COLLEGE AND UNIVERSITY  
RACIAL/ETHNIC DISTRIBUTION OF ENROLLMENT

NEW YORK STATE

FALL 1986

The data summaries contained in this report were obtained from the 1986-87 Higher Education Data System (HEDS) Survey form IPEDS-EF, "Enrollment by Racial/Ethnic Status, Fall 1986." The enrollment totals shown in this report may vary slightly from official enrollment data published in "College and University Admissions and Enrollment, Fall 1986."

The data reported by some independent and proprietary institutions as "race unknown" are displayed separately, with racial distributions based only on the portion of data for which race was known. In contrast, all State University institutions, as well as most independent and proprietary institutions, distributed "unknowns" prior to submitting the data by prorating unknown data based on the known racial distribution.

The City University of New York, which bases its racial/ethnic reporting on the CUNY Ethnic Census (a self-reporting questionnaire completed voluntarily by students), was unable to report estimates of the racial/ethnic distribution of enrollment in the detail requested on the IPEDS-EF form. The information submitted for CUNY institutions is summarized by level and sex in Tables 1 and 3 of this report. Due to the limited information provided, no full-time/part-time or subject area racial distributions for CUNY appear in this publication, with the exception of first-professional enrollment in law shown in Table 8.
