ABSTRACT

This report contains short descriptions of about 200 selected distance education institutions throughout the world. Most of the descriptions are based on questionnaires completed by members of the institutions as well as on corrections of and comments on a preliminary version of the descriptions. Descriptions contain some or all of the following information: institution name and address, ownership and type of institution, number of courses, educational level of courses, subject areas of courses, number of learners currently enrolled, relative importance of face-to-face contact, flexibility in pacing and teaching methods, media used for teaching, participants of course teams, local study centers, evaluation of courses and media, flexibility of curriculum, elements of two-way communication, media used in two-way communication, counseling, and tutoring, measures to reduce the nonstarter and dropout rates, type of continuous assessment, terminating of courses with examinations, average turnaround time for tutor's corrections and comments on assignments, types of items for the assignments, comments upon the assignments submitted, use of computers for correction and comments, success rate, and nonstarter rate. Countries represented are Algeria, Argentina, Australia, Austria, Belgium, Bolivia, Botswana, Brazil, Canada, Chile, China, Colombia, Costa Rica, Denmark, Dominican Republic, Fiji, Finland, France, West Germany, Ghana, Great Britain, Hong Kong, India, Indonesia, Ireland, Israel, Italy, Jamaica, Japan, Malawi, Mexico, Netherlands, Nigeria, Norway, Peru, Poland, Portugal, Senegal, Singapore, South Africa, Spain, Sri Lanka, Sweden, Tanzania, Thailand, Turkey, Uruguay, United States, Venezuela, Yugoslavia, Zambia, and Zimbabwe. Preface

This booklet is a revised edition of our previous report (Doerfert et al 1988) and contains short descriptions of about 200 selected distance education (DE-)institutions.

For the majority of the institutions the description is based on a questionnaire filled in by the institution described.

The questionnaire was part of an international study on distance teaching by the ZIFF at the FernUniversität (the Institute for Research into Distance Education at the German Distance Teaching University); in this study we have tried to bring together some information about DE-institutions in several countries by means of a written questionnaire - see Graff & Holmberg, eds. (1988) for details of the study and its results.

Unfortunately, the list of distance-education institutions which could be described here is by no means complete: There are several important institutions not included here because we had no suitable information about them. Some of them are listed with their addresses in Appendix I.

The descriptions given below can be distinguished according to the source of information into four categories; these categories are:

- (a) descriptions with the addition "checked by institution": The preliminary description of an institution (based mainly on the answers to the questionnaire) was sent to the institution. The institution was asked to correct and comment on the description. Then we tried to revise the description taking into account the corrections and comments made by the institution. Of course we accept full responsibility for any remaining error.
- (b) <u>descriptions with the addition "Source:.....(specification)".</u>
 In these cases the description of an institution is based mainly on the information/data given by the source specified. The descriptions of some European distance teaching universities, e.g., are based on the EADTU Directory 1988.
- (c) descriptions with the addition "new; not checked". Some institutions which were not included in the previous edition have now filled in our questionnaire. In these cases the description of an institution is based mainly on the information given by the answers to the questionnaire. (If the description based on the questionnaire of an institution was corrected and/or commented on by members of the institution then the description was marked by 'checked by institution' like in category (a) above.)

¹⁾ The list in Appendix II contains the topics and the response categories selected from the questionnaire for the purpose of this documentation.

1.,

(d) <u>descriptions without any addition</u>. Some institutions included in the previous edition did not respond to our request for correction of and comment on the preliminary descriptions of their institutions. Therefore, the preliminary description of the previous edition is repeated here simply

The editors would like to express their heartfelt thanks to those respondents who spared no effort in giving corrections and comments.

We thank also Marietta de Matteis, Daniela Klintz, Natascha Krug, Holger Frase and Stefan Stein for technical support in the ir preparing the printouts.

Rudolf Schuemer (for the editors)

The Descriptions

Centre National d'Enseignement généralisé / 1

Centre National d'Enseignement généralisé / 2

Name of institution:

Ministère de l'Éducation Nationale / Centre National d'Enseignement généralisé

Address:

43 rue Ben Cheneb B.P. 99 Alger-Bourse Algeria

Ownership and type of institution (02):

state-owned

Number of courses (Q4): 45

Educational level of courses offered (05a):

basic school education/ further education at school and basic professional training (e.g. preparation for 'A'levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)/ university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):

- (1) education, the humanities, music and the arts, languages
- (2) social sciences
- (3) economics
- (5) mathematics, sciences
- (6) medicine and medical jobs and professions
- (7) others: first aid

1 Number of learners currently enrolled (07): 80,000

Relative importance of face-to-face contacts (Q8):

- distance teaching with a few face-to-face elements or supplements (e.g. seminars, week-end seminars etc.)

face-to-face sessions, if offered: compulsory

<u>Plexibility in pacing and teaching methods/options for students (09):</u>

no flexibility

Media used for teaching (010):

radio/ television/ written course units/ face-to-face sessions

Participants of course teams (013/14):

- subject specialists/ media specialists

Local study centres (016): yes

Function of the study centres (Q17):

face-to-face teaching (compulsory for students)

Evaluation of courses and media (Q18): yes

<u>Flexibility in the curriculum</u> to be followed for the acquisition of a particular diploma (Q22):

- low/fixed curriculum

Elements of two-way communication (Q29):

- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Centre National d'Enseignement généralisé / 3

Media used in two-way communication/counselling and tutoring service (Q30):

direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (035):

 mailing of pre-produced (standardized) letters of encouragement or reminders

Type of continuous assessment (038):

- written assignments to be submitted

Terminating of courses with examinations (Q40): yes

- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44):

25 days

Types of items for the assignments (Q45):

- short open-ended questions
- multiple-choice questions
- short essays
- longer paper on a set subject

Commenting upon the assignments submitted (Q46)

- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (Q53)

30 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):

30 %

CIRSE (Circulo de Suboficiales del Ejército) / 1

Name of institution:

CIRSE (Círculo de Suboficiales del Bjército)

Address:

Godoy Cruz 2960 1425 Capital Federal Argentina

Ownership and type of institution (02):

others: cultural and social association

Number of courses (Q4): 3

Educational level of courses offered (05a):

basic school education/ further education at school and basic professional training (e.g. preparation for 'A'levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)/ university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):

- (1) languages
- (2) social sciences and law
- (3) economics
- (5) engineering

Number of learners currently enrolled (07): 272

Relative importance of face-to-face contacts (Q8):

- pure distance teaching, no face-to-face contact

CIRSE (Circulo de Suboficiales del Ejército) / 2

Flexibility in pacing and teaching methods/options for students (09):

Flexibility (in):

- when to start their course/their studies
- when to order their study material
- between different media
- how and when to use counselling services

Media used for teaching (Q10):

written course units

Participants of course teams (Q13/14):

- subject specialists/ media specialists

Local study centres (016): no

Evaluation of courses and media (Q18): yes

<u>Plexibility in the curriculum</u> to be followed for the acquisition of a particular diploma (Q22):

- low/fixed curriculum

Elements of two-way communication (029):

- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- answering of learners' queries, requests etc.

