ACKNOWLEDGEMENTS

First, and foremost, I wish to acknowledge Multiculturalism and Citizenship Canada and the Government of Alberta for funding the production, publication and distribution of this bibliography.

Second, I wish to express my gratitude to PROSPECTS Adult Literacy Association for agreeing to sponsor this project.

Finally, I wish to express my appreciation to the people who assisted in the completion of this project. Thanks are due to Gwen Harris for editing the bibliography and for making practical, valuable suggestions. I also wish to thank Ann Parry for her role in editing and distributing the bibliography.

...Initiation of learning rests not upon the teaching skills of the leader, not upon his scholarly knowledge of the field, not upon his curricular planning, not upon his use of audiovisual aids, not upon the programmed learning he utilizes, not upon his lectures and presentations, not upon an abundance of books, though each of these might at one time or another be utilized as an important resource. No, the facilitation of learning rests upon certain attitudinal qualities which exist in the PERSONAL RELATIONSHIP between the Facilitator and the Learner.

HOW TO USE THIS BIBLIOGRAPHY

The books that have been reviewed in this bibliography fall under ten main categories:

Life Skills
Biographies
Non-Fiction
Fiction
Word Identification Workbooks
Comprehension Workbooks
Skill Development Series
Spelling Workbooks
Vocabulary Workbooks
Writing Workbooks
Video Programs

These categories are further subdivided so that you may locate more specific information (see Table of Contents). There is also an alphabetical title index at the back of the book.

In this edition, you will find 40 new annotations and they have been highlighted by this symbol.

You may notice that some of the annotations that appeared in the first edition do not appear in the second edition. This is because these books are out of print.

Each annotation provides the following information: title, publisher, distributor, date, cost and readability level. It is important to note that the readability levels were designated by the author of this bibliography, and not by the publisher of the book. Publishers sometimes provide an inaccurate readability level.

A listing of publishers' addresses appears at the end of this bibliography.

CRITERIA

The approach taken in this bibliography is informational rather than formal and any opinions expressed are those of the author. The following questions provided a framework for evaluating the material:

- * Does the author respect the reader?
- * What is the readability level?
- * Is the language suitable for adult students?
- * Is the topic suitable for adult students?
- * Are ideas clearly explained?
- * Is the information accurate and up-to-date?
- * Is the material organized in a logical sequence?
- * Does the book have an adult-like appearance?
- * Is the print large enough to be easily read?
- * What style of type is used?
- * Will the amount of text on the page overwhelm the adult reader?
- * Are the illustrations appropriate for use with adults?
- * Do the illustrations correspond with the text?
- * What kind of exercises are provided?
- * Do the exercises reflect current knowledge about the reading process?
- * Are the workbooks and reading programs based on the interactive reading process model of reading (rather than the skill based model)?
- * Are exercises presented in context or in isolation?
- * Is the content Canadian?

LIFE SKILLS

There is a plethora of books on the market which address life skills. The general topics covered can be categorized into personal development, employment, functional skills, health, legislation, and consumer issues. Numerous publishers have found an interested audience for books which address functional skills. Functional skills usually include filling out forms, reading signs and labels, how to use the newspaper, how to read a map etc. Caution should be exercised in stocking your shelves with the books categorized under 'functional' skills as all of these books are similar in nature. It would be more meaningful for tutors and students to bring real materials such as 'real' T.V. guides, telephone books, forms from work, maps of the city, etc. to their lessons.

PERSONAL DEVELOPMENT

The Value of Self-Esteem: (Creative Education - Distributed by Saunders Book Company), no date.

Reading Level: 6-7

Cost: \$15.65 per title. Complete series of 12 costs \$187.80.

This is a series of 12 books which offer ways for students to raise their own expectations, deal with new situations, solve problems, and begin approaching life with a positive attitude. The series is intended for teenagers, yet the language is suitable for use with adults. Although the books are rife with cliches and generalizations, the series has been popular with students who want to read 'motivational books'. The books are 48 pages in length and are available in hard cover only. The individual titles are:

The Secret of the Slight Edge
Unlocking your Creative Gifts
Unlocking your Potential
You Can Be Your Own Best Friend
More Good Time for You
Talk Like an Eagle
Dare to be Different
The Secrets of Goal Setting
How to Beat the Jitters
Mistakes are Great
Just Keep on Keepin' On
There Will Never Be Another You

LIFE SKILLS

EMPLOYMENT

The Easy to Read Career Planning Guide: (Alberta Career Development and Employment - Distributed by Learning Resources Distributing Centre), 1986.

Reading Level: 3-4

Cost: Free government publication for Alberta, Yukon and N.W.T. residents. \$4.00 per copy for people residing outside of Alberta.

This book is for students who wish to change careers and for those who wish to choose a line of work. It involves students in a process whereby they match their interests and abilities to a job. This book also outlines the steps in gaining employment such as reading the want ads, filling out applications, and writing a resume. This is a helpful book for those who want an informal approach to career planning. Students in Alberta who want professional assistance should contact Alberta Career Development and Employment.

Follett Coping Skills Series: (Cambridge - Distributed by Prentice-Hall), 1978.

Reading Level: 4-6

Cost: \$6.30 per title.

\$2.40 per teacher's guide. (Every title is accompanied by a teacher's guide.)

This is a suitable series of 3 books for students who wish to re-enter the workforce. Lessons could incorporate innovative teaching methods such as role-playing for job interviews. Although the series is dated (1978), the information is still pertinent. The individual titles are:

Finding Work
Job Interviews
Keeping a Job

LIFE SKILLS

Job Seekers Handbook: (Alberta Career Development and Employment - Distributed by Learning Resources Distributing Centre), 1986.

