ABSTRACT

The State Bilingual Education program, the Local Bilingual program, and the Migrant Education program are designed to meet the needs of bilingual and migrant students in the School District of the City of Saginaw, Michigan. Instruction consisted primarily of one hour of supplemental reading and mathematics. Students in grades 7-12 also received counseling and support services. The vast majority of the students were Hispanic, with a small number of Laotians completing the program population. In view of the fact that the program populations overlapped a great deal, the staff serving the students were the same, and all materials and activities were shared by all of the programs. A process evaluation, involving monitoring the program throughout the year, was conducted to determine if the program is being implemented as planned. Another goal of the evaluation was to identify the strengths and weaknesses that influenced the programs' outcomes. A set of questionnaires was sent to all participating staff and building principals concerning the following: (1) programming and instructional management; (2) communication; (3) pupil selection; and (4) miscellaneous. The program evaluator reviewed the responses and summarized them into a list of program strengths and weaknesses, and made recommendations for improvement. Information on the identification and eligibility procedures for program participants, copies of the survey questionnaires, and the results of the survey are included in three appendices. (FMW)

PROGRAM DESCRIPTION

The Section 41, State Bilingual Education program, Local Bilingual Student program and the E.C.I.A., Chapter 1, Migrant Education program are programs designed to meet the special educational needs of Bilingual and Migrant students in the School District of the City of Saginaw. These programs were operated by the school district during the 1987-88 school year.

The State Bilingual, Local Bilingual and Migrant programs operated at 21 elementaries, four junior highs, and both high schools. Instruction was provided primarily on a pull-out basis, with each student receiving approximately one hour of supplemental instruction per week.

State Bilingual Program

The State Bilingual program served 784 students during the 1987-88 school year. The vast majority of the students were Hispanic, with a small number of Laotian students completing the program population.

Instruction was provided to K-6 students primarily in the areas of reading and mathematics. Students in grades 7-12 also received instruction in the basic skills, as well as counseling and support services.

Local Bilingual Students

In addition to the students served by the State Bilingual Education program, the school district served another group of Bilingual students who were not included in the State Bilingual program because they had exceeded their three years of eligibility for services. These students, Local Bilingual, were served by the Bilingual Education staff who provided services in the basic skill areas of reading and mathematics. A total of 264 students were served by the Local Bilingual program.

Migrant Program

The Migrant program provided supplemental reading, mathematics, and communication skills instruction for the children of Migrant workers. A total of 422 students K-12 participated in the program.

The Bilingual programs served students whose primary language was other than English, or who came from a home environment where a language other than English was regularly used. The Migrant Education program served students whose families follow the crops or fishing industry for a livelihood, and as a result the students experienced educational discontinuity. Although the program philosophies differ, the student populations overlap because, in most circumstances, a student in the Migrant program comes from an environment where English was not the primary language spoken in the home. In view of this fact, these three programs cooperate as one, the staff serving the students were the same, and all materials and activities were shared by the programs. (See Appendix A for a complete description of the students eligibility criteria.)

PROCESS EVALUATION PROCEDURES

A process evaluation involves monitoring a program throughout the year to determine if the program is being implemented as planned. This makes it possible to identify strengths and weaknesses that influence a program's outcome. For these programs, the process evaluation was accomplished by a set of questionnaires concerning the following topics: 1) programming and instructional management; 2) communications; 3) pupil selection; and 4) miscellaneous. All Bilingual/Migrant buildings were asked to respond on the appropriate questionnaire. The instruments were distributed to the respondents on January 4, 1988 by means of an inter-office mailing (see Appendix B for a copy of the various instruments and memos used for distribution). The completed instruments were to be returned via inter-office mail by January 15, 1988. Completed instruments were last received from respondents on January 29, 1988.

PRESENTATION OF PROCESS DATA

The Bilingual/Migrant Education Process Survey, 1987-88 (see Appendix B for copies) was sent out to program teachers and their principals on January 5, 1988. As of the end of January when results were tabulated, 11 of 11 teachers (100.0%) and 21 of 27 principals (77.8%) had returned the survey instrument. The detailed tabulated results are presented in Appendix C.

What follows are the salient points stemming from this year's process evaluation efforts of the 1987-88 Bilingual/Migrant programs. The program evaluator reviewed the results and summarized them into the following categories: strengths, weaknesses, and recommendations. The major findings follow.

