IDENTIFIERS Georgia: Georgia Comprehensive Guidance Model

ABSTRACT

This manual provides a framework for guidance curriculum development for use by planners involved in creating or improving a guidance program in secondary schools. These materials represent a competency-based approach based on the Georgia Comprehensive Guidance Model and provide a comprehensive structure of the knowledge, skills, and attitudes that students can derive from a developmental guidance program. (A summary of the Model is appended.) Guidance curricula are presented separately for each of grades 7-12. They are organized in this format: content, role, goal, objective as defined in the Model; competency; performance indicators; and suggested performance level. Forms for secondary school guidance progress reports, grades 7-12, are provided. The manual concludes with an overview of grade level competencies for Grades K-12 for each of the eight principal content areas. (YLB)

Overview: Grade Level Competencies . . . . . 167

Appendix . . . . . 195

framework that can be used for guidance curriculum development. The materials in this Manual will support planners who are involved in creating or improving a guidance program in secondary schools.

The Georgia Comprehensive Guidance Model served as a framework for these materials. A summary of the Model is in the Appendix on page 195. An extended discussion of the Model can be found in the *Program Planning Guide* available through the Guidance Unit of the Georgia State Department of Education. Guidance curriculum committees or program planners can adopt parts of this Manual, modify other parts, or create new elements that are unique to their local needs. Nevertheless, the materials in this Manual represent a competency-based approach that is designed to provide a comprehensive framework of the knowledge, skills, and attitudes that students can derive from a developmental guidance program. The guidance content area goals and competencies presented in this *Secondary School Guidance Curriculum Manual 7-12* can be continued and extended through the elementary school and the middle school curriculum. Activities and assessment procedures can be organized around these materials. Again, contact the Guidance Unit in the Georgia State Department of Education for information about related materials.

SEVENTH GRADE GUIDANCE CURRICULUM

7

3

Understanding  
Role:  
Individual  
Goal: A  
Obj: 2

helpful and things harmful to physical health.

- harmful to physical health.
2. provide examples of things helpful to physical health.
  3. compare and contrast those things in their lives that are helpful and those that are harmful to their physical health.

physical health (i.e., gluttony, misuse of drugs and alcohol, smoking, dressing inappropriately, not taking safety precautions, not eating the right kinds of foods, etc.).

2. provide five examples of things helpful to physical health (i.e., exercise, good eating habits, enough sleep, dressing appropriately, taking safety precautions, brushing teeth, bathing, etc.).
  3. specify three helpful things and two harmful things they have done or are doing; base their comparisons upon those examples and the effects upon their physical health.
- \* demonstrate observable behaviors (i.e., indications of a willingness-not always mastery--to maintain a health body as described in #2.)

Content: I  
Self Understanding  
Role(s):  
Individual, Learner, Citizen, Consumer, Producer  
Goal: B  
Obj: 2

Students will analyze how their characteristics and abilities can be expanded.

- Students are able to:
1. compare and contrast past and present characteristics and abilities of self and others at different age levels.

- Students are able to:
1. a) review the meanings of characteristics (i.e., distinguishing features in appearance or personality, etc.) and abilities (i.e., things a person is able to do well, etc.)  
b) compare the past and present characteristics and abilities of themselves at birth, age three, age seven, and present age. At least two characteristics and two abilities should be compared at each age.

been expanded in the past.

3. explain that their characteristics and abilities can be further developed with both time and effort.

(physical, financial...), etc.

3. explain how time and effort are both involved in learning, obtaining more information, in practicing, and in interpreting responses from others and self.
- \* demonstrate observable behaviors (i.e., indications of an attempt to further develop their characteristics and abilities within the school setting, etc.).

Content: I  
Self  
Understanding

Role(s):  
Students will evaluate the relationship between mass media and self-control.

Individual,  
Learner,  
Citizen,  
Consumer,  
Producer

Goal: C

Obj: 2

Students are able to:

1. provide examples of mass media.
2. provide examples and evaluate how self-control could benefit from mass media.

Students are able to:

1. provide four examples of mass media, (i.e., radio, television, newspapers, movies, magazines, books, etc.)
2. include the following points and two examples for each in their evaluation:
  - \* mass media can encourage self-control (i.e., television shows such as Mr. Rogers, Fat Albert, Sesame Street, afternoon childrens' specials, etc.; books or articles dealing with taking responsibility; etc.).
  - \* mass media can present additional and accurate information (i.e., consumer reports on radio or television, consumer journals, informative and accurate advertising and news reports, etc.).

SEVENTH GRADE

Competency	Performance Indicators	Suggested Performance Levels
(continued)	3. provide examples and evaluate how mass media could possibly hinder self-control.	3. include the following points and two examples for each in their evaluation: <ul style="list-style-type: none"> <li>• mass media could hinder self-control when the listener, viewer, or reader lacks emotional maturity or stability (i.e., young or impressionable children, persons under too much stress who do not have an emotional release, etc.)</li> <li>• mass media could hinder self-control when the listener, viewer, or reader lacks the necessary information to make a good judgment (i.e., lack of experience in young persons, false or misleading advertising, etc.).</li> </ul> * demonstrate observable behaviors (i.e., demonstrate recognition responses, or indicate upon request those types of mass media they are in contact with which encourage or discourage their own self-control, etc.).

## Performance Indicators

## Suggested Performance Levels

Content: IIInter-  
personal  
RelationsRole(s):Individual,  
Learner,  
Citizen,  
Consumer,  
ProducerGoal: CObj: 2

Students will evaluate those behaviors that help or hinder group cooperation and effectiveness.

Students are able to:

1. explain how specific behaviors can help group cooperation and effectiveness.
2. explain how specific behaviors can hinder group cooperation and effectiveness.

Students are able to:

1. include in their explanation four of the following five examples:
  - listening
  - taking turns
  - paying attention
  - participation
  - encouragement (define encouragement as focusing on assets and strengths to build self-confidence and esteem).
2. include in their explanation four of the following five examples:
  - interrupting
  - not paying attention
  - not getting involved
  - trying to do all the work themselves
  - discouragement (define discouragement as focusing on mistakes and weaknesses to erode self-confidence and esteem; discouragement results in negative behavior).

SEVENTH GRADE

Competency	Performance Indicators	Suggested Performance Levels
(continued)	3. indicate groups they belong to and how they help or hinder the groups' cooperation and effectiveness.	<p>3. a) define a group as two or more persons gathered together because of a common interest or purpose.</p> <p>b) indicate three out of the four following examples of groups they belong to:</p> <ul style="list-style-type: none"> <li>• large groups (e.g., large club, 7th grade class at school, church, etc.)</li> <li>• small group (e.g., small class at school, extracurricular group after school, club or organization, etc.)</li> <li>• peer group (e.g., Boy Scouts, Girl Scouts, clubs, class at school, neighborhood gang, etc.)</li> <li>• mixed group: adults and youth (e.g., church, school system, community organization, the family, etc.).</li> </ul> <p>c) select one group from those described in #3b and describe how they have helped and/or hindered that group's cooperation and effectiveness.</p> <p>* demonstrate observable behaviors (i.e., exhibit a growing ability to operate with cooperation and effectiveness in a group setting, etc.).</p>

<p><u>Content:</u> VI Valuing &amp; Decision-Making</p> <p><u>Role(s):</u> Individual, Learner, Citizen, Consumer, Producer</p> <p><u>Goal:</u> A</p> <p><u>Obj:</u> 2</p>	<p>Students will compare and contrast others' values.</p> <p>Students are able to:</p> <ol style="list-style-type: none"> <li>1. provide examples of others' values.</li> <li>2. compare and contrast others' values.</li> <li>3. analyze why others may have differing values.</li> </ol>	<p>Students are able to:</p> <ol style="list-style-type: none"> <li>1. provide two examples of things others seem to value (i.e., money, education, having fun, love, etc.).</li> <li>2. base their comparisons upon: <ul style="list-style-type: none"> <li>• whether values seem to be directed inwardly (getting for oneself) or directed outwardly (doing things for others)</li> <li>• if values are action-oriented or object-oriented.</li> </ul> </li> <li>3. include two reasons in their analysis (i.e., parental influence, deprivation or excess while growing up, self-satisfaction, etc.).</li> </ol> <p>* demonstrate observable behaviors (i.e., demonstrate respect for others' values, exhibit recognition responses or indicate upon request that others may have values different from their own for a variety of reasons, etc.).</p>
<p><u>Content:</u> VI Valuing &amp; Decision-Making</p> <p><u>Role(s):</u> Individual, Learner, Citizen, Consumer, Producer</p> <p><u>Goal:</u> B</p> <p><u>Obj:</u> 2</p>	<p>Students will describe the importance of examining their values and opinions when making a decision.</p> <p>Students are able to:</p> <ol style="list-style-type: none"> <li>1. describe the effects of values and opinions upon the decision-making process.</li> </ol>	<p>Students are able to:</p> <ol style="list-style-type: none"> <li>1. a) review the definitions of opinion (inclination or feeling toward something) and value (a very strong feeling about something)</li> <li>b) describe two effects of values and opinions on the decision-making process (i.e., everyone views the world differently and decisions are based on their view of the world, more conviction and confidence exists when a decision is based on a value, they tend to own their decision when it is based on their opinions or values, etc.).</li> </ol>

## SEVENTH GRADE

	Competency	Performance Indicators	Suggested Performance Levels
	(continued)	2. describe the effects when one's own values and opinions are not considered in the decision-making process.  3. describe some examples of decisions that rely on consideration of values and opinions.	2. describe two effects when one's own values and opinions are not considered in the decision-making process (i.e., person deciding tends to have less conviction, confidence, feelings of decision-ownership, satisfaction with the results, etc.).  3. describe three examples of decisions that rely on consideration of values and opinions (i.e., decision to lie/value of honesty; decision to use dope/value of one's own health; decision to kill/value of human life; decision to cut classes/value of an education, etc.).  * demonstrate observable behaviors (i.e., exhibits a willingness to examine their decisions in light of their opinions and values, etc.).
<u>Content:</u> VI Valuing & Decision-Making <u>Role(s):</u> Individual, Learner, Citizen, Consumer, Producer <u>Goal:</u> C <u>Obj:</u> 2	Students will describe decisions they have made that were based on their values and opinions.	Students are able to:  1. specify their values and opinions.  2. explain decisions they have made that were based on those values and opinions.  3. evaluate the difference of decisions based on values as opposed to decisions based on opinions.	Students are able to:  1. identify one opinion and one important value.  2. a) describe a decision that was influenced by the opinion identified in #1 b) describe a decision that was based on the value identified in #1.  3. using the examples from #2, include in their evaluation: <ul style="list-style-type: none"> <li>• a comparison regarding the convictions behind the decisions</li> <li>• a comparison concerning the attitude of flexibility after making the decisions</li> <li>• a comparison of the anxiety levels concerning the outcomes of their decisions.</li> </ul> * demonstrate observable behaviors (i.e., exhibit the ability to make decisions that are usually consistent with their present value system, etc.).

