Each part includes the changes to the G.I. Bill as recommended by that committee, a history of the proposed amendments to the bill, major provisions of the amendments, discussion of the proposed legislation, a section-by-section analysis of the amendments, cost estimates for implementation of the amendments, and the text of the proposed legislation. The bill would make a number of technical and clarifying amendments to the veterans' educational assistance programs; extend Vietnam-era G.I. Bill benefits to certain service academy and Senior Reserve Officer Training Corps graduates; increase the subsistence allowance for certain service-connected disabled veterans; and increase the educational assistance allowance for certain survivors and dependents. #### MAJOR PROVISIONS OF H.R. 1358, AS AMENDED

The reported bill would:

1. Provide that the 10-year delimiting date for use of educational assistance benefits under Chapters 30, 32, and 34 of title 38, United States Code, would commence from the last discharge from active duty of at least 90 continuous days. This limitation would apply only to such active duty period as may be served subsequent to completion of an individual's initial qualifying active duty period.

2. Provide that individuals eligible for benefits under Chapter 106, title 10, United States Code (Montgomery GI Bill-Selected Reserve) may pursue the same types of programs of education as those approved for Chapter 30, title 38, United States Code (Montgomery GI Bill-Active Duty).

3. Bar receipt of benefits for Chapter 32, title 38, United States Code, Veterans Educational Assistance Program, and Chapter 106, title 10, United States Code, based on the same period of service.

4. Permit Chapter 30 participants who first entered on active duty after June 30, 1985, to meet their secondary school diploma requirements by successfully completing the equivalent of 12 semester hours in a program of education leading to a standard college degree before the original ending date of the individual's initial obligated period of active duty.

5. Extend eligibility for Vietnam Era GI Bill benefits (Chapter 34, title 38, United States Code) to individuals who commenced their third academic year either as a cadet or midshipman at one of the service academies or as a member of the Senior Reserve Officer Training Corps (SROTC) in a program of educational assistance under section 2104 or 2107 of title 30, United States Code, retroactive to January 1, 1977. These individuals must have been separated after a period of at least 180 days active duty served pursuant to receiving a commission following service academy graduation or completion of advanced SROTC under other than dishonorable conditions.

6. Increase by 5 percent the rate of subsistence allowance for service-connected disabled veterans participating in rehabilitation programs under Chapter 31, title 38, United States Code.

7. Increase by 5 percent the rate of educational assistance allowance for survivors and dependents of service-connected disabled veterans pursuing a program of education under Chapter 35, title 38, United States Code.

8. Provide for the use of readjustment benefit account funds to carry out activities in connection with State Approving Agencies. This would include, but not be limited to, the development and implementation of a national training curriculum for State Approving Agency employees.

9. Make various technical and clerical amendments which would improve administration of education programs administered by the Department of Veterans Affairs.

#### DISCUSSION OF THE BILL

##### *Clarification of Delimiting Period*

Section 1 of the Committee bill would provide that the 10-year delimiting period for use of educational assistance benefits under the Montgomery GI Bill-Active Duty (Chapter 30, title 38, U.S.C.), VEAP (Chapter 32, title 38, U.S.C.), and the Vietnam Era GI Bill (Chapter 34, title 38, U.S.C.), would commence from the last discharge from active duty of at least 90 continuous days. This limitation would apply only to an active duty period served subsequent to completion of an individual's initial qualifying active duty period.

The fundamental purposes of educational assistance benefits are to assist in the readjustment of members of the Armed Forces to

civilian life after their separation from military service and to restore lost vocational and educational opportunities to these individuals. Accordingly, for the purpose of establishing eligibility under Chapter 30, Chapter 32 and Chapter 34, qualifying service requirements have been established relative to the initial period of active duty under which the individual establishes program eligibility. To accommodate the eligible individual who remains on active duty following completion of the initial qualifying period of service or who has more than one period of active duty, the 10-year delimiting period for use of education benefits is computed based on the last date of discharge or release from active duty. The purpose of this is to ensure that an individual's ability to use his or her benefits is not diminished as a result of continuing on active duty or reentering active duty.

It was brought to the attention of the Committee by the General Counsel of the Department of Veterans Affairs that under current law no minimum length of service is required in order to establish a new delimiting period based on a period of active duty which follows the initial qualifying active duty period. Although it would seem obvious that the intent of Congress was to provide a new delimiting period in the event that subsequent periods of active duty interfered with the ability of the eligible individual to pursue a course of education or training, the Committee has been informed that a few individuals have taken advantage of the broad statutory language and claimed a new 10-year delimiting date based on a return to active duty of no more than two or three days. Although a new delimiting period must currently be granted, based on the law as it is now written, the spirit of the law is certainly being violated.

Accordingly, the Committee proposes that there be established in the statute a minimum period of active duty which must be served in order to establish a new delimiting date based on service performed subsequent to the initial qualifying period of active duty. The Committee chose to require a minimum period of 90 days active duty. It should be pointed out that individuals discharged or released for a service-connected disability, for a non-service-connected medical condition which preexisted the period of military service, for hardship, or as a result of a reduction in force in certain circumstances would not be required to fulfill the 90 day active duty requirement.

#### *Expansion of Programs Approved for Chapter 106*

Section 2 of H.R. 1358, as amended, would permit those individuals training under Chapter 106, title 10, U.S.C. (Montgomery GI Bill-Selected Reserve) to pursue the same types of programs as those approved for active duty GI Bill participants (Chapter 30, title 38, U.S.C.). Under current law, only undergraduate courses at institutions of higher learning are approved for those participating in the Chapter 106 program. The Committee bill would expand programs of study to include training at technical schools, on-job training, correspondence and graduate-level training.

The Committee believes there are several reasons for lifting the current restriction on approved programs. First, as a matter of equity, active duty GI Bill participants and Selected Reserve par-

ticipants should have the same types of programs available to them under the Montgomery GI Bill. In order to be consistent with the Total Force Policy which underlies our national military strategy, educational opportunities should be consistent between both components of the Force.