Reading Level: 7-8

Cost: Free government publication for Alberta, Yukon and N.W.T. residents. \$3.00 per copy for people residing outside of Alberta.

This 70 page government publication contains valuable information for people who wish to re-enter the workforce. The sentence structure is quite complex, and the vocabulary is at a high level, so the book is not recommended for beginning readers.

Making Choices: Women in Non-Traditional Jobs: (Seacraft Publications), 1987.

Reading Level: 8

Cost: \$20.95

This paperback celebrates the increase in female participation in non-traditional careers. The book features women who are mechanics, firefighters, ambulance attendants, transit drivers and airline pilots. The authors interviewed 22 women, who work in professional, skilled, and semi-skilled careers. The women were interviewed about "their background, how they got interested in the careers, what qualities and qualifications they thought were important - educational, experiential and personal." Full page black and white photographs depicting women at work accompany each story. The book does not contain a Table of Contents as the pages are not numbered.

LIFE SKILLS

Off-Shore Oil Rig Workers: (Crestwood House - Distributed by Collier Macmillan), 1988.

Reading Level: 7

Cost: \$15.50

Students who read this book will gain insight into the various types of work available on an off-shore oil rig. This 47 page hardcover book outlines the responsibilities of 'roughnecks', 'derrickmen', 'toolpushers', 'roustabouts', 'divers' and 'scaffolders'. The book would probably have been more interesting to read if it had been written in first person narrative, rather than in third person descriptive. The book closes by presenting the advantages and disadvantages of working on an off-shore oil rig. Students who have no experience in this occupation may find the text difficult to read as it contains technical vocabulary that is difficult to predict. The text is accompanied by 20 full-color photographs. This 47 page hardcover book is part of the "At Risk" series that describes high-risk professions. Individual titles within the series are:

- Animal Handlers and Trainers
- Astronauts
- Bomb Squads and SWAT Teams
- Coal Miners
- Drug Enforcement Agents
- Helicopter Pilots
- High-Rise Workers
- Off-Shore Oil Rig Workers
- Smokejumpers & Forest Firefighters
- Stuntpeople
- Test Pilots
- Underwater Specialists

This series consists of 10 books that describe a variety of semi-skilled employment opportunities. The series is written in the narrative genre, with each book depicting a young adult in a specific occupation. Readers will find a job description and a brief listing of high frequency words related to the specific occupation at the end of each book. This series contains fewer black and white photographs, smaller print and more text than the Pacemaker Vocational Readers. Each book is approximately 60 pages in length and is only available in paperback. Cassettes and a teacher's guide may also be purchased. Individual titles are:

Drama at the Hospital (Nurse's Aide)
Blueprint Blues (Machinist)

\$57.00 U.S. for set of 5 cassettes (2 books on each cassette.)

\$42.00 U.S. for set of 10 books and Teacher's Guide.

Although this series is over 10 years old, it has been very popular with adult students. The set consists of 10 books which describe jobs that special needs students have performed successfully. Each page contains a small amount of print and an appropriate photograph which aids the reader in predicting the text. At the end of each book is a picture dictionary. Each book is approximately 60 pages in length and is only available in paperback. Cassettes and a teacher's guide may also be purchased. Individual titles are:

Ready to Go (Auto Mechanic's Helper)

We Make the Clothes: (Toronto Board of Education -
Distributed by Adult ESL Administrative Resource Centre -
East), 1985.

Reading Level: 5

Cost: \$5.00

Women who have experienced work in a garment factory will identify with this photostory. We Make the Clothes was developed by women who participated in an English as a Second Language class located in a Toronto garment factory. This 24 page book shows the steps involved in making a piece of clothing from start to finish. Each step is illustrated with a black and white photograph and one or two lines of text. The book begins with a section for instructors on the process used to produce a photostory.

LIFE SKILLS

FUNCTIONAL SKILLS

Forms in Your Life: (Globe/Modern Curriculum Press), 1991.

Reading Level: 4-5

Cost: \$9.95

The best feature of this 109 page workbook is the Canadian content. The book begins by introducing vocabulary usually found in forms. The workbook contains 26 school, employment, bank, consumer, housing, provincial and federal forms. The print on some of the forms is quite small and difficult to read. Each form is accompanied by special vocabulary words and helpful hints.

Life Coping Skills Series: (Steck-Vaughn - Distributed by Pippin), 1983.

Reading Level: 2-4

Cost: \$8.75 per title.

\$7.75 per teacher's guide. (Every title is accompanied by a teacher's guide).

This series contains 3 workbooks. The series was specifically written for secondary students; however, the language used in the workbooks conveys the feeling that they were written for children, rather than teenagers or adults. Another drawback of this series is that the content is American. The individual titles are:

Facts and Sources
Signs and Labels
Forms and Messages

Life Skills Reading - Book 1: (Educational Design - Distributed by Educational Resources), 1985.

Reading Level: 3-5

Cost: \$8.25

Teacher's guide free with order.

This workbook is comprised of 36 lessons which cover reading labels, following directions, looking up information, paying bills and taxes, agreements and guarantees and filling out forms and applications. It is recommended that this book be used as a reference by the tutor for ideas, and that 'real' labels, bills etc. be brought into the lesson by the student.

LIFE SKILLS

Life Skills Reading - Book 2 - Comprehension Skills:
(Educational Design - Distributed by Educational Resources),
1984.

Reading Level: 4-6

Cost: \$8.25

Teacher's guide free with order.

This book tries to cover too many concepts, and as a result, is quite confusing to the reader. The reading material is a potpourri of selections from editorials, business letters, leases, consumer information, insurance forms, recipes, etc. The lessons progress quickly, moving from teaching main idea to vocabulary development to word meanings to context clues and finally ending with the 5W questions (who, what when, where and why).

