PERFORMANCE, STANDARDS

Sec. 106. (a) The Congress recognizes that job training is an investment in human capital and not an expense. In order to determine whether that investment has been productive, the Congress finds that-

(1) it is essential that criteria for measuring the return on this

investment be developed; and

(2) the basic return on the investment is to be measured by the . increased employment and earnings of participants and the reduc-

tions in welfare dependency.

(b) (1) The basic measure of performance for adult training programs under title II is the increase in employment and earnings and the reductions in welfare dependency resulting from participation in the program. In order to determine whether these basic measures are achieved, the Secretary shall prescribe standards on the basis of appropriate factors which may include (A) placement in unsubsidized employment, (B) retention in unsubsidized employment, (C) the increase in earnings, including hourly wages, and (D) reduction . in the number of individuals and families receiving cash welfare payments and the amounts of such payments.

(2) In prescribing standards under this section the Secretary shall also designate factors for evaluating the performance of youth progrems which, in addition to appropriate utilization of the factors described in paragraph (1), shall be (A) attainment of recognized employment competencies recognized by the private industry council, (B) elementary, secondary, and postsecondary school completion, or the equivalent thereof, and (C) enrollment in other training programs

or apprenticeships, or enlistment in the Armed Forces.

(3) The standards shall include provisions governing-

(A) the base period prior to program participation that will be used;

(B) a representative period after termination from the program that is a reasonable indicator of postprogram earnings and cash

welfare payment reductions; and

(C) cost-effective methods for obtaining such data as is necessary to carry out this section, which, notwithstanding any other provision of law, may include access to earnings records, State employment security records, Federal Insurance Contributions Act records, State aid to families with dependent children records, statistical sampling techniques, and similar records or measures.

(4) The Secretary shall prescribe performance standards relating

gross program expenditures to various performance measures.

(c) Within six months after the date of the enactment of this Act, the Secretary shall establish initial performance standards which are designed to contribute to the achievement of the performance goals

set forth in subsection (b)(1), based upon data accumulated under the Comprehensive Employment and Training Act, from the National Commission for Employment Policy, and from other appropriate sources. In the development of the initial standards under this subsection, the Secretary shall relate gross program expenditures to the accomplishment of program goals set forth in subsection (b)(1).

(d) (1) The Secretary shall, not later than January 31, 1984, prescribe performance standards for the first program year under this Act to measure the results of the participation in the program to achieve the goals set forth in subsection (b) (1) based upon the initial

standards established in subsection (c).

(2) The Secretary, not later than six months after the completion of the first two program years, shall prepare and submit a report to the Congress containing the performance standards established under paragraph (1) of this subsection, together with an analysis of the manner in which the performance standards contribute to the achievement of the goals set forth in subsection (b) (1), including the relative importance of each standard to the accomplishment of such goals.

(3) The Secretary shall prescribe variations in performance standards for special populations to be served, including Native Americans, migrant and sensonal farmworkers, and offenders, taking into account

provided.,

(f) The National Commission for Employment Policy shall (1) advise the Secretary in the development of performance standards under this section for measuring results of participation in job training and in the development of parameters for variations of such standards referred to in subsection (e), (2) evaluate the usefulness of such standards as measures of desired performance, and (3) evaluate the impacts of such standards (intended or otherwise) on the choice of who is served, what services are provided, and the cost of such services in service delivery areas.

(g). The Secretary shall prescribe performance standards for programs under title III based on placement and retention in unsubsi-

dized employment.

(h)(1) The Governor shall provide technical assistance to programs which do not meet performance criteria. If the failure to meet performance standards persists for a second year, the Governor shall impose a reorganization plan. Such plan may restructure the private industry council, prohibit the use of designated service providers or make such other changes as the Governor deems necessary to improve performance. The Governor may also select an alternate entity to administer the program for the service delivery area,

In complying with this subsection, proper consideration shall be given to community-based organizations as service providers.

(b) Funds provided under this Act shall not be used to duplicate facilities or services available in the area (with or without reimbursement) from Federal, State, or local sources, unless it is demonstrated that alternative services or facilities would be more effective or more likely to achieve the service delivery area's performance

goals.

