells the student where to be, when to be there, and the name of the person who will be conducting the interview. When the student arrives at the interview, he/she gives this card to the interviewer. At this point, the form serves as a letter of introduction from the teacher-coordinator. The back of the card provides the employer with an opportunity to summarize impressions of the interview and of the student. The employer then sends the card back directly to the coordinator. This process allows the coordinator (1) to keep up to date, (2) to help a student to eliminate, before future interviews, those areas identified as weak, and (3) to determine an employer's likes and dislikes before scheduling other student interviews with that employer.

To gain skill in providing students with interview skills, you may wish to refer to Module F-5, Assist Students in Applying for Employment or Further Education.

#### Forms for Placement

The forms for placement which will be covered here are (1) application for a Social Security Number, (2) work permit (including intention to employ), (3) forms to meet special placement needs, (4) training agreement or memorandum, and (5) training plan. These are not presented here chronologically, since the appropriate time for completing each varies. In addition, some states combine the intention to employ, the training agreement, and the training plan into a single form. You will need to check to see if your district or state has specific forms you must use. These forms will be treated separately here for simplicity's sake.

#### **Application for a Social Security Number**

If a student is employed and paid wages, then taxes and Social Security withholding will be deducted from those wages. In order to be covered by Social Security, the student must fill out an Application for a Social Security Number form (see Sample 2). There are 14 simple items to complete, and the place where the card should be sent when completed appears at the bottom of the card. This should be done well in advance of employment.

#### **Work Permit**

Work permits, also known as age or employment certificates, serve the function of protecting the employer from violating child labor laws (see Sample 3). Part A of this form, Intention to Employ, is completed by the employer when the employer decides to hire a particular student who is a minor. The employer includes the details regarding the amount of time and the hours which the student will be expected to work and the type of work the student will be doing.

After Part A is completed, the student must have a parent or guardian complete Part B, Parent's Consent. This simply validates that the parent or

guardian is aware of the employment conditions and approves of them. The student then must have the principal or teacher-coordinator complete Part C, School Record. This is not a complete school record. It simply verifies that the student has a minimal grasp of the English language, and it indicates what grade the student has completed.

Finally, the student must take the completed form and proof of age (birth certificate, baptismal record, etc.) to the district or county superintendent of schools. If approved, the work permit box at the top will be checked.

#### Forms to Meet Special Placement Needs

During the placement process, you as a teacher-coordinator need to be aware of legal requirements (child labor laws) and assist employers in seeing that they are meeting all of these requirements.

If you are a teacher-coordinator in a service area in which your students might be placed in union positions, you need to meet with officials of the union(s) and discuss with them how provisions for students might be included in their contracts. These provisions need to be discussed with management at the same time they are being discussed with union officials.

In some instances, you may also find it necessary to assist employers in obtaining information concerning their federal and/or state wage and hour classifications. In order to accomplish this, all you need to do is to contact the nearest office of the U.S. Department of Labor (Wage and Hour Division). These offices will be able to supply you with all necessary information as well as all necessary forms, publications, etc., which you may need.

You should keep in mind that, if there is a difference between federal and state standards, the higher (dollar amount) is the one which will apply. For example, if your state indicates that the minimum wage for a particular occupation is \$2.00 per hour, and the federal guidelines indicate a mini-

mum wage of \$2.10 per hour for the same occupation, the \$2.10 would be the wage which would need to be paid.

There may be times and/or situations when it is desirable, in terms of benefits to a student, to place that student in a situation at subminimum wages. There are provisions within wage and hour legislation which allow for this type of special placement. Sample 4 is an example of the form needed by employers to request approval to pay a student a subminimum wage. This is not a widely used procedure and, as a teacher-coordinator, you should make certain that the quantity and quality of training which will be received justify the use of subminimum wages.

Because of the nature of the work for which they are being trained, some students will need to be employed in what have been legally defined as hazardous occupations (e.g., coal-mine occupations, logging occupations). If you find that this is true of one of your students, contact the nearest office of the Department of Labor to obtain all necessary information for placing the student in such a position.

e for approval are the following:

- (1) the training even though it includes actual operation of the facilities of the employer is similar to that which would be owen in a vocational school;
- (2) the training is for the benefit of the trainees or students:
- (3) the trainess or students do not displace regular employees, but work under their clos a observation
- (4) the employer that provides the training derives no immediate advantage from the activitie e of the train ents, and on occasion his operations may actually be impeded;
- (5) the trainess of students are not necessarily entitled to a job at the conclusion of the training period; and
- (5) The amprover and the trainees or students understand that the trainees or students are not entitled to wages for the time spent in training.

#### RESPONSIBILITIES

The STUDENT-LEARNER considers his job experience as contributing to his career objectives and agrees

- To be regular in attendance, both in school and on the job.
- 2. To perform his training station responsibilities and classroom responsibilities in an efficient manner
- I To show horiesty punctuality, courtesy, a cooperative attitude, proper health and grooming habits, appropriate dress, and a willingness to learn.
- 4. To conform to the rules and regulations of the training station
- it the teacher-coordinator with necessary information about his training program and to complete promptly all necessary reports.
- to consult the seacher-coordinator about any difficulties arising at the training station or, related to his training
- 7. To participate in those cocurricular school activities that are required in connection with the cooperative vocational aducation program.

The FARENTS of the student-learner; realizing the importance of the training program in the student-learner's ing his career objectives, agrees:

- A la crecurage the student learner to carry out effectively his duties and responsibilities.
- 23 To share the responsibility for the safety and conduct of the student learner while he is traveling to and from the school, the training station, and his home.