Practice in Survival Reading: (New Readers Press -
Distributed by Educational Resources), 1978.

Reading Level: 4-5

Cost: \$6.95 per title.

\$6.95 for teacher's guide.

This series consists of 8 workbooks and a teacher's guide. The workbooks contain representative materials from newspapers, documents, product labels, and instructions. Each workbook contains 25 lessons which have a 3 level questioning system of fact-finding, interpretation and application. Tutors and students are encouraged to bring real, meaningful material into the lessons and to use this series as a reference for ideas. The individual titles are:

Machine Age Riddles

Signs Around Town

Label Talk

Read the Instructions First

It's On the Map

Let's Look It Up

Caution: Fine Print Ahead

Your Daily Paper

LIFE SKILLS

Reading for Independence: (Science Research Associates),
1985.

Reading Level: 4-6

Cost: \$7.15 per title.

\$3.00 per teacher's guide. (Every title is accompanied
by a teacher's guide).

This series is not recommended for adults, as it was written
for an adolescent audience. The individual titles are:

How to Use the Newspaper
How to Use the Telephone Book
How to Use Schedules
How to Use Maps & Directories
How to Use Directions
How to Use Classified Ads

LIFE SKILLS

HEALTH

Child Safe: A Parent's Guide to First Aid and Safety: (The Canadian Red Cross Society), 1987.

Reading Level: 4-6

Cost: \$12.95

This 120 page paperback is an excellent resource for parents. The first section discusses how to prevent accidents by creating a safe environment. The second section is a simple and easy-to-use first aid guide. Section one is 35 pages and is written at a grade 6 level whereas section two is 85 pages and is written at a grade 4 level. The text in section one is dense and the print is small. Although the second section was not specifically written for adult students, it is easy to read with large print, short sentences, and illustrations depicting first aid procedures. Section two is arranged in alphabetical order, beginning with treatment for bites and stings and ending with treatment for an unconscious person.

Food and Nutrition: (Janus Books - Distributed by Pippin), 1986

Reading Level: 4

Cost: \$86.93 for set of 3 titles and binder.
\$29.93 per title.

The Food and Nutrition program is a set of 3 workbooks in a binder. The books are an excellent resource for beginning cooks or for people who wish to increase their knowledge in measurement or nutrition. The individual titles are:

Measuring for Cooking
Planning Healthy Meals
Reading and Following Recipes

LIFE SKILLS

Help Yourself to Health: (New Readers Press - Distributed by Educational Resources), 1980.

Reading Level: 5

Cost: \$6.95 for book.

\$5.50 for workbook.

This 80 page book covers a variety of health related topics such as nutrition, exercise, sleep, stress, and care for one's skin, hair, teeth and eyes. One drawback is that the book does not contain enough graphic information to break up the print on each page. Some readers may be overwhelmed by the amount of print. Nevertheless, the book is a good source of information. A workbook to accompany 'Help Yourself to Health' is also available.

Keeping Healthy: (Project Literacy Series - Distributed by London Public Library), 1989.

Reading Level: 4-5

Cost: \$6.00

This is an excellent resource booklet for students who are apprehensive about visiting the doctor and the dentist. This 52 page booklet contains the following chapters: Visiting the Doctor; At the Drugstore; Visiting the Dentist; and Canada's Food Guide. This publication walks the student through the steps which need to be taken to find a doctor/dentist and to make an appointment. Exercises are provided for students who have difficulty in reading prescription labels. Important and relevant information is delivered through narratives and an easy-to-read question and answer section. Some of the referral information and terms such as OHIP are specific to London, Ontario.

This is Your Body: (New Readers Press - Distributed by Educational Resources), 1982.

Reading Level: 6

Cost: \$6.95 for book.

\$5.25 for workbook.

Here is a book for those who want to learn more about their body. It's a well-written book with many black and white illustrations. However, the book has not been in great demand. It would probably be a good introduction for students who want to eventually earn credits in biology.

LIFE SKILLS

You Can Give First Aid: (New Readers Press, Distributed by Educational Resources), 1979.

Reading Level: 4

Cost: \$5.75

\$7.75 for teacher's guide.

This book contains vital information that all students, especially parents, should know. This 32 page booklet covers treatment for burns, shock, bleeding, poisoning, and minor wounds and is written at an easy-to-read level. Illustrations aid the reader in understanding how to give mouth to mouth resuscitation.

LIFE SKILLS

LEGISLATION

It's Your Right!: (Human Rights Directorate, Department of the Secretary of State), 1988.

Reading Level: 7

Cost: Free publication.

This kit consists of a 95 page student's manual and a teacher's guide. The manual contains an introductory chapter on basic rights and freedoms, followed by chapters on tenant's rights, age, disability, sexual harassment, equal pay, employment rights and race, colour and ethnic origin. Although the modules were designed to be used in Adult Basic Education classes, they could also be used successfully in tutorial sessions. Case studies are used within each module as a springboard for discussion and problem-solving. Cartoons, letters and newspaper stories are used as vehicles for presenting the majority of the case studies.

LIFE SKILLS

CONSUMER ISSUES

Banking for Adult New Readers: (ACCESS), 1981.

Reading Level: 7

Cost: \$2.50 & \$1.00 for handling.

This 28 page booklet was written to supplement the Alberta ACCESS video 'Safer than a Sock.' It concentrates on explaining how to use chequing and savings accounts. The print is large, and there is an adequate amount of graphic information. The one shortcoming is the length and complexity of the sentence structure.

Consumer Complaints: A Self Help Handbook: (Consumer and Corporate Affairs), 1985.

Reading Level: 7-8

Cost: Free government publication.

