ABSTRACT

The 22nd annual edition of Michigan's Postsecondary Admissions & Financial Assistance Handbook provides essential information regarding contact personnel, campus characteristics, admission requirements, program offerings, and application procedures for each college and university in the state. It contains a listing of over 7,000 instructional programs that are available in Michigan's postsecondary institutions and indicates those programs wherein a student might qualify for teacher certification in a major field. Information on various private occupational schools that are licensed or approved to operate in Michigan is offered along with basic information on financial assistance opportunities available to prospective students. After a brief consideration of education and career planning, schools are listed alphabetically within the following five categories: (1) Michigan public junior and community colleges; (2) Michigan public four-year institutions; (3) Michigan independent two-year and four-year colleges and universities; (4) vocational school programs licensed by Michigan Department of Education; and (5) occupational programs licensed by other state agencies. A program cross-index to all schools listed previously is also provided as is a guide to financial aid. (SM)

The Michigan State Board of Education has prepared for your information this twenty-second annual edition of the Postsecondary Admissions & Financial Assistance Handbook. This publication has been prepared through the combined efforts of the Michigan Department of Education's Higher Education Management and Student Financial Assistance Service Areas and the Michigan Student Financial Aid Association.

This Handbook attempts to deal primarily with considerations that would be of initial concern to prospective postsecondary students rather than undertaking an extensive review of each institution. It provides essential information regarding contact personnel, campus characteristics, admission requirements, program offerings and application procedures for each college and university in Michigan.

In addition, the Handbook includes a variety of information pertaining to the various private occupational schools that are licensed or approved to operate in Michigan. It also contains basic information regarding the various financial assistance opportunities that are available to prospective students.

This Handbook contains a listing of over 7,000 instructional programs that are available in Michigan's postsecondary institutions and indicates those programs wherein a student might qualify for teacher certification in a major field.

The State Board of Education wishes to express its sincere appreciation to those school personnel who have helped make this document possible.

# EDUCATIONAL AND CAREER PLANNING

So high school is over, or just about over. What next? There are a variety of options available: a job, military service, marriage, travel, further study of something, etc. This is a very important point in your life, a time when some hard decisions need to be made regarding the future.

As you look at these alternatives, we encourage you to consider carefully the possibility of obtaining some form of postsecondary training. As our society becomes more complex, many individuals are finding that some form of education after high school is a necessary prerequisite for full and successful participation. Choosing the right school for such study is a crucial first step in this process. There are several key areas to review as you evaluate various schools.

The **academic climate** of the institution should definitely be explored. From this Handbook and various admissions publications, compare your credentials with those of the present freshmen at that particular school. The school's admissions staff and your high school guidance counselor will be of great assistance in this regard. They are aware of the institution's selection criteria and the success previous graduates from your high school have enjoyed.

The **program offerings** of the various institutions need to be considered in your decision-making process. If you are interested in a specific field of study, schools offering recognized programs in that area should be investigated first. On the other hand, if you are not too sure where your interests lie, discuss the matter further with your family and high school guidance counselor to gain more insight. Your high school guidance office can assist you in the evaluation of your interests and aptitudes.

There are **non-academic factors** to consider also in making your school choice. How large is the student body? Is campus housing available? What is the nature of the community in which the school is located, and how far is it from home? Does the institution provide the environment and opportunity for the types of extracurricular activities that interest you? What type of social climate exists on the campus? Be sure to get answers to questions like these. They will enable you to select an institution compatible with your personal interests.

Your investigation should also include a thorough review of the **cost** of the school being considered. From this Handbook and the current school catalogue, the basic educational expenses of the institution for an academic year can be determined. Then add on amounts for personal expenses as needed to arrive at a total that will realistically

reflect your overall needs.

As part of the process of financial planning, it would be wise to discuss realistically with your family the amount of **assistance** your parents will be able to give you. Since most financial assistance programs are simply meant to supplement what your parents can pay, the resources available from within the family need to be fully investigated. Once you have done this groundwork, if outside aid is deemed necessary, you should see your counselor and the school's various publications concerning the procedures involved in applying for financial assistance. A subsequent section of this Handbook discusses a variety of concerns related to student financial aid.

Last to be mentioned here, but certainly not least in importance, are the respective **application procedures** for admission and financial aid consideration. You must carefully submit all required admissions forms correctly and on time if you expect full consideration.

Equal care must be exercised if you are applying for financial assistance. Decisions on admission and financial aid are often made soon after the filing deadline on the basis of the materials at hand, so it is to your advantage to be prompt in carrying out your responsibility in this very important area.

This Handbook has been prepared to assist you in these areas. However, your investigations must not stop here; the best sources of information are your high school guidance counselor and the various schools themselves. You will find that your high school guidance counselor has a wide variety of printed materials available and that additional information is available as well by writing directly to the admissions office of a specific school. Also, if possible, try to visit campuses during the latter part of your junior year or during the first part of your senior year in high school. Have lunch with students, visit classes and talk to faculty members in an effort to get a first-hand impression of the institution. Many schools even send representatives to high schools to talk with interested students. Check with your high school counselor concerning these scheduled visits and make arrangements for interviews.

Selecting an educational institution is just part of the decision that you must make regarding your career choice. The Michigan Occupational Information System (MOIS) described on the next page provides an opportunity for you to explore your personal interests and characteristics in conjunction with a variety of occupational and educational information.

# MICHIGAN OCCUPATIONAL INFORMATION SYSTEM

The Michigan Occupational Information System (MOIS) provides you with the opportunity to explore your personal interests in conjunction with related occupational and educational information. Available on both microfiche and computer, the MOIS program is distributed throughout the State of Michigan.

## SELF ASSESSMENT

Just as you have needs and abilities which are unique to you, occupations and educational programs have requirements which are unique to them. In choosing an occupation or educational program, your happiness and success in your choice will depend on a match between your individual characteristics and the requirements of the occupation or educational program you select. MOIS allows you to make this match through the use of the MOIS Structured Search.

If you have already used other kinds of self-assessment or are already aware of occupations you are interested in, you may access the MOIS information directly.

## OCCUPATIONAL AND EDUCATION INFORMATION

MOIS contains eight files of valid, current and reliable occupational and educational information.

1. **MOIS OCCUPATIONAL FILE** contains occupational descriptions with over 2,000 Dictionary of Occupational (DOT) occupational specialties. Information topics relating to occupations include:

- |                             |                                      |
|-----------------------------|--------------------------------------|
| A. Definition and Duties    | E. Employment and Outlook            |
| B. Working Conditions       | F. Education and Training            |
| C. Worker Requirements      | G. Sources of Additional Information |
| D. Earnings and Advancement |                                      |

2. **MOIS POSTSECONDARY PROGRAM FILE** contains descriptions of postsecondary education and training programs in Michigan.

3. **MOIS APPRENTICESHIP PROGRAM FILE** contains descriptions of apprenticeship programs in Michigan related to MOIS occupations.

4. **MOIS MILITARY TRAINING OPPORTUNITIES FILE** contains MOIS occupation titles for which military training opportunities are available.

5. **MOIS SCHOOL/TRAINING SITE AND FINANCIAL AID FILE** contains descriptions of all two-year and four-year colleges and universities, private vocational schools and training sites in Michigan. It also contains financial aid information for those schools and training sites.