#### **Training Agreement**

The training agreement is the agreement between the school, employer, parent, and student. It clarifies program policies and procedures, specifies that a training plan will be followed, and outlines the specific responsibilities of each party involved. It should also include the following:

- student's career objective
- occupation(s) to be taught
- beginning and ending dates of the training period
- average number of hours per week the student will be employed
- maximum and minimum hours to be worked per day and per week
- rate of pay student is to receive
- · conditions for increases in wages
- amount of school credit to be earned (determined by district or state level authorities)
- cooperatively arranged school and work schedules
- released time provided for students during normal school hours for on-the-job training
- time for student to participate in extracurricular activities such as club activities, sports events, etc., that fall during working hours
- compliance with federal, state, and local labor laws (e.g., meets minimum wages, maximum working hours, etc.)
- name, date of birth, address, and telephone number of student
- name, address, and telephone number of school and/or teacher coordinator
- name and position of the on-the-job instructor
- effective date of the agreement

The training agreement is not a legally binding document. Rather, it is a businesslike way of finalizing the terms of student employment, communicating the provisions to each of the concerned parties, and ensuring that the teacher-coordinator is consulted before any changes are

made in a student's placement. The teacher-coordinator needs to carefully explain to all parties what the agreement is for, and what it contains. He/she then needs to obtain the signature of each party: employer, student, parents. The school also needs to have a representative sign the agreement; the teacher-coordinator usually acts as the school representative. Each of these parties should be given a copy of the agreement.

Samples 5–8 are examples of training agreements. When you look at these samples, note the responsibilities listed in each, and the variations among the four forms. Notice that Sample 6 is a checklist which can be adapted to particular situations by checking the responsibilities which apply.

In discussing the work permit and the training agreement, it was mentioned that these forms needed to stipulate hours and wages. At some point in the placement process, the student, the employer, and the teacher-coordinator need to discuss and agree on acceptable hours and wages. However, the teacher-coordinator must be fully versed in state and federal child labor standards. Before discussing hours and wages with a student and employer, the teacher-coordinator should review these wage and hour laws, and prepare guidelines for minimum and maximum hours and wages.

Criteria for approval are the following:		

- (1) the training even though it includes actual operation of the facilities of the employer is similar to that which would be given in a vocational school;
- (2) the training is for the benefit of the trainees or students;
- (3) the trainees of students do not displace regular employees, but work under their close observation;
- (4) the employer that provides the training derives no immediate advantage from the activities of the trainees of students, and on occasion his operations may actually be impeded;
- (5) the trainess of students are not necessarily entitled to a job at the conclusion of the training period, and
- (6) the employer and the trainees or students understand that the trainees or students are not entitled to wages for the time spent in training.

#### RESPONSIBILITIES

The STUDENT-LEARNER considers his job experience as contributing to his career objectives and agrees

- To be regular in attendance, both in school and on the job.
- 2. To perform his training station responsibilities and classroom responsibilities in an efficient manner.
- 3: To show honesty, punctuality, courtesy, a cooperative attitude, proper health and grooming habite, appropriate dress and a willingness to learn.
- 4. To conform to the rules and regulations of the training station.
- 5. To furnish the teacher-coordinator with necessary information about his training program and to complete promptly all necessary reports.
- 6. To consult the leacher-coordinator about any difficulties arising at the training station or related to his training program.
- 7. To participate in those cocurricular school activities that are required in connection with the cooperative vocational education program.

The PARENTS of the student-learner, realizing the Importance of the training program in the student-learners ettaining his career objectives, agrees:

- ி To encourage the student-learner to carry out effectively his duties and responsibilities.
- 2. To share the responsibility for the safety and conduct of the student-learner while he is travelling to and from the school, the training station, and his home.

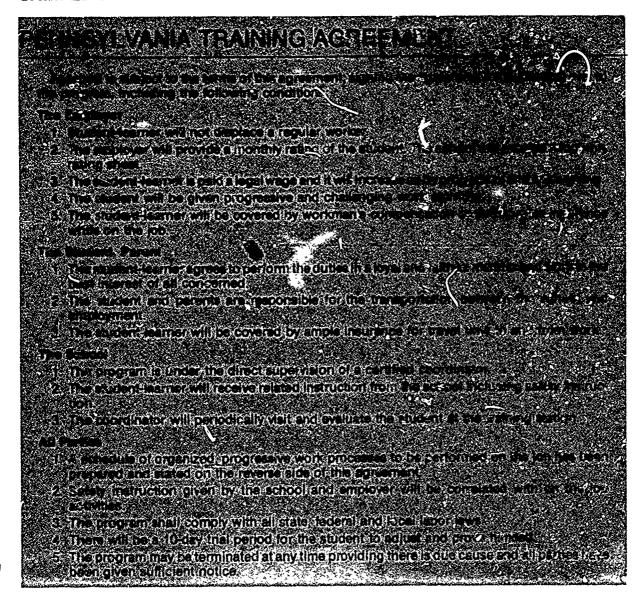

The TRAINING STATION recognizing that a training plan is being followed and that close supervision of the samer will be needed, agree: 1 . To provide a variety of work experiences for the student-learner that will contribute to the attainment of his To provide training for the student for at least the m namum listed number of hours each day and sech week for the entire training period. To amere to self-receral and State regulations regarding child labor laws and other applicable requations meet in the evaluation of the student-learner 5. To provide stree for Scrautiation with the reacher-coordinator concerning the student-learner and to discuss with the teacher cook climator, any difficulties the student-learner may be having the student second of the material and occupational guidance for the student seamer. TITY TEACHER-COORDINATOR representing the school will coordinate the training program toward a setisfaparett an of the student-learner for his occupational career objective and agrees s true inscessory related classroom instruction is provided (C massa periodic) states to the training station to observe the student-learner, to consult with the training supervisor and to recder any needed assistance with training problems of the stud 3. To assist in the evaluation of the student-learner. Additional Comments: Employer 🖔 Parent Sturant-Learner Job Supervisor Date: Teacher-Coordinator

#### **Training Plan**

The completion of a training plan is probably the most vital step in placing a student on the job. It provides a summary of the competencies to be developed by the student for success in his/her chosen occupational field. It also indicates whether these competencies are to be developed at the training station, in the classroom, or both (see Samples 9–13 for examples of training plans).

