第一零八課

中國的重要城市

黃：今天請您講一講在商業上，經濟上，中國重要的城市。

張：我們先講上海吧。上海不但是中國的商業中心，也是一個遠東商業中心。

黃：上海是一個中國最大的商港，一定有很多商船進出吧。

張：商港可以容^{nà}納很多船，可以容^{nà}納到四十萬^{dwūn}噸以上，就是二千^{dwūn}噸到一萬^{dwūn}噸左右的船，同時也可以停^{bwò}泊七十^{sōu}艘左右。

黃：上海一定是全國航運的^{shū nyōu}樞紐了。

張：對了，因為上海正在長^{Jyāng}江的出口，長^{Jyāng}江是中國最長的^{Jyāng}江，可以通到^{Hàn}漢口，一直到重^{Ching}慶，還有別的地方。

黃：在鐵路方面呢？

張：有^{Jīng}京^{Hù}滬^{Sūng}、^{Hù}滬^{Háng}杭鐵路是我們中國最重要的鐵路交通。

黃：上海離^{ōu}歐洲跟美^{Jōu}洲的航程怎麼樣？

張：差不多一樣，所以在航運上地位最^{shì}適中。

黃: ^{Ou Jōu}歐洲, ^{Jōu}美洲各地方跟中國商業的關係,上海就佔了第一重要的地位了。

張: 對了, 所以上海金融^{yúng}勢力可以支配^{Jī pài}全中國。
中國跟外國的銀行在上海最多。

黃: 上海除了這些情形以外, 還有甚麼是很重要的?

張: 上海也是中國工業中心工廠^{chǎng}不少, 產量^{chǎn}也是很大, 上海也是全國教育出版^{yù}的中心。

黃: 上海工商業這麼發達^{dá}, 人口也一定很多吧。

張: 對了, 因為上海人口很多, 所以跟^{Nyōu Ywē}紐約一樣, 房子都向空間發展。

黃: 在上海以北, 有甚麼商業上, 經濟上, 很重要的城市?

張: 北方第一大商港是天津^{Jīng}。天津^{Jīng}商業的範^{fàn}圍^{wéi}很大, 除了上海, 沒有別的華北城市比得上。

黃: 進出口一定也很發達^{dá}吧。

張: 對了, 出口的地^{tǎn}毯^{ǎn}在世界上是很有名的。

黃: 在東北有甚麼重要的城市?

張: 我就說一個吧, ^{Shěn Yáng}瀋陽也是全國最大城市的。

* 它 tā: it (New term)

一個。

黃：為甚麼 Shěn Yáng 是一個重要的城市？
瀋陽

張：因為 Shěn Yáng 是東北政治、軍事、經濟、文化的中心。
瀋陽

黃：在那兒商業工業很發達麼？

張：工廠很多。中國有名的 Shěn Yáng 兵工廠就
瀋陽 在那兒。農產也豐富極了。

黃：請你說幾個中國風景很美的地方吧。

張：中國地方那麼大，美的地方多極了。可是最有名的地方可以算是 Háng Jōu 的 Hú。
杭州 的 西湖。

黃：請你說一說吧。

張：Háng Jōu 在一一二九年 Sòng Cháu 的時候是一個
杭州 宋朝 的首都。現在是 Jè Jyāng 省的省會。出產很多東西，特別是 Sz Háng Jōu 的 Hú 風景好，是因為有 Hú 山、Jyāng 海集合在一個地方。一年四季的風景不同。

黃：到那兒去玩的人一定很多吧。

張：多極了。在中國文學上常常說到 Hú 的美。不少人到那兒去畫畫兒。

黃：聽說 Gwèi Lín 的風景也不錯。
桂林

張：對了，Gwèi Lín 文化發達也很早。城是用白石頭
建築的，非常堅固。Gwèi Lín 城內外都有樣子
很奇怪的山，奇怪的山洞。

黃：Gwèi Lín 有山有沒有水？

張：當然水也美極了。有一條 Jyāng 叫 Gwèi Jyāng 水
流得很快，船在 Jyāng 上走危險極了。可是 Jyāng
的兩岸都是很高的山峯，樣子很奇怪，有的
像馬，甚麼的。風景好像畫兒似的。

黃：我聽說 Jyāng 西省有一個有名的山，中國人跟
外國人常在夏天的時候到那兒去住。那個山
叫甚麼名字？

張：我想是 lú 山吧。lú 山美極了。山有一千五百公
尺高。三面都是水。山上有九個山峯，山上甚
麼地方都有水，樹多極了。最特別的是 yún tsai
天天常有雲彩，有時候看得見東西，有時候
看不見東西，人叫這風景作 "yún 海" 真美。

Translation, Basic Dialogue
The Important Cities of China

- Hwáng: Please tell me something about cities in China that are important both commercially and economically.
- Jāng: Let us talk about Shanghai first. Shanghai is not only the center of commerce in China but also the center of commerce in the Far East.
- Hwáng: Shanghai is the largest seaport of China. There must be a very large number of ships coming in and going out.
- Jāng: That port can accommodate very many ships, the total capacity amounting to over 400,000 tons. As many as 70 ships varying from 2000 tons to 10,000 tons can dock there at the same time.
- Hwáng: Shanghai certainly must be the national shipping center.
- Jāng: That is correct. The outlet of the Yangtze River into the ocean is at Shanghai. It is the longest river in China and directly empties into the ocean. The other end reaches Chungking (Chung-ching) and other places.
- Hwáng: How about railways?
- Jāng: There are the Nanking-Shanghai railway, Wusung-Shanghai railway, and the Shanghai-Hangchow railway. These are the most important of China's railway transportation.
- Hwáng: How far are the navigational routes from Europe and American to Shanghai?
- Jāng: They are almost the same. So it is the most appropriate center for navigation.
- Hwáng: As far as China's trade relations with Europe and America are concerned, Shanghai occupies first place.
- Jāng: That is correct. Therefore, the financial influence of Shanghai can dominate the whole of China. Most of the Chinese and American banks are located in Shanghai.

- Hwáng: In addition to the above, is Shanghai important in any other way?
- Jāng: Shanghai is also the industrial center of China. There are quite a few factories, and production here is also abundant. It is also the center of education, and publication.
- Hwáng: Since industry and commerce are so well-developed, there must also be a big population.
- Jāng: Yes, since Shanghai has a very big population, as in New York, it is expanding skyward.
- Hwáng: To the North of Shanghai, are there any commercially and economically important cities?
- Jāng: The number one seaport in North China is Tientsin. The scope of commerce in Tientsin is very large. Besides Shanghai no other city can match it.
- Hwáng: Import-export trade must be also very well developed.
- Jāng: Yes, its export of carpet is world-famous.
- Hwáng: What are the important cities in the Northeast?
- Jāng: Let me mention one. Mukden is also one of the biggest cities in the nation.
- Hwáng: Why is Mukden an important city?
- Jāng: Because Mukden is the political, economical, and cultural center of the Northeast.
- Hwáng: Are commerce and industry very well developed there?
- Jāng: There are many factories. The well-known Chinese Mukden Arsenal is located there. Mukden's agricultural products are also very abundant.
- Hwáng: Please mention a few scenic spots in China.
- Jāng: In the broad expanse of China, there are very many beautiful places, but the most famous of these is the West Lake in Hangchow.
- Hwáng: Please describe it a little.
- Jāng: Hangchow was the capital of the Sung Dynasty in 1129. It is the provincial capital of Chekiang at the present time. It has many products, particularly silk.

The scenery of West Lake in Hangchow is very beautiful because a lake, many hills, rivers, and the ocean are all located in its vicinity. Each season has its own beauty.

Hwáng: There must be lots of people going there.

Jāng: Very many. Chinese literature often describes the beauty of the West Lake. Lots of people go there to paint the scenery.

Hwáng: It is said the scenery in Kwei-Lin is also quite pretty.

Jāng: Yes, the culture in Kwei-Lin also developed quite early. The city wall was built with white stone, and is extremely sturdy. Inside, as well as outside, the city of Kwei-Lin there are odd-looking hills and caves.

Hwáng: Kwei-Lin has hills, does it also have rivers?

Jāng: Naturally. Its river is also beautiful. There is a river called "Kwei River". Its flow is rapid and it is very dangerous to sail on it. Both of its banks are high cliffs. The appearance is very odd. Some look like horses and other objects. The scenery looks like a painting.

Hwáng: I heard that there is a famous mountain where Chinese and foreigners often spend the summer. What is its name?

Jāng: I think it is the Lu Mountain (Lú Shān). It is extremely beautiful. It is about 1500 meters high, surrounded on three sides by water. There are nine cliffs. Water can be found everywhere on the mountain. It is covered with a lot of trees. Especially unique are the clouds. It is cloudy most of the time. Sometimes the view is clear and sometimes not. It is generally called the "sea of clouds" and is really pretty.

國語四聲

中文一共有四萬個字，可是國語只有四百三十個字音，平均每個字音有一百個字，每一個字音又分成四聲，於是同音同聲的字就減到少到差不多二十個字，四聲的聲是一個音的高低，把一個音念的高一點兒，念的低一點兒，在有些語言沒甚麼關係，可是在中文一個字音的高低造成不同的意思，比方說 ^{shēng} 升 是升旗，^{shéng} 繩 是繩，^{suǒ} 索 是省，^{shěng} 省 是省錢，^{shèng} 聖 是聖經，四聲是中國字發音的一部分，一定要說的很準。同音同聲的字雖然減少到平均二十個，可是還是太多，人說「yí yè」不知道是「一夜」還是「一頁」，這麼說來中國話好像很難似的，其實我們說話不就單說一兩個字的，所以這種情形很少發生。

國語的四聲是陰平(第一聲)陽平(第二聲)上聲(第三聲)去聲(第四聲)四聲當中只有陰平是一條直線,別的都是升高降低的,不懂中文的聽起來好像唱歌似的。

B. 句子

- (一)升旗的時候應當向國旗舉手敬禮。
- (二)天陰了,像要下雨似的,命令他們別出去。
- (三)登陸的時候,有軍的掩護,可以減少傷亡。
- (四)他畢業,最好送他一本聖經,文經濟又有用。
- (五)報告的第一頁是關於雙方繼續派兵的消息。
- (六)一位廣播員說,國民黨領導人民推翻滿清政府。
- (七)每人帶着一條繩,跟別的工具,去作了一次爬山的訓練。
- (八)中國有一句俗話的意思是,兩個相爭,第三個人得到好處。
- (九)翻譯官到海邊兒晒太陽去了,現在翻譯的

- The instructor will utter these sounds and ask students to write them down in both systems on the back of this sheet.
- Review all the sounds introduced in the previous lesson by asking students to write them down in both systems.

第一百零九課

第一部 對話

張排長給王連長報告他那排過河攻擊的經過。

張：連長，我現在給您報告這次攻擊的情形。

王：你們回來了，真好。弟兄們都回來了麼？

張：這次就有兩個弟兄死了。受傷的七個人員損失不算多。

王：你這排是甚麼時候到的河那邊兒？過河的情形都好吧。

張：我們昨天晚上十點半開始過河，三十分鐘以後就到了河那邊兒。

王：河那邊兒的地形怎麼樣？

張：我們到了河那邊兒，沿着河的地方很平。

可是在河的左邊兒跟右邊兒都有一
座小山。

王：那兩座小山上有沒有敵人？

張：幸虧沒有。要是沒有共產黨的兵，我們的
側翼就完全暴露了。

王：你派人去佔領那座小山了麼？

張：我派第一步槍班去佔領左邊那座小
山，又派第二步槍班去佔領右邊的那
座小山，很快的就都被我們佔領了。

王：第三步槍班是不是立刻開始正面攻
擊了呢？

張：我們一過河除了重兵器班在河邊挖
了很多散兵坑跟掩體以外，另外的三
個步槍班都立刻出去攻擊。

王：敵人的陣地離河有多少碼？路上有沒
有道路阻絕？

張：敵人陣地前頭有鐵絲網，離河才五百
碼。從鐵絲網到河沒有道路阻絕。

王：破壞敵人的鐵絲網不太麻煩吧？

張：不太麻煩。第三步槍班帶了很多鉗子。弟兄們爬着前進到了鐵絲網邊上，用鉗子一會兒就把鐵絲網破壞了。

王：敵人鐵絲網後頭沒有雷區麼？

張：有的。他們的雷區有少殺傷雷。我們過去的時候有幾個弟兄們踩着地雷，地雷就爆炸了。

王：我們的弟兄們都是在雷區受傷的麼？

張：兩個弟兄立刻就死了。有五個弟兄是在雷區受傷的。幸虧救護兵立刻給他們救護，把傷口包上，担架兵就把他們送回來了。

王：那個時候你的側翼怎麼樣？敵人一定開始逆襲了吧。

張：敵人不知道我們佔領了那兩座小山，他們一邊用一連人逆襲。

王：敵人比我們多十幾倍。你側翼那兩班

人防守的住麼？

張: Sying kwai 那兩座小山的地形很特別. 容易
防守, 不容易攻擊. 他們攻擊了二十分
鐘, 人員 swün shf 損失很大, 也沒把我們那兩班
人消滅 myè.