Next, expanding the programs available to members of the Selected Reserve would increase the incentive value of the GI Bill as a recruiting and retention tool. If the Total Force is to be successful, the Reserve side of that Force must be able to attract and retain high quality personnel. The peacetime GI Bill has already proven to be a powerful recruitment tool for the Selected Reserve, and expanding the approved courses of study will make an excellent program even more effective. In his Fiscal Year 1988 Report to the Congress on the Montgomery GI Bill for Members of the Selected Reserve, the Honorable Stephen M. Duncan, Assistant Secretary of Defense for Reserve Affairs, characterized the Montgomery GI Bill as "a major recruiting incentive, especially for new, high quality enlisted personnel . . ." He noted that, when comparing the two-year period before the program's effective date to the two-year period FY 1987 and FY 1988, Selected Reserve accessions into six-year or greater terms increased from 58.4 percent of all enlistments to 64.8 percent. Additionally, he pointed out that the Sixth Quadrennial Review of Military Compensation, when comparing continuation rates for Montgomery GI Bill participants with non-participants found significantly higher continuation rates for the Montgomery GI Bill users. In his report, Secretary Duncan said, ". . . indicators are strong that a reduction in attrition follows from the commitment associated with participation in the Montgomery GI Bill-Reserve . . ." It is the Committee's view that if the programs of study approved are expanded for users of the Chapter 106 program, the program will be even more useful as a recruitment and retention tool.

Additionally, the Selected Reserve would benefit from an expansion in approved courses because many vital readiness skills require hands-on vocational training or advanced degree studies which are currently unavailable to members of the Reserves and National Guard under the Montgomery GI Bill. Training in skills such as those related to electronics, computers, and automotives would directly enhance the military capabilities of Reserve units.

Finally, individuals serving in the Selected Reserve would benefit personally if educational opportunities open to them were broadened. Not everyone wants or needs to pursue college-level training. In fact, projections for the year 2000 from the Department of Labor indicate some of the fastest-growing occupations are those that do not require a college diploma but do require vocational or technical training.

#### *Clarification of Receipt of Benefits*

Section 3 of the Committee bill would bar receipt of benefits for Chapter 32, title 38, U.S.C. (VEAP) and Chapter 106, title 10, U.S.C. (Montgomery GI Bill-Selected Reserve) based on the same period of service. The purpose of this provision is to correct an oversight in existing law which permits Chapter 32 and Chapter 106 entitlement duplication. The Committee notes that current law contains

similar restrictions. For example, an individual may not acquire entitlement for benefits under Chapter 30, title 38, U.S.C. (Montgomery GI Bill-Active Duty) and Chapter 106 based on the same period of service.

### *Secondary School Diploma Requirements*

Section 4 of the bill would permit a Montgomery GI Bill-active duty participant who first entered on active duty after June 30, 1985, to meet his or her secondary school diploma requirements by successfully completing the equivalent of 12 semester hours in a program of education leading to a standard college degree before the original ending date of the individual's initial obligated period of active duty. Current law requires that an individual, before the completion of his or her initial obligated period of active duty, complete the requirements of a secondary school diploma or an equivalency certificate in order to establish eligibility for Chapter 30 benefits.

The Committee points out that Section 104 of Public Law 100-689, the Veterans' Benefits and Programs Improvement Act of 1988, provided that Chapter 30 participants whose entitlement is based in part on Chapter 34 eligibility could meet the secondary school diploma requirement by successfully completing the equivalent of 12 semester hours in a program of education leading to a standard college degree. Enactment of Section 4 of the Committee bill would give greater uniformity to these eligibility requirements.

### *Vietnam Era GI Bill Eligibility for Certain Service Academy Graduates*

Section 5 of H.R. 1358, as amended, would extend eligibility for Vietnam Era GI Bill Benefits (Chapter 34, title 38, U.S.C.) to individuals who commenced their third academic year either as a cadet or midshipman at one of the service academies or as a member of the Senior Reserve Officer Training corps (SROTC) in a program of educational assistance under section 2104 or 2107 of title 10, U.S.C., retroactive to January 1, 1977. These individuals must have been separated after a period of at least 180 days active duty served pursuant to receiving a commission following service academy graduation or completion of advanced SROTC under other than dishonorable conditions.

Public Law 94-502, which established the Post-Vietnam Era Veterans Educational Assistance Program (VEAP), generally provided eligibility for this program to those entering on active duty on or after January 1, 1977. Participants in this program were required to make contributions to an education benefits account while on active duty in order to establish eligibility for the program. P.L. 94-502 also terminated the Vietnam Era GI Bill for individuals entering on active duty after December 31, 1976. Congress made an exception to this restriction and provided Chapter 34 eligibility for those who entered active duty after December 31, 1976, if they had previously contracted with the Armed Forces to enter on active duty and were enlisted in or assigned to a reserve component before January 1, 1977, and entered on active duty within 12 months after that date. However, 1977 and 1978 service-academy graduates and 1978 Senior Reserve Officer Training Corps (SROTC)

graduates were not considered to have met the above criteria and, accordingly, were restricted to participation in the VEAP program.

It is the Committee's view that because 1977 service-academy graduates entered into contracts in 1975 committing to enter on active duty and, similarly, 1978 service academy and SROTC graduates entered into contracts in 1976 committing to enter on active duty, equity requires that participation in Chapter 34 and the other special considerations included in this section should be accorded to these individuals.

It should also be pointed out that S. 2011, approved by the Senate in 1988, contained a provision similar to that in Section 5 of H.R. 1358. The Senate provision, however, restricted eligibility for the above-discussed options to individuals who elected to participate in VEAP. The House offered to accept the Senate provision if the restriction to VEAP participants were eliminated. It was the House view that equity demanded the opportunities provided under the Senate provision be available to all 1977 and 1978 service academy and 1978 SROTC graduates who generally met the eligibility requirements, not just those who chose to participate in VEAP. The other body refused to accept the House-offered compromise and, accordingly no relief for these individuals was enacted.

*Increase in Subsistence Allowance for Chapter 31 Participants and Educational Assistance Allowances for Survivors and Dependents Participating in Chapter 35*

Section 6 of the Committee bill would increase by 5 percent the rate of subsistence allowance for service-connected disabled veterans participating in rehabilitation programs under Chapter 31, title 38, U.S.C., effective January 1, 1990. Section 7 of H.R. 1358 would increase by 5 percent the educational assistance allowance for survivors and dependents receiving benefits under Chapter 35, title 38, U.S.C. These benefits have not been increased since 1984 and, since that time, education costs have increased an average of 6 to 7 percent annually.

Although mindful of current budget constraints, the Committee believes these modest benefit increases are appropriate based on the unique responsibility and commitment we as a nation have to those disabled while serving their country in the Armed Forces and to the survivors and dependents of those individuals. The Committee also notes that the budget transmitted to Congress by President Reagan recommended these benefit increases and these increases are generally supported by the current Administration.

*Use of Funds to Carry Out Activities in Connection with State Approving Agencies*

Section 8 of H.R. 1358 would provide for the use of readjustment benefit account funds to carry out activities in connection with State Approving Agencies. This would include the development and implementation of a national training curriculum for State Approving Agency employees.

