IDENTIFIERS *Hawaii

ABSTRACT

Fall 1982 data on student achievement are presented for each of the community colleges of the University of Hawaii. Current grade point ratios (GPR's) and grade distributions are provided for all students registered in credit courses, students in continuing education courses, and students registered for the first time in the second 8-week session. The data reveal: (1) the credits earned ratio was 71%, with higher ratios for vocational courses (75%) than for general education courses (68%); (2) credits earned ratios ranged from 65% in natural science courses to 84% in health services courses, and from 66% to 74% by campus; (3) of the total grades assigned, 24% were A's, 23% were B's, 9% were W's, 11% were N's, and 6% were F's; (4) the average grade assigned ranged from 2.4 to 3.2 by campus, with 2.7 being the system average; (5) the current mean GPR of community college students was 2.74, a slight increase from fall 1981 when the average was 2.72; (6) the current average GPR earned by vocational education majors (2.74) was higher than that of liberal arts majors (2.68); and (7) data by educational objective showed that unclassified students earned the highest GPR's (3.03), followed by those seeking Certificates of Completion (2.79), and Associate in Science degrees (2.74). The bulk of the report consists of data tables providing information on grade distributions from fall 1978 to fall 1982 for the system as a whole and fall 1982 data for each college. (LL)

UNIVERSITY OF HAWAII
MARCH 1983

DISTRIBUTION OF GRADES AND CURRENT GRADE POINT RATIOS EARNED -
UNIVERSITY OF HAWAII, COMMUNITY COLLEGES
FALL 1982

This report briefly summarizes Fall 1982 data on student achievement as perceived from two dimensions: by the current grade point ratios earned by students (by program); and by the distribution of grades in the courses offered by the colleges. Computer reports 2528 and 2529 are the source documents for this report. They are generated at the end of each semester after grades have been submitted. These reports are on file in the registrar's office at each campus.

The data include the grades given to and earned by all students registered for credit classes; i.e., regular students, special students (early admits and concurrent registrants), students in credit courses offered by continuing education, as well as students who registered for the first time in the second eight-week session.

Tables 1 and 2: Distribution of Grades and Average Grades Assigned

Credits earned ratio

- The credits earned ratio was 71 percent.
- Credits earned ratios were higher for vocational courses (75 percent) than for general education courses (68 percent).
- Credits earned ratios ranged from 65 percent (natural sciences courses) to 84 percent (health services courses).
- Credits earned ratios by campus ranged from 66 to 74 percent.

Distribution of grades

- Almost half (47 percent) of the grades were "A's" and "B's" (24 and 23 percents, respectively).
- "W" and "N" grades represented 9 and 11 percents, respectively, of the grades this fall.
- Four of the six campuses gave "F" grades. Six percent of the grades given this fall were "F's". The proportion ranged from 4 to 14 percent, by campus.
- Average grade assigned ranged from 2.4 to 3.2, by campus.
- The average grade given was 2.7.

Table 3: Current GPR's by Major and Educational Objective

- The current mean GPR of community college students is 2.74, a slight increase from the 2.72 of Fall 1981.

- The current average GPR earned by vocational education majors (2.74) was higher than that earned by liberal arts majors (2.68). The average GPR's of vocational education majors ranged from 2.62 for business majors to 3.01 for health services majors.
- Unclassified and special students earned the highest GPR's as in past semesters, perhaps because of the lighter credit loads they carry.
- The data by educational objective show that unclassified students earned the highest GPR's (3.03), followed by those seeking Certificates of Completion (2.79) and Associate in Science degrees (2.74).
