The Utah Statewide Clearinghouse on Citizenship Education is part of the Utah Law-Related and Citizenship Education Project at the Utah State Office of Education.

INTRODUCTION

What is the Clearinghouse?

The Utah Statewide Clearinghouse on Citizenship Education is part of the Utah Law-Related and Citizenship Education Project at the Utah State Office of Education. It is a lending library of citizenship, economics, law-related, values, and character education curriculum materials.

The clearinghouse was opened in November 1980. It was originally housed at the Third District Court, then at the Fifth Circuit Court. It is presently located in the Textbook Library at the Utah State Office of Education in Salt Lake City, Utah. It is staffed by a part-time director and part-time secretary.

Purpose of the Catalog

All materials located at the Clearinghouse are available to be checked out free of charge by educators, lawyers, court and corrections personnel, and the general public. Materials available include books, booklets, periodicals, games, kits, films, filmstrips, video cassettes, posters, and computer software. The Catalog has been organized in the following sections: Grades K-3, 4-6, 7-9, 9-12, 10-12, and Teacher Reference. Because some school districts in Utah have a middle school/four-year high school format and others follow the traditional K-6, 7-9, 10-12 schedule, materials have been listed in overlapping sections to meet these various needs. Entries may also appear in more than one section if appropriate for use at more than one level. It is suggested that teachers refer to their specific grade level, but also become familiar with the sections preceding and following their particular level. Example: Jack and the Beanstalk is listed in both the K-3 and 4-6 sections since it is appropriate for use at all elementary grade levels.

General Information About the Catalog

Sections are color-coded in the following manner:

Introduction -- white
Grades K-3 -- canary
Grades 4-6 -- green
Grades 7-9 -- goldenrod
Grades 10-12 -- buff
Teacher Reference -- salmon

Sections include the following categories: books, computer software, films, filmstrips, games, kits, magazines, pamphlets, posters, video cassettes, workbooks, and miscellaneous. A list of "Project Publications" (materials developed by the Utah Law-Related/Citizenship Project Staff) is also included in the "Teacher Reference" section. Within the categories listed above, entries are in alphabetical order. Each entry has a short annotation which describes it and also lists the author, place of publication, publisher, date, and number of pages. Materials available in classroom sets are marked with an asterisk (*) in the left-hand margin. Following each title is the log number (L-1). Please refer to materials by titles and log number (L-) when ordering.

Ordering Materials

All materials listed are available to be checked out free of charge on a four-week loan basis. (This includes mailing time.) Date due cards are found in all materials to remind you when items are due. Because we have limited quantities of most items, we will be unable to meet your or other's requests, if materials are not returned on time. It is preferable that materials be picked up and returned in person to the Clearinghouse. However, the Clearinghouse will mail materials outside Salt Lake County at our expense, as long as return mailing expenses are paid by the borrower. Lost or damaged materials must be replaced by Clearinghouse users.

For your convenience as well as ours, please order materials by phone or mail at least two days before picking them up.

At the west edge of Boston Common there was a wishing stone, and of all the boys in Boston, John Hancock lived the closest to it. You would not think that he needed to wish for anything. John lived in a beautiful house, ate all sorts of delicious food, and dressed in fancy clothes. When his uncle died, John even became the richest man in New England.

But John Hancock wished for several things. He wanted to be noticed and liked by everyone. But King George III hated John because he would not pay taxes to England. He put John on his "Dangerous Americans" list and posted a 500 pound reward for his head. When John signed the Declaration of Independence, his signature was so large he didn't need his spectacles to read it.

With great humor and appreciation for a famous signer's charm and ambition, as well as his vanity, Jean Fritz introduces us to a very real John Hancock, "ruffling" his way through the Revolution. Trisha Schart Hyman captures all the fun with her fluid imaginative style.

Will You Sign Here John Hancock? (L-1044)

Fritz, Jean. Illustrated by Trisha Schart Hyman. At the west edge of Boston Common there was a wishing stone, and of all the boys in Boston, Jack Hancock lived the closest to it. You would not think that he needed to wish for anything. John lived in a beautiful house, ate all sorts of delicious food, and dressed in fancy clothes. When his uncle died, John even became the richest man in New England.

But John Hancock wished for several things. He wanted to be noticed and liked by everyone. But King George III hated John because he wouldn't pay taxes to England. He put John on his "Dangerous Americans" list and posted a 500 pound reward for his head. When John signed the Declaration of Independence, his signature was so large he didn't need his spectacles to read it.

