AUTHOR Lyon, Lesley
TITLE A National Directory of Physical Fitness Programs for Older Adults.
INSTITUTION American Alliance for Health, Physical Education, Recreation and Dance (AAHPERD).; North Country Community Coll., Saranac Lake, N.Y.
PUB DATE 81
NOTE 157p.
AVAILABLE FROM North Country Community College Press, 20 Winona Ave., Saranac Lake, NY 12983 (\$4.00).
EDRS PRICE MF01 Plus Postage. PC Not Available from EDRS.
DESCRIPTORS *Adapted Physical Education; *Adult Programs; Exercise; Health Education; *Older Adults; *Physical Activities; Physical Disabilities; *Physical Fitness; Physical Therapy; Psychomotor Skills; *Rehabilitation Programs

ABSTRACT

This directory is designed to help its users locate colleges and universities in the United States that offer physical fitness programs for older adults. The directory's annotations include: program area, scope of activities comprising the program, target population, duration of program, and special comments. The focus of the listed programs is on physical fitness activity, rehabilitation, and health/fitness education. Target populations include the healthy elderly as well as those who are blind, deaf, mentally disabled, arthritic, or have limited movement capacity.

PREFACE

Physical fitness is a growing area of interest and concern for those who work with today's aging population. The rapid increase in the number of people over 65 has brought more attention to helping people develop and maintain optimal health throughout their entire life span.

One of the major ways this is being accomplished is through the creation of physical fitness programs aimed specifically at older persons and their special needs. Professionals at colleges and universities throughout the country are aware of the demand for such programs and are incorporating both educational and activity based physical fitness programs into their health education, gerontology, and physical education departments. They are training students and service providers to work closely with the elderly as well as training the elderly to work with their peers.

The Project Development

In response to this need for physical fitness training and direct provision of fitness programs to older community members, North Country Community College's Center of Gerontology embarked on the venture of developing a series of exciting and beneficial fitness workshops and courses in the northeastern tier of New York State. Prior to designing the program, a national survey was conducted of other colleges to learn what types of innovative ideas were being put into practice. The search was also designed to answer questions such as: what types of activities are best suited for the needs of older people; what legal obligations are binding on the sponsoring organization; what qualifications should be required to lead such a group; and in what manner the program fits into the college's organizational structure. We were unable to find a comprehensive source of information which could help us locate schools involved in this type of program.

One result of this experience was the Center of Gerontology's decision to undertake the compilation of a national directory of college and university based fitness programs for older adults. Over a period of a year and hundreds of inquiries later, we gathered a wealth of information from academic institutions across the United States and Canada.

During this process it was brought to our attention that the American Alliance for Health, Physical Education, Recreation and Dance (AAHPERD) had indeed begun such a directory but had not yet completed it. We contacted AAHPERD with the suggestion to combine our efforts in the publication of this national directory. With their gracious acceptance of the idea and subsequent help and support, we now present to the reader the culmination of our joint efforts.

Format and Usage

A National Directory of Physical Fitness Programs For Older Adults has been designed to help its users locate colleges and universities in particular geographic locations offering fitness programs with specific programatic emphases. It is a revision of an earlier, preliminary publication of this same project, bearing a similar title, Physical Fitness Directory for the Older Adult. The original directory, however, contained only names and addresses of the participating schools. The present directory has been updated, expanded in number of entries and contains descriptive information regarding each program.

The Directory's annotation includes: program area, activities comprising program, target population, duration of program, and special comments. An explanation of each designation follows.

Program Area - The most general focus of the program as being in one of three areas.

Physical Fitness Activity - actual teaching of and participation in fitness exercises of some type.

Rehabilitation - exercise and/or education aimed solely at the rehabilitation of participants who have suffered stroke, various cardiac problems, severe arthritis or other crippling diseases.

Health/Fitness Education - teaching participants how to maintain and improve health especially through fitness exercises.

Activities Comprising Program - An explicit listing of the scope of activities involved in any of the three program areas. The list includes:

Aquatics	Jogging	Rhythm Based Movement
Dance	Mobility Exercises	Sports/Athletics
Games	Motor Skills	Wheelchair Exercises
Gymnastics/Exercise		Yoga

Target Population - The health status of the participating group in each program.