SEVENTH GRADE

Competency	Performance Indicators	Suggested Performance Levels
<p><u>Content:</u> VII</p> <p>Achievement Motivation</p> <p><u>Role(s):</u></p> <p>Individual, Learner, Citizen, Consumer, Producer</p> <p><u>Goal:</u> A</p> <p><u>Obj:</u> 2</p>	<p>Students will describe ways they have seen others use planning, the trial-and-error approach, and goal setting.</p> <p>Students are able to:</p> <ol style="list-style-type: none"> <li>1. review what planning, trial-and-error, and goal-setting mean.</li> <li>2. describe situations where they have seen others use the trial-and-error approach, planning, and goal-setting.</li> <li>3. evaluate the results of others using the trial-and-error approach, planning, and goal-setting.</li> </ol>	<p>Students are able to:</p> <ol style="list-style-type: none"> <li>1. a) describe planning as the process of thinking ahead about how to do something; preparing before doing, outlining how and when a task should be done.</li> <li>b) describe the trial-and-error approach as randomly trying different ways of doing something until the right way is found</li> <li>c) describe goal-setting as determining something they desire and aiming and striving to achieve that goal; goal-setting is a form of planning.</li> <li>2. a) describe a situation where they have seen someone use the trial-and-error approach to getting a job done</li> <li>b) describe a situation where they have seen someone use planning in order to get a job done</li> <li>c) describe a situation where they have known someone who sets goals for themselves to strive toward.</li> <li>3. a) using the situations described in #2a and b, compare and evaluate the results according to: <ul style="list-style-type: none"> <li>• efficiency in use of time, materials, energy, money, and/or effort</li> <li>• quality of the product or outcome</li> <li>• completion of the product or outcome</li> </ul> </li> <li>b) using the situation described in #2c, compare and evaluate the results according to: <ul style="list-style-type: none"> <li>• the effects of goal-setting upon that person</li> <li>• the effects of that person's goal-setting on others</li> <li>• what would the results be like if there had been no goal-setting.</li> </ul> </li> <li>* demonstrate observable behaviors (i.e., demonstrate recognition responses or indicate upon request when they or others use planning, trial-and-error approach and goal setting, etc.).</li> </ol>

SEVENTH GRADE

	Competency	Performance Indicators	Suggested Performance Levels
<u>Content: VIII</u> Achievement Motivation <u>Role(s):</u> Individual, Learner, Citizen, Consumer, Producer <u>Goal: B</u> <u>Obj: 1</u>	Students will describe methods and effects of evaluating achievement.	Students are able to: <ol style="list-style-type: none"> <li>1. differentiate between evaluation of progress and evaluation of achievement.</li> <li>2. describe methods for evaluating achievement.</li> <li>3. discuss the effects of evaluating their achievement.</li> </ol>	Students are able to: <ol style="list-style-type: none"> <li>1. a) review the definition of evaluation; finding out how well they are doing; judgment; assessment.</li> <li>b) describe evaluation of progress as determining how well they are advancing or improving as they continue to work toward final task completion.</li> <li>c) describe evaluation of achievement as determining how well they have finished their task; evaluation when task-parts have been completed.</li> <li>2. describe three methods for evaluating achievement (i.e., posttest, verbal reaction from others, amount of self-satisfaction and pride, purpose of task is accomplished, etc.).</li> <li>3. discuss two effects of evaluating their achievement (i.e., helps to indicate weak areas in the process of analyzing and accomplishing, allows them to know if they are adept in that area, allows them to know whether or not the task should be done again, etc.).</li> </ol>

SEVENTH GRADE

	Competency	Performance Indicators	Suggested Performance Levels
<p><u>Content:</u> VIII</p> <p><u>Problem Solving</u></p> <p><u>Role(s):</u></p> <p>Individual, Learner, Citizen, Consumer, Producer</p> <p><u>Goal:</u> A</p> <p><u>Obj:</u> 2</p>	<p>Students will explore the problem-solving process and how listening and talking help to solve problems.</p>	<p>Students are able to:</p> <ol style="list-style-type: none"> <li>1. describe a basic problem-solving format.</li>   <li>2. explain how reflective listening, I-messages, and nonverbal communication help to solve problems.</li> </ol>	<p>Students are able to:</p> <ol style="list-style-type: none"> <li>1. describe the following problem-solving format in their own words: <ul style="list-style-type: none"> <li>• pinpoint the problem</li> <li>• brainstorm for solutions</li> <li>• evaluate the ideas and choose a course of action</li> <li>• make a commitment</li> <li>• act upon the chosen solution</li> <li>• re-evaluate the solution.</li> </ul> </li>   <li>2. a) explain the meaning of reflective listening (i.e., listening to understand the speaker's feelings; repetition of the basic content or feeling of the message received); explain how reflective listening helps in solving problems.</li> <li>b) explain the meaning of I-messages (i.e., expressing their feelings in response to another's actions or messages); explain how I-messages help in solving problems.</li> <li>c) review the meaning of nonverbal communication (i.e., body language and/or silence means sending messages without speaking); explain how nonverbal communication helps in solving problems.</li> </ol> <p>*Reference for concept clarification:</p> <p>Reference for reflective listening:  <u>Helping and Human Relations: A Primer</u>  <u>Primer for Lay and Professional Helpers</u>  by R. R. Carkhuff.</p> <p>Reference for I-messages: <u>Parent Effectiveness Training</u> by T. Gordon</p>

SEVENTH GRADE

	Competency	Performance Indicators	Suggested Performance Levels
	(continued)	3. evaluate how people help each other through listening and talking to solve problems.	3. base their evaluation on three examples of helping each other through reflective listening, I-messages, nonverbal communications, or establish through a problem-solving format.  * demonstrate observable behaviors (i.e., demonstrate a willingness and growing ability to use the problem-solving process; exhibit beginning attempts to use reflective listening, I-messages, and nonverbal communication during school problem situations; etc.).
<u>Content: VIII</u> Problem Solving <u>Role(s):</u> Individual, Learner, Citizen, Consumer, Producer <u>Goal: B</u> <u>Obj: 2</u>	Students will predict ways in which some present careers may be different in the future.	Students are able to: 1. provide examples of some present careers. 2. predict how the expectations of those careers may be different in the future. 3. predict how the work environment for those careers may be different in the future.	Students are able to: 1. provide two examples of present careers. 2. using the examples in #1, include in their predictions: <ul style="list-style-type: none"> <li>• how expectations concerning preparation may change</li> <li>• how expectations on the job may change</li> <li>• how stereotypes (if any) connected with those careers may change.</li> </ul> 3. using the examples from #1, include in their predictions: <ul style="list-style-type: none"> <li>• how work facilities may change</li> <li>• how tools necessary for those careers may change</li> <li>• how worker relationships may change.</li> </ul> * demonstrate observable behavior (i.e., demonstrate a growing ability to imaginatively project present work roles into the future, etc.).

(continued)

3. discuss how understanding the concept of family constellations may help in getting along with other family members.

3. a) discuss one way that understanding the concept of family constellations may help them to get along with their parents or other adults in the immediate family (i.e., it helps to understand how their parents grew up the way they did as only, first, second, or ... children in their families, it helps to know that they have been really seeking security and a feeling of belonging from their parents, etc.).
- b) discuss one way that understanding the concept of family constellation may help them to get along with their siblings (if any) in the immediate family (i.e., helps them to understand why siblings act the way they do, helps them to understand why they act the way they do, helps them to know the importance of communicating acceptance and appreciation, etc.).
- \* Reference for concept clarification:  
Techniques for Behavior Change by A. Nickely and "The Characteristics of the Family Constellation" by Mrs. F. Pepper.
- \* demonstrate observable behaviors (i.e., ability to show recognition responses or indicate upon request how the family constellations concept does or does not apply to them, etc.).

ProducerGoal: CObj: 2

Students will evaluate the importance and effects of group friendships.

Students are able to:

1. describe what group friendship means.
2. explain why group friendships can be important.
3. discuss some effects of group friendships.

Students are able to:

1. a) define group friendship as a group of people who primarily interact as friends within the limits of that group.  
b) describe two examples of group friendships (i.e., clubs with strong ties such as sports teams, band, neighborhood gangs, ...; cliques at school or in the community; etc.).
  2. include two reasons in their explanation (i.e., encourages feelings of belongings, exposes members to others' diversity, encourages a closer bond of friendship, etc.).
  3. include in their discussion four effects (some positive and some negative) of group friendships:
    - excludes people
    - rejects people who do not conform
    - sometimes controls individuals' likes, dislikes and values at the expense of creativity or individualism
    - encourages the groups' acceptable behavior (may be either acceptable or unacceptable according to society)
    - encourages feelings of acceptance and close friendships
    - sometimes exposes persons to a diversity among group members.
- \* demonstrate observable behaviors (i.e., encourage open group friendships rather than exclusive or closed group friendships, etc.).

ProducerGoal: AObj: 2

Students will analyze situations when a written expression of opinions and beliefs is an effective means of influencing others.

Students are able to:

1. identify possible situations and recipients of a written expression of an opinion or belief.
2. describe some advantages of writing over other methods of influencing others.
3. describe possible results of using written expression as a means of conveying their opinions or beliefs.

Students are able to:

1. a) identify two situations when a written expression of opinions or beliefs would be appropriate (i.e., resolving a problem with a friend many miles away, showing concern about a public issue, bringing attention to an environmental hazzard, etc.).  
b) identify two persons who could be possible recipients of written expressions of opinions or beliefs (i.e., friend, newspaper reporter, congressman or woman, television reporters, etc.).
2. describe two possible advantages of writing as a means of influencing others (i.e., letters are usually more planned and thought out than other methods, it is a permanent record, it is harder to ignore than some other means, etc.).
3. describe two possible results of using written expression (i.e., author is more likely to get credit, written expression is sometimes taken more seriously, the author is held accountable and responsible for what is written, etc.).
- \* demonstrate observable behaviors (i.e., use writing as a method of influencing others, use writing as a means of conveying their opinions and beliefs, etc.).

Content: V  
Rights & Responsibilities  
Role:  
Citizen  
Goal: C  
Obj: 2

Students will evaluate the purposes of taxes and how they support the government.

Students are able to:

1. provide examples of a variety of taxes citizens are required to pay.
2. explain how these taxes support the running of government, its agencies and programs and how they benefit from that use of tax monies.
3. evaluate whether these tax monies are used effectively or not.

Students are able to:

1. provide five examples of taxes (i.e., state income tax, federal income tax, social security tax, sales tax, property tax, taxes on utilities, etc.).
  2. a) discuss how their state government spends money:
    - specify the major spending areas and the percentage of money allotted to each area
    - pinpoint the areas that directly affect them as students
 b) discuss how their federal government spends money:
    - specify the major spending areas and the percentage of money allotted to each area
    - pinpoint the areas that directly affect them as students.
  3. a) specify one example of waste and one example of effective use of taxpayers' money  
 b) make a subjective judgment as to whether taxes are usually put to effective use or not; support their decisions with at least two examples.
- \* demonstrate observable behaviors (i.e., exhibits a growing interest in the support of government programs and their effectiveness, demonstrating recognition responses or indicate upon request how taxes support different governmental programs, etc.).

## Suggested Performance Levels

(continued)

3. analyze how their own past decisions influence their present decisions and will influence their future decisions.

3. a) provide two examples of some long-range decisions they have made (i.e., to attend college or not, what classes to take, what leisure activities to take part in, etc.)
- b) provide one example of a related decision they are presently facing
- c) predict two decisions they may have to face in the future (i.e., job choice, where to live, involvement in social activities, etc.)
- d) using their examples from above, include in their analysis how their decisions:
- have limited and/or may limit their present and future choices
  - have limited and/or may expand their present and future choices.
- \* demonstrate observable behaviors (i.e., exhibit a willingness to consider similar or relating past decisions and their results when having to make a present decision, etc.).

Content:VIIIAchievement  
MotivationRole(s):Individual,  
Learner,  
Citizen,  
Consumer,  
ProducerGoal: AObj: 2

Students will evaluate the importance of setting realistic goals and striving toward them.

Students are able to:

1. analyze what constitutes a realistic goal.

Students are able to:

1. include in their analysis such factors as:
- accurate assessment of capabilities
  - availability of time to pursue that goal
  - accurate assessment of interest (influences the priority placed on the goal)
  - availability of a means of evaluation of progress in reaching the goal.

*personal*  
*Relations*  
*Role:*  
*Individual*  
*Goal:* B  
*Obj:* 2

Students will describe families that are different from their own and predict how they might feel in that set of relationships.