Strengths of the State Bilingual/Migrant Programs

From a combined review of current findings and the present description of the programs, the following strengths appear noteworthy.

PROGRAMMING AND INSTRUCTIONAL MANAGEMENT

- Nearly three quarters (71.4%) of the elementary teachers update their student profiles on a weekly basis and half (50.0%) of the secondary teachers update them on at least a bi-weekly basis.
- All of the elementary teachers (100.0%) serve their students through a pull-out format as stated in the program proposal. Three quarters of the secondary teachers (75.0%) also serve their students through this method.
- Most elementary teachers (85.7%) have some legitimate way of grouping students for instruction.

COMMUNICATION

- Nearly all of the elementary principals (94.7%) and all of the secondary principals (100.0%) have made presentations at their regular building staff meetings addressing the identified objectives of the State Bilingual/Migrant programs.

MISCELLANEOUS

- The most often mentioned strengths of the State Bilingual/Migrant programs were as follows:

MISCELLANECUS (Cont.)

<u>Strength</u>	<u>Teachers</u>		<u>Principals</u>	
	<u>Elementary</u>	<u>Secondary</u>	<u>Elementary</u>	<u>Secondary</u>
- Focus on needed skills of low achieving pupils (reading/math).			X	X
- Relaxed and supported environment setting because of small group instruction and/or individual instructional basis (small teacher/student ratio).	X	X		
- Motivate by providing immediate feedback to rebuild self-concept and pride in their ability to succeed.		X		
- Program director	X			
- Strong, dedicated and well-trained bilingual/migrant education teachers.	X		X	
- Dropout prevention		X		
- Program deals with both reading and mathematics for some children.		X		
- Students are more aware of their need to do well in school.		X		
- Our G.P.A.'s have increased.		X		
- Staff/principal cooperation			X	
- Decreases dropouts and improves attendance.				X
- Community linkage is good.			X	

Weaknesses of the State Bilingual/Migrant Programs

From a combined review of current findings and the present description of the programs, the following current weaknesses appear noteworthy.

PROGRAMMING AND INSTRUCTIONAL MANAGEMENT

- A student/teacher ratio does average out to be approximately 86 for elementary per teacher (standard deviation 23.6%) and 116 for secondary per teacher (standard deviation 58.8%). The standard deviation indicates that teachers caseload ranged considerably.
- Most elementary teachers (85.7%) do not find the inservices effective in focusing reading and mathematics instruction. Only half (50.0%) of the secondary teachers find them effective.
- Most elementary teachers (71.4%) and all secondary teachers (100.0%) do not find that the monthly State Bilingual/Migrant staff meetings adequately satisfy their professional inservice needs.
- Over half the elementary teachers (57.1%) and all the secondary teachers (100.0%) do not think the California Achievement Test (CAT) is an adequate measure of achievement for planning student programs.

COMMUNICATIONS

- Nearly all elementary (85.7%) and all secondary (100.0%) teachers do not have an opportunity to air special concerns about the State Bilingual/Migrant program during regular building staff meetings.
- Most elementary (71.4%) and all secondary (100.0%) find problems in scheduling pupils out of their regular classes.
- All elementary (100.0%) and secondary (100.0%) teachers do not have regular communication with classroom teachers regarding student progress.
- Only half of the secondary teachers (50.0%) and 42.9% of the elementary teachers are aware of any parent participation related to the bilingual/migrant in the buildings they serve.

COMMUNICATIONS (Cont.)

- Approximately half of the elementary (57.1%) and secondary (50.0%) teachers report to the director or designee made at least one on-site visit to their classroom during the year.
- All elementary (100.0%) and secondary (100.0%) teachers do not keep the director informed of their activities.

PUPIL SELECTION

- All teachers (100.0% of both elementary and secondary) feel that the most needy students are not identified for participation. Meanwhile all principals (100.0% of both elementary and secondary) felt they were.
- To the best of their knowledge all the State Bilingual/Migrant teachers at both levels do not think that all classroom teachers have been involved in student identification efforts; whereas most elementary (94.7%) principals and half of the secondary (50.0%) principals think they are.

