ABSTRACT

This resource guide, which was produced to provide support for school programs which use television as part of the regular instructional program in the state of Washington, includes listings of eight characteristics of effective instructional television programs, six of effective instructional television viewing, and five of effective planning for teaching with instructional television: four television series on videotape and 124 films on videotape that are available from the Washington State Video Consortium and the contact people at the consortium; 50 instructional television programs that are broadcast on public television and the four Washington stations; the addresses of and services available from public television stations, commercial television stations, cable consortia and community action organizations; and national media action groups. Also included are the addresses of 26 sources for free or inexpensive materials with descriptions of the services of 20 of the sources, descriptions of seven active programs in schools around the state, and three sources of staff development materials and programs. The appendices include commonly asked questions and answers, a list of public radio stations in Washington, and a bibliography of 63 items. (CHC)

I. INTRODUCTION: The Impact of Television on Learning

OVERVIEW:

The teaching effectiveness of both instructional television (programs designed for classroom use) and open broadcast television (programs designed for general viewing) is well documented by over twenty years of research. A critical factor in what a child will learn from television, both in and out of the classroom, is the presence of a mentor (teacher, parent) who shares in the viewing and discusses what is seen with the child. These findings provide the best evidence for support of school programs which use television as part of the regular instructional program.

Characteristics of Effective Instructional Television Programs:

Instructional television programs produce significant gains in student achievement when they:

- repeat the key concepts a variety of ways
- make use of animation, novelty, variety and simple visuals (for young children)
- entertain as well as inform
- make use of a trained communicator in presenting information (for adults: make use of nationally known personalities)
- provide opportunities for students to participate in a learning activity, either in response to information presented in the program or as part of a game presented by the program (for young children)
- match the length of the program to the attention span of the intended audience
- follow principles of effective audiovisual presentations.
- reflect the use of formative evaluation during production, in the following ways:

Curriculum goals for the program are established by educators, who participate in the program planning on an equal footing with the procedures.

Programs are field tested to determine the effectiveness of presentation techniques with students who represent the intended audience for the program.

Characteristics of Effective Instructional Television Viewing:

Students show gains in achievement from viewing instructional television when teachers:

- prepare students to receive information presented by the television program
- provide reinforcing discussion and activities following viewing
- provide corrective feedback to students, based on what students reveal they have understood from the program, in follow-up discussions between students and teacher
- provide students with frequent feedback on their achievement as a result of viewing
- maintain sufficient contact with students during instruction via television (for college students)
- assume an active role in the instruction which accompanies viewing television programs

Characteristics of Effective Planning for Teaching with Instructional Television:

Planning for effective teaching with instructional television includes:

- selecting programs which accommodate the teacher's classroom management style
- selecting broadcast times which meet classroom needs
- incorporating television as part of a coordinated instructional system, including teacher presentation, text, study guide and testing for achievement gains
- using television programs when that which is to be learned requires visualizing, and continuity of action is important to the lesson
- using television when reducing student anxiety is a priority (capitalizing on the third person, non-judgmental nature of the medium)

Where to Find Television Materials for Teaching

VIDEO TAPE PROGRAMS

The following programs on videotape are available from members of the Washington State Video Consortium, which includes all Educational Service District film/video cooperatives and the following school districts: Bellevue, Edmonds, Renton and Tacoma. Contact people are noted at the end of this listing. Individual ESDs and districts should be contacted for additional video program holdings

Television Series on Videotape

<u>Title</u>	<u>Grade Level</u>	<u>Subject Area</u>	<u>Description</u>
Getting the Most Out of TV (Except ESD 105 and 113)	6 - 9	Lang. Arts	A series of seven 20 min. programs: The Technical Side of TV, People Make Programs, The Magic of TV, Characters We See on TV, Action and Violence, The Real World of TV Commercials.
Inside Out (Except ESD 105) (ESD 101: film only)	4 - 6	Soc. Stud.	30 programs, 15 min. each, providing an open-ended, semi-documentary treatment of day-to-day problems children ages 8-11 encounter, from the child's perspective.
Self Incorporated (Except ESDs 105 & 113) (ESD 101: film only)	4 - 9	Soc. Stud.	
ThinkAbout	5 - 6	Basic Skills	60 programs, 15 min. each, which present dramatic, real life situations in which students use reasoning skills to find solutions. Emphasizes language arts, math and study skills, group problem-solving and interactions with people of all ages and different ethnic backgrounds.

BROADCAST PROGRAMS

Instructional television programs for schools are broadcast over the following channels:

Western Washington

Seattle: KCTS/Channel 9
University of Washington
Seattle, WA 98105
Contact: Jean Farnen, Coordinator
Nicki McCormick, Utilization Specialist
Patricia Woodley, Director of Education
(206) 543-6543

Tacoma: KTPS/Channel 62
1101 South Yakima Ave.
Tacoma, WA 98405
Contact: Len Ehly, ETV Curriculum Dir.
(206) 572-6262

Central Washington

Yakima: KYVE/Channel 47
1105 So. 15th Ave.
Yakima, WA 98902
Contact: Susan Bradway, ETV Curriculum Coordinator
(509) 575-3474

Eastern Washington

Spokane: KSPS/Channel 7
South 3911 Regal St.
Spokane, WA 99203
Contact: Claude Kistler, General Manager
(509) 455-3790

The following programs will be broadcast by most of the state's public television stations during 1981-82. For the broadcast schedule and for other instructional broadcasts in your area, contact the station serving your area.

<u>Broadcast Station</u>	<u>Program Title</u>	<u>Grade Level</u>	<u>Subject Area</u>	<u>Description</u>
KCTS/9	Adventure of the Mind	Junior/Senior High	Computers	Low-cost individual computers now on the market surpass the calculating speed and power of the million-dollar machines that started the revolution a scant 30 years ago. The mind-multiplying power of the personal computer-whose benefits and potential are limited only by one's imagination-is now within the reach of every man, woman, and child.
KCTS/9 KSPS/7 KYVE/47 KTPS/62	All About You	Primary	Health	Helps children in the primary grades explore the wonders of their mind and body.
KCTS/9 KYVE/47	Art Cart, The	Primary	Art	A variety of art materials and techniques are utilized to stimulate the child's artistic expression.
KCTS/9	Art Starts	Primary	Art	A multitude of art experiences are provided for young children through a variety of media including tempera, crayon, paper, clay and finger paints.
KCTS/9 KYVE/47	Bioscope	Intermediate-Junior	Science	Bioscope explores the world of living things from the cell to the balance of nature. Photographic techniques are used to focus in on natural phenomena, visualize life processes and teach basic science concepts. Content is closely correlated to widely adapted student texts.