Media used in two-way communication/counselling and tutoring service (Q30):

written correspondence/ telephone/ direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (035):

- mailing of standardized letters of encouragement or reminders

CIRSE (Circulo de Suboficiales del Ejército) / 3

Type of continuous assessment (Q38):

- written assignments to be submitted

Terminating of courses with examinations (Q40): yes

- type of examination: written

Average turn-around time for tutor's correction and comments of the assignments (Q44):

20 or 30 days

Types of items for the assignments (045):

- short open-ended questions
- multiple-choice questions

- short essays

Commenting upon the assignments submitted (Q46)

- correction only/ additional comments if necessary

Use of a computer for the correction and commenting upon assignments (Q51): no

<u>Success rate</u> (average for the three courses with the highest number of enrollments) (Q53)

70 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):

30 %

checked by institution

Ferrocarriles Argentinos / 1

Name of institution:

Ferrocarriles Argentinos

Address:

Avda. Ramos Mejia 1430 C.P. 1104 Buenos Aires Argentina

Ownership and type of institution (02):

state-owned

Number of courses (Q4): 8

Educational level of courses offered (Q5a):

further professional training (<u>after</u> basic professional training and/or job experience)

Subject areas of courses (06):

- (1) languages
- (5) technical professions

Number of learners currently enrolled (Q7): 420

Relative importance of face-to-face contacts (08):

- partly pure distance teaching, no face-to-face contact
- partly distance teaching with very little face-to-face contact (for tutoring/counselling purposes or immediately before oral examinations
- partly distance teaching with a few face-to-face elements or supplements (e.g. seminars, practical training - workshops)

face-to-face sessions, if offered: compulsory

Ferrocarriles Argentinos / 2

Flexibility in pacing and teaching methods/options for students (09);

- Flexibility (in):
- when to take their exams/final exams
- when to order their study material
- when to send their assignments
- how and when to use counselling services

Media used for teaching (Q10):

written course units/ personal computers (PC)/ face-to-face sessions/ laboratories, workshops

Participants of course teams (Q13/14):

- subject specialists/ media specialists

Local study centres (Q16): no

Evaluation of courses and media (018): yes

<u>Flexibility in the curriculum</u> to be followed for the acquisition of a particular diploma (Q22):

no curricula

Elements of two-way communication (029):

- correcting of assignments
- commenting on assignments
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (Q30):

written correspondence/ telephone/ direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (035):

- mailing of individualized letters
- visit to learners by people appointed by the institution

 \sim

Ferrocarriles Argentincs / 3

- answering of learners'queries, requests etc.
- others: exchange of letters (not always on course topics)

Media used in two-way communication/counselling and tutoring service (030):

written correspondence/ audio tapes/ telephone

Measures to reduce the non-starter and drop-out_rates_(035):

- mailing of standardized letters of encouragement or reminders
- mailing of individualized letters
- phone calls to learners

Type of continuous assessment (Q38):

- written and oral assignments to be submitted
- written intermediary exams
- oral intermediary exams

Terminating of courses with examinations (Q40): yes

- type of examination: written exams (written and oral exams in languages)

Average turn-around time for tutor's correction and comments of the assignments (Q44):

- 5 days for private contract students
- 13 days for work sent out by State Colleges for assessment and comment

Types of items for the assignments (Q45):

- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject
- longer paper on a self-chosen subject from the course
- samples of learner's work
- others: translations/ transcriptions/ conversation responses on tapes

Commenting upon the assignments submitted (Q46)

- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

<u>Success rate</u> (average for the three courses with the highest number of enrollments) (Q53)

not available 1)

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):

not available 1)

Checked by institution

The success rate also is hard to determine, for much the same reasons. The dropout rate for contract students of Lamacraft Education & Management Services over the last year has been 56 per cent but these courses are free.

For the own courses of Lamacraft Education & Management Services, the dropout rate has been 18 per cent, but the students in these courses have a vested interest in getting value for the money they have paid.

¹⁾ Much of the work done by Lamacraft Education & Management Services is the servicing of courses under contract for the External Studies College of TAFE in Sydney N.S.W., which handels the enrolment of students and allocates them. Only when a student's first lesson unit is received is the allocation to Lamacraft Education & Management known. Under these conditions, the non-start rate for these subjects is not known, but is said to be over 50 percent. For the courses of Lamacraft Education & Management Services, the non-start rate is 38 percent.

Checked by institution

Name of institution:

Studiencentrum Open Hoger Onderwijs v.z.w. (StoHO)

Address:

Dr Croylaan 42 B-3030 Leuven Belgien

Ownership and type of institution (Q2):

StOHO is an autonomous association, sponsored by the Flemish Regional Executive and based on a network of universities and other institutions of higher education.

(In order to prepare for the start or open higher education in Flanders, a centre called 'Studiencentrum Open Hoger Onderwijs v.z.w.' was created in 1987. The government ordered the centre

- to prepare for the start of 'Open Higher Education in Flanders'
- to develop multi-media learning packages
- to develop and programme curricula and courses and to make
- tutorial and counselling arrangements
- to bring about cooperation with the Open Universities in the Netherlands and the United Kingdom.

At present, Flemish students are enrolled with the Netherland Ou. In the future, the organisation for Flemish Open Higher Education will be able to award degrees recognised in "lgian law on the basis of study packages or modules made up of Dutch courses and specific Flemish courses.)

Educational level of courses offered (Q5a):

university study and higher education:

The Open Universiteit (NL) will provide for the gradual establishment of 27 diploma courses at university level (5,400 hours) and at non-university higher education level (3,600 hours minimum)

Subject areas of courses (06):

- (1) humanities
- (2) a) social sciences and b) law
- (3) economics: business management, personnel management
- (5) mathematics, natural sciences and technology
- (7) others: Continuing education programme: Textile-conditioning/ Gerontology/ The economics of the non-profit sector (in preparation)

(In addition to the courses of the Netherlands Ou courses there are Flemish adaptations of existing Ou courses and courses developed specifically for Flamish target groups.)

- low/fixed curriculum

Elements_of two-way communication (029):

- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated contact
- organized face-to-face sessions
- contacts with learners initiated by the institution
- others: telephone service between students and tutors, Univ. library, Univ.bookstore

Media used in two-way communication/counselling and tutoring service (Q30):

written correspondence/ telephone

Measures to reduce the non-starter and drop-out rates (Q35):

- mailing of standardized letters of encouragement or reminders
- phone calls to learners

Type of continuous assessment (Q38):

- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes

- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44):

approx. 14 days

Types of items for the assignments (045):

- short open-ended questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject
- others: special projects/ case studies

Commenting upon the assignments submitted (Q46)

- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

<u>Success rate</u> (average for the three courses with the highest number of enrollments) (Q53)

University of New Brunswick / 1

Name of institution:

University of New Brunswick / Department of Extension & Summer Session

Address:

P.O.Box 4400 Fredericton, New Brunswick Canada E3B 5A3

Ownership and type of institution (Q2):

official body under public law (provincial university with its own charter)

Number of courses (04): 1,500

Educational level of courses offered (Q5a):

university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (06):

- (1) education, the humanities, languages
- (2) social sciences and law
- (3) economics
- (4) sylvicultural professions
- (5) mathematics, sciences and engineering
- (7) others: Forestry, physical education

Number of learners currently enrolled (Q7): 10,518

University of New Brunswick / 2

Relative importance of face-to-face contacts (Q8):

(The University of Brunswick is a dual mode institution in which distance education is a relatively recent development)

- distance teaching with very little face-to-face contact (fcr tutoring/counselling purposes (correspondence - "open access" courses work this way)
- distance teaching with a few face-tc-face elements or supplements (e.g. seminars, week-end seminars etc.) (television-assisted and audioteleconferenced courses, distance education program approach)
- face-to-face teaching with supplementary distance teaching material (overall university perspective)

face-to-face sessions, if offered: usually voluntary in television-assisted courses (are built into teleconferenced courses as often as possible, and attendence is required.)

Plexibility in pacing and teaching methods/options for students (Q9):

Flexibility (in):

- a. when to start their course/their studies
- b. when to take their exams/final exams
- c. when to order their study material
- d. when to send their assignments
- e. between different teaching methods
- g. how and when to use counselling services

a., b., c., d.: true of our correspondence courses only

- e.: face-to-face vs distance in some cases
- g.: time flexibility, yes, offered only on campus

Media used for teaching (Q10):

television/ written course units/ audio tapes/ video tapes/ telephone/ face-to-face sessions (During 1988-89, no television-assisted courses were offered, and none are likely to be given during 1989-90. Reason: too labourintensive to administer.)