6. **MOIS ADULT EDUCATION PROGRAM FILE** contains locations of General Educational Development (GED), Adult Basic Education (ABE), High School Completion (HSC) programs throughout Michigan.

7. **MOIS SECONDARY VOCATIONAL EDUCATION PROGRAM FILE** contains descriptions and locations of vocational programs offered in Michigan high schools and area vocational centers.

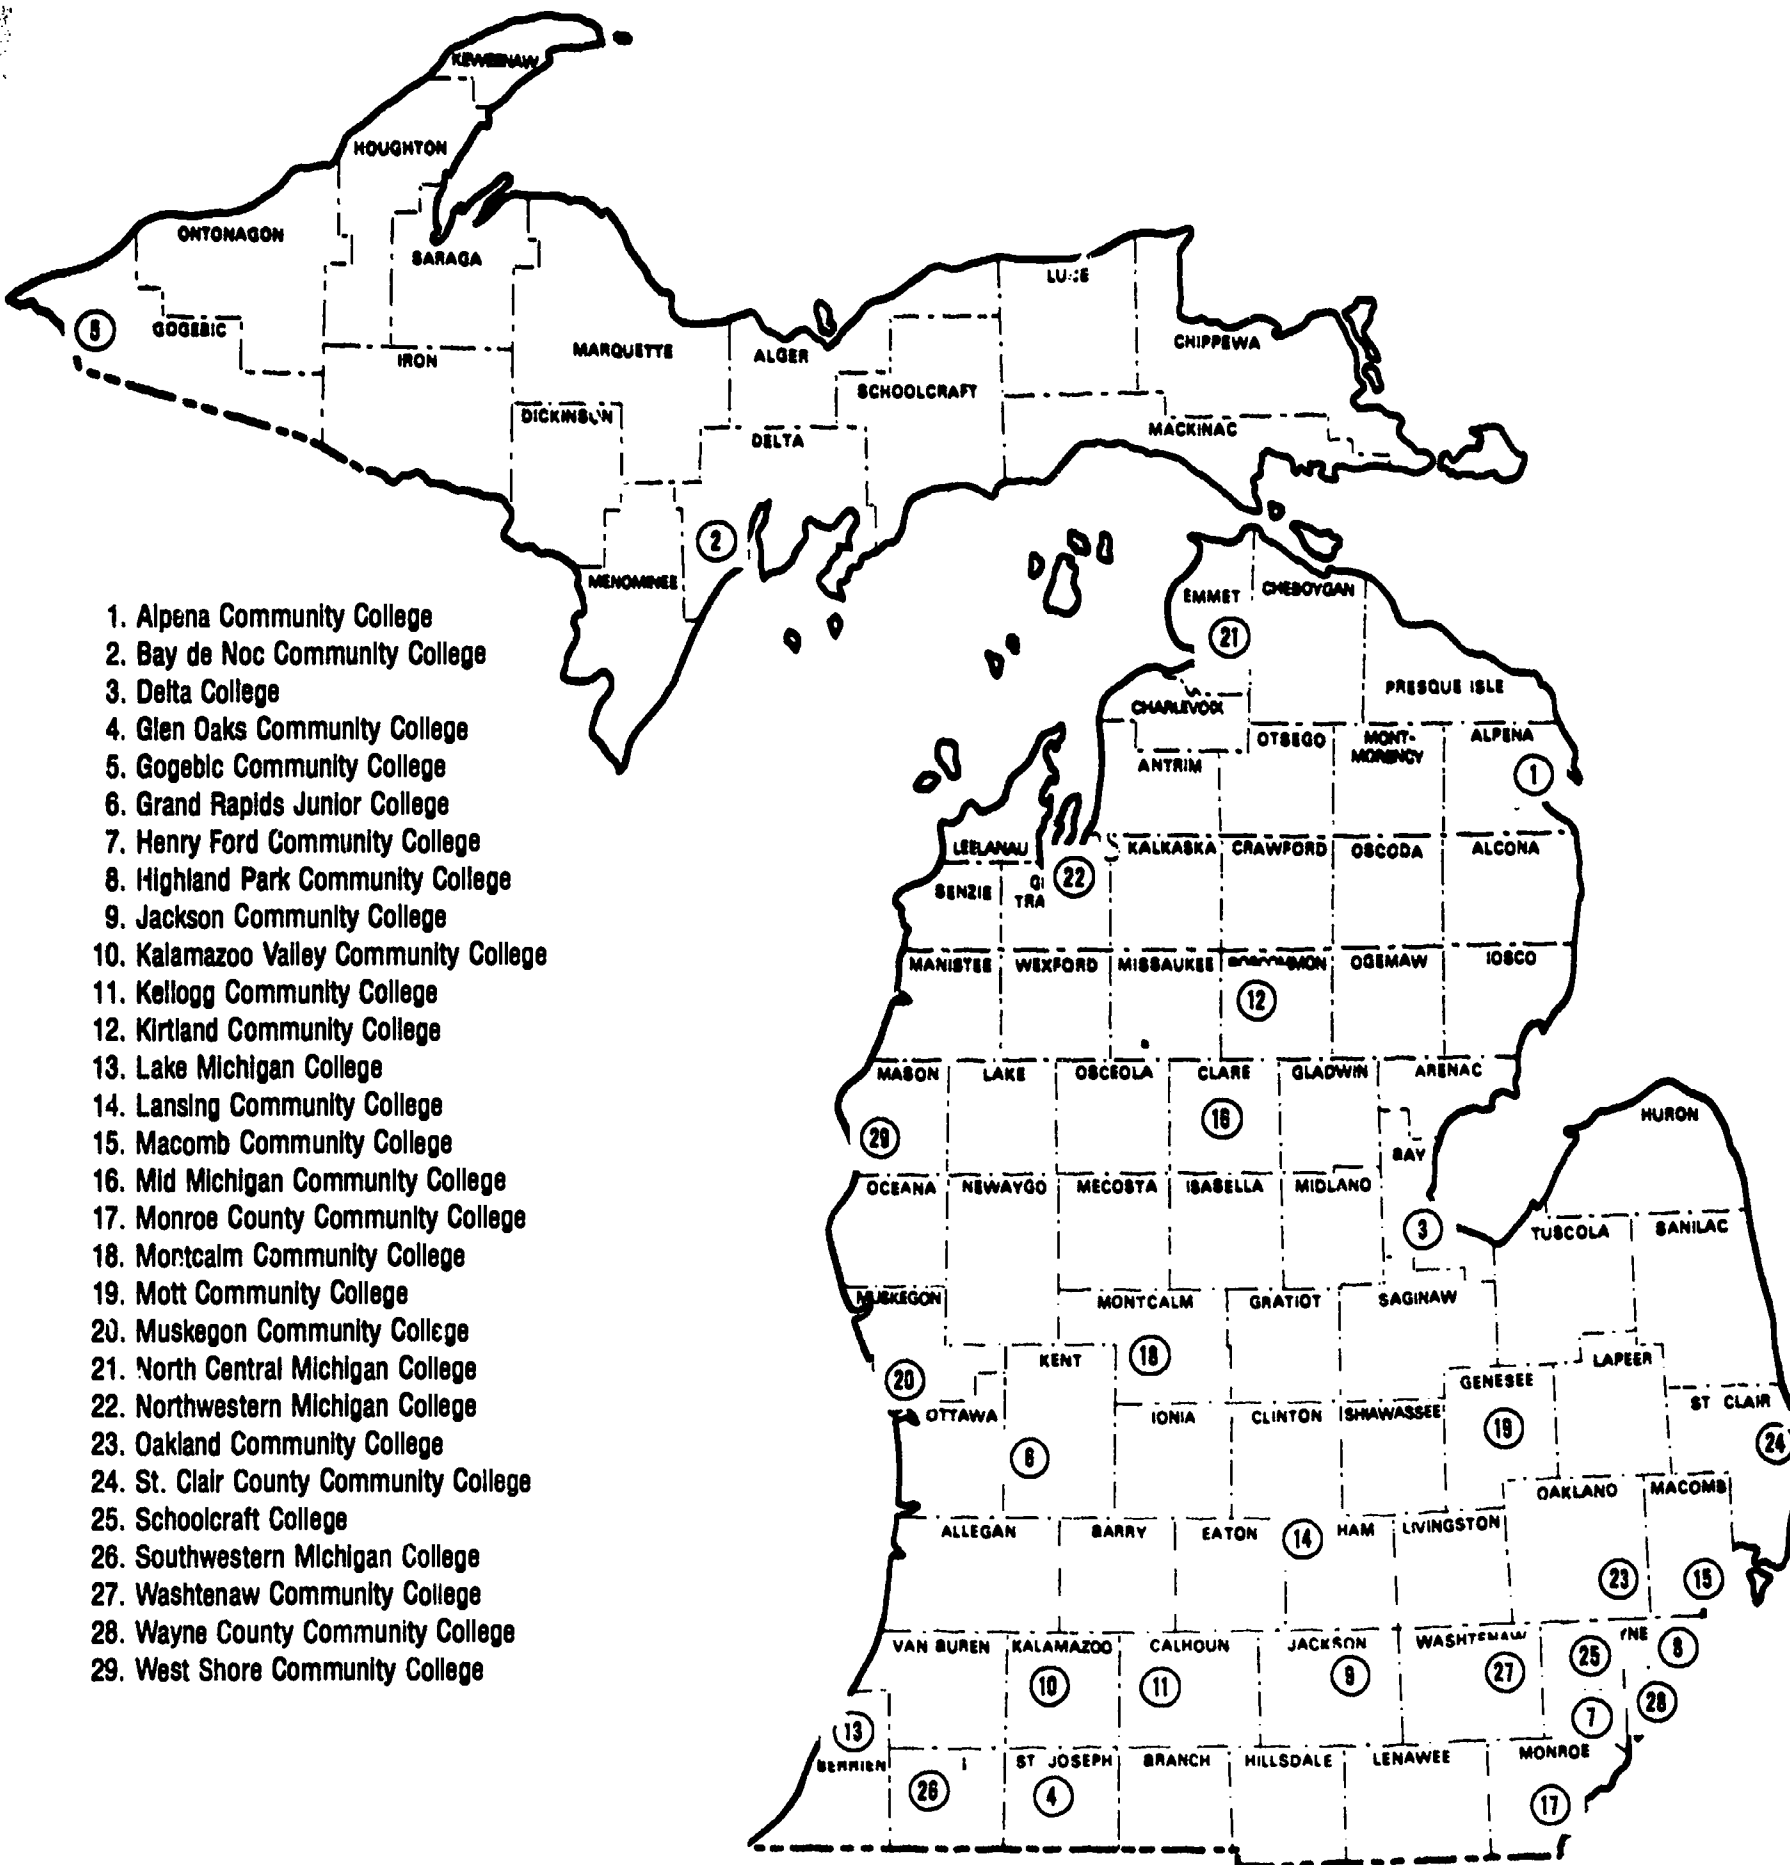

8. **MOIS SCHOOL SUBJECT FILE** contains information on school subjects related to the MOIS occupations.

The **MOIS POSTSECONDARY PROGRAM FILE** and the **MOIS School/Training Site and Financial Aid File** are alternate ways of locating information contained in the **Michigan Postsecondary Admissions & Financial Assistance Handbook**.

Further information regarding MOIS can be obtained from your high school counselor or by contacting MOIS, Michigan Department of Education, P. O. Box 30009, Lansing, Michigan 48909, telephone (517) 373-0815.

This **Handbook** and MOIS represent two of the resources available to help you in the important process of deciding on a school and a career. We hope you will utilize them fully in making your choice.

# INTRODUCTION

The community college is a versatile educational institution which provides a wide range of programs in an endeavor to meet the ever-increasing and changing needs of the local community for educational opportunities beyond the high school level. By statute, however, the community college in Michigan may only offer course work leading to less than a Baccalaureate degree.

The program offerings provided tend to fall into the following categories:

## 1. Liberal Arts and Professional Programs

These programs consist primarily of liberal arts selections and preprofessional training in such areas as dentistry, education, law, medicine, sociology, etc. They are primarily designed to provide transfer credit to four-year institutions and as such, the academic transcript involved is usually more important than the Associate of Arts degree conferred.

## 2. Vocational-Technical Programs

These programs primarily encompass various occupations in the fields of business, public services, technology, etc. They generally culminate in an Associate of Arts degree or certificate. They may also provide transfer credit to specific four-year schools. Current community college publi-

cations and the four-year college's admissions office should be contacted for details in such cases.

## 3. Apprenticeship Instruction

These programs of instruction are offered by community colleges that are requested by local industry to provide related trade instruction. They are available primarily to students already employed in the sponsoring industry.