Students are able to:

1. compare their family to other families.
2. predict how they might feel if changes were to occur in their family and new relationships had to be formed.

Students are able to:

1. a) choose one example of family-life in the past and compare their family to that set of relationships and circumstances (i.e., physical make-up of the family, parental expectations, children's expectations, etc.).
  - b) choose one example of family life in a different country and compare their family to that set of relationships and circumstances (i.e., parental expectations, children's expectations, closeness of relationships, etc.).
  - c) choose one example of an American family that has a different physical make-up than their family (i.e., one-parent family, family with many children, family with one child, foster children in the family, adopted children in the family, etc.) and compare their family to that set of relationships and circumstances.
  2. using the examples and comparisons from #1b and #1c, include the following in their predictions:
    - possible feelings while change was taking place
    - possible feelings while new relationships were being formed
    - possible problems that might occur
    - possible benefits of such a change
- \* demonstrate observable behaviors (i.e., demonstrate more sensitivity and understanding of students who come from families different from their own, indications of an appreciation of what they like about their own family, etc.).

Producer  
Goal: A  
Obj: 2

Students will analyze how to use skills of expression in a variety of settings.

Students are able to:

1. identify various ways they express themselves.
  
2. identify a variety of settings they are familiar with and analyze the expression skills that are appropriate for different settings.

Students are able to:

1.
  - a) describe how they express their opinions or beliefs verbally.
  - b) describe how they express their opinions or beliefs nonverbally.
  - c) describe how they express their opinions or beliefs in writing.
  
2.
  - a) identify four different settings they are familiar with (i.e., classroom at school, home, store, party at a friend's home, restaurant, park, etc.).
  - b) include in their analysis the following:
    - one example each of an expression skill that would be appropriate for the setting identified in #2a
    - one example each of an expression skill that would not be appropriate for the settings identified in #2a
    - explanation why one expression skill might be more appropriate than another.
  
- \* demonstrate observable behaviors (i.e., use appropriate expression skills in the different school settings, etc.).

*Goal:* B

*Obj:* 2

Students will  
assess the needs  
they have in  
asserting  
themselves.

Students are able to:

1. identify situations in their lives where assertive behavior is needed.
2. describe some emotional block they experience in asserting themselves.
3. identify possible strategies for overcoming their emotional blocks.

Students are able to:

1. a) identify one situation in their lives where assertive behavior is needed.  
b) describe some benefits of using assertive behavior in that situation (i.e., increased self-respect and dignity, desires or needs would be met, etc.).
  2. describe at least one emotional block they experience in asserting themselves (i.e., fear of failure, fear of rejection, anxiety over being the center of attention, desires to have everyone like them, etc.).
  3. identify two possible strategies for overcoming their emotional blocks (i.e., relaxation techniques, self-talk to refute irrational statements, choosing an appropriate assertiveness style and preparing beforehand the kinds of things they would like to say, guided imagery concerning responses to possible consequences of assertiveness, etc.).
- \* demonstrate observable behaviors (i.e., demonstrate the ability to determine when assertive behavior would be acceptable, exhibit a growing ability in overcoming their emotional blocks concerning assertive behavior, etc.).

Producer

Goal: A

Obj: 2

Students will  
compare how life  
styles differ  
depending on  
life roles,  
settings,  
and events.

Students are able to:

1. explain how life styles differ depending on what life roles, settings, and events persons have control over.
2. explain how life styles differ depending on the life roles, settings, and events which persons have no control over.
3. compare how life styles differ depending on life roles, settings, and events (both those of choice and those they have no control over).

Students are able to:

1. include in their explanation:
    - one example each of roles, settings, and events persons have control over
    - how life styles can differ depending on the choice made concerning roles, settings, and events.
  2. include in their explanation:
    - one example each of roles, settings, and events that happen which persons have no control over
    - how life styles can differ depending on the roles, settings, and events that happen to them
    - how life styles can differ depending on the attitudes persons approach those roles, settings, and events they have no control over.
  3. compare two opposite life styles on the basis of roles, settings, and events persons have control over; roles, settings, and events persons have no control over; and attitudes toward their roles, settings, and events.
- \* demonstrate observable behaviors (i.e. demonstrate indications of an increased evaluation of their life style; beginning attempts at changes, when possible, so life roles, settings, and events will be compatible with a preferred life style, etc.).

Students will predict how their values will influence their life styles.

Students are able to:

1. analyze how values affect life styles
2. provide examples of their values.
3. predict the effect their values will have on their future life styles.

Students are able to:

1. a) review the meaning of life style: the distinctive way in which someone lives  
b) review the meaning of a value: something that is very important to a person  
c) include in their analysis:
    - life styles are directed around desired goals
    - desired goals are determined by what is valued
    - one example of how values and life styles are directly related.
  2. provide two examples of actions or things they value.
  3. include in their prediction:
    - a description of a possible future lifestyle
    - at least one example of possible effects of each value described in #2 on that future life style.
- \* demonstrate observable behaviors (i.e., demonstrate recognition responses or indicate upon request how their values have influenced their present life style; exhibit satisfaction with the compatibility of their values with their life style, etc.).

Content: II  
 Inter-personal Relations  
 Role(s):  
 Individual, Learner, Citizen, Consumer, Producer  
 Goal: A  
 Obj: 3

Students will explain that the way they communicate a thought or idea influences others' reactions to that thought or idea.

- Students are able to:
1. describe verbal and nonverbal cues that encourage positive reactions to a thought or idea.
  2. describe verbal and nonverbal cues that encourage negative reactions to a thought or idea.
  3. provide examples of times when they have encouraged positive and/or negative reactions to thoughts or ideas.

- Students are able to:
1. a) describe two verbal cues that encourage positive reactions (i.e., enthusiastic voice tone, statement of confidence, statement of positive expectation, etc.)  
 b) describe two nonverbal cues that encourage positive reactions (i.e., smile, gleam in the eyes, eye contact, relaxed and confident posture, etc.).
  2. a) describe two verbal cues that encourage negative reactions (i.e., discouraged voice tone, statement of uncertainty or negative expectations, etc.)  
 b) describe two nonverbal cues that encourage negative reactions (i.e., frown, no eye contact, discourage posture, nervousness, etc.).
  3. provide two examples of times when they have encouraged positive or negative reactions to thoughts or ideas and include in their examples:
    - what kind of reaction they desired
    - what kind of reaction they received
    - what verbal cues they gave
    - what nonverbal cues they gave
    - if they were encouraging reaction to their own thoughts or to someone else's thoughts.
- \* demonstrate observable behaviors (i.e., use verbal and nonverbal cues to gain positive reactions to their thoughts and ideas, etc.).

*Content:* II

Inter-  
personal  
Relations

*Role(s):*

Individual

*Goal:* B

*Obj:* 3

Students will assess their current family relationships and evaluate their effectiveness.

Students are able to:

1. describe an example of effective family relationships.
  
  
  
  
  
  
  
  
  
  
  
  
  
  
  
  
  
  
  
  
  
  
2. privately describe and evaluate the effectiveness of their family relationships.

Students are able to:

1. describe an example of effective family relationships using the following characteristics for their model:
  - treat each other as equal in worth and dignity
  - show respect toward each other
  - listen to each other
  - communicate with each other
  - constructively solve problems instead of allowing anger to remain
  - show care and love in spite of mistakes (i.e., "I love you, not what you are doing,...")
  - trust each other
  - show loyalty toward each other
  - share time with each other
  
2. a) describe four aspects of their current family relationships (i.e., closeness, needs fulfilled, companionship, personal gains, cooperative relationships, etc.)
  - b) evaluate their effectiveness upon five of these points:
 

Persons in the relationship--

    - treat each other as equal in worth and dignity
    - show respect toward each other
    - listen to each other
    - cooperate with each other
    - constructively solve problems instead of allowing anger to remain
    - show care and love in spite of mistakes (i.e., "I love you, not what you are doing,...")

(continued)

- 3. privately determine areas where improvement in their family relationships should be made.

- trust each other
  - show loyalty toward each other
  - share time with each other.
- 3. a) privately determine areas that are lacking in their family relationships
  - b) privately provide three examples of how *they can contribute* toward improvement.
- \* demonstrate observable behaviors (i.e., show recognition responses or indicate upon request those characteristics of a model effective family relationship, etc.).

Content: II  
Inter-  
personal  
Relations  
Role(s):  
Individual,  
Learner,  
Citizen,  
Consumer,  
Producer  
Goal: C  
Obj: 2

Students will evaluate the effectiveness of their own friendship skills.

Students are able to:

- 1. provide examples of how they implement the skills that are necessary for making friendships.
- 2. provide examples of how they implement the skills that are necessary for keeping friendships.

Students are able to:

- 1. a) explain three ways they show concern and care for others (i.e., maners, talking, helping, giving time or things, etc.)
- b) explain two reasons why they desire to have friends (i.e., companionship, help, honest feedback, etc.)
- c) explain three ways they act friendly toward others (i.e., speaking kindly, being genuinely interested, sharing activities, experiences, and feelings, etc.).
- 2. a) review the meaning of trust (i.e., being able to count on a person to do what he/she says
- b) explain two situations when they have shown trustworthiness
- c) review the meaning of loyalty (i.e., being able to trust someone to stick by you
- d) explain one situation when they have demonstrated loyalty to another person
- e) explain three ways they have continued to

 Gathering & Processing Information  
*Role(s):*  
 Individual, Learner, Citizen, Consumer, Producer

*Goal:* A  
*Obj:* 3

Students will determine how life roles, settings, and events have influenced their present life styles.

Students are able to:

1. specify their present life style.
2. describe the life roles, settings and events that they have control over and explain how these have influenced their present life styles.
3. describe the life roles, settings, and important events that they have had no control over and explain how these have influenced their present life styles.

Students are able to:

1. specify their present life style according to immediate and long-range goals that are important to them.
  2.
    - a) describe four life roles, settings, and events they have had control over (i.e., work, leisure activities, buying habits, health habits, educational interests, etc.)
    - b) explain how the above examples have influenced their present life style.
  3.
    - a) describe four life roles, settings, and events they have had no control over (i.e., birth, poverty or wealth, illness, accidents, location of home, sibling, etc.)
    - b) explain how the above examples have influenced their present life style.
- \* demonstrate observable behaviors (i.e., demonstrate an evaluation of their present life style, exhibit recognition responses or indicate upon request reasons why they exhibit their present life style, etc.).

Content: V  
Rights & Responsibilities  
Role(s):  
Individual  
Goal: A  
Obj: 2

Students will describe the results when responsibilities are not met by parents and children.

Students are able to:

1. describe a possible situation and the results when a child fails to meet a responsibility.
2. discuss what could happen if parents did not meet their responsibilities.

Students are able to:

1.
  - a) describe one situation when they failed to meet a responsibility (i.e., did not do a chore, showed disrespect to a parent, showed negative behavior toward a sibling, etc.)
  - b) describe the results for themselves when they failed to meet that responsibility (i.e., lost a privilege, felt guilty, lost the trust of a family member, etc.)
  - c) describe the results for the family member(s) when they failed to meet the responsibility (i.e., family member felt they were of less value, family member lost a degree of trust in them, family member's rights were infringed upon, family life did not run smoothly, etc.).
2.
  - a) discuss what could happen if parents occasionally did not meet their responsibilities (i.e., parent could feel guilty, would lose some of the trust of other family members, would make other family members feel of less value, would cause family life not to run smoothly, would infringe on other members' rights, etc.)
  - b) discuss what could happen if parents consistently did not meet their responsibilities; include the following in their discussion:
    - a summary of the law concerning child abuse and neglect
    - an acknowledgement that the majority of abuse or neglectful parents were

ELEVENTH GRADE

Competency

Performance Indicators

Suggested Performance Levels

(continued)

(continued)

3. analyze why it is important for both parents and children to meet their family responsibilities.