Participants of course teams (Q13/14):

- subject specialists/ distance education coordinator

University of New Brunswick / 3

Local study centres (016): no

(Although during 1988-89 we did establish university/community liaison representatives in seven communities throughout the province to field inquiries, assist with publicity, registration, academic advising, & study skills tutoring)

Evaluation of courses and media (Q18): yes

Plexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):

- medium/fixed curriculum, but it contains alternatives

Elements of two-way communication (Q29);

- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- organized face-to-face sessions
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (030):

telephone/ direct (face-to-face) contacts (on campus)

Measures to reduce the non-starter and drop-out rates (x35):

- phone calls and letters to learners

Type of continuous assessment (Q38):

- written assignments to be submitted

Terminating of courses with examinations (Q40): yes

- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q+4):

7-10 days

Types of items for the assignments (Q45):

- short open-ended guestions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject
- longer paper on a self-chosen subject from the course

National Open University / 1

Name of institution:

National Open University

Address:

172 Chung Chen Road, Lu Chow Country, Taipei County Taiwan 24702 Republic of China

Ownership and type of institution (02):

state-owned

Number of courses (Q4): 90 (the academic year 1986-89)

Educational level of courses offered (Q5a):

university study and further professional training (<u>after</u> basic professional training and/or job experience)

Subject areus of courses (Q6):

- (1) education, the humanities, music and the arts, languages (These courses are similar to those which are offered by the Dept. of Humanity in our university except for "education" which is offered by the Dept. of Social Sciences)
- (2) social sciences and law (These are the courses offered by the Dept. of Social Sciences in our university)
- (3) economics (Besides this one, the related courses on business, including calculus, computer science, are offered at the Dept. of Business)

Number of learners currently enrolled (07): 20,584 (the academic year fall semester 1988)

National Open University / 2

Relative importance of face-to-face contacts (08):

- distance teaching with a few face-to-face elements or supplements (e.g. seminars, week-end seminars etc.)
- laboratories

face-to-face sessions, if offered: compulsory

<u>Plexibility in pacing and teaching methods/options for students</u> (09):

Flexibility (in):

- when to order their study material

Media used for teaching (Q10):

radio/ television/ written course units/ face-to-face sessions

(TV and radio are the mainly teaching media besides textbooks and supplementary materials (semi-monthly journal, NOU Newspaper Column) and face-to-face sessions are compulsory so far)

Participants of course teams (013/14):

 subject specialists/ media specialists/ instructional developer/ assistants

Local study centres (Q16): yes

Function of the study centres (017):

partly face-to-face teaching (compulsory for students)/ partly support of distance education (voluntary participation)

Evaluation of courses and media (Q18): yes

<u>Flexibility in the curriculum</u> to be followed for the acquisition of a particular diploma (Q22):

 high/courses in the curriculum can be chosen freely within a set framework

Blements of two-way communication (Q29):

- correcting of assignments
- commenting on assignments
- organized face-to-face sessions
- answering of learners' queries, requests etc.

Media used in two-way communication/counselling and tutoring service (Q30):

telephone/ direct (face-to-face) contacts/ letters/ periodicals/ laboratories

Measures to reduce the non-starter and drop-out rates (035):

 mailing of pre-produced (standardized) letters of encouragement or reminders

Type of continuous assessment (Q38):

- written assignments to be submitted (the number of assignments varies depending on how many units each course contains; in general, each course is required to give students 2 to 3 graded assignments)
- written intermediary exams and final exams to be taken

Terminating of courses with examinations (Q40): yes

- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44):

about 14-20 days

Types of items for the assignments (045):

- multiple-choice questions
- yes/no questions
- short essays
- short answers

Commenting upon the assignments submitted (046)

- correction and additional comments

Educational level of courses offered (05a):

basic school education/ further education at school and basic professional training (e.g. preparation for `A'levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)/ university study and further professional training (after basic professional training and/or job experience)/ others: recreational studies

(The certificates are not officially recognized; the exams must be taken afterwards and elsewhere)

Subject areas of courses (Q6):

- education, the humanities, music and the arts, languages, communications
- (2) social sciences
- (3) economics and jobs in the areas of commerce
- (4) agricultural sciences, agricultural professions (only 1 course left in 1989)
- (5) mathematics, sciences and engineering

Number of learners currently enrolled (Q7): 6,115 (+ those continuing from the previous year)

[1989 expectation: 3,000 correspondence course students 2,500 other participants (other programs)]

Relative importance of face-to-face contacts (Q8):

- partly pure distance teaching, no face-to-face contact
- partly distance teaching with very little face-to-face contact (for tutoring/counselling purposes or immediately before oral examinations
- partly distance teaching with a few face-to-face elements or supplements (e.g. seminars, week-end seminars etc.)

Flexibility in pacing and teaching methods/options for students (09);

- Flexibility (in):
- when to start their course/their studies
- when to take their exams/final exams
- when to order their study material
- when to send their assignments
- how and when to use counselling services

Media used for teaching (010):

written course units/ audio tapes/ electronic data processing (EDP on mainframe)/ personal computers (PC)/ telephone/ face-to-face sessions

Participants of course teams (013/14):

- subject specialists/ media specialists

Local study centres (Q16): no

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):

- low/fixed curriculum
- growing (in the future programs eg. "Communications")

Elements of two-way communication (029):

- correcting of assignments
- commenting on assign onts
- regular contacts be en tutor and learner: mediated contact
- organized face-to-. c sessions (in some programs)
- answering of learners queries, requests etc.
- contacts with learners initiated by the institution (not very essential)

Media used in two-way communication/counselling and tutoring service (030):

written correspondence/ telephone

Measures to reduce the non-starter and drop-out rates (Q35):

- mailing of pre-produced (standardized) letters of encouragement or reminders
- mailing of individualized letters
- phone calls to learners

Type of continuous assessment (Q38):

- assignments to be submitted (written or spoken on cassettes)

Terminating of courses with examinations (Q40): yes (not

compulsory for certificates)

- type cf examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (044):

4-14 days

Types of items for the assignments (Q45):

- short open-ended questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- samples of learner's work

Commenting upon the assignments submitted (046)

- correction with additional comments and reference remarks

<u>Use of a computer for the correction</u> and commenting upon assignments (Q51):

no (for most courses; computer used for the assignments in computer courses)

<u>Success rate</u> (average for the three courses with the highest number of enrollments) (053)

70 %

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):

10-20% (estimated)

Fédération Interuniversitaire de l'Enseignement à Distance (FIED)

Address:

Université de Paris I 12, Place du Panthéon P-75231 Paris CEDEX 05 Présidente de la FIED TELEDIX - Bureau E217 200, Avenue de la République

Ownership and type of institution (Q2):

The FIED was created in 1987 and includes 22 universities (with centres or departments for distance teaching): among them the Univ. de Provence Aix-Marseille I, Univ. de Franche-Comté, Univ. de Bordeaux III, Univ. de Caen, Univ. de Bourgogne, Univ. de Sciences Sociales de Grenoble II, Univ. de Lille III, Univ. de Montpellier III, Univ. de Nancy II, Univ. de Nantes; Univ. de Paris I (Centre audio-visuel, Radio Sarbonne), III (Sarbonne Nouvelle), VI (Unité d'enseignement et de recherche), X (Nanterre); Univ. de Reimes, Univ. de Rennes II, Univ. de Rouen, Univ. de Strasbourgh II, Univ. de Toulouse II. (The majority of the centres developed between 1963 and 1980, teaching art social sciences (classical and modern literature, philosophy, psychology, sociology, educational sciences, history, geography, languages, apllied languages) and law studies, developed in very different ways, governed by their 'host' universities.) The FIED is responsible for coordinating the activities of the different centres.

Educational level of courses offered (05a):

- 'licence', equivalent to a degree (2nd level) - a third year

- 'maîtrise', (3rd level) - a fourth year

Subject areas of courses (Q6):

cf. Q2 (The choice of subjects available for study at the distance teaching centres depends upon the university teaching resources, and agreement with the Ministry of Education.)