MISCELLANEOUS

- The most frequently mentioned weaknesses by respondent groups were the following:

<u>Weakness</u>	<u>Teachers</u>		<u>Principals</u>	
	<u>Elementary</u>	<u>Secondary</u>	<u>Elementary</u>	<u>Secondary</u>
- Caseload too great for every student to obtain the needed help in reading and math.	X	X		
- Lack of books/materials that are coordinated district-wide.				X
- Lack of time for planning, teacher conferences, preparation, etc.			X	
- Lack of work space.			X	
- More staff needed to help with recordkeeping and other clerical tasks.		X		

RECOMMENDATIONS

Based on this year's process evaluation, the following recommendations are offered in an effort to improve the implementation of the State Bilingual/Migrant programs in the future.

1. Review other selection instruments for students who lack California Achievement Test (CAT) results or those potentially eligible students who do not do poorly on CAT. A pilot testing of the new selection instrument(s) should be undertaken to determine its technical adequacy.
2. Institute a periodic testing of identified objectives for all grade levels. These objectives would provide a basis for all State Bilingual/Migrant teachers to chart the progress of each student and ultimately determine instructional effectiveness.
3. Work with the Instructional Staff Development Center (ISDC) staff to design an appropriate set of inservice activities to meet the professional needs of both elementary and secondary State Bilingual/Migrant teachers.
4. Explore other alternatives to lower the student to staff ratios and to make those ratios more consistent across buildings. Present funding levels make it impossible to lower the ratio further without assistance from other sources.
5. Continue to define at the secondary level, a standard set of reading and math materials. After the set of core materials has been identified, purchase adequate amounts for each secondary State Bilingual/Migrant building.
6. Record building level instructional activities that happen monthly. These activities then should be communicated through a calendar of events from each teacher to the supervisor.
7. Identify procedures that make State Bilingual/Migrant scheduling easier and share these procedures during pre-service sessions at the start of the school year.

IDENTIFICATION AND ELIGIBILITY PROCEDURES FOR STATE BILINGUAL AND MIGRANT STUDENTS

State Bilingual

The first step in the procedures is that of a student identification. Potential students are identified by means of a Home Language Survey. The survey is designed to determine if: 1) the native or first language is other than English or; 2) a language other than English is regularly used in the student's home or environment. Students in grades K-2 eligible for the program on the basis of the Home Language Survey and parental permission. Students in grades 3-12 go through a more extensive eligibility system which is described below.

In addition to the Home Language Survey, students in grades 3-12 are also tested on one or two instruments for program eligibility. For students who are new or have never been in the Bilingual program, the first is a test of oral English proficiency. In Saginaw, the Language Assessment Battery (LAB) test is used for this purpose and is usually administered in the fall of each year. If the student scores at or below the 40th percentile, then the student is eligible. However, if the student scores above the 40th percentile, then the student is given an English reading achievement test. The California Achievement Test (CAT) is used for this purpose. If the student scores at or below the 40th percentile, then the student is eligible for the program. Finally, parental permission is needed for program participation.