By way of background, section 1774A(a)(4) of title 38, U.S.C., as amended by Public Law 100-323, requires the Veterans' Administration to "cooperate with State approving agencies in developing and implementing a national curriculum, to the extent practicable,

for training new employees of such agencies, and sponsor, with the agencies, such training and continuation of training . . . ” As expressed in a letter dated September 15, 1988, to the Chief Benefits Director of the Veterans Administration, from the Chairman of the Full Committee, the Honorable G.V. (Sonny) Montgomery, it was the intent of the Committee that funding for the development and implementation of the national curriculum should be derived from the monies made available for State Approving Agencies (SAAs). Nonetheless, the General Counsel of the Department of Veterans Affairs determined that readjustment benefit account funds could not be obligated for this purpose. Accordingly, the provisions of Section 8 clarify Congressional intent regarding this issue.

### *Technical and Clerical Amendments*

Section 9 of the Committee bill would make various technical and clerical amendments which would improve administration of education programs administered by the Department of Veterans Affairs.

### SECTION-BY-SECTION ANALYSIS OF H.R. 1358

*Section 1.*—This provision of the bill would amend sections 1431, 1632, and 1662 of Chapters 30, 32, and 34 of title 38, United States Code, respectively, to provide that the 10-year delimiting period for using education benefits under such chapters would commence from the date of last discharge from active duty of at least 90 continuous days unless the individual involved was discharged or released for a service-connected disability, for a medical condition which preexisted such service and which the Secretary determines was not service-connected, for hardship, or as a result of a reduction in force in certain circumstances.

As a special rule, section 1 would also amend section 1431(e) of title 38 to provide that the 10-year delimiting period of an individual whose Chapter 30 eligibility is based in part on his or her Chapter 34 entitlement will not be reduced by any period in 1977 before the individual began service on active duty due to his or her enlistment in the Delayed Entry Program.

*Section 2.*—This section would broaden section 2131(c)(1) of title 10 to permit those individuals going to school under Chapter 106 of that title to pursue the same types of programs of education as those approved for purposes of Chapter 30 of title 38.

This section would also add a new subsection to section 2131 to provide that educational assistance and entitlement charge therefor in the case of an individual pursuing a full-time program of apprenticeship or other on-the-job training shall be at the rate of 75 percent of the monthly educational assistance allowance otherwise payable for each of the first 6 months and a 75 percent of a month entitlement charge; 55 percent for each of the second 6 months, with a 55 percent of a month entitlement charge; and 35 percent for each of the months following the first 12 months of the individual's pursuit of such program, with a 35 percent of a month entitlement charge therefor. In any month in which the individual fails to complete 120 hours of training, the allowance payable shall be in the same proportion as the number of hours worked during

the month (rounded to the nearest 8 hours) bears to 120 hours. The entitlement charged shall also be reduced proportionately in accordance with the reduction in payment.

The new subsection would, further, provide that educational assistance and entitlement charge therefore in the case of an individual pursuing a cooperative program shall be at the rate of 80 percent of the monthly educational assistance allowance otherwise payable to such individual under Chapter 106, with 80 percent of a month entitlement charge.

Pursuit of a program of correspondence training would be allowed by this section at a rate of 55 percent of the established charges, paid quarterly on a pro rata basis for the lessons completed and serviced. One month of entitlement would be charged for correspondence training for each \$140 paid to such individual as an educational assistance allowance under this chapter.

Section 2136(b) would be amended to conform the list of provisions applicable to administration of the program with the provisions of this measure which expand the scope of educational pursuit for which assistance may be provided under Chapter 106.

*Section 3.*—Section 3 would add a new subsection to section 1621 of title 38 which would bar receipt of benefits for Chapter 32 of title 38 and Chapter 106 of title 10 based on the same period of service.

*Section 4.*—Section 4 would broaden sections 1411(a)(2) and 1412(a)(2) of title 38 to permit those Chapter 30 participants who first entered active duty after June 30, 1965, to meet their secondary school diploma requirements by successfully completing the equivalent of 12-semester hours in a program of education leading to a standard college degree if the degree credits are earned before completion of the individual's initial obligated period of active duty.

*Section 5.*—Section 5 would amend section 1652(a) of title 38 to extend eligibility for noncontributory GI Bill (Chapter 34) education benefits to an individual who had commenced his or her third academic year either as a cadet or midshipman at one of the service academies (United States Military Academy, the United States Naval Academy, the United States Air Force Academy, and the United States Coast Guard Academy) or as a member of the Senior Reserve Officer Training Corps (SROTC) in a program of educational assistance under section 2104 or 2107 of title 10, United States Code, retroactive to January 1, 1977. The individual must have been separated after a period of at least 180 days active duty served pursuant to receiving a commission following service academy graduation or completion of advanced SROTC under other than dishonorable conditions. The individual must, further, make an irrevocable election to be eligible for educational assistance under Chapter 34 and, if enrolled under the Chapter 32 program of assistance, must be disenrolled from that Chapter 32 program. As a conforming amendment, this section would add these individuals to those eligible veterans listed in subsection 1652(a)(2) for whom the requirements of discharge or release shall be waived if they have served more than 180 days in an active-duty status and continue to serve on active duty.

Upon receipt of the individual's election to receive Chapter 34 eligibility, the Secretary of Veterans Affairs is required to refund to that individual any amount of unused contributions to the Post-Vietnam Era Veterans Education Account (VEAP) within 60 days. Further, if the individual has received educational assistance under Chapter 32, the Secretary shall pay the individual concerned any additional amount due under Chapter 34 in excess of the amount received under Chapter 32. Finally, the Secretary of Veterans Affairs is required to refund to the Secretary of Defense any amount contributed by the Defense Department to the VEAP Account on behalf of such individual.

*Section 6.*—Section 6 would amend present section 1508(b) of title 38, relating to rates of subsistence allowances for service-connected disabled veterans participating in rehabilitation programs under Chapter 31 of title 38, to increase by 5 percent, effective January 1, 1990, the rates of such allowances. For example, the \$452 monthly subsistence allowance paid to a veteran who has a spouse and one child and is pursuing a full-time program of institutional training would be increased to \$475.

*Section 7.*—Section 7 would amend Chapter 35 of title 38, relating to Survivors' and Dependents' Educational Assistance, to increase by 5 percent the rates of educational assistance, effective January 1, 1990. A spouse or surviving spouse pursuing a program of education exclusively by correspondence would be charged 1 month of entitlement for each \$395 of educational assistance allowance paid for such pursuit.