Number of learners enrolled (Q7): 26,000 (in 1987)

Relative importance of face-to-face contacts (Q8):

- distance teaching with a few face-to-face elements or supplements (varies with/depends on subject and the policy of the centre or of the university)

Media used for teaching (Q10):

radio/ television/ written course units/ audio cassettes/ video tapes/ electronic mail and computers / telephone/ face-to-face sessions/ supervised group work/ home kids (for physics and chemistry experiments)

Media used in two-way communication/counselling and tutoring service (Q30):

telephone/ electro: mail/ tutorial sessions/

assessment (Q38) / examinations (Q40):

Each centre applies the policy of its university in the writing and running of its curriculum, both in terms of the numbers of U.E. (units of teaching) that the student must successfully complete to obtain a qualification, and in setting the standards and criteria for that qualification.

National Distance Education Centre (NDEC)/ National Institute for Higher Education (NIHE)

Address:

Glasnevin Dublin 9 Ireland

Ownership and type of institution (Q2):

The NDEC is funded by the Irish Government, through the Higher Education Authority. While the Centre has a seperate budget, its financial affairs are administered through the National Institute for Higher Education

The NDEC was established in 1982 by the NIHE. The Centre is the executive arm of the National Distance Education Council and operates in cooperation with other higher education institutes in both the university and the technological sectors.

Students are registered as students of the NIHE Dublin. If they are allocated to a stucy centre outside Dublin, they are normally registered also as students of the study centre institution.

Number of courses (Q4):

<u>Educational_level_of_courses offered_(Q5a):</u>

university study and professional training / continuing education programme

Subject areas of courses (Q6):

a) undergraduate-level programme: <u>Information Technology</u> (Bachelor of Science/Diploma in Science in Information Technology). The course/curriculum is composed of four streams, Management Science, Human Sciences, Communications Technology, and Computing. There are four levels, and students must take all four modules at the first three levels. There are three modules in Level 4. Students who complete eight modules at Level 1 and Level 2 may terminate their studies at that stage, and be awarded a National Diploma in Information Technology.

 b) continuing education: four programmes have been provided, including <u>Business Application of Microcomputers</u>, and <u>Microcomputers and Accounting</u>

Number of learners currently enrolled (07): 290 (first cohort of degree students registered in February 1987); about 4,000 (continuing education)

Relative importance of face-to-face contacts (Q8):

- distance teaching with face-to-face elements or supplements

Flexibility in pacing and teaching methods/options for students (09);

no information (cf. Q6 and 038/40)

Media used for teaching (Q10):

radio, television (radio and TV has been used on experimental basis)/ written course units (main teaching medium)/ audio tapes/ video tapes/ computer software, floppy disks/ telephone/ face-to-face sessions (tutor)als)

Participants of course teams (013/14):

A key feature of the course development ... is the degree of cooperation with other institutions. The course team includes representatives of universities, technological institutes and other statutory bodies, as well as industry.

Local study centres (Q16): yes (over 40 centres)

75

Function of the study centres (017):

support of distance education (tutorials, practicals, access to microcomputers and software)

Evaluation of courses and media (018): yes

<u>Plexibility in the curriculum</u> to be followed for the acquisition of a particular diploma (O22):

no information (cf. Q6)

Elements of two-way communication (Q29):

- correcting of assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- organized tutorials/ practicals
- answering of learners queries, requests etc.

Media used in two-way communication/counselling and tutoring service (Q30):

written correspondence/telephone/direct (face-to-face) contacts

Continuous assessment / examinations (Q38/40):

The course text is issued in the form of units on a regullar basis throughout the course. Students complete four assignments which are due at approximately quarterly intervals. Assignments contribute 50 of the total marks for the module, and students must obtain an average mark of 40 over three assignments, to be allowed sit for examniations. The assignments are marked by tutors.

Use of a computer for the correction and commenting upon assignments (Q51):

The assignments are marked by tutors. The entire student data base is on computer, as well as assignment records, tutor records, etc.

<u>Success rate</u> (Q53)/ <u>Non-starter rate</u> (Q54):

for the first cohort of degree students: of the 290 who registered

- 12 formally notified intention to resign from the programme
- 189 sat examinations and some twenty gave formal notice of intention to sit examinations, and some twenty gave formal notice of intention of deferral
- 49 have completed all requirements for Level 1

2

Number of learners currently enrolled (07): 1,200 (in computing

Flexibility in pacing and teaching methods/options for students (Q9);

The examinations are at fixed stages twice per year and this provides a rigorous pacing mechanism.

Media used for teaching (010):

written course units/ floppy disks / computer / face-to-face sessions

Participants of course teams (Q13/14):

- subject specialists/ instructional designers/ layout staff

Local_study centres (016): ves (9 study centres)

Function of the study centres (017):

The study centres have a focus. Students receive their materials there. Students make obligatory bookings of at least two hours per week for work on the computers, attend additional lectures, and also meet their tutors and advisers in the study centres.

Evaluation of courses and media (Q18): yes

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):

- low/fixed curriculum (The Diploma curriculum consists of 13 courses, one of these is optional)

Elements of two-way communication (029)/ Media used in two-way communication/counselling and tutoring service (030):

cf. Q17

Name of institution:

Consorzio per l'Università a Distanza (CUD)

Address:

Via Bernini 5

Corso Vittorio Emanuele

No. 229

87030 Rende (CS)

00186 Roma

Ownership and type of institution (Q2):

The Institution is a consortium under Italian law.

(Members of the consortium are: Consorzio por la Ricerca e la Applicazioni in Informatica (CRAI), the University of Calabria, the University of Rome, "La Sapienza", the University of Trento. the Latina Chamber of Commerce, the town of Cosenza, l'Enidata, Formez, Olivetti and RAI.

The relationship with government is close because all syllabuses and all university education in Italy are closely regulated by the

Ministry of Education.

Learning materials and student services are designed by the CUD on behalf of those Italian universities which are members of the consortium. Students enrol at the universities, their study programme is superviesed by tutors appointed by the CUD, then students return to their universities to do the examinations.)

Number of courses (Q4): 12 (Diploma curriculum for "Informatica", a three-year degree in computing science)

Educational level of courses offered (Q5a):

university study

Subject areas of courses (06):

(1) education: CUD has developed some materials for the continuing education of teachers in both primary and secondary schools/ modern languages (planning stage)

(3) economics: "laurea" in the field of economics (under development)

(5) mathematics, sciences and engineering: "Diploma in Informatica" (Computing Studies/Computer Science)

Consorzio per l'Università a Distanza (CUD) / 3

Type of continuous assessment (Q38):

Each course has 15 units and lasts one semester. The distance students take tests at the end of each unit. Then, at the end of the course they come to the university to sit for a final examination (normally for each course of the Diploma). All examinations are oral.

Terminating of courses with examinations (Q40): yes

see Q38

Open Universiteit

Address:

Postal Address:

Valkenburgerweg 167

P.O. Box 2960 6401 DL Heerlen

6419 AT Heerlen 64

The Netherlands

Ownership and type of institution (Q2):

official body under public law

(The OU is an independent institute for higher education governed by a University Board with 13 members nominated by the Government and 8 members chosen by staff and students.)

Educational level of courses offered (05a):

university study and higher vocational education

(The university degree is comparable to the MD; the higher vocational education degree is comparable to the Bach.D.

No formal educational qualifications are required for admission. Students wishing to register must be at least 18 years old. However,, students are informed that for success in studying they will require knowledge and skills comparable to those required in secondary education.)