(c)(1) The Secretary shall provide services to meet the employment and training needs of migrant and seasonal farmworkers through such public agencies and private nonprofit organizations as the Secretary determines to have an understanding of the problems of migrant and seasonal farmworkers, a familiarity with the area to be served, and a previously demonstrated capability to administer effectively a diversified employability development program for migrant and sea-

sonal farmworkers. In awarding any grant or contract for services under this section, the Secretary shall use procedures consistent with standard competitive Government procurement policies.

(2) The Secretary may approve the designation of grantees under

this section for a period of two years.

Center programs shall include required participation in center maintenance work to assist enrollees in increasing their sense of contribution, responsibility, and discipline.

.(b) The Secretary may arrange for enrollee education and vocational training through local public or private educational agencies, vocational educational institutions, or technical institutes, whenever such institutions provide training substantially equivalent in cost and quality to that which the Secretary could provide through other

means.

PART G-TRAINING TO FULFILL AFFIRMATIVE ACTION OBLIGATIONS

AFFIRMATIVE ACTION-

Sec. 481. (a) A contractor subject to the affirmative action obligations of Executive Order 11246, as amended, issued September 24, 1965, may establish or participate in training programs pursuant to this section for individuals meeting the eligibility criteria established in sections 203(a) (1, 01, and 402, which are designed to assist such contractors in meeting the affirmative action obligations of such Executive order. To qualify under this section, such a training program shall contain—

(1) a description of the jobs in the contractor's work force or in the service delivery area, for which the contractor has deter-

mined there is a need for training;

(2) a description of the recruiting, training, or other functions that the contractor, or the organization that will be engaged to perform the training, will perform and the steps that will be taken to insure that eligible individuals will—

(A) be selected for participation in training,

(B) be trained in necessary skills, and (C) be referred for job openings.

in accordance with the objectives of such Executive order;

(3) whenever an organization other than the contractor will perform the training, a description of the demonstrated effectiveness of the organization as a provider of employment and training services;

(4) a description of how the contractor will monitor the program to keep an accurate accounting of all trainees, including (A) whether the trainees successfully complete the training program, and (B) whether the trainees are or are not placed; and

(5) an estimation of the cost of the program and an assurance that the contractor will assume all costs of the program or the

pro rata share of costs to the contractor of the program.

(b) (1) (A) If the training proposal is designed to meet the needs of the community rather than, or in addition to, the employment needs of the contractor, and has not been approved by another Federal agency, the program shall be submitted to the private industry council established under section 102 for a determination that there is a need for such training in the community.

(B) Individuals trained under any program satisfying the requirements of this section may be included by the private industry council in its performance accomplishments and the wage gains of such individuals shall be included in determining the compliance of the job training program of the private industry council with applicable

standards.

(2) The Director of the Office of Federal Contract Compliance Programs, Department of Labor, shall promulgate regulations setting forth how the Office will determine, during a compliance review, the degree to which a training program will satisfy the contractor's affirmative action obligations. The training and placement of trainees with employers other than the contractor may be considered in evaluating such contractor's overall good faith efforts, but in no event may placement of trainees with employers other than the contractor be

permitted to affect that contractor's affirmative action obligations respecting its work force. The content of the training program will not be subject to review or regulation by the Office of Federal Contract Compliance Programs. If during a compliance review the Director of the Office of Federal Contract Compliance Programs determines that a training program does not comply with its regulations, the Director shall—

Successful performance or operation of a training program meeting the criteria set forth in subsection (a) shall create a presumption that the contractor has made a good faith effort to meet its affirmative action obligations to the degree specified by the Director under paragraph (2) of this subsection, but that presumption shall not be applicable to the satisfaction of other affirmative action obligations not directly related to the training and hiring requirements of this section, or other affirmative action obligations not affected by this section. For the purpose of the preceding sentence, "successful performance or operation" means training and placing in jobs a number of individuals which bears a reasonable relationship to the number of job openings in the contractor's facilities or in the relevant labor market area.