Duration of Program - Gives the reader an indication of whether the program is continuous or a series of individual events.

Ongoing - a continuous or recurrent program which is usually an ongoing dimension of the institution's programming.

Limited - a workshop/conference or course which is scheduled for a specific time without planned repetition.

Comments - The actual responses of the contact person at each institution. Because of space limitations every comment has not been reproduced in full; instead the important points have been emphasized in each case.

It is expected that the reader will use this information to select programs of interest thus allowing contact with the individual school for specific and detailed questions and answers. Many of the colleges and universities listed have excellent written materials which, we have found, they are glad to share upon request.

Because of the lengthy indexing needed for the variety of topics included in the Directory, the listings have been presented in chart form. In addition to steering the reader to the appropriate page, the chart itself provides much of the needed information in a convenient manner.

We hope you will find A National Directory of Physical Fitness Programs For Older Adults a valuable resource document. Your comments as to its usefulness or deficiencies are most welcome and encouraged. It is You, the users, who will allow us to make future changes in the Directory so that it will better serve fitness information needs of all of us.

Lesley B. Lyon
Project Director

TARGET POPULATION:

Well Elderly
Limited Movement Capacity
In-service for those working with Senior
populations

COMMENTS:

This college offers a variety of physical education experiences especially designed for older adults at a number of locations in the district. Off-campus sites are chosen to be convenient for transportation and access, and many programs are co-sponsored by recreational departments and residential facilities serving older adults.

(con't)

Many students participate in two or more activities per week. Classes are free of charge and enrollment is the first class meeting of each quarter.

ACTIVITIES COMPRISING PROGRAM:

Gymnastics/Exercises

TARGET POPULATION:

Well Elderly
Arthritic
Cardiac/Stroke
Deaf
Limited Movement Capacity

COMMENTS:

Currently there are 3 sections of Correctives/Exercise classes, and an Adaptive physical education program, not exclusively for the elderly. The Adaptive program is designed to meet the needs of the physically and learning disabled students. It has not been decided whether to open a section just for elderly. Sessions will be held in the pool, various sports, and recreational activities and eventually a wheelchair program--all open to any handicapped student.

Physical Fitness Activity
Health or Fitness Education

ACTIVITIES COMPRISING PROGRAM:

- Aquatics
- Dance
- Games
- Exercises
- Jogging
- Mobility Exercises
- Rhythm Based Movement
- Yoga

TARGET POPULATION:

Well Elderly

COMMENTS:

Currently, our program is limited to the offering of a single class of 25 senior citizens under the heading Vitality Unlimited.

Future plans include the opening of a Fitness Testing and Exercise Prescription Centre in summer of 1980. In conjunction with this program we intend to offer the elderly and handicapped exercise testing, fitness prescription and rehabilitation services.

(con't)

Additionally, we have a program for a Physical Activity Studies (Adapted Physical Education) degree which we anticipate will be initiated in 1981. The intention is to train graduates to work with the elderly as well as special populations of all types of handicapped.

Games
Jogging
Mobility Exercises
Motor Skills
Rhythm Based Movement
Sports/Athletics
Wheelchair Exercises
Aerobics

TARGET POPULATION:

Well Elderly
Arthritic
Cardiac/Stroke
Deaf
Limited Movement Capacity

COMMENTS:

The Body Recall program began in 1978 at Berea College. Two classes are offered each semester with the cooperation of the Continuing Education and Physical Education departments. Classes are for both beginners and those at a more advanced level.

(con't)

There are 40-45 students in each class with an average age of 68. Women outnumber men 5 to 1 with the men in the most consistent category of over 70.

Also offered is a class and workshops to train future teachers in this area. An active outreach program consists of lectures with demonstration groups of senior citizens showing the development and potential of a realistic fitness program.

PEROP-Physical Exercises and Recreation for Older Persons is our ongoing program in which physical education majors are taught to lead older persons in exercises and recreational activities. The students meet with the older persons twice each week for twelve weeks each semester.