APPENDIX A

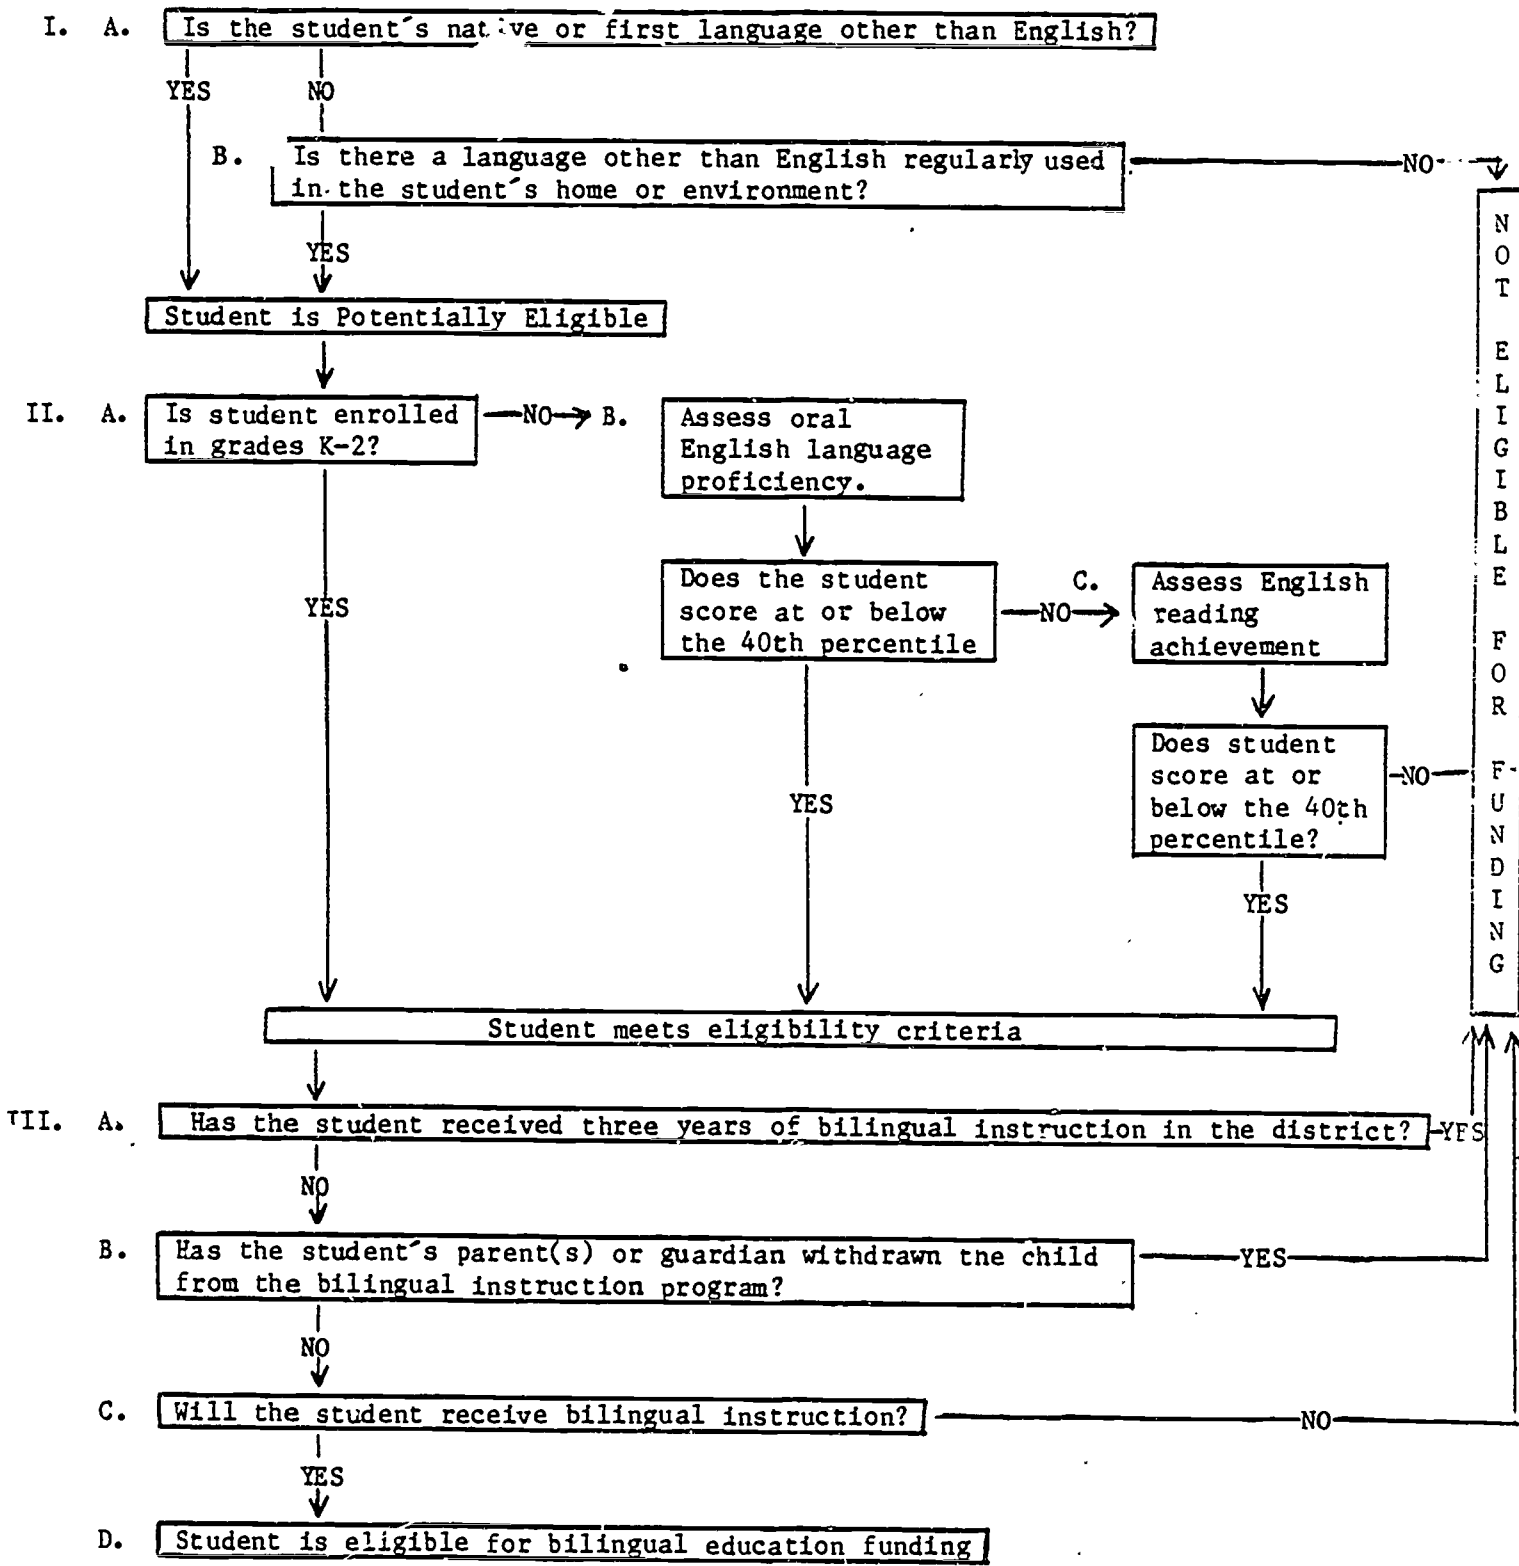

Students in grades 3-12 who were in the Bilingual program the previous year go through a somewhat different eligibility procedure. These students are subject to a program exit criterion which is based on the student's post-test English reading achievement score. If the student's post-test score remains at or below the 40th percentile, the student is ineligible. However, eligibility is based on either the oral English language proficiency test score or the English reading achievement test score. In addition, a score that is used for eligibility is to be the result of a test administration no earlier than the spring of the preceding school year. It is, therefore, possible for a student to exceed the 40th percentile on the reading achievement test and become eligible when retested with the oral English proficiency test. The final eligibility requirement is that students:

... shall be enrolled in the Bilingual instruction program for three years or until the child achieves a level of proficiency in English language skills sufficient to receive an equal educational opportunity in the regular school program, whichever comes first.

PROCEDURES FOR THE IDENTIFICATION OF STUDENTS ELIGIBLE FOR BILINGUAL EDUCATION FUNDING SUMMARY FLOW CHART

APPENDIX A

Migrant

Eligibility for the Migrant program is based solely on whether a student is one of three Migrant designations. The district does, however, attempt to serve those students with the greatest academic need, and nearly all Migrant students scored at or below the 40th percentile on an English reading achievement test.

The three designations of Migrant students are:

- 1) Interstate: Student has moved within the last year across state boundaries.
- 2) Intrastate: Student has moved within the last year across school district boundaries within the state.
- 3) Five Year Settled Out: Student has remained within a school district for at least five years.

We would like you to take a few minutes to complete the attached questionnaire relevant to the Chapter 1 and/or Article 3 and Bilingual/Migrant programs in your building.

Rather than ask you to fill out two separate questionnaires we have made one instrument which asks questions that are relevant to almost all programs. If you have multiple programs in your building please indicate this in the space provided and respond to all appropriate questions.

It is important for planning purposes that we obtain your perceptions about these programs. Should you have any questions please call me at ext. 256.

Please return the completed instrument via inter-office mail to the Program Evaluation Division by January 15, 1988.