(c) Nothing in this section may be interpreted-

(1) to compel contractor involvement in such programs,

(2) to establish the exclusive criteria by which a contractor can be found to have fulfilled its affirmative action obligations,

(3) to provide authority for imposing any additional obligations on contractors not participating in such training activities,

- (4) to permit the Office of Federal Contract Compliance Programs to intervene or interfere with the authority and responsibilities of the private industry councils.
- (5) to restrict or limit the authority of the Secretary to investigate the employment practices of any Government contractor, to initiate such investigation by the Director, to determine whether any nondiscrimination contractual provisions have been violated, or to enforce Executive Order 11246, or
- (6) to prohibit the Secretary or the Director, or other authorized officers of the United States, from requesting or compelling any contractor preparing and maintaining a short form affirmative action plan under subsection (b) to provide information necessary to conduct a compliance review or to provide data necessary to determine whether any violation of Executive Order 11246 has occurred.

of disbursement, accounting, and auditing.

(g) (1) Each eligible recipient receiving assistance under this Act to operate vocational education programs shall establish a local advisory council to provide such agency with advice on current jobs needs and on the relevancy of courses being offered by such agency in meeting such needs. Such local advisory councils shall be composed of members of the general public, especially of representatives of business, industry, and labor; and such local advisory councils may be established for program areas, schools, communities, or regions, whichever the recipient determines best to meet the needs of that recipient.

GENERAL APPLICATION

Sec. 106. (a) Any State desiring to receive the amount for which it is eligible for any fiscal year pursuant to this Act shall, through its State board, submit to, and maintain on file with, the Commissioner a general application providing assurances—

(1) that the State will provide for such methods of administration as are necessary for the proper and efficient administration

of the Act;

(2) that the State board will cooperate with the State advisory council on vocational education in carrying out its duties pursuant to section 105 and with the agencies, councils, and individuals specified in sections 107 and 108 to be involved in the formulation of the five-year State plan and of the annual program plans and accountability reports;

. (3) that the State will comply with any requests of the Commissioner for making such reports as the Commissioner may reasonably require to carry out his functions under this Act;

(4) that funds will be distributed to eligible recipients on the

basis of annual applications which--

(A) have been developed in consultation (i) with representatives of the educational and training resources available

98

in the area to be served by the applicant and (ii) with the local advisory council required to be established by this Act

to assist such recipients,

(B) (i) describe the vocational education needs of potential students in the area or community served by the applicant and indicate how, and to what extent, the program proposed in the application will meet such needs, and (ii) describe how the findings of any evaluations of programs operated by such applicant during previous years, including those required by this Act, have been used to develop the program proposed in the application,

(C) describe how the activities proposed in the application relate to manpower programs conducted in the area by a prime sponsor established under the Comprehensive Employment and Training Act, of 1973, if any, to assure a coordinated approach to meeting the vocational education and

training needs of the area or community, and

(D) describe the relationship between vocational education programs proposed to be conducted with funds under this Act and other programs in the area or community which are supported by State and local funds;

and that any eligible recipient dissatisfied with final action with respect to any application for funds under this Act, shall be given

reasonable notice and opportunity for a hearing.

(5)(A) that the State shall, in considering the approval of such applications, give priority to those applicants which—

(i) are located in economically depressed areas and areas with high rates of unemployment, and are unable to provide the resources necessary to meet the vocational education needs of those areas without Federal assistance, and

(ii) propose programs which are new to the area to be served and which are designed to meet new and emerging manpower needs and job opportunities in the area and, where

relevant, in the States and the Nation; and

(B) that the State shall, in determining the amount of funds available under this Act which shall be made available to those applicants approved for funding, base such distribution on economic, social and demographic factors relating to the need for vocational education among the various populations

and the various areas of the State, except that-

(i) the State will use as the two most important factors in determining this distribution (I) in the case of local educational agencies. The relative financial ability of such agencies to provide the resources necessary to meet the need for vocational education in the areas they service and the relative number or concentration of low-income families or individuals within such agencies, and (II) in the case of other eligible recipients, the relative financial ability of such recipients to provide the resources necessary to initiate or maintain vocational education programs to meet the needs of their students and the relative number or concentration of students whom they serve whose education imposes higher

than average costs, such as handicapped students, students from low-income families, and students from families in

which English is not the dominant language; and

(ii) the State will not allocate such funds among eligible recipients within the State on the basis of per capita enrollment or through matching of local expenditures on a uniform percentage basis, or deny funds to any recipient which is making a reasonable tax effort solely because such recipient is unable to pay the non-Federal share of the cost of new programs;

(6) that Federal funds made available under this Act will be so used as to supplement, and to the extent practicable, increase the amount of State and local funds that would in the absence of such Federal funds be made available for the uses specified in the Act, and in no case supplant such State or local