4. privately examine times when they have and have not met their responsibilities in their families.

abused and neglected when they were children

- examples of a hotline number, persons, or agencies that they can contact if they are aware of a case of child abuse or neglect

- examples of what kind of help is given to families having this problem (i.e., family therapy, foster home care, etc.).

3. include four of the following points in their analysis:

- family members gain a sense of worthwhileness
- family members gain a sense of belonging and security

- family members have their physical needs met
- family members are allowed control, in varying degrees, over family life

- jobs to be done within the family are accomplished faster and smoother because of a sense of cooperation.

4. a) examine two times when they have met family responsibilities and the results of meeting those responsibilities

b) examine one time when they did not meet a family responsibility and the results of not meeting that responsibility.

\* demonstrate observable behaviors (i.e., demonstrate recognition responses or indicate upon request reasons why persons should attempt to meet their family responsibilities and the results if those responsibilities are not met, etc.).

Content: V  
Rights & Responsibilities  
Role(s):  
Learner  
Goal: B  
Obj: 3

Students will examine their taking of responsibility in their roles as learners.

Students are able to:

1. identify ways they take responsibility as learners.
2. analyze the effectiveness of their taking of responsibility in their roles as learners.
3. indicate ways they can improve their taking of responsibility in their roles as learners.

Students are able to:

1. identify three ways they take responsibility as learners (i.e., school attendance, finish assignments on time, request help if needed, attentiveness, application of study skills and a study system, etc.).
  2. include the following discussion points in their analysis:
    - how their responsibility-taking measures have aided them in learning
    - how their responsibility-taking measures are related to their rights as learners
    - which responsibility-taking measures are weak and/or which new ones need to be added.
  3. a) indicate at least one area in the taking of responsibility which they wish to strengthen or initiate
    - b) describe a means by which the strengthening or addition may be accomplished
    - c) demonstrate effort in strengthening or adding the area identified in #3a.
- \* demonstrate observable behaviors (i.e., take responsibility in their roles as learners, show a desire and effort to improve those areas where they need to take more responsibility in their roles as learners, etc.).

Content: V  
Rights & Responsibilities  
Role(s);  
Consumer  
Goal: D  
Obj: 3

Students will evaluate their roles as consumers.

Students are able to:

1. explain how they are consumers.
2. analyze the major consumer skills.
3. evaluate their roles as consumers in respect to their consumer skills.
4. evaluate their roles as consumers in respect to their consumer rights and responsibilities.

Students are able to:

1. a) review the meaning of consumer: a person who buys or uses things  
b) list four products that they buy or use.
  2. include in their analysis the six following consumer skills:
    - ability to understand money and to make change
    - ability to determine the appropriate place of purchase
    - recognition of the quality of merchandise
    - ability to compare and contrast
    - determination of need or priority
    - recognition of the influence of advertising.
  3. in their evaluation, select four consumer skills, determine how those skills affect their roles as consumers, and expound on their ability to perform those skills.
  4. in their evaluation, select two of the following topics, determine how those topics affect their roles as consumers, and expound on their ability to make use of those legal aids and/or requirements:
    - guarantees
    - warrantees
    - consumer resources (i.e., literature, organizations, etc.)
    - consumer laws in their state.
- \* demonstrate observable behaviors (i.e., exhibit a willingness to meet consumer responsibilities and use consumer rights, shows an appreciation or involvement in using consumer aids,

Students will assess their present ability to analyze, accomplish and evaluate tasks.

Students are able to:

1. discuss ways to analyze, accomplish, and evaluate tasks.

2. discuss how they presently analyze, accomplish, and evaluate tasks.

Students are able to:

1. discuss and give examples of the nine basic steps of analyzing, accomplishing, and evaluating tasks:
  - determination of task purpose
  - break task into smaller task-parts
  - determining who needs to accomplish the task parts (i.e., individually or with help from others)
  - deciding the sequence of the task-parts
  - planning task accomplishment (i.e., who is to help them, when to work on the task, where to work on the task, what materials will be needed, etc.)
  - carrying out the task-parts
  - evaluating progress (i.e., pretest/progress tests, feedback from others, degree of self-satisfaction, etc.)
  - making necessary corrections
  - evaluating task achievement (i.e., post-test, reactions from others, degree of self-satisfaction and pride, accomplishment of task purpose, etc.).
2. a) discuss how they presently analyze, accomplish, and evaluate tasks  
 b) compare their present ability to those steps listed in #1.

Citizen,  
Consumer,  
Producer*Goal:* C*Obj:* 3

Students will explain the value of maintaining effective friendships throughout life in today's interdependent society.

Students are able to:

1. evaluate the gains and contributions that result from having effective friendships.
2. predict the gains and contributions that may result from

Students are able to:

1. a) evaluate at least three gains from effective friendships (i.e., feelings of worth, companionship, encouragement of growth and development, help in fulfilling needs and desires, etc.)
- b) evaluate at least three contributions toward effective friendships (i.e., showing respect and care, giving encouragement for growth and development, helping to fulfill needs or desires, sharing time in a variety of ways, etc.).
2. a) predict two ways friendships may change later on in life (i.e., friendships with

Citizen,  
Consumer,  
Producer*Goal: D**Obj: 3*

Students will evaluate their behaviors toward others and decide which are effective in interpersonal relationships and which need improvement.

Students are able to:

1. describe those behaviors which encourage and are effective in interpersonal relationships.
2. evaluate their behavior toward others as effective or ineffective in interpersonal relationships.

Students are able to:

1. describe six of the ten following behaviors that encourage and are effective in interpersonal relationships:
  - treat each other as equal in worth and dignity
  - show respect toward each other
  - listen to each other
  - communicate with each other
  - cooperate with each other
  - constructively solve problems instead of demonstrating anger or allowing anger to remain
  - show care and love in spite of mistakes
  - trust each other
  - show loyalty toward each other
  - share time with each other.
2. a) compare their behavior in interpersonal relationships to those ten behaviors listed in #1  
 b) evaluate their behaviors according to the following points:
  - does their behaviors encourage interpersonal relationships
  - is their behavior effective in helping others feel good about themselves and the relationship
  - is their behavior effective in allowing themselves to benefit from the relationship

TWELFTH GRADE

Competency	Performance Indicators	Suggested Performance Levels
(continued)	3. describe those behaviors which need changing or strengthening and discuss their plans for improvement.	3. a) specify one behavior that needs changing or strengthening b) describe what new or more effective behavior they would like to incorporate in their relationships c) discuss how they plan to improve the behavior identified in #3a.  * demonstrate observable behaviors (i.e., encourage interpersonal relationships, encourage positive feelings in their relationships, benefit themselves from their relationships, etc.).
Content: III Expressing Ideas Role(s): Individual, Learner, Citizen, Consumer, Producer Goal: A Obj: 3	Students are able to:  1. evaluate the effectiveness of their methods of expression in their family relationships.	Students are able to:  1. include the following in their evaluation: <ul style="list-style-type: none"> <li>• three examples of how they express their opinions or beliefs in their family relationships (i.e., verbally, non-verbally, written form)</li> <li>• indicate whether or not their methods of expression allow for others to express themselves (i.e., open-ended statements showing respect to others, appropriate non-verbal expression, etc.)</li> <li>• indicate whether or not they are able to effectively convey their feelings and ideas (i.e., as indicated by other reactions and their own self-satisfaction)</li> <li>• indicate how they could improve their expression skills in their family relationships.</li> </ul>

Competency	Performance Indicators	Suggested Performance Levels
(continued)	3. create a plan for more successful goal achievement in the future.	3. *create and carry out their own individual plan for goal achievement (i.e., state the goal; assess their capabilities, interests, and priorities or values; assess the availability of their time; decide on the types of evaluation they will use to measure goal progress; gather information and learn about all aspects of their goal; work toward their goal with an attitude of success and confidence).
<p>Content: VII</p> <p>Achievement Motivation</p> <p>Role(s):</p> <p>Individual, Learner, Citizen, Consumer, Producer</p> <p>Goal: B</p> <p>Obj: 3</p>	<p>Students are able to:</p> <ol style="list-style-type: none"> <li>1. describe some future goals they would like to achieve.</li> <li>2. predict how task analysis can apply to their achievement of future goals.</li> </ol>	<p>Students are able to:</p> <ol style="list-style-type: none"> <li>1. describe one future goal they would like to achieve (i.e., go to college, get a particular job, buy a car, etc.).</li> <li>2. a) provide examples of how task analysis and planning can apply to achievement of the goal identified in #1 (i.e., task purpose; task-parts; necessary help from others; sequence of task-parts; planning when, where, who, and what materials; etc.)</li> <li>b) discuss how task analysis and planning can assist them in successfully reaching their future goal (i.e., efficient use of time, less chance of getting "off track", sound base of information to act upon, etc.).</li> </ol>

TWELFTH GRADE

Competency	Performance Indicators	Suggested Performance Levels	
<p>Content: VIII</p> <p>Problem-Solving</p> <p>Role(s):</p> <p>Individual, Learner, Citizen, Consumer, Producer</p> <p>Goal: A</p> <p>Obj: 3</p>	<p>Students will use appropriate resources to help themselves and others.</p>	<p>Students are able to:</p> <ol style="list-style-type: none"> <li>1. evaluate their ability to help themselves and others and acknowledge their limitations.</li> <li>2. assess the resources available to them and others to help with problems.</li> </ol>	<p>Students are able to:</p> <ol style="list-style-type: none"> <li>1. a) evaluate their ability to help themselves and others based on the following: <ul style="list-style-type: none"> <li>•their communications skills</li> <li>•their ability to care and empathize</li> <li>•the effectiveness of their past implementation of the problem-solving process</li> </ul> </li> <li>b) specify their limitations in helping solve their and others' problems (i.e., lack necessary knowledge, lack of necessary physical strength, lack of empathy or understanding, lack of adequate perspective, etc.).</li> <li>2. a) provide six examples of the types of resources available to them and others to help with problems (i.e., parents, advisors, teachers; informative sources such as encyclopedias, dictionaries, telephone book, libraries...; counselors such as financial counselors, rehabilitation counselors, family counselors, school counselors...; doctors and nurses; religious leaders such as ministers, priests, rabbis...; etc.).</li> <li>b) describe the types of problems the resources identified in #2a specialize in helping (i.e., doctors/serious or potentially serious physical problems; libraries/problems dealing with lack of information; etc.).</li> </ol>

TWELFTH GRADE

Competency	Performance Indicators	Suggested Performance Levels	
(continued)	3. describe situations when they have used or could use an outside resource to help others.	3. a) describe a situation where they wanted to help another person but did not have the necessary qualifications or ability to help. (The situation should be described in generalities and specific persons should not be identified.) b) describe the outside resource they encouraged the person to use--or could have encouraged t <sup>h</sup> to use--in helping solve the problem. * demonstrate observable behaviors (i.e., exhibit a caring attitude for other people, use communications skills to help others and themselves in problem-solving situations, acknowledge their limitations in helping themselves and others and refer themselves or others to the appropriate helping resource, etc.).	
Content: VIII Problem-Solving Role(s): Individual, Learner, Citizen, Consumer, Producer Goal: B Obj: 3	Students will analyze how concerns change as situations and roles change.	Students are able to: 1. describe some of their past concerns and their present concerns, and predict a variety of other future concerns.	Students are able to: 1. a) describe two past concerns (i.e., how to ride a bicycle, how to get on a baseball team, if they can get a driver's license, etc.) b) describe two present concerns (i.e., will they graduate, where will they go to college, where will they get a job, etc.) c) predict four of their possible future concerns (i.e., who will they marry, where will the money for bills come from if they are hurt or killed, will they have children, will they have to live in a nursing home when they are older, etc.).