*Section 8.*—Section 8 would amend section 1774(a) of title 38 to provide for the use of Readjustment Benefit Account funds to carry out activities in connection with State approving agencies pursuant to section 1774A of that title. This would include, but not be limited to, the development and implementation of a national training curriculum for State approving agency employees.

*Section 9.*—Section 9 contains various technical amendments to title 38 to clarify Congressional intent. These amendments include a change to amend section 1412 of Chapter 30 to provide that a "2 x 4" participant under that chapter would have 1 year following separation from the requisite active duty period within which to start the 4-year continuous Selected Reserve service portion of the program. Other amendments included would correct certain cross-references in the provisions for calculating Chapter 30 entitlement; add a provision clarifying the computation of entitlement for certain individuals who enroll in Chapter 30 during the "open period"; update a citation to refer to Chapter 109 of title 10; clarify that the reference to technological advances in employment for which refresher training may be pursued under Chapters 30 and 32 is to advances during and since the period of the veteran's service on active duty; include the Omnibus Diplomatic Security and Antiterrorism Act of 1986 (Public Law 99-399) among the statutory provisions under which an individual may not concurrently receive education benefits administered by the VA nor, in combination therewith, use more than 48 months of entitlement; and clarify that the individual's entitlement, not delimiting period, under Chapter 30 may be extended to either the end of a quarter or semester, when entitlement expires during such period at an educa-

tional institution regularly operated on the quarter or semester system, or the end of the course (or 12 weeks, if the lesser period), when entitlement would expire after completion of the majority of a course operated on a different basis.

Under current law reservists may not use their Montgomery GI Bill (MGIB) benefits to participate in graduate study or vocational, technical, or correspondence training. This bill would allow them these opportunities. As a result of this provision, it is estimated that training expenses for the reserve portion of the MGIB would increase 40 percent above baseline, or \$44 million in 1990. Estimated baseline spending for reservists in 1990 is about \$110 million. This estimate is based on a model which uses information from the 1986 Reserve Components Survey and program data from the Defense Manpower Data Center. It is assumed that average benefits for new trainees would be equal to those currently receiving benefits.

The Department of Defense (DOD) would fund reserve benefits on an accrual basis. The accrual charge of \$133 million in 1990 takes into account the additional training expected by the current reservists who would be eligible for these expanded benefits. The smaller accrual charges of \$38 million to \$39 million in 1991 through 1994 reflect the additional training expected by the groups of reservists who become eligible for the MGIB in each of those years. The budget authority for the Education Benefits Fund is the

sum of contributions from DOD and interest earned on the contributions to the fund.

**SECTION 5.** Section 5 would allow 1977 and 1978 graduates of the service academies and 1978 Reserve Officer Training Corps graduates to become eligible for benefits under the education assistance program in Chapter 34 of title 38, U.S.C. Under current law they are eligible to participate in the Chapter 32 program in title 38, U.S.C. To become eligible a person must notify the Secretary of Veterans Affairs of his desire to switch eligibility before January 1, 1999. Once the change in eligibility has been made, a person would receive a refund of any remaining contributions made to the Chapter 32 program and a reimbursement for the difference between Chapter 34 training rates of reimbursement and Chapter 32 rates of reimbursement for any training that has occurred.

It is assumed that the cost of this provision would be less than \$500,000. Costs could occur as a result of two factors: new training under the Chapter 34 program and reimbursements for the difference between Chapter 34 and Chapter 32 training rates. Based on information from the Department of Veterans Affairs (VA), there are approximately 11,700 people who would be eligible to make this election. About 2,100 of these people have made contributions to the Chapter 32 program (and as a result are eligible to use Chapter 32 benefits) and about 500 of them have already used some benefits. The people who are not eligible to use Chapter 32 benefits could still make this switch and train under the Chapter 34 program, although only until December 31, 1989 when the Chapter 34 program expires. If they all went to school full-time for the three months between the assumed enactment date of October 1, 1989 and December 31, 1989, costs could be about \$10 million. However, we assume this would not be a significant occurrence given the limited time they would have to use the benefits; the time within which they would have to make the decision to go to school; and the fact that they are all already college graduates and have not expressed an interest in further education (through non-participation in the Chapter 32 program). For those still eligible for Chapter 32 benefits, it is not likely that anyone who plans to go to school after December 31, 1989 would switch to Chapter 34 eligibility. Those who have the most to gain from this option would have used benefits and used them as full-time students. If they used them as full-time students, they would probably no longer be in active service. They may not become aware of their option to make this switch within the relatively short amount of time they would have to do it. Even if they do become aware of the option, they may not notify the VA by January 1, 1990. It is assumed that costs as a result of these people would not be significant either.

**SECTION 6.** Section 6 would increase the rate of rehabilitation subsistence allowances for veterans with service-connected disabilities by 5 percent. This increase would become effective January 1, 1990.

(By fiscal years, in millions of dollars)

	1990	1991	1992	1993	1994
Function 790					
Budget authority	2	3	3	3	3
Outlays	2	3	3	3	3

Based on information from the VA, the subsistence portion of the average vocational rehabilitation benefit is approximately 55 percent. The estimate above is an increase of 5 percent for 55 percent of the baseline average benefit for vocational rehabilitation assistance. This would mean an average annual benefit increase for approximately 23,000 recipients of about \$95 in 1990, when the provision is effective for three quarters of the year, and \$130 in 1991 rising to \$135 by 1994.

SECTION 7. Section 7 would increase, by 5 percent, the rates of educational assistance for survivors and dependents who are eligible for education benefits under Chapter 35 of title 38, U.S.C.

(By fiscal years in millions of dollars)

	1990	1991	1992	1993	1994
Function 700					
Budget authority	4	4	4	4	3
Outlays	4	4	4	4	3

The estimate above is based on a 5-percent increase in average benefits for survivors and dependents. Approximately 4,000 survivors would receive an average benefit increase of about \$75 in 1990 when the provision would be effective for three quarters of the year and about \$95 in 1991. By 1994 about 3,000 survivors would receive an average benefit increase of \$95. Dependents are more numerous and receive slightly higher average benefits than survivors. In 1990 approximately 35,000 would receive an average increase of \$90. In 1991 about 32,000 would receive an average increase of \$120 and by 1994 about 26,000 would receive about the same increase.

## DEPARTMENTAL VIEWS

The Committee received the following letters from the Department of Veterans Affairs and the Department of Defense on H.R. 1358.

DEPARTMENT OF VETERANS AFFAIRS,  
OFFICE OF THE SECRETARY OF VETERANS AFFAIRS,  
Washington, D.C., May 9, 1989.

