 IDENTIFIERS *College Costs; United States

ABSTRACT

The 1983-1984 summary data of basic student charges for nearly 3,300 public and private two-year and four-year colleges and universities in the United States are presented. The national survey of U.S. colleges and universities obtained information on typical or modal tuition and fees charges required of full-time undergraduate and graduate students. In-state and out-of-state charges are given where they apply, as are charges for room and board, and the number of days per week for which board charges are applicable. The data are presented alphabetically by state and by college within the state. (SW)

Administrator

National Center for Education Statistics

"The purpose of the Center shall be to collect and disseminate statistics and other data related to education in the United States and in other nations. The Center shall . . . collect, collate, and, from time to time, report full and complete statistics on the conditions of education in the United States; conduct and publish reports on specialized analyses of the meaning and significance of such statistics; . . . and review and report on education activities in foreign countries."--Section 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).

Preface

This is the fourth annual booklet prepared by the National Center for Education Statistics (NCES) that provides a summary of basic student charges for nearly 3,300 public and private colleges and universities in the United States. The institutions listed in this publication include those schools that are legally authorized to offer and are offering at least a 1-year program of college-level studies leading toward a degree. In addition, the institution must meet certain accreditation requirements as specified by the Secretary of Education.

For the convenience of the reader, this booklet is divided into two sections: section I deals strictly with institutions offering programs of less than 4 years duration; section II lists institutions offering at least a 4-year program of studies.

The data presented in this booklet were obtained through a survey of our Nation's colleges and universities and represent the responses NCES received before January 15, 1984. Institutions were requested to provide the typical modal tuition and fees that were required of full-time students for the academic year 1983-84. In-State and out-of-State charges for both full-time undergraduate and graduate students are given where they apply, as are charges for room and board and the number of days per week for which board charges are applicable.

Survey responses were edited for internal accuracy as well as consistency with the institutions' previous year's response. Nonrespondent institutions are footnoted, and their 1982-83 data are provided

where available. Footnotes are also used to indicate special cases where the charges, if taken at face value, may be misleading. A dash (-) indicates charges are not applicable; (*) indicates that data were not reported for 1983-84 and could not be imputed.

This booklet is intended to be only one of many helpful sources of information available for use when selecting a college or university. Many other reference tools are available, and a good starting point would be your school or local public library. Consulting with a guidance or career counselor would also be helpful in your selection, as well as the advice of someone who has attended an institution in which you are interested.

The *Education Directory, Colleges and Universities 1983-84*, published by NCES, or various other sources can provide such basic institutional data as address, telephone number, admission requirements, types of programs offered, calendar system, size of student body, and highest level of offering, just to name a few. Once you have narrowed your selection somewhat, you should contact the college directly to obtain a copy of their current catalog and an application. You may also wish to visit the colleges or universities in which you have a serious interest.

If you would like information on Federal financial aid for education, request a copy of the *Student Guide* from the Consumer Information Center, Department 510M, Pueblo, Colorado 81009.