TWELFTH GRADE

Competency	Performance Indicators	Suggested Performance Levels
(continued)	<p>2. explain the changes that may take place in their roles and in situations as they get older.</p> <p>3. analyze how concerns change as situations and roles change.</p>	<p>2. include in their explanation examples dealing with</p> <ul style="list-style-type: none"> <li>• changes in roles due to changes in interests, skills and needs (i.e., interests in a different job, desire for a mate, desire to have children, etc.)</li> <li>• changes in situations that they have control over (i.e., buying a home, choosing to live at home or live with a relative or friend, choosing to work or live off a retirement income, etc.)</li> <li>• changes in situations that they have no control over (i.e., illness, accidents, financial loss, etc.).</li> </ul> <p>3. include in their analysis examples of how:</p> <ul style="list-style-type: none"> <li>• situations and roles can change unexpectedly (i.e., illness causing great financial stress, accident causing a handicap, unexpected pregnancy, death of a spouse, etc.)</li> <li>• situations and roles can change with planning (i.e., marriage, pregnancy, change in job, etc.).</li> <li>• concerns that may accompany those changing situations and roles (i.e., responsibility for supporting a family, caring for and raising children, learning new job expectations, etc.).</li> </ul> <p>* demonstrate observable behaviors (i.e., exhibit a flexible--rather than rigid--attitude toward changes in their lives, demonstrate recognition responses or indicate upon request how concerns will change as situations and roles inevitably change, etc.).</p>

**KEY:**    ✓ : the child has accomplished this step  
               W : the child is still working on this step  
               ☐ : this step does not apply at this time

Content Areas	YOU CAN:	QUARTERS			
		1	2	3	4
Self Under- standing	Distinguish between things helpful & harmful to physical health				
	Analyze how characteristics & abilities can be expanded				
	Evaluate the relationship between mass media & self-control				
Interper- sonal Relations	Explain how communications skills contribute toward group work				
	Analyze effective family relationships, their importance & necessary beliefs and skills				
	Evaluate how actions help or hinder group cooperation/achievement				
	Evaluate peer/adult interaction in relation to goals of behavior				
Expressing Ideas	Demonstrate skills in written expression of opinions & beliefs				
	Describe emotional blocks to assertive behavior				
Gathering & Processing Information	Evaluate your feelings in a variety of settings				
	Relate learning at school to your leisure activities				
	Analyze the effects information can have on stereotypes				
Rights & Responsi- bilities	Describe importance & benefits of understanding family rights & responsibilities				
	Analyze school as a learning environment and its effects on you				
	Describe legal rights and responsibilities as a citizen of your town & state				
	Analyze your family's spending patterns				
	Describe general rights & responsibilities of producers				
Valuing & Decision Making	Compare & contrast others' values				
	Describe importance of examining your values & opinions when making decisions				
	Describe personal decisions based on your values & opinions				
Achievement Motivation	Describe how others use planning, trial-and-error, & goal-setting				
	Describe methods & effects of evaluating achievement				
Problem Solving	Explore the problem-solving process & how listening & talking help				
	Predict ways some careers may be different in the future				

**KEY:**    ✓ : the child has accomplished this step  
               W : the child is still working on this step  
               □ : this step does not apply at this time

Content Areas	YOU CAN:	QUARTERS			
		1	2	3	4
Self Understanding	Distinguish between things helpful & harmful to mental health				
	Analyze how characteristics, abilities & interests relate to jobs				
	Analyze how determining problem ownership helps in better management of self and environment				
Interpersonal Relations	Analyze effective public speaking methods & skills				
	Describe a family meeting; explain how it contributes toward effective family relations				
	Evaluate importance of friendships with peers & adults				
	Describe when your behavior affects others' behavior toward you				
Expressing Ideas	Examine your methods of expressing opinions & beliefs				
	Describe non-assertive & aggressive behaviors & the problems they cause				
Gathering & Processing Information	Predict your feelings in a variety of potential settings				
	Relate learning at school to your citizen & consumer activities				
	Describe jobs & their stereotypes; analyze how they are reinforced				
Rights & Responsibilities	Compare & contrast the responsibilities of all family members				
	Describe personal learning & study skills as ways of meeting learner responsibilities				
	Determine abilities which comprise an effective consumer				
	Describe your legal rights, & responsibilities as a U.S. citizen				
	Analyze how producers cooperate to accomplish difficult tasks				
Valuing & Decision Making	Analyze effects of people having different beliefs & values				
	Analyze the importance of generating alternatives & assessing consequences for decision-making				
	Analyze how past decisions influence your present decisions				
Achievement Motivation	Contrast goals you desire with goals you expect to complete				
	Examine the process & sequence of task accomplishment				
Problem Solving	Evaluate your limitations in helping self and others				
	Predict how you may change to fit into a future career				

**KEY:**    ✓ : you have accomplished this step  
               W : you are still working on this step  
               ☐ : this step does not apply at this time

Content Areas	YOU CAN:	QUARTERS			
		1	2	3	4
Self Under-standing	Indicate the effects leisure activities have on your total health				
	Define your unique values, interests & capabilities				
	Evaluate how responsibility helps you manage your life				
Interpersonal Relations	Communicate appreciation when others successfully complete a difficult task				
	Describe how the family constellations concept applies to you				
	Evaluate the importance and effects of group friendships				
	Describe how you can act to provoke desired behavior in others				
Expressing Ideas	Analyze when written expressions of opinions & beliefs are effective in influencing others				
	Analyze the four types of assertiveness styles				
Gathering & Processing Information	Analyze how life roles, settings, & events determine preferred life-styles				
	Relate learning & study skills to your work activities				
	Analyze stereotypes existing for you & how they limit your choices				
Rights & Responsibilities	Compare & contrast the rights of all family members				
	Analyze how academic & study skills form systems for learning				
	Evaluate purposes of taxes & how they support government				
	Compare & contrast consumer habits in other countries				
	Describe your responsibility-taking & enjoyment of producer rights				
Valuing & Decision Making	Describe & prioritize your values				
	Distinguish between alternatives involving varying degrees of risk				
	Analyze the consequences of decisions that others make				
Achievement Motivation	Evaluate importance of setting & striving toward realistic goals				
	Analyze a specific task you wish to accomplish				
Problem Solving	Use communications skills to help others				
	Analyze how your values, interests, & capabilities change				

**KEY:**    ✓ : you have accomplished this step  
               W : you are still working on this step  
               ☐ : this step does not apply at this time

Content Areas	YOU CAN:	QUARTERS			
		1	2	3	4
Self Under-standing	Specify symptoms & warning signs of too much stress				
	Analyze how characteristics & abilities develop				
	Show how you manage your environment				
Interper-sonal Relations	Communicate your understanding of what another person has said				
	Describe families different from yours; predict how you might feel in similar circumstances				
	Analyze differences & similarities between cooperation & competition				
	Explore how environment shapes/controls behavior; examine your responses to persons shaping behavior				
Expressing Ideas	Analyze use of expression skills in various settings				
	Assess the needs you have in asserting yourself				
Gathering & Processing Information	Compare how life styles differ as to life roles, settings & events				
	Predict your use of knowledge from school in future experiences				
	Analyze stereotypes held by others & how they can limit choices				
Rights & Responsi-bilities	Describe the interrelationship between family rights & responsibilities				
	Evaluate your learning skills; explain how they can be improved				
	Describe your rights & responsibilities as world citizens				
	Describe legal rights & responsibilities of consumers				
	Describe the legal rights & responsibilities of producers				
Valuing & Decision Making	Predict how your values will influence your life style				
	Analyze the decision-making process used by others				
	Identify decisions you have made; analyze how they will affect future decisions				
Achievement Motivation	Analyze how planning time contributes toward effective life roles				
	Use various methods of evaluating task progress & achievement				
Problem Solving	Predict methods you could use in caring for medical emergencies				
	Predict some concerns you may have as you get older				

**KEY:**    ✓ : you have accomplished this step  
               W : you are still working on this step  
               ☐ : this step does not apply at this time

Content Areas	YOU CAN:	QUARTERS			
		1	2	3	4
Self Under-standing	Effectively reduce stress during tension-producing situations				
	Specify which characteristics and abilities you appreciate most				
	Assess how avoiding responsibility hinders the ability to manage self & environment				
Interpersonal Relations	Explain that the way you communicate influences others' reactions				
	Assess current family relationships; evaluate their effectiveness				
	Evaluate effectiveness of your friendship skills				
	Analyze the consequences of unacceptable behavior				
Expressing Ideas	Understand the relationship between self-respect & respect for others' opinions				
	Determine the losses, gains & risks of using assertive behavior				
Gathering & Processing Information	Determine how life roles, settings & events influenced your present life style				
	Discuss how compiling & integrating information occurs at all ages				
	Evaluate effects experience & information have on stereotypes				
Rights & Responsibilities	Describe results of parents & children not meeting responsibilities				
	Examine your responsibility-taking as a learner				
	Explain interactive effects of citizen rights & responsibilities				
	Evaluate your role as a consumer				
	Evaluate the importance of having laws & contracts for producers				
Valuing & Decision Making	Analyze how values affect decisions & actions in your life roles				
	Evaluate results of not using a systematic decision-making process				
	Evaluate your ability to generate alternatives, gather information, & assess consequences				
Achievement Motivation	Evaluate your ability to set, plan & achieve goals				
	Assess your ability to analyze, accomplish & evaluate tasks				
Problem Solving	Analyze how communications skills encourage problem-solving				
	Evaluate need for flexibility in your roles & choices				

**KEY:**    ✓ : you have accomplished this step  
               W : you are still working on this step  
               ☐ : this step does not apply at this time

Content Areas	YOU CAN:	QUARTERS			
		1	2	3	4
Self Under- standing	Analyze skills contributing to satisfying physical & mental health				
	Appreciate your uniqueness & encourage that uniqueness				
	Assess how taking responsibility for feelings & behavior enhances your life				
Interper- sonal Relations	Evaluate & improve current communications skills				
	Predict your future family & skills needed to relate effectively				
	Recognize the value of friendships in an interdependent society				
	Evaluate & improve the effectiveness of your behavior toward others				
Expressing Ideas	Evaluate the effectiveness of your methods of expression				
	Evaluate the effectiveness of your assertive behavior				
Gathering & Processing Information	Assess effects of life roles, settings & events on life styles				
	Evaluate methods of compiling & integrating information; explore future methods				
	Evaluate your stereotypes; explain those you have changed				
Rights & Respon- sibilities	Examine your responsibility-taking & its effects in the family				
	Evaluate how you continue to be a learner & utilize knowledge of rights & responsibilities				
	Evaluate your responsibility-taking as a citizen				
	Analyze how you as a consumer help support the economic system				
	Speculate your future producer rights and responsibilities				
Valuing & Decision Making	Summarize the importance of understanding attitudes, values & their effects on your life				
	Analyze examples of effective use of the decision-making process				
	Implement the decision-making process in your life roles				
Achievement Motivation	Assess for use in the future your ability to achieve past goals				
	Predict how task analysis & evaluation apply to goal achievement				
Problem Solving	Use appropriate resources to help self & others				
	Analyze how concerns change as situations & roles change

DEVELOPMENTAL GUIDANCE PROGRESS REPORT  
\_\_\_\_\_ SCHOOL DISTRICT  
GRADE TWELVE

Student \_\_\_\_\_ Year \_\_\_\_\_

School \_\_\_\_\_ Advisor \_\_\_\_\_  
Counselor \_\_\_\_\_ Principal \_\_\_\_\_

The guidance program assists students to develop the life skills that are necessary for successful and satisfying daily living. Its goals include helping students grow in the areas of self concept and relating effectively to others; assisting students to learn how to obtain knowledge about others and the world around them; providing for students an understanding of their rights and responsibilities in their major life roles; developing in students a consciousness of personal values and the values of others; and strengthening student's abilities in decision-making, achieving, and problem-solving.