· funds;

(7) that the State will make provision for such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement of, and accounting for, Federal funds paid to the State (including such funds paid by the State to eligible

recipients under this Act);

(8) that funds received under this Act will not be used for any program of vocational education (except personnel training programs under section 135, renovation programs under subpart 4 of part B, and homemaking programs under subpart 5 of this part) which cannot be demonstrated to prepare students for employment, be necessary to prepare individuals for successful completion of such a program, or be of significant as-assistance to individuals enrolled in making an informed and meaningful occupational choice as an integral part of a program of orientation and preparation;

(9) that the State has instituted policies and procedures to insure that copies of the State plan and annual program plan and accountability report and all statements of general policies, rules, regulations, and procedures issued by the State board and by any State agencies to which any responsibility is delegated by the State board concerning the administration of such plan and report will be made reasonably available to the

public; and

(10) that the funds used for purposes of section 110(a) are consistent with the State plan submitted pursuant to section

613(a) of the Education of the Handicapped Act.

(b) Such general application shall be considered to be the general application required to be submitted by the State for funds received under the Vocational Education Act of 1963 under the provisions of subsection (b) of section 434 of the General Education Provisions Act.

(2) The State board shall, during the years in which it formulates any five-year plan required under this section, conduct a series of public hearings, after giving sufficient public notice, throughout all regions of the State in order to permit all segments of the population to give their views on the goals which ought to be adopted in the State plan, including the courses to be offered, the allocations of responsibility for these courses among the various levels of education and among the various institutions of the States, and the allocations of local, State, and Federal resources to meet those goals. These views shall be included in the final State plan with a description of how such views are reflected in the plan; and if particular views are not reflected, then the plan shall set out the reasons for rejecting them.

(b) The five-year State plans shall be submitted to the Commissioner by the July 1st preceding the beginning of the first fiscal

(B) (i) set out explicitly the uses which the State intends to make of the funds available to it under this Act, as those uses are set out in sections 120, 130, 140, and 150, and set out the reasons for choosing such uses; and (ii) set out explicitly the uses which the State intends to make of these funds to meet the special needs of handicapped and disadvantaged persons and

Subpart 3-Bilingual Vocational Training

STATEMENT OF FINDINGS

SEC. 181. The Congress hereby finds that one of the most acute problems in the United States is that which involves millions of citizens, both children and adults, whose efforts to profit from vocational education are severely restricted by their limited Englishspeaking ability because they came from environments where the dominant language is other than English; that such persons are therefore unable to help to fill the critical need for more and better educated personnel in vital occupational categories; and such persons are unable to make their maximum contribution to the Nation's economy and must, in fact, suffer the hardships of unemployment or underemployment. The Congress further finds that there is a critical shortage of instructors possessing both the job knowledge and skills and the dual language capabilities required for adequate vocational instruction of such language-handicapped persons and to prepare such persons to perform adequately in a work environment requiring English language skills, and a corresponding shortage of instructional materials and of instructional methods and techniques suitable for such instruction.

Congress.

be) payable to such individual.

(2) In any case in which such advance payments for a taxable year made by all employers to an individual under section 3507 of such Code exceed the amount of such individual's earned income credit allowable under section 43 of such Code for such year, so that such individual is liable under section 43(g) of such Code for a tax equal to such excess, such individual's benefit amount must be appropriately adjusted so as to provide payment to such individual of an amount equal to the amount of the benefits lost by such individual on account of such excess advance payments.

(e) (1) The Secretary shall not approve the initial and annually updated advance automatic data processing planning document, referred to in subsection (a) (30), unless he finds that such document, when implemented, will generally carry out the objectives of the statewide management system referred to in such subsection, and such document—

indirect, to be in effect under such statewide management system, (F) contains an implementation plan with charts of development events, testing descriptions, proposed acceptance criteria, and backup and fallback procedures to handle possible failure of contingencies, and

(G) contains a summary of proposed improvement of such statewide management system in terms of qualitative and quanti-

tative benefits.

(2)(A) The Secretary shall, on a continuing basis, review, assess, and inspect the planning, design, and operation of, statewide management information systems referred to in section 403(a)(3)(B), with a view to determining whether, and to what extent, such systems meet and continue to meet requirements imposed under such section and the conditions specified under subsection (a)(30) of this section.