王: 他們沒有迂迴 yú hwéi 運動的戰術麼？

張: 他們是那麼做的. Sying kwai 我們的重兵器
班 bān 用三點五英寸的火箭筒 jyàn tǔng 打他們所
以他們過不來.

王: 你現在給我說一說敵人防禦陣地的情形. 我要給參謀長報告.

張: 敵人在河那邊的防禦陣地是防禦戰
車的, 所以有很多防禦戰車. léi 雷跟防戰
車 háu 壕. 他們 háu gōu 壕溝裏的炮多半是防禦戰車
的炮. 口徑 jīng 都很大. 好像他們 háu gōu 壕溝後頭,
有幾輛 lyǎng wǒi 偽裝好的戰車. 可能也是預備
打我們戰車用的.

王: 敵人的兵種跟指派 fān 番號都知道了吧？

張: 兵種是知道了, 都是步兵炮兵跟裝甲
部隊^{fān} 番號沒法子知道。

王: 好, 你這次任務完成, 我想司令部一定
很滿意。

張: 我們這次攻擊以後, 我才發現沒有預
備隊很吃虧^{kwēi}。下次再有這樣的攻擊, 得
有預備隊為的是危險的時候可以增^{dzēng}
援^{ywán}。

王: 你說的很對, 下次攻擊得注意這個問
題。

張: 這次過河以後, 我沒派^{chī} 斥候出去偵察^{jan},
後來吃了一點虧^{kwēi}, 我下次也得注意這
一點。

王: 多打一次仗, 多一次經驗, 我們每次都
學^{lywè} 了不少戰略戰術上的經驗。

Military Subject

Translation, Basic Dialogue

Platoon Leader Jāng reported to Company Commander Wáng about his platoon's crossing the river and the attack.

Jāng: Company Commander, may I report to you about our attack?

Wáng: It is really good that you are back. Are all your men back?

Jāng: This time we lost two men, seven were wounded. The casualties cannot be considered as heavy.

Wáng: When did your platoon arrive on the other side of the river? No problem while crossing the river; I presume.

Jāng: We started crossing the river at 22:30. We reached the other side of the river in 30 minutes.

Wáng: How is the terrain on the other side of the river?

Jāng: The land on the other side, along the river is flat. There is a small hill on the left side and a small hill on the right.

Wáng: Were there any enemy troops on those hills?

Jāng: Fortunately not. If there had been Communist soldiers, our flanks would have been exposed.

Wáng: Did you send troops to occupy those hills?

Jāng: I sent the first infantry squad to occupy the left hill and the second infantry squad to occupy the right hill. We occupied both of them in no time.

Wáng: Did the third infantry squad start making a frontal attack immediately?

Jāng: As soon as we crossed the river, beside the heavy weapons squad's digging foxholes and emplacements along the river, the other three infantry squads set out to attack immediately.

Wáng: How many yards is the enemy position from the river?

Jāng: It is about 500 yards from the barbedwire entanglements.

in front of the enemy position to the river. There were no road blocks.

Wáng: Was there any trouble destroying enemy barbed wire entanglements?

Jāng: It wasn't very bad. The third infantry squad took a lot of cutters, crawled to the enemy entanglements, and cut the barbed wires in a short time.

Wáng: Was there a mine field behind the barbed wire entanglements?

Jāng: Yes. There were many anti-personnel mines in their mine field. After we crossed, some of our men stepped on the mines; the mines exploded.

Wáng: Were our men all wounded in the mine field?

Jāng: Two men died instantly. Five men were wounded in the mine field. Fortunately, the medic wrapped their wounds quickly, and the stretcher bearers took them to the rear.

Wáng: How were your flanks at that time? The enemy must have counter-attacked.

Jāng: As soon as the enemy knew that we had taken the small hills, they used one company on each flank to counter-attack us.

Wáng: The enemy had ten times our troops; how did your two platoons on the flanks hold their positions?

Jāng: Fortunately the terrain of the small hills was unique. It was easy to defend but not easy to attack. They attacked us for 20 minutes. They had heavy casualties, and were unable to annihilate our two platoons.

Wáng: Did they use tactics like the turning movements.

Jāng: They did. Fortunately our heavy weapons squad used 3.5 rocket launchers against them; therefore they could not come over.

Wáng: Please tell me how the enemy defense position was placed, so that I can brief the chief of staff.

Jāng: The enemy defense, on the other side of the river, was against tanks. Therefore there were anti-tank mines and anti-tank ditches. Most of the guns in the trench were antitank guns.

The muzzles were all large. It seemed that they had some tanks camouflaged in the trench. It is possible that they had been prepared to fight our tanks.

Wáng: Did you know the enemy arms and their designation?

Jāng: We know the arms. They had infantry, artillery, and armored troops. As to their designation, we have no way of knowing.

Wáng: Excellent. I think Headquarters will certainly be very satisfied with your accomplishments on the mission.

Jāng: After the attack we found that we did not have any reserve troops. Next time we will have to have reserves. In case of emergency, they can be used as reinforcements.

Wáng: You are right. Next time we make an attack, we will have to be alert to this problem.

Jāng: After we crossed the river, I did not send scouts to reconnoiter. We were at a little disadvantage. Next time we will have to be alert for this also.

Wáng: We gain experience after each battle. We learn a great deal about tactics and strategy from each battle.

第一百五十課
美國的重要城市

第一部 對話

黃：張先生，您到美國這麼久了，您覺得那些城市最重要呢？

張：這個問題不是我應當回答的，是你應當回答的。

黃：經濟方面當然是 ^{Nyōu Ywē} 紐約 最重要。誰都知道 ^{Nyōu} 紐約 ^{Ywē} 的 華爾街 ^{ěr} 金融 ^{rúng} 勢力 ^{JF} 支配 ^{pèi} 全美，甚至於 世界各國。

張：^{Nyōu Ywē} 紐約 除了 華爾街 以外，還有甚麼很有名？

黃：還有很多。比方說，自由神，百老 ^{hwèi} 匯 的歌 ^{Jyù} 劇 院，無線電城，跟很多 ^{bwó wù} 博物院 都是世界有名的。

張：但是很多人說 ^{JF} 芝加哥 的 ^{bwó wù} 博物院 最好，特別是他們的工業跟科學 ^{bwó wù} 博物院，^{sōu} 搜集 的東西最有 ^{Jyǎ} 價值。

黃：我也同意 ^{JF} 芝加哥 也是商業中心，而且是交通的 ^{shū nyōu} 樞紐。

張：好像美國的 ^{shǒu} 首都，或是 ^{Jōu} 州 政府的省會，都不是商業上最大的城。

黃: 對了, 華盛頓是美國首都, 沒有甚麼商業。

張: 在工業方面, 美國非常發達, 那些城最重要?

黃: 製造汽車中心的底特律 (Detroit), 有福特 (Ford), 雪佛蘭 (Chevrolet), 道奇 (Dodge), 等等大汽車公司, 每年出產幾百萬輛汽車。

張: 鋼鐵工業中心在甚麼地方?

黃: 在匹茲堡, 那個地方的鋼鐵工業太發達了。現在有紀念鋼鐵大王的各種建設。

張: 匹茲堡 (Pittsburg) 離費城遠不遠?

黃: 不遠, 費城是美國文化歷史方面最有名的城。如果您要到費城去旅行, 請您一定去看看自由鐘, 當初宣佈獨立的紀念堂, 跟當初設計美國國旗的地方。

張: 在歷史文化方面, 聽說在新英格蘭的各州都很有名, 是麼?

黃: 那是因為學校的關係, 那兒有最有名的哈佛大學, 耶魯大學, 哈佛在波士頓 (Boston), 耶魯在新港 (New Haven), 都是私立大學, 在世界上都有名。

張: 聽說西岸的司丹福 (Stanford) 大學也是有名的私立大學。

黃：美國的文化發源^{ywán}地是在美國東北部。後來慢慢的向西發展。西部除了SZ Dān Fú (Stanford)大學以外，加^{Jōu}州大學可以算是美國最大的大學的一個。

張：西部的城市，那些比較重要呢？

黃：在西^{àn}岸沿^{yán}海有五個最重要的海軍基地。從北往南說，第一是西^{yǎ}雅圖，第二是^{Pwō}波特蘭^{Lán}，第三是舊金山，第四是^{Lwò Shān Jī}洛杉磯，第五是聖第^{Yá}哥。

張：聽說^{Lwò Shān Jī}洛杉磯的海軍基地在長^{tān}灘^(Long Beach)附近。對不對？

黃：是的。美國有兩個城是因為^{sài}賽美出名的。一個是在東^{àn}岸的大西洋城 (Atlantic City)，一個是在西^{àn}岸的長^{tān}灘^(Long Beach)。大西洋城是美國小姐比賽^{sài}的地方。長^{tān}灘是世界小姐比賽^{sài}的地方。

張：好萊塢^{Lái Wū (Holly-wood)}是不是^{Lwò Shān Jī}洛杉磯的一部分？

黃：也可以那麼說。好萊塢^{Lái Wū}有很多電影公司。

張：聽說美國有^{dǔ}賭城在那兒？

黃：最有名的是^{Nwò}李諾^(Reno)跟^{Lā SZ Wēi Gé SZ}拉斯威格^(Las Vegas)。

那兩個地方結婚離婚都比較方便。

張：美國南方有甚麼重要的城市？

黃新奧爾連城 (New Orleans) 很有名。現在城裏還可
 以看見從前法國人 留下來的紀念物，也是
美國 棉花出口最多的地方。

張 佛羅里達州 (Florida) 的美亞美 (Miami) 也是一個
 有名的地方吧。聽說天氣不熱，也不冷，很多人
 到那兒去住，或是旅行。

黃 美國 可以旅行的地方多極了。比方說 耐亞嘎拉
 (Niagara) 去看大瀑布，特別是結婚以後到那兒
 去渡蜜月到黃石 公園去玩兒玩兒，也有意思
 極了。

Translation, Basic Dialogue

The Important Cities of U.S.A.

Hwáng: Mr. Jāng, you have been in the United States for some time. Which cities do you think are the most important?

Jāng: This question should not be answered by me. It should be answered by you.

Hwáng: From the economic point of view, naturally New York City is most important. Everybody knows that the financial influence of Wall Street in New York not only dominates the whole nation but also different countries of the world.

Jāng: Besides Wall Street, what other things are famous in New York?

Hwáng: There are very many. For example, the Statue of Liberty, the theaters on Broadway, Radio City Music Hall, and many museums. They are all world-famous.

Jāng: But some people say that the museums in Chicago are the best, especially the Museum of Industry and Science which has a most valuable collection.

Hwáng: I agree. Chicago is the center of commerce and also the central point of communications.

Jāng: It seems that neither the Nation's Capital nor state capitals are big commercial cities.

Hwáng: That's right. Washington, D.C. is the capital of the United States. But it does not have much trade.

Jāng: Industrially, America is very well developed. What are the most important industrial cities?

Hwáng: The center of automobile manufacture is Detroit. There are the Ford companies etc., big motor companies which produce several million cars a year.

Jāng: Where is the center of the steel industry?

Hwáng: At Pittsburgh, The steel industry there is extremely well developed. There are many buildings there at present that commemorate the Steel King.

Jāng: How far is Philadelphia from Pittsburgh?

Hwáng: Not far. Philadelphia is cultural. It is the most famous city historically. If you ever visit Philadelphia, you must go to see the Liberty Bell, the Independence Hall, and the place where the American flag was designed.

Jāng: It is said, historically and culturally, that all of the New England states are very famous. Is this true?

Hwáng: That is because of the schools there. There are the well-known Harvard University and Yale University. Harvard University is at Boston and Yale University is at New Haven. They are both private schools.

Jāng: I heard that Stanford University on the West Coast is also a famous private university.

Hwáng: The origin of American culture was in the northeastern part of the country. Later it gradually moved westward. Besides Stanford, the University of California may be considered one of the biggest universities in the United States.

Jāng: Which cities on the West Coast are considered more important, comparatively speaking?

Hwáng: Along the West Coast there are five most important naval bases. From North to South, the first one is Seattle; second Portland; third, San Francisco; fourth, Los Angeles; and fifth, San Diego.

Jāng: I heard that the naval base in Los Angeles is near Long Beach, is this true?