OVERVIEW: GRADE LEVEL COMPETENCIES

Kindergarten - Twelfth Grade

## KINDERGARTEN

### SELF UNDERSTANDING

Students will describe ways they care for themselves.

Students will describe their appearance and their favorite activities.

Students will describe areas where they are self-sufficient.

### INTERPERSONAL RELATIONS

Students will recognize that they listen to and speak with a variety of people.

Students will recognize their family relationships.

Students will describe their work and play relationships with others.

Students will recognize various interpersonal relationships in their lives.

### EXPRESSING IDEAS

Students will recognize different expressions for various feelings.

Students will recognize situations when they desire to have their own way and situations when others feel they must have their way.

### GATHERING AND PROCESSING INFORMATION

Students will describe their daily activities at home.

Students will describe those things they learn at home.

Students will mentally project adults into work activities other than those they do presently.

### RIGHTS AND RESPONSIBILITIES

Students will describe what makes up a family.

Students will describe what learning is and how they are learners.

Students will describe those rules they follow at home and school and why those rules are necessary.

Students will describe the appropriate place of purchase for various items.

Students will describe the work activities of family members.

### VALUING AND DECISION-MAKING

Students will describe people and activities they enjoy.

Students will describe choices they make.

Students will describe decisions they make by themselves.

### ACHIEVEMENT MOTIVATION

Students will describe what job they desire to do when they "grow up."

Students will describe tasks they can accomplish at home.

### PROBLEM-SOLVING

Students will describe situations when others do not communicate the same way they do.

Students will describe situations that are going to happen in the future.

## FIRST GRADE

### SELF UNDERSTANDING

Students will describe how they care for their physical health.

Students will recognize how others differ from themselves.

Students will describe responsibilities they have in their environment.

### INTERPERSONAL RELATIONS

Students will describe those methods that enable them to speak so they can be understood by others.

Students will describe the roles of each family member.

Students will describe characteristics they like in a friend and be aware of their personality characteristics that make up friendship qualities.

Students will recognize that they affect things and others around them.

### EXPRESSING IDEAS

Students will describe different ways they express their own feelings.

Students will recognize that the way they feel about something may be the same or different from how others feel.

### GATHERING AND PROCESSING INFORMATION

Students will describe their daily activities at school.

Students will describe those things they learn at school.

Students will distinguish which activities in their environment are done by certain people.

### RIGHTS AND RESPONSIBILITIES

Students will recognize that there are families around the world.

Students will recognize that learning occurs at all ages.

Students will recognize the town, state, and country in which they reside.

## RIGHTS AND RESPONSIBILITIES (cont'd)

Students will understand why people use money in our economic system.

Students will describe different work activities and their importance.

## VALUING AND DECISION-MAKING

Students will describe a variety of things that are important to them.

Students will recognize that everyone has to make choices.

Students will recognize which decisions are difficult for them.

## ACHIEVEMENT MOTIVATION

Students will recognize that there are different ways for getting tasks accomplished.

Students will describe tasks they can accomplish at school.

## PROBLEM-SOLVING

Students will describe ways they communicate empathy and understanding to others.

Students will realize how they have changed during the past year.

## SECOND GRADE

### SELF UNDERSTANDING

Students will describe how they care for their mental health.

Students will recognize activities that interest them and those that do not.

Students will give such examples of their environment as their address and the way from school to home.

### INTERPERSONAL RELATIONS

Students will describe those listening and speaking skills that allow them to understand others and others to understand them.

Students will describe activities they participate in as a family.

Students will describe the process of making a friend.

Students will describe how the actions of others affect their own behavior.

### EXPRESSING IDEAS

Students will determine the appropriate situations for expressing different feelings.

Students will describe ways to express opinions so that they are understood by others.

### GATHERING AND PROCESSING INFORMATION

Students will describe necessary daily activities that are carried out by others.

Students will relate learning experiences at school to situations in the home.

Students will define the meaning of stereotype.

### RIGHTS AND RESPONSIBILITIES

Students will understand that all family members contribute toward family life.

Students will describe where they learn.

Students will describe what a citizen is and how persons become citizens.

## RIGHTS AND RESPONSIBILITIES (cont'd)

Students will understand what a consumer is and how they are consumers.

Students will define "work" and recognize that all people work.

## VALUING AND DECISION-MAKING

Students will recognize that what is important to them may not be important to others.

Students will describe those things they have learned which aid in making choices.

Students will recognize why some choices are made for them; they can accept those choices and make their own decisions when appropriate.

## ACHIEVEMENT MOTIVATION

Students will describe a work activity they have to do and the way they get that activity done.

Students will describe tasks that are carried out by self and others and purposes of those tasks.

## PROBLEM-SOLVING

Students will describe situations in which they need help from others.

Students will define what "future" means and describe situations they desire to happen in the future.

173323

## THIRD GRADE

### SELF UNDERSTANDING

Students will describe how exercise and nutrition affect their mental health.

Students will realize that environment influences interests and capabilities.

Students will describe situations where they have some control over themselves.

### INTERPERSONAL RELATIONS

Students will describe ways in which we communicate non-verbally to others.

Students will define what "family" means.

Students will describe the process of making and keeping a friend.

Students will recognize the actions they take that affect others' feelings.

### EXPRESSING IDEAS

Students will describe ways others express thoughts and feelings to them.

Students will describe opinions that they feel strongly about.

### GATHERING AND PROCESSING INFORMATION

Students will recognize that people have varying roles and will describe their own roles.

Students will describe those things they learn in the community as citizens and consumers.

Students will describe stereotypes that correspond to certain jobs.

### RIGHTS AND RESPONSIBILITIES

Students will recognize that there are different kinds of families.

Students will describe the basic methods of learning.

Students will describe reasons why a country needs laws and governments.

## RIGHTS AND RESPONSIBILITIES (cont'd)

Students will describe how to use money correctly when paying for something.

Students will recognize that a producer can have many different roles.

## VALUING AND DECISION-MAKING

Students will describe how what is important to others influences what is important to them.

Students will describe their thought processes before a decision is made.

Students will describe why they might want to change a decision and recognize when it is or is not possible to make that change.

## ACHIEVEMENT MOTIVATION

Students will describe the trial-and-error approach to a task.

Students will describe ways they judge if they have satisfactorily accomplished their tasks.

## PROBLEM-SOLVING

Students will describe those activities in which others need their help.

Students will describe how life roles have changed and will change as they grow older.

## RIGHTS AND RESPONSIBILITIES (cont'd)

Students will discuss why the ability to determine need or priority is a significant consumer skill.

Students will recognize how they depend on different producers.

## VALUING AND DECISION-MAKING

Students will define "values" and describe their own values.

Students will describe the decision-making process.

Students will describe how their lives have been influenced by decisions they and others have made.

## ACHIEVEMENT MOTIVATION

Students will describe the planning process and compare it to the trial-and-error approach.

Students will describe steps they follow in producing a product or task they take pride in.

## PROBLEM-SOLVING

Students will discuss various methods of relieving stress associated with problems.

Students will describe how interests and capabilities can change.

326

## FIFTH GRADE

### SELF UNDERSTANDING

Students will determine those situations in which they feel unhappy or angry and how they deal with those feelings.

Students will specify those personal characteristics and abilities that they value in themselves and others.

Students will analyze how growing up requires more self-control.

### INTERPERSONAL RELATIONS

Students will recognize when they and others feel proud of their accomplishments and exhibit acknowledgment of that pride.

Students will describe their relationships with family members.

Students will indicate methods that lead to effective cooperation with children and adults.

Students will compare the results of their behavior upon others of different ages.

### EXPRESSING IDEAS

Students will discuss that all people have opinions and beliefs.

Students will determine the appropriate use of assertive behavior in individual and group situations and predict some consequences of that assertive behavior.

### GATHERING AND PROCESSING INFORMATION

Students will recognize what a life style is and what influences their own life style.

Students will explore the various ways information is compiled so people can use it.

Students will indicate reasons why stereotypes are attached to jobs and groups.

### RIGHTS AND RESPONSIBILITIES

Students will recognize that both parents and children have rights as well as responsibilities.

Students will describe the responsibilities involved for a learner.

## RIGHTS AND RESPONSIBILITIES (cont'd)

Students will recognize that citizens are required to pay taxes to support city, state, and national governments.

Students will discuss why the ability to compare and to determine quality are important skills for consumers.

Students will realize that producers obtain rewards for their work.

## VALUING AND DECISION-MAKING

Students will describe how their values influence what they do.

Students will describe the necessity of specifically identifying the decision to be made.

Students will identify a major decision to be made and determine the smaller decisions required as part of the larger decision.

## ACHIEVEMENT MOTIVATION

Students will define the meaning of "goal" and describe some goals they have achieved.

Students will describe task analysis and how it contributes toward task accomplishment.

## PROBLEM-SOLVING

Students will describe resources that are available to help solve problems.

Students will imagine what their lives might be like in the future.

## SIXTH GRADE

### SELF UNDERSTANDING

Students will understand what "stress" means and will describe methods of relaxation for handling stress.

Students will compare their characteristics and abilities with others and will accept the differences.

Students will understand how they can control desires rather than to allow desires to control them.

### INTERPERSONAL RELATIONS

Students will discuss how communications skills improve their relationships with others.

Students will recognize situations that cause change in family relationships and describe ways to deal effectively with the new relationships.

Students will recognize the results of cooperativeness and the results of competitiveness.

Students will describe ways peers and adults interact.

### EXPRESSING IDEAS

Students will describe the various methods of expressing opinions and beliefs.

Students will develop relaxation techniques to prepare themselves for situations requiring assertive behavior.

### GATHERING AND PROCESSING INFORMATION

Students will analyze ways they have control over themselves and their lifestyles.

Students will analyze their own skills in compiling and integrating information.

Students will evaluate the ways certain groups (men, women, minorities, etc.) are stereotyped.

### RIGHTS AND RESPONSIBILITIES

Students will describe the legal rights and responsibilities of family members.

Students will describe the rights involved for a learner.

Students will describe how the government uses tax money.

## RIGHTS AND RESPONSIBILITIES (cont'd)

Students will discuss the influence that advertising has on consumers.

Students will analyze the relationship between interests and producer-satisfaction.

## VALUING AND DECISION-MAKING

Students will define "attitudes" and "beliefs" and describe the effects attitudes and beliefs have on their decisions and goals.

Students will discuss how gaining more information increases their alternatives.

Students will generate and increase the alternatives to a specific decision by gaining more information about that decision.

## ACHIEVEMENT MOTIVATION

Students will predict five goals they would like to achieve within five years.

Students will describe methods of evaluating progress and how they contribute toward task accomplishment.

## PROBLEM-SOLVING

Students will analyze when to ask for help.

Students will predict what the world will be like in twenty years.

## SEVENTH GRADE

### SELF UNDERSTANDING

Students will distinguish between things helpful and things harmful to physical health.

Students will analyze how their characteristics and abilities can be expanded.

Students will evaluate the relationship between mass media and self-control.

### INTERPERSONAL RELATIONS

Students will explain how communications skills contribute toward work within a group.

Students will analyze the importance of effective family relationships and the beliefs and skills that contribute toward those relationships.

Students will evaluate those behaviors that help or hinder group cooperation and effectiveness.

Students will evaluate ways peers and adults interact with each other in relation to the goals of behavior.

### EXPRESSING IDEAS

Students will demonstrate skills necessary to express their opinions and beliefs in written form.

Students will describe some of the emotional blocks to assertive behavior.