Hon. G. V. Montgomery, *Chairman,*  
*Committee on Veterans Affairs,*  
*U.S. House of Representatives,*  
*Washington, D.C. 20515*

DEAR MR. CHAIRMAN: I am pleased to respond to your request for the view of the Department of Veterans Affairs (VA) and our estimate of costs concerning H.R. 1358, a bill "To amend title 38, United States Code, with respect to the Montgomery G.I. Bill, and for other purposes."

This measure proposes amendments affecting the various education benefit programs for eligible veterans and other eligible persons administered by the VA, as well as our Chapter 31 vocational rehabilitation program. While the VA agrees with several of these amendments, we do not support other provisions of H.R. 1358 in its present form.

Section 1 of the bill would provide that the 10-year delimiting period for using education benefits under Chapters 30, 32, and 34 of title 38, United States Code, would commence from the date of last discharge from active duty of at least 90 continuous days.

Under current law, an individual's basic eligibility to use VA educational assistance benefits expires at the end of the 10-year period beginning on the date of such individual's last discharge or release from active duty. This clearly was intended to accommodate an individual who, for example, due to recall, reenlistment, or extension, serves a regular, full-time active duty tour beyond the individual's initial obligated period. It assures that such individual's benefits and right to use them are not diminished as a result of remaining on or reentering active duty. Thus, the individual retains the full 10-year opportunity to use his or her earned readjustment benefits.

Unfortunately, some persons have taken advantage of the breadth of the existing statutory delimiting date language to receive more than one full 10-year eligibility period. We note, for example, an instance in which a reservist, following expiration of his original delimiting period, voluntarily served on Active Duty in AGR status for brief periods (e.g., weekends) and claimed a new 10-year delimiting period based on his last discharge from such service. The plain language of the statute permitted this, though we believe that Congress surely could not have intended such a result.

Certainly, a more substantial period of service would be necessary to cause the type of disruption to civilian life which would merit a new, full eligibility period, consistent with the law's readjustment purposes. Accordingly, the VA agrees with the intent of this proposal to require that the last discharge or release referenced be from a period of active duty of at least 90 continuous days.

We note that, as drafted, section 1 inadvertently would subject a veteran's initial qualifying period of active duty to the 90-day minimum service requirement. We suggest that the language of this section be revised to limit application of that requirement to only such active duty period as may be served subsequent to completion of the individual's initial qualifying active duty period. With such change, we would support this amendment.

Section 2 of this measure would provide that individuals eligible for benefits under Chapter 106 of title 10, the Montgomery GI Bill—Selected Reserve, may pursue the same types of programs as those approved for Chapter 30 of title 38, the Montgomery GI Bill—Active Duty. The VA defers to the views of the Department of Defense, which has jurisdiction over the Chapter 106 program, with regard to this section of H.R. 1358.

Section 3 would bar receipt of benefits for Chapter 32 of title 38 and Chapter 106 of title 10 based on the same period of service. We note that this provision is similar to the prohibition in existing law against an individual's acquiring entitlement both to Chapter 30 and Chapter 106 education benefits based on the same period of military service. We believe it was merely an oversight to permit the Chapter 32/Chapter 106 entitlement duplication, and support this proposed correction as reflecting an appropriate and uniform legislative policy in this area.

With regard to section 4 of this measure, we note that Public Law 100-689, enacted last November, made some changes to the Chapter 30 secondary school diploma requirement, among which was that those Chapter 30 participants whose entitlement is based in part on Chapter 34, eligibility could, as an alternative to meeting that requirement, successfully complete the equivalent of 12 semester hours in a program of education leading to a standard college degree. Section 4 of the pending measure would permit those Chapter 30 participants who first entered active duty after June 30, 1985, to meet their secondary school diploma requirements in a similar manner if the degree credits are earned before completion of the individual's initial obligated period of active duty. We have no objection to this change which gives greater uniformity to these eligibility requirements.

Section 5 would extend eligibility for noncontributory GI Bill (Chapter 34) education benefits to an individual who had commenced his or her third academic year either as a cadet or midshipman at one of the service academies or as a member of the Senior Reserve Officer Training Corps (SROTC) in a program of educational assistance under section 2104 or 2107 of title 10, United States Code, retroactive to January 1, 1977. The individual must have been separated after a period of at least 180 days active duty served pursuant to receiving a commission following service academy graduation or completion of advanced SROTC under other than dishonorable conditions.

The VA does not support this provision. Although we recognize that an inequity has existed between those 1977 service academy graduates who were barred from receiving Chapter 34 education benefits and those members of the SROTC who received a full scholarship and yet qualified for the noncontributory GI Bill, we do not believe it is appropriate now to amend the basic eligibility re-

quirements for a program which expires at the end of this year. Furthermore, the current Montgomery GI Bill program has set a precedent by precluding service academy graduates from receiving additional educational benefits altogether. For these reasons, we do not support the retroactive expansion of Chapter 34 benefits.

Sections 6 and 7 of H.R. 1358 would increase by 5 percent both the rates of subsistence allowances for service-connected disabled veterans participating in rehabilitation programs under Chapter 31 of title 38, and of educational assistance allowances for survivors and dependents under Chapter 35 of title 38, respectively. The increases would be effective January 1, 1990.

We support the proposed rate increase for these benefits in the context of the overall budget negotiations. These allowances were last increased in 1984, and since then education costs have risen an average of 6 to 7 percent a year. We estimate the increased benefits would cost \$5.2 million in FY 1990.

Section 8 of the proposal would amend section 1774(a) of title 38 to provide for the use of readjustment benefit account funds to carry out activities in connection with State approving agencies pursuant to section 1774A of that title. This would include, but not be limited to, the development and implementation of a national training curriculum for State approving agency employees.

We note the proposal does not limit VA payment to the "reasonable and necessary" expenses of carrying out the provisions of section 1774A. Subject to the inclusion of such qualifying language, we would support this proposal. It would help ensure that State employees would receive appropriate training to develop their employment skills, an intent clearly evinced by Congress in enacting the Public Law 100-323 provision for establishing a national training program. This amendment would clarify our authority to use readjustment benefit funds for the purposes intended.

Section 9 would make various technical and clerical amendments. We believe that these would improve administration of our education programs and, therefore, with the one exception noted below, support such amendments.

Subsection 9(a)(1) of the bill would amend section 1412 of Chapter 30 to provide that a "2 x 4" participant under that chapter would have 1 year following separation from the requisite active duty period within which to start the 4-year continuous Selected Reserve service portion of the program. We suggest that this provision needs to clarify that individuals must enter a Selected Reserve unit within such 1-year period, not merely contract to do so. With such clarification, the VA would support this amendment.

