ABSTRACT

This fact sheet reports findings of an investigation of the reported difficulties experienced by federal agencies in retaining career members of the Senior Executive Service (SES). These responses to a mailed questionnaire are highlighted: (1) the most important reasons for leaving are agency-specific (dissatisfaction with top management, dissatisfaction with political appointees) and government-wide (frustration with proposed and actual changes to compensation, too few bonuses); (2) the least important reasons fall into the same categories as well as a third--job-specific; (3) important reasons for leaving tended to be agency-specific; (4) patterns emerged in the reasons given for leaving when they were grouped according to how SES members left; (5) a majority of SES members said they took another paid position; and (6) although a majority said they would not advise a person to enter public service, SES members frequently said they enjoyed their careers overall. These appendixes follow the two-page report: questionnaire objectives, scope, and methodology; narrative material and data in table form summarizing questionnaire results regarding reasons why senior executives left; and the annotated questionnaire. (YLB)

August 12, 1987

The Honorable Vic Fazio House of Representatives

Dear Mr. Fazio:

You requested that we examine the reported difficulties experienced by federal agencies in retaining career members of the Senior Executive Service (SES). In subsequent meetings with your office we agreed to determine the characteristics of members who left SES in fiscal year 1985, why they left, and, if they took another paid position, what employment areas they entered.

To obtain the requested information, we sent a questionnaire to all SES members who left their positions in fiscal year 1985. The questionnaire responses are highlighted below and discussed in greater detail in the appendixes.

- -- In fiscal year 1985, 615 career SES members, representing 9.9 percent of the average SES career membership during the year, left SES. Of these, 469 former SES members completed our questionnaire. According to their responses, 68.4 percent retired, 19.6 percent resigned, 7.5 percent stayed in the government but accepted a GS-15 position, and 4.5 percent left under other circumstances.
- -- SES members noted a wide variety of reasons for leaving their positions in fiscal year 1985. The reasons they said were most important can be put into two broad categories: agency-specific reasons, such as dissatisfaction with top management and dissatisfaction with political appointees; and governmentwide reasons, including frustration with proposed and actual changes to compensation and too few bonuses available. The least important reasons for leaving also fall into these two categories, as well as a third category--job-specific reasons, such as job required too much or too little travel.

- -- Analysis of the most important reasons given for leaving SES, grouped by agency, show that certain reasons for leaving are viewed as more important by former members of some agencies than by former members of other agencies. For example, SES members whose last assignment was in one of two departments--Treasury and Health and Human Services--were more likely than SES members at other agencies to name dissatisfaction with the distribution of both bonuses and rank awards as being of great or very great importance in their decisions to leave.
- -- Patterns emerge in the reasons given for leaving when they are grouped according to how SES members left. For instance, SES members who resigned were more than twice as likely to stress salary and career development concerns than those who retreated to GS-15 positions or those who retired.
- -- SES members who left in fiscal year 1985 were generally similar to those who were employed as of December 31, 1985, in terms of reported characteristics such as educational level, years of federal executive service, and occupation.
- -- A majority of SES members said they took another paid position after leaving SES, as we reported in an earlier fact sheet (GAO/GGD 87-36FS, Jan. 1987).
- -- While a majority of SES members said they would not advise a person starting a career today to enter public service, SES members frequently commented that overall they enjoyed their careers.

As arranged with your office, unless you publicly announce its contents earlier, we plan no further distribution of this fact sheet until 30 days from the issue date. At that time, we will send copies to the Office of Personnel Management and other interested parties upon request. If further information is needed, please call me on 275-6204.

Sincerely yours,

Fan Gn S. Kleeman Rosslyd S. Kleeman

Senior Associate Director

QUESTIONNAIRE OBJECTIVES, SCOPE, AND METHODOLOGY

We developed and sent out a questionnaire to all 615 SES members who left SES in fiscal year 1985 (the most recent year in which information on SES was available when we conducted our survey) to record information about why they left SES and to determine where they went (see table III.4). We also sent questionnaires to a random sample of 380 SES members employed by the federal government as of December 31, 1985. OPM provided us with both address lists. Selected information from this questionnaire can be found for comparison purposes in tables III.1, III.2, III.5, III.6, and III.7. More detailed evaluation of this questionnaire will be provided in a separate report.

In addition to being asked to provide some information about themselves, respondents were given a list of 55 possible reasons for leaving SES and were asked to check how important or unimportant each one was in their decision to leave SES.