### GATHERING AND PROCESSING INFORMATION

Students will evaluate their feelings in a variety of settings.

Students will relate their learning at school to their leisure activities.

Students will analyze the effects information can have on stereotypes.

### RIGHTS AND RESPONSIBILITIES

Students will describe the importance and benefits of understanding their family rights and responsibilities.

Students will analyze the school as a learning environment and describe its effects on them.

## RIGHTS AND RESPONSIBILITIES (cont'd)

Students will describe the legal rights and responsibilities they have as citizens of their towns and state.

Students will analyze their families' spending patterns.

Students will describe general rights and responsibilities of producers.

## VALUING AND DECISION-MAKING

Students will compare and contrast others' values.

Students will describe the importance of examining their values and opinions when making a decision.

Students will describe decisions they have made that were based on their values and opinions.

## ACHIEVEMENT MOTIVATION

Students will describe ways they have seen others use planning, the trial-and-error approach, and goal-setting.

Students will describe methods and effects of evaluating achievement.

## PROBLEM-SOLVING

Students will explore the problem-solving process and how listening and talking help to solve problems.

Students will predict ways in which some present careers may be different in the future.

## EIGHTH GRADE

### SELF UNDERSTANDING

Students will distinguish between things helpful and things harmful to mental health.

Students will analyze how personal characteristics and abilities and interests relate to job fields.

Students will analyze how the determination of problem ownership helps them to better manage themselves and their environment.

### INTERPERSONAL RELATIONS

Students will analyze effective public speaking methods and skills.

Students will describe a family meeting and explain how it can be helpful in establishing effective family relations.

Students will evaluate the importance of friendships with peers and adults.

Students will describe situations where their behaviors affect others' behavior toward them.

### EXPRESSING IDEAS

Students will examine their own methods of expressing opinions and beliefs.

Students will describe non-assertive and aggressive behaviors and the problems produced by these behaviors.

### GATHERING AND PROCESSING INFORMATION

Students will predict their feelings in a variety of potential settings.

Students will relate their learning at school to their activities in the community as citizens and consumers.

Students will describe occupations that have stereotypes existing for them and will analyze how those stereotypes are reinforced.

### RIGHTS AND RESPONSIBILITIES

Students will compare and contrast the responsibilities of all family members.

Students will describe their personal learning and study skills as a means of meeting learner responsibilities.

## RIGHTS AND RESPONSIBILITIES (cont'd)

Students will describe the legal rights and responsibilities they have as U.S. citizens.

Students will determine those abilities which comprise an effective consumer.

Students will analyze how producers may have to cooperate with each other to accomplish a large or difficult task.

## VALUING AND DECISION-MAKING

Students will analyze the effects of people having different beliefs and values.

Students will analyze the importance of the concepts of generating alternatives and assessing the consequences of each before making a decision.

Students will consider the consequences and risks involved for various alternatives to a specific decision.

## ACHIEVEMENT MOTIVATION

Students will contrast goals they desire to complete with goals they expect to complete.

Students will examine the process and sequence of task accomplishment.

## PROBLEM-SOLVING

Students will evaluate their limitations in helping others and themselves.

Students will predict how they may have to change to fit into a career in the future.

## NINTH GRADE

### SELF UNDERSTANDING

Students will indicate the effects their leisure time activities have on their physical and mental health.

Students will define their unique values, interests and capabilities.

Students will evaluate how responsibility helps them manage their lives.

### INTERPERSONAL RELATIONS

Students will communicate appreciation when others successfully complete a difficult task.

Students will describe how the concept of family constellations might apply to them.

Students will evaluate the importance and effects of group friendships.

Students will describe ways they can act to provoke a desired behavior in another person.

### EXPRESSING IDEAS

Students will analyze situations when a written expression of opinions and beliefs is an effective means of influencing others.

Students will analyze the four types of assertiveness styles.

### GATHERING AND PROCESSING INFORMATION

Students will analyze how life roles, settings, and events determine preferred life styles.

Students will relate their learning and study skills to their work activities.

Students will analyze stereotypes that exist for them and how those stereotypes limit their choices.

### RIGHTS AND RESPONSIBILITIES

Students will compare and contrast the rights of all family members.

Students will analyze how their academic and study skills form systems which apply to the learning of different subjects.

## RIGHTS AND RESPONSIBILITIES (cont'd)

Students will evaluate the purposes of taxes and how they support the government.

Students will compare and contrast varying consumer habits in other countries.

Students will describe their present taking of responsibility and enjoyment of producer rights.

## VALUING AND DECISION-MAKING

Students will describe and prioritize their values.

Students will describe the importance of reviewing the consequences of similar past decisions before making their final choice in the decision-making process.

Students will identify past decisions and analyze how those decisions affect their present decisions and will affect their future decisions.

## ACHIEVEMENT MOTIVATION

Students will evaluate the importance of setting realistic goals and striving toward them.

Students will analyze a specific task they wish to accomplish.

## PROBLEM-SOLVING

Students will use communications skills to help others.

Students will analyze how their values, interests, and capabilities have changed and are changing.

## TENTH GRADE

### SELF UNDERSTANDING

Students will specify symptoms and warning signs of too much stress and tension.

Students will analyze how characteristics and abilities develop.

Students will show how they manage their environment.

### INTERPERSONAL RELATIONS

Students will communicate their understanding of what another person has said.

Students will describe families that are different from their own and predict how they might feel in that set of relationships.

Students will analyze the differences and similarities between cooperation and competition.

Students will explore ways that the environment shapes or controls their behavior and how they respond to those in the environment who are shaping their behaviors.

### EXPRESSING IDEAS

Students will analyze how to use skills of expression in a variety of settings.

Students will assess the needs they have in asserting themselves.

### GATHERING AND PROCESSING INFORMATION

Students will compare how life styles differ depending on life roles, settings, and events.

Students will predict how they will use knowledge from school in future life and work experiences.

Students will analyze stereotypes held by others and how those stereotypes can limit choices.

### RIGHTS AND RESPONSIBILITIES

Students will describe the interrelationship between family rights and family responsibilities.

Students will evaluate personal academic and study skills and explain how they can be improved.

Students will describe their rights and responsibilities as world citizens.

## RIGHTS AND RESPONSIBILITIES (cont'd)

Students will describe the legal rights and responsibilities of consumers.

Students will describe the legal rights and responsibilities of producers.

## VALUING AND DECISION-MAKING

Students will predict how their values will influence their life styles.

Students will analyze the decision-making process used by others.

Students will analyze the consequences of decisions that others make.

## ACHIEVEMENT MOTIVATION

Students will analyze how planning the use of their time contributes toward their effectiveness in their life roles.

Students will use a variety of methods to evaluate progress and achievement of a specific task.

## PROBLEM-SOLVING

Students will predict methods they may use in caring for medical emergencies.

Students will predict some of the concerns they may have as they get older.

## ELEVENTH GRADE

### SELF UNDERSTANDING

Students will effectively reduce their stress during tension-producing situations.

Students will specify which characteristics and abilities they appreciate most in themselves and others.

Students will assess how avoiding responsibility hinders their ability to manage themselves and their environment effectively.

### INTERPERSONAL RELATIONS

Students will explain that the way they communicate a thought or idea influences others' reactions to that thought or idea.

Students will assess their current family relationships and evaluate their effectiveness.

Students will evaluate the effectiveness of their own friendship skills.

Students will analyze the cycle of consequences that might occur as the result of unacceptable behavior.

### EXPRESSING IDEAS

Students will understand the relationship between self-respect and respect for others' opinions in group situations.

Students will determine the losses and gains possible from using assertive behavior in various situations and decide if the risks and consequences warrant that system of behavior.

### GATHERING AND PROCESSING INFORMATION

Students will determine how life roles, settings, and events have influenced their present life styles.

Students will discuss how the compiling and integrating of information occurs throughout life.

Students will evaluate the effects additional experience and information have had on those stereotypes in their lives.

## RIGHTS AND RESPONSIBILITIES

Students will describe the results when responsibilities are not met by parents and children.

Students will examine their taking of responsibility in their roles as learners.

Students will explain the interactive effects of citizen rights and citizen responsibilities.

Students will evaluate their roles as consumers.

Students will evaluate the importance of having laws and contracts to protect producers.

## VALUING AND DECISION-MAKING

Students will analyze how values affect their decisions and actions in their various life roles.

Students will evaluate the results when a systematic decision-making process is not used.

Students will provide examples and evaluate their present ability to generate alternatives, gather information, and assess the consequences in the decision they make.

## ACHIEVEMENT MOTIVATION

Students will evaluate their ability to set goals and their use of the planning process in helping to achieve those goals.

Students will assess their present ability to analyze, accomplish, and evaluate tasks.

## PROBLEM-SOLVING

Students will analyze how their communications skills encourage problem-solving.

Students will evaluate the need for flexibility in their roles and choices.

## TWELFTH GRADE

### SELF UNDERSTANDING

Students will analyze their own personal skills that have contributed to satisfactory physical and mental health.

Students will appreciate their uniqueness and encourage that uniqueness.

Students will assess how taking responsibility enhances their lives.

### INTERPERSONAL RELATIONS

Students will evaluate their current communications skills and will continually improve those skills.

Students will predict the type of families they might have in the future and how they might develop skills to relate effectively within those settings.

Students will recognize the value of maintaining effective friendships throughout life in today's interdependent society.

Students will evaluate their behavior toward others and decide which are effective in interpersonal relationships and which need improvement.

### EXPRESSING IDEAS

Students will evaluate the effectiveness of their own methods of expression in their daily lives.

Students will evaluate the effectiveness of their assertive behavior.

### GATHERING AND PROCESSING INFORMATION

Students will assess the interactive effects of life roles, settings, and events and how these lead to a preferred life style.

Students will evaluate their methods of compiling and integrating information and explore future methods of compiling information.

Students will evaluate their stereotypes and explain those they have changed.

3.11

## RIGHTS AND RESPONSIBILITIES

Students will examine their own taking of responsibility within the family and its effects on self and others.

Students will evaluate how they continue to be learners and how they utilize the knowledge of their rights and responsibilities as learners.

Students will evaluate their taking of responsibility as citizens of their towns, state, and country.

Students will analyze how they, as consumers, help to support our economic system.

Students will speculate what their rights and responsibilities might be as producers in the future.

## VALUING AND DECISION-MAKING

Students will summarize the importance of understanding their attitudes and values and how those attitudes and values affect their lives.

Students will analyze how the decision-making process can be used effectively by themselves and others.

Students will implement the decision-making process when making decisions in their various life roles.

## ACHIEVEMENT MOTIVATION

Students will assess their ability to achieve past goals and integrate this knowledge for the future.

Students will predict how task analysis and evaluation may apply to their achievement of future goals.

## PROBLEM-SOLVING

Students will use appropriate resources to help themselves and others.

Students will analyze how concerns change as situations and roles change.

APPENDIX

Summary: Georgia Comprehensive Guidance Curriculum Structure

\*Taken from Program Planning Guide, Georgia Comprehensive Guidance, "Part Three: Georgia Comprehensive Guidance Model," Georgia State Department of Education, Atlanta, Georgia.

One of the assumptions upon which the developmental guidance program is built is that there is guidance content that all students should learn in a systematic, sequential way. This means counselor involvement in the curriculum; it means a guidance curriculum.

To establish a curriculum for guidance, it is first necessary to identify those areas of human growth and development which could form a base for guidance from which content could be drawn. Career development theory and research is suggestive of such areas, as is the work of psychologists who have delineated developmental tasks. So, too, is the work of individuals who emphasize psychological, moral, process, and values education.