Hwáng: Yes. There are two American cities which became famous because beauty contests are held there. On the East Coast it is Atlantic City, and on the West Coast it is Long Beach. The beauty contest in Atlantic City elects Miss America, and the beauty contest in Long Beach elects Miss Universe.

Jāng: Is Hollywood part of Los Angeles?

Hwáng: You can say that. Hollywood has many motion picture companies.

Jāng: I heard that there is a gambling city there.

Hwáng: The most famous gambling cities are Reno and Las Vegas. It is also comparatively more convenient to get married and divorced there.

Jāng: What are the important cities in the southern part of the United States?

Hwáng: New Orleans is very famous. We still can see mementos left to us by the early French. It is also the main cotton export center.

Jāng: I presume Miami, Florida, is also a famous city. This is because the weather there is neither hot nor cold. Lots of people live or visit there.

Hwáng: There are many places one can visit in the United States. For example, people visit the Niagara Falls, especially to spend their honeymoon there. A visit to Yellowstone Park is also very interesting.

第一百一十一課

世界上重要的城市

第一部 對話

黃：張先生，我們已經把中國跟美國重要的城市都講過了。今天可以不可以把世界上其餘的重要城市講一講？

張：當然可以。我知道我們這個屋子裏的人，有人到歐洲去過，有人到南美去過，有人到非洲去過，請他們輪流說一說。

黃：好極了。第二次世界大戰以後，白查理在歐洲住了好幾年。請他先把歐洲重要城市談一談。

白：英國的倫敦，法國的巴黎，德國的柏林，你們都知道，我不必多說。我從歐洲南部說起，第一先說希臘吧。希臘是歐洲。

文化的發源地

黃：查理，你在希臘住了幾年，覺得希臘怎麼樣？

白：住了一年多希臘歷史的古蹟太多，要研究古代的藝術雕刻非到那兒去不可。我後來在意大利的羅馬住了半年。那兒的古蹟也不少。那兒天主教梵蒂岡統治全世界天主教的思想跟活動。

黃：你到了西班牙了沒有？

白：西班牙、葡萄牙都到過，各住了半年。並且看了幾次西班牙的跳舞跟鬥牛，真好。

黃：北歐的幾個國家你去過麼？

白：去過，住的時間很短。挪威、瑞典每國住了不到半年。可是我最喜歡荷蘭跟比利時，甚麼都很乾淨。荷蘭的磨房風車，很特別。

黃：歐洲中部，你去過沒有？

白：在瑞士住了兩年多，有山有水，有湖，風景真是美極了。最有名的城市是日內瓦。因為瑞士是永久中立國，所以很多國際會議都在日內瓦開。可是要是你想欣賞音樂，最好到奧國的維也納去住幾年。如果你喜歡歌劇，到意國的米蘭去住。

張：你說的很清楚。現在我們請李約翰把南美的情形說一說。

李：南美除了巴西說葡萄牙話以外，別的国家都說西班牙話。

張：為甚麼他們都說西班牙話呢？

李：因為從前南美多半是西班牙的殖民地，所以他們都還用西班牙話。

張：因為時間關係，我們得快一點兒請方文海把非洲的重要城市說一說。

方：很多人到非洲去打獵，可是我完全是

旅行的，隨便看一看，北部埃及的開羅跟亞力山大是埃及的政治中心，也是商業中心，是世界文化最早的一個發源地。

張：中部剛果一帶你去過沒有？

方：沒去過因為我喜歡看非洲的古蹟，像金字塔跟別的古代帝王的墳墓等等就在北非住的時間比較多，在中部因為水土不服不大舒服很快的就離開了。

張：關於亞洲方面我知道日本的東京朝鮮的漢城 印度的新德里都很重要。

黃：我國有甚麼重要的城市，誰知道？

高：我去過我大概知道一點兒在莫斯科有克姆林宮是他們的政治中心紅色廣場真大。

黃：後來你又到甚麼地方去了？

高：到蘇格蘭去欣賞他們民間的音樂

真不錯。我在那兒住了半個月，看見了
很多英國古代的建築。

黃：你從蘇格蘭 gē lán回來的時候，經過甚麼地
方？

高：先到愛爾蘭 ǎi ěr lán，然後經過冰島 Nyōufēnlán紐芬蘭就
回來了。

黃：那麼，你覺得甚麼地方最好？

高：我想那兒都不如我自己家裏好。

Translation, Basic Dialogue

The Important Cities of the World

Hwáng: Mr. Jāng, we have already talked about the important cities in China as well as those in the United States. Can we talk about the rest of the important cities in the world?

Jāng: Naturally, we can. I know that among the people in this room, some have visited Europe, some have been to South America, others have been in Africa. We shall ask them to take turns talking to us.

Hwáng: That is very good. After the Second World War, Charles Bái lived in Europe for several years. We'll ask him to describe the important cities of Europe first.

Bái: Concerning London in England, Paris in France, and Berlin in Germany, you are already well acquainted. I don't have to say too much about them. Now let me start with Southern Europe. First we shall mention Greece, which is the point of origin of European culture.

Hwáng: Charles, how long did you stay in Greece? What do you think of Greece?

Bái: I was there a little over a year. There are quite a few historical points of interest. If you want to do research on ancient art and sculpture, you must go there. Later, I lived at Rome in Italy for half a year. There are also many historical points of interest in Rome. Vatican City, of the Catholic faith, controls the thoughts and activities of Catholic people of the entire world.

Hwáng: Have you ever been to Spain?

Bái: Yes, I have. I stayed for half a year each at Spain and Portugal. I also watched bull fights a few times. Spanish dancing is really beautiful.

Hwáng: Have you visited the Northern European countries?

Bái: Yes, I have visited them all, but only for a very short time. In Norway, Sweden, and Denmark I stayed

less than half a year each. But I liked Holland and Belgium best. Everything was very clean. The Dutch wind mills are unique.

Hwáng: Have you been to Central Europe?

Bái: I have lived in Switzerland for more than two years. There are mountains and lakes in that country. The scenery is extremely beautiful. The most famous city is Geneva. Since Switzerland is a permanently neutral nation, most international conferences are held there. However, if you appreciate music, you better go to Vienna, Austria, and stay a few years. Or if you love operas, you better go to live in Milan, in Italy.

Jāng: You have described everything very much in detail. Now we will ask John Lee to say something about South America.

Lee: In South America, Spanish is spoken in all countries except Brazil where Portuguese is spoken.

Jāng: Why do all these countries speak Spanish?

Lee: They still speak Spanish because most of the South American countries were formerly Spanish colonies.

Jāng: On account of the time, we must ask Wén-hái Fāng to say something about important cities in Africa rather quickly.

Fāng: Lots of people have been to Africa to hunt. I went there solely to travel and look around casually. Cairo and Alexandria in North Egypt are the political centers of Egypt and also its commercial centers. Egypt is one of the points of origin of early world civilization.

Jāng: Have you ever been to the Congo in Central Africa?

Fāng: No, I have not. Since I wanted to visit the historical spots in Africa, such as the Pyramids, the ancient royal tombs, etc. I spent most of my time in North Africa. While I was in Central Africa, I could not get accustomed to the climate and got sick. As a result, I left shortly thereafter.

Jāng: As to Asia, I know that Tokyo in Japan, Seoul in Korea, and New Delhi in India, are all very important.

L. 111

Hwáng: Who knows what the important cities in Russia are?

Gáu: I have been to Russia, so I know something about it. In Moscow, there is the Kremlin. It is their political center. The Red Square is really large.

Hwáng: Afterwards, what other places did you go to?

Gáu: I went to Scotland to appreciate their folk music. It is indeed wonderful. I lived there for half a month and saw lots of ancient English architecture.

Hwáng: What places did you pass through when you came back from Scotland?

Gáu: I first went to Ireland, then returned by way of Iceland and Newfoundland.

Hwáng: Then which place do you think is best?

Gáu: I think that there is no place like home.

西藏路上

西藏四邊都是高山，一年四季都有雪，因為交通不方便，我們對西藏的情形多半不大清楚，所以很多人都希望到西藏去看看。

一九五四年秋天，我從四川省成都市坐汽車先到西康的省會康定。沿路都有新造的紀念中共革命的^{dyāu}彫刻，或是畫兒。可惜^{我對}這些^{yi}藝術並不欣賞。康定是一個山城，漢族、藏族、回族住在一塊兒。

由康定再往北走，到了一個小城。這個小城地勢很高，氣候非常冷。我們因為得在中共部隊的汽車場等着檢查，跟修理，所以在那個小城休息了幾天。後來到了昌都。昌都是管理藏人的中心地區，有很多軍隊。這些兵從前完全是本地軍隊，後來才向中共投降的。

漢族和藏族一直維持很好的關係。本來西藏有一位宗教政治領導人，讓他的弟子達賴和班禪^{chán}分管西藏。在一七一七年清朝進攻西藏，一七五五年西藏宣佈算是中國的一部分。清朝用宗教來統治西藏，讓達賴^{lài}六世管理西藏。因為達賴^{lài}跟班禪^{chán}這兩派思想不一樣，所以到了民國班禪^{chán}還不能回西藏。

第一百一十二課

世界地理

黃：我們今天討論世界地理，好不好？

張：好吧。我們換一個 ^{Jyāu} 度來研究世界的地理。
_角

黃：我知道讀世界地理，普通都把世界分成幾個
大 ^{Jōu} 幾個大洋，幾個帶，像 ^{hán} 帶，熱帶，^{wēn} 帶，等等。
_洲

張：對了。赤道在熱帶。地球分成東半球，西半球。
^{chī} 又有南極跟北極等等。
_道

黃：研究自然地理，也可以把南半球跟北半球
^{chī} 來研究。
_球

張：南北兩半球，在結構跟地形上，差別很大。

黃：最大的差別，可以說是水陸分配不平均。

張：怎麼說不平均呢？

黃：南半球，陸地少，水多。在陸地的交通綫比較
長，所以 ^{bǐ} 彼此 ^{tsz} 間貿易受了很多 ^{syàn} 限制。住的人就
_球 比北半球少得多了。到了最近一二百年才
慢慢的從北半球 ^{yí} 移來很多人口。
_球

張：說到人口問題，當然是受了自然的影響。在赤道地帶，因為 ^{hwán jīng} 環境太壞，人不多，文化也低極
_道 了。

黃：那兒的民族不必生產，所以文化不進步。這種氣候地區不合白種人住的。他們對於各種熱帶病抵抗力比較小。

張：在熱帶，沙漠，兩極這些地帶，都因為自然環境不好，所以人口很少。

黃：就是地中海地帶，跟溫帶，因為自然環境好，所以人佔優勢，文化也發展得好極了。

張：氣候跟地形影響人類真大。地中海氣候對希臘（Greek）羅馬（Roman）文化的進步是一個證明。

黃：地中海以外的地中海氣候區，像南非（South Africa）加利福尼亞（California）跟澳洲（Australia）南部，最近一兩百年也學着地中海區開發方法，成績很好。

