ABSTRACT

The report provides information on the possible impact of revised eligibility requirements on the volume of supplemental loans for students (SLS). These are market-rate loans made to postsecondary students in addition to or in lieu of other financial aid, such as Stafford loans (formerly called guaranteed student loans) and Pell grants. The data presented compares SLS volume during the first 4 months of calendar years 1989 and 1990 from each of the nine guaranty agencies and from the New York State Higher Education Services Corporation. Specifically, the agencies provided information on loans guaranteed during this period. The 10 agencies are listed in Appendix I. The agencies also provided data on their monthly SLS volume to student borrowers attending proprietary (trade) schools and nonproprietary education institutions. (GLR)

SUPPLEMENTAL STUDENT LOANS

Legislative Changes Have Sharply Reduced Loan Volume

U.S. DEPARTMENT OF EDUCATION

Human Resources Division

B-237438

August 3, 1990

The Honorable Edward M. Kennedy
Chairman, Committee on Labor
and Human Resources
United States Senate

Dear Mr. Chairman:

This report responds to your request for information on the possible impact of revised eligibility requirements on the volume of Supplemental Loans for Students (SLS). These are market-rate loans made to postsecondary students in addition to or in lieu of other financial aid, such as Stafford loans (formerly called guaranteed student loans) and Pell grants.

Specifically, you requested data comparing SLS volume during the first 4 months of calendar years 1989 and 1990 from each of the nine guaranty agencies that we previously reported on,¹ and from the New York State Higher Education Services Corporation. These 10 agencies are listed in appendix I. You asked us to provide, for each guaranty agency, data on the volume of loans made to students attending proprietary (trade) schools and other postsecondary education institutions.

On July 2, 1990, we briefed your office on the preliminary results of our analysis. This fact sheet summarizes the information provided at that meeting.

Background

Loans under the SLS program are made by lenders, such as banks, credit unions, or savings and loan associations, and guaranteed against default by guaranty agencies. Graduate and certain undergraduate students—generally those responsible for their own financial support—may borrow up to \$4,000 per year, to a maximum of \$20,000. Borrowers are eligible for SLS regardless of their income or assets, in contrast to Stafford loans and Pell grants, which are based on a borrower's financial needs and resources.

SLS have variable interest rates, which are adjusted annually to account for changes in Department of Treasury borrowing rates. For the 1989-90 award year, the interest rate was 12 percent. Repayment of these loans

¹Supplemental Student Loans: Who Borrows and Who Defaults (GAO/HRD-90-33FS, Oct. 17, 1989)

must generally begin within 60 days of the last loan disbursement for each year a loan is received.

The Omnibus Budget Reconciliation Act of 1989 (Public Law 101-239) made several changes to the SLS program. For example, beginning on January 1, 1990, no SLS loans can be made to undergraduate students (except those already enrolled and receiving loans on the date of enactment of the act) who attend schools that have default rates in excess of 30 percent—as determined by the Department of Education. The act also excluded from eligibility students without a high-school diploma or a certificate of high-school equivalency.

The annual SLS volume totaled \$711 million in fiscal year 1987, \$2 billion in fiscal year 1988, and \$2.1 billion in fiscal year 1989; a total of \$4.8 billion during these 3 years. However, as loan volume has increased, so have SLS defaults. In fiscal year 1987, there was \$16 million paid to lenders for default claims, \$40 million in fiscal year 1988, and \$295 million in fiscal year 1989; a total of \$351 million during these 3 years. The Department has recently estimated that for fiscal year 1990, default claims may reach \$780 million.

Scope and Methodology

We agreed with your office to obtain the requested information from the 10 guaranty agencies for fiscal year 1989 and through April 1990 (a total of 19 months). Specifically, the agencies provided information on loans guaranteed during this period. We did not verify the accuracy of the data submitted by the guaranty agencies.

The agencies also provided data on their monthly SLS volume to student borrowers attending proprietary and nonproprietary schools. The results for each of the 10 agencies are shown in appendix II. Using this information, we compared the first 4 months of calendar years 1989 and 1990 to determine the possible impact on SLS volume of changes made by the Reconciliation Act.

Overall Loan Volume Has Dropped

Figure 1 shows that SLS volume has dropped substantially since the revised eligibility requirements became effective. The overall volume for the 10 agencies was almost 46 percent lower during the first 4 months of calendar year 1990 than the same period in 1989. This represents a decrease from almost \$408 million in 1989 to about \$221 million in 1990 for that same period (see app. III).

Figure 1: Total SLS Volume Declined

Proprietary School SLS Volume Greatly Reduced

Recent legislative changes appear to have had a significant effect on loans to students attending proprietary schools (see fig. 2). The SLS volume for such students has plunged further—about 65 percent—than the overall volume decrease. This represented a decline for proprietary schools from \$275 million for the first 4 months of calendar year 1989 to \$97 million for the same period in 1990 (see app. III). In contrast, the SLS volume decrease for students attending nonproprietary schools was about 7 percent, a decline from about \$132 million in 1989 to \$123 million in 1990.

Figure 2: Proprietary School SLS Volume Decreased

As agreed with your office, we did not obtain written comments on this report. We did, however, discuss its contents with Department of Education program officials and incorporated their comments where appropriate.

We are sending copies of the report to other congressional committees, the Department of Education, and other interested parties. Should you wish to discuss its contents, please call me on (202) 275-1793. Other major contributors to this report are listed in appendix IV.

Sincerely yours,

Franklin Frazier
Director, Education
and Employment Issues