Instrument development, data collection, and evaluation

In designing the questionnaire instrument, we reviewed other questionnaires that had been previously used to collect data from SES members. This review included data collection efforts by the Office of Personnel Management, the Merit Systems Protection Board, the Federal Executive Institute Alumni Association, and other government agencies. We considered questions asked in these questionnaires, and added some of our own. In particular, we tried to capture all possible reasons that one might have for leaving the SES. To ensure that our questionnaire was easily understandable, we pretested it with former SES members before sending it out in April 1986. In June 1986 we sent out follow-up questionnaires to those who had not yet responded.

We edited the completed questionnaires for consistency, coded responses and entered them into the computer, and verified the accuracy of the computer data sets.

Questionnaire response rate

We obtained a 76 percent response rate (percent usable of total mailed) and a 82 percent completion rate (usable returns as percent of total mailed less undeliverable and ineligible). The final respondent group consisted of 469 SES members. Table I.1 summarizes the questionnaire returns.

APPENDIX I

Table I.l: SES Questionnaire Return Rates

Questionnaire returns	Number	Percenta
Usable returns	469	76.3
Undeliverable	19	3.1
Ineligible:		
Deceased Still in SES	17 4	2.8 0.7
Refusal or incapacitated	2	0.3
Questionnaires delivered but not returned	104	16.9
·tal	615	100.1

aPercentage does not add to 100 due to rounding.

Not all respondents to our questionnaire answered all the questions. Less responded to the questions at the end of the questionnaire than to those questions at the beginning. This may have been due to fatigue or the detailed nature of the questions in the last section. See appendix IV for the number who did not respond to each question.

REASONS WHY SENIOR EXECUTIVES LEFT SES

In fiscal year 1985, an estimated 9.9 percent of career executives left SES. To determine why they left, we sent them a questionnaire listing 55 specific reasons for leaving SES. We asked them to rate, on a scale ranging from little or no importance to very great importance, the influence each reason had in their decisions. SES members left for a number of reasons, although 40 percent of the respondents cited five or fewer reasons as having great or very great importance. We did not ask them to identify the most important reason and cannot say that any one was decisive in the decision to leave the SES. The 10 most important reasons for leaving, as indicated by the percent of great and very great responses, are shown in table II.1.

Table II.1:

10 Most Important Reasons for Leaving SES
in Fiscal Year 1985

Reason	Great and very great importance number	Number of respon- dents	<u>Percent</u> a
Dissatisfaction with top managemen	t 181	383	47.3
Dissatisfaction with political appointees	157	364	43.1
<pre>Unfair distribution of bonuses (e.g., favoritism)</pre>	169	408	41.4
Frustration with proposed and actu changes to compensation (i.e., p retirement, etc.)		411	39.9
Frustration with criticism of fede workers by press, politicians, or public	ral 153	415	36.9
<pre>Unfair distribution of rank awards (e.g., favoritism)</pre>	143	396	36.1
Dissatisfaction with agency manage practices (i.e., amount of freed given to manage job as saw fit)	ment 136 om	387	35.1
Too few bonuses available	139	409	34.5
Desire to avoid proposed revisions which could decrease retirement benefits	105	J11	33.8
Too much political interference	124	370	33.5

apercentages calculated by dividing the number of great and very great importance responses by the total number of responses. Total number of responses excludes the not applicable responses and nonresponses.

Comments on several of these issues were provided by some respondents. While these comments provide additional perspectives on these issues, they can only be taken as representative of the views of those who elected to write them,

and cannot be generalized as those of questionnaire respondents as a whole. Concerns were expressed by 57 people regarding the public or Administrations' negative attitude toward federal workers. One respondent commented that "The public degradation of civil service . . . is destroying the desire of people like myself to stay in the government." Other comments conveying dissatisfaction with the SES bonus system were made by 28 SES members. One comment exemplifying this dissatisfaction noted that "The SES bonus system is viewed as a means to supplement salary rather than reflect performance." Concerns about the qualifications of political appointees were voiced by 20 individuals. One respondent maintained that incompetent political appointees "kept careerists off balance, uninformed." Other comments we received, from 25 people, dealt with political interference. One respondent commented that the "SES system allows (encourages) political influence to be exercised in fields which must be immune to bias if the goal of the service is to be met."