Curriculum specialists and guidance workers in Georgia have been examining guidance content for some time. The career development movement has influenced curriculum change, and its subsequent association with career guidance forced attention to be given to curriculum associated processes. While career guidance may not represent the total guidance content responsibility, there is a great deal of overlap. This overlap is especially noticeable when a broad, encompassing career development viewpoint is fostered. Such a perspective has been dominant in the state Georgia. The fourth grade Criterion Reference Test (CRT) in the area of career development exemplifies this fact. The twenty objectives on which the items were based are representative of what many counselors would identify as career guidance. The Comprehensive Career Guidance Projects initiated by the Guidance Unit in the Georgia Department of Education have extended the career guidance perspective to be almost synonymous with a comprehensive guidance curriculum. The twenty CRT objectives plus an additional ten objectives were used as a framework for a suggested career guidance curriculum for Georgia's elementary schools. These thirty objectives were organized under three domains of Interpersonal Effectiveness, Work and Life Skills, and Life Career Planning. Needs assessment studies carried through the University of Georgia (Dagley & Hartley, 1975) suggested elements of this career guidance model. These three

domains are closely related to the three common themes which emerged from a review of the work of career development theorists, researchers, and practitioners. Most stress the need for attention to self-concept development--knowledge of self as well as the development of interpersonal skills. Another theme that is common is the concern for assisting individual to understand the decision making process and to develop decision making skills. Finally, a third common theme is the need for individuals to gain an understanding of current and potential life roles, settings, and events. Some theorists use the term "personal learnings"; learnings which stress developing of a self identity and of answering questions dealing with self in terms of who, where, and when. They pointed out that the facilitation of these learnings in individuals is the second major purpose of education (the other being social learnings) and that these personal learnings form the basis for a developmental counseling program.

The organization of a guidance curriculum in Georgia was well on its way when the competency based education movement was introduced into school planning by the Georgia State Board of Education (1976, 1978). The legislation related to graduation requirements based on contemporary life role skills had significant impact on all curricular developments within the State. Guidance curriculum under development by the Department of Education Guidance Section was then challenged to be assimilated within the competency based, contemporary life role skills prespective. The Guidance Section responded to this need by modifying and extending guidance curriculum models already containing elements of competency based education and contemporary life role skills outcomes (See Figure 1, p. 198).

Guidance program planners should utilize a competency based approach for the following reasons:

- Students will have a greater amount of specific information regarding what capabilities are represented by guidance curriculum acquisition. Students can recognize the substance of the program.

- Parents will have more information regarding student progress. Parents have expressed curiosity and concern regarding what a guidance curriculum is. Now they will know what their youngsters actually know and can do. Although competency acquisition does not tell the whole story it will have the effect of increasing community understanding of the nature of the local district's guidance program.
- Those assigned to counseling and advising students will have access to more information which will be helpful in personalizing the guidance process.
- The act of dealing with, recording and reporting competencies will act as a reminder to teachers regarding what students have and have not accomplished. This will aid the teacher and student in setting class, group, or individual learning priorities. Pupils' continuous progress can be monitored.
- As guidance staff re-examine their activities and course offerings, more data can be made available regarding student progress in the current program. Curriculum revision can be justified.
- Administrators will have access to more information that will enable them to better explain to the community the various activities of the school's guidance program.

**Figure 1**  
**Georgia Comprehensive Guidance Curriculum**

GUIDANCE CONTENT	CONTEMPORARY LIFE ROLES				
	Individual	Learner	Citizen	Consumer	Producer
1. Self Understanding					
2. Interpersonal Relations					
3. Expressing Ideas					
4. Gathering & Processing Information					
5. Rights & Responsibilities					
6. Valuing & Decision Making					
7. Achievement Motivation					
8. Problem Solving					

Curriculum Goals  
Competencies  
Performance Indicators

*Guidance Curriculum Structure - Level 1: Content Areas/Goals.*

There are eight principal processes and skills addressed by this guidance curriculum. The justification for these eight areas was highlighted in Part I.\* The guidance curriculum *content areas* are utilized in the five major contemporary life roles (individual, learner, citizen, consumer, and producer) as suggested by the Georgia State Department of Education. The process of interrelating these eight major content areas with the contemporary life roles comes in the first detail level--that of establishing *goals*. This guidance curriculum deals with a total of twenty-four (24) goals. Following is a short description of the content areas and a listing of the goals under each area.

*Self Understanding.* The first content area emphasized the development of individuals of self-appraisal and self-improvement. Individuals involved in this area should become more aware of personal characteristics (i.e., aptitudes, interests, goals, abilities, values, physical traits) and the influence these characteristics may have on the persons they are and can become and on the environment around them.

**Goals:**

1. Students will develop and incorporate personal care skills that will lead to satisfactory physical and mental health.
2. Students will develop and incorporate an understanding of the uniqueness of themselves and others.
3. Students will develop and incorporate an understanding of how they are able to effectively manage themselves and their environment.

*Interpersonal Relations.* This area deals with skills that allow individuals to develop more personal and caring relationships with "significant others" in their lives. Individuals will also explore the impact of their actions and reactions upon others and thus their relationships.

\*Part I refers to Part I in the Program Planning Guide, Georgia Comprehensive Guidance, Georgia State Department of Education, Atlanta, Georgia.

**Goals:**

1. Students will develop and incorporate those listening and speaking skills which allow them to communicate in their daily lives.
2. Students will develop and incorporate skills that encourage and enhance relationships with their families.
3. Students will develop and incorporate the ability to maintain effective relationships with peers and adults.
4. Students will develop and incorporate an understanding of reciprocal behavior and how actions have effects on others.

*Expressing Ideas.* Encouraging individuals to develop skills in listening, speaking, reading, and writing and how such skills can be used both effectively and appropriately becomes the focal point of this content area.

**Goals:**

1. Students will develop and incorporate an understanding of various methods of expression in their daily lives.
2. Students will develop and incorporate skill in assertively and appropriately expressing themselves in their daily lives.

*Gathering and Processing Information.* Because individuals over their lifetimes will be assuming a number of roles, functioning in a variety of settings, and experiencing many events, learning in this area emphasized their understanding of the roles, settings, and events which interrelate to form their life careers. It is important that these learnings are not based on stereotypes, but that individuals know how to gather and assimilate accurate, useful information that pertains to their roles, settings, and events.

**Goals:**

1. Students will develop and incorporate an understanding of the interactive effects of life styles, life roles, settings, and events.
2. Students will develop and incorporate the ability to compile and integrate information for use in their lives.
3. Students will develop and incorporate an understanding of stereotypes and the effects of information on stereotypes.

*Rights and Responsibilities.* Each of the contemporary life roles have certain rights and responsibilities that individuals must deal with. This content area attends to a person's moral rights and responsibilities as well as legal rights and responsibilities.

**Goals:**

1. Students will develop and incorporate an understanding of the rights and responsibilities of family members.
2. Students will develop and incorporate an understanding of the rights and responsibilities of the learner.
3. Students will develop and incorporate an understanding of the rights and responsibilities of the citizen.
4. Students will develop and incorporate an understanding of the rights and responsibilities of the consumer.
5. Students will develop and incorporate an understanding of the rights and responsibilities of the producer.

*Valuing and Decision Making.* Mastery of decision-making skills and the application of these skills to life career planning are central learnings within this area. A preliminary task to effective decision making is the clarification of personal values. The degree of congruence between what individuals value and the outcomes of decisions individuals make, contribute to personal satisfaction.

**Goals:**

1. Students will develop and incorporate an understanding of how values affect their lives.
2. Students will develop and incorporate an understanding of the decision making process.

3. Students will develop and incorporate the ability to implement the decision making processes and to understand the effects of past decisions on their present decisions.

*Achievement Motivation.* This content area encourages individuals to develop a commitment to planning, preparation, accomplishment, and evaluation; an ability to defer short term gratification for long term goals; and an ability to choose among a multiplicity of educational and occupational options.

**Goals:**

1. Students will develop and incorporate skill in planning and setting goals.
2. Students will develop and incorporate the ability to analyze, accomplish, and evaluate tasks.

*Problem Solving.* For individuals to feel self satisfaction in the different areas of their lives, they must know how to deal with their problems, when and where to seek help, and their limitations, and abilities to help others. This content area focuses on such knowledge, understandings, and skills as well as creating in individuals a willingness to be flexible when adaptability or change is demanded of them.

**Goals:**

1. Students will develop and incorporate an understanding of the problem solving process and how they may implement the process to help themselves and others.
2. Students will develop and incorporate the ability to anticipate and cope with change.

*Guidance Curriculum Structure - Level 2: Goals/Competencies.* The second detail level of the guidance curriculum is expressed in the form of *competencies*. Each of the previously mentioned twenty-four goals has been divided into thirteen competency statements: one for each grade level, kindergarten through twelfth grade. The competencies represent both different elements of the goal and different developmental steps necessary for goal attainment. The following diagram illustrates this relationship:

Content Area/Contemporary Life Role(s)

The competencies at each grade level are part of the continuous progress toward goal attainment. Developmental objectives were created to summarize and monitor progress toward goal attainment. These developmental objectives were based on the taxonomy developed by Wellman and Moore (1975). Following is an example from the Self Understanding content area; Goal A, which demonstrates the relationship between developmental objectives and competencies:

*Content Area:* Self Understanding      *Goal:* Students will develop and incorporate personal care skills that will lead to satisfactory physical and mental health.

*Developmental Objective:* Students will be aware of personal care skills necessary for satisfactory physical and mental health.

*Kindergarten Competency:* Students will describe ways they care for themselves.

*First Grade Competency:* Students will describe ways they care for their physical health.

*Developmental Objective:* Students will demonstrate personal care skills that will lead to satisfactory physical and mental health.

*Seventh Grade Competency:* Students will distinguish between things helpful and things harmful to physical health.

*Eighth Grade Competency:* Students will distinguish between things helpful and things harmful to mental health.

*Developmental Objective:* Students will demonstrate satisfactory physical and mental health.

*Tenth Grade Competency:* Students will specify symptoms and warning signs of too much stress and tension.

*Eleventh Grade Competency:* Students will effectively reduce their stress during tension-producing situations.

*Guidance Curriculum Structure-Level 3: Competencies/Performance Indicators.* Competency achievement is verified by identifying specific behaviors that students perform relative to competency development. In this curriculum these specific behaviors have been termed *performance indicators*. Three performance indicators have been suggested for the majority of the competencies. The diagram below illustrates this relationship:

Content Area/Contemporary Life Role(s)

Only recently have guidance competencies been identified and analyzed in sufficient detail to allow us to use this evaluation process. Therefore, the level of performance must be established for each guidance curriculum competency. The standards may be quite arbitrary at first until experience provides school districts with sufficient data to base their expectations. The interaction effects between program interventions and evaluation feedback could be extensive and would make what normative data we do have look somewhat depressed. Our expectations for each developmental level would increase as students experience the cumulative effect of a guidance curriculum.

352

*Content:* Those processes and skills relevant to the guidance area.

Total: 8 guidance content areas.

*Role(s):* Contemporary life roles as suggested by the Georgia State Department of Education.

Total: 5 life roles

*Goal:* Those major themes students should incorporate in their lives by the end of their public school experience. Each goal relates to one content area and one to five life roles.

Total: 24 Goals

*Objective:* The developmental sequence students must go through to incorporate these goals in their lives.

Total: 3 developmental objectives per goal

---

<i>Grade</i>	<i>Competency</i>	<i>Performance Indicators</i>	<i>Suggested Performance Levels</i>
--------------	-------------------	-------------------------------	-------------------------------------

---

Kindergarten through twelfth grade are included under each goal.

General behavioral steps which suggest student's competency in progressing through the developmental process of incorporating these goals.

More specific terms which indicate those behaviors students should accomplish in order to reach the corresponding competency and ultimately the goal.

Those suggested specific steps, examples, or explanations which students might express or demonstrate to signify they have reached the corresponding competency level.

205