Do you work with students who are unsure of their rights as a consumer? Are they unsure about where and to whom they should take their complaints? If so, then this is the publication for them as it outlines procedures for effective complaining, methods of complaining, assertive behaviour, and general sources of consumer help. The bulk of the booklet is a directory of information. Although this book was intended for the general public, it could be used with students reading at a higher level (7-8).

Credit Wise: A guide to consumer credit: Canadian Bankers' Association), 1983.

Reading Level: 7-8

Cost: Free Publication

If the student you work with is interested in learning more about credit, this book will help to answer his/her questions. The book was written for the general public, so the vocabulary and sentence structure are complex, and there are few illustrations. Nevertheless, this 38 page booklet is an excellent source of information.

LIFE SKILLS

To the Point on Money Management: (New Readers Press -
Distributed by Educational Resources), 1980.

Reading Level: 3-4

Cost: \$6.50 per title.

\$3.75 for teacher's guide.

The major disadvantage of this series is the American content. There are five books in the series, plus a teacher's guide. The lay-out of the books is good, and there are many cartoons and graphics. The individual titles are:

Using Credit

Making a Budget

Insuring Yourself

Saving and Investing

Using a Chequing Account

BIOGRAPHIES

Canadian Lives: (Fitzhenry & Whiteside), 1989.

Reading Level: 5-6

Cost: \$7.95 for individual biographies.

\$9.95 for group biographies.

This well-written series is very popular among students. The paperback books are published in two formats: 48-page individual biographies and 64-page group biographies featuring four profiles with a thematic link. The text is supported by photographs, diagrams, news clippings, printed memorabilia, and childhood letters. The book is easy to read, with large print and short lines of text. This series comes highly recommended. The individual titles are:

Brian Orser

Laurie Graham

David Suzuki

Jeanne Sauve

Bryan Adams

Robert Bateman

Wayne Gretzky

Karen Kain

Swimmers

Kids' Writers

Bravery

Entrepreneurs

Painters

Pioneers

Track and Field

Musicians

Discover Canadians: (Globe Modern), 1980

Reading Level: 5-6

Cost: \$8.65

\$4.35 for teacher's guide.

This attractive paperback is a collection of 18 short biographies about Canadians. In writing this book, the author has chosen to highlight a significant event in the life of each of the subjects. Some of the more famous personalities portrayed are Nellie McClung, Anne Murray, Chief Dan George and Norman Bethune. This 95 page book contains several black and white photographs. Multiple choice questions and vocabulary exercises follow each biography. A teacher's guide is also available.

BIOGRAPHIES

The Entertainers: (Creative Education - Distributed by Saunders Book Company), 1975 & 1983.

Reading Level: 7

Cost: \$13.50 per title.

This series, which features musicians and television shows, is dated as several of the television shows are no longer aired. Also, Neil Diamond's biography was written in 1975. Although the publisher states that this series is written at a grade 4 level, this designation is inaccurate. The series is written at approximately a grade 7 level. These hardcover books are 32 pages in length. The individual titles are:

Bruce Springsteen
Neil Diamond
Hall & Oates
Pat Benetar
The Cosby Show
Battlestar Galactica
Earl Campbell
Happy Days

The Hardy Boys
Magnum P.I.
Mork and Mindy
M.A.S.H.
Star Wars
Hulk Hogan
Andre The Giant

History Maker Series: (Quercus Corporation - Distributed by Globe Modern Curriculum Press), 1986.

Reading Level: 3

Cost: \$4.95 per title.

The 3 books in this series are written in the narrative genre, which helps to make the history come to life. The illustrations are limited, with only 3 per book. The series is available in paperback only. The individual titles are:

Cleopatra
Galileo
Soul Force

Mother Teresa: (Scott, Foresman and Company - Distributed by Gage Educational Publishing Company), 1982.

Reading Level: 5-6

Cost: \$6.30

This book is part of a series entitled "Adult Readers Library." It is well-written, and is an interesting account of Mother Teresa's life. The book contains a glossary and several black and white photographs. Unfortunately, its shelf life is limited due to poor binding.

BIOGRAPHIES

Operation Literacy Series I and II: (Canadian Library Association), 1981 and 1986.

Reading Level: 2-4

Cost: \$2.25 per title.

\$22.00 for Series I.

\$20.00 for Series II.

Thirteen of the books in the Operation Literacy series are biographies of famous Canadians. The books are well-written and were extensively field tested in a number of literacy programs in Ontario. The books would be appropriate for independent reading as the biographies are very short (8 - 21 pages). Each book has a word list on the last page, and 2 or 3 illustrations or photographs. The series is available in paperback only. The individual biography titles are:

Laura Secord

Emily Carr

The Donnelly's

John A. Macdonald

Jack Miner

Riel of the Free People

Pauline - The Indian Poet

Timothy Eaton

Karen Kain

Billy Bishop

Thomas D'Arcy McGee

Tom Thomson

Nellie McClung

BIOGRAPHIES

Reading Success Paperback Books: (Turman Publishing Company
- Distributed by Educational Resources), 1987.

Reading Level: 5

Cost: \$4.75 per title.

\$6.25 per workbook.

The lives of popular musicians, movie stars and athletes are explored in this series. The majority of biographies feature American males. Each 75 page paperback contains approximately 20 black and white photographs. The reader is often faced with two full pages of very small print, with limited spacing between the lines. This series has not experienced a very high circulation rate. Reproducible workbooks accompany each title. The individual titles are:

Bon Jovi
Cher
Cosby
Cruise
Elway
Fox
Johnson
Jordan
Macchio

Madonna
Magic
Murphy
Prince
Springsteen
Stallone
Tyson
Whitney

BIOGRAPHIES

Rookie Biographies: (Childrens Press - Distributed by
Grolier Ltd.), 1990.