Subject areas of courses (Q6):

Faculties of:

- a) law
- b) economics
- c) buisiness and administration
- d) technical sciences (including informatics/computer science)
- e) natural sciences (including environmental studies and nutrition)
- f) social sciences (including education and instruct_on/personnel and organisation)
- g) cultural sciences (including history of culture, arts policy, philosophy)

Number of learners currently enrolled (07): 33,431 in the

Netherlands (+ 917
students living abroad;
Nov. 1987)

Relative importance of face-to-face contacts (Q8):

 distance teaching with a few face-to-face elements or supplements

Flexibility in pacing and teaching methods/options for students (09);

(No specific information available with regard to the categories of 09 - but:

The OU is characterised by four degrees of openess:

- open entry or access. No formal educational qualifications are required for admission
- open programming. Students can construct their own programme or curriculum by choosing courses, as far as they do not wish a regular degree programme
- freedom of place and time. Students have freedom where and when to study
- 4. freedom of pace. Students are free to progress at their own speed, according to wishes and circumstances)

Media used for teaching (Q10):

television/ written course units/ audicvisual materials/ computer programs / practical work in study centres (Printed texts generally form 80% or the work load of a course)

Participants of course teams (Q13/14):

subject specialists/ didactic experts / educational technologists

Local study centres (Q16): yes (18 study centres)

Function of the study centres (017):

- support of distance education: tutoring/counselling
- some courses have compulsory practical work in study centres

Evaluation of courses and media (Q18): yes

Open Universiteit / 4

<u>Plexibility</u> in the <u>curriculum</u> to be followed for the acquisition of a particular diploma (Q22):

Open programming. Students can construct their own programme or curriculum by choosing courses, as far as they do not wish a regular degree programme (cf. 09).

Two-way communication /:counselling and tutoring service/student support (Q29/30):

Student support has four components:

- general information about the OU, its courses and programmes, and its system of study, with advise on how to study (including an annual study guide, course guides, a journal for learners, television programmes); in addition to these materials counsellors in 18 study centres can give more information
- study advice and support for solution of problems. Centrally, a department for student support solves problems of a practical nature or in response to complaints. This department is also responsible for specific target groups such as handicapped students.
- general and initial tutoring. A combination of course-related, voluntary tutoring, comprising group sessions to discuss contents of a course and to prepare for examinations, and support and advice on study strategies and solution of problems, is given by general tutors in each study centre for all starting students in the first four to five courses belonging to a degree programme.
- course related tutoring. This is compulsory tutoring in a specific course related to well-defined learning objectives within special contents of the course, belonging to the 'course material'. Course-related tutoring is monitored by staff tutors belonging to the different production groups (faculties).

Assessment (Q38) / examinations (Q40):

The OU does not yet use a system of tutor- or computer-marked assignments. Students can use self-assessment questions in the textbooks or can participate in tutoring sessions in the study centres. Some courses have compulsory practical work in study centres. A course examination generally consists of multiple choice questions and optical-mark-reading forms. Degree programmes have besides the courses also tasks in the form of practical work, essays and/or periods of practice in a job.

Average turn-around time for tutor's correction and comments of the assignments (Q44):

not applicable (cf. 038/040)

Types of items for course examinations (Q45):

cf. 038/040

Commenting upon the assignments submitted (046)

not applicable (cf. Q38/Q40)

Use of a computer for assessment (Q51): yes

(for interactive self-testing (including feedback). Interactive electronic media based on computer technology are used also for administration and registration as well as for instrumental use and simulation. Several interactive educational programmes are available which vary from self-testing programmes in economics and law to simulation games and tutorials.)

Success rate (Q53)/Non-starter rate (Q54):

About 30% of the students take an examination within one year of starting and more than 50% within two years.

About 35% of students who take a first course do not really begin studying, are only interested in the course materials and not in a certificate, or drop out at an early stage but want to keep the materials.

About 40% are studying for one or more course certificates, and about 25% are working toward a degree. Of the goal-oriented students who started in 1984, more than 70% earned at least one course certificate within three years, and about 50% three or more certificates.

Norwegian Association for Distance Education (NADE)/ Norwegian Centre for Distance Education (NCDE)

Address:

Postboks 2100 Grunerlokka N-0505 Oslo 5

Ownership and type of institution (Q2):

NADE is an association of 18 Norwegian distance education institutions (existing since 1968). In 1986., a Consortium for higher education was established within NADE in order to make possible for NADE to represent the institutions in EADTU. The following 5 institutions joined the Consortium:

- NKS Institute of Distance Education
- The NKI Foundation (runs an engineering college and a college of computer studies)

(NKS and NKI are independent foundations with a significant range of higher education programmes.)

- The Banking Academy (owned by the bank association in Norway)
- Tromsø University (run by the state)
- BI Norwegian Management School (independent foundation; a specialised scientific college)

All these institutions offer higher education programmes at a distance. All are degree-granting institutions recognised by the Norwegian government.

At present (May 1988), a reorganisation of some of NADE's activities is being planned. A Norwegian Centre for Distance Education (NCDE) has been established as a non-profitmaking foundation. In the future, NCDE will probably represent the Norwegian Consortium in EADTU.

Educational level of courses offered (05a):

university study and further professional training: undergraduatelevel programmes/ postgraduate programmes/ continuing education programmes

Subject areas of courses (06):

- (1) education, the humanities, arts, languages
- (2) social sciences and law
- (3) economics, management/business studies, administration
- (5) mathematics, computer science
- a) <u>undegraduate</u>-level programmes: predominance of programmes in business, management and technology
- Troms¢ University: courses in mathematics, computer science, history, German, English, archaeology
- NKI: programmes in engineering and computer science
- BI and Banking Academy: courses in economics, management, business studies
- NKS: programmes (Diploma) in management/business studies, computer studies and law
- b) postgraduate programmes:
- Tromsø University: two main subjects: history and Nordic Studies
- c) continuing education programmes: most undergraduate programmes are used as continuing education programmes. In addition NKS and NKI offer a wide range of courses for continuing education. Troms ϕ University has a few continuing education programmes, for instance in school administration and management.

Media_used for teaching (010):

radio/ television/ printed material (textbooks, study guides, notes, specifically prepared materials for self-study)/ audio cassettes / video tapes/ computer programs, either on personal computers or on minicomputers; use of computer conferencing / telephone / face-to-face tuition, either in regular local classes or as short seminars organised at a central location or regionally

(The use of <u>broadcasting</u> or of <u>video cassettes</u> is not usual, although it may occur in some programmes. <u>Audio cassettes</u> are more common in various subjects. <u>Printed material</u> is used in all courses. Some of the institutions give regular <u>telephone</u> support, or give the students the opportunity of phoning their teachers occasionally. A few programmes depend on <u>computer programs</u>, either on personal computers or on minicomputers. Both NKS and NKI are piloting the use of <u>computer conferencing</u> as a regular element of some of their programmes.)

Participants of course teams (013/14):

 subject specialists/ editorial and production specialists (for materials specifically designed for distance studies)

Morwegian Association for Distance Education (NADE) / 3

Elements of two-way communication (Q29) /Methods and media used in two-way communication/counselling and tutoring service (Q30):

- correcting of written assignments (compulsory component)
- some kind of face-to-face tuition (either in regular local classes every week, or as short seminars organised at a central location or regionally.
- regular telephon support (cf. Q10)

Type of continuous assessment (Q38):

- written assignments to be submitted (compulsory component)

(As a rule, assessment is based on written assignments. Many of the programmes have a modular structure, very often with examinations in course modules of two credit points.)

checked by institution

Universidade Aberta

Address:

Rua de Escola Politécnica 147 1200 Lisboa Portugal

Ownership and type of institution (Q2):

official body under public law

(The Universidade Aberta appeared first under the name 'Instituto Português de Ensino a Distância' (Portuguese Institute for distance teaching) in 1980, as a Directorate-General of the Ministry of Education, with the major aim of producing the necessary conditions for the introduction of a Portuguese open university. In 1988 the Minister of Education announced the creation of the Universidade Aberta.)

Educational level of courses offered (Q5a):

university study

Subject areas of courses (06):

- (1) education/teacher training:
 - undergraduate (target group: teachers seeking to complete academic qualifications
 - postgraduate programme (mainly concerned with in-service teacher training)
 - continuous education: upgrading courses for teachers
- (3) economics:
 - continuous education: upgrading courses for professionals
 (for example, executive managers)

Relative importance of face-to-face contacts (08):

 distance teaching with a few face-to-face elements or supplements

Media used for teaching (Q10):

radio/ television/ written course units/ audio cassettes/ video cassettes / computer / telephone/ face-to-face sessions

(Distance teaching is based on a self-teaching system; written materials will provide the main teaching medium, audio, video and computer-based materials being considered as complementary. ...

