(2) more than 1 of every 6 persons 55 years of age or older will be hospitalized during the next year,

(3) persons 55 years of age or older have a higher average out-of-pocket medical cost burden than younger persons; approximately 17 percent of individuals age 55 to 64 experience out-of-pocket costs in excess of 20 percent of their family income and the average per capita out-of-pocket cost of persons 65 years of age or older is expected to equal 18.5 percent of income by 1991,

(4) there is a great need to ensure access and the quality of affordable health care to all older individuals,

(b) **POLICY.**—It is the policy of the Congress that—

(1) the Federal Government should work jointly with the States and their citizens to develop recommendations and plans for action to meet the challenges and needs of older individuals, consistent with the objectives of this section, and