Reading Level: 2-3

Cost: \$15.50 per title.

Although this series was written specifically for children, it is also appropriate for an adult audience. Each page boasts beautiful color photographs and illustrations which correspond to the text, making it easier for the reader to make predictions. Each line of text only contains 3 to 5 words, and the print size is large. These books are highly recommended for beginning readers because of their low readability level. This series profiles American explorers, pioneers, politicians and musicians. However, a few titles such as Martin Luther King and Laura Ingalls Wilder, may be of interest to Canadian students. Each hardcover book is approximately 46 pages in length. The individual titles are:

Ludwig van Beethoven
Daniel Boone
Christopher Columbus
Benjamin Franklin
Martin Luther King, Jr.

Robert E. Lee
Abraham Lincoln
Pocahontas
Jackie Robinson
Laura Ingalls Wilder

BIOGRAPHIES

Sports Close-Ups, SCU-2: (Crestwood House - Distributed by Collier MacMillan), 1985.

Kaleidoscope: A Collection of Stories: (New Readers Press - Distributed by Educational Resources), 1990.

Reading Level: 1-2

Cost: \$26.25 per set of books.

\$30.25 per set of read-along tapes.

These 8 booklets are a reminder of the difficulty in obtaining high-quality fiction material at the grade 1-2 reading level. However, the reality is that almost any piece of fiction written at the 1-2 level is a welcome addition to one's resource collection. These 8 stories are lacking in character and plot development. Each book contains approximately 6 illustrations and consequently, readers will often encounter two pages of solid print. The sentences are short and the words do not exceed two syllables in length. The print in each 24 page paperback is large. The individual titles are:

Stop That Woman!
No More Cats!
Hush, Little Baby

The 4 readers in this series are correlated to the Laubach's Skill Books. The vocabulary is controlled and the text is very repetitive. Each line of text is arranged in 'natural word groupings' which aids the reader in gaining fluency. This also means that even though there are no illustrations in the books, the arrangement of text does not overwhelm the reader. Please note that this series was cited for excellence by the American Library Association. These paperback books are approximately 58 pages in length. A curriculum guide is also available. The 40 page booklet has large print, and contains several black-and-white photographs of Jamaica and St. Lucia. The language and photography in this paperback will spark many pleasant memories for those readers who have lived in the Caribbean and it will spark interest in the Caribbean for those who have never visited that part of the world.

Myths and Folktales From Around the World: (Globe Modern Curriculum Press), 1985.

Reading Level: 4

Cost: \$13.75

\$3.65 for teacher's guide.

The concepts presented in this book and the unfamiliar genre of these myths and folktales may present difficulties for some students. A great deal of pre-reading discussion will probably be necessary. Fortunately, each selection begins with an introduction to new vocabulary and some background information about the myth. To facilitate comprehension, deities in Greek myths such as Aphrodite and Eros have been given their equivalent Roman names (Venus and Cupid). The book contains 46 myths and folktales from around the world. Each selection in this 370 page book is between 3-10 pages in length. At the end of the book, a set of thought-provoking questions are provided for each selection.

FICTION

Open-Ended Stories: (Globe Modern Curriculum Press), 1973.

Reading Level: 4-5

Cost: \$11.95

\$2.25 for teacher's guide.

The 20 short stories in this book are about young adults. The book addresses several universal themes such as 'the search for identity', 'brotherhood', and 'choosing values'. With each of the stories, the reader must supply the ending. Many adult students do not like this book as they seem hesitant to provide a conclusion for a story in which they do not have a sense of ownership.

FICTION

Snapshots: (Cambridge - Distributed by Prentice-Hall Inc.)
1984.

Reading Level: 5-8
Cost: \$6.25 per title

Snapshots consists of 4 books, with one book at each grade level. Each book contains 25 short reading selections which are all under 800 words. The selections have been taken from recent books, magazines and newspapers. It should be noted that the American content in the passages is high. Computers, money, energy and the environment, health concerns and social relationships are some of the issues dealt with in the passages. One shortcoming is that the selections were not given titles, which makes choosing a selection to read difficult. Multiple-choice comprehension questions follow each selection, plus detailed answers and explanations that show the reader how to analyze the passage to obtain the correct answer. The individual titles are:

Snapshots RL 5

As well, an introduction to new vocabulary precedes each story. Overall, the book has a good collection of passages.

FICTION

Talespinners: (Fearon), 1981.

Reading Level: 4

Cost: \$3.90 U.S. per title.

Talespinners has recently expanded from 8 to 16 titles. Although the publisher states that the readability levels are between grades 2-4, the higher level seems to be a more accurate representation of the reading level. The 16 paperback books are a combination of mysteries, adventure and science fiction. In some of the books the central character is an adult, whereas in others, it is an adolescent. These 75 page books contain only an introductory illustration. The most recent titles are:

Golden God
Johnny Tall Dog
The Joker
Man in the Cage

Set II

Tor Double-Action Westerns: (Tom Doherty Associates -
Distributed by Fenn H. B. & Company Ltd.), 1990.

Reading Level: 5-6

Cost: \$4.50 per title.

Currently, there are 5 paperbacks available in this new series, with each paperback featuring two western stories. These westerns were originally published in magazines between 1928 and 1962. The authors are well established writers of western fiction and a few are recipients of the 'Spur Award' from the Western Writers of America. Each novelette is approximately 100 pages. The size of the print varies from book to book. For instance, the print is large in book #2 and small in book #4. The text is not accompanied by graphics. These books are recommended simply because of the lack of easy-to-read westerns. The individual titles are:

- #1 Battle's End/ The Three Crosses
- #2 Avalanche/ The Kidnapping of Roseta Uvaldo
- #3 Sharpshod/ They Called Him a Killer
- #4 The Riders of Carne Cove/ Last Cowman of Lost Squaw Valley

Reading Level: Book One (3-5)

Book Two (5-6)

Book Three (7-9)

Cost: \$6.65 per title.