(B) If the Secretary finds with respect to any statewide management information system referred to in section 403(a)(3)(B) that there is a failure substantially to comply with criteria, requirements,

and other undertakings, prescribed by the advance antomatic data processing planning document theretofore approved by the Secretary with respect to such system, then the Secretary shall suspend his approval of such document until there is no longer any such failure of such system to comply with such criteria, requirements, and other undertakings so prescribed.

Community Work Experience Programs

Sec. 409. (a) (1) Any State which chooses to do so may establish a community work experience program in accordance with this section. The purpose of the community work experience program is to provide experience and training for individuals not otherwise able to obtain employment, in order to assist them to move into regular employment. Community work experience programs shall be designed to improve the employability of participants through actual work experience and training and to enable individuals employed under community work experience programs to move promptly into regular public or private employment. The facilities of the State public employment offices may be utilized to find employment opportunities for recipients under this program. Community work experience programs shall be limited to projects which serve as a useful public purpose in fields such as health, social service, environmental protection, education, urban and rural development and redevelopment, welfare, recreation, public facilities, public safety, and day care. To the extent possible, the prior training, experience, and skills of a recipient shall be utilized in making appropriate work experience assignments. A community work experience program established under this section shall provide-

(A) appropriate standards for health, safety, and other con-

ditions applicable to the performance of work;

(B) that the program does not result in displacement of persons currently employed, or the filling of established unfilled position vacancies;

(C) reasonable conditions of work, taking into account the geographic region, the residence of the participants, and the pro-

ficiency of the participants;

(D) that the participants will not be required, without their consent, to travel an unreasonable distance from their homes or

remain away from their homes overnight;

(E) that the maximum number of hours in any month that a participant may be required to work is that number which equals the amount of aid payable with respect to the family of which such individual is a member under the State plan approved under this part, divided by the greater of the Federal or the applicable State minimum wage; and

(F) that provision will be made for transportation and other costs, not in excess of an amount established by the Secretary, reasonably necessary and directly related to participation in the

program.

(3) Nothing in this part C, or in any State plan approved under this part, shall be construed to prevent a State from operating (on such terms and conditions and in such cases the State may find to be necessary or appropriate, whether or not such terms, conditions, and case, are consistent with section 402(a)(19) or part (C)) a community

work experience program in accordance with this section.

(b) (1) Each recipient of aid under the plan who is registered under section 402(a) (19) shall participate, upon referral by the State agency, in a community work experience program unless such recipient is currently employed for no fewer than 80 hours a month and is earning an amount not less than the applicable minimum wage for such employment.

(2) In addition to an individual described in paragraph (1), the State agency may also refer, for participation in programs under this section, an individual who would be required to register under section 402(a)(19)(A) but for the exception contained in clause (v) of such section (but only if the child for whom the parent or relative is caring is not under the age of three and child care is available for such child),

or in clause (iii) of such section.

(3) The chief executive officer of the State shall provide coordination between a community work experience program operated pursuant to this section, any program of employment search under section 402 (a) (35), and the work incentive program operated pursuant to part C so as to insure that job placement will have priority over participation in the community work experience program, and that individuals eligible to participate in more than one such program are not denied and under the State plan on the grounds of failure to participate in one such program if they are actively and satisfactorily participating in another. The chief executive officer of the State may provide that partitime participation in more than one such program may be required where appropriate.

(c) The provisions of section 402(a) (19) (F) shall apply to any individual referred to a community work experience program who fails to participate in such program in the same manner as they apply to

an individual to whom section 402(a) (19) applies.

(d) In the case of any State which makes expenditures in the form described in subsection (a) under its State plan approved under section 402, expenditures for the proper and efficient administration of the State plan, for purposes of section 403(a) (3), may not include the cost of making or acquiring materials or equipment in connection with the work performed under a program referred to in subsection (a) or the cost of supervision of work under such program, and may include only such costs attributable to such programs as are permitted by the Secretary.

Work Supplementation Program

Sec. 414. (a) It is the purpose of this section to allow a State to institute a work supplementation program under which such State, to the extent such State determines to be appropriate, may make jobs available, on a voluntary basis, as an alternative to aid otherwise provided under the State plan approved under this part.

