ABSTRACT

Second book in the "Chaa'" series, the word workbook allows the student to distinguish and identify similar consonants and vowel sounds in the Navajo language in supplementary oral and writing activities. Black line illustrations are accompanied with new words and symbols to give the student an idea of the association of symbol and sound. Space is provided for students to write the symbols and words in Navajo and in some instances a complete sentence in Navajo. This workbook should be used in conjunction with the "Chaa'" teacher's guide and reader-workbook. (ERB)