Where does this list of competencies come from? In some states, training plans already exist for individual occupations. A plan of this type would have a complete listing of the competencies needed to perform successfully in a particular occupation. The teacher-coordinator uses the completed list as a checklist, checking those competencies which will be included in the training and instruction of a particular student. In other states, the teacher-coordinator is responsible for generating this list of competencies, but help and guidance are available from the following sources.

- No matter what form is to be used, input from the \*tudent is necessary. Students have career objectives and they all probably have some, at least tentative, ideas as to what sorts of learning experier ⇒s they are interested in, or feel they need. You can begin your list with the results of the student's input.
- The employer undoubtedly has an excellent fix on the competencies needed by employees in particular jobs. On-the-job instructors most assuredly know what competencies employees must have to perform successfully in their jobs. Add these inputs to your list.
- You may have noticed on the training agreement form, Sample 7, that there is a blank for the DOT Code Number. This refers to a document called the Dictionary of Occupational Titles (DOT).<sup>2</sup> The DOT provides (1) a code number for each occupation included in it, (2) job classifications and definitions, and (3) physical demands, working conditions, and training time for each job. This document can also help you in determining the competencies needed for particular occupations. Two other sources of this type are the Occupa-

tional Outlook Handbook,<sup>3</sup> published every other year by the U.S. Bureau of Labor Statistics, and Vocational Education and Occupations,<sup>4</sup> a taxonomy published by the U.S. Office of Education. The handbook uses DOT code numbers. The taxonomy uses USOE code numbers. A further source for a specific service area is Standard Industrial Classification (SIC) for Use in Distributive Education.<sup>5</sup>

- If the teacher-coordinator has expertise in analyzing occupations, he/she can develop a realistic list of the tasks, duties, and responsibilities for individual occupations or jobs.<sup>6</sup>
- Once again, do not forget your occupational advisory or craft committee. These people possess a good deal of occupational expertise and, thus, they can assist the teachercoordinator in analyzing an occupation and preparing a plan.

When the teacher-coordinator has a good fix on the competencies suggested by (1) the student, (2) the employer, (3) the job analysis, and (4) the advisory or craft committee, then a final plan can be developed jointly by the student, employer or onthe-job instructor, and the teacher-coordinator. In the final plan, broad occupational areas of training and specific experiences for developing competencies are identified, competencies are logically sequenced, and the plan specifies where the student will receive instruction for each competency—on the job, in school, or both.

Space should be provided on the training plan for entering the employer's periodic rating of the student's performance on the job. Copies of the final plan must then be distributed to each of the parties involved.

Once a workable plan is developed for a student in a specific training station, it can be adapted for other students who are placed there or in similar jobs. The training plan, however, should always be adapted to the individual student and the specific training station.

<sup>2.</sup> U.S. Department of Lebor, Bureau of Employment Security, Dictionary of Occupational Titles, Volumes Land II, 1965. (NOTE, Updated editions of the DOT are published periodically.)

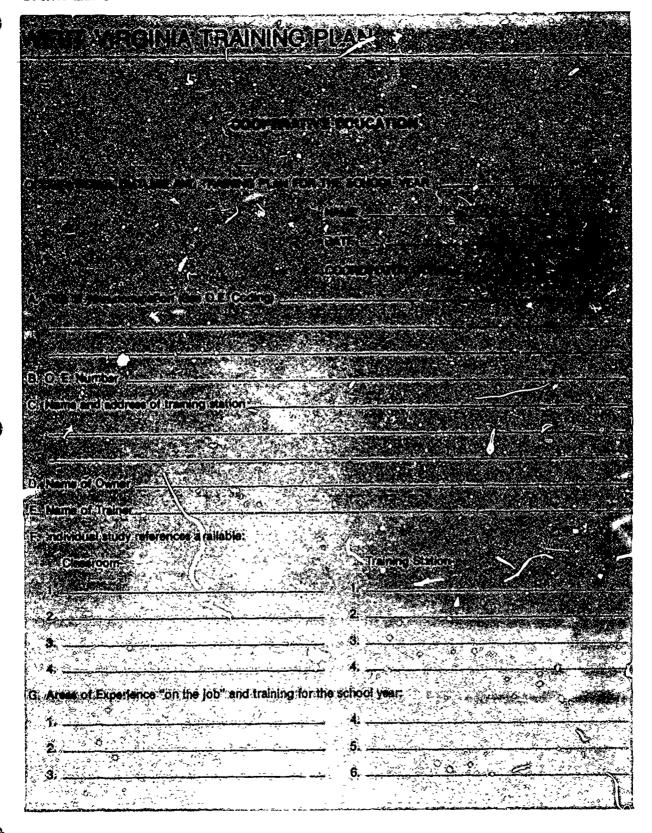

<sup>3.</sup> U.S. Department of Labor, Bureau of Labor Statistics. Occupational Outlook Handbook, Bulletin 1700, Current Edition.

<sup>4.</sup> U.S. Office of Education, Vocational Education and Occupations (Washington, DC; U.S. Government Printing Office).

<sup>5.</sup> U.S. Office of Education, Standard Industrial Classification (SIC) for Use in Distributive Education (Washington, DC: U.S. Government Printing Office).

<sup>6.</sup> To gain skill in analyzing an occupation, you may wish to refer to Module A-7, Conduct an Occupational Analysis.