(b) (1) Notwithstanding the provisions of section 406 or any other provision of law, Federal funds may be paid to a State under this part, subject to the provisions of this section, with respect to expenditures incurred in operating a work supplementation program under

this section.

(2) Nothing in this part or part C, or in any State plan approved under this part, shall be construed to prevent a State from operating con such terms and conditions and in such cases as the State may find to be necessary or appropriate, whether or not such terms, conditions, and cases are consistent with section 402(a) (19) or part C) a work supplementation program in accordance with this section.

(3) Notwithstanding section 402(a) (23) or any other provision of law, a State may adjust the levels of the standards of need under the State plan as the State determines to be necessary and appropriate for carrying out a work supplementation program under this section.

(4) Notwithstanding section 402(a) (1) or any other provision of law, a State operating a work supplementation program under this section may provide that the needs standards in effect in those areas of the State in which such program is in operation may be different from the needs standards in effect in the areas in which such program is not in operation, and such State may provide that the needs standards for categories of recipients of aid may vary among such categories as the State determines to be appropriate on the basis of ability to participate in the work supplementation program.

(5) Notwithstanding any other provision of law, a State may make further adjustments in the amounts of aid paid under the plan to different categories of recipients (as determined under paragraph (4)) in order to offset increases in benefits from needs related programs (other than the State plan approved under this part) as the State determines to be necessary and appropriate to further the pur-

poses of the work supplementation program.

(6) Notwithstanding section 402(a) (8) or any other provision of law, a State operating a work supplementation program under this section may reduce or eliminate the amount of carned income to be d'argarded under the State plan as the State determines to be necessary and appropriate to further the purposes of the work supple-

mentation program.

(c) (1) A work supplementation program operated by a State under this section shall provide that any individual who is an eligible individual (as determined under paragraph (2)) may choose to take a supplemented job (as defined in paragraph (3)) to the extent supplemented jobs are available under the program. Payments by the State to individuals or to employers under the program shall be expendi-

tures incurred by the State for aid to families with dependent children,

except as limited by subsection (d).

(2) For purposes of this section, an eligible individual is an individual who is in a category which the State determines shall be eligible to participate in the work supplementation program, and who would, at the time of his placement in such job, be eligible for assistance under the State plan if such State did not have a work supplementation program in effect and had not altered its State plan accordingly, as such State plan was in effect in 'lay 1981, or as modified thereafter as required by Federal law.

(3) For purposes of this section, a supplemented job is-

(A) a job position provided to an eligible individual by the State or local agency administering the State plan under this part:

(B) a job position provided to an eligible individual by a public or nonprofit entity for which all or part of the wages are paid by

such State or local agency; or

(C) a job position provided to an eligible individual by a proprietary entity involving the provision of child day care services for which all or part of the wages are paid by such State or local agency, but only if such entity does not claim a credit for any part of the wages paid to such eligible individual under section 40 of the Internal Revenue Code of 1954 (relating to credit for expenses of the work incentive program) or section 44B of such Code (relating to credit for employment of certain new employees).

A State may provide or subsidize any job position under the program as such State determines to be appropriate, but acceptance of any

such position shall be voluntary.

(d) The amount of the Federal payment to a State under section 403 for any quarter for expenditures incurred in operating a work supplementation program shall not exceed an amount equal to the difference between—

(1) the amount which would have been paid under section 403 to such State for such quarter under the State plan if it did not have a work supplementation program in effect and had not altered its State plan accordingly, as such State plan was in effect in May 1981, or as modified thereafter as required by Federal law: and

(2) the amount paid to such State under section 403 for such quarter exclusive of the amount so paid for such quarter for the

work supplementation program.

(e) (1) Nothing in this section shall be construed as requiring a State or local agency administering the State plan to provide employee status to any eligible individual to whom it provides a job position under the work supplementation program, or with respect to whom it provides all or part of the wages paid to such individual by another entity under such program.

(2) Nothing in this section shall be construed as requiring such State or local agency to provide that eligible individuals filling job positions provided by other entities under such program be provided employee status by such entity during the first 13 weeks during which

they fill such position.

(3) Wages paid under a work supplementation program shall be considered to be earned income for purposes of any provision of law. (f) Any work supplementation program operated by a State shall

be administered by-

(1) the agency designated to administer or supervise the administration of the State plan under section 402(a)(3); or

(2) the agency (if any) designated to administer the community work experience program under section 409.