To assist in planning efforts, the Department of Evaluation, Testing, and Research requests that each Bilingual/Migrant staff member complete the attached questionnaire regarding program operations. Many future project endeavors will be based upon your responses and reactions to the questions contained in this instrument.

We want to obtain your individual perceptions about the programs, all responses will be kept confidential. Answer each question as it pertains to the program(s) you serve.

If you have any questions, please call Raul Rio (ext. 255).

Please complete and return the questionnaire via inter-office mail to Raul Rio, Program Evaluation Division no later than January 15, 1988.

First, please indicate in the space provided below what buildings or buildings and program populations you serve.

10. (Continued)

What can be done, if anything, to improve the inservice sessions?	Teachers	
	<u>Elementary</u>	<u>Secondary</u>
Longer sessions (one day instead of half a day) or more inservices.	1	1
Teachers at the same grade level need to have time to discuss how their programs vary, what their needs are, and wants should be.	2	0
More time developing pupil personnel strategies for the secondary level.	0	2
Explanation of how teaching to one objective can be done properly to insure student mastery.	1	0
How to sort out student needs effectively and then supply the needed materials to work on needs at once.	1	0
More opportunities to brainstorm in small groups.	1	0
Inservices at least once a month or even twice.	1	0

11. Which of the following have been areas covered during the inservice sessions? (Check as many as apply)

	Teachers	
	<u>Elementary</u>	<u>Secondary</u>

Miscellaneous

25. Name one or two of the strengths and weaknesses of the bilingual/migrant education program.

<u>Strength</u>	Teachers		Principals	
	<u>Elementary</u>	<u>Secondary</u>	<u>Elementary</u>	<u>Secondary</u>
Focus in on needed skills of low achieving pupils (reading/math).	0	0	3	1
Relaxed and supported environment setting because of small group instruction and/or individual instructional basis (small teacher/student ratio).	2	1	1	0
Motivate by providing immediate feedback to rebuild self-concept and pride in their ability to succeed.	0	1	1	0
Program director	2	0	0	0
Strong, dedicated and well-trained bilingual/migrant education teachers.	1	0	3	0
Dropout prevention	0	1	0	0
Program deals with both reading and mathematics for some children.	0	1	0	0
Students are more aware of their need to do well in school.	0	1	0	0
Our G.P.A.'s have increased.	0	1	1	0
Staff/principal cooperation	1	0	7	0
Ability to communicate with bilingual teachers in first language.	1	0	0	0
Bilingual role model for students	1	0	0	0
Decreases dropouts and improves attendance.	0	0	0	1
Community linkage is good.	0	0	2	0
Data collection and analysis techniques are good.	0	0	1	0
Students' language needs are addressed.	0	0	1	0
None	0	0	1	0

APPENDIX C

25. (Continued)

<u>Weakness</u>	<u>Teachers</u>		<u>Principals</u>	
	<u>Elementary</u>	<u>Secondary</u>	<u>Elementary</u>	<u>Secondary</u>
Full-out program takes time away from regular instruction.	0	0	1	0
Case load too great for every student to obtain the needed help in reading and math.	2	2	1	1
Lack of books/materials that are coordinated district-wide.	0	0	0	2
Lack of time for planning, teacher conferences, preparation, etc.	1	0	6	0
Lack of work space	1	0	3	0
More staff needed to help with recordkeeping and other clerical tasks.	0	2	0	0
Function of the lack capability(s) of individual teachers.	1	0	1	0
Confusion of objectives (i.e., cultural or academic).	0	0	1	0
Data collection methods are inadequate.	0	0	1	0
Need increase assistance to meet the needs of the Hmong population.	0	0	1	0
None	0	0	2	0

26. What recommendations would you make to improve the overall program?

	<u>Teachers</u>	
	<u>Elementary</u>	<u>Secondary</u>
Develop resource rooms in each building to have common materials for each objective.	0	1
Increase amount of "direct teaching" services in both reading and mathematics.	1	0
Organized parent participation component.	1	0
More staff at the secondary level.	0	1
Eliminate traveling between schools because it disjoints staff and continuity of program.	1	0
Less paperwork, with deadlines that are reasonable.	1	0
Quiet working area/space	1	0
Committee to direct cultural program, dinners, and assemblies.	1	0
More advance notice of meetings is needed so release forms can be filled out before these meetings.	1	0