Due to their variety and unique nature, the community college program listings in this publication will emphasize the specific vocational-technical programs currently available at Michigan community colleges. For additional information concerning liberal arts programs in traditional academic disciplines and/or locally developed apprenticeship instruction you should consult the community college's current catalogue and admissions office.

This Handbook also provides information regarding the number of semester/term hours involved in each vocational-technical program listed.

Please see the introduction to Part VII—Program Cross-Index—for an explanation of the program arrangement sequence.

All school information provided in this Handbook is subject to institutional review and revisions.

# INTRODUCTION

The role of Michigan's public four-year universities is complex and comprehensive.

Program offerings at these institutions can be divided as follows:

## **1. Certificate and Associate Degree Programs**

Several of the universities provide less than Baccalaureate degree programs for various occupations. These programs are found under the level 1 through 3 headings.

## **2. Undergraduate Baccalaureate Programs**

This division includes all programs through which a Baccalaureate Degree can be earned. (level 4 programs).

## **3. Graduate—Professional Programs**

These programs lead to Post-Baccalaureate Degrees in the various professional disciplines (level 5 through 9 programs).

This Handbook contains information in each of these program areas.

In most cases, information is also provided pertaining to the number of semester/term hours required to complete the program and whether a teaching certificate is available in conjunction with it.

Please see the introduction to Part VII—Program Cross-Index—for an explanation of the program arrangement sequence.

All school information provided in this Handbook is subject to institutional review and revision.

# INTRODUCTION

As has been indicated in the previous sections, Michigan's public colleges and universities offer a wide variety of educational programs. The same is true of the curricula provided by the state's independent two-year and four-year institutions.

Program offerings at these institutions can be divided as follows:

## **1. Certificate and Associate Degree Programs**

Several of the colleges and universities provide less than Baccalaureate degree programs, for various occupations. These programs are found under the level 1 through 3 headings.