In spite of comments from 55 SES members concerning salary and benefits, the separate issues of salary and fringe benefits were not ranked among the 10 most important reasons for leaving. Questionnaire results show that for 25.8 percent and 13.7 percent of the respondents, inadequate salary and inadequate fringe benefits, respectively, were of great or very great importance in their decisions to leave.

The most important reasons for leaving as indicated by the individual SES members can be divided into two categories—governmentwide and agency—specific. The least important reasons come under a third category—job—specific. For instance, job—specific factors, such as job was too challenging, were noted as having little significance in SES members' decisions to leave. Table II.2 lists the least important reasons for leaving on the basis of the percent of respondents who indicated these reasons were of some, little, or no importance in their decisions to leave.

APPENDIX II

Table II.2:

10 Least Important Reasons for Leaving SES
in Fiscal Year 1985

Reason	Some and little or no importance number	Number of respon- dents	<u>Percent</u> a
Job required too little travel	312	322	96.9
Job was too challenging	319	330	96.7
Desire to avoid reassignment with the same geographical area	hin 254	265	95.9
Job required too much travel	332	352	94.3
Desire to obtain social security coverage	331	355	93.2
Job required too much work	334	369	90.5
Dissatisfaction with coworkers	297	329	90.3
Dissatisfaction with subordinate	s 299	332	90.1
Lack of job security	329	369	89.2
Desired geographic reassignment not available	249	282	88.3

apercentages calculated by dividing the number of some and little or no importance responses by the total number of responses. Total number of responses excludes the not applicable responses and nonresponses.

Agency and type of separation are related to reasons for leaving

Certain groups of SES members cited certain reasons for leaving SES in fiscal year 1385 as having great or very great importance in their decisions to leave more frequently than other groups. Two variables, agency and type of separation, are associated with these reasons for leaving. In our analysis we included only those agencies which had 10 or more questionnaire respondents.

SES members whose last assignments were in the Departments of Transportation, Commerce, or Agriculture more frequently named dissatisfaction with political appointees and top management, and too much political interference as being particularly important in their decisions to leave SES. As shown in tables II.3, II.4, and II.5, these three departments were above the average for all respondents in the great and very great dimension of all three categories. Conversely, respondents from several agencies, including the Veterans Administration, and the Departments of Justice and Treasury, indicated that these factors did not have substantial importance in their decisions to leave.

Concerning the distribution of bonuses and rank awards, SES members whose last assignments were in the Departments of Treasury and Health and Human Services more frequently named unfair distribution of both bonuses and rank awards as being particularly important in their dec:sions to leave SES. As shown in tables II.6 and II.7, these two departments were above the average for all respondents in the great and very great dimension for both categories.

Availability of bonuses and frustration with proposed and actual changes to compensation (i.e., pay, retirement, etc.) also seem to be related to respondents from particular agencies. For three agencies, the National Aeronautics and Space Administration and the Departments of Treasury and Justice, the percentages of respondents who indicated that both these reasons were of great or very great importance in their decisions to leave, as shown in tables II.8 and II.9, were above the percentages for all respondents.

Type of separation

Other patterns emerge in the reasons for leaving when examined by how SES members left. In particular, people who resigned (91 or 19.6 percent of all respondents) tended to cite different reasons as having great or very great importance in their decisions to leave than people who retired (318 or 68.4 percent of all respondents) or retreated to GS-15 positions (35 or 7.5 percent of all respondents). Selected reasons for leaving that were particularly significant to those who resigned as opposed to those who retired or retreated are shown in table II.10 along with the responses of those who retired or retreated to GS-15 positions.

In fact, those who resigned more than twice as frequently checked three of the four reasons on this list as being of great or very great importance than those who either retired or retreated. For example, salary not adequate was indicated as an important reason for leaving by 44.1 percent of those who resigned, only 15.4 percent of those who retreated, and 21.5 percent of those who retired.

Table II.10:
Selected Reasons for Leaving of
Importance to SES Members Who Resigned

	Number and percent of great and very great responses a_/		
	Resigned	Retreated	Retired
Opportunities for career advancement (i.e., higher level of responsibility) were inadequate	54.2% (45 of 83)	13.6% (3 of 22)	26.5% (68 of 257)
Realized goals in the position and desired a change	(41 of 83)	39.1% (9 of 23)	(48 of 246)
Opportunities for career development (i.e., growing through job) were inadequate	46.3% (38 of 82)	15.0% (3 of 20)	(55 of 256)
Salary not adequate	(37 of 84)	(2 of 13)	21.5% (59 of 275)

a / Numbers and percentages exclude nonresponses and not applicable responses.