張：世界這幾個大洲人口最多的是亞洲跟歐洲。

黃：對了，這兩洲的人口合起來佔全世界人口五分之一。

張：要是拿國家來算，中國佔第一，印度第二，蘇俄第三，美國第四。這四個算是世界人口最多的國家。有的國家人口太多得想法子解決。

黃：我剛才說南半球比北半球人口少得多。

可以向這地帶^{yí}移民。
張：對了，這地帶可以收容更多的人口，在將來世界人口中一定佔很重要的地位。

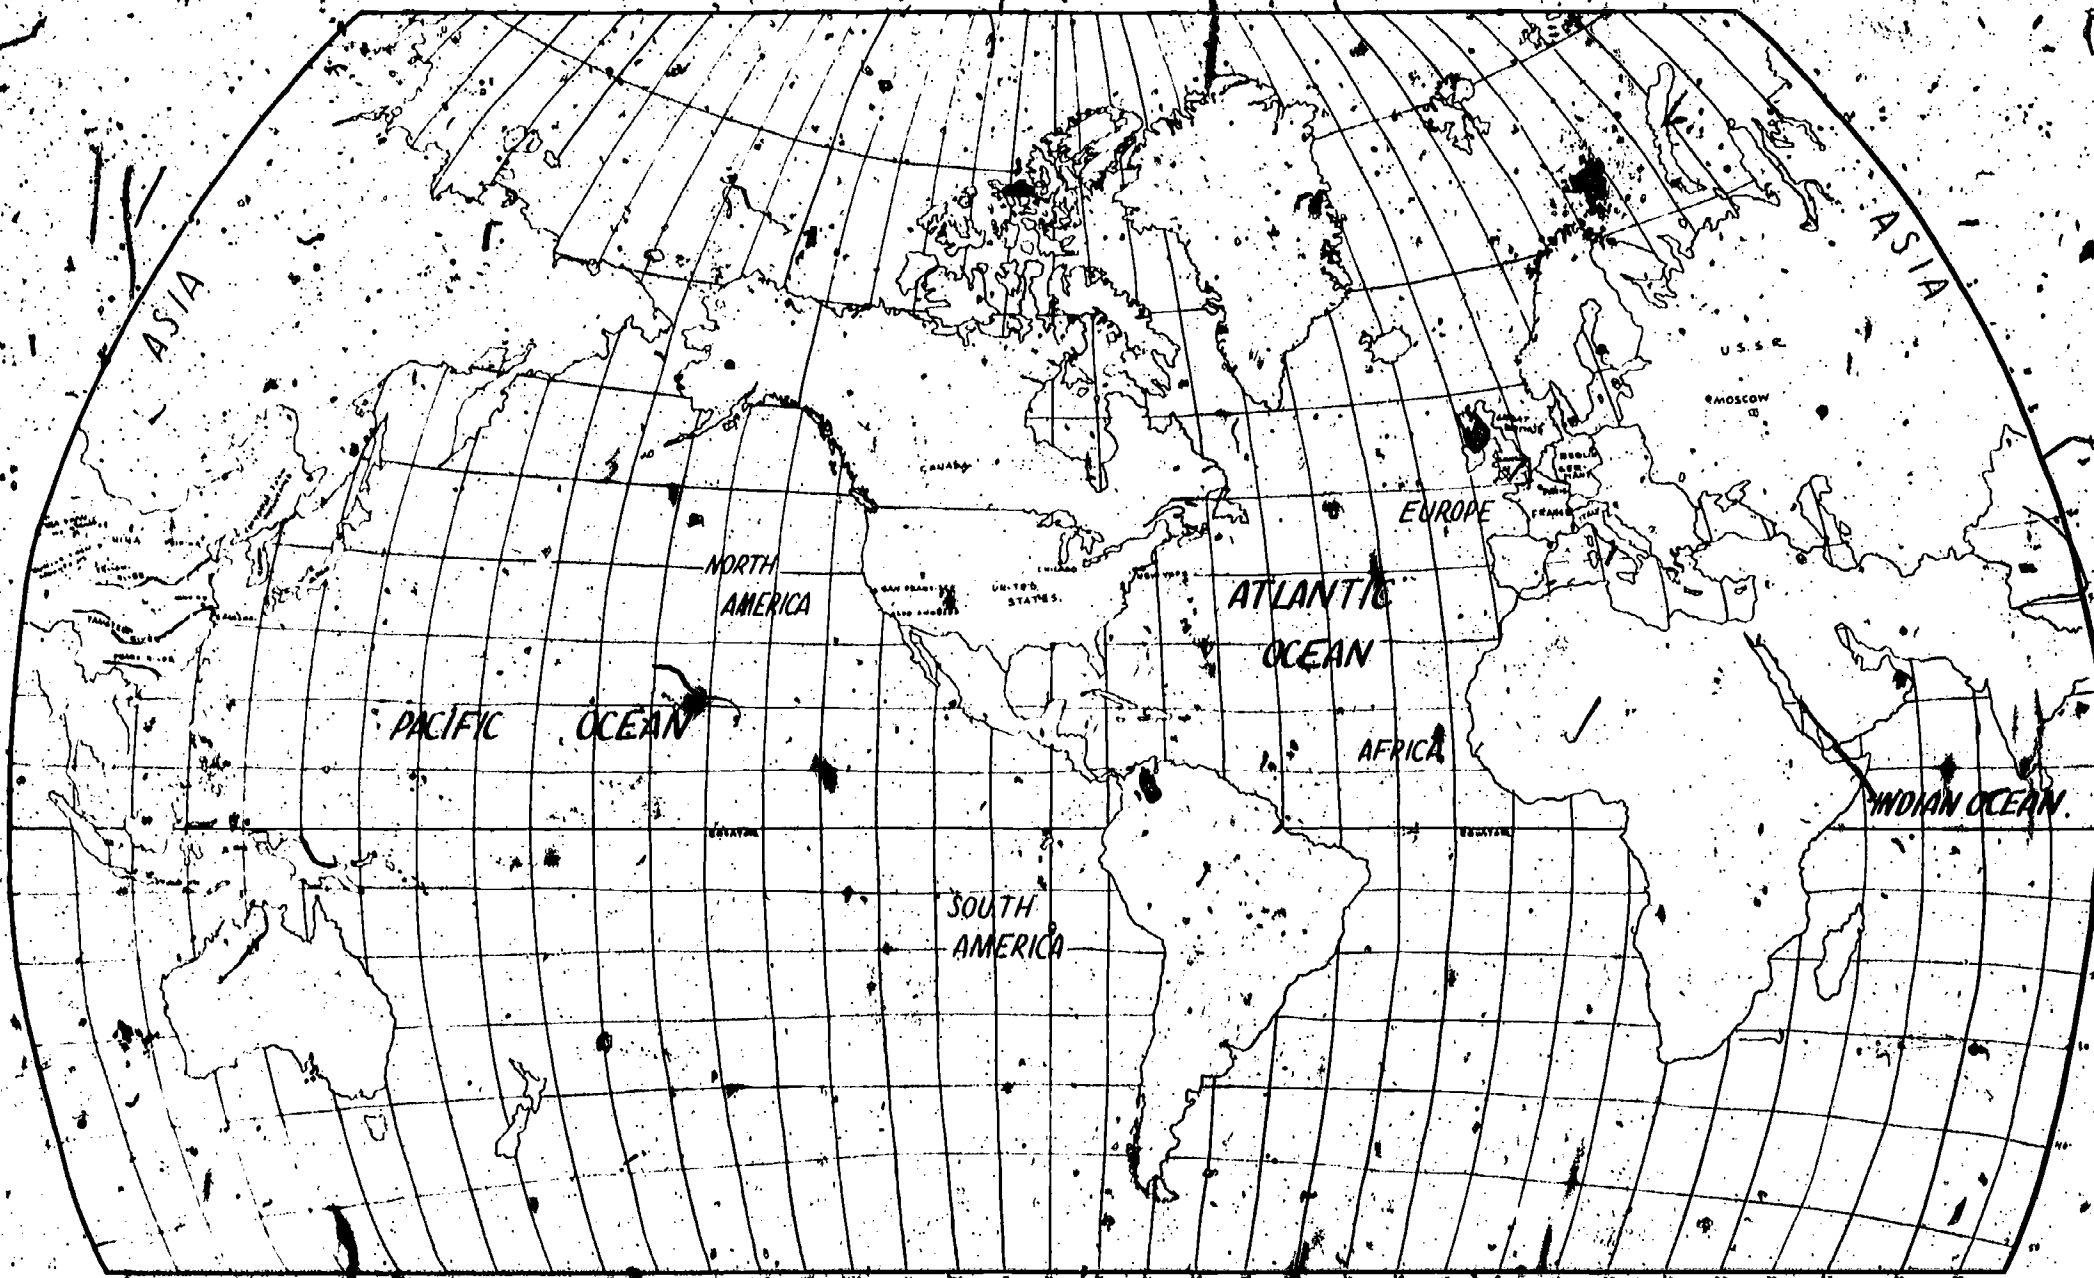

黃：白人很早就向南北美，南非，跟澳洲^{Àu Jōu Yí}移民。他們的^{yí}移民不是因為氣候的原故。

張：當然最大的原故是因為解決生活問題。

黃：可是有的是因為要有政治自由或是^{dzūng}宗教自由。無論如何，白人在歐洲^{Ōu Jōu}以外^{dzēng}增加了不少地方。

張：黃種人雖然比白種人多，可是向外頭^{yí}移民沒有白種人多。最主要的^{ywán}原故是他們不願意離開本來的地方。所以到外國去常常回到他們本來的地方。

黃：對了，世界上不少華^{chyáu}僑，他們幫助很多國家開發土地。我們今天談了不少了，以後有機會再談吧。

World Geography

Hwáng: Let us talk about world geography today.

Jāng: Fine. Let us discuss world geography from a different aspect.

Hwáng: I know that, generally, when we discuss world geography, we divide it into several continents, so many oceans, different zones, such as the Frigid Zones, the Torrid Zone, and the Temperate Zones, etc.

Jāng: This is correct. The Equator is in the Torrid Zone. The globe is divided into the Eastern Hemisphere and the Western Hemisphere. There are also the South Pole and the North Pole.

Hwáng: When one studies natural geography, one can divide the globe into the Southern Hemisphere and the Northern Hemisphere.

Jāng: When the Southern Hemisphere and the Northern Hemisphere are compared, their structure and topography are quite different.

Hwáng: The biggest difference is that the distribution of water and land is not equal.

Jāng: Why is it unequal?

Hwáng: In the Southern Hemisphere there is more water than land. Transportation routes on land are longer. Therefore, contacts between people are greatly restricted. There is much less population in this hemisphere compared to the Northern Hemisphere. In the last couple of centuries the population migrated slowly from the Northern Hemisphere to the South,

Jāng: Concerning population, it is, of course, affected by nature. Along the Equator there are few people because of bad environment, and the culture is also very primitive.

Hwáng: People living there do not need to produce things, so their civilization does not progress. The weather there is not suited to white people, as some of them have very little resistance against tropical diseases.

Jāng: In the Torrid Zone, deserts, the North Pole and the South Pole, natural environment is also very bad. So there are also very few people.

Hwáng: Only in Mediterranean regions and the Temperate Zones is man able to win out due to better natural environment. Civilization has made good progress.

Jāng: Weather and topography indeed have great effects on mankind. The contribution of the Mediterranean climate to the development of Greek and Roman culture is a clear proof.

Hwáng: Other mild climate areas, such as South Africa, California, and the northern part of Australia, have also adopted production methods used in the Mediterranean Sea regions. Results have been very good.

Jāng: Among the continents of this world, Asia and Europe have the most population.

Hwáng: Yes, the total population of these two continents is four fifths of that of the entire world.

Jāng: By countries, China has the most people; India comes second, Russia third, and the United States fourth. These four nations are countries which have the most population in the world. Some nations are so overpopulated that a solution must be sought.

Hwáng: I just said that the population of the Southern Hemisphere is much less than that of the Northern Hemisphere. People in the Northern Hemisphere can emigrate.

Jāng: Yes, the South can accommodate many more persons. The world population of the future will definitely occupy a very important position.

Hwáng: White people have colonized South America, North America, South Africa, and Australia long ago. This was not due to the weather.

Jāng: Of course, the main reason was to solve their livelihood problems.

Hwáng: But some were seeking political freedom and other religious freedom. Whatever the reason, white men have obtained much land outside of Europe.

Jāng: Although there are more people of the yellow race than of the white, there is not much colonization by the former. The main reason is that they are not willing to leave their place of birth. Therefore, even though they went overseas, quite often they would still return to the native land.

Hwāng: That is true. There are many overseas Chinese who have helped many countries to develop their land. We have already discussed a great deal today. Let us talk more about it next time.

西藏路上 (二)

A.

