ABSTRACT

The Kearney State College (Nebraska) drug-free campus program description details standards of conduct for employees and students regarding alcohol and drugs as well as applicable legal sanctions under federal, state and local law with regard to possession and distribution. These statutes are described and identified by number and further illustrated in four charts which itemize: federal trafficking penalties, federal trafficking penalties for marijuana, and Nebraska State Law provisions for illicit drugs, and State law regarding anabolic steroids, marijuana and others. Descriptions of the health risks associated with the use of illicit drugs and the abuse of alcohol including a chart of the uses the effects of 29 drugs and drug categories are also provided. Available drug and alcohol counseling, treatment or rehabilitation programs are noted and possible disciplinary sanctions for violations are enumerated for students (including probation, relocation, eviction, and suspension) and employees (referral, participation in a rehabilitation program, disciplinary action up to possible termination of employment). The Network for Drug Free Colleges/ERIC/HE Project

The ERIC Clearinghouse on Higher Education has been given federal funds to process a special collection of policy, program and curriculum documents produced by the Network of Colleges and Universities Committed to the Elimination of Drug and Alcohol Abuse, a coalition of institutions initiated by the Department of Education, Office of Educational Research and Improvement in response to the 1989 Drug Free Schools and Communities Act.

Major objectives of the project are to:

- increase access to the information on programs, policies, and curricula developed by Network member institutions;
- encourage the use of the ERIC system by Network member institutions;
- improve the Network's ability to know about, and share information on activities at member institutions; and
- test a model for collaboration with ERIC that other national agencies might adopt.

All Network/HE Project documents are tagged with the following Identifier appearing in the IDEN Field:

STATE PENALTIES AND SANCTIONS FOR ILLEGAL POSSESSION OF CONTROLLED SUBSTANCES

The framework for the regulation of most drugs, also called controlled substances, is set out in the Uniform Controlled Substances Act. In addition, there are other Nebraska State laws which establish penalties for various drug related offenses which are summarized below. Charts 3 and 4 contain a summary of

sanctions under Nebraska law for possession or distribution of various drugs.

TAX PROVISIONS:

Anyone who possesses or sells the following amounts of controlled substances must pay the appropriate taxes to the Nebraska Department of Revenue and have the stamps attached to the controlled substances:

Six or more ounces of marijuana is taxed at \$100 for each ounce or portion of an ounce.

Seven or more grams of any controlled substance which is sold by weight (i.e., cocaine, crack, methamphetamine, etc.) is taxed at \$150 for each gram or portion of a gram.

Ten or more dosage units of any controlled substance which is not sold by weight (i.e., LSD, psilocybin, methamphetamine in tablets, PCP, etc.) is taxed at \$500 for each 50 dosage units or portion thereof.

Failure to have the proper tax stamps attached to the controlled substance carries a criminal penalty of up to five years imprisonment or a \$10,000 fine or both. A penalty equal to 100% of the unpaid tax will also be assessed and both the tax and the penalty may become a lien upon the property owned by the person against whom the tax is assessed. Neb. Rev. Stat. - 77-4301 through 77-4316 (Reissue 1990).

PROPERTY FORFEITURE:

Property used to manufacture, sell or deliver controlled substances can be seized and forfeited to the State. Property subject to forfeiture may include cash, cars, boats, airplanes and houses or farms. Neb. Rev. Stat. - 28-431 (Reissue 1989).

BEING UNDER THE INFLUENCE OF ANY CONTROLLED SUBSTANCE FOR UNAUTHORIZED PURPOSE:

It is a violation of Nebraska law to be under the influence of any controlled substance for a purpose other than the treatment of a sickness or injury as prescribed or administered by a person duly authorized by law to treat sick and injured human beings. Neb. Rev. Stat. - 28-417(1) (g) (Reissue 1989).