We estimate that, with the exception of sections 2, 6 and 7, enactment of S. 1358 would result in insignificant benefit costs (i.e., less than \$1 million) and insignificant administrative costs (i.e., less than \$100,000) for fiscal year 1990 and for each of the first 5 fiscal years.

As previously mentioned, section 2 of the bill would expand the educational assistance programs which may be pursued under Chapter 106 of title 10. Since the Chapter 106 program is funded by the Departments of Defense (DOD) and Transportation (DOT), there would be no benefit cost to the VA as a result of enactment of this proposed expansion. Benefit cost information for the pro-

gram is developed by DOD actuaries and, therefore, would have to be furnished by them. Moreover, lacking an estimate of the number of new trainees that would enter into the Chapter 106 program as a result of this proposal, the VA is unable at this time to provide an estimate of this section's administrative costs.

With regard to sections 6 and 7, we estimate that the 5-percent rate increases for Chapter 31 subsistence and Chapter 35 survivors' and dependents' educational assistance allowances would result in benefit costs of \$5.2 million for Fiscal Year 1990, and \$33 million for the first 5 fiscal years.

The Office of Management and Budget advises that there is no objection from the standpoint of the Administration's program to the submission of this report on H.R. 1358 to the Congress.

Sincerely,

EDWARD J. DERWINSKI,  
*Secretary.*

DEPARTMENT OF DEFENSE,  
OFFICE OF GENERAL COUNSEL,  
*Washington, D.C., May 10, 1989.*

Hon. G.V. (Sonny) Montgomery, *Chairman,*  
*House of Representatives,*  
*Committee on Veterans Affairs,*  
*Washington, D.C.*

DEAR MR. CHAIRMAN: This is in response to your request for the views of the Department of Defense on H.R. 1358, 101st Congress, a bill "To amend title 38, United States Code, with respect to the Montgomery GI Bill, and for other purposes."

H.R. 1358 would amend titles 38, and 10, United States Code, so that vocational training and graduate schools would become an entitlement for Selected Reservists under the Montgomery GI Bill (MGIB), educational and subsistence allowance of certain survivors and dependents would be increased, and certain improvements would be made in the administration of the MGIB for the Active and Reserve components.

The bill consists primarily of technical amendments of interest to the Veterans Administration. However, one section explicitly affects the Department of Defense. Section 2 would provide that individuals eligible for benefits under Chapter 106, title 10, United States Code, (Reserve MGIB), may pursue the same sorts of programs as those approved for Chapter 30, title 38, United States Code (Active component MGIB).

The Department of Defense supports the provisions of H.R. 1358 with the exception of section 2 and section 5. The Department has previously reported to Congress that expansion of the MGIB for the Reserve components without additional appropriations is untenable in view of other, more critical needs of the Reserves. The Administration does not support section 5.

The Office of Management and Budget advises that, from the standpoint of the Administration's program, there is no objection to this report from the standpoint of Administration policy.

Sincerely,

ROBERT L. GILLIAT,  
(FOR) L. NIEDERLEHNER,  
*Deputy General Counsel.*

### EXPLANATION OF THE COMMITTEE AMENDMENT

The committee adopted an amendment that would make three changes to H.R. 1358, as reported from the Committee on Veterans' Affairs on May 25, 1989.

First, the amendment would strike section 2, which would have expanded the program of education under the reserve portion of the Montgomery GI Bill to include vocational-technical training and graduate study. Expansion of the program of education for the reserve GI Bill was, instead, considered by the committee during its deliberations on the President's budget request for the Department of Defense for fiscal years 1990 and 1991. Section 632 of H.R. 2461, the National Defense Authorization Act for fiscal years 1990 and 1991, as passed by the House on July 27, 1989, recommends an expansion of the reserve GI Bill to include vocational-technical training.

Second, the amendment would clarify that the death benefit approved last year in the Veterans' Benefits and Programs Improvement Act of 1988 (Public Law 100-689), includes certain survivors of Montgomery GI Bill participants who die on active duty prior to establishing GI Bill eligibility through receipt of a high school diploma or equivalent. The provision would ensure the original intent of Public Law 100-689 to pay the death gratuity to the families of those who die on active duty.

Third, the amendment would permit Vietnam Era veterans (eligible under chapter 34 of title 38, United States Code) to receive combined benefits under the Montgomery GI Bill (chapter 30 of title 38, United States Code) if their only break in service occurred before July 1, 1985. This would correct an inadvertent result of the Veterans' Benefits Improvement and Health Care Authorization Act of 1986 (Public Law 99-576), which retroactively revoked this eligibility for a small group of individuals.

### PURPOSE

The purpose of H.R. 1358 is to make a number of technical and clarifying amendments to the Veterans' educational assistance programs authorized by chapters 38, 32 and 34 of title 38, United States Code, and chapter 106 of title 10, United States Code; to extend Vietnam-era GI Bill benefits to certain service academy and Senior Reserve Officer Training Corps graduates; to increase the subsistence allowance for certain service connected disabled veterans; and to increase the educational assistance allowance for certain survivors and dependents.

### SUMMARY OF PROVISIONS OF THE BILL

Section 1 of the bill would require that the 10-year delimiting date for use of educational assistance under the active duty Montgomery GI Bill, the Vietnam Era GI Bill, and the post-Vietnam Era

Veterans' Educational Assistance Program (chapters 30, 34, and 32 respectively of title 38, United States Code) would commence from the last discharge from active duty of at least 90 continuous days.

Section 2 would bar receipt of benefits under the Post-Vietnam Era Veterans' Educational Assistance Program (chapter 32 of title 38, United States Code) and the reserve component portion of the Montgomery GI Bill (chapter 106 of title 10, United States Code) based on the same period of service.

Section 3 would permit Montgomery GI Bill participants (chapter 30 of title 38, United States Code) who first entered on active duty after June 30, 1985, to meet their secondary school diploma requirements by successfully completing the equivalent of 12 semester hours of college credit before the end of the individual's initial obligated period of active duty.

Section 4 would extend eligibility for Vietnam Era GI Bill benefits (chapter 34 of title 38, United States Code) to individuals who commenced their third academic year either as a cadet or midshipman at one of the service academies or as a member of the Senior Reserve Officer Training Corps, retroactive to January 1, 1977.

Section 5 would increase by 5 percent the rate of subsistence allowance for service-connected disabled veterans participating in rehabilitation programs under chapter 31 of title 38, United States Code, effective January 1, 1990.

Section 6 would increase by 5 percent the educational assistance allowance for survivors and dependents receiving benefits under chapter 35 of title 38, United States Code.