## **2. Church Affiliated Terminal Programs (level 1 programs)**

## **3. Undergraduate Baccalaureate Programs**

This division includes all programs through which a Baccalaureate degree can be earned (level 4 programs).

## **4. Graduate—Professional Programs**

These programs lead to Post-Baccalaureate degrees in the various professional disciplines (level 5 through 9 programs).

In most cases, information is provided pertaining to the number of semester/term hours required to complete the program and whether a teaching certificate is available in conjunction with it.

Please see the introduction to Part VII—Program Cross-Index—for an explanation of the program arrangement sequence.

All school information provided in this Handbook is subject to institutional review and revision.

## VOCATIONAL SCHOOL PROGRAMS LICENSED BY MICHIGAN DEPARTMENT OF EDUCATION

In addition to the degree-granting colleges and universities which are authorized to operate in the State of Michigan, a wide range of private vocational schools are also available to Michigan students. Pursuant to Act 148, Public Acts of 1943, as amended, no person(s), firm, corporation or private organization may conduct such a private trade school, business school or institute in Michigan without first obtaining a license from the State Board of Education. The law stipulates that no operating license may be issued to Michigan schools and no authorization given to out-of-state schools for the solicitation of Michigan students until the Superintendent of Public Instruction has approved the curriculum offered, the methods of instruction, the qualifications of instructors, the method and content of advertising, the form and content of the student enrollment agreement, contract and the administration of the school.

It is not the policy of the State Board of Education to recommend or endorse any private trade school, business

school or institute. The issuance of a license or authorization simply indicates that the school in question has met the requirements of the law and regulations of the State Board of Education at the time it was issued. A complete listing of Michigan schools with active licenses and out-of-state schools with authorization for Michigan student solicitation is found in the following section of this Handbook. Information is also found here pertaining to the various programs of study that are offered. A complete contact address and telephone number is provided for each institution. This information is also available under separate cover from the Michigan Department of Education, Higher Education Management Services, Box 30008, Lansing, Michigan 48909. The telephone number for this office is (517) 373-6774. Higher Education Management Services should be contacted directly if there are questions regarding any of these schools. These schools are also included in Program Cross-Index found in the next section of the Handbook.

# **OCCUPATIONAL PROGRAMS LICENSED BY OTHER STATE AGENCIES**

In addition to individual vocational schools that are licensed through the Michigan Department of Education, there are several other types of training programs that are licensed by other state agencies. Separate aeronautics, barber, cosmetology and nursing commissions or boards have been established to certify programs in their respective fields and commercial driving programs are licensed through the Department of State. A complete listing of approved programs in these areas is found in the following section of this Handbook. These programs are also included in the Program Cross-Index—Part VII. Further information pertaining to these various programs can be obtained directly through the licensing agency involved.

## **1. Aeronautics Schools:**

Schools of Aeronautics teach flying and ground work relative to flying. They are inspected and licensed annually by the Michigan Department of Transportation, Bureau of Aeronautics, Capitol City Airport, Lansing, Michigan 48906 (517) 373-1834).

## **2. Barber Schools:**

Barber schools are licensed by the Michigan Department of Licensing and Regulation, Board of Barber Examiners, P. O. Box 30018, 611 W. Ottawa, Lansing, Michigan 48909 (517) 373-3089.

## **3. Schools of Cosmetology:**

Cosmetology schools are licensed by the Michigan Department of Licensing and Regulation, Board of Cosmetology, P. O. Box 30018, 611 W. Ottawa, Lansing, Michigan 48909 (517) 373-0580.

## **4. Commercial Driving Schools:**

The Michigan Department of State licenses commercial driver training schools. The Driver Training School Division, Bureau of Driver Improvement is located at 7064 Crowner Drive, Lansing, Michigan 48918 (517) 322-1605.

## **5. Nursing Schools:**

Nursing Schools operate under the approval of the Michigan Department of Licensing and Regulation, Board of Nursing, P. O. Box 30018, Lansing, Michigan 48909 (517) 373-1600.

All school information provided in this Handbook is subject to institutional review and revision.

In addition to the private occupational schools covered in another section of this book that are licensed by the Michigan Department of Education, there are also a variety of other occupational schools and programs that are licensed by other state agencies. These additional schools and programs are listed by category in this section.

# AERONAUTICS SCHOOLS

Schools of aeronautics teach courses of study related to aviation. Due to licensing procedures and policies, schools offering programs related to aviation fall into three categories, as follows:

1. Degree-granting colleges and universities that offer FAA approved flight training (ground and flight schools) and/or related mechanical programs are listed in the college section of this book.
2. Vocational schools offering training in related mechanical programs are licensed by the Michigan Department of Education and are found in the Private Occupational Schools section of this book.
3. Vocational schools offering FAA approved flight training (ground and flight schools) are licensed by the Michigan Department of Transportation, Bureau of Aeronautics, which is located at Capitol City Airport in Lansing, Michigan 48906 (517) 373-1834. Programs of these schools are listed, along with other related programs, in the cross-index section of this book.

# COSMETOLOGY SCHOOLS

Cosmetology schools are licensed by the Michigan Board of Cosmetology to offer courses of study related to beauty culture. Each program listed provides the 1,500 hours of instruction required as a prerequisite for participation in the State Cosmetology Examination. Students successfully completing both the training program and the examination become licensed to practice in Michigan. Students completing beauty culture training programs in other states are reviewed on an individual basis by the Michigan Board of Cosmetology before practice in Michigan is allowed. Such students not demonstrating the equivalent of the 1,500-hour study program prerequisite may be required to take additional course work before being licensed to practice in Michigan.

Further information concerning cosmetology programs in Michigan may be obtained from the Board of Cosmetology, 611 West Ottawa, P.O. Box 30018, Lansing, Michigan 48909 (517) 373-0580. Programs of these schools are listed along with other related programs in the Program Cross-Index section of this book.

## DRIVING SCHOOLS (COMMERCIAL)

Michigan law requires that all commercial driver training schools be licensed by the Department of State under the authority of Act 369, P. A. 1974. Students enrolling in a truck driver training program must have an acceptable driving record. Students successfully completing one of these approved programs must pass a state examination prior to actually receiving their endorsed chauffeur's license. For further information concerning driving schools in Michigan call or write to Michigan Department of State, Bureau of Driver Improvement, Driver Training School Division, 7064 Crowner Drive, Lansing, Michigan 48918 (517) 322-1605.

Michigan-based truck driver schools are listed below:

# NURSING SCHOOLS

Four different types of nursing programs are offered in Michigan, leading to licensure by the Board of Nursing. Baccalaureate and Associate Degree Programs are offered in conjunction with degree-granting schools. They offer a college degree in conjunction with preparation for R.N. licensure. Diploma programs are offered at hospital schools of nursing and they also prepare students for R.N. licensure. Each college and university makes its own decision as to the extent which hospital nursing school credits might subsequently be transferred into a degree program.

Practical Nursing programs, on the other hand, are offered at both degree and non-degree institutions. Practical nursing programs offered at colleges and universities may carry credit toward a degree, as well as preparing the student for L.P.N. licensure. Practical nursing programs offered at non-degree institutions prepare the student for L.P.N. licensure and the credits involved may, subsequently, be accepted toward degree requirements by individual campuses.

The Michigan Department of Licensing and Regulation, Board of Nursing, P.O. Box 30018, Lansing, Michigan 48909 (517) 373-1600 has responsibility for approving\* all four types of nursing programs outlined above.