<u>Broadcast Station</u>	<u>Program Title</u>	<u>Grade Level</u>	<u>Subject Area</u>	<u>Description</u>
KCTS/9 KYVE/47 KTPS/62	Book Bird (KYVE: Also Best of Cover to Cover I)	Intermediate	Languge Arts	John Robbins entices youngsters into good reading with his drawings and telling part of the tale.
KCTS/9	Discovering	Intermediate	Science	Vertebrate and invertebrate animals, chemistry, energy, space, plants, ecology, and rocks and minerals are the units covered in this science series.
KCTS/9 KSFS/7	Draw Man, The	Intermediate-Junior	Art	This is a popular art series with the intermediate grades through senior citizens.
KCTS/9 KSPS/7 KTPS/62	Environments in The State of Washington	Intermediate	Social Science	There are vocabulary and activities for each lesson in the series, plus duplicating masters for all paper and pencil activities.
KCTS/9 KTPS/62	From Jumpstreet	Junior-Senior High	Black Music	Through performances, interviews, documentary films and animation, FROM JUMPSTREET explores the black musical tradition from its African sources to its present place in American music.
KCTS/9 KTPS/62	Gettin' To Know Me	Intermediate	Black Folklore	Using songs, folktales, customs, crafts and ceremonies, a black American family strives, in subtle ways to preserve and transmit its folklore and promote black cultural identity.

<u>Broadcast Station</u>	<u>Program Title</u>	<u>Grade Level</u>	<u>Subject Area</u>	<u>Description</u>
KCTS/9 KSPS/7 KYVE/47 KTPS/62	Here's To Your Health	Senior	Health	The series delivers medical and health information in an entertaining and straightforward manner by using nationally known guest hosts and narrators to accompany series regulars.
KCTS/9 KSPS/7	In Harmony	Primary	Music	This series was designed to provide classroom teachers with a library of effective support materials for music instruction. The series can be used as a complete music experience or it can be used to supplement an existing music program.
KCTS/9 KSPS/7 KYVE/47 KTPS/62	Inside/Out	Intermediate	Social Science	Dramatic situations that explore social, emotional, and physical problems of students in the intermediate grades.
KCTS/9 KYVE/47	Inside Story: Slim Goodbody	Primary-Intermediate	Health	Using Slim Goodbody (John Burstein) as host, the series will deal with the human body and how to maintain it as a healthy organism.
KCTS/9 KYVE/47	Let's Draw	Primary	Art	The same popular artist of DRAW MAN encourages younger children to express themselves through drawing.
KCTS/9	Music and Me	Primary-Intermediate	Music	Introduce your students to the woodwind and percussion families, Afro-American music, musical concepts and traditions through this series.
KCTS/9	New Americans, The	Intermediate-Junior High	Multicultural	This series deals with the Indochinese cultures which includes Vietnamese, Chinese living in Vietnam, Laotian, the Lao-Hmong of Laos, and the Cambodians.

<u>Broadcast Station</u>	<u>Program Title</u>	<u>Grade Level</u>	<u>Subject Area</u>	<u>Description</u>
KCTS/9	On the Level	Junior-Senior High	Social Science	These programs are intended to support the health curricula by encouraging students to be more aware of and active in shaping their own personal and social growth.
KCTS/9 KYVE/47 KTPS/62	Raisin' Up	Primary	Health	Part I, for kindergartners and first graders dramatically and visually portrays the basic four food groups and the contributions that food makes to health and growth. Part II (lessons 6 through 10) for second and third graders with delightful and colorful characters, explores the importance of breakfast, lunch, dinner and nutritious snacks.
KCTS/9 KSPS/7 KYVE/47 KTPS/62	Self Incorporated	Intermediate-Junior	Social Science	These programs help adolescents cope with the questions and problems that arise as a result of the physical and social changes they are experiencing.
KCTS/9 KSPS/7 KTPS/62	Song Bag, The	Primary	Music	Students will learn a variety of folk songs and they can participate in rhythmic movement and the playing of simple instruments.
KCTS/9 KTPS/62	Storybound (KYVE: Best of Cover to Cover II)	Intermediate	Language Arts	This excellent reading series combines 16 titles with 16 of the best titles from Cover to Cover II.
KCTS/9 KSPS/7 KYVE/47 KTPS/62	ThinkAbout	Intermediate	Basic Skills	Basic skills for fifth and sixth graders will be strengthened by this series.
KCTS/9 KSPS/7 KYVE/47 KTPS/62	Trade-Offs	Intermediate-Junior	Economics	These lessons are good for economic problems as well as general problem solving concepts.

<u>Broadcast Station</u>	<u>Program Title</u>	<u>Grade Level</u>	<u>Subject Area</u>	<u>Description</u>
KCTS/9 KSPS/7 KYVE/47 KTPS/62	Under the Blue Umbrella	Primary	Social Science	Through this series primary children can explore differences in many people, the world of work, maps and globes, money and its uses, and the functions of families.
KCTS/9 KTPS/62	Vegetable Soup	Primary-Intermediate	Multi-cultural	If you're looking for a resource to help develop an understanding of various ethnic groups, join us in a little bowl of Vegetable Soup.
KCTS/9 KYVE/47	Word Shop	Primary	Language Arts	Experiences in poetry, creative dramatics, listening, reading and creative writing help children develop skills in these language arts areas.
KCTS/9 KYVE/47 KTPS/62	Write Channel, The	Primary-Intermediate	Language Arts	These lessons will help students turn their short, choppy sentences into interesting sentences containing adjectives, compounds, phrases and clauses.
KCTS/9 KYVE/47 KTPS/62	Community of Living Things	Jr High	Science	A revised series that uses the latest color photography to visually emphasize the four major themes: change, diversity, inter-relationships, and energy.
KCTS/9 KSPS/7	Cosmos	Sr/Adult	Science	An exploration of space and time presenting science as a fundamental human endeavor.
KCTS/9	Eat Well, Be Well	Primary/Intermediate	Health	Short programs dealing with nutrition for young students.
KCTS/9 KTPS/62	Faces of Man	Jr/Sr-High	Social Science	Human geography is the focus of this series. The lifestyles of people from 7 different countries are included.