由西康的昌都經過幾個小城才到西藏，在公路上可以看見交界的牌子。那時候雖然是秋季，可是路上所見的已經都是一片白色了。高山一個連一個，因為雪太厚，路不夠好，每年春季化雪弄壞了很多路。沿路看見日夜不停勞動服務的人，我們的車越走越慢，最後停了下來。原來這一部分公路的下頭是冰，得修理。中共本來跟修理的人說，完成一部分就可以回家，可是現在一山又一山的修着，因為工作太累，病死的不少。還有從蘇聯來的專家，不認識這個環境，常常統計弄錯了。出事也死了很多人。吃的東西常常運不到，他們就得餓幾天。所以修路的成績壞極了。到底中共怎麼去修通這條世界上最高的公路，為了羈民呢？為

了開發呢，還是……？沿路的山上，木頭牌子上寫着「公路通了車，大家進西藏，我想西藏人有一天一定會明白，實在中共造這些路的目的，是甚麼的。

幾天以後，中共限制只有司機的可以留在那兒，所以我也就只好坐上汽車回西康去了。

第一一十三課

第一部 對話

一個中士王明要帶三個上等兵：張三、趙二、李明，出去偵察。出發以前他給那些兵很詳細的提示。

王：昨天執行官叫我到司令部去，命令我帶幾個弟兄們過河偵察敵人的情形。

張：我們這次出去巡邏要注意偵察甚麼呢？

王：執行官說，我們不知道河那邊敵人的兵力，也不知道他們是不是預備攻擊，所以才派我們出去。

趙：執行官有敵人要攻擊的情報麼？

王：執行官沒說，我想他大概有情報，他想知道敵人兵力的展開。

李：敵人要是預備攻擊，可能很多戰車跟裝

甲部隊因為我們河這邊有很多平地用裝甲部隊很合適。

王：要是敵人集中很多裝甲部隊，我們就得有很好的反戰車防禦。比方說，得請司令部給我們補給穿甲彈，戰防砲。

張：我想司令部也可以派飛機去轟炸他們的戰車，用大炮彈轟炸，一定可以讓他們受很大的損失。

王：我們現在先談一談怎麼過河。

趙：我們前線的這條河太寬，我看只有兩個可以涉水的地方，就是我們第一營跟第三營的前頭。

王：那兩個地方很好，水不太深，涉水一點問題也沒有。

李：我們這次巡邏要帶些甚麼兵器呢？

王：我想我們四個人帶衝鋒槍，發射速度跟火力都大。

張：要是敵人打算攻擊我們，一定預備很

多彈藥輜重。我們這次要是發現他們的
 彈藥補給站給司令部報告就可以去轟
 炸那些地方。

王：你說的很對。我們這次出去除了注意敵
 人的兵力以外，也得注意敵人的輜重。各
 種輜重都很要緊，不一定，是彈藥輜重。

趙：河那邊的地形您都研究好了吧。

王：在司令部，執行官給我看過一張地圖，河
 那邊有很多小山，山凹很多。山凹那兒有
 很好的路可以過各種車輛。

李：我們過了河以後看得見那些山凹麼？

王：得用望遠鏡才看得見。我們過河以後就
 用河旁邊兒的草做隱蔽。用望遠鏡偵察
 敵人的情形。

張：我們的鋼盔上頭得有偽裝吧。

王：當然得有偽裝才能不讓敵人發現。

趙：前幾天敵人對我們的陣地發射了不少
 砲彈，好像他們的砲兵陣地就在河那邊

免，我們這次也可以看看。

王：執行官說，司令部派了飛機去照相。可是因為敵人的偽裝太好，照的不清楚。這次讓我們注意偵察他們的砲兵陣地。

李：我們回來的路怎麼樣走？

王：我們在剛剛說的第一營陣地前頭過河，沿着河旁邊的草地偵察。只要偵察完了，到我們第二營前頭可以涉水的地方就可以回來。

趙：我們要過河是不是得穿長靴？

王：當然我們都得穿長靴。

張：我們今天晚上幾點鐘出發？

王：九點鐘以後天就很黑了，我們就開始過河，一會兒飯廳見。

Translation, Basic Dialogue

Sergeant Wáng Míng takes three privates first class (Jāng Sān, Jǎu Bǐ, Lǐ Míng) out to reconnoiter. Before setting out, he gives the soldiers a detailed briefing.

Wáng: Yesterday the Executive Officer called me to Headquarters and ordered me to take several men across the river and reconnoiter the enemy situation.

Jāng: To what should we pay most attention when we go out to reconnoiter this time?

Wáng: The Executive Officer said that we do not know the strength of the enemy on the other side of the river; also whether they were preparing to attack; therefore, he is sending us to find out.

Jāng: Did the Executive Officer have any intelligence report on the enemy's plan of attack?

Wáng: The Executive Officer did not say. I think he probably has reports on that. He wants to know the deployment of the enemy force.

Lǐ: If the enemy plan to attack, they possibly will use tanks and armored units. Because it is all flat land on this side of the river, which is suitable for armored units.

Wáng: If the enemy assembles many armored units, we will have to prepare a good anti-tank defense. For instance, we will have to request Headquarters to send us armor-piercing anti-tank guns.

Jāng: I think Headquarters can also send planes to bomb their tanks, using large bombs and make them suffer great losses.

Wáng: Let us first talk about how we are going to cross the river.

Jǎu: The river in our front line is too wide. I saw only two places that we could ford over. They are in front of the 1st and 3rd Battalions.

- Wáng: Those two places are good. The water is not too deep. There will be no problem for our crossing through these places.
- Lǐ: What weapons do we have to take when we go out this time?
- Wáng: I think the four of us will all take tommy guns. The speed and fire power of tommy guns are both great.
- Jāng: If the enemy plans to attack us, they will have to prepare a great deal of ammunition and supplies. If we discover their ammunition supply stations, we can report these to Headquarters, so that we can bomb those places.
- Wáng: You are correct. When we go out this time, besides paying attention to enemy strength, we will also have to pay attention to the enemy supplies. All kinds of supplies are important, not necessarily just the ammunition supply.
- Jáu: Did you study the terrain on the other side of the river?
- Wáng: The Executive Officer at Headquarters showed me a map. There are many small hills and saddles on the other side of the river. Roads in the saddles are good for all kinds of vehicles.
- Lǐ: Can we see the saddles after we cross the river?
- Wáng: We can see them only with binoculars. We will use the grass along the river as cover and use binoculars to reconnoiter enemy conditions.
- Jāng: We will need camouflage on our helmets, won't we?
- Wáng: Of course we will have to have camouflage, so that the enemy won't be able to see us.
- Jáu: Several days ago the enemy shot many shells into our position. It seems that their artillery position was right at the bank on the other side of the river.
- Wáng: The Executive Officer said that Headquarters sent airplanes to take pictures. But because the enemy's camouflage was so good, the pictures did not come out clearly. This time we are required to pay special attention to reconnoitering their artillery position.

L. 143

Lǐ: What route are we going to take when we return?

Wáng: We will cross the river in front of the First Battalion which we just mentioned and reconnoiter along the river. As soon as we finish reconnoitering, we can come across the grass land in front of the Third Battalion, and get back.

Jiǔ: Do we have to wear long boots when we cross the river?

Wáng: Of course we will have to wear long boots.

Jāng: When do we start tonight?

Wáng: After 9 O'clock, it will be very dark. We will cross the river at that time.

第一一十四課

中國歷史(一)

第一部 對話

王：今天我們談談中國的歷史。我知道你看過講中國歷史的英文書，也聽過中國的歷史故事，一定有很多問題吧。

李：聽說中國最早的歷史記載是從商朝起始的。商朝是紀元前一七六六年到紀元前一一二二年。這麼，中國的歷史就有三千七百年，為甚麼他們要說有五千年呢？

王：你說的對。中國在商朝的時候已經有了歷史記載。可是從這些最早的歷史記載裏，我們也知道了商朝以前一千多年的文明。

李：我在紐約的一個大博物院裏，看見過一些商朝的銅做的木頭做的和骨頭做的東西。那些銅做的東西上頭，有很奇怪的

字。商朝人的生活好像是農業生活。商朝人很注重宗教生活。商朝以前的中國是甚麼樣兒的呢？

王：商朝以前一千多年中國人的生活很簡單。一天到晚忙著打魚，打獵，沒有時間念書寫字。所以這一千多年的歷史都是傳說的。後來商朝的人用文字把這些傳說記下來，就成了中國上古史的一部分。

李：有些書裏說指南針，製造絲，都是在商朝以前發明的。喝茶，用筷子吃飯也是商朝以前開始的。在商朝快完的時候，中國人又有了一個重要的發明，就是用鐵做東西。後來，會用鐵武器的人把商朝打敗了。中國的歷史，又開始了一個新時代，叫周朝。（紀元前一二五五）

王：周朝在中國的上古歷史上，最重要。到了周朝，中國人活動的地方已經從黃河流域到了中國的中部長江流域。

李：為甚麼周朝^{Jōu chāu}的歷史很重要？

王：周朝^{Jōu chāu}的政治制度是一種對建制度，有很多小國家。這些小國家常常打仗。老是在競爭^{Jing}，所以政治、經濟、社會、教育、學術、文化各方面都有很大的進步。我想這就是後來的人說周朝^{Jōu chāu}歷史重要的原因^{gù}。

李：你說的紀元前三四世紀的中國各方面的情形好像歐洲^{Ōu Jōu}歷史上的希臘^{Là}時代，對人類的文明有很大的貢獻^{gòng yàn}。

王：到了紀元前第三世紀，在中國許多國家打來打去，結果就剩^{shèng}了七個大國。這七個大國裏頭秦國^{Chín}最強大。最後，在紀元前二二一年，秦國^{Chín}打敗^{bài}了另外六個國，建立了一個大帝國。中國的歷史上叫這個朝代秦朝^{Chín chāu}。（紀元前二二一——二零五）

李：從秦朝^{Chín chāu}起，中國帝國^{dì}雖然經過了很多朝代，可是到了一九一一年中國才變成了共和國。希望我們明天接著談秦朝^{Chín chāu}和秦朝^{Chín chāu}。

Translation, Basic Dialogue

Chinese History

- Wang: Today let us talk about Chinese history. I know that you have already read Chinese history in English and heard Chinese historical anecdotes. You must have some questions.
- Lee: I heard that the earliest Chinese historical records began with the Shang Dynasty. The Shang Dynasty started in 1766 B.C. and ended 1122 B.C. Thus, Chinese history is only about 3700 years old. Why do people say it dates back 5000 years?
- Wang: You are correct. During the Shang Dynasty, China already had historical records. But from these early historical records we learn that Chinese civilization dates back over another thousand years.
- Lee: In a large museum in New York I have seen some Chinese objects made of bronze, wood, and bone. Those made of bronze had lots of odd characters on them. The people of the Shang Dynasty seem to have had an agricultural life. They were quite religious. What was life like in China before the Shang Dynasty?
- Wang: The life of the Chinese people about a thousand years before the Shang Dynasty was very primitive. All day long they were busy fishing and hunting. They had no time for reading and writing. Therefore, the history of this period is mostly legendary. Afterwards, the men of the Shang Dynasty recorded these legends which became a portion of ancient Chinese history.
- Lee: Some books say that the "compass" and the "manufacture of silk" were invented before the Shang Dynasty. The drinking of tea and the use of chopsticks were also started before the Shang Dynasty. Towards the end of the Shang Dynasty the Chinese people had another invention, namely making things of iron. Later on the Shang Dynasty was overthrown by people who used iron weapons. Chinese history then began a new epoch, known as Jou (Chow) Dynasty (1122 B.C.-255 B.C.)

L.114

Wáng: The Jou Dynasty occupies a very important position in ancient Chinese history. At the time of the Jou Dynasty the activities of the Chinese people had already extended from the Yellow River valley to the Yangtze River valley.

Lee: Why is the history of the Jou Dynasty very important?

Wáng: The political system of the Jou Dynasty was a kind of feudal system. There were many small states. They often fought one another and always competed with each other. Therefore, there was much progress during this period politically, economically, socially, educationally, academically, and culturally. I think this is the reason why people, afterwards, considered the history of the Jou Dynasty as being very important.

Lee: According to what you said, it seems that conditions in China during the third and fourth centuries B.C. were very similar to the Hellenic Period of European history. A great contribution was made to the civilization of mankind.

Wáng: During the third century many small states were constantly at war. Gradually, they were reduced to seven big states among which the State of Chin was the biggest. Finally, Chin conquered all the other six states, and by 221 B.C. established a big empire, known in Chinese history as the Chin Dynasty (221 B.C. - 205 B.C.)

Lee: Since the Chin Dynasty China has gone through many dynasties until 1911. Then China became a republic. Tomorrow we shall continue to discuss Chinese history since the Chin Dynasty.

中國地形文化與中國人

念中國歷史除了研究每一個時代重要事情的情的記^{dzài}載，帝王的名字等等以外，我們也常想到為甚麼中國文化跟歐洲的不同？為甚麼中國上古的文化都在北部？到底甚麼人是中國人？這一些問題。

第一，中國西南部有一個世界最高的山，把中國和亞洲隔開。北部的山雖然低一點兒，可是天氣太冷，文化的發展也受了影響。往東到了海岸，海岸在古代是防^{ài}礙文化發展的。中國受了這些地形的限制，所以自己成了一個文化單位，跟歐洲的完全不同。

第二，中國東南部河流多，地勢低，出產^{fēng}豐富，人民生活好，文化發展快。可是黃河流域是中國文化發^{ywán}源地，上古時代指南^{jēng}針，造絲，都是

這一帶的人發明的後來文化才發展到長江
珠江流域去。

第三，至於中國人的問題，其實中國人並不
 只是在大陸的，在台灣的漢人才算是中國人，
蒙古人，西藏人，回族，滿族都是中國人，他們都
 不是一個民族傳下來的，就是漢人也是前前
 後後到中國的各民族傳下來的，不過在紀元
 前兩千年，有一些人在黃河建立起來了，一個
 文化，到了紀元前兩百年建立了一個朝代叫
漢朝，因為這個朝代很強，文化很高，所以大家
 就稱這些人漢人，其實這些人在漢朝以前早
 就已經存在了。

中國歷史(二)

第一部 對話

王: ^{Chín}秦朝第一個^{hwáng}皇帝死了以後,他的兒子剛做了三年,皇帝^{Chín}秦朝就被新起來的漢朝(紀元前二零六—紀元後二二零)的第一個^{hwáng}皇帝高祖推翻了。

李: 據說萬里長城是在^{Chín}秦朝建築完成的。秦朝不但用武力讓中國政治統一了,還統一了中國的文字,經濟,文化,教育,交通等等。好像^{chye}一切都做的很好,為甚麼^{Chín}秦朝存在了二十多年就被推翻了呢?