DRUG PARAPHERNALIA OFFENSES:

It is a violation of Nebraska law to use, or to possess with intent to use, drug paraphernalia to manufacture, inject, ingest, inhale or otherwise introduce into the human body a controlled substance. Neb. Rev. Stat. - 28-441(1) (Reissue 1989). "Drug paraphernalia" is defined to include such things as hypodermic syringes, needles, pipes and bongs and other items used, intended for use or designed for use with controlled substances. Neb. Rev. Stat. - 28-439 (Reissue 1989). It is unlawful to deliver or manufacture drug paraphernalia. Neb. Rev. Stat. - 28-442 (Reissue 1989). "Imitation controlled substance" is a substance which is not a controlled substance but which is represented to be an illicit controlled substance. Neb. Rev. Stat. ~ 28-445 (Reissue 1989). First offense violations of this law are punishable by three months imprisonment or \$500 fine or both. A second offense violation of this statute is punishable by not more than six months imprisonment, or \$1,000 fine, or both.

SELECTED NEBRASKA ALCOHOL OFFENSES

MINOR IN POSSESSION:

It is against the law for a person under the age of 21 years to possess alcohol. Neb. Rev. Stat. ~ 53-108.02 (Reissue 1988). Violation of this law is punishable by 3 months imprisonment, or \$500 fine, or both. As part of sentencing a judge may order an offender to become part of a public work detail under the supervision of the County Sheriff for not more than 10 days in lieu of the above penalties.

PROCURING ALCOHOL:

It is a violation of Nebraska law to sell, give away, dispose of, exchange, or deliver, or permit the sale, gift or procuring of any alcoholic liquors to or for any minor or to any person who is mentally incompetent. Neb. Rev. Stat. ~ 53-180 (Reissue 1988). Violation of this law is punishable by not more than 1 year imprisonment, or \$1,000 fine, or both.

CONSUMPTION ON PUBLIC PROPERTY:

It is a violation of Nebraska law for any person to consume alcoholic liquors in the public streets, alleys, parking areas, roads or highways, or inside vehicles while upon the public streets, alleys, parking areas, roads or highways; or upon property owned by the state or any governmental subdivision thereof, unless authorized by the governing bodies having jurisdiction over such properties. Neb. Rev. Stat. ~ 53-186 (Reissue 1988). A violation of this statute is punishable on the first offense by a minimum fine of \$100, or a maximum fine of \$500. A second offense is punishable by 6 months imprisonment, or \$1,000 fine, or both.

DRIVING WHILE INTOXICATED:

Driving while under the influence of intoxicating liquors or drugs is a violation of Nebraska law. Neb. Rev. Stat. ~ 39-669.07(1) (Reissue 1988). Violation of this law is punishable on first offense by not more than 30 days, not less than 7 days imprisonment and not more than \$500 fine but not less than \$200 fine. In addition, an offender's drivers license is revoked for 6 months and the offender is ordered not to drive any motor vehicle for any purpose for a like period. Suspended sentence of probation includes mandatory requirement that probation or suspension be conditioned on order that offender will not drive any motor vehicle for any purpose for sixty days.

Penalties for second offense result in a mandatory thirty days imprisonment and \$500 fine. As part of the judgment of conviction the offender is ordered not to drive any motor vehicle for any purpose for a period of one year and the offender's operator's license is revoked for a like period. If an offender is placed on probation or the sentence is suspended, one of the mandatory conditions of probation or sentence suspension is that the offender must be ordered not to drive any motor vehicle in the state for any purpose for a period of six months, and the probation order shall include as one of its conditions confinement in the city or county jail for forty-eight hours.

Third or subsequent convictions result in not more than six month imprisonment, not less than three months imprisonment and mandatory \$500 fine regardless of the length of confinement imposed. Offenders in this class may not drive any motor vehicle in the state for any purpose for a period of fifteen years and the operator's license is revoked for a like period. Probation suspension of sentence for this offense must be conditioned so that the offender is ordered not to drive any motor vehicle in the state for any purpose for a period of one year and probation must be conditioned on an offender's confinement in the city or county jail for seven days.

Local laws may also make it a crime to operate a motor vehicle under the influence of alcohol or to commit certain acts involving the consumption or possession of alcohol, e.g. "open container" laws.

C. DESCRIPTION OF HEALTH RISKS ASSOCIATED WITH USE OF ILLICIT DRUGS AND ABUSE OF ALCOHOL

The last chart is taken from United States Department of Justice Drug Enforcement Administration, *Drugs of Abuse* (1989 edition) pp. 30-31. The chart contains a description of health risks associated with various drugs covered by the Federal Controlled Substances Act. The summary of health risks associated with alcohol is taken from United States Department of Education *What Works: Schools Without Drugs* (1989 edition), p. 62.