Students successfully completing one of these approved programs must pass a state examination prior to actually receiving their R.N. or L.P.N. license. Out-of-state graduates, wishing to practice in Michigan, must apply to the Board for licensure. The procedures involved for the licensing of out-of-state personnel vary with the individual's program-of-study experience.

A listing of Nursing and Nursing-related programs can also be found in the cross-index under code numbers 18.11 and 17.06. Further information concerning the various nurses training programs that are available can also be obtained through the Michigan League for Nursing, 24801 Five Mile Road, Suite One, Redford, Michigan 48239.

# PROGRAM CROSS-INDEX

(Includes College/University Undergraduate  
& Graduate Programs as Well as  
Occupational School Programs)

## The Cross-Index Format

This section of the handbook brings together all programs similar to each other by using a code system which defines knowledge areas. The Classification of Instructional Programs (CIP) Code consists of two independent dimensions—program purpose and program category. This document will concentrate on the program category dimension consisting of two, four and six-digit codes. The numbers are associated with the following major dimensions:

NOTE: This coding structure is based upon "A Classification of Instructional Programs" by the National Center for Educational Statistics, 1981.

A CIP Code is attached to each program in this Handbook. There are two different program displays used:

1. A list of each school's programs is found elsewhere in this Handbook, adjacent to that institution's basic information display. These program listings are in alphabetical order by level of study.
2. A combined cross-index of programs is found in this section of the handbook. This index lists each school which identifies a program under any particular CIP Code category and is in CIP Code order. This list also gives the title by which the school identifies that program.

### How To Use The Program Inventory

Turning to the by-school program listing, the following example identifies the format involved.

#### EXAMPLE

**UNIVERSITY OF MICHIGAN**  
CIP Tch Min  
Program Name Code Cert Hrs  
  
LEVEL 4  
  
Civil Engineering 14.0801 No 128

The number at the right of the Program Name represents the Classification of Instructional Programs (CIP) Code assigned to that program area. The general categories were listed earlier and a detailed listing follows this introductory section.

Directly before the CIP number itself comes the school's own title for the program in question. This allows various schools to maintain the individuality of their own program title while still lumping similar such programs under a common designation (CIP code number) in the index found in this part of the handbook. The individual school's program title may or may not be similar to the general category title. (NOTE: Identical program names at different institutions do not necessarily indicate identical content—you must contact the school for details of their programs.)

The last two items which are found after the CIP code in these by-school program listings refer to (a) whether or not a teaching certificate is available in that major program area at the school in question and (b) what the minimal number of semester/term/clock hours of academic credit needed to complete the particular program might be. This teaching certificate item carries simply a "yes" or "no" designation for the appropriate response.

The reader must be careful in comparing number of program hours required for similar programs at different institutions, however, for they will fluctuate depending upon the type of academic calendar system by the specific school. Semester schools will normally generate roughly  $\frac{2}{3}$  as many actual credit hours per academic calendar schools, because each "semester" credit is earned over a longer period of time than are the "quarter" or "term" credits. The school's academic calendar system is listed in the institutional profile section above the program index.

In addition to dividing programs into specific categories of knowledge, this system also divides programs of study according to their degree level. The nine degree levels used are:

- Level 1 A one-year or less certificate, diploma or degree
- Level 2 A two-year or less associate degree, certificate or diploma, but more than one year
- Level 3 A three year or less certificate, diploma or degree, but more than two years
- Level 4 A bachelors degree
- Level 5 A post-bachelors degree, but short of a masters degree
- Level 6 A masters degree
- Level 7 A post-masters degree, but short of a doctoral degree
- Level 8 A doctoral degree
- Level 9 A professional degree

The "Level 4" designation in the example indicates that the program in question is at the bachelors degree level. Thus, by reviewing the programs listed in conjunction with any particular school, it is possible to determine their CIP Code, degree, level, number of academic hours required for completion, and whether or not a teaching certificate is offered at that institution in that particular academic program.

Summary program information across all Michigan colleges, universities and vocational schools is found in this program cross-index. These program listings are in CIP Code number order:

#### **EXAMPLE**

##### **01.0102 Agricultural Business**

**2 Agriculture Business Southwestern Michigan College**  
**4 4 Agri-Business Western Michigan University**

##### **01.0103 Agricultural Economics**

They provide information concerning the various schools within any particular CIP code and the levels of such programs. Further program detail could, of course, subsequently be obtained from the school itself.

By using these individual by-school program listings and the combined cross-school index, the prospective student can either review all programs available at any particular school or determine all schools offering similar courses of study. Two examples of how the inventory can be used may be helpful:

#### **EXAMPLE I:**

If a prospective student is interested in a program of preparation for the writing of books or magazine articles, the first step is to find a CIP Code that would incorporate such programs. (Listing of CIP codes follows these two examples.) CIP codes 23.05 (Creative Writing) and 23.04 (Composition) appear to be the best choices.

Referring to the program cross-index, it can be noted that a two-year degree in Fiction writing is offered at the Art Instruction School-Palmer Writers School. Nazareth College offers a four-year degree in creative writing. Masters degrees (level 6) are also offered for these CIP codes. In order to determine within the the programs in Art Instruction-Palmer Writers program that for some reason was not assigned a code of 23.04 or used 23.05, the code 23.99 (Letters, Other) should also be checked. A review of 23.99 shows no other programs that appear to be close to what is desired.

CIP codes 23.04 and 23.05 could then be checked within the programs in Art Instruction-Palmer Writers School (in the Out-of-State Vocational School section), Nazareth College (in the Michigan Nonpublic Colleges & Universities section) or the appropriate Michigan Public Four-Year College or University institutional program listing for other pertinent information.

#### **EXAMPLE II:**

A prospective student wants to attend Lake Superior State University and, hopefully, take a program in the area of business.

The CIP code for business and management programs is 06. A review of the undergraduate program listing for Lake Superior State University shows that they have two programs listed under 06 at the bachelor (4) level; 06.0201 Accounting and 06.0401 Business Administration. They also have 06 programs at the two-year and masters level. Detailed information on these two programs can then be obtained from the college.

The following is a listing of the major program categories of the Classification of Instructional Programs code system.

# **FINANCIAL AID**

## **PLANNING FOR EDUCATIONAL EXPENSES**

Postsecondary education is a major investment of time, energy and money. Each family considering education beyond high school graduation must begin planning early and plan carefully for the expenses involved in paying for postsecondary education. Four primary steps are involved in planning to meet educational expenses.

1. Prepare for postsecondary education by **advance financial planning** including savings accounts and other savings programs. Your local bank, savings and loan association or credit union may be able to provide you with valuable information about various college savings programs. Students should be **encouraged to get a job and save from their earnings toward college costs.**
2. **Determine school year costs** at the institution which meets the student's educational needs.
3. **Consider what the family can realistically pay** to meet these costs.
4. **Apply for various financial aid programs** available to help families who cannot pay the full costs of education.