<u>Broadcast Station</u>	<u>Program Title</u>	<u>Grade Level</u>	<u>Subject Area</u>	<u>Description</u>
KCTS/9	Gather 'Round	Primary	Language Arts	Many good and familiar stories are included in this series such as "Princess and the Pea" and "The Ugly Duckling."
KCTS/9	Juba	Primary/ Intermediate	Language Arts	Series includes "Brer Rabbit" and "Legend of Harriet Tubman."
KCTS/9 KTPS/62	Many Worlds of Nature	Intermediate/Jr	Social Science	A fascinating, colorful series, showing nature in all its splendor, beauty and fragile balance.
KCTS/9 KSPS/7	Odyssey	Sr/Adult	Social Science	There are 15 new productions continuing the documentation of peoples and cultures, past and present, in all parts of the world.
KCTS/9 KSPS/7	Once Upon A Classic	Intermediate/Jr/ Sr High	Language Arts	This drama series offers the best in family classics.
KCTS/9 KTPS/62	Oye Willie	Intermediate/Jr	Latino culture	Set in the Spanish section of New York City, this drama features the adventures of two young boys.
KCTS/9 KSPS/7 KTPS/62	Search For Solutions	Intermediate/Jr/ Sr/ Adult	Science	This imaginative approach to the process of science looks over the shoulders of scientists as they pursue solutions to fundamental mysteries.
KCTS/9 KSPS/7	Stories of America	Primary	Language Arts	The richness of America's heritage-- from Columbus to Theodore Roosevelt-- is vividly portrayed through the medium of storytelling.

<u>Broadcast Station</u>	<u>Program Title</u>	<u>Grade Level</u>	<u>Subject Area</u>	<u>Description</u>
KCTS/9 KSPS/7 KTPS/62	Up and Coming	Jr/Sr/Adult	Black Family Living	Three black teenagers are confronted with challenges of adjusting to a different social environment and the often turbulent demands of adolescent life.
KCTS/9 KTPS/62	Write On	Intermediate/Jr/Sr	Language Arts	This series is funny, but the writing lesson is always central to the action, encouraging students to write clearly and correctly.

COLLEGE CREDIT COURSES

During the Fall, 1981 beginning in September, four television series will be offered for credit. They are:

KCTS/9 KSPS/7 KYVE/47	Cosmos	Science
KCTS/9 KSPS/7	Interaction	Inservice Education
KCTS/9 KSPS/7 KYVE/47	Odyssey	Anthropology
KCTS/9 KSPS/7	Shakespeare	Drama
KYVE/47	It's Everybody's Business Contemporary Health Issues	
KCTS/9	Simple Gifts	Gifted Students (Inservice Education)

NOTE: Please contact your local public television station for telecourse offerings, as this list is by no means complete. KWSU (see p. 19) and cable consortia (see p. 23) also broadcast credit courses.

III. COMMUNITY RESOURCES FOR TEACHING WITH TELEVISION

PUBLIC TELEVISION STATIONS

KYVE/CHANNEL 47 -- YAKIMA

1105 South 15th Avenue

Yakima, WA 98902

Contact person: Susan Bradway, Director of Instructional Television

Phone: (509) 575-3474

Services provided to schools in viewing area:

- Broadcast schedules (handbooks provided at cost)
- Teacher guides (at cost)
- Resource speaker on ITV and related subjects
- Permission to record certain programs off air (determined by producers, not by KYVE)
- Monthly newsletter to all teachers
- Inservice sessions on utilizing specific series, such as ThinkAbout,

These services are available to teachers in the ten districts financially supporting ITV at KYVE. (The speaker, however, is available to all schools in the viewing area.)

KCTS TV/CHANNEL 9 -- SEATTLE

University of Washington

4045 Brooklyn N.E.

Seattle, WA 98195

Contact person: Jean Farnen, Coordinator

Phone: (206) 543-2000

District Coordinators to be contacted when requesting materials:

Services provided to schools in viewing area:

- Broadcast guides for teachers. Broadcast guides list rerecord rights, and this information is sent out in a newsletter on programs not listed in the guide.
- Individual series guides.
- Broadcast schedules.
- Student activity books.
- Resource speakers: For general KCTS/9 and television information
 - Patricia Woodley; for utilization of instructional programming
 - Nicki McCormick.
- Student tours of KCTS/9: Contact Jeff Gentes, Administration Bldg., AC-25, University of Washington Campus, Seattle, WA 98195.

TPS/CHANNEL 62 -- TACOMA

P. O. Box 1357
Tacoma, WA 98401
Contact person: Len Ehly, ITV Coordinator
Phone: (206) 572-6262

Services provided to schools in viewing area:

- Broadcast schedules. Monthly schedule for K-6, distributed to all teachers in Tacoma public schools and to any persons requesting them. A bi-weekly schedule of 7-12 materials is distributed to those schools connected via cable to secondary service (specialized).
- Teacher/Student program guides. Sent to teachers at the appropriate levels for new programming in September. Replacement guides are sent on request. Teachers from outside the district may purchase guides for \$1.00 each.
- Loan tapes. Under special request, if tape is available, by permission of distributor.
- Permission to record off air. Available to subscribing district if granted by distribution rights.
- Student tours of station. Available by calling (206) 572-6262, 8:30 a.m. - 5:00 p.m.
- Student production advice. Contact Len Ehly at (206) 572-6262, 8:30 a.m. - 5:00 p.m.

KWSU/CHANNEL 10 -- PULLMAN

Edward R. Murrow Communications Center
Washington State University
Pullman, WA 99164
Contact person: Susan Franko, Director TV Programming
Phone: (509) 335-2681

Services provided to schools in viewing area:

- Broadcast schedules on request
- Teacher/student program guides for regular PBS programs

ACTION FOR CHILDREN'S TELEVISION (ACT) MAGAZINE

46 Austin Street, Newtonville, Massachusetts 02160, Telephone: (617) 527-7870

Action for Children's Television is a national nonprofit consumer organization working to encourage diversity and eliminate commercial abuses from children's television. ACT initiates legal reform through petitions to the federal regulatory agencies and promotes public awareness of the issues relating to children's programming through public education campaigns, numerous publications, and national conferences and speaking engagements.

Twice a year ACT publishes a double issue of their news magazine called re:act (yearly subscription \$15.00, free with membership in ACT). Some topical bibliographies are available (\$1.50 each) along with several resource guides, including: Promise and Performance: ACT's Guide to TV Programming for Children, Volume I: Children with Special Needs, 1977 (\$6.95 paper; \$12.50, hardcover) and Volume II: The Arts, 1979 (\$8.95 paper; \$16.50 hardcover); and the ACT Guide to Children's Television: How to Treat TV with T.L.C., 1979 (\$5.95, paper; \$10.95 hardcover). (Postage and handling charges are extra.) Send stamped, self-addressed envelope and twenty-five cents for a complete bibliography of ACT publications.

