ABSTRACT

This 145-item bibliography of examination study guides is a major revision of an earlier edition published in 1989. There are 45 new entries and 23 deletions of older books. This bibliography is intended for undergraduate students preparing for examinations required for admission to graduate or professional schools and for college graduates preparing for civil service tests for professional or managerial positions. It should also be of interest to those developing test preparation books. Excluded are guides to examinations for undergraduate admission and study guides for civil service clerical or trade positions. Guides are listed according to their Library of Congress classification numbers; and the author, title, publication date and location, and publisher of each guide are provided. (SLD)

# Selective Bibliography of Professional Tests

Second Edition

Richard P. Wilcox

Assistant Librarian

California State University, Long Beach

This 145-item bibliography is a major revision of an earlier edition which was published in 1989 as ERIC document ED 308 214. There are 45 new entries, including new editions of previously listed books; there are 23 deletions of older books, most of which are out of print.

This bibliography of examination study guides is intended for the use of undergraduate students who are preparing for examinations required for admission to graduate or professional schools as well as for college graduates who are preparing for civil service tests for professional or managerial positions. It should also be of interest to librarians, counselors or others who are responsible for the development of a collection of test preparation books. Excluded from this bibliography are guides to examinations for undergraduate admission, e.g. ACT, SAT. Also excluded are study guides for civil service examinations for clerical or trade positions. For example, guides to examinations for accountant positions are included; guides to bookkeeper/account clerk tests are excluded.

The study guides in this bibliography are listed according to Library of Congress classification. It is important to realize that LC classification numbers are subject to change. For example, study guides for the Graduate Management Admission Test (GMAT) are now generally classified in HD30.413; earlier editions were usually classed in HF1118.