With great humor and appreciation for a famous signer's charm and ambition, as well as his vanity, Jean Fritz introduces us to a very real John Hancock, "ruffling" his way through the Revolution. Trisha Schart Hyman captures all the fun with her fluid imaginative style.

Eyes on the Prize: Episode I - Awakenings (L-947)

1/2" Video. A six-part series in the making is the most comprehensive television documentary on the American Civil rights movement ever produced. Through rare historical film and incisive present-day interviews, the events and issues of the second American Revolution came to life. It is a return to the streets, churches, courts, and schools where the struggle raged. Meet the people who challenged history. Relieve the pain, the protest, the sacrifice, and triumph of the grass roots struggle for racial equality.

Awakenings focuses on the catalytic events of 1954-56. The Mississippi lynching of 14-year-old Emmett Till led to a widely publicized trial where a courageous black man took the stand and accused two white men of murder. In Montgomery, Alabama, Rosa Parks refused to yield her bus seat to a white man and triggered a year-long boycott that resulted in the desegregation of public buses. Ordinary citizens and local leaders joined the Black struggle for freedom. The Southern Leadership Conference was formed. In response, many white southerners closed ranks in opposition to the burgeoning black rights movement. Racial discrimination finally became a political issue.

Eyes on the Prize: Episode 2 - Fighting Back (L-948)

Fighting Back follows the struggle for equality from the schoolroom to the courtroom and back as blacks reject the existing system of "separate by equal" education. In 1954, the Supreme Court also rejects the system in its historic Brown vs. Board of Education decision. The legal battle won, in 1957, nine Black teenagers dare to integrate Little Rock's Central High School. In 1962, a resolute James Meredith enrolls at the University of Mississippi. Students, parents, and lawyers unite to guarantee a better education and a better future for their children. (See L-947, Eyes on the Prize, for part of the series).

Eyes on the Prize: Episode 3 - Ain't Scared of Your Jails (L-949)

1/2" Video. This episode chronicles the courage displayed by thousands of young people and college students who joined the ranks of the movement and gave it new direction in 1960. Lunch counter sit-ins spread across the South, many organized by the new, energetic Student Non-violent Coordinating Committee. In 1961 on the Freedom Rides, many young people faced violence and defied death threats as they labored to obliterate segregation in the interstate bus travel below the Mason-Dixon line. The growing movement toward racial equality influenced the 1960 presidential campaign, and federal versus states rights became an issue.

Eyes on the Prize: Episode 4 - No Easy Walk 1962-66) (L-950)

1/2" Video. This episode explores a crucial phase in the civil rights movement--the emergence of mass demonstrations and marches as a powerful protest vehicle. In Albany, Georgia, police chief, Lauri Pritchett, challenged Reverend Martin Luther King, Jr.'s tactics of nonviolent mass demonstration. In Birmingham, Alabama, school children steadfastly marched against the violent spray of fire hoses and were jailed as a result. The triumphant 1963 march on Washington, D. C., captured worldwide attention and gathered broad national support, helping to shift federal policy.

Eyes on the Prize: Episode 5 - Mississippi: Is This America? (L-951)

1/2" Video. This episode focuses on the extraordinary personal risks faced by ordinary citizens as they assumed responsibility for social change, particularly during the 1962-64 voting rights campaign in Mississippi. The state became a testing ground of constitutional principles as civil rights activists concentrated their energies on the right to vote. White resistance to the sharing of political power clashed with the strong determination of movement leaders to bring Mississippi Blacks to the ballot box. In Freedom Summer 1964, tension between white resistance and movement activists climaxed in the tragic murder of three young civil rights workers.

Eyes on the Prize: Episode 6 - Bridge To Freedom (L-952)

1/2" Video. In this final episode, the lessons of a decade are brought to bear on the climactic 1965 march from Selma to Montgomery, Alabama, when thousands joined together to march 50 miles for freedom. During the drive to make voting rights a national issue, strategic and biological differences began to surface between Dr. Martin Luther King, his SCLC, and the younger activists of SNCC. As while "blacklash" and segregationist resistance intensified, President Lyndon B. Johnson promised to further the movement's legislative goals. Then as the movement began to splinter into factions, the Voting Rights Act became federal law.