AGENCY FOR INSTRUCTIONAL TELEVISION (AIT) NEWSLETTER/CATALOG

Box A, Bloomington, Indiana 47402, Telephone: (812) 339-2203,
Contact: Field Services Office

The Agency for Instructional Television is a nonprofit American-Canadian organization established in 1973 to strengthen education through television and other technologies. AIT develops joint program projects involving state and provincial agencies; and acquires and distributes a wide variety of television and related printed materials for use as major learning resources. AIT also makes many of the television materials available in audiovisual formats. Some recent programs developed (or being developed) by AIT and cooperating agencies include: sixty 15-minute programs called "Think About It" which are designed to help strengthen the reasoning skills of fifth and sixth graders; a health series in the "Skills Essential to Learning Project" which focus on fourth-grade mathematics and seventh- and eighth-grade language arts and science. AIT publishes a quarterly newsletter and an annual catalog which are free to any educator upon request.

ASSOCIATION FOR EDUCATIONAL COMMUNICATIONS AND TECHNOLOGY (AECT) JOURNALS

1126 16th Street N.W., Washington, D.C. 20036, Telephone: (202) 833-4177, Contact: Gail Dixon, Publication Sales

The Association for Educational Communications and Technology is a membership organization for professionals in the field of Educational Communications and Technology. Several AECT periodicals (listed below) frequently report on research and current events in the field of Instructional Television (ITV). Included in AECT membership (\$50.00) is a monthly newsletter entitled ect (for members only) and a magazine entitled Instructional Innovator (non-members subscribe for \$18.00 a year). Two quarterly journals are also available: Educational Communication and Technology (\$10.00 members; \$19.50 non-members) and Journal of Instructional Development (\$10.00 members; \$15.00 non-members).

A collection of AECT journal articles concerning innovative and practical ways to use telecommunications for learning has been published in a book called Learning Via Telecommunications, 1978 (\$7.50 members; \$8.95 nonmembers). This collection of articles cuts across all educational settings and populations. For more information on AECT publications, write or call for a current catalog.

CBS TELEVISION READING PROGRAM BROCHURE

51 West 52nd Street, New York, New York 10019, Telephone: (212) 975-8001, Contact: Joan Green

The CBS Television Reading Program prepares both student and teacher guides to accompany selected prime-time television specials aired by CBS. Based on both entertainment and educational value, a variety of programs is selected each season with an attempt to span the interests of all grade levels. The cost of these guides will vary depending upon the number of program participants and the location. Contact your local CBS affiliate for cost and other ordering information.

A 26-page brochure explaining the CBS Television Reading Program entitled, "Television and the Classroom: A Special Relationship" is available free upon request from the above address.

CHILDREN'S TELEVISION INTERNATIONAL, INC. (CTI) GUIDES, NEWSLETTER, CATALOG

One Skyline Place, Suite 1207, 5205 Leesburg Pike, Falls Church, Virginia 22041, Telephone: (703) 379-2707, Contact: Mary Charbonnet, Director of Communications

Children's Television International produces and distributes quality, purposive educational television programming. Primarily CTI clients include state and local educational agencies and instructional television networks. Supplemental resource materials such as curriculum guides are available for many of CTI's programs. A quarterly newsletter, CTI Views, and a resource catalog are free upon request. Programs and resource materials are available for all grade levels, including elementary, secondary, and junior/community college levels.

CHILDREN'S TELEVISION WORKSHOP (CTW) MAGAZINES, BIBLIOGRAPHY

Children's Television Workshop is a research and development laboratory that explores new uses of television and related communications media for education and information purposes. CTW created and continues to produce the popular educational series Sesame Street. To help reinforce Sesame Street's educational lessons, CTW publishes the following supplementary materials: Sharing the Street: Activities for all Children (\$2.00 each; \$1.60 for 25 copies or more); Sesame Street Activities Manual (\$2.00 each; \$1.60 for 25 copies or more; also available in Spanish); The Muppet Gallery (\$1.00 each; \$0.80 for 25 copies or more; also available in Spanish); and Sesame Street Script Highlights (\$5.00 subscription) which contains weekly bulletins reviewing instructional goals of each show and providing additional activity suggestions. (Order above items from the Community Education Services Division - Dept. A.)

CTW publishes three magazines: Sesame Street for ages 2-6 (\$6.95, 10 issues); The Electric Company for ages 6-11 (\$6.95, 10 issues); and a science magazine for ages 8-14 entitled 3-2-1 Contact (\$8.95, 10 issues). A teacher's guide is available for 3-2-1 Contact. For information concerning CTW magazines, contact the Circulation Department.

An annotated bibliography of research-related papers and reports covering the major research activities conducted at CTW is available from the CTW Library. (Most unpublished reports are available in the ERIC System.)

CRITICAL TELEVISION VIEWING SKILLS PROJECT BROCHURES

In 1978 four projects were funded by the U.S. Office of Education to develop a coordinated curriculum designed to teach students and adults how to become active and discriminating television viewers. Since that time, curriculum development and workshop training activities have been conducted focusing on four target groups: elementary schools; middle schools; secondary schools, and postsecondary schools and adults. Several publications and products are now available, including textbooks and curriculum guides for teachers, resource and information pamphlets for parents, and games and activity books for students. Each project has its own newsletter or brochure explaining the focus of its activities and the availability of its products. For more information, write or call the following sites:

- Critical TV Viewing Skills Curriculum (Elementary), Southwest Educational Development Laboratory, 211 East 7th Street, Austin, Texas 78701, Telephone: (512) 476-6861, Contacts: Charles CorderBolz, Project Director, Sherry Stanford, Project Coordinator
- Critical TV Viewing Skills Curriculum (Middle School), WNET, 356 West 58th Street, New York, New York 10019, Telephone: (212) 664-7124, Contact: Debbi Bilowit, Project Director

- . Critical TV Viewing Skills Curriculum (Secondary), Far West Laboratory for Educational Research and Development, 1855 Folsom Street, San Francisco, California 94103, Telephone: (415) 565-3100, Contacts: Donna Lloyd-Kolkin, Project Director, Debra Lieberman, Project Associate
- . Critical TV Viewing Skills Curriculum (Post Secondary/Adult), School of Public Communication, Boston University, 640 Commonwealth Avenue, Boston, Massachusetts 02215, Telephone: (617) 353-3364, Contacts: Donis Dondis, Project Director, Victoria Jacobs, Project Manager

Other resources on this topic may be obtained by contacting the Resource and Referral Service at The National Center for Research in Vocational Education. Telephone: (800) 848-4815; in Ohio (614) 486-3655. The Resource and Referral Service is part of the Research and Development Exchange which is sponsored by the National Institute of Education, Washington, D.C. 20208.