				المراجعة المستحددة	

The training plan is always subject to change as the student progresses through the program and the student's strengths and weaknesses are uncovered. The coordinator and the training sponsor will often find it necessary to alter and add to the original plan. A time schedule of job rotation is a good thing to have in the plan, but with the understanding that the student is rotated only when he/she achieves satisfactory performance.

In order to have the most up-to-date and complete information regarding the legal considerations involved in placing students on the job, you need to familiarize yourself with the procedures and standards published by the U.S. Department of Labor, Wage and Hour Division. If there is a local office of the U.S. Department of Labor located conveniently near you, you may contact the Wage and Hour Division to obtain the information you need. Persons employed there are very willing to assist you, and their publications covering the information you need are available free of charge. These publications should also be available through the library or your resource center.

Examples of the Wage-Hour Division publications you should obtain are (1) Bulletin #101 on hazardous occupations: (2) Bulletin #158 on state child labor standards; (3) Bulletin #1282 on the Fair Labor Standards Act; (4) Bulletin #1330 on child labor provisions of the Fair Labor Standards Act; and (5) Bulletin #1343 on employment of studens.

By talking with persons at the Wage and Hour Division and/or reviewing the sections of their publications pertaining to your service area and your state, you should be able to obtain the information you need to place students on the job in accordance with federal and state standards.

For further information on the techniques and procedures for placing co-op students on the job, you may wish to read sections dealing with this topic in the supplementary references, A Guide for Cooperative Vocational Education, Mason and Haines, Cooperative Occupational Education and Work Experience in the Curriculum; and/or Meyer, Crawford, and Klaurens, Coordination in Cooperative Vocational Education.

You may wish to view the videotapes, "Training Plans," and "Placing Students" from the series on Coordinating Techniques by Richardson and Beall, Colorado State University. "Training Plans" shows the steps in the development of a training plan: (1) the teacher-coordinator and sponsor meet to review the on-job portion of the plan completed by the sponsor; (2) the teacher-coordinator and student meet to review the in-school portion of the plan completed by the student; and (3) the teacher-coordinator, sponsor, and student meet to discuss and fir alize the plan. "Placing Students" shows the first meeting between the teacher-coordinator and onthe-job instructor following student selection. During this meeting, the teacher-coordinator reviews the program, training agreement, student duties, and evaluation forms with the on-the-job instructor.

When you are actually working as a teacher-coordinator, one of your responsibilities is to explain to prospective employers the legal provisions for employing cooperative students. An excellent technique for doing this is to prepare a brochure for employers summarizing the key information they need to know. You may wish to prepare a rough draft or mock-up of a brochure you could use for this purpose. Module G-3, Develop Brochures to Promote Your Vocational Program, could be of assistance should you decide to work on this activity.

You may wish to develop a list of the occupations in your service area which are considered to be "hazardous" by federal and state standards. This information is available in the Wage and Hour Division publications you located in this learning experience.

The following items check your comprehension of the material in the information sheet, Placing a Student on the Job, pp. 9-34 and in the Wage and Hour Division publications.

#### **SELF-CHECK**

#### i. Essay:

Each of the four items below requires a short essay-type response. Please explain fully, but briefly, and make sure you respond to all parts of each item.

1. Why is it a good practice to have students apply for their training position rather than assigning them to a specific training station?

2. What are the essential elements in a training agreement and what purposes does the training agreement serve?

3. Who should be involved in the preparation of the training plan, and why?

4. What purpose does a training plan serve in the cooperative vocational education program?

### II: Outline:

Using the information you have obtained from the required reading or from the Department of Labor, prepare an outline of federal and state requirements regarding:

- minimum age for employment
- employment certificates required
- maximum number of hours per day and hours per week of employment
- night work prohibitions
- mandatory meal periods
- · compulsory hours of school attendance
- hazardous occupation permits
- permits for subminimal wages
- union contract provisions

Also include in your outline any special provisions which may apply to students in your service area which are not included in the above list. (Remember that if state standards are higher than federal standards, the state standards prevail.)

Compare your written responses on the Self-Check with the Model Answers given below. For part I, your responses need not exactly duplicate the model responses, however, you should have covered the same major points. For part II, your outline must meet the standards explained in the model response.

# **MODEL ANSWERS**

### I. Essay:

- 1. There are several reasons why it is a desirable practice to have students apply for their training positions. One reason is that the students need to have practice in actually applying for a job and to realize the importance of being able to present themselves well. By having the student apply, employers maintain their right to select the individual who will best fit the position and the firm. This process also allows the teacher-coordinator to work with employers in determining where a student needs help in improving his/her ability to interview successfully.
- 2. The training agreement not only states the specific responsibilities of all of the parties (school, student, employer, parents), it also covers such necessary items as wages (what the beginning wage shall be, any provisions for raises); hours of employment (both hours of the day and what the minimum and/or maximum number of hours per week should be); the exact position that the student will have; who will be responsible to serve as the on-the-job instructor; etc.

The agreement also helps to clarify some of the program policies such as, what responsibility the student has for notifying the employer if he or she is going to miss work, what happens, as far as going to work is concerned, if the student is absent from school, what the exact procedure is for removing the student from the training station by any of the parties request.

3. The teacher-coordinator has the major responsibility for the development of the training plan, but the student and the employer and/or onthe-job instructor should also be involved. The teacher-coordinator will have the major re-

sponsibility for seeing that the knowledge, skills, concepts, and attitudes needed by the student are outlined in the plan. Students are the persons most affected by the plan and should, therefore, be involved in its preparation in order to help set goals and to know what will be expected of them.

The employer and/cr on-the-job instructor need to be involved since they will be responsible for providing a part of the training and they also can provide guidance and assistance in terms of what the student needs to be successful in today's job market. The occupational advisory or craft committee should review the plans once they are developed in order to ensure that all elements have been included and to provide additional material and/or resources if needed.