Section 7 would provide for the use of readjustment benefit account funds to carry out activities in connection with State Approving Agencies.

Section 8 would make various technical and clerical amendments that would improve the administration of education programs administered by the Department of Veterans Affairs, including the two technical amendments recommended by the committee to the bill as originally reported by the Committee on Veterans' Affairs.

## BACKGROUND AND DISCUSSION

### MONTGOMERY GI BILL

The Montgomery GI Bill is designed to use educational benefits as a way to attract and retain high quality young men and women in the Nation's Armed Forces—both the active and reserve components. The structure of the program is as follows:

#### *Active duty personnel:*

- Applicable to all new entrants onto active duty after July 1, 1985
- Basic benefit of \$300 per month for 36 months in exchange for an enlistment of three years or longer (or \$250 per month for 36 months for two-year enlistment)
- Kicker authority up to \$400 per month for critical skills
- Basic benefit paid by Department of Veterans Affairs on a pay-as-you-go basis
- Kickers (and Reserve program) funded by Department of Defense on accrual basis

- Participants' pay is reduced by \$100 per month for first 12 months; service member is in program unless opts out

*Reserve and Guard personnel:*

- Applicable to all who enlist, reenlist, or extend an enlistment in a reserve component after July 1, 1985
- Entitlement of \$140 per month for 36 months in exchange for a six-year commitment in the Selected Reserve
- No member contribution required
- Funded by the Department of Defense on an accrual basis
- Applicable only to an undergraduate program of education at an institution of higher learning

H.R. 1358

The House Committee on Veterans' Affairs held extensive hearings on the proposed revisions, as outlined in greater detail in Part 1 of this report, filed May 25, 1989. The Armed Services Committee received testimony on the Montgomery GI Bill during its deliberations on the President's budget request for fiscal years 1990 and 1991. Based on the budget review, the committee recommended the expansion of the program of education under the reserve portion of the Montgomery GI Bill to include vocational-technical training as a part of H.R. 2461, the National Defense Authorization Act for fiscal years 1990 and 1991. The two additional committee amendments were included at the request of the Committee on Veterans' Affairs, based on information received subsequent to their action on H.R. 1358.

DEPARTMENTAL DATA

The Department of Defense submitted a report on H.R. 1358 on May 9, 1989.

DEPARTMENT OF DEFENSE,  
OFFICE OF GENERAL COUNSEL,  
*Washington, DC, May 9, 1989.*

Hon. LES ASPIN,  
*Chairman, Committee on Armed Services,  
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: This is in response to your request for the views of the Department of Defense on H.R. 1358, 101st Congress, a bill "To amend title 38, United States Code, with respect to the Montgomery GI Bill, and for other purposes."

H.R. 1358 would amend titles 38, and 10 United States Code, so that vocational training and graduate schools would become an entitlement for Selected Reservists under the Montgomery GI Bill (MGIB), educational and subsistence allowance of certain survivors and dependents would be increased, and certain improvements would be made in the administration of the MGIB for the Active and Reserve components.

The bill consists primarily of technical amendments of interest to the Veterans Administration. However, one section explicitly affects the Department of Defense. Section 2 would provide that indi-

viduals eligible for benefits under chapter 106, title 10, United States Code, (Reserve MGIB), pay pursue the same sorts of programs as those approved for chapter 30, title 38, United States Code (Active component MGIB).

The Department of Defense supports the provisions of H.R. 1358 with the exception of section 2 and section 5. The Department has previously reported to Congress that expansion of the MGIB for the Reserve components without additional appropriations is untenable in view of other, more critical needs of the Reserves. The Administration does not support section 5.

The Office of Management and Budget advises that, there is no objection to this report from the standpoint of Administration policy.

Sincerely,

ROBERT L. GILLIAT  
(For L. Niederlehner,  
Deputy General Counsel).

#### COMMITTEE POSITION

##### CONGRESSIONAL BUDGET OFFICE ESTIMATE

In compliance with clause 2(1)(3)(C) of Rule XI of the Rules of the House of Representatives, the estimate prepared by the Congressional Budget Office and submitted pursuant to section 403 of the Congressional Budget Act of 1974 is included hereafter:

U.S. CONGRESS,  
CONGRESSIONAL BUDGET OFFICE,  
Washington, DC, September 19, 1989.

Hon. LES ASPIN,  
Chairman, Committee on Armed Services,  
House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the attached cost estimate for H.R. 1358, a bill to increase subsistence allowances for vocational rehabilitation programs, increase education assistance rates for survivors and dependents, and

for other purposes, as ordered reported from the Committee on Armed Services on September 15, 1989.

Sincerely,

ROBERT D. REISCHAUER,  
*Director.*

CONGRESSIONAL BUDGET OFFICE—COST ESTIMATE

1. Bill number: H.R. 1358.
2. Bill title: None.
3. Bill status: As ordered reported from the Committee on Armed Services on September 15, 1989.
4. Bill purpose: To increase subsistence allowances for vocational rehabilitation programs, increase education assistance rates for survivors and dependents, and for other purposes.
5. Estimated cost to the Federal Government:

(By fiscal years, in millions of dollars)

	1990	1991	1992	1993	1994
Budget authority	6	7	7	7	6
Outlays ..	6	7	7	7	6

The costs of this bill would fall within budget function 700.

*Basis of estimate:* Those provisions in the bill which have a significant cost impact on the Federal Government or could potentially have a significant impact are discussed below. It is assumed that this bill would be enacted before January 1, 1990.

*Section 4.* Section four would allow 1977 and 1978 graduates of the service academies and 1978 Reserve Officer Training Corps graduates to become eligible for benefits under the education assistance program in Chapter 34 of title 38, U.S.C. Under current law they are eligible to participate in the Chapter 32 program in title 38, U.S.C. To become eligible, a person must notify the Secretary of Veterans Affairs of his desire to switch eligibility before January 1, 1990. Once the change in eligibility has been made, a person would receive a refund of any remaining contributions made to the Chapter 32 program and a reimbursement for the difference between Chapter 32 training rates of reimbursement and Chapter 32 rates of reimbursement for any training that has occurred.