### **Determine School Year Costs**

To build a school year budget, the family must carefully price various expenses associated with postsecondary school attendance. The family must determine the length of time each year the student will be in school. The exact costs will vary with each school being considered. However, in all cases, there are five basic components of a school budget:

- a. **Tuition and Fees**—covers direct costs for courses taken and may include special course fees, registration fees, special activity fees and mandatory fees which may be assessed by the institution.
- b. **Room and Board**—covers actual housing and food expenses for the school year. Families are advised to consider food and housing for students who are commuters as well as at-home costs which may be incurred for students returning home during the holiday periods.
- c. **Books and Supplies**—covers estimated cost for textbooks, equipment, course packs, pens, pencils, paper, etc.
- d. **Transportation**—includes the cost of transportation to and from school throughout the school year. This category may include car maintenance and automobile insurance for commuter students or students in internships or off-campus placements. Most school budgets exclude car payments.
- e. **Personal/miscellaneous**—includes a modest monthly allowance for personal items (personal hygiene, clothing, etc.) and some incidental spending money.

The sum of figures from these categories will provide the family with an estimate of school year expenses. Additional expenses for summer study, special program fees, foreign study or out-of-state/district tuition rate charges may also be required for the student.

College catalogs offer general guidelines concerning cost of attendance. These budget guidelines usually represent minimal costs. This handbook provides information on educational expenses at various postsecondary schools in Michigan. The family must remember that its expectation for living expenses may not be the same as the college's expectation. The college financial aid award will be based on the college's budget, not the family's budget.

Upon determination of the college year costs, the family must review what it can reasonably afford to pay toward the costs.

## **Determine the Family's Ability to Pay**

Most financial aid programs are designed to assist the family in paying for postsecondary educational costs. Therefore, the family's financial resources (income and assets) are thoroughly reviewed to determine the amount the family can reasonably pay toward college costs. The student's ability to pay educational costs is based on savings, employment and other resources which may be available.

The family's personal assessment of its own ability to pay and the federal formula deriving an "expected family contribution" should be examined to determine how comparable the contributions are. Families can assess their "expected family contribution" under the federal formula by completing the analysis provided in **Meeting College Costs by College Scholarship Service** or **Applying for Financial Aid by American College Testing**. Both publications are available at the high school guidance office. Additionally, computerized versions of the federal formula to determine family contributions may be available from the high school guidance office. Families can use these discs at home on personal computers to review the data needed and estimate their expected family contribution for college costs.

The majority of federal and state programs available to assist students in postsecondary education rely on the same method for determining the student's need. **Need is the difference between the college costs and the family's (parent's and student's) ability to pay.** The analysis to determine the family contribution uses a standardized method evaluating the family income and assets. The formula attempts to treat all families applying for financial aid in an equitable manner.

## What Assumptions are Used in the Formula to Determine Need?

There is an expected partnership among three groups in the process of financing the costs for postsecondary education: the parents, the student and the educational institution. The college's role exists to help families who are unable to afford the full costs of postsecondary education.

1. **Parents have primary responsibility for their student's education.** Therefore, the parents are expected to contribute toward postsecondary costs except in cases where true separation can be documented. (Most programs require independent students to document self-support through federal tax returns.)
2. Students are the primary beneficiaries of the college education. Consequently, students are expected to contribute toward educational expenses from their summer employment while in high school and from their savings.
3. Colleges offer financial aid when the college costs are greater than the family's (parent's and student's) ability to pay these costs.

### How Does a Student Show "Need"?

The following formula is used to determine need for assistance beyond the family:

$$\begin{array}{r} \text{COLLEGE COSTS} \\ - \text{FAMILY CONTRIBUTION} \\ \hline = \text{DEMONSTRATED NEED FOR ASSISTANCE} \end{array}$$

## What Information is Used to Evaluate the Family's Ability to Contribute to Educational Expenses?

In order to provide uniformity in determining a family's ability to pay, most federal and state programs are awarded based on a standard formula approved by the Federal Government. The basic information used to assess the family's ability to pay is as follows:

1. family income: income from all sources
2. family assets: savings, home equity, investments, business/farm; used to determine family's financial strength
3. family size: used to determine food, clothing and shelter allowance for family
4. family members in college at least half time: used to determine the family's ability to pay for each family member
5. parent's age: portion of assets are protected for retirement, future spending, based on age of older parent
6. student resources: earnings from summer employment and savings

## How Does the Family Provide Information for a Determination of Need?

There are three primary documents available that perform an evaluation of the family resources to determine a contribution. The three documents are the **Financial Aid Form (FAF)** by College Scholarship Service, the **Family Financial Statement (FFS)** by American College Testing and the **Application for Federal Student Aid (AFSA)** by the United States Department of Education.

These financial statements are available at high school guidance offices and college financial aid offices. Check with the college financial aid office to determine which form is preferred. **Only one financial statement is to be completed by the family.** The student considering several colleges is advised to complete the financial statement preferred by the first choice college. One form may be sent to several colleges and programs by identifying the appropriate code numbers and paying the appropriate fee, if required.

Upon reviewing the college costs less the family contribution, the college determines the "need." The college attempts to meet the need by combining a variety of financial aid programs into a "package" of aid. The concept of packaging will be discussed later in the handbook.

Although the analysis system requires some degree of uniformity, it provides the student's family with the opportunity to identify unusual circumstances including excessive medical expenses, families with several children in college, separated/divorced parents, etc. to ensure that each family is treated in an equitable manner. If there are changes in the family's financial situation after the initial filing (change in marital status, loss of employment, death of parent, etc.), the family is encouraged to contact the college financial aid office. Several related filing questions will be discussed in the Question and Answer Section of this handbook.

Aid programs, based on need, require the family to file financial statements annually to determine eligibility for assistance.

### When are Students Independent?

Specific policies for declaring independence varies according to the programs. However, in most cases, the student aid applicant will be expected to demonstrate financial independence from parental support. The federal definition of independence is as follows:

The term "independent" when used with respect to a student, means any individual who:

1. is 24 years of age or older by December 31 of the award year; or
2. is a veteran of the Armed Forces of the United States; or
3. is an orphan or ward of the court; or
4. has legal dependents other than a spouse
5. An "independent" student may also be: a graduate or professional student who declares that he or she will not be claimed as a dependent for income tax purposes by his or her parents (or guardian) for the first calendar year of the award year.
6. a married individual who declares that he or she will not be claimed as a dependent for income tax purposes by his or her parents (or guardian) for the first calendar year of the award year.
7. a single undergraduate student with no dependents who:
  - a. was not claimed as a dependent by his or her parents (or guardian) for income tax purposes for the 2 calendar years preceding the award year
  - and
  - b. demonstrates to the college financial aid administrator total self-sufficiency during the 2 calendar years preceding the award year in which the initial award will be granted by demonstrating an annual total income of at least \$4,000

## **What are Some Important Tips in Completing Financial Aid Applications?**

- 1. Attend a high school financial aid night** at your school or a nearby school. Check with the school counselor regarding date and location.
- 2. Determine which one of the financial statements to file.** (Financial Aid Form or Financial Statement or Application for Federal Student Aid).
- 3. Determine and observe all deadlines** in filing applications for federal, state, private and institutional aid programs.
- 4. Read application instructions** carefully before beginning to complete the form.
- 5. Refer questions** to the high school counselor and/or the financial aid officer at the college you plan to attend.
- 6. Complete applications accurately, legibly and thoroughly.** Check applicant's social security number for accuracy.
- 7. Provide explanations** if there are unusual circumstances.
- 8. Maintain a file** to record all applications submitted.
  - a. keep copies of all tax materials**
  - b. keep a copy of the financial statement filed**
  - c. record the dates when forms are filed**
- 9. Submit any additional documentation** requested to colleges, programs or agencies in a **timely** manner. Identify all documentation with applicant's name and social security number.
- 10. Accept or reject award offers** from the college promptly.