Words on the Page, The World in Your Hands is a set of three paperbacks and a teaching manual. Each book contains between 44-65 pieces of prose and poetry written, selected and adapted by contemporary writers for adults in literacy programs. The selections have been arranged in order of difficulty, with Book One containing selections that can be understood at a literal level. In Book Two, readers will have to apply inferential comprehension skills more frequently. Book Three contains more abstract material, that will require the reader to apply critical analysis of the text. The print is very dense, and the books do not contain any illustrations.

WORD IDENTIFICATION WORKBOOKS

Many publishers market reading programs which are based on the skills approach to reading. These programs have been placed under WORD IDENTIFICATION since this is their focus for diagnosis and remediation. In the skills approach reading is viewed as a set of skills which need to be learned sequentially. In this approach reading is not viewed as an interaction between the reader's knowledge and print. Neither is reading viewed as a communication process occurring between reader and author. Although none of these programs are recommended as a 'core' reading program, they could be used to supplement the student's individualized program or they could be used as a tutor/student reference.

The Challenger program consists of 8 workbooks and four teacher's manuals. There are separate teaching manuals for levels 6, 7 and 8 and one teaching manual for levels 1 through to 5. This series stresses word identification and the development of a set of reading skills. The workbooks vary in length from 112 - 192 pages, but each one contains 20 lessons. The books also vary in the genre of the passages. For instance, narrative passages are found in workbooks 1 & 3, nonfiction passages are located in workbooks 2 & 4, and workbook 5 contains adaptations from various pieces of literature. American content is kept to a minimum. Structural analysis and phonics are emphasized and a review of these skills is built into each workbook. The print is large in workbook 1 and gradually decreases in size with each workbook. There are no illustrations. It is recommended that these workbooks be used to supplement the student's individualized program. The individual titles are:

Reading Level: 0-4

Cost: \$7.60 per title.

\$17.20 for administrator's manual.

\$4.70 for diagnostic test.

This is a set of 3 workbooks, a diagnostic test and an administrator's manual. According to the publishers, the main purpose of this series is to help nonreaders acquire the prerequisite skills for literacy. Judging from the contents of this series, pre-requisite skills are deemed to be: learning the alphabet; developing a sight vocabulary; and acquiring perceptual skills. The pages in each of the workbooks are perforated with the inside of the page being the student's workpage and the outside column containing the teacher's directions. This series is not recommended because skills are taught in isolation.

WORD IDENTIFICATION WORKBOOKS

The Laubach Way to Reading: (New Readers Press - Distributed by Educational Resources), 1981

Reading Level: 0-6

Cost: Prices vary (See below for price listing).

This series consists of 4 skill books, 4 teacher's manuals, 4 readers, and supplementary materials. The program is very structured and prescriptive in nature. Reading is viewed as a sequential activity, and each book introduces a set of skills to the student. The skill books progress from teaching consonant sounds to short vowels to long vowels and finally to consonant digraphs. The skill books vary in length and in the number of lessons, with Skill Book 1 containing 13 lessons and Skill Book 4 containing 23 lessons. Each lesson is comprised of a passage and a set of activities, all of which emphasize the skill being taught. The passages in Skill Book 1 are under 100 words in length, and the language used is very repetitive and predictable. With each skill book, the language becomes less predictable, and the passages gradually increase in length. The print in Skill Book 1 is large, and gradually decreases in size with each skill book. The passages are followed by a set of activities which reinforce practical life skills and comprehension skills. The comprehension questions are mainly explicit. The success of this well-known program differs among students. The major drawback is that the program is not individualized, as the focus is on the attainment of skills rather than HOW the student is reading. If this program is used, it should be supplemented by a variety of other meaningful activities such as language experience which encourages the student's use of language knowledge and his/her knowledge of the world. The individual titles are:

Skill Book 1 (\$6.95)

Skill Book 2 (\$6.95)

Skill Book 3 (\$10.25)

Skill Book 4 (\$10.25)

Teacher's Manual for Skill Book 1 (\$7.50)

Teacher's Manual for Skill Book 2 (\$7.50)

Cost: \$6.95 per title.

\$6.95 for teacher's guide.

\$6.95 for groundbreaker exercises

This program includes 8 workbooks, a placement test, an instructor's guide and a book of groundbreaker exercises. Word identification is stressed throughout the workbooks. Print based decoding skills such as phonics, sight words and structural analysis are the key components of this program. Many of the exercises are devoid of meaning in terms of objectives and purpose and do not assist the reader in learning the skills being emphasized. The typeset in these illustrated books is large.

The Phonics Program: (Globe Modern Curriculum Press), 1982.

The program is based on a combination of analytic phonics and sight word instruction. The textbooks introduce word patterns or families, which are then followed by a passage in which the vocabulary is controlled. Word cards are provided in each textbook for review and testing. Tutor directions and a script for the tutor to use appear on the left-hand page of the textbook and the student's material is on the right-hand page. The accompanying workbooks provide further practice with the words introduced in each unit. In order to experience success with this program, students need to have strength in the visual area. Also, if this program is used, it should be complemented by a variety of other materials and resources which are more meaningful to the student. The individual titles are:

Reading Level: 4-12

Cost: \$19.90 per title.

\$31.85 for teacher's guide.