ERIC CLEARINGHOUSE ON INFORMATION RESOURCES (ERIC/IR) DOCUMENTS

Syracuse University, School of Education, 130 Huntington Hall, Syracuse, New York 13210, Telephone: (315) 423-3640, Contact: Marilyn Laubacher

ERIC/IR is one of the 16 Educational Resources Information Center (ERIC) Clearinghouses which assist educators in locating information about research, exemplary programs, and curriculum materials. Each clearinghouse offers manual or computer search services of the entire ERIC database and prepares information analysis papers, annotated bibliographies, and resource lists on selected topics in its areas of expertise.

ERIC/IR has prepared two annotated bibliographies of selected documents from the ERIC database regarding television and educational concerns. Both publications, *Children's Television: The Best of ERIC* (ED 152 254) and *Instructional Television: The Best of ERIC* (ED 168 605), are available on microfiche or can be ordered in print (\$4.25 each) from Syracuse University Press, 125 College Place, Syracuse, New York 13210.

FAMILY GUIDE TO TELEVISION

This free pamphlet contains games, activities, illustrations, and surprising facts to encourage families to talk about television's role in their lives. The FAMILY GUIDE TO TELEVISION can also be used at school, club meetings, and community agencies to increase awareness and stimulate group discussion.

COST: free

ORDER FROM: Consumer Information Center, Pueblo, Colorado 81009 -- ask for catalogue #515 H, supplies are limited.

INSIDE TELEVISION, A GUIDE TO CRITICAL VIEWING

INSIDE TELEVISION, by Ned White, is a new high school textbook all about television and critical viewing. It presents information about television's audiences, economics, images, persuasive techniques, news, dramatic form, production methods, and impacts on society. In addition, it challenges students to develop their own opinions in activities designed to stimulate their thinking, and it tells them what television professionals think about many aspects of this medium, in articles and interview.

The textbook is organized to be the basis for a one-semester high school course. For teachers who want to select portions of the textbook, it is divided into seven independent units that may each be integrated into existing Language Arts and Social Studies courses.

A detailed Teacher's Guide to INSIDE TELEVISION contains day-by-day lesson plans, resources for teachers, student learning goals, class discussion questions, and optional long-term class projects. Teachers with no previous experience in Critical TV Viewing will be able to teach this course effectively by following the suggestions in the Teacher's Guide and relying on the teaching skills they already possess.

COST:

Student Textbook: \$12.00

Teacher's Guide plus 46 reproducible student worksheets: \$10.00

20% discount for orders of five or more textbooks

SEND CHECK OR MONEY ORDER TO: Science and Behavior Books, Inc., Box 11457, Palo Alto, CA 94306.

NATIONAL ASSOCIATION FOR BETTER BROADCASTING (NABB) MAGAZINE

7918 Naylor Avenue, Los Angeles, California 90045, Telephone: (213) 641-4903, Contact: Frank Orme, Executive Director

Devoted to the improvement of radio and television programming, this national membership organization evaluates radio and television programs and publishes the results. Presently NABB activities are focused on consumer interest in broadcasting legislation. NABB publishes a quarterly news magazine, Better Radio and Television, which is included with a \$10.00 membership fee.

NATIONAL ASSOCIATION OF EDUCATIONAL BROADCASTERS (NAEB) PUBLICATIONS

1346 Connecticut Avenue N.W., Washington, D.C. 20036, Telephone: (202) 785-1100, Contact: Eleanor Miller, Editor

The National Association of Educational Broadcasters is a professional development organization for individuals interested in the growth of educational telecommunications. NAEB has an extensive publications program, including a professional journal, newsletter, textbooks, research monographs, and resource guides. The bimonthly magazine, Public Telecommunication Review (\$18.00 yearly, nonmember), and the twice-monthly newsletter, Current (\$25.00) yearly, nonmember), frequently cover instructional television concerns and issues. (Both periodicals are included in the \$35.00 membership fee.) Also available from NAEB is Learning from Television (\$6.00), a basic text in using television for instruction. NAEB provides a series of professional training seminars, maintains a job referral service, and holds an annual industry convention.

NATIONAL EDUCATION ASSOCIATION (NEA) RESOURCES

1201 16th Street N.W., Washington, D.C. 20036, Telephone: (202) 833-4484, Contact: Karen Klass Jaffe, Communications Specialist for Radio and T.V.

NEA and the American Broadcasting Company are producing a series of video instructional programs which will provide 20 hours of video instruction during the school year to supplement basic learning skills. The video service is expected to begin in 1981. Each hour of video will consist of a message from NEA to teachers on professional needs and a section on news and current events.

Various projects concerning the use of television in the classroom have been developed by teachers in local and state associations across the country. NEA national headquarters attempts to serve as a clearinghouse for information on these projects.

PRIME TIME SCHOOL T.V. (PTST) CURRICULUM/UNIT

120 South LaSalle Street, Chicago, Illinois 60603, Telephone: (312) 368-1088, Contact: Colette Carroll Becver, Membership Coordinator

PTST is a national, nonprofit organization which produces and distributes study materials covering television specials and series on both commercial and public television networks. PTST offers monthly study guides (\$10.00 yearly for individuals; \$5.00 each when ordering in a group of ten or more) which include program synopsis of selected television programs, programming calendars, and teaching activities and resources. Also available from PTST is a nationally field-tested curriculum unit on television and economics designed to use regularly scheduled programs to teach economics and economic skills. This eighty-page curriculum unit, From the Medium to the Market Place (\$20.00), contains curriculum guides, viewing logs, and all the necessary instructional materials. It is intended for the secondary school level, but some users have successfully adapted the unit to the upper elementary and junior high grades.

T.V. ACTION CENTER PUBLICATIONS

National PTA, 700 North Rush Street, Chicago, Illinois 60611, Telephone: (800) 952-4266, Illinois (800) 332-5177, Continental United States

Through its TV Action Center, the National PTA helps parents and teachers evaluate television programs. The Center also teaches parents how to use their influence to convince the networks to improve the quality of television programming. The Center is now developing a K-12 curriculum designed to sharpen the viewing skills of students. Curricula will be divided into four grade level packets: early elementary, late elementary, junior high, and high school. All teacher packets will be written so that the materials may also be used by parents and others who have not had professional training as instructors.