Reasons cited as being of great importance or very great importance for those who retreated are shown in table II.ll. The table also shows that those who retired and resigned much less frequently cited these reasons for leaving.

Table II.ll:
Selected Reasons for Leaving
of Importance to SES Members
Who Retreated to a GS-15 Position

	Number and percent of great and very great responses a /		
	Retreated	Resigned	Retired
Desired assignment not available	50.0% (7 of 14)	11.3% (8 of 71)	16.9% (35 of 207)
Job required too much time for administrative duties	50.0% (11 of 22)	(11 of 80)	15.0% (38 of 253)
Personal goals and values differed from organization's	48.0% (12 of 25)	(22 ^{28.6} %)	25.0% (64 of 256)
Desire to geographically relocate	47.4% (9 of 19)	10.0% (7 of 70)	4.9% (10 of 204)
Personal concerns not related to work (e.g., health, spouse's career, etc.)	45.0% (9 of 20)	9.6% (7 of 73)	(31 of 236)
Frustration with bureacracy (administrative/bureacratic requirements)	44.0% (11 of 25)	22.1% (19 of 86)	31.7% (90 or 284)
Job created too much stress	43.5% (10 of 23)	12.4% (10 of 81)	14.5% (39 of 269)

a_/ Numbers and percentages ex^lude nonresponses and not applicable responses.

22

CHARACTERISTICS OF SES MEMBERS WHO LEFT IN FISCAL YEAR 1985

Characteristics of SES members who left were generally similar to those of SES members who were employed by the federal government as of December 31, 1985, in such areas as occupations, years of executive experience, and education levels.

The distribution of individuals among the occupational categories is similar in both groups. Engineers and architects, for instance, comprised an estimated 10.8 percent of SES in December 1985 and represented 10.5 percent of those who left.

Table III.1:
Comparison of the Occupational Makeup
of 1985 SES Members With SES Members
Who Left Their Positions in 1985 a /

Occupational category	Percent of 1985 SES members	Percent of SES members who left in 1985
Accounting, Budgeting, or Finance	4.1	3.6
Administrative/ Managerial	53.2	53.0
Business	1.0	1.7
Engineering, or Architecture	10.8	10.5
Investigations	0.7	2.8
Legal	8.5	8.2
Math or Statistics	1.4	0.4
Medical Sciences	1.4	1.7
Personnel Management or Industrial Relations	1.7	1.7
Physical Sciences	4.7	5.8
Social Science, Economics, Psychology or Social Welfare		
or Social Welfare	4.1	2.4
Other	8.5	8.2

Percentages do not add to 100 due to rounding.
 Percentages are based on an estimated 4,241 respondents employed as of the end of 1985 and 466 respondents who left SES in 1985.

b / All percentages in this column are estimates and vary by no more than 6.2 percentage points higher or lower than the given estimate.

The largest block of former SES member respondents fell in the 55 to 60 age group, and most respondents chose to retire within 3 years after being eligible.

Table III.2:

Comparison of the Ages of

1985 SES Members With SES Members

Who Left Their Positions in 1985 a_/

Age in years	1985 SES	Percent of SES members who left in 1985
Less than 35	0.3	0.2
35 to less than 40	4.5	3.9
40 to less than 45	15.6	9.7
45 to less than 50	22.5	12.0
50 to less than 55	25.2	17.0
55 to less than 60	21.4	32.2
60 to less than 62	3.1	8.4
62 to less than 65	4.5	10.1
65 or over	2.8	6.7

a_/ Percentages do not add to 100 due to rounding. Percentages are based on an estimated 4,155 respondents employed as of the end of 1985 and 466 respondents who left SES in 1985.

b_/ All percentages in this column are estimates and vary by no more than 5.0 percentage points higher or lower than the given estimate.

Table III.3:

Length of Time SES Members

Remained in Their Position After
----Becoming Eligible for Retirement

Length of time	Number	Percent a_/
Immediately after eligible	26	10.6
Less than 6 months	28	11.4
6 months to less than 1 year	16	6.5
1 to less than 3 years	87	35.5
3 to less than 6 years	60	24.5
6 years or more	28	11.4
Subtotal	245	99.9
Not eligible for		
optional retirement	218	
Total respondents	463 b_/	

a / Percentages do not add to 100 due to rounding.

b_/ Six did not respond.