This program consists of 9 books, with each one being at a different readability level. These paperbacks are excellent reference books for tutors and students. Each book is divided into the following 4 sections: comprehension skills; reference skills; textbooks and study skills; and literary skills. Lessons in the comprehension skills sections include main idea, chronological and spatial order, understanding cause and effect, fact and opinion, and conclusions and references. A broad range of reading material such as fiction, expository, periodicals, reference words and graphics is used in the lessons and exercises. The books contain several illustrations. The individual titles are:

These books are designed for students who need practise in using meaning, print and language cues to predict words. This set contains 9 workbooks, with each one being at a different readability level. Each book contains dozens of paragraphs in which certain words have been deleted. These cloze exercises are modified since the students is provided with 4 words to choose from when making his/her prediction. Cloze Connections A through to Cloze Connections I

COMPREHENSION WORKBOOKS

Comprehension Crosswords: (Jamestown Publishers -
Distributed by Fitzhenry & Whiteside), 1979.

Reading Level: 3-12

Cost: \$31.85 per title.

Comprehension Crosswords is a set of 10 books, with each one at a different readability level. Each book contains 24 spirit masters. The answers to the crosswords are printed on the masters and, according to the publisher, the answers should not reproduce. Unfortunately, attempts to reproduce the masters on the photocopier resulted in the answers also being copied. The end result was dozens of potentially good crossword puzzles that students were unable to use. However, this problem would be overcome if copies were made on a spirit duplicator. The individual titles are:

Comprehension Crosswords 1 through to Comprehension Crosswords 10.

The Curious Reader: Increasing Comprehension and Vocabulary Skills: (Science Research Associates), 1985.

Reading Level: 3-7

Cost: \$8.25 per title.

This series consists of 7 workbooks which progress from 3rd to 7th grade reading levels. Each workbook contains 6-11 non-fiction passages, some of which may not be of interest to adults. The comprehension questions which follow each passage are limited in scope and mainly require factual answers. The individual titles are:

The Curious Reader: Book 1 through to The Curious Reader: Book 7

Everyday People: (Steck Vaughn Company - Distributed by Pippin), 1984.

Reading Level: 3-4

Cost: \$8.10 per title.

This workbook is part of a series entitled the Adult Reading Collection. Everyday People contains 40 paragraphs, with each one followed by exercises. The language is stilted which results in flat, choppy sentences. The exercises consist mainly of factual questions and meaningless isolated tasks. The remaining 2 titles in the series are 'Finding a Job' and 'Managing Money'.

COMPREHENSION WORKBOOKS

From Pictures to Passages: Building Skills in Reading Comprehension: (Contemporary Books - Distributed by Fitzhenry & Whiteside), 1984.

Reading Level: 4-6

Cost: \$8.50

The title of this workbook is misleading as an attempt is made to build skills in structural analysis and dictionary usage as well as in comprehension. The workbook contains 12 units that focus on a specific skill and 2 units that serve as a review of skills. The comprehension units that address main idea and inferences are process-oriented. These 2 units introduce the concept through the use of pictures and then describe strategies to find the main idea and to make inferences. The remaining 10 units are skills-based and do not provide the student with effective strategies for understanding or decoding text. The unit on understanding relationships among ideas across passages (cause-effect, time, compare-contrast) is very superficial and does not provide enough examples or exercises. Although this 215 page workbook is entitled From Pictures to Passages, it only contains 10 pages of illustrations.

The Kim Marshall Series in Reading: (Educators Publishing Service - Distributed by Educational Resources), 1984.

Reading Level: 4-6

Cost: \$8.60 per title. (1-5 copies)

\$4.30 per title. (6 or more copies)

\$4.30 per teacher's guide.

This series consists of 2 workbooks which are similar in format and readability level. The readability level of both books is grade 6, and not between grades 4-6, as specified by the publisher. Each workbook consists of approximately 90 passages, with each passage being one-half of a page in length. The passages are adaptations of stories from newspapers, magazines, television shows, books, movies, and from the author's experience. Ninety percent of the comprehension questions are factual. Teachers/tutors would need to expand upon the questions by asking a variety of thought-provoking questions. Each workbook is accompanied by a teacher's guide. The individual titles are:

Reading - Book 1

Reading - Book 2

COMPREHENSION WORKBOOKS

Reader's Choice: (Contemporary Books - Distributed by Fitzhenry & Whiteside), 1989.

Reading Level: 4-6

Cost: \$7.50 per title.

The three workbooks in this series progress sequentially from reading level 4 to level 6. The reading selections deal with social and personal issues that affect adults. For instance, Discoveries contains articles on apartheid, depression, workers' rights, and robotics. Unfortunately, some of articles contain information that is specific to the United States. Each workbook contains 12 lessons followed by 3 to 4 pages of exercises. The series provides excellent post-reading exercises that develop critical-thinking skills. The first two workbooks also provide word identification exercises whereas the final book focuses on vocabulary building exercises. The individual titles are:

Insights (grade 4)

Connections (grade 5)

Discoveries (grade 6)

Reading Power Through Cloze: (Globe Modern Curriculum Press), 1980.

Reading Level: 4-7

Cost: \$9.50 per title.

\$7.50 per teacher's guide.

This series consists of 4 workbooks which concentrate on comprehension and vocabulary development. The title of the series is deceiving since cloze is not the focus of the workbooks. There are 6 lessons per workbook, and the format for each lesson is consistent. The lesson begins with an introduction to vocabulary words which will be found in the passage, and a brief overview of the passage. The passages, which are mainly non-fiction, have a cloze format with each one having 15 deleted words. Each 2-3 page passage is followed by a multitude of comprehension, writing and vocabulary exercises. There is one illustration per lesson. The subject matter of the passages is suitable for adult readers. Each workbook is accompanied by a teacher's guide. The individual titles are:

Mysteries Across Time (grade 4)

Reading the Newspaper: (Jamestown - Distributed by Fitzhenry & Whiteside), 1989.

