ABSTRACT

This activity book contains charts and checklists to be used in conjunction with the Career Decision-Making (CDM) program text, CE 019 231. (See CE 019 229 for an overview of the total CDM program.) The text contains fifteen units which are sequenced to provide a career exploration and decision-making course for secondary school students. The first four units focus on the central program concepts of career decision-making, self-exploration, and occupational exploration. These units introduce basic skills that students will use throughout the program. Units 5-10 use the Career Information System component (CE 019 233-240) of the CDM program to provide experiences in exploring Worker Trait Groups and occupations in terms of personal characteristics. In units 11-13, students examine major social, environmental, and economic influences on careers. The two final units help students utilize exploration and decision-making skills in developing or clarifying career plans, including tentative occupational choices. (BM)

Unit I Activity E -- Adult's Career Pattern Chart

Directions:

1. The penciled markings are the student's own projection of your career pattern. Please make your marks in ink.
2. Draw arrows at your present age.
3. To the left of the arrows, place an X in each square where the activity was part of your career.
4. Where more than one type of activity is X'd at a given age, black in the square representing the activity which was most important to you.
5. To the right of the arrows, place an X in the square of the types of activity which will be part of your career in the future. If you are not sure, place a question mark in the square.

Unit IV Activity E – Searching for Key Words

Directions:

- a. Read the Job Description of a Chef.

Job Description of a Chef

Head cooks or chefs are in direct charge of kitchens. They supervise the work of the entire staff. Although they may do no cooking themselves — aside from specialties — they are familiar with all of the jobs done by cooks in the kitchen. They see to it that food is arranged and garnished in an attractive manner for serving. They are also familiar with the various cuts and grades of meat. Boning and trimming the meat may be part of their duties. They are responsible for the food portions and a thrifty food budget.

In some of the very large restaurants, chefs may mostly have a manager's duties and may have the title of "executive chef." Their duties then include planning and pricing menus, ordering food, and hiring, supervising, training, and firing staff. In large restaurants, assistant chefs may help the executive chef by taking over part of the kitchen's management.

Conditions of work in quantity food service vary as widely as pay and level of skill. The modern kitchen in restaurants, hotels, or in hospitals, for example, is roomy and cool. Some kitchens are small, crowded, and very hot. In all kitchens, cooks must work standing up and at a very fast pace during rush periods. The physical demands of the work can be great.

A well trained and experienced cook can become a chef. Since a chef has more of a manager's duties, the physical demands of the job may be reduced. Chefs must understand many details and be well organized. They lead and teach less skilled workers.

Unit IX Activity D – Aptitude Self-Estimate Record

Directions: In the box below, each aptitude is listed. Place an X in the column indicating the level at which you rate yourself for each aptitude. Compare yourself with other people your age. Read the aptitude descriptions and clues related to each level in your textbook. Select the level which represents your HIGHEST self-estimate. Some items in the lower level examples may describe traits you possess. In such a case, again use your highest self-estimate. Be as accurate as you can. An accurate record will help you in your career exploration.

After you have estimated your level for each aptitude, write those LEVEL NUMBERS in the proper boxes along the edge of the paper above. You will relate your aptitude self-estimates to Worker Trait Group aptitudes in the following activity.