4. The training plan actually serves as the basis for determining the curriculum in a cooperative vocational education program. The plan helps all parties involved in the training (student, onthe-job instructor, and the teacher-coordinator) to understand what training will take place and where it will be provided (either in school or on the job). It will also help to ensure that students develop the knowledge, skills, concepts, and attitudes needed for success in their chosen occupation. The final purpose of the training plan is that it provides an exculent basis for evaluating the student, both in class and on the job.

### II. Outline:

The model answer for this item is contained within the Wage and Hour Division publications.

LEVEL OF PEPFORMANCE: For part I, your responses should have covered the same major points as the model responses. For part II, the information in your outline should agree exactly with the information contained in the Wage and Hour Division publications. If you missed some points or have questions about any additional points you made, review the material in the information sheet, Flacing a Student on the Job, pp. 9–34, and the Wage and Hour Division publications, or check with your resource person if necessary.

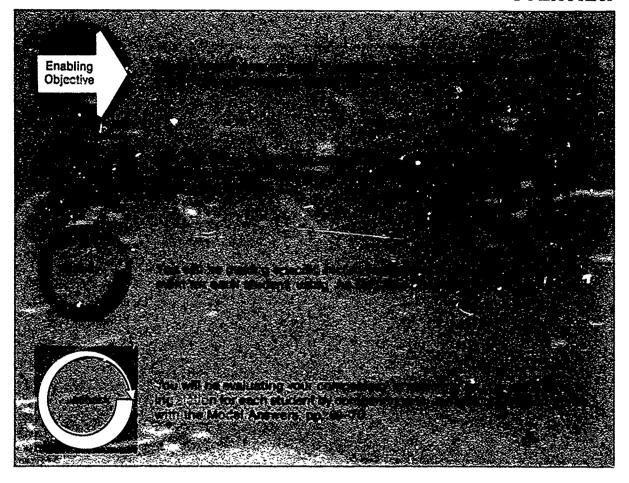

# **NOTES**

# Learning Experience II

# **OVERVIEW**

On pp. 43-64, you will find a set of data for each of three prospective cooperative students: Mary Lou Dickson, Betty Scott, and Wayne Moore. Included in the data provided on each student are the following items:

- an application for admission to the cooperative program which has been completed by the student
- the student's cumulative record
- an analysis of the student's recruitment interview, written by you, the teacher-coordinator
- three teachers' recommendations as to the student's strengths and weaknesses

Review the data for each student. As you review, look for information which would affect that student's job placement.

### COORDINATOR'S ANALYSIS OF MARY LOU'S RECRUITMENT INTERVIEW

Appearance: Mary Lou has a weight problem that makes it hard to place her on the job.

**Poise:** Mary Lou seemed somewhat poised. She wasn't nervous and she answered all question\_ politely and calmly.

Attitude: Mary Lou appeared to be quite cooperative, however, she was rather passive. She responded to questions, but only as required.

Personality: Mary Lou seemed to lack self-confidence. She was somewhat shy and quiet in some of her responses, and she tended to minimize her skills and abilities.

**Verbal Expression:** She used some slang and most of her answers were extremely brief, but overall she spoke clearly and used fairly good grammar.

Initiative: Mary Lou seemed fairly apathetic about many things. She did not indicate any drive to become a secretary, nor did she put much effort into "selling" herself during the interview.

General Comments: Mary Lou doesn't really seem to have a clearcut or strong career goal (e.g., "any kind of office job would be okay", "I thought about being a secretary to somebody in a blg company", "I think a small office would be nice.") Contradictory information such as this suggests she hasn't given the whole idea too much thought. Her casual remark that "and maybe I could even get married" seems more to the point. It would seem that she thinks that in an office as a secretary she could find a husband; finding a husband might be the real "career goal."

Her general attitude toward almost everything discussed was highly lethargic, apathetic, and nonchalant (e.g., she'd like to lose weight, but says she can't seem to make any progress in that area, she says if she practiced more and concentrated harder, she could improve her typing and shorthand, but she doesn't seem concerned enough to act on that knowledge, she says she has no outside interests at school or at home, she knows shorthand, but says she doesn't use it to take notes in her other classes, she spends most of her spare time reading magazines or watching T.V.; etc.).

Mary Lou doesn't seem to have a very positive self-concept, this could be due to her weight problem, aggravated by the fact that her father yells at her a lot.

Stated Career Objectives: "Secretary in a small office." This is a realistic goal in terms of her course work, her grades, and her skills.

# COORDINATOR'S ANALYSIS OF BETTY'S RECRUITMENT INTERVIEW

Appearance: Her appearance is average.

Poise: Betty did not seem nervous, nor did she seem calm and self-possc\_sed Perhaps "nonchalant" best describes her bearing.

Attitude: Betty seemed to want to be cooperative and she certainly seemed eager to get a job, any job Her attitude toward the low grades and other problems was quite casual. She admitted that the problems exist, but seemed to think that if she waits, they'll go away.

Personality: She was outgoing and straightforward.

Verbal Expression: Betty's language was ful! of slang and her English was rather sloppy (e.g., "Ya," "kinda," "you know," "naw," "gittin," etc.).

Initiative: Ene has a real drive to get a job, but in terms of her grades in bookkeeping and shorthand or a career as a secretary, she didn't exhibit much concern. She said she tries and her teachers indicate that she tries, but she doesn't seem to roubled about her lack of success. She doesn't seem to see the relationship between school and getting a job.

General Comments: Betty seems to really want to get a job, but she does not really have a career objective to be a secretary. She'll take anything, "just so it's a job," and just so she can earn money. Based on the interview, it could appear that Betty does not have a very realistic view of what being in cooperative education involves or what holding a job means. She seems to think a "job" is cone magic, easy device for getting out of school and earning bunches of money.