About two-thirds of SES members took another paid position after leaving the SES. More of them took a position in business or industry than in any other employment area.

Table III.4:

New Positions Taken by

SES Members Who Left Their

Previous SES Positions in 1985 a_/

Positions taken	Number	Percent of total
Business or Industry	105	22.5
Consulting	82	17.6
Federal Government	54	11.6
Other	36	7.7
Nonprofit	22	4.7
Academia	18	3.9
Subtotal	<u>317</u>	68.0
No position taken	<u>149</u>	32.0
Total respondents	466 b_/	100.0

a_/ Numbers and percentages exclude nonresponses.

Base salaries increased for 48.7 percent of those who accepted new jobs, decreased for 24.7 percent, and remained about the same for 26.6 percent. $^{\rm l}$

b_/ Three did not respond.

¹For more information, see Answers to Selected Salary-Related Questions (GAO/GGD-87-36FS, Jan. 9, 1987).

As table III.5 shows, the educational levels of those who left SES were approximately the same as the levels of those who were employed as of December 31, 1985. Of those who left, 57 percent had received at least a Master's degree and nearly a third had received a Ph.D, M.D., or law degree.

Table III.5:
Educational Level of 1985 SES Members and
SES Members Who Left Their Positions in 1985 a_/

Highest educational level or degree attained	Percent of 1985 SES members b_/	Percent of SES members who left in 1985
High school graduate or equivalent	0.0	0.2
Associate's degree or some college without a bachelor's degree	2.7	5.8
Graduated from a 4-year college or postgraduate study without a degree	23.2	32.0
Master's degree	29.3	25.6
Doctorate or Ph.D.	24.0	17.3
Law degree	11.1	12.6
Medical degree	1.7	2.0
Other	8.1	4.7

a / Percentages do not add to 100 due to rounding.
Percentages are based on an estimated 4,270 respondents employed as of the end of 1985 and 469 respondents who left SES in 1985.

All percentages in this column are estimates and vary by no more than 5.2 percentage points higher or lower than the given estimate.

These former SES members had considerable experience as federal employees. Almost 75 percent of the respondents had served for at least 20 years, and 30 percent had 30 or more years of federal experience. More respondents joined the federal government at the GS-5 level than any other level. Moreover, much of their experience had come at the executive (GS-16 or above, or SES) level: Thirty-three percent of the respondents had held a position at this level for between 5 and 10 years, and 41 percent had been in an executive position for 10 or more years before leaving. As table III.6 shows, a greater proportion of SES members who left in fiscal year 1985 had 30 years or more of federal service compared to those employed as of December 31, 1985. As table III.7 indicates, the years of federal executive experience of those who left in fiscal year 1985 is roughly comparable to the profile of those who were employed as of December 31, 1085.

Table III.6: Years of Federal Service for 1985 SES Members and SES Members Who Left Their Positions in 1985 a_/

Years of federal service b_/	Percent of 1985 SES members c_/	Percent of SES members who left in 1985
Less than 3 years	0.3	1.3
3 to less than 5 years	1.0	0.9
5 to less than 10 years	4.0	5.6
10 to less than 20 years	32.2	20.3
20 to less than 30 years	51.3	42.0
30 years or more	11.1	30.0

a / Percentages do not add to 100 due to rounding.

Percentages are based on an estimated 4,284 respondents employed as of the end of 1985 and 467 respondents who left SES in 1985.

b / Excluding military service.

c / All percentages in this column are estimates and vary by no more than 6.1 percentage points higher or lower than the given estimate.

Table III.7:

Years of Federal Executive Service for

1985 SES Members and SES Members

Who Left Their Positions in 1985 a_/

Years of service in a federal executive position	Percent of 1985 SES members	b_/	Percent of SES members who left in 1985
Less than 1 year	2.7		1.3
l to less than 3 years	8.1		6.0
3 to less than 5 years	16.6		18.1
5 to less than 10 years	38.0		33.3
10 to less than 15 years	22.4		23.2
15 to less than 20 years	8.8		13.5
20 years or more	3.4		4.5

a_/ Percentages do not add to 100 due to rounding.
Percentages are based on an estimated 4,241 respondents employed as of the end of 1985 and 465 respondents who left SES in 1985.

These former members of SES appear to have been well-qualified by measures other than experience: More than one-half of them had received at least one bonus during their SES career, and over a third had received two or more bonuses. Moreover, 42.7 percent of this group had received one or more meritorious and distinguished service awards in the course of their SES careers.