王: 因為^{Chín}秦朝的^{lyù}法律太^{yán}嚴,人民生活太苦了。

李: 很多中國書裏和很多中國人都管他們自己叫漢人,管他們的話叫漢語,管中國字叫漢字,甚至於日本^{Hán}韓國(Korea),越南(Vietnam)都用漢字。漢人,漢字,漢語的漢跟漢朝有沒[?]有甚麼關係?

王：我想大有關係在漢代時候中國愈來愈強大。中國的領土東邊到了現在韓國，西邊到了亞洲的中部南邊免到了現在的越南，北邊到了現在的內蒙古一帶。

李：這個時候在歐洲是羅馬帝國時代。據說漢朝已經開始和羅馬帝國通商。羅馬皇帝買了很多中國的絲、茶、瓷器和很多別的中國東西。他常覺得羅馬的黃金不斷的往東流。漢朝除了開始和外國人作買賣以外在文化上有甚麼大的貢獻呢？

王：漢朝的政府開始了中國的考試制度。孔子的思想變成了政府和普通人最喜歡研究的。在東漢的時候，佛教到了中國。佛教後來對中國文化的影響很大。科學、工業、商業也都有很大的進步。可是人口也愈來愈多。中國的經濟情形很不好，人民開始反對政府。在二二零年漢朝的最後一個皇帝被殺了以後，中國歷史進到了

五國時代 (二二一—二六四) 了。

李: 我們聽說過很多很有意思的"三國"的故事。現在我們很想知道點兒外國民族跟中國人的關係。據說從中國有歷史的時候起一直到十七八世紀總是有外國民族打進到中國去, 在中國住下來, 後來都被中國人同化了。

王: 在中國歷史上從周朝起總是不斷的有外國民族到中國來, 因為他們的文化很低所以很容易被中國人同化。三國 (二二一—二六四) 以後的二百多年, 在中國歷史上叫晉朝 (二六五—四一九) 和南北朝 (四二〇—五八八)。南朝是中國人, 北朝多半是外國民族。

李: 可是到了隋 (五八九—六一八), 唐 (六一八—九〇七), 中國統一以後, 那些外國民族都變成了中國人了。唐代的中國也很強大, 好像比漢朝還大。中國人不

Translation, Basic Dialogue

Chinese History (Cont'd)

Wáng: After the death of the first emperor of Chin, his heir merely reigned for three years before the Chin Dynasty was replaced by the Han Dynasty, which was founded by Gāu Dzū.

Lee: It is said that the Great Wall was completed during the Chin Dynasty. Not only was China united by the military force of the Chin Dynasty, but Chinese writing, economic system, culture, education, and communication, etc. were also united. Everything seemed to have been put in very good order. Why did such an empire last only a little over twenty years?

Wáng: Because her law was too strict and her people were too miserable.

Lee: Lots of Chinese books and Chinese people refer to themselves as the people of Han, their language as the language of Han, and their writing as the writing of Han. Even Japan, Korea and Vietnam use the writing of Han. Is there a relationship between the "Han" used in the above and the "Han" in the combination of Han Dynasty?

Wáng: I think there is a close relationship. During the Han Dynasty the Chinese empire became larger and stronger. Her territory bordered on Korea in the East, Central Asia in the West, on Vietnam in the South, and Inner Mongolia in the North.

Lee: At this time the Roman Empire was controlling Europe. It is said that the Han Dynasty traded with the Roman Empire. The Roman Emperor bought a lot of Chinese silk, tea, porcelain and other things. He often felt that the gold of Rome was flowing eastward. Besides foreign trade, what other big contribution culturally did the Han Dynasty make?

Wáng: The Han Dynasty inaugurated the Chinese examination system. The study of Confucianism became extremely popular among government circles and among the people. During the East Han Dynasty Buddhism was introduced to China. Later on it had a tremendous influence on Chinese culture. Science, industry, and commerce also

made great progress, and the population grew steadily. As the economic situation deteriorated, the people started to oppose the government. About 220 A.D. when the last emperor of the Han Dynasty was killed, the time became known as the "Three Kingdoms" (221 A.D. - 264 A.D.)

Lee: We have heard many anecdotes of the "Three Kingdoms" period. Now we like to know a little about contacts between the alien tribes and the Chinese people. It is said that since the beginning of recorded Chinese history there have always been alien tribes invading China until the 17th or 18th century. Some of them even occupied China and were gradually assimilated by the cultures of the natives.

Wáng: Historically, since the Jou Dynasty, China had been uninterruptedly invaded by foreign tribes. Due to their inferior cultures, they had always been assimilated by the culture of the Chinese people. After the era of the "Three Kingdoms" (220-264 A.D.), there followed a period of over 200 years, known in Chinese history as the Jin Dynasty (265-419 A.D.), and again followed by the Epoch of Southern and Northern Dynasties (420-588 A.D.) The Southern Dynasties were established by the Chinese people, but the Northern Dynasties were established mostly by alien tribes.

Lee: During the Sai Dynasty (589-618 A.D.) and the Tang Dynasty (618-907 A.D.) China was united. Those alien tribes all had become a part of the Chinese. During the Tang Dynasty China was both strong and great. It seemed even greater than the China of the Han Dynasty. China not only traded with foreign countries via Central Asia by land but also with countries in Southeast Asia by sea. History tells us that the Chinese enjoyed great prosperity during the Tang Dynasty.

Wáng: The Chinese people in San Francisco call themselves "Tang people". The Chinese people in the South Sea Islands refer to China as "Tang Shan". China made great progress in every way during the Tang Dynasty. Literature and arts became especially famous. The poetry of the Tang Dynasty occupies a very important position in Chinese literature. It is said that there were over a thousand Japanese students who went to China to study. Since that time Japan has also adopted Chinese characters in her writing.

Lee: The Tang Dynasty was very powerful and prosperous. Somebody said that it was due to many contributions by alien tribes.

L. 115

Wang: The Tang Dynasty was a great Empire that ruled over miscellaneous tribes. Each tribe made its own contributions, mutually influencing one another. Therefore the Dynasty was so prosperous.

Lee: Did Buddhism also flourish during the Tang Dynasty?

Wang: Yes, there were a few persons who went to India to study Buddhism. When they came back they translated Buddhist classics on a large scale. Not only did Buddhism flourish during the Tang Dynasty but also Taoism.

中國文字

中國文字這個名詞，有兩個意思。(一)一個一個方塊兒字叫漢字。(二)用漢字寫出來的語言叫漢文。現在我們說的中國文字是漢字，不是漢文。

文字是把說的話記載下來的一種記號，把說的話記下來，當然也就是把聲音記下來。每一個方塊兒字是一個整個的聲音，並且多數有一個意思。方「輸」這個字的聲音是「sh」跟「u」合起來的一個聲音，是第一聲，像「輸錢、運輸、輸血」等等。

傳說中國在紀元前二千年前後，已經有了文字。漢字的構造可以分成六個不同的法子。有的字原來畫的是一些東西，好像日月就是

有的字一看就知道是甚麼意思，好像「上」、「下」就是有的字一部分是字的主要的意思，一部分是字的聲音，好像「試」、「詞」、「飯館」就是除了這三個法子，另外還有三個法子。這六種造字的法子叫「六書」。漢字多數用上頭說的第三種法子造字。我們再舉些例子。比方跟說話有關係的字多數有「言」作字的一部分，跟吃有關係的字多數有「食」作字的一部分。中國字一共可以分成二百十四個不同的部分，這些部分叫「部首」。

第一百十六課

中國歷史(三)

第一部 對話

王: 唐朝以後的五十多年裏頭叫五代(九零七—九六零)。中國在五代的時候又有很多小國打來打去,最後中國又統一了,又開始了一個新朝代叫宋朝(九六零—一一二八零)。宋朝的前半叫北宋(九六零—一一二七)。後半叫南宋(一一二七—一二八零)。

李: 雖然中國又統一了,可是宋朝沒有恢復唐代那麼大的領土。北宋的勢力就在中國的中部和南部。因為中國北部讓外國民族建立的遼帝國佔領了。對不對?

王: 對了。後來遼的北邊又起來了一個國叫金。金帝國更強大。金打敗了遼和宋。宋在一一二七年把國都搬到了中國南部去,從那個時候起叫南宋。遼被金打敗了以

後搬到中國西部去

李: 遼帝國和金帝國的人都是韃靼人 (Tartars)

對不對?

王: 不太對。韃靼人建立的是金帝國, 可是遼

帝國的人據說是突厥人 (Turks) 和一部分

蒙古人 (Mongols) 他們雖然都很強, 可是他們

的北邊的蒙古人更利害。

李: 您可以講一講宋代對中國文化的貢獻

麼?

王: 宋朝設立很多學校! 首都甚至於各縣都

有學校。那個時候很像現在學校的制度。

在首都的學校設立有醫學跟法學。醫學

的畢業生到各地教醫學, 有推行醫學到

各地方的意思。

李: 除了醫學跟法學以外, 他們也提倡別的

學科麼?

王: 因為宋朝有兩個皇帝特別喜歡藝術, 所

以也設立畫畫兒的學科。還用畫畫兒考

試呢。

李：這些學科以外，政府還是注重儒家學說吧。

王：對了。可是儒家學說到了宋朝有新的解釋，並且也受了佛教的影響。

李：當時有甚麼發明，在文化上有很大的貢獻沒有？

王：有一個人發明活字板，印刷更方便了。因為印刷方便，出版的書愈來愈多。有的人家裏藏書藏到好幾萬本。

李：宋朝以後就是元朝（一二八零——一三六八）。元朝有甚麼貢獻？

王：元朝因為領土跟勢力擴張到歐洲，交通發達，溝通東方跟西方文化，是一個最大的貢獻。

李：接着元朝就是明朝（一三六八——一六四四）了。明朝有甚麼貢獻？

王：明朝在哲學方面還是接着宋朝發揮儒家思想，文學跟藝術也都很發達。明代戲

Jyü
劇跟小說最有名。

李: 基督教雖然從前從歐洲傳進來可是到了明朝才發展起來。

王: 對了。因為歐洲發生宗教革命, 又因為東西的交通愈來愈進步, 所以不少西洋教會的教士到中國來傳教。

李: 那些傳教士同時介紹各種科學到中國來。

王: 是的。他們還教中國製造槍砲。

李: 中國最後一個朝代清朝 (一六四四—一九一一), 到底有甚麼貢獻?

王: 清人是中國北部的一個民族, 他們的文化比漢族低, 所以採取中國制度在學術上很鼓勵人研究也有不少貢獻。

李: 可惜在鴉片戰爭以後, 中國受了外國的不斷侵略政府又不想改革, 人民不滿意政府, 就發生革命。

王: 所以在, 一九一一年就成立了中華民國

Translation, Basic Dialogue

Chinese History (Cont'd)

Wáng: The fifty odd years following the end of the Tang Dynasty were known in Chinese history as the Epoch of Five Dynasties (907-960 A.D.) During that epoch the many small states were constantly at war. Finally, the country was united by the founder of the Sung Dynasty (960-1280 A.D.) The Sung Dynasty was divided into two periods. The first period was known as North Sung (960-1127 A.D.), and the second period was known as South Sung (1127-1280 A.D.).

Lee: Although China was again united, the Sung Dynasty never regained the expanse of territory that the Tang Dynasty once had possessed. The influence of North Sung was confined to the central and southern parts of China as the northern part of China was occupied by a foreign tribe which had established another empire known as Liao. Is this true?

Wáng: Yes, that is right. Later, to the north of the Liao Empire, another nation rose to prominence. It was known as Jin. It was even more powerful and had defeated both Sung and Liao. In 1127 A.D. the emperor of Sung moved its capital to the southern part of China and hence became known as South Sung. The Liao Empire, having been defeated by the Jin people, moved her people to the western part of China.

Lee: Were the people of the Liao Empire and the Jin Empire all Tartars?

Wáng: Not quite correct. The people of the Jin Empire were Tartars, but it is said that the people of Liao were partly Turks and partly from Mongolia. They were both very strong, however. The Mongolians on their north border were stronger.

Lee: Can you tell me something about the contributions of the Sung Dynasty to Chinese civilization?

Wáng: The Sung Dynasty established many schools. There were schools in the capital as well as in all the hsien. The school system was very similar to the present. The schools in the capital included courses in medicine and in law. Graduates from the school of medicine went

to different places to teach medicine. It seemed that they planned to push medical study to local districts.