She said things are going all right in school, and yet she's gotten D's in shorthand and bookkeeping, and may not pass shorthand. In terms of office skills, she said she can type and take shorthand, but said that she's not too good in them. However, according to her teachers, she is a good typist and she can't take shorthand well enough to pass. Her attitude did seem to verify one teacher's comment that Betty will work if she likes something (and has the skill to do it).

Betty seemed truly eager to do anything she could to get a job, and although she said any job would do, she kept coming back to office work as her 'calling' in life (e.g., "I think I'll end up working in an office anyway"). Her excessive absence in the tenth grade was due to mumps, so there doesn't seem to be an absenteeism problem.

Stated Career Objective: A job, any kind, anywhere, perhaps a secretary in an office." This is realistic if the job involves no shorthand or bookkeeping. Based on the information obtained thus far, her typing skill and pleasant personality should qualify her for some sort of office job.

### COORDINATOR'S ANALYSIS OF WAYNE'S RECRUITMENT INTERVIEW

Appearance: Wayne seemed to have a problem with cleanliness and grooming.

Polse: Wayne was not poised. He was too c sual and flippant.

Attitude: His attitude was flippant, cocky (e.g., "I'm gonna own a drive-in", "Oh I can do anything now"). His tone of voice was sullen and suspicious for the most part. His statements about school were all negative (e.g., "the other junk they teach arcund here," "I'm not learnin' nothing here anyhow").

Personality: He was open and talked freely, but i.e was slightly hostile, and his cockiness didn't help to make a positive impression.

**Ve bal Expression:** Wayne spoke sloppily. His use of the English language was sub-standard—not appropriate for interview tuations. It would not be adequate for certain jobs, especially those dealing directly with customers.

Initiative: Although he has ambitious plans to own a drive-in theater, there is some evidence that Wayne is fairly lazy. One of the rersons he took art and shop is that "they're easier." When he was hired to pass out leaflets, he only worked a month because "it was gettin' too cold for this walkin' door-to-door stuff." His initiative was mostly bravado, and he seemed irresponsible.

General Comments: Wayne had a very unrealistic view of his skills, of the skills needed to succeed in a job, and of what is involved in oecoming a theater owner. He wants to make lots of money, but has no idea of how long it takes or how much work is involved. All his questions indicate that he wants to get the best deal he can with the least effort on his part. He is weak on the ability to follow through in a job (e.g., he made a birdhouse but never hung it), and he had a tendency to shrug off any possible weakness in his attitudes and skills as "no big deal."

Career Goals: Drive-in theater owner." This is unrealistic in terms of his skills, his financial status, and his initiative. However, a theater-related job is not necessarily unrealistic.

Assume that you are a teacher-coordinator of a cooperative program. The following Decision Sheet is designed to help you make recommendations for job placement for each of the three hypothetical students, based on the data you were provided about each student. Part I concerns Mary Lou, part II concerns Betty, and part III concerns Wayne. Specific directions for responding to the items are included within each item.

### **DECISION SHEET**<sup>7</sup>

### I. Mary Lou Dickson:

- 1. Which of the three following job openings would you consider first as a potential job placement for Mary Lou? Place a check in the blank to the right which corresponds to your first choice.
  - a. Receptionist-pleasant phone voice, aptitude for figures, average typing ability.
  - b. Secretary-varied duties, public contact galore, little shorthand needed.
  - c. General office work in large company—answer phone, keep customer accounts up to date, type, and file.
- 2. In terms of future placement for students with profiles similar to Mary Lou's, which of the following jobs would you consider? In the column to the right of each job description, indicate whether you would consider or reject the job, and explain your decision briefly.

	Description of Job	Major Reasons for Selection or Rejection
а.	Cook wanted—part-time at drive-in	
b.	General office—answer phone, post ledgers, do billing.	
c.	Gas station attendant—no mechanical ability needed.	
d.	Waitress in 24-hour cafe—must be able to cope.	
е.	Extended Care facility needs young person who likes to work with people.	
f.	Grocery sacker.	
g.	Janitor for office building frem 2-4 p.m. Floor care experience helpful. Good references needed. Must have own transportation. Apply in person.	

<sup>7.</sup> Adapted from Elaine Uthe, The Cooperative Vocational Program Coordination Techniques

### II. Betty Scott:

- 1. Which of the three following job openings would you consider first as a potential job placement for Betty? Place a **check** in the blank to the right which corresponds to your first choice.
  - a. Receptionist—pleasant phone voice, aptitude for figures, average typing ability.
  - b. Secretary-varied duties, public contact galore, little shorthand needed.
  - c. General office work in large company—answer phone, keep customer accounts up to date, type, and file.
- 2. In terms of future placement for students with profiles similar to Betty Scott's, which of the following jobs would you consider? In the column to the nght of each job description, indicate whether you would consider or reject the job, and explain your decision briefly.

	Description of Job	Major Reasons for Selection or Rejection
a.	General office—answer phone, keep accounts, type, file.	
b.	General office—must like figures, machines. Choice spct for self-starter.	
c.	General office—use your art flair, typing. Small, no-pressure office.	
ď.	Trainee for bank teller.	
е.	Receptionist—pleasant phone voice, average typing.	
f.	Secretary—some shorthand, some dictaphone, phone.	
g.	Light bookkeeping—Will train.	
h.	Greet and direct customers in large garage and auto repair shop.	
i.	Sharp typist for legal office.	