Although the written comments obtained from the survey suggest that many former SES employees enjoyed their government careers, few recommended a similar career to others—62.9 percent, or 290 of the respondents said that they would advise or strongly advise someone beginning a career to enter the private sector rather than the public sector. Only 72 (15.6 percent) of the 461 former SES members responding to this question would advise or strongly advise public sector work over private sector work.

b_/ All percentages in this column are estimates and vary by no more than 5.7 percentage points higher or lower than the given estimate.

U.S. GENERAL ACCOUNTING OFFICE

Survey of Attrition in the Senior Executive Service

Former SES Members

INTRODUCTION

The U.S. General Accounting Office, an agency of the Congress, is reviewing trends in Senior Executive Service (SES) attrition and the outlook for future retention of its members. The purpose of this questionnaire is to gather information on why career appointees left SES. It is being sent to all SES members who separated during fiscal year 1985.

Most of the questions can be easily answered by checking boxes or filling in blanks. Space has been provided for any additional comments at the end of the questionnaire. If necessary, additional pages may be attached.

Your responses will be treated confidentially. They will be combined with others and reported only in summary form. The questionnaire is numbered only to aid us in our follow-up efforts and will not be used to identify you with your response. We cannot develop meaningful information without your frank and honest answers.

The questionnaire should take about 20 minutes to complete. If you have questions, please call Ms. Mary Lane Renninger on (202) 275-2982 or Ms. Pat Gellatly on (202) 275-5724.

Please return the completed questionnaire in the enclosed pre-addressed envelope within $\underline{10}$ days of receipt. In the event the envelope is misplaced, the return address is:

U.S. GENERAL ACCOUNTING OFFICE Ms. Mary Lane Renninger Room 3150 441 G Street, N.W. Washington, D.C. 20548

Thank you for your help.

I. GENERAL BACKGROUND

- What is the highest educational level or degree that you have attained? (CHECK ONE)
 - 1. 1 High school graduate or equivalent
 - 2. 27 Some college without a degree
 - 3. 67 Graduated from a 4-year college
 - 4. 83 Postgraduate study without a degree
 - 5. 120 Master's degree
 - 6. 81 Doctorate/Ph.D.
 - 7. 59 Law degree
 - 8. 9 Medical degree
 - 9. 22 Other, please specify
 - 0 No Answer
- 2. How man, years was your total federal service (excluding military service)? (CHECK ONE) (8)
 - 1. 6 Less than 3 years
 - 2. 4 3 to less than 5 years
 - 3. 26 5 to less than 10 years
 - 4. 95 10 to less than 20 years
 - 5. 196 20 to less than 30 years
 - 6. 140 30 years or more
 - 2 No Answer

- 3. How many years of active duty military service, if any, did you serve? (IF NONE, ENTER "0") Range 1-40 years (9-10)Mean 5.7 years (YEARS OF SERVICE)
- 4. What was your grade or ES level when you joined the federal government? Range GS 1-'8 Range ES 1-8 Mean GS 9 or Mean ES 4.6 (GRADE LEVEL) (ES LEVEL)
- 5. Of the following occupational categories, which best describes your overall background (based on your education, training, and skills) prior to entering SES? (CHECK ONE) (14-15)
 - 1. 30 Accounting, budgeting, or finance
 - 2. 91 Administrative/Managerial
 - 3. 12 Business
 - 4. 101 Engineering or architecture
 - 5. 16 Investigations
 - 6. 53 Legal
 - 7. 7 Math or statistics
 - 8. 13 Medical sciences
 - 9 Personnel management or industrial relations
 - 10. 59 Physical sciences
 - 11. 26 Social science, economics, psychology or social welfare
 - 12. 47 Other, please specify 5 No Answer

11. SES EXPERIENCE

- 6. How many years were you in an executive position in the federal government (SES and GS-16, 17, 18 or equivalent)? (CHECK ONE) (16)
 - 1. 6 Less than 1 year
 - 2. 28 1 to less than 3 years
 - 3. 84 3 to less than 5 years
 - 4. 155 5 to less than 10 years
 - 5. 108 10 to less than 15 years
 - 6. 63 15 to less than 20 years
 - 7. 21 20 years or more
- 4 No Answer
 7. Which of the following best describes the way you separated from your SES position? (CHECK ONE)