Alcohol

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spouse and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at greater risk than other youngsters of becoming alcoholics.

D. DESCRIPTION OF ANY DRUG OR ALCOHOL COUNSELING, TREATMENT OR REHABILITATION OR RE-ENTRY PROGRAMS THAT ARE AVAILABLE TO EMPLOYEES OR STUDENTS

E. DISCIPLINARY SANCTIONS FOR EMPLOYEES REGARDING ALCOHOL AND DRUGS

In the event a faculty or staff member violates this policy or is convicted for the unlawful manufacture, distribution, dispensation, possession or use of controlled substances or alcohol on college property or as part of any college activity, appropriate action will be taken by the College, as follows:

For administrators, staff, and faculty not included in the SCEA bargaining unit, one or more of the following actions may be taken:

- (a) Referral to a proper resource for evaluation and assessment to determine the appropriate treatment for rehabilitation;
- (b) Participation in a drug rehabilitation program;
- (c) Disciplinary action, up to and including termination of employment and referral for prosecution.

For faculty included in the SCEA bargaining unit, conviction for such offenses may be considered adequate cause for disciplinary process provided in Article XI of the Collective Bargaining Agreement. Violation of this policy may also be considered adequate cause for imposition of the disciplinary process and referral for prosecution.

As required by the Drug-Free Workplace Act of 1988, faculty and staff involved in the performance of Federal contracts or grants must notify their supervisor within five days if they are convicted of any criminal drug statute as a result of a violation of the law which occurs at the workplace. The term "conviction" means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violation of the Federal or State criminal drug statutes. The supervisor will immediately notify the Vice President for Academic Affairs/Provost Office when faculty are affected or the Personnel Office when staff are affected. The college, in turn, will notify the applicable granting or contracting agency or agencies of the conviction within ten days after receiving notice of an employee's criminal drug statute conviction.

E. DISCIPLINARY SANCTIONS FOR STUDENTS REGARDING ALCOHOL AND DRUGS

The purpose of a sanction, in addition to protecting others, is primarily to educate an individual by increasing his/her awareness of the consequences of conduct violations and the importance of responsibility to the College community for one's actions. This will ordinarily be the guiding force behind imposition of sanctions. In some instances, however, the community's need to properly function outweighs the College's ability to so educate an individual. In such a case, for the benefit of both the student and Kearney State College, suspension from the residence halls and/or College may result.

In the event a student violates this policy or is convicted for the unlawful manufacture, distribution, possession for sale of drugs and/or the possession and/or consumption of alcoholic beverages

on state property or as part of any college activity, appropriate action will be taken by the College as follows:

- A. **Admonition:** An oral or written statement to a student or group that he/she is violating or has violated institution rules.
- B. **Restitution:** Reimbursement for damage to or misappropriation of property. This may take the form of appropriate service or other compensation.
- C. **Education; Sanction:** In accordance with the goal of education and assisting students with conduct problems, other disciplinary plans may be imposed as may be appropriate to the individual circumstances. These may involve work or research projects, recommendation of counseling options or fines up to \$50.00
- D. **Probation:** A written reprimand for violation of specified regulations, including the possibility of more severe disciplinary sanctions in the event of finding a violation of any institutional regulation within a subsequent stated period of time not to exceed one calendar year.
- E. **Relocation:** Re-assignment of a student from a particular on-campus living space to another.
- F. **Restriction of Entry:** Removal of the privilege of entering or visiting some or all residence halls.
- G. **Eviction:** Termination of the privilege of a student to living space on campus. Upon eviction, the College will terminate its contract with the student for residence hall space and reimburse, according to college policy on room refunds, the appropriate portion of monies which the student has paid to the College for living space for the balance of the academic year. Termination of a student's right to tenancy is not considered a denial of the individual's right to an education.
- H. **Suspension:** A recommendation may be made to the President for the suspension of a student from Kearney State College.*

* The Board of Trustees of the Nebraska State Colleges requires that the Board Office and the other three State Colleges (Chadron, Peru and Wayne) be notified when a student is suspended or dismissed. The student may be admitted to the other State Colleges only under the same conditions as he/she would be eligible for re-admission to the institution where the violation occurred.