Several publications have been produced by the National PTA's Television Project. They include: "The Effects of Television on Children and Youth" (\$0.50 each), a summary report on the findings of public hearings conducted by the National PTA Television Commission; "Electronic Illiteracy: A New Challenge Confronts the PTA" (\$0.20), a booklet explaining the rationale for developing the TV viewing skills curriculum; and "TV Program Review Guide" (\$0.35, limited availability) which lists the ten "best", ten "worst", ten "most violent", and ten "least violent" programs on prime time television.

T.V. SETS IN USE

Television Information Office, 745 Fifth Avenue, New York, New York 10151

TEACHERS GUIDES TO TELEVISION (TGT)

699 Madison Avenue, New York, New York 10021, Telephone: (212) 688-0033, Contact: Gloria Kirshner, Editor

Teachers Guides to Television, an organization financed by the National Broadcasting Company, previews television shows on commercial and Public Broadcasting Station (PBS) and publishes twice a year a study guide by the same name (\$4.00 a year). Each issue of Teachers Guides to Television contains listings of and study guides to selected programs of educational value. These guides are primarily intended for use in the secondary school grades.

TGT also sponsors Parent Participation TV Workshops. These workshops are intended to encourage and facilitate parent-child discussions of family problems using television programs as catalysts. Any parent, teacher, or community leader can organize a Parent Participation TV Workshop and receive a handbook and supplementary materials without charge by agreeing to report on group programs to TGT. Write or call TGT for further information on how to organize a Parent Participation TV Workshop.

TELEVISION LICENSING CENTER GUIDE

The Television Licensing Center (TLC) is a national single-source clearinghouse established to provide educators with information about off-air videotaping and with licenses to record, duplicate and retain television programming. It offers educators a convenient and legal mechanism for capturing the best of television at a fraction of usual AV costs. It ensures producers the copyright protection to which they are entitled.

TLC is administered by Films Incorporated, the largest nontheatrical distributor in the United States of quality films, videotapes and other AV material for education and entertainment. With a history

of over a half century of service to educators and producers in the visual media, Films Incorporated is proud of this logical extension of good service through electronic distribution.

The TLC Guide is a good source of information about copyright. See your local Films, Inc. representative.

TRAINER'S MANUAL

Many educators and community groups have become interested in Critical TV Viewing and are planning workshops, lectures, and teacher in-service training sessions in this field. Workshop leaders can order a two-volume set of booklets entitled TRAINER'S MANUAL and WORKSHOP HANDOUTS.

The TRAINER'S MANUAL contains: reasons for teaching Critical TV Viewing, information about organizing and leading workshops for adults, workshop activity ideas, examples of publicity materials, and suggested audio-visual resources. The WORKSHOP HANDOUTS may be reproduced and distributed to workshop audiences, and consist of information sheets, bibliographies, a resource list, a FAMILY GUIDE TO TELEVISION, and other pertinent take-home materials.

COST: \$5.00 for the two-volume set.

SEND CHECK OR MONEY ORDER TO: Order Department, Far West Laboratory, 1855 Folsom Street, San Francisco, CA 94103

USOE PROJECTS IN CRITICAL TV VIEWING

In 1978 the U.S. Office of Education (USOE) awarded Critical TV Viewing contracts to four projects, each focusing on a different age group from grade K to the post-secondary level. They developed classroom and family materials and presented workshops nationwide during 1978-1980. The directors of each project are listed here:

Curriculum for Grades K-4:

Dr. Charles Gorder-Bolz, Southwest Educational Development Laboratory, 211 East 7th Street, Austin, TX 78701

Curriculum for Grades 5-8:

Ms. Debbi Bilowit, WNET-Channel 13, 356 West 58th Street, NY, NY 10019

Curriculum for Grades 9-12:

Dr. Donna Lloyd-Kolkin, Far West Laboratory, 1855 Folsom Street, San Francisco, CA 94103

Curriculum for Grades 5-8:

Ms. Debbi Bilowit, WNET-Channel 13, 356 West 58th Street, NY,
NY 10019

Curriculum for Grades 9-12:

Dr. Donna Lloyd-Kolkin, Far West Laboratory, 1855 Folsom Street,
San Francisco, CA 94103

Curriculum for Post-Secondary Level:

Dr. Donis Dondis, Boston University School of Public
Communication, 640 Commonwealth Avenue, Boston, MA 02215

VIDEO CASSETTE AND SLIDE SHOW

Two audio-visual resources for Critical TV Viewing Workshops are available for rent or purchase: a 3/4 inch video cassette tape, and a slide show with a written script and an audio cassette tape of the script.

They present a definition of critical TV viewing skills and a description of INSIDE TELEVISION. The video cassette, in addition, contains a news story showing high school students involved in activities from INSIDE TELEVISION and discussing their opinions.

COST:

Video rental: \$25, video purchase: \$50, slide rental: \$12, slide purchase: \$35.

Price of rental may be applied to purchase cost.

SEND CHECK OR MONEY ORDER TO: Order Department, Far West Laboratory,
1855 Folsom Street, San Francisco, CA 94103

V. Active Programs in Schools Around the State

Mercer Island High School

Contact: Tom Hoskin, AV Coordinator
Mercer Island Senior High School
9100 S. E. 42nd St.
Mercer Island WA 98040
233-3378

- o Program may be visited by prior arrangement.
- o Idea exchange welcomed.

Program Elements:

1. Broadcast over a 4-channel CCTV system to classrooms (tapes of relevant TV programs)
2. Videotaping athletic events for use as coaching tools.
3. Videotaping student written commercials, guest speakers, class projects, panels and skits.
4. Video monitoring and taping school drama presentations.
5. Videotaping teachers for self-evaluation.

Evergreen High School, Mountain View High School

Contact: Bill Pyne, Media Specialist
14300 N. E. 18th St.
Vancouver WA 98664
256-6018

- o Program may be visited with 3-4 weeks advance notice.

Program Elements:

1. Equips high school students with "basic skills in AV production."
2. Teaches students equipment operation and simple production of classroom materials.
3. Two-hour block for production classes.
4. Taping on site, editing in the studio.

Vancouver Public Schools

Contact: Bruce Russell
Supervisor, Vocational Education
Vancouver School District
605 North Devine St.
Vancouver WA 98661
696-7217

Marjorie Johnson
Fort Vancouver High School
696-7111

- o Program may be visited by prior appointment.
- o Contest winners will share winning entries.
- o Students interested in tape exchange.