Extensive use of broadcasting, both by radio and television, will be made; cassettes will be available in study centres. More extensive use of cassettes will be required whenever distance teaching occurs in institutional surroundings (e.g., in a buisiness enterprise).

Administrative information will be conveyed through the press to students; videotext, when in use in Portugal, will be employed for the same purpose.)

Participants of course teams (Q13/14):

- subject specialists/ instructional designers/ media specialists

Local study centres (Q16) and their function (Q17):

Access to a network of study centres will be provided by the Universidade Aberta, although attendance will not be compulsory. Cassettes will be available in the study centres.

Elements of two-way communication (Q29)./Media used in two-way communication/counselling and tutoring service (Q30):

written correspondence/telephone: Regular and frequent interaction between students and the Universidade Aberta will be carried out through correspondence and telephone.

Universidade Aberta / 3

Type of continuous assessment/examinations (Q38/40):

Academic control will be based on a continuous process of partial assessment through sampling and analysing information received from the students.

The final assessment for each subject unit will be made at fixed dates through examinations requiring the presence of the the student.

Sukhothai Thammathirat Open University (STOU)

Address:

Bangpood, Pakkred, Nonthaburi 11120

Thailand

Ownership and type of institution (Q2):

State University under the guidance of the Ministry of University Affairs

Academic structure:

The University is not organized into faculties and departments instead, these coalesce and form "schools" representing major study areas (see Q6). Each school is responsible for the planning of the curriculum and the provision of instruction in the group of subjects it supervises.

Educational level of courses offered (Q5a):

university study, further professional training, continuing education:

STOU organize; its courses into three levels: bachelor's degree level; certificate or diploma level; and continuing education level.

A bachelor's degree is ordinarily awarded after completion of a 4-year programme. For those already possessing a certificate, diploma or bachelor's degree in another discipline, STOU offers a bachelor's degree programme which can be completed in 2.3 years. Subject areas: see Q6.

<u>Certificate programme</u>: STOU organizes 1-year and 2-year certificate level courses as follows

- 1.) Certificate for Teachers (1-year)
- 2.) Certificate in Local Administration (1-year)
- 3.) Certificate in Government Administration (1-year)
- 4.) Certificate in Basic Home Economics (1-year)
- 5.) Cectificate in Land and Property Law (2-year)
- 6.) Certificate in English for Preofessional Purposes (1-year)

<u>C.itinuing Education Programmes</u>: STOU provides educational services to the public in the form of continuing education. This takes three forms:

- a) dissemination of knowledge and information to the people via the mass media: over 7,800 radio programmes and 1,100 television programmes per year (each 20 - 30 minutes long)
- b) the organization of special programmes: STOU cooperates with various agencies and organisations to device special curricula for staff development programmes; for example a training course for elementary school administrators or co-operation with the Bank of Agricultutre and Co-operatives in enabling employees to study various subjects or co-operation with the Social Welfare Council of Thailand to develop training programmes for staff members.
- c) the <u>Certificate of Achievement Programme</u>: educational service whereby any individual may have access to university education. Participants in this programme may choose to study one course per semester for their personal and professional self-improvement. There is no age restriction and no educational qualifications are required for enrolment in the programme.

<u>Subject_areas_of courses (Q6):</u>

STOU is organized into "schools" (see above) representing major subject areas; these are:

- 1.) liberal arts
- 2.) educational studies
- 3.) management science
- 4.) law
- 5.) health science
- 6.) economics
- 7.) home economics
- 8.) agrcultural extension and co-operatives
- 9.) political science
- 10.) communications arts

Number of learners currently enrolled (07): 176,987 (July 1985)

Sukhothai Thammathirat Open University (STOU) / 3

Relative importance of face-to-face contacts (Q8):

- distance teaching with face-to-face elements or supplements (see Q16/17)

Media/Methods used for teaching (010):

The teaching/learning system comprises the following elements:

- 1. instructional media:
- 1.1 main media: textbooks and workbooks which are mailed to students
- 1.2 support media: audio-cassettes and radio and television programmes in conjunction with printed course materials and other audio-visual aids
- attendance at tutorial sessions at regional and local study centres thoughout the country
- study and independent research using study materials in libraries and "STOU corners" in all provincial public libraries
- 4. attendance at intensive training sessions and practical experiments in laboratories for certain courses, or study and research in addition to work experience at designated locations.

Study centres (Q16)/Function of the study centres (Q17):

STOU has set up four kinds of educational services centres:

- reginal study centres
- local study centres
- specialized practical centres
- STOU Corners

These centres are places where educational activities of the university are carried out, such as orientation, tutorials, examinations and educational counselling sessions. They alos serve the University's local information and public relations offices, as well as as serving as co-ordination centres.

Sukhothai Thammathirat Open University (STOU) / 4

Assessment (Q38) / Examinations (Q40):

STOU considers it an important policy consideration to uphold and maintain educational qulity and standars at the same level as those of other state universities.

The evaluation system comprises the following elements:

- semester examinations and re-examinations: These are held at local study centres. Student must go to sit for examinations at a designated examination centre in their own province on specified days and at the specified time.
- evaluation of practical work: Selected courses require practical work or research. There is substantial weighting for this kind of activity which contributes to the final evaluation of the course.
- 3. evaluation of the professional enrichment and the graduate experience enrichment programme: Each school stipulates that those who complete their courses must participate in an intensive residential workshop at a designated study centre. The assessment of the student's performance in the residential workshop, which is designated to be a culminating activity, contributes to meeting the graduation requirements of prospective graduates.

- when to take their exams/final exams
- when to send their assignments
- how and when to use counselling services

Media used for teaching (Q10):

written course units

Participants of course teams (Q13/14):

- subject specialists

Local study centres_(Q16): no

Evaluation of courses and media (Q18): no

<u>Flexibility in the curriculum</u> to be followed for the acquisition of a particular diploma (Q22):

 high/courses in the curriculum can be chosen freely within a set framework

Elements of two-way communication (Q29):

- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated contact
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (Q30):

written correspondence/ telephone

Measures to reduce the non-starter and drop-out rates (Q35):

- mailing of standardized letters of encouragement or reminders
- mailing of individualized letters
- phone cal' to learners

Type of continuous assessment (038):

- written assignments to be submitted
- written intermediary exams

National Technical Schools / 3

Terminating of courses with examinations (Q40): yes

- type of examination: written exams

Average turn-around time for tutor's correction and comments of the assignments (Q44):

3 days

Types of items for the assignments (Q45):

- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on for a prescribed (e.g. numerical answers)

Commenting upon the assignments submitted (Q46)

- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

22 %

National Technological University

<u>Address:</u>

P.O. Box 700 601 S. Howes Street Fort Collins, CO 80522 USA

Ownership and type of institution (02):

private, non-profit institution

(NTU is a private, non-profit institution to serve the advanced education needs of engineers, scientists and technical managers.

Its activities include the development and distribution of graduate and continuing education courses via the NTU Satellite Network)

Number of courses (Q4): 500

Educational level of courses offered (05a):

university study and advanced technical and professional training (after basic professional training and/or job experience)/graduate college courses

(On a nationwide basis, NTU offers a wide range of instructional television courses taught for academic credit by faculty of 24 of the nation's leading engineering universities. Master of Science degrees are awarded in seven disciplines - sec 06)

Subject areas of courses (Q6):

(5) mathematics, sciences and engineering:
 master degree programs for 7 disciplines:
 computer engineering/computer science/
 engineering management/electrical engineering/
 manufacturing systems engineering/
 management of technology/materials science and engineering

Number of learners currently enrolled (07):

- 1,300 for credit per semester
- 40,000 for short courses per year

Relative importance of face-to-face contacts (Q8):

- pure distance teaching

(The NTU network is configured so that each instructor can simultaneously teach both on- and off-campus students. Specially equipped ITV classrooms ... are the origination point of each broadcast. The ITV signal can be beamed instantly or tape delayed from each of the 24 campuses to the satellite. ... The part-time students at their job sites can view the class either on tape or live and, through telephone linkages, ask questions during the class session when live)

Flexibility in pacing and teaching methods/options for students (09);

Flexibility (in):

- when to start their course/their studies: 4 times a year for credit courses and daily for short courses.