### **WHAT ARE THE MAJOR SOURCES OF FINANCIAL AID?**

Financial aid resources can be grouped into four major categories:

- 1. SCHOLARSHIPS:** Aid which does not require repayment. Eligibility may be based on academic performance and/or financial need. Some scholarships are based on academic performance only.
- 2. GRANTS:** Aid which does not require repayment. Eligibility is generally based on financial need only.
- 3. LOANS:** Aid which requires repayment of principal and interest after the student leaves school or drops below half-time status. Most loans are based on financial need.
- 4. EMPLOYMENT:** Aid which provides the student with part-time employment on or off campus during the school year. Employment opportunities may be based on need.

Institutions generally offer a combination of aid sources to meet the student's demonstrated need. Offering several types of financial aid to meet the student's need is called packaging.

## WHAT AID IS AVAILABLE BASED ON ACADEMIC ACHIEVEMENT?

Financial assistance, based on academic achievements, generally called scholarships, often are awarded by colleges based on performance on college entrance exams (SAT, ACT, PSAT/National Merit, etc.), the student's rank in graduating class and/or high school grade-point-average. Contact the college financial aid office for specific information on any academic awards available. Any academic awards received are considered by the college financial aid office when offering need-based aid.

\*\* Repayment begins 12 months after graduation or termination of full-time study. Interest rate is 9% with 10 years to repay.

\*\*\* Repayment begins 9 months after graduation/withdrawal/or dropping below half-time status. Interest rate is 6% with 10 years to repay.

\*\*\*\* Repayment begins 9 months after termination of full-time study, internship /residency. Variable interest rate based on 91-day T-bill plus 3% with up to 25 years to pay.

## **APPLICATION PROCEDURES:**

**Only one of these three financial statements is needed to determine eligibility in the federal aid programs:**

- 1. Financial Aid Form (FAF) processed by the College Scholarship Service or**
- 2. Family Financial Statement (FFS) processed by American College Testing or**
- 3. Application for Federal Student Aid (AFSA) processed by the United States Department of Education.**

**Most colleges prefer one financial statement over another. Review the college's literature to determine which financial statement is preferred.**

**In addition to the financial statement, the student will be required to submit the Pell Grant Student Aid Report (SAR) to the selected college and may also be required to submit the college's own application.**

**Nursing Loans, Health Professions Loans and Health Education Assistance Loans require students to be enrolled in special curriculums in order to qualify to borrow through these loan funds. Contact the college financial aid office for detailed information about application procedures and eligibility criteria.**

## STATE FINANCIAL AID PROGRAMS ADMINISTERED AT THE STATE LEVEL

<b>Program Name</b>	<b>Eligibility Criteria</b>	<b>Yearly Award Range</b>
Michigan Competitive Scholarship	Approved ACT score and needy undergraduate enrolled at least half-time at a Michigan college.	\$100 to \$1,200
Michigan Tuition Grant	Needy undergraduate and graduate students enrolled at least half-time at eligible Michigan independent non-profit colleges.	\$100 to \$2,200
Paul Douglas Teacher Scholarship	Graduate in top 10% of high school class; undergraduate students committed to teaching; enrolled full-time at a Michigan College; not based upon need.	up to \$5,000

### APPLICATION PROCEDURES:

1. Take ACT exam for the Michigan Competitive Scholarship Program.
2. File either the FAF or FFS by February 15 of the senior year and release the results to State of Michigan.
3. Submit separate Paul Douglas Teacher Scholarship application by stated deadline, if pursuing teaching career.

## STATE FINANCIAL AID PROGRAMS ADMINISTERED AT THE CAMPUS LEVEL

Program Name	Eligibility Criteria	Yearly Award Range
Martin Luther King, Jr./ Cesar Chavez/Rosa Parks Fellowships and Scholarships	Minority graduate students attending Michigan public colleges; Scholarship recipients must begin a doctorate program or the award becomes a loan; Fellowship recipients must work/teach at a Michigan college or university or award becomes a loan.	varies
Adult Part-Time Grant	Needy independent undergraduates enrolled part-time (3-11 hours) at Michigan colleges.	up to \$600
Michigan Educational Opportunity Grant	Needy undergraduates enrolled at least half time at a public Michigan college	up to \$1,000
Michigan Work-Study	Needy undergraduate and graduate students enrolled at least half time at a Michigan college	earnings based on hourly rate and number hours in a week

### APPLICATION PROCEDURES:

1. File one of three financial statements: FAF, FFS or AFSA.
2. File college financial aid application, if required.
3. Check with college for filing deadlines.
4. Contact college Admissions office, Minority Affairs office or the Graduate School office for information about application procedures for the Martin Luther King, Jr./Cesar Chavez/Rosa Parks Programs.

## EDUCATIONAL LOAN PROGRAMS ADMINISTERED AT THE STATE LEVEL

Program Name	Eligibility Criteria	Yearly Award Range
Stafford Loan (formerly GSL)	Needy undergraduate and graduate students enrolled at least half-time (awards may be available for less than half-time study).	\$ 2,625—first and second year undergraduate \$ 4,000—third and fourth year undergraduate \$17,250—total undergraduate \$ 7,500—graduate years \$54,750—total undergraduate and graduate
Supplemental Loans for Students (SLS)	Independent undergraduate and graduate students enrolled at least half time.	up to \$4,000 \$20,000—total maximum
Parent Loans (PLUS)	Parents of dependent undergraduate & graduate students enrolled at least half time.	up to \$4,000 \$20,000—total maximum

### APPLICATION PROCEDURES:

1. File one of three financial statements (FAF, FFS, or AFSA) for the Stafford Loan.
2. File school's financial aid application, if required, for the Stafford Loan.
3. Check with the school's financial aid office to determine your eligibility.
4. If you qualify and wish to apply for a loan, consult with the Financial Aid Office as to the method of application to be used. It may be that the school will transmit information for Stafford Loan processing without anything further to be done on your part.
5. If the school indicates you will need to submit a loan application to them, contact your local bank, savings and loan, or credit union for a Stafford Loan, SLS or PLUS application.
6. If your local lending institution is unwilling or unable to make the loan, return to the school's financial aid office and request a Pre-Approved Lender application. The Michigan Direct Student Loan Program (MDSLPL) participates as one of Michigan's Pre-Approved Lenders.

## **PRIVATE COMMUNITY AND INSTITUTIONAL AWARDS**

### **Private Community Awards**

Students are encouraged to explore the possibility of funding through community sources and private agencies by considering the following:

1. Determine possible major or area of study. Review major publications available in the high school library or the public library for awards listed by field of interest. Contact major professional organizations for information about awards available for college.
2. Check with local businesses and parent's place of employment to determine if awards are available to college-bound students. Specific career direction may be helpful when approaching businesses.
3. Check with civic and social clubs and organizations about awards.
4. Students of a minority racial/ethnic background are encouraged to explore funding through community organizations and the college minority affairs office for specific sources.
5. Check with your church or synagogue for any awards available to students who are college-bound.

### **Institutional Awards**

Most colleges and universities have programs available for their own students. College funds often include gifts from alumni and friends of the college. These gifts may be referred to as endowment scholarships. These aid programs may not require the student to file a financial statement.