Lee: In addition to medicine and law, did they also promote other studies?

Wang: Since there were one or two emperors who were particularly fond of art, there were also courses in painting. Students were even tested in painting.

Lee: Besides these subjects did the government also stress Confucianism?

Wang: Yes, but Confucianism developed new interpretation during the Sung Dynasty. Moreover, it was greatly influenced by Buddhism.

Lee: Were there any inventions that made tremendous cultural contributions?

Wang: There was a man who invented movable printing type, making printing more convenient. So more and more books were published. Some people stored thousands of copies of books.

Lee: After the Sung Dynasty came the Yuan Dynasty (1280-1368 A.D.) What contributions did the Yuan Dynasty make?

Wang: The territories of the Yuan Dynasty (the Mongolian Empire) reached into Europe. Communication was convenient. One great contribution was to bridge the civilization between the East and the West.

Lee: Following the Yuan Dynasty came the Ming Dynasty (1368-1644 A.D.) What contribution did the Ming Dynasty make?

Wang: Chinese philosophy in the Ming Dynasty was still developed along the lines of Confucian thought, advocated in the Sung Dynasty. Literature and arts were very well developed. Drama and novels were especially famous.

Lee: Although Christianity had been introduced to China before, it was not widely spread until the Ming Dynasty.

Wang: Yes, because of the religious revolution that took place in Europe, and transportation becoming more and more improved, many western missionaries came to China to propagate their faith.

Lee: Those missionaries meanwhile introduced sciences into China.

Wáng: Yes, they also helped the Chinese manufacture rifles and cannons.

Lee: What contributions did the last Chinese empire, the Ching Dynasty, make (1644-1911 A.D.)?

Wáng: The Manchu's of the Ching Dynasty belonged to a tribe in North China. Their culture was inferior to the Han race. They adopted Chinese customs. Academically, they encouraged scholars to do research, and they accomplished a great deal.

Lee: It was regrettable that after the Opium War China was incessantly invaded by foreign powers. The government wanted to reform, and the people were greatly dissatisfied with the government. The revolution followed.

Wáng: Therefore, in 1911, the Republic of China was formed.

中國文字 (二)

學看中文書報必需學中國字。可是，一個人
 認識很多一個一個的單字，他對中文不一定
 很有研究。因為一個字在一個地方是一個意
 思，在另外一個地方可能是別的意思。比方說
 溫習跟溫和意思不一樣，所以如果就認識字
 不懂字與字的關係，看書的時候還是有很多
 困難。西方人常說中文難學，其實中文說的語
 言不比別的語言難，只是漢字。漢文是比較難
 學的。因為：(一)字的筆畫不容易認得，記住。(二)從
 漢字看不出字的聲音。(三)一個中國字在一個
 地方是一個意思，在另外一個地方又是一個
 意思。

中華民國政府成立以後，政府跟很多教育
 家都提倡過改革中國文字，有的提倡用字母。

Lw6
羅馬字母或是注音字母有的提倡簡體字，有的不贊成改革文字，只用各種方法鼓勵人民念書。

第一百一十七課

第一部 對話

中士王明過河偵察以後到司令部給參謀長李中報告偵察的經過。

王: 報告參謀長我們今天早上五點鐘回來了。

李: 好極了, 好極了。弟兄們都回來了麼?

王: 就有一個弟兄張三沒由來他腿受了傷, 大概被敵人的哨兵俘虜了。

李: 你們沒等他麼?

王: 這次的任務很要緊。我怕要是在河邊等他, 我們也許都被俘虜了, 就沒法子給您報告了。

李: 你這次過河, 一共偵察了多少時候?

王: 我們是昨天晚上九點半過的河, 今天早上五點回來, 一共在河那邊七個多鐘頭。

224
620

李：你們過河以後看見甚麼了麼？

王：我們一過河就看見敵人的砲兵陣地最前頭是雷區，雷區外頭有鐵絲網，鐵絲網外頭有絆網。

李：除了絆網跟雷區以外有沒有別的反戰車防禦？

王：我看見很多戰車障礙物，也有很多戰防砲。

李：敵人有甚麼砲？

王：敵人的砲兵陣地各種的砲都有。

李：他們的砲都有偽裝麼？

王：他們有各種偽裝網，要是不到很近的地方差不多看不見他們的砲，又有各種的掩體，平常的跟重掩蓋掩體都有。除了用重轟炸機去空襲他們以外，還得用低空掃射的法子。

李：他們的砲兵陣地有放烟幕的東西麼？

王：我好像看見有預備我們的轟炸機一到

他們就放烟幕，我們就不容易轟炸的很
準確。

李：砲兵陣地也有戰車麼？

王：我看見不少戰車，大概是為防禦我們的戰
車用的。

李：你偵察了敵人砲兵陣地以後，還注意敵
人有甚麼兵種了麼？

王：我也看見了那些山凹的地方，發現那兒
有很多裝甲部隊跟運輸部隊。

李：你看見他們調動軍隊了麼？

王：我帶了望遠鏡就看見他們的輜重多半
是彈藥輜重，有幾萬發彈藥，多半是戰車
上用的砲彈。

李：他們載重車上頭也運輸汽油跟別的燃料
麼？

王：我看見一百多輛載重車，運輸戰車跟裝
甲車的燃料。

李：從你的報告看敵人這次一定要用戰車

攻擊我們所以才預備那麼多的戰車砲
彈藥跟戰車^{rán}燃料。你注意了敵人運輸^{dz}輜
重的路線麼？

王：敵人的運輸^{dz}輜重的路線都是往第一^{ling}零
七號山^{ji}脊的反^{syé}斜面。我想他們的補給
站一定在第一^{ling}零七號山的反^{syé}斜面。

李：敵人^{dz}輜重裏頭有口^{lyáng}糧麼？

王：有口^{lyáng}糧，看樣子很不少，夠一個^{hwùn}混合戰^{dòu}鬥
團的人員用的。

李：敵人這次有砲兵又有裝^{jiǎ}甲部隊。他們一
定^{dzǔ}組^{ji}織了一個^{chǎn}特遣部隊來佔領我們河
這邊兒的地區。

王：我看見很多敵人戰車跟戰車推土機也
看見不少衝鋒槍的後衛。他們一定是怕
他們的後方有我們的^{yóu}游擊隊才用那麼
多後衛保護^{dz}輜重。

李：好，你報告的很清楚。你現在回營房休息
休息吧。

Military Subject

Translation, Basic Dialogue

After Sergeant Wáng Míng had crossed the river and reconnoitered, he went to headquarters and reported to Chief-of-Staff Lee Jūng on what took place during his trip.

Wáng: Sergeant Wáng Míng reporting to the Chief of Staff. We came back at five o'clock this morning.

Lee: Excellent. Did all the men come back?

Wáng: Jāng Sān did not come back. His leg was hurt. He was probably captured by the enemy sentry.

Lee: Didn't you wait for him?

Wáng: The mission was very important. I was afraid that if we waited for him on the other side of the river, all of us might be captured and we would not be able to give you a report.

Lee: How much time did you spend on reconnaissance after you had crossed the river?

Wáng: We crossed the river last night and came back at five o'clock this morning. Altogether we spent seven hours on the other side of the river.

Lee: Did you see anything after crossing the river?

Wáng: We saw the enemy artillery position as soon as we crossed the river. At the very front there was the mine field. Outside of the mine field there was the barbed wire entanglement. Outside of the barbed wire entanglement there was the trip-wire.

Lee: Besides the trip-wire and the mine field, was there any other antitank defense?

Wáng: I saw many tank obstacles and many antitank guns.

Lee: What artillery pieces did the enemy have?

Wáng: There were all kinds of artillery pieces in the enemy artillery position.

Lee: Were their artillery pieces all camouflaged?

Wang: They had various kinds of camouflage nets. If you were not very close, you would not be able to see their artillery pieces. They had different kinds of emplacements, ordinary ones and bunkers. Besides using heavy bombers to bomb them, we will also have to use strafing.

Lee: Did they have anything for setting up a smoke screen in their artillery position?

Wang: I seemed to have seen it. They were prepared to set up a smoke screen as soon as our planes arrive so that we would not be able to bomb them accurately.

Lee: Did they have tanks in their artillery position?

Wang: I saw quite a few tanks. They were probably prepared to fight against our tanks.

Lee: After you finished reconnoitering the enemy artillery position, did you notice enemy arms?

Wang: I saw, in the saddles, that there were many armored units and transport troops.

Lee: Did you see any redeployment of their men?

Wang: I had my binoculars with me, but I only saw their train, mainly their ammunition train, with several hundred thousand shells, most of which were to be used on tanks.

Lee: Did they ship gasoline and other fuel on trucks?

Wang: I saw more than a hundred trucks shipping fuel for tanks and armored cars.

Lee: I see from your report that the enemy would certainly be using tanks to attack us. That's why they prepared so many shells and fuel for tanks. Did you notice the route of their train?

Wang: The enemies were always moving their train to the reverse slope of 107 Ridge. I think their supply point must be on the reverse slope of hill No. 107.

Lee: Were their rations in the enemy train?

Wang: Yes. It looked as if they had plenty, enough for a regimental combat team.

Lee: The enemy had artillery and armored units. They must have formed a task force in order to occupy our area on this side of the river.

L. 117

Wang: I saw many enemy tanks and tankdozers and also many rear guards with tommy guns. They must have feared that our guerrillas were in their rear area. Therefore they had many rear guards to protect their train.

Lee: Fine, you have made a very clear report. Go back to the barracks and rest now.

第一一十八課

中國歷史(四)

第一部 對話

王: 鴉片戰爭, 中國被英國打敗了。中國和英國在南京在一八四二年訂了一個條約。南京條約是中國近代史上第一個不平等條約。

李: 為甚麼中國說南京條約是不平等條約呢?

王: 南京條約裏有很多地方對中國不好, 所以中國說是一個不平等條約。

李: 你能不能大概的給我講一講南京條約的內容呢?

王: 南京條約大概的意思是: (1) 讓英國人在中國東部的五個海口通商 (2) 把香港給了英國 (3) 並且還得給英國兩千多萬塊錢 (4) 英國人在中國有領事裁判權 (5) 中國海關對進口的英國東西, 就能收不過

百分之五的進口稅(6)還有些別的對中國人不太平等的規定。

李:您剛才說南京條約是中國近代史上中國跟外國訂的第一個不平等條約是不
是後來還有不平等條約呢?

王:還有天津條約跟北京條約,裏頭都有很多不平等的規定。

李:為甚麼中國軍隊老打敗仗呢?大清帝國不是很強大麼?

王:滿洲人剛統一中國的時候他們的兵很強,可是二百年以後到了十九世紀已經不如以前了,那時候又有太平天國的內亂。

李:有人說太平天國是一個沒成功的平民革命對不對?

王:太平天國可以說是一個革命,本來他們的目標,主義,組織等等都很好,他們的兵力也很強,後來因為他們自己不合時所

以沒成功。可是清朝命令各地自己訓練軍隊，又得到外國人的幫助，用了十五年的工夫才把太平軍完全打敗。

李：聽說清政府從那個時候起開始了一些改革和一些新建設，像新式的工業，鐵路，郵政，甚麼的開始派一些中國學生到美國和歐洲去研究。

王：結果還是不行。在中法戰爭（一八八五）中日戰爭（一八九四），跟八國聯軍（一九零零），中國不斷被外國打敗。中國人民更憤怒，覺得清政府太不行，參加孫中山先生領導的革命的人愈來愈多。最後革命軍在一九一一年推翻了滿清政府，從一九一二年起就是中華民國了。

李：有的書裏說從民國成立起一直到民國十六七年（一九二七—二八）中國都在很亂的情形下，差不多各省都有軍隊打來打去。

王: 所以國民政府才在現在蔣總統領導下北伐, 統一了全中國。

李: 中國跟日本人是不是在一九三一年打起來的?

王: 日本在一九三一年佔了東北, 又在一九三七繼續侵略中國的華北, 中國就開始抗戰。

李: 聽說中國人抗戰很勇敢。一九四二年起又得到美國的幫助, 最後到了一九四五年就打敗了日本。

王: 不幸的, 很, 一九四五年日本人打敗了以。後, 共產黨發動內戰, 到一九四九年九月, 共產黨佔了整個大陸, 國民政府搬到了台灣, 變成今天的情形。

Translation, Basic Dialogue

Chinese History (Cont'd)

Wáng: During the Opium War China was defeated by Great Britain. China and Great Britain concluded a treaty in Nánjīng (Nanking) in the year 1842. The Treaty of Nánjīng was the first unequal treaty in the modern history of China.