Program Elements:

1. Senior high schools:
Intro/Media Technology; Media Tech 1/2; Media Tech 3/4; Media Tech 5/6 and in one high school--Radio/Television Broadcasting and Licensing.
2. Junior high schools:
TV production, beginning and advanced.
3. Many winners in state and national student production contests.

Brier Elementary School

Contact: Anne Kneip, Learning Resource Specialist
3625 232nd S.W.
Brier WA 98036
771-4308

- o Visitors welcome.
- o Would like idea and tape exchange.

Program Elements:

1. K-6, 570 students
2. Students tape other student projects, such as plays, choral reading rehearsals, autobiographical presentations and stick puppet performances.

Morton School District

Contact: Dennis Burgin
P. O. Box 88
Morton WA 98356

- o Program not operational this year, but expertise intact.

Program Elements:

1. Consulting in operating community cable channel; conducting telethons; producing grade school news show, comedy shows, contests and plays; designing vocational junior-senior high school classes; micro-teaching on television.
2. Provides expertise on motivating teachers to use television in the classroom.

AC Davis Senior High School

Contact: Bruce Crest
Resource Center
212 South 6th Ave.
Yakima WA 98902
575-3318

- o Visitors welcome.
- o Idea and materials exchange of interest.

Program Elements:

1. Three-channel in-house cable system.
2. Three local community cable channels into the building.
3. Vocational Skills Center produces programs for additional two channels located at Center, and these tapes are used in many secondary classrooms.
4. Black/white production.

MEDIA NOW PROGRAMS

Contact: Bob Irvine
Director, Learning Resources
ESD #114
1303 Sylvan way
Bremerton WA 98368
373-5006

Lois White
Administrator, Media Services
Issaquah School District
22211 S. E. 72nd St.
Issaquah WA 98027
392-0729

The Media Now program of the National Diffusion Network provides students in junior and senior high schools with a chance to produce media and study its effects. Television production is one element emphasized in the 50 "learning activity packages" with which students may work. Seven units cover media hardware, production, study of genre, evaluation of media, message interpretation, aesthetics and presentation of messages via media such as television.

PURPOSE: A unified course of study that probes all the areas making up the mass media.

ACTIVITIES: All the course material is designed to involve the student in working with media forms and building up a knowledge of what creating media requires.

OUTCOMES:

- ...Students participating in Media Now will improve their knowledge of mass media.
- ...Students participating in Media Now will demonstrate increased production abilities.
- ...Students participating in Media Now will decrease their susceptibility to persuasion.
- ...Students participating in Media Now will increase their positive attitudes toward Media.

The following Washington schools have adopted Media Now courses of study:

BELLEVUE SCHOOL DISTRICT, Interlake Senior High
HIGHLINE SCHOOL DISTRICT, Glacier Senior High
ISSAQUAH SCHOOL DISTRICT, Issaquah & Liberty High Schools
KENT SCHOOL DISTRICT, Kent Meridan Senior High
LAKE WASHINGTON SCHOOL DISTRICT, Lake Washington High School
SHORELINE SCHOOL DISTRICT, Shorewood High School
MORTON SCHOOL DISTRICT, Morton Senior High School
INCHELIUM SCHOOL DISTRICT, Inchelium High School
CENTRAL KITSAP SCHOOL DISTRICT, Central Kitsap High School
EDMONDS SCHOOL DISTRICT, Continuation High School
VANCOUVER SCHOOL DISTRICT, Hudson's Bay High School
CASTLE ROCK SCHOOL DISTRICT, Castle Rock High School
WEST VALLEY SCHOOL DISTRICT, Carroll High School
WASHOUGAL SCHOOL DISTRICT, Washougal High School
NORTH KITSAP SCHOOL DISTRICT, North Kitsap High School
SUMNER SCHOOL DISTRICT, Sumner High School

GETTING THE MOST OUT OF TV (SERIES)

A series of seven videotape programs for use with students, which are in themselves a valuable resource for teachers to use in preparing to teach classes in how television works. (See page 3.)

Appendix I

COMMONLY ASKED QUESTIONS AND ANSWERS

QUESTION:

Is the size of the picture on our school television sets adequate for student learning in the average classroom?

ANSWER:

Results of research on this question are not definitive. However, teachers who make extensive use of television as a teaching tool consistently report that a 19" screen is adequate for classes of 25-30, provided that seating arrangements are made so that each student can see the set clearly. Picture resolution is more important than size.

QUESTION:

At what side angle can the picture be seen?

ANSWER:

Although a 45-degree angle is considered maximum for viewing 16 mm film, video programs can be viewed easily up to a maximum angle of 65 degree. Watch for light reflections on the screen, however.

QUESTION:

What are the differences in setting up the classroom for viewing films and for viewing video programs?

ANSWER:

In most cases using 16 mm films requires darkening the room, setting up a screen and locating the projector so that the noise of its motor does not interfere with the sound track and the sound is dispersed fairly evenly around the room. In comparison, the video delivery system is virtually silent and does not require any of these adjustments in the learning environment. Classroom experience with video programs has been that students pay better attention to a television set than to a projection screen.

QUESTION:

How does the cost of this delivery system compare to the cost of 16 mm film projectors?

ANSWER:

Currently:

16 mm projector		video playback/player-	
(optical delivery system	\$570-750	recorder (electronic	
screen	48-143	delivery system)	\$ 650-900
cart	80-125	19" to 25" TV receiver	350-560
set of spare reels	20-25	cart	90-100
Total:	<u>\$718-1043</u>		<u>\$1090-1560</u>

Additional cost factors:

1. The cost of an average original film is \$300; the average cost of a duplicate print is also \$300. By comparison, the average cost of an original videotape is \$225 and the cost of duplicate tape, including duplication rights, averages \$25.
2. The video system does not require drapes to darken the classroom, a fact which could eventually reduce the cost of equipping buildings which use the video format.
3. Current experience in some areas indicates a low rate of equipment repair needs on 1/2", institutional model, video cassette recorders and TV receivers. Where video equipment is relatively new to schools, cost comparisons may not yet be valid, and video equipment may need service less often as it is less used.
4. Video cassettes are much lighter and therefore much cheaper to mail. The average \$300 film costs 53 cents to mail. A single video cassette cost 21 cents to mail and can contain up to 2 hrs. of program. Two hours of film program costs over \$2.00 to mail.

QUESTION:

What is the difference between a monitor and a receiver?

ANSWER:

A monitor, which cannot receive a television broadcast signal is usually only found in a TV studio, and is no longer needed with 1/2" UHS/BETA equipment. The basic difference between the two is that a receiver has a tuner, a monitor does not. A receiver/monitor is a special set which is switchable between functions.

