IDENTIFIERS *Austin Independent School District TX; Iowa Tests of
 Basic Skills; Sequential Tests of Educational
 Progress; Texas Assessment of Basic Skills

ABSTRACT

This report contains tables of District summary data for the achievement tests administered in the spring of the 1982-83 school year to all Austin Independent School District students in grades K-12. The Iowa Tests of Basic Skills (ITBS) were administered in grades K-8, the Sequential Tests of Educational Progress (STEP) were administered in grades 9-12, and the Texas Assessment of Basic Skills (TABS) was administered in grades 3, 5, and 9-12. Results are reported by ethnicity as well as the total group for ITBS median percentiles and grade equivalents, and STEP median percentiles based on 1970 norms and 1978 norms. District characteristics accompany these results to describe the general context in which these achievement scores were collected. The summary scores for students who were tested in each of the past two, three, and four years are also presented. Percentile rank scores are based upon a nationwide sample of students completing the ITBS or STEP prior to their publication. Students in grades 9-12 can be compared to two nationwide reference groups (1970 and 1978 norm groups). Criteria for student score inclusion or exclusion are explained. Two anomalies in data analysis and sounding are noted. (BS)

AUSTIN INDEPENDENT SCHOOL DISTRICT
 DISTRICT ACHIEVEMENT PROFILES
 1982-83

The following pages include District summary data for the achievement tests administered in the spring of the 1982-83 school year to all AISD students in grades K-12. The Iowa Test of Basic Skills (ITBS) is administered in grades K-8; the Sequential Tests of Educational Progress (STEP) is administered in grades 9-12; and the Texas Assessment of Basic Skills (TABS) is administered in grades 5, and 9-12. District characteristics accompany these results to describe the general context in which these achievement scores were collected.

The following summaries are presented separately for each grade:

| ITBS | STEP |
|---|---|
| <i>Scores for the Total Group and by Ethnicity</i> | |
| <ul style="list-style-type: none"> • Median Percentiles • Grade Equivalents | <ul style="list-style-type: none"> • Median Percentiles based on 1970 norms • Median Percentiles based on 1978 norms (all tests except Science) |
| <i>Scores for the Total Group Only</i> | |
| <ul style="list-style-type: none"> • Percent of students scoring in various percentile ranges • Percent of students scoring plus or minus 1.0 grade equivalent from grade level | <ul style="list-style-type: none"> • Percent of students scoring in various percentile ranges (1978 norms for all tests except Science) |

The summary scores are also presented for students who were tested in each of the past two, three, and four years. These scores reflect achievement of the same students over time.

Percentile rank scores are based upon a nationwide sample of students who completed the ITBS or STEP prior to their publications. The nationwide median percentile score for all tests at all grades is 50, the score that was surpassed by exactly half of the students at that grade in the national norm group. Median grade equivalent scores are reported on the ITBS in addition to percentile scores. Students achieving at grade level would receive an X.8 grade equivalent score in grades K-6 and an X.67 grade equivalent score in grades 7 and 8. Therefore, if a given grade has a median percentile score higher than 50 or a median grade equivalent score higher than X.8 (grades K-6) or X.67 (grades 7 and 8), this means that achievement is higher than the norm group.

Students in grades 9-12 can be compared to two nationwide reference groups, a 1970 norm group and a 1978 norm group. The national sample who took the test in 1970 used the form given in AISD. The 1978 sample took a 1978 revision of the STEP, and then the two test editions were equated. Median percentile scores for grades 9-12 are reported in terms of both sets of national norms (1970 and 1978) for all tests except Science, which does not have comparable test formats across the two forms.

Students' scores were excluded from these achievement summaries under the following conditions:

Special Education: Scores for special education students who received one or more hours (grades K-6) or more than three hours (grades 7-12) of special education services per day, or who took the test for experience only.

Limited English Proficient (LEP): Scores for students who were monolingual or dominant in a language other than English (LEP categories A and B).

To be included in the scores for one of the groups tested two, three, or four years, a student had to meet these criteria:

- Took all tests given each year.
- Not LEP category A or B in 1982-83.
- Grade level increased by one each year.
- Did not receive one or more hours (grades K-6) or more than three hours (grades 7-12) of special education services in 1982-83.
- Did not take the test for experience only in 1982-83.

Achievement areas measured in 1982-83 included:

| ITBS | | |
|---------------------|-----------------------|-------------------|
| <i>Kindergarten</i> | <i>Grades 1 and 2</i> | <i>Grades 3-8</i> |
| Listening | Reading | Reading |
| Language | Spelling | Language |
| Math | Word Analysis | Work-Study |
| | Math | Math |
| STEP | | |
| <i>Grades 9-12</i> | | |
| | Reading | |
| | Math | |
| | Social Studies | |
| | English Expression | |

Scores are provided for major skill areas as well as for subtests within those areas. The median Basic Battery Composite (grades 1 and 2) and Complete Battery Composite (grades 3-8) scores on the ITBS are also listed for each grade, for the total group and by ethnicity.

TABS

- Percentage Mastering Each Objective
- Percentage Mastering Exit-Level Test

The Texas Assessment of Basic Skills (TABS) is a State-mandated, criterion-referenced test in the areas of reading, math, and writing. The District profiles included in this section summarize the 1982-83 administration at grades 3, 5, and 9. Results are shown in terms of the percent of students mastering an objective, with three out of four items needed for mastery at the State level.

Students' scores were excluded from these achievement summaries under the following conditions:

Special Education: Scores for special education students who took the test even though exempted by their ARD Committee or who took the test for experience only.

Invalid: Scores for individual tests which the teacher marked DO NOT SCORE because of a circumstance which makes the score invalid, e.g., illness during a test.

NOTES

Comparisons to Reports from Previous Years

The median percentile and grade equivalent scores presented here are calculated independently based upon the most recent test data files. Each year some test records are updated by adding missing student information. Some medians calculated using these updated files may be slightly different from the scores in previous reports.

Anomalies

Over the past four years ORE staff members have noted several anomalies which may be present in achievement test data. Two are evident in this report.

1. A total group's median may decline while all subgroups' medians rise. (Example: Reading Total, grade 1, 1980-81 to 1981-82 scores)
2. A total group's percentile gain may be larger than the gain of each subgroup. (Example: Kindergarten, ITBS Language, fall 1982 to spring 1983)

For more information on these and other anomalies in achievement data, please refer to ORE Publication No. 81.60, Anomalies in Achievement Analyses.

Rounding

Numbers reported here are rounded to the most appropriate decimal place. Rounding can cause some calculations to appear incorrect. Total group medians and gains for groups are calculated independently rather than summed from previously rounded numbers.