Reading Level: 6-12

Cost: \$14.95

Reading the Newspaper is a set of two workbooks written at a middle level (grades 6-8) and at an advanced level (grades 9-12). The primary purpose of the workbooks is to teach the specialized skills needed to read the newspaper effectively and to provide the opportunity to practice those skills. The newsclippings used in the workbooks were abstracted from American newspapers. These workbooks are not recommended because of the high percentage of newsclippings that focus on American politics, issues, geography, sports, and personalities.

Cost: \$17.25 per title.

These workbooks explain how to skim and scan, and provide opportunities for students to practice these skills. VOCABULARY WORKBOOKS

Vocabulary Canada Series: (Globe Modern Curriculum Press),
1990-91.

Reading Level: 4-7

Cost \$10.95 per title.

The 6 titles in this series are an extension of Globe Modern's World of Vocabulary workbooks. The two series are identical in their format and number of lessons per workbook (20). A major attraction of this series is the Canadian content. Another positive feature is the quantity and quality of the photographs that accompany the text. The books are visually appealing, with lots of white space to break up the print. Unfortunately, the print is small. Some of the workbooks do not have a table of contents, making it difficult for readers to choose their reading selection. Each lesson introduces 10 vocabulary words that appear in a short reading selection. The passage is then followed by 4 pages of vocabulary exercises. Some of the exercises are not very meaningful and simply require the student to list the vocabulary words in alphabetical order. The individual titles in this series are:

Challenge of Vocabulary Canada	(grades 4-5)
Variety of Vocabulary Canada	(grades 4-5)
Wonder of Vocabulary Canada	(grades 4-5)
World of Vocabulary Canada	(grades 5-6)

Cost: \$8.25 per title.

Educational Design publishes 2 Life Skills Writing workbooks. The first one is 'Writing for the World of Work'. One shortcoming of this workbook is the American content which makes some units such as the completion of W-4 forms irrelevant for the Canadian student. The exercises include writing lists, memos, receipts, purchase orders etc. Rather than using this workbook, students could bring in 'real' examples of writing from their workplace. The second workbook is 'Life Skills Writing'. Students would probably find the sections on personal letters, letter formats and business letters quite useful. The individual titles are:

The package includes one video tape, three audio cassettes, an individual workbook, a tutor guide, and a storage case. According to Onward Learning Systems (OWL), the Video Tutor is a "self-directed package aimed at adults whose current reading and writing skills are around the grade two to grade five level." This package is not recommended for several reasons. First, although the audio and video tapes enable the student to use the workbook without the assistance of an instructor, many students do not have access to video and audio equipment. Secondly, the program does not provide any word identification or comprehension strategies. The workbook exercises and accompanying audio tapes are meaningless and consist of 'fill in the blank' tasks. Thirdly, the video is amateurish and annoying. For instance, in one skit, the actors/actresses who were cast as parents were the same age as the actors/actresses who were cast as children. Finally, the style and content of the narrator's presentation is very patronizing.

GLOSSARY

COMPREHENSION QUESTIONS

Explicit Level The answers for explicit comprehension questions can be located in the text. Sometimes explicit questions require the student to integrate the explicit text information.

Implicit Level Implicit questions require the student to 'read between the lines'. The answers is not specifically stated in the text.

Experiential Level The response for experiential questions is based entirely on the reader's background knowledge.

W5 Questions W5 refers to question that begin with the following words: what, who, when, where and why.

LITERACY STAGES

Stage I Adults in this stage are beginning readers/writers. They need to develop the concept of why people read and/or how people read.

Stage II Adults in this stage are developing and refining their word recognition abilities. Stage II students should be encouraged to use knowledge based information in conjunction with print based information as they read and write. This stage corresponds with reading grade levels one through three.

Stage III Adults in this stage should be encouraged to engage in widespread reading and writing. This stage corresponds with reading grade levels four through nine.

WORD IDENTIFICATION

Analytic Phonics This method refers to phonics programs which emphasize word families. Students use known words to discover strategies for decoding unknown words. This approach stresses that letter sounds should not be taught in isolation.

Structural Analysis This word identification method involves the recognition of words by large, meaningful units such as roots, prefixes, and suffixes.

GLOSSARY

Sight Word A word which is recognized instantly and independently by the student.

Word Family A group of words that have the same pattern of letters. For example, the following words belong to the same word family: heat, beat, and seat.

"Adult Literacy Resource Materials is a comprehensive and up-to-date guide for selecting and ordering resources for adult literacy development. It is the first source I recommend when people ask for advice about choosing materials."

**Mary Norton
Alberta Association for Adult Literacy**

"It was my right-hand tool and I recommend it for setting up a core literacy resource collection."

**Ira Bell
Literacy Librarian
Edmonton Public Library**

"An essential resource for those concerned with literacy."

**Margot Pollard
Chair
Literacy Coordinators of Alberta**

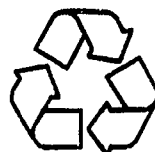

"A thoroughly researched and very comprehensive listing of literacy materials. The entries are detailed and provide practical annotations. This is an excellent tool for anyone developing a literacy collection. As an added bonus, it provides a Canadian perspective."

**Vickii Nicholson
Manager, Library
Alberta Vocational College**

"I have recommended the Bibliography to communities setting up programs across the Arctic. For the coordinators and instructors working in isolation, with little previous experience in adult literacy, it can be an invaluable resource."

**Jean Reston
Adult Education Consultant
Advanced Education, Government, N.W.T.**