(g) Any State which chooses to operate a work supplementation program under this section may choose to provide that any individual who participates in such program, and any child or relative of such individual (or other individual living in the same household as such individual) who would be eligible for aid under the State plan approved under this part if such State did not have a work supplementation program, shall be considered individuals receiving aid under the State plan approved under this part for purposes of eligibility for medical assistance under the State plan approved under title XIX.

(h) No individual receiving a grant under the State plan shall be excused, by reason of the fact that such State has a work supplementation program, from any requirement of this part or part C relating to

work requirements.

Part C-Work Incentive Program for Recipients of Aid Under State Plan Approved Under Part A

Purpose

Sec. 130. The purpose of this part is to require the establishment of a program utilizing all available manpower services, including those authorized under other provisions of law, under which individuals receiving aid to families with dependent children will be furnished incentives, opportunities, and necessary services in order for (1) the employment of such individuals in the regular economy, (2) the training of such individuals for work in the regular economy, and (3) the participation of such individuals in public service employment, thus restoring the families of such individuals to independence and useful roles in their communities. It is expected that the individuals participating in the program established under this part will acquire a sense of dignity, self-worth, and confidence which will flow from being re-ognized as a wage-earning member of society and that the example of a working adult in these families will have beneficial effects on the children in such families.

Appropriation

Sec. 431. (a) There is hereby authorized to be appropriated to the Secretary of Health, Education, and Welfare for each fiscal year a sum sufficient to carry out the purposes of this part. The Secretary of Health. Education, and Welfare shall transfer to the Secretary of Labor from time to time sufficient amounts, out of the moneys appropriated pursuant to this section, to enable him to carry out such purposes.

(b) Of the amounts expended from funds appropriated pursuant to subsection (a) for any fiscal year (commencing with the fiscal year ending June 30, 1973), not less than 33½ per centum thereof shall be expended for carrying out the program of on-the-job training referred to in section 432(b) (1) (B) and for carrying out the program of public section 432(b) (3).

(c) Of the sums appropriated pursuant to subsection (a) to carry out the provisions of this part of any fiscal year (commencing with the fiscal year ending June 30, 1973), not less than 50 percent shall be allotted among the States in accordance with a formula under which each State receives (from the total available for such allotment) an

amount which bears the same ratio to such total as—

(1) in the case of fiscal year ending June 30, 1973, and the fiscal year ending June 30, 1974, the average number of recipients of aid to families with dependent children in such State during the month of January last preceding the commencement of such fiscal year bears to the average number of such recipients during such month in all the States; and

(2) in the case of the fiscal year ending June 30, 1975, or in the case of any fiscal year thereafter, the average number of individuals in such State who, during the month of January last preceding the commencement of such fiscal year, are registered pursuant to section 402(a) (19) (A) bears to the average number of individuals in all States who, during such month, are so registered.

Establishment of Programs

Sec. 432. (a) The Secretary of Labor (hereinafter in this part referred to as the Secretary) shall, in accordance with the provisions of this part, establish work incentive programs (as provided for in subsection (b) of this section) in each State and in each political subdivision of a State in which he determines there is a significant number of individuals who have attained age 16 and are receiving aid to families with dependent children. In other political subdivisions, he shall use his best efforts to provide such programs either within such subdivisions or through the provision of transportation for such persons to political subdivisions of the State in which such programs are established.

(b) Such programs shall include, but shall not be limited to, (1) (A) a program placing as many individuals as is possible in employment, which may include intensive job search services, including participation in group job search activities, and (B) a program utilizing on-the-job training positions for others, (2) a program of institutional and work experience training for those individuals for whom such training is likely to lead to regular employment, and (3) a program of public service employment for individuals for whom a job in the

regular economy cannot be found.

(c) In carrying out the purposes of this part the Secretary may make grants to, or enter into agreements with, public or private agencies or organizations (including Indian tribes with respect to Indians on a reservation), except that no such grant or agreement shall be made to or with a private employer for profit or with a private non-

17/

profit employer not organized for a public purpose for purposes of the work experience program established by clause (2) of subsection (b).

(d) In providing the training and employment services and opportunities required by this part, the Secretary of Labor shall, to the maximum extent feasible, assure that such services and opportunities are provided by using all authority available under this or any other Act.