Media used for teaching (Q10):

television: instructional television network (ITV) via satellite/ video tapes/ electronic mail/ teleconferencing/ computer conferencing (planned)/ telephone

Participants of course teams (Q13/14):

- subject specialists/ media specialists

(To conduct the academic functions, NTU relies upon a graduate faculty of consultants selected from the instructors of each participating institution. These faculty consultants are organized in discipline groups to form Graduate Faculties... The Graduate Faculties in each discipline are supported by four standing Committees as follows: Curriculum Committee; Admission and Academic Standards Committee, which also oversees academic advising; Staffing Committee; and, finally, an Academic Executive Committee. A senjor administative coordinator at the NTU ... is assigned to each Graduate Faculty to support and coordinate functions and activities.)

Local study centres (Q16):

Over 70 organizations (universities and colleges, corporations, government agencies) currently receive the ITV programs at over 200 sites.

Evaluation of courses and media (Q18): yes

<u>Plexibility in the curriculum</u> to be followed for the acquisition of a particular diploma (Q22):

 high/courses in the curriculum can be chosen freely within a set framework

Elements of two-way communication (Q29):

- correcting of assignments
- commenting on assignments
- answering of learners' queries, requests etc. by phone, FAX or electronic mail

Media used in two-way communication/counselling and tutoring service (Q30):

written correspondence, FAX /electronic mril/ telephone (cf. 029)

(NTU offers an advising service: each student in an approved degree program is assigned an academic advisor who has access to the student records through the interactive, computer-based record system maintained at NTU.)

Measures to reduce the non-starter and drop-out rates (Q35):

- mailing of individualized letters
- phone calls to learners

Type of continuous assessment (Q38):

no continuous assessment of credit students except as implemented by instructors

Terminating of courses with examinations (Q40): yes

- type of examination: written exams or project reports.

Average turn-around time for tutor's correction and comments of the assignments (Q44):

10 days

Types of items for the assignments (Q45):

- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject
- longer paper on a self-chosen subject from the course
- samples of learner's work

(all methods are used)

Commenting upon the assignments submitted (Q46)

- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): not standard

Success rate (average for the three courses with the highest number of enrollments) (053)

95 % (success rate for curriculum: ≈ 80%)

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):

5 % (drop-out rate for curriculum: $\approx 10\%$;)

ă

Name of institution:

The University of Arizona Extended University

<u>Address:</u>

Babcock Building, Suite 1201 1717 B. Speedway Boulevard Tucson, Arizona 85719

Distance learning is only a minor part of this institution's mission as a land-grant institution

Ownership and type of institution (Q2):

state-owned

Number of courses (5.4): 80 Videocampus courses
114 University correspondence courses

Educational level of courses offered (05a):

basic school education (high school)/ university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (06):

- (1) education, the humanities, music and the arts, languages
- (2) social sciences and law
- (3) economics
- (4) agricultural sciences, agricu tural and sylvicultural professions
- (5) mathematics, sciences and engineering
- (6) medicine and medical jobs and professions (nursing, pharmacy)

Number of learners currently enrolled (Q7):

- 2,000 university correspondence courses
- 2,250 high school correspondence courses
- 2,000 videocampus
- 2,000 extension

Relative importance of face-to-face contacts (Q8):

- partly distance teaching with very little face-to-face contact (for tutoring/counselling purposes or immediately before oral examinations)
- partly face-to-face teaching with supplementary distance teaching material (for courses offered in Arizona locations)

face-to-face sessions, if offered: compulsory

Flexibility in pacing and teaching methods/options for students (09);

Flexibility (in):

- when to start their course/their studies
- when to take their exams/final exams
- when to order their study material
- when to send their assignments (one year completion limitation)
- between different media

Media used for teaching (Q10):

television (being developed statewide; operational by 1990)/ written crurse units/ audio tapes/ video tapes/ slides/ personal computers (PC)/ face-to-face sessions (in several off campus locations)

Participants of course teams (Q13/14):

- subject specialists

Local study centres (Q16): yes

Function of the study centres (017):

mainly face-to-face teaching (compulsory for students) others: some live video delivered courses

some tape delivered course

Evaluation of courses and media (018): yes

further education at school and basic professional training (e.g. preparation for 'A'levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)/ university study and further professional training (after basic professional training and/or job experience)

Subject areas of courses (Q6):

- (1) education the humanities, music and the arts, languages
- (2) social sciences and law
- (3) economics
- (5) mathematics, sciences and engineering

Number of lear.ars currently enrolled (07): 3,450

Relative importance of face-to-face contacts (Q8):

- partly pure distance teaching, no face-to-face contact
- partly distance teaching with very little face-to-face contact (for tutoring/counselling purposes or immediately before oral examinations

Plexibility in pacing and teaching methods/options for students (Q9):

- Flexibility (in):
- when to start their course/their studies
- when to take their exams/final exams
- when to order their study material
- when to send their assignments
- how and when to use counselling services

Media used for teaching (Q10):

written course units/ audio tapes/ video tapes/ face-to-face sessions

Participants of course teams (Q13/14):

- subject specialists/ media specialists

Local study centres_(Q16): yes

Function of the study centres (Q17):

support of distance education (voluntary participation)

Evaluation of courses and media (Q18): no

<u>Plexibility in the curriculum</u> to be followed for the acquisition of a particular diploma (Q22):

no answer

Elements of two-way communication (029):

- correcting of assignments
- commenting on assignments

Media used in two-way communication/counselling and tutoring service (Q30):

written correspondence/ telephone/ audio tapes/ direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (Q35):

- mailing of standardized letters of encouragement or reminders

Type of continuous assessment (Q38):

- written assignments to be submitted
- written intermediary exams

Terminating of courses with examinations (Q40): yes

- type of examination: written exams

University of Washington / 3

Average turn-around time for tutor's correction and comments of the assignments (Q44):

5 days

Types of items for the assignments (Q45):

- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject

Commenting upon the assignments submitted (Q46)

- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): no

Success rate (average for the three courses with the highest number of enrollments) (253)

Universidad Nacional Abierta (UNA)

Address:

Apartado 2096 Caracas 1010 Venezuela

Ownership and type of institution (02):

state-owned

Number of courses (04): 250

Educational level of courses offered (Q5a):

university study and further professional training (after basic professional training and/or job experience): The educational level of courses offered is at university level - i.e. courses leading to an university degree - equivalent to a Bachelor degree in the USA - and post-graduate degrees

subject areas of courses (Q6):

- (1) education
- (3) economics, administration, accounting
- (5) mathematics, engineering
- (7) others: public administration

Academic areas and initial careers:

	AREA:		CAREER:
1)	education	1.1)	education
		1.2)	general education
2)	admınıstratıon	2.1)	public administration
	and accountancy	2.2)	business administration
		2.3)	accounting
3)	mathematics	3.1)	mathematics
4)	engineering	4.1)	industrial engineering
			system engineering
5)	general studies	5.1)	general studies
6)	post graduate		distance education

Number of learners currently enrolled (Q7): ≈ 24,000

Relative importance of face-to-face contacts (Q8):

 distance teaching with very little face-to-face contact (for tutoring/counselling purposes or immediately before oral examinations

face-to-face sessions, if offered: partly voluntary/partly
compulsory

(UNA does not encorrage students to take part in face-to-face activities with the tutor. The students may participate in these activities voluntarily but the UNA provides the presence of a tutor when needed. In few courses students are requested to see the tutor especially in courses with graded assignments.)