QUESTION:

What are schools in Washington generally buying -- 3/4" U-Matic, 1/2" UHS or 1/2" BETA format?

ANSWER:

Most schools nationally (90%) and in Washington State have standardized on 1/2" UHS. The 3/4" cassettes are most often preferred as masters, and colleges and universities generally use this format. As standardization aids in sharing of tapes, it is particularly useful for a district to standardize among its schools.

QUESTION:

Where does the video disc fit into all this?

ANSWER:

The video disc will probably have little or no effect on K-12 schools during the next decade.

QUESTION:

What is the difference between standard play and 2-4-6 hour play?

ANSWER:

Tapes longer than two hours are designed for home use and for security monitoring purposes. Opinions differ on the quality of long play tapes. Such tape recordings cannot be used on standard school video equipment on standard speed, which has a 2 hr. maximum play length.

QUESTION:

What about copyright and off-air recording?

ANSWER:

Generally, all professionally videotaped and broadcast materials are copyrighted, except for news broadcasts. Television stations or networks must be contacted for long term permission to copy news broadcasts as well. Call your ESD contact person for copyright information about specific video materials you have received from them. For copyright information about specific broadcasts call your nearest television station contact person.

QUESTION:

How can parents help children to develop good television viewing habits?

ANSWER: (Answer courtesy of Puget Sound Action for Children's Television.)

Following is a list of actions that parents could take:

1. Acquaint yourselves with the programs that are offered in your area and then play an active part in your child's television viewing.
2. Limit the number of hours for viewing television.
3. Provide simple, creative toys or activities for your child to become involved in.
4. Try not to leave a young child alone in a room with a TV set. If the child is worried or frightened by something he sees, he has nobody to turn to.
5. Encourage older children to be much more aware of what is happening on the screen. You can help to develop their critical abilities by discussing programs.
6. If you object strongly to a program showing killing or shooting, explain to your child why you feel this way and why you don't want him to watch it.
7. Always be aware of your importance in expressing opinions about TV to children. Researchers have found that children are much influenced in responding to programs by the reactions of others viewing with them.
8. Write. If you see something that you like very much or that bothers you for some reason send a letter. To your local station. To the sponsor. To the network. To the Federal Communications Commission. To the Federal Trade Commission. To the Food and Drug Administration. To your Congressman. To the Press.

QUESTION:

How do we take care of video cassettes?

ANSWER:

CARE & FEEDING OF VIDEO CASSETTES

EDUCATIONAL SERVICE DISTRICT 121 - SEATTLE OFFICE

When your video image starts looking like Snoqualmie Pass in ski season, in all probability no amount of dial turning will improve the picture. The snowstorm is probably caused by video cassette distortion. That is a gentle way of saying the educational program and maybe the tape is ruined!

If the tape is not physically damaged, (see items 1, 2, & 3 below) a new program can be recorded IF the source is still available. If the tape is damaged (see items 4 & 11 below) its only value is to use it as an example what NOT to do in caring for video cassettes.

1. Keep tapes away from anything magnetic such as large electric motors or bulk tape eraser. Use plastic or cardboard, not metallic, containers for storage because plastic shields against outside magnetic influence.
2. Keep the cassette player's playback head demagnetized to avoid inducing a magnetic signal on the tape. Simple and inexpensive demagnetizers are available and the procedure is very easy. (See your media technician or service person.)
3. Tapes are best stored at average room temperature. Cold does not harm a tape, although we recommend allowing a tape which has been sitting in a cold car, for example, to come to room temperature before playing.
4. Keep tapes covered when not in use. Dust and dirt will scratch the tape surface or the cassette player's playback head, causing permanent damage. We recommend storing in plastic storage boxes.
5. Avoid smoke filled rooms. Video tape tends to attract smoke particles in a cumulative way and this appears as snow on your T.V. screen.
6. Avoid sudden stops and starts. These make the tape stretch, and that creates distortion.
7. High humidity can cause fungus to grow on the tape surface. This is one of the greatest threats to tape. Store cassettes in a dry place.
8. Tapes should be stored in an upright position to maintain orientation in the cassette box.

9. Don't keep tape in the still-frame mode longer than instructions specify. Video tape can be worn out quickly when held in a single position for a greater length of time.
10. Keep tapes out of direct sunlight. Sunlight breaks down the magnetic properties of the tape coating.
11. Run the tape at least every 6 months. This helps avoid cracking of the oxide coating.

NOTE: We want to thank the J.V.C. Service Department and Photo & Sound Company for much of the above information.

QUESTION:

How durable is videotape compared to film?

ANSWER:

16mm film can be expected to survive 200 showings provided projectors are clean and operators are careful. Video cassettes will last 800 plus showings and the message on the video tape can be changed at least three times without loss of quality.

QUESTION:

How about video cassette quality control?

ANSWER:

The most difficult technical problem to date is maintaining consistent high quality video cassettes. There are service agencies in the State of Washington and throughout the nation that can supply video cassette copies of educational films that are equal in quality to broadcast programs or 16mm film image. The problem is consistency.

16mm film quality is occasionally substandard. Video duplication studios do not always monitor the quality of the copy they are making. There are a number of other nagging problems. These will soon be resolved and you can expect high quality video cassettes in the near future.

Women; produced by WNED-TV (Buffalo) and transmitted nationally
by PBS, premiered October 1, 1974. It is a weekly, 30-
minute program devoted to exploring the changing self-
image and new options of the contemporary woman.

RESOURCE BOOK LIST

Puget Sound Action for Children's Television

The Early Window: The Effects of Television on Children and Youth.

Robert Liebert, Pergamom Press, Elmsford, N.Y., 1976, \$7.15 paper. 301.16 in the King County Library System. If you can only read one book on television and children--make it this one! A scholarly yet highly readable study of television's influence on society through children. The book considers television as a window on the world "through which the child perceives his society and then learns from repeated examples to cope with the vicissitudes of living."

Action for Children's Television. Edited transcript of the First National Symposium on Children and Television, Avon Books, 1971. Good background material.

Rich News, Poor News: The sixth Alfred I. du Pont - Columbia University Survey of Broadcast Journalism edited by Marvin Barrett, crowell, 1978. \$5.45 paper.

TV Action Book. Jeffrey Schrank, McDougal, Littell and Co., Box 167, Evanston, Illinois 60204, 1974. \$3.96 text ed., \$1.50, Tchrs. Manual. This is a very useful student text. The book is a reminder that the airwaves are owned by citizens who have an obligation to demand they be used to their benefit.