ONGOING PROGRAM

* * *

NEW YORK

ALBANY - STATE UNIVERSITY OF

Richardson 281
135 Western Avenue
Albany, NY 12222

Nancy Gordon

* * *

PROGRAM AREA:

Physical Fitness Activity

ACTIVITIES COMPRISING PROGRAM:

Aquatics
Gymnastics/Exercises
Rhythm Based Movement
Yoga

TARGET POPULATION:

Well Elderly 60+

COMMENTS:

SUNYA offers "Non-strenuous Exercise for Mature Adults" through the Elderhostel program during the summer. The College Continuing Studies offers "Beginning Hatha Yoga for Senior Citizens" one semester each year, usually Spring semester. The Red Cross and the Dept. of Physical Education co-sponsor a swimming program for Senior Citizens.

ONGOING PROGRAM
LIMITED DURATION

* * *

JOHN JAY COLLEGE OF CRIMINAL JUSTICE

444 West 56 Street
New York, NY 10019

Professor Pina

* * *

PROGRAM AREA:

Physical Fitness Activity

ACTIVITIES COMPRISING PROGRAM:

Circuit Training

TARGET POPULATION:

Well Elderly
All Students

COMMENTS:

Write for brochure and orientation bulletin. Interested people are invited to visit this unique cardio-vascular fitness center. Future plans include making the facility available to outside groups, including the elderly--at a fee.

ONGOING PROGRAM

* * *

LA GUARDIA COMMUNITY COLLEGE

31-10 Thomson Avenue Naomi S. Greenberg
West Hempstead, NY 11552

* * *

PROGRAM AREA:

Health or Fitness Education

ACTIVITIES COMPRISING PROGRAM:

Simulation Education

TARGET POPULATION:

Well Elderly

COMMENTS:

Movement experiences are incorporated
in course called, "Aging and Health."

ONGOING PROGRAM

* * *

MOLLOY COLLEGE

1000 Hempstead Avenue Eleanor B. Wapner
Rockville Center, NY 11570

* * *

ACTIVITIES COMPRISING PROGRAM:

Dance
Games
Gymnastics/Exercises
Mobility Exercises
Rhythm Based Movement
Sports/Athletics
Wheelchair Exercises
Yoga
Movement Therapy

COMMENTS:

We have a Gerontology Major; we also give a
series of workshops each year. Faculty and students
volunteer services; Senior Citizens come to Molloy
to participate in special events.

ONGOING PROGRAM

* * *

NORTH COUNTRY COMMUNITY COLLEGE

North Country Center of Gerontology Elizabeth Hudak
20 Winona Avenue
Saranac Lake, NY 12983

* * *

PROGRAM AREA:

Physical Fitness Activity
Health or Fitness Education

ACTIVITIES COMPRISING PROGRAM:

Aquatics
Dance
Gymnastics/Exercises
Mobility Exercises

TARGET POPULATION:

Well Elderly

COMMENTS:

We offer: 1) an exercise program at low intensity to increase flexibility mobility and coordination for the older adult; and 2) a training program to teach others the concepts and techniques of low intensity exercises.

ONGOING PROGRAM

* * *

STATE UNIVERSITY OF NEW YORK AT BUFFALO

309 Clark Hall Dr. John Piscopo
Main Street Campus
Buffalo, NY 14214

* * *

PROGRAM AREA:

Health or Fitness Education

TARGET POPULATION:

Well Elderly

COMMENTS:

We offer Master's degree in physical education tract entitled, "Fitness and Leisure Programs for the Aging" students may also pursue the Doctoral degree in this area under the sponsorship of Department of Physical Education with an Interdisciplinary approach.

KENT STATE UNIVERSITY

Applied Physiology Research Wayne E. Sinning
Laboratory
Kent, OH 44242

* * *

PROGRAM AREA:

Physical Fitness Activity

ACTIVITIES COMPRISING PROGRAM:

Aquatics
Jogging
Mobility Exercises

TARGET POPULATION:

All well people--present enrollment
ages 22 to 79 years old

COMMENTS:

Our program is for "well" adults of all ages. It requires medical clearance including a stress test to maximum work tolerance. The exercise sessions are offered five days per week early in the morning (6:45 a.m.) or at noon. Participants exercise at their own capacity. Cardio-vascular exercise intensity is monitored by heart rate. Participants may jog or swim for aerobic training. Bicycle ergometers are also used when necessary. This is a service for fee program. Clearance costs \$75.00; therefore, participants pay \$100.00 per year.