Flexibility in pacing and teaching methods/options for students (09);

- Flexibility (in):
- when to order their study material
- how and when to use counselling services

(Students receive instructional material at enrollment time. However, the material can be purchased from the university at any time by anyone who vishes)

Media_used for teaching (010):

television/ written course units/ audio tapes/ video tapes/ electronic data processing (EDP on mainframe)/ personal computers (PC)/ telephone/ face-to-face sessions/ laboratories, workshops/ others: field studies and projects

Participants of course teams (Q13/14):

- subject specialists/ media specialists/ didactic specialists

(The preparation of the instructional material is the cooperative task of what is called the 'course team'. Each team is composed of specialists in: instructional design/ student evaluation (assessment)/ media/ content (subject matter).)

Local study centres (Q16): yes

Function of the study centres (017):

partly face-to-face teaching (compulsory for students)/ partly support of distance education (voluntary participation)

(Local centres are the basic operational level by which the relationship between UNA and students is established: enrollment / tutoring/ counselling/ examinations/ support of distance education/ libraries/ social relations (e.g. groups of students helping each other)

Evaluation of courses and media (Q18): yes

<u>Plexibility in the curriculum</u> to be followed for the acquisition of a particular diploma (Q22):

- medium/fixed curriculum, but it contains alternatives

(The fixed curriculum sytem is used in UNA but the students can elect some courses - the so calles 'electives')

Elements of two-way communication (029):

- correcting of assignments*
- commenting on assignments*
- regular contacts between tutor and learner: direct face-to-face contact
- answering of learners' queries, requests etc.
- contacts with learners initiated by the institution

(\star 'Assignment' means in UNA: tests or graded assignments to be taken in the study centres)

Media used in two-way communication/counselling and tutoring service (Q30):

written correspondence/ telephone/ audio tapes/ direct (face-to-face) contacts

(mostly face-to-face in the study centres)

Measures to reduce the non-starter and drop-out rates (Q35):

- mailing of pre-produced (standardized) letters of encouragement or reminders
- mailing of individualized letters
- phone calls to learners
- others: trying to find out the reasons for dropping out and help the student to overcome the situation

Type of continuous assessment (038):

- tests (instead of written assignments see Q29)
- written intermediary exams
- others: essays on a set subject/practical work

Terminating of courses with examinations (Q40): yes

type of examination: written exams/ special exams for the blind persons

(The student can in the great majority of courses cumulate points towards the final exams. Therefore, 'last opportunity exam' is a more appropriate term than 'final exam' - i.e. these exams are the last chance to approve the course within that academic period.)

Average turn-around time for tutor's correction and comments of the assignments (Q44):

10 days

(Here: time for evaluating the tests)

Types of items for the tests (045): (tests, no submitted assignments)

- open-ended questions

- multiple-choice questions (with only one correct response)
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- others: problems/ practical work (see Q10)/ essays

Commenting upon the tests (046)

- correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): yes

The Netherlands

United Kingdom

The EADTU was established in 1987. Its objectives are:

- to promote higher distance education in European countries
- to support bilaceral and multilateral contacts between academis staff of the participating institutions
- to support cooperation in the fields of research, course development, course transfer and credit transfer.
- to develop new methods and techniques for higher education,
 including new technologies and media, and,
- to organise common projects in these fields in cooperation with European authorities.

In order to achieve these objectives, EADTU has setup several Working Groups.

EADTU has two different types of members. The first type encompasses independent non-profit institutions or consortia which comprise or include independent higher distance teaching institutions. The second type comprises departments of universities or of institutions of higher education which teach at a distance and conduct research on distance education.

European Association of Distance Teaching Universities (EADTU) / 2

Members:

- Consorzio per l'Università a Distanza (CUD), Italy
- Deutsches Institut fur Fernstudien (DIFF), Federal Republic of Germany
- FernUniversitat (FernU), Federal Republic of Germany
- Federation Interuniversitaire de l'Enseignement à Distance (FIED), France

Name	of	inst	itut	ion:	<u> </u>	 	
Addr	ess	<u> </u>					

Ownership and type of institution (Q2):

state-owned/official body under public law/private, commercial institution/belonging to an association of some kind (trade union, church, etc.)/ other type of institution

Number of courses (Q4):

Educational level of courses offered (Q5a):

basic school education/further education at school and basic professional training (e.g. preparation for `A'levels, high school certificate and entrance qualifications for university studies, upper secondary level, technical college etc.)/ university study and further professional training (after basic professional training and/or job experience) / others:.....

Subject areas of courses (Q6):

- education, the humanities, music and the arts, languages
- (2) social sciences and law
- (3) economics
 (4) agricultural sciences, agricultural and sylvicultural professions
- (5) mathematics, sciences and engineering
- (6) medicine and medical jobs and professions
- (7) others:.....

Number of learners currently enrolled (Q7):

Relative importance of face-to-face contacts (08):

- pure distance teaching, no face-to-face contact
- distance teaching with very little face-to-face contact (for tutoring/counselling purposes or immediately before oral examinations
- distance teaching with a few face-to-face elements or supplements (e.g. seminars, week-end seminars etc.)
- distance teaching and face-to-face teaching of equal importance
- face-to-face teaching with supplementary distance teaching material
- other possibilities

face-to-face sessions, if offered: voluntary/compulsory

Flexibility in pacing and teaching methods/options for students (Q9);

Flexibility (in):

- when to start their course/their studies
- when to take their exams/final exams
- when to order their study material
- when to send their assignments
- between different teaching methods
- between different media
- how and when to use counselling services

Media used for teaching (Q10):

radio/ television/ written course units/ audio tapes/ video tapes/ films/ slides/ electronic data processing (EDP on mainframe)/ personal computers (PC)/ telephone/ face-to-face sessions/ laboratories, workshops/ others:.....

Participants of course teams (Q13/14):

- subject specialists/ students of the subject in question/ media specialists
- subject specialists/ media specialists
- subject specialists

Local study centres (Q16): yes/no

Function of the study centres (Q17):

face-to-face teaching (compulsory for students)/support of
distance education (voluntary participation)

Evaluation of courses and media (Q18): yes/no

Flexibility in the curriculum to be followed for the acquisition of a particular diploma (Q22):

- low/fixed curriculum
- medium/fixed curriculum, but it contains alternatives
- high/courses in the curriculum can be chosen freely within a set framework
- others:.....

Elements of two-way communication (Q29):

- correcting of assignments
- commenting on assignments
- regular contacts between tutor and learner: mediated/direct face-to-face contact
- organized face-to-face sessions
- answering of learners'queries, requests etc.
- contacts with learners initiated by the institution

Media used in two-way communication/counselling and tutoring service (030):

written correspondence/telephone/audio tapes/direct (face-to-face) contacts

Measures to reduce the non-starter and drop-out rates (035):

- mailing of standardized letters of encouragement or reminders
- mailing of individualized letters
- mailing of standardized encouraging audio tapes
- mailing of individualized audio tapes
- phone calls to learners
- visit to learners by people appointed by the institution

Type of continuous assessment (038):

- written assignments to be submitted
- written intermediary exams
- oral intermediary exams

Terminating of courses with examinations (Q40): yes/no

- type of examination: written/oral/written and oral exams

Average turn-around time for tutor's correction and comments of the assignments (Q44):

days

Types of items for the assignments (045):

- short open-ended questions
- multiple-choice questions
- questions to be answered (filled in) on forms prescribed (e.g. numerical answers)
- short essays
- longer paper on a set subject
- longer paper on a self-chosen subject from the course
- samples of learner's work

Commenting upon the assignments submitted (Q46)

- correction only/correction and additional comments

Use of a computer for the correction and commenting upon assignments (Q51): yes/no

<u>Success rate</u> (average for the three courses with the highest number of enrollments) (Q53)

옿

Non-starter rate (average for the three courses with the highest number of enrollments) (Q54):

옿