### III. Wayne Moore:

- 1. Which of the three following job openings would you consider first as a potential job placement for Wayne? Place a **check** in the blank to the right which corresponds to your first choice.
  - a. Custodian—AAA office, night work, general cleaning, occasional maintenance.
  - b. Concession Stand Cashier—World Theater, previous experience in cashiering preferred, will
    consider a beginner if mature.
  - c. Custodian-Galaxie Theater, general cleaning, days, maintenance work.
- 2. In terms of future placement for other students with profiles similar to Wayne's, which of the following jobs would you consider? In the column to the right of each job description, indicate whether you would consider or reject the job, and explain your decision briefly.

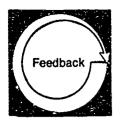

Description of Job	Major Reasons for Selection or Rajection			
a. Service trainee for color T.V. repair.				
b. Trainee for bank teller.				
c. Real estate salesperson.				
d. General clean-up work in beauty shop two hours daily.				
e. Stock clerk in department store. Must be neat.				
f. Baker's helper. Clean, neat.				
g. Gas station attendant—must do oil anc grease jobs.				
h. Delivery person in downtown area—no driving.				
i. Worker for concession stand in local theater, 4–7 p.m.				

NOTES				
				<del></del>
	<u> </u>		 	
		S	 	

Compare your written responses on the Decision Sheet with the Model Answers given below. Your responses should closely match the model responses.

# **MODEL ANSWERS8**

## I. Mary Lou Dickson:

- C would probably be the best choice. Because she lacks self-confidence, it's probably best to avoid the receptionist and the secretarial positions with their strong emphasis on public contact (and often many irate calls or callers). By working in a large office, however, Mary Lou will have an opportunity to develop confidence.
- 2. Job b is the only one which is in keeping with Mary Lou's career objective, and she has the necessary skills for this job.
  - Because she works well by herself and doesn't get along too well with others, jobs c, d, e, and f are inappropriate.
  - Because she has a weight problem which is contributing to her poor self-concept, jobs a, d, and f are less desirable because they involve working with food.
  - Job g is not in line with Mary Lou's career objective.

## II. Betty Scott:

- 1. C would probably be the best choice. However, she might also be placed at a, depending on the level of aptitude for figures that is needed. One teacher commented that Betty wanted to be "grown up," and she may perform rather well in the receptionist role. Also, if both Mary Lou and Betty interview for the position described in c, one of them is not going to get the job! So be sure to have a suitable "back up" placement.
- 2. Jobs c and e are in keeping with Betty's career objective and skills. Typing is her strong suit, and she does better without pressure, thus likes routine and pcssesses at least average typing skills, so job e is a possibility. As in #1 above, the receptionist role may allow her to feel grown

- up; however, her lack of poise may not allowher to function well in this position.
- Her lack of basic math concepts and skills would eliminate jobs a, b, d, and g since they involve accounting and bookkeeping.
- Job f requires shorthand. This would probably not be a very good job for someone who will probably not pass Shorthand I this year and who is a poor reader and speller.
- Job h does not meet her career objective, and she may lack the poise necessary to greet and direct customers.
- Job i may be the least likely choice. Betty's skills just do not measure up to the pressures of a legal office. The fact that she is a poor reader and speller may exclude her from this job. However, since typing is her strongest skill, and since she seems to show her best attitude in typing class, this job might be a good one for which to have Betty interview.

# III. Wayne Mcore:

- C would probably be the best choice, with a rotation to b later, perhaps.
- Based on Wayne's career objective, job i, working in a theater, would be the most appropriate job.
  - The fact that Wayne has cleanliness and grooming problems would hurt his chances for jobs e and f, but it he could improve in those areas, these are jobs for which he might qualify. They do not stipulate prerequisite training. His inability to work with others may make him an unsuitable baker's helper. On the other hand, " is position would seem to offer the kind of supervision he needs.
    - Wayne does not have the skills or aptitude, at this point anyway, to consider jobs a, b, c or g.

<sup>8.</sup> Adapted from Elaine Uthe. The Cooperative Vocational Program Coordination Techniques.

Jobs d and h might be good possibilities.
 Wayne has the skills necessary for job d, but would need to be supervised closely, especially since it's not a "theater" job. A

possible problem with the delivery job might arise if this person were expected to go from place to place on his own, with only minimal supervision.

**LEVEL OF PERFORMANCE:** Your recommendations should have closely matched those specified in the model responses. If you missed some points or have questions about any additional points you made, review the student data, pp. 43–64, or check with your resource person if necessary.

# Learning Experience III

### **OVERVIEW**

For a hypothetical cooperative program in your service area; develop or revise a training agreement form which could be used in blacing students. on the job

You will be developing or revising a training agreement form for a coopera-

tive program in your service area.

Your competency in developing or revising a training agreement form will be avaluated by your resource department form will be avaluated by your resource department form will be avaluated by your resource department form will be avaluated by your resource department. be evaluated by your resource person, using the Training Agreement Form. Checklist, pp. 73-74.

Develop a training agreement form which could be used for a cooperative program in **your service area.** You can either develop the form "from scratch," or locate, and adapt or revise an existing training agreement as necessary to produce an acceptable, complete, and usable form. You may use a form recommended by your state, one of the samples provided in this module (Samples 5–8), or one from another source.

After you have developed your training agreement form, arrange to have your resource person review and evaluate your form. Give him/her the Training Agreement Form Checklist, pp. 73–74, to use in evaluating your work.

## TRAINING AGREEMENT FORM CHECKLIST

**Directions:** Place an X in the NO, PARTIAL, or FULL box to indicate that each of the following performance components was not accomplished, partially accomplished, or fully accomplished. If, because of special circumstances, a performance component was not applicable, or impossible to execute, place an X in the N/A box.

**LEVEL OF PERFORMANCE**: All items must receive FULL, or N/A responses. If any item receives a NO, or PARTIAL response, review the material in the information sheet, Placing a Student on the Job, pp. 9–34, revise your training agreement form accordingly, or check with your resource person if necessary.