Lee: Why did the Chinese people say that the treaty of Nánjīng was an unequal treaty?

Wáng: In the Treaty of Nánjīng there were many things unfavorable to China. Therefore, the Chinese people say that it was an unequal treaty.

Lee: Can you tell me briefly the contents of the Treaty of Nánjīng?

Wáng: Briefly speaking, the Treaty of Nánjīng contains: (1) permission for the English to trade at five seaports in Eastern China; (2) ceding Hongkong to Great Britain; (3) Great Britain had to be paid (by China) more than twenty million dollars; (4) Great Britain was to have extraterritoriality in China; (5) Chinese customs could collect no more than five percent of the value of imported British goods; and (6) a number of other provisions which were unequal or unfair to the Chinese people.

Lee: As you just said, the Treaty of Nánjīng was the first unequal treaty China signed with a foreign country in her modern history. Were there any more unequal treaties later?

Wáng: Yes. There were many unequal provisions in the Treaty of Tyānjīn (Tientsin) and the Treaty of Běijīng (Peking).

Lee: Why were the Chinese troops always defeated? Wasn't the great Ching Empire very big and strong?

Wáng: When the Manchus first unified China, their army was very strong. However, after they had lived more than two hundred years by the nineteenth century, they were no longer as strong as they used to be. Besides, the Taiping Rebellion took place at that time.

Lee: Some people say that the Taiping Rebellion was an unsuccessful common people's revolution. Is this right?

Wang: The Taiping Rebellion can be regarded as a revolution. At first, their objective, doctrine, organization, and military strength were all very good. Later on, due to disharmony and lack of coordination among themselves, they failed. Nevertheless, it took the newly trained troops of the Ching Dynasty fifteen years, with foreign help, to completely defeat the forces of the Taiping Rebellion.

Lee: It is said that from that time on the government of the Ching Dynasty instituted reforms as well as a number of new developments, such as modern industries, railroads, postal service, and so forth; and it began to send students to America and Europe to study.

Wang: The subsequent results were still not satisfactory. In the Sino-French War (1885), Sino-Japanese War (1894), and in confronting the joint forces of the eight nations (during the 1900 Boxer Rebellion), China was repeatedly defeated. The Chinese were even more indignant and felt that the Government of Ching (Empire) was too disappointing. There were more and more people who joined the revolution led by Mr. Swin Jüngshän. At last, the revolutionary forces overthrew the Government of Ching (Empire) in the year 1911. Starting from the year 1912 the country has been the Republic of China.

Lee: It has been described in some books that from the founding of the Republic up to the sixteenth or the seventeenth year of the Republic (1927-28), China was in chaos continuously; for nearly each province had its own military force, and they were fighting each other.

Wang: So the nationalist government under the leadership of Chiang Kai-shek launched a northward expeditionary war to unify China.

Lee: Did the fighting between China and Japan start in 1931?

Wang: In the year 1931, Japan occupied Manchuria and in 1937 carried on her invasion into North China. Thereupon China started the war of resistance.

Lee: I heard that the Chinese people were very brave in fighting the war of resistance. From 1942 on they received American aid. Finally, in 1945 they defeated Japan.

Wáng: It was very unfortunate that after Japan was defeated in 1945, the Communists started a civil war. When they took the entire mainland in September 1949, the National Government moved to Táiwan, presenting a situation that exists up to this day.

中文書法

A. 中文漢字有很多種寫法。漢字寫法的專名詞叫書法。近代流行的書法有三種：楷書、行書、草書。

每天我們學寫的中國字跟印刷的書報上的字，寫法都是楷書的寫法。一筆一畫，都寫得很清楚，整齊。平常中國人給父母長官寫信或是在公事上都用楷書。每個字的大小都得一樣。是在楷書中，在印刷的東西上的字的樣子，有時跟我們寫的不一樣。現在在下頭舉幾個例子：

寫的楷書——直、為、飯、給、養、概、禮、真。

印刷的楷書——直、為、飯、給、養、概、禮、真。

不過有的人寫的楷書跟印刷上的一樣的。

現在中國人給朋友寫信，或隨便留一個條

兒甚麼的普通都不寫楷書，用寫得快一點兒
 的行書，或是非常快的草書。
 楷書，行書，草書，是後漢朝代，紀元後六世紀
 開始流行的。第六世紀以前的各種書法現在
 還有人練習，寫了作藝術欣賞。近代的楷書，行
 書，草書，特別是行書很多。書法專家造出各種
 不同的寫法，都非常美。現在用楷書，行書，草書，
 這三種不同的書法最普遍的寫法寫在下頭。
 希望各位對這三種書法有一點兒認識。

第一百十九課

Swün 中山
孫

第一部 對話

一個美國人李文跟一個中國人王中談
山先生。 Swün 孫 中

王：今天我們談一位中國現代史上最著名的人物，中華民國的國父。

李：中華民國的國父是不是 Swün 孫 中山先生？

王：是的。他在一八六六年生在離香港不遠的廣東香山縣。他小的時候多半在廣東、香港跟外國，沒到中國北邊去過。

李：聽說 Swün 孫 中山先生年青的時候在 Tán 檀 香山念過書。他在 Tán 檀 香山念了多少年書？

王：Swün 孫 先生從七歲到十三歲在廣東念書。他十四歲那年跟他母親到 Tán 檀 香山去看他的哥哥，就在 Tán 檀 香山住了四年。在那兒念了四年書。以後到了一八八三年才離開 Tán 檀 香山，回到了他的廣東老家。

李：是不是 Swün 孫 中山先生從 Tán 檀 香山一回到中國以後就開始革命了呢？

Dr. Sun Yat-sen

王: 沒有, 他從 ^{Tán}檀香山回到中國的時候才十八歲, 沒有立刻開始革命, 他還是繼續念書, 因為他的老家離香港很近, 他就到香港去念書了。先上的普通學校, 後來才念醫學。

李: 為甚麼他後來忽然參加革命了呢?

王: 十九世紀後半, 滿清政府很多次被外國打敗, 訂了 ^{bài dǐng} 了很多對中國不利的不平等條約。一八八五年中國又被法國打敗了。 ^{Swūn}孫中山先生非常生氣, 覺得清政府太腐敗, 所以他才下決心要推翻滿清政府。

李: 他領導的革命是甚麼時候開始的呢?

王: 從他一進醫學學校, 他就和幾位好朋友聯合研究革命的問題, 一直到他畢業。

李: 他畢業了以後, 給人看病了麼?

王: 他畢業了以後, 就在 ^{Au}澳門開了一個藥舖, 一邊兒給人看病, 一邊兒進行革命運動。

李: ^{Swūn}孫中山的第一個革命組織是在 ^{Tán}檀香山組織的, 是不是?

王: 是的, 是一八九八年十月在 ^{Tán}檀香山組織的。

後，他又回到香港。一八九五年革命黨第一次起義沒成功，他就逃到日本去了。

李：孫中山有一次在倫敦被中國公使館的人員捉住，要秘密的用船把他送回中國。那件事是在甚麼時候發生的？

王：那是一八九六年發生的事。華廟公使館的英國官員把這個消息告訴了孫中山從前的一位先生。那位先生請求英國政府把孫中山先生從公使館救出來了。

李：孫先生的革命真是不容易，經過了多次的危險才成立了中華民國。

王：參加革命的人從一八九五年以後越來越多。到一九一一年革命成功，革命黨的人一共起過十一次義舉。最後一次起義是在一九一一年十月十日，在中國的中部江旁邊兒成功的。

李：孫先生是中華民國的第一個總統，為甚麼他作了幾個月以後又辭職了呢？

王：因為那時候有勢力的人是軍人。孫先生為

了避免內戰，把總統讓給了一個最有勢力的
 軍人，叫袁世凱。後來袁世凱野心太大，
 又想作皇帝。

李：那麼革命雖然推翻了滿清政府，可是不能算
 是成功吧。

王：所以孫先生又在中國南部繼續組織革命
 黨和革命黨的軍隊，發動第二次革命。

李：好像他沒有看見統一的中國似的。

王：對了。一九二四年他從廣東到北平去開國
 民會議，商量國家的大問題，那時候他已經病

Translation, Basic Dialogue

Swün Jüngshān (Sun Yat-sen)

Wáng: Today we will talk about the most famous person in the modern history of China, the Father of the Republic of China.

Lee: Is the Father of the Republic of China Mr. Swün Jüngshān?

Wáng: Yes, he was born in Syangshān County in Gwāngdūng (Kwangtung) Province, not far from Hongkong, in the year 1866. When he was young, he was in Gwāngdūng, Hongkong, and abroad most of the time, but not in the northern part of China.

Lee: It is said that when Mr. Swün Jüngshān was young, he studied in Hawaii, but I don't know for how long.

Wáng: Mr. Swün studied in Gwāngdūng (Kwangtung) from the time he was seven to thirteen. The year he was fourteen he went with his mother to visit his elder brother in Honolulu and stayed there four years. He studied four years in Honolulu and did not leave to return to his Gwāngdūng home until 1883.

Lee: Did Mr. Swün Jüngshān start the revolution as soon as he returned to China from Honolulu?

Wáng: No, he didn't start the revolution right after he got back to China from Honolulu, for he was only eighteen years old. He continued his studies instead. Since his hometown was close to Hongkong, he went there to study, first in an ordinary school and then in a medical school.

Lee: Why did he all of a sudden join the revolution?

Wáng: During the latter half of the nineteenth century China was defeated many times by foreign countries and signed a number of unequal treaties, unfavorable to China. In 1885 China lost another war to France. Mr. Swün Jüngshān was wrathful and felt that the Government of the Ching Dynasty was too rotten. So he was determined to overthrow it.

- Lee: When did the revolution he led start?
- Wáng: From the time he entered medical school until he graduated, he joined a few good friends to study the problems of the revolution.
- Lee: Did he practice medicine after graduation?
- Wáng: After graduation he practiced medicine while carrying on the revolutionary movement.
- Lee: The first revolutionary organization was formed by Swün Jūngshān in Honolulu, wasn't it?
- Wáng: Yes. It was organized in Honolulu in November 1898. After that he returned to Hongkong again. In the year 1895, the Revolutionary Party had its first uprising which did not succeed. He fled to Japan.
- Lee: In London Swün Jūngshān was once captured by the personnel in the Chinese Legation. They wanted to ship him back to China. When actually did that happen?
- Wáng: That was in the year 1896. Fortunately, an English employee of the Legation passed the information on to a former teacher of Swün Jūngshān. The teacher then requested the British Government to rescue Mr. Swün Jūngshān from the (Chinese) Legation.
- Lee: The revolution led by Mr. Swün was really not easy. It went through dangers many a time before the Republic of China was founded.
- Wáng: From 1895 on there were more and more people who joined the revolution. By 1911, when the revolution succeeded, there had been altogether eleven major uprisings staged by the revolutionists, with a good deal of human sacrifice. The final uprising succeeded on the tenth of October 1911, in Central China, close by the Yangtze River.
- Lee: Mr. Swün was the first President of the Republic of China. Why did he resign after a few months?
- Wáng: Because the people who had power at the time were military people. In order to avert a civil war, Mr. Swün handed the Presidency to the most powerful military man, called Ywán Shrkái (or Yuán Shih-kái). After that, Ywán was further pushed by his overly wild ambition of becoming an emperor.

Lee: In that case, although the Manchu government was overthrown by the revolution, it cannot be considered as a success, can it?

Wang: So Mr. Sun once again had to continue organizing the revolutionary party and its military forces to initiate the revolution a second time.

Lee: It seems that he never saw China united.

Wang: That's right. In 1924 when he went to Beijing (Peking) from Guangdong (Kwangtung) to attend the national assembly to discuss national issues, he was already sick. His illness grew gradually worse. Finally, on the twelfth of March, 1925, he died in Beijing (Peking).

A. 中國的國旗

中華民國國父^{Swün}孫中山在一八九五年領導
 的第一次革命在廣東省的廣州^{jōu}市起義，用陸
皓^{Hàu}東先生設計的青天白日旗作革命的軍旗。
 可惜這次革命沒成功，陸皓^{Hàu}東先生也死了。到
 了一九零五年^{Swün}孫中山^{kwò}擴張革命組織繼續進
 行革命。在這一年為了紀念那些為革命勇敢
^{syī}犧牲的人，特別是他們那種不怕流血的精神，
 把青天白日旗加上一塊紅顏色，變成青天白
 日滿地紅的旗。這個就是現在的中國國旗了。
 不過中國國旗跟中國革命一樣經過很多困
 難不斷的前進，到了一九一四年青天白日滿
 地紅旗才決定為中國國旗。

中國國旗上的紅色，上面已經說了，是紀念
 參加革命的人，他們為國犧牲不怕流血的精