It is assumed that the cost of this provision would be less than \$500,000. Costs could occur as a result of two factors: new training under the Chapter 34 program and reimbursements for the difference between Chapter 34 and Chapter 32 training rates. Based on information from the Department of Veterans Affairs (VA), there are approximately 11,700 people who would be eligible to make this election. About 2,100 of these people have made contributions to the Chapter 32 program (and as a result are eligible to use Chapter 32 benefits) and about 500 of them have already used some benefits. The people who are not eligible to use Chapter 32 benefits could still make this switch and train under the Chapter 32 program, although only until December 31, 1989, when the Chapter 34

program expires. If they all went to school full-time for the three-month time frame between the assumed enactment date of October 1, 1989 and December 31, 1989 costs could be about \$10 million. However, we assume this would not be a significant occurrence given the limited time they would have to use the benefits; the time within which they would have to make the decision to go to school; and the fact that they are all already college graduates and have not expressed an interest in further education (through non-participation in the Chapter 32 program). For those still eligible for Chapter 32 benefits it is not likely that anyone who plans to go to school after December 31, 1989 would switch to Chapter 34 eligibility. Those who have the most to gain from this option would have used benefits and used them as full-time students. If they used them as full-time students, they would probably no longer be in active service. They may not become aware of their option to make this switch within the relatively short amount of time they would have to do it. Even if they do become aware of the option they may not notify the VA by January 1, 1990.

*Section 5.* Section five would increase the rate of rehabilitation subsistence allowances for veterans with service-connected disabilities by five percent. This increase would become effective January 1, 1990.

[By fiscal years, in millions of dollars]

	1990	1991	1992	1993	1994
Function 700					
Budget authority	2	3	3	3	3
Outlays	2	3	3	3	3

Based on information from the VA, the subsistence portion of the average vocational rehabilitation benefit is approximately 55 percent. The estimate above is an increase of five percent for 55 percent of the baseline average benefit for vocational rehabilitation assistance. This would mean an average annual benefit increase for approximately 23,000 recipients of about \$95 in 1990, when the provision is effective for three quarters of the year, and \$130 in 1991 rising to \$135 by 1994.

*Section 6.* Section six would increase, by five percent, the rates of educational assistance for survivors and dependents who are eligible for education benefits under chapter 35 of title 38, U.S.C.

[By fiscal years, in millions of dollars]

	1990	1991	1992	1993	1994
Function 700					
Budget authority	4	4	4	4	3
Outlays	4	4	4	4	3

The estimate above is based on a five-percent increase in average benefits for survivors and dependents. Approximately 4,000 survivors would receive an average total benefit increase of about \$75 in

1990 when the provision would be effective for three quarters of the year and about \$95 in 1991. By 1994 about 3,000 survivors would receive an average benefit increase of \$95. Dependents are more numerous and receive slightly higher average benefits than survivors. In 1990, we project approximately 35,000 dependents would receive an average increase of \$90. In 1991 about 32,000 dependents would receive an average increase of \$120 and by 1994 about 26,000 would receive about the same increase.

6. Estimated cost to State and local government: None.

7. Estimate comparison: None.

8. Previous CBO estimate: On May 23, 1989 CBO released an estimate of H.R. 1358 as ordered reported by the Committee on Veterans' Affairs, May 17, 1989. The version that was reported by the Committee on Veterans' Affairs included a provision that would provide additional education benefits to reservists. That provision is not included in H.R. 1358 as ordered from the Committee on Armed Services.

9. Estimate prepared by: Richard Curley (226-2820).

10. Estimate approved by: C.G. Nuckols (for James L. Blum, Assistant Director for Budget Analysis).

#### COMMITTEE COST ESTIMATE

The committee generally concurs with the estimate of the Congressional Budget Office.

#### INFLATIONARY IMPACT STATEMENT

Pursuant to clause 2(1)(4) of rule XI of the Rules of the House of Representatives, the committee examined the possible inflationary impact of the bill. The committee believes that the enactment of this legislation will not have an inflationary impact on the economy of the United States.

#### OVERSIGHT FINDINGS

With reference to clause 2(1)(3)(D) of rule X of the Rules of the House of Representatives, the committee has not received a report from the Committee on Government Operations in regard to this matter.

With reference to clause 2(b)(1) of rule X of the Rules of the House of Representatives, the committee finds and recommends that the legislation be enacted pursuant to its oversight responsibilities.

#### BILL SUMMARY

##### PURPOSE

The purpose of H.R. 1358 is to make a number of technical and clarifying amendments to the veterans' educational assistance programs authorized by chapters 30, 32, and 34 of title 38, United States Code, and chapter 106 of title 10, United States Code; to extend Vietnam-era GI Bill benefits to certain service academy and Senior Reserve Officer Training Corps graduates; to increase the subsistence allowance for certain service-connected disabled veter-

ans; and to increase the educational assistance allowance for certain survivors and dependents.

#### FISCAL DATA

The Congressional Budget Office estimates that the bill would have no impact on the Defense budget because of the small number of individuals affected. The 5 percent increase in subsistence and educational assistance allowances recommended in sections 5 and 6 of the bill would increase budget authority and outlays for the Department of Veterans Affairs by \$6 million in fiscal year 1990, by \$7 million in fiscal years 1991, 1992, and 1993, and by \$6 million in fiscal year 1994.

#### DEPARTMENTAL DATA

The Department of Defense supported the provisions of H.R. 1358 with the exception of sections 2 and 5. The committee amendment would delete section 2.

#### COMMITTEE POSITION

On September 15, 1989, the Committee on Armed Services approved H.R. 1358, as amended.

#### CHANGES IN EXISTING LAW MADE BY THE BILL, AS REPORTED

In compliance with clause 3 of rule XIII of the Rules of the House of Representatives, changes in existing law made by the bill, as reported, are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new matter is printed in italic, existing law in which no change is proposed is shown in roman):

## §1732. Computation of educational assistance allowance

(a)(1) The educational assistance allowance on behalf of an eligible person who is pursuing a program of education consisting of institutional courses shall be **[**computed at the rate prescribed in section 1682(a)(1) of this title for full-time, three-quarter-time, or half-time pursuit, as appropriate, of an institutional program by an

eligible veteran with no dependents.] paid at the monthly rate of \$395 for full-time, \$296 for three-quarter-time, or \$197 for half-time pursuit.

(2) The educational assistance allowance on behalf of an eligible person pursuing a program of education [on less than a half-time basis shall be computed at the rate prescribed in section 1682(b)(2) of this title for less-than-half-time pursuit of an institutional program by an eligible veteran.] consisting of institutional courses on a basis other than as described in paragraph (1) of this subsection shall be the lesser of—

In any case in which independent study is combined with resident training, the educational assistance allowance shall be paid at the applicable institutional rate based on the total training time determined by adding the number of semester hours (or the equivalent thereof) of resident training to the number of semester hours (or the equivalent thereof) of independent study that do not exceed the number of semester hours (or the equivalent thereof) required for the less than half-time institutional rate, as determined by the Secretary of Veterans Affairs, for resident