College financial aid programs are usually offered in one of four categories: scholarships, grants, employment and loans:

1. College guides or catalogs often list the available sources of financial assistance.
2. Check with the admissions office about scholarships and with the financial aid office for a comprehensive listing of all types of aid the college has for its students.
3. Most colleges offer students part-time employment opportunities on the college's campus or off-campus.
4. The college may be able to provide the student with short-term loans.
5. Some colleges may also be able to offer payment plans to help ease the cash flow in paying for tuition and on-campus room and board costs.

## SAMPLE FINANCIAL AID PACKAGES AT DIFFERENT SCHOOLS

The following chart displays the various combinations of federal, state and institutional aid that might be used to meet a student's financial need at three different types of institutions. Vocational/Technical schools also participate in federal and state aid programs. Combining various sources of aid to meet the student's demonstrated need (cost—family's ability to pay) is called packaging.

Most freshmen applying for financial aid will receive an aid package in early spring (March thru May). Colleges officially notify students of the types of aid offered, the amount of aid, the terms for which the aid will be available and request that students review the aid offered and accept/reject the aid.

## FINANCIAL AID GLOSSARY

1. **American College Testing (ACT)**..... an educational testing company which also provides and analyzes the Family Financial Statement (FFS) to determine the family's ability to pay for college.
2. **Application for Federal Student Aid (AFSA)**..... federal form that may be used by students to apply for Pell Grants and other federal student aid.
3. **Application for Federal Student Aid—CORRECTION** ..... a form provided by the Federal Government to permit students to file revised financial information if there are specific changes in the family's financial situation.
4. **College Scholarship Service (CSS)** ..... an educational testing company which also provides and analyzes the Financial Aid Form (FAF) to determine the family's ability to pay for college.
5. **Congressional Methodology**..... the consensus model used by the major need analysis services in determining a family's ability to pay for postsecondary education.
6. **Family Contribution (FC)**..... the sum of the Total Student Contribution and Parents' Contribution for the the applicant's postsecondary education.
7. **Family Financial Statement (FFS)** ..... the document provided by ACT to collect income and asset information from the family to compute a family contribution.

# FINANCIAL AID QUESTIONS AND ANSWERS

## 1. My parents are divorced or separated. Which parent completes the financial statement?

The parent with whom the student lived the most in the past year. If an equal amount of time was spent with each parent, provide the information for the parent who provided the most support during the past year.

## 2. My parent is remarried. Does my stepparent have to provide his/her income on my financial statement even if he/she is not legally obligated to help me with my education?

Yes. In remarriage situations, both incomes must be reported for financial aid purposes.

## 3. What happens if my family's situation changes after I file the original application?

Contact the financial aid officer at your selected college for more information. Some reasons for contacting the college financial aid office and the state to report changes after the financial statement was filed include the following: change in parents' marital status, death of a parent, disability of a parent, loss of income for at least 10 weeks, etc. In general, the procedure is as follows:

a. Send a letter to the college financial aid office.

b. Notify the State of Michigan if applying for Michigan Competitive Scholarship or Michigan Tuition Grant Program.

## 4. My parents will not help me finance my college education. Can I file as an independent student for financial aid?

Federal guidelines specifically indicate which students may file as independent. Review the information in this handbook for specific criteria. Check with the financial aid officer at the college you plan to attend for further information.

## 5. Will my family be required to turn in any forms besides the financial statement?

Yes, you may be required to submit copies of your parents' federal tax returns. Families are advised to maintain a copy of federal tax returns for this purpose.

## 6. How long do I have to repay my student loans? Do either of my parents have to cosign my student loan?

The Perkins Loan and the Stafford Loan provide up to 10 years for repayment. Neither the Perkins Loan nor the Stafford Loan require a parent to cosign. However, some banks may require the parent to cosign the Stafford Loan. Check with your bank to determine its policy.

## 7. What happens to financial aid if I transfer from one school to another?

You will be required to reapply for financial aid at the second school. Aid is not automatically transferred from one school to another. Eligibility is based on availability of funding and school costs.

## 8. Is there any financial aid available for foreign study?

In some cases, financial aid may be available for international study. Contact the admissions office at the college you plan to attend.

## 9. Is there financial aid available for graduate study?

Yes, both federal and state aid programs are available for graduate study. Review the federal and state aid charts in the handbook for specific programs. Contact the financial aid office and the graduate school at the college you plan to attend for specific information.

**10. What are scholarship search organizations and can they help me find aid?**

Scholarship search organizations attempt to identify sources of aid for a fee. Many of the sources of aid identified by these companies can be found through the college financial aid office or general resource books and pamphlets. Families who are interested in using these organizations are advised to carefully consider the following points:

- carefully check the company's guarantee
- check references of previous customers' satisfaction with services provided
- review the application for specific information about you that will target funds for your interests/skills
- check with the company for the frequency with which information is updated and the number of aid sources available.

**11. How is financial aid paid to students?**

Financial aid awards are first applied to the student's college tuition and room/board charges. Any remaining aid is awarded directly to student for use in meeting other expenses.

**12. Why do colleges require the Financial Aid Form or Family Financial Statement when the Application for Federal Student Aid is free?**

The Financial Aid Form (FAF) and Family Financial Statement (FFS) provide additional information not included on the Application for Federal Student Aid. The federal form cannot be used to apply for state funds. The FAF and FFS processors provide services to the college that are not available from the federal processor.

**13. My sister/brother attends college this year and was not eligible for financial aid. Should I apply, since both of us will be in college?**

Yes. Both you and your sister/brother should apply. The parent contribution is divided by the number of children in the family who are attending college at least half-time. With two in college, you may each be eligible for some aid.

**14. Do my high school or college grades affect my eligibility for financial aid?**

It is not necessary to have a specific grade point average in high school to be eligible for need-based aid. High school grades are a significant factor in awarding merit scholarships.

To continue to receive aid in college, you must maintain a minimum grade point average, as stated by the college's Satisfactory Academic Progress policy.

# **PLANNING AND CONDUCTING A FINANCIAL AID INFORMATION NIGHT**

The information presented here is taken from the National Association of Student Financial Aid Administrators publication "Planning & Conducting Financial Aid Information Nights" released fall, 1986.

Eight basic steps for planning & conducting a financial aid information night:

1. Establish a date
  - complement other activities
  - plan mid-week
2. Establish a time
  - offer an evening program to accommodate working parents
3. Obtain a facility
  - review size, acoustics, equipment usage
  - tables/desks/chairs for taking notes
4. Advertise the program
  - 2 to 4 weeks lead time to provide enough time to plan and not too long to forget
  - put ads in school newspapers and local newspapers
  - have public service announcements on radio & TV stations
5. Determine participants in program
  - invite financial aid officer from local college
  - have high school counselor(s) available
  - limit each presenter's comments to 1 hour
6. Make a list and check it twice
  - make all arrangements
  - confirm room, presenter(s), advertising campaign
7. Delivering the information
  - arrive in advance of the scheduled meeting time to check the AV equipment, room set-up, open doors and organize materials for distribution
  - remind presenter(s) to limit to 1 hour and provide time at end for audience questions
8. Finishing touches
  - thank outside presenter(s) formally
  - forward thank-you notes to those involved in preparation/presentation including newspapers, radio stations and TV stations