# **Learning Experience IV**

#### **OVERVIEW**

Assume you have been given the task of developing a training plan which will be used to determine the teacher training you will receive. This may be preservice or inservice training. It may be training required for certification or training which is part of an advanced degree or professional development program. On pp. 77–80 is a blank training plan for you to use in developing your plan. The plan you develop should reflect your situation, your training needs, and your ultimate career objective.

Current Job: If you are teaching at present, list your teaching position. If you are a preservice teacher, list the student teaching position you will, or probably will, have.

Your **Training Station** is the school in which you are teaching or will be teaching as a student teacher. If you have not been assigned to a student teaching position yet, use the high school you attended to give you a frame of reference.

Your Related Classes are those classes or workshops in which you are now enrolled.

In developing your plan, consider the following:

- your career objective
- the training and experience needed to meet that objective
- your present level of training and experience
- the additional training and experience you need to meet your career objective
- how the "training station" and "related classes" can provide that training and experience
- the order in which the training and experience should be provided

#### TRAINING PLAN

		DE T&I
Date	Student	
Ву	SUPERVISOR/COMPANY By	COORDINATOR

The job supervisor and the coordinator are responsible for designing a training program that assists the student-learner in making a successful transition from an inexeprienced student-worker to a competent adult worker. This TRAINING PLAN is an INFORMAL contract between the job supervisor and the coordinator about the responsibilities for the student's training. The job supervisor trains the student for specific tasks on the job and provides as many different learning experiences au possible throughout the year The coordinator, by knowing the type of tasks assigned to the student and the training that is provided, can then design in-school learning projects that (a) provide remedial training in basic skills if necessary, (b) utilize the job tasks and complement the training provided by the job supervisor, (c) provide training for skills that a student needs prior to rotating to a new task on the job, and/or (d) prepare the student to advance to a level nearer the stated career objective. The Training Plan should be reviewed periodically and adjusted to meet changed circumstances.

If any item receives a NONE, POOR, or FAIR response, the teacher and resour le person should meet to determine what additional activities the teacher needs to complete in order to reach competency in the weak area(s).

# ABOUT USING THE CENTER'S PBTE MODULES

#### Organization

Each module is designed to nelp you gain competency in a particular skill area considered important to teaching success. A module is made up of a series of learning experiences, some providing background information, some providing practice experiences, and others combining these two functions. Completing these experiences should enable you to achieve the terminal objective in the final learning experience. The final experience in each module always requires you to demonstrate the skill in an actual school situation when you are an intern, a student teacher, or an inservice teacher.

#### P.ocedures

Modules are designed to allow you to individualize your teacher education program. You need to take only those modules covering skills which you do not already possess. Similarly, you need not complete any learning experience within a module if you already have the skill needed to complete it. Therefore, before taking any module, you should carefully review (1) the Introduction, (2) the Objectives listed on p. 4, (3) the Overviews preceding each learning experience, and (4) the Final Experience. After comparing your present needs and competencies with the information you have read in these sections, you should be ready to make one of the following decisions:

- that you do not have the competencies indic ried, and should complete the entire module
- that you are competent in one or more of the enabling objectives leading to the final learning experience, and thus can omit that (those) learning experience(s)
- that you are already competent in this area, and ready to complete the final learning experience in order to "test out"
- that the module is inappropriate to y /ur nεeds at this time

When you are ready to take the final learning experience and have access to an actual school situation, make the necessary arrangements with your resource person. If you do not complete the final experience successfully, meet with your resource person and arrange (1) to repeat the experience, or (2) complete (or review) previous sections of the module of other related activities suggested by your resource person before attempting to repeat the final experience.

Options for recycling are also available in each of the learning experiences preceding the final experience. Any time you do not meet the minimum level of performance required to meet an objective, you and your resource persomage and your resource persomage. By This could involve (1) completing parts of the module previously skipped; (2) repeating activities, (3) reading supplementary resources or completing additional activities suggested by the resource person; (4) designing your own learning experience; or (5) completing some other activity suggested by you or your resource person.

#### **Terminology**

Actual School Situation ... refers to a situation in which you are actually working with, and responsible for, secondary operational students in a real school. An intern, a student teacher, or an inservice teacher would be functioning in an actual school situatio... If you do not have access to an actual school situation when you are taking the module, you can complete the module up to the final learning experience. You would then do the final learning experience later, i.e., when you have access to an actual school situation.

Alternate Activity or Feedback . . . refers to an item or feedback device which may substitute for required items which, due to special circumstances, you are unable to complete.

Occupational Specialty... refers to a specific area of preparation within a vocational service area (e.g., the service area Trade and Industrial Education includes occupational specialties such as automobile mochanics, welding, and electricity).

Optional Activity or Feedback refers to an item which is not required, but which is designed to supplement and enrich the required items in a learning experience.

Resource Person ... refers to the person in charge of your educational program; the professor, instructor, administrator, supervisor, or cooperating/supervising/classroom teacher who is guiding you in taking this module

Student... refers to the person who is enrolled and receiving instruction in a secondary or post-secondary educational institution.

Vocational Service Area ... refers to amajor vocational field: agricultural education, business and office education, distributive education, health occupations education, home economics education, industrial arts education, technical education, or trade and industrial education.

You or the Teacher . . . refers to the person who is taking the module

#### Levels of Performance for Final Assessment

 $N/A\dots$  The criterion-was not met because it was not applicable to the situation.

None ... No attempt was made to meet the criterion, although it was relevant.

Poor... The teacher is unable to perform this skill or has only very limited ability to perform it.

Fair . . . The teacher is unable to perform this skill in an acceptable manner, but has some ability to perform it. Good . . . The teacher is able to perform this skill in an effective manner.

Excellent . . . The teacher is able to perform tris skill in a very effective manner.
