ABSTRACT

This issue of a biannual directory contains a selection of resources in the field of postsecondary education and disability. The directory is organized into the following sections: (1) "Advocacy, Access, and Awareness," covering advocacy and awareness across disabilities, architectural access, education and career access, and family support; (2) "Community Integration," covering employment, independent living, and rehabilitation; (3) "Disability-Specific Organizations," listing organizations concerned with chronic illness, developmental disabilities, hearing impairment, learning disabilities, mobility impairment and injury-related disabilities, psychiatric disabilities, and vision impairment; (4) "Funding"; (5) "Legal Assistance," describing legal assistance organizations, federal laws and regulations, and technical assistance on civil rights; and (6) "Technology." Within each section, organizational and institutional resources are named, their addresses and telephone numbers provided, and their purpose and services described. A list of toll-free telephone services concludes the directory. (JDD)

HEATH RESOURCE CENTER

National Clearinghouse on Postsecondary Education for Individuals with Disabilities

The HEATH Resource Center is a clearinghouse which operates under a Congressional legislative mandate to collect and disseminate information nationally about disability issues in postsecondary education. Funding from the United States Department of Education enables the Center to increase the flow of information about educational support services, policies, and procedures related to educating or training people with disabilities after they have left high school.

HEATH Resource Center is designed to:

- identify and describe educational and training opportunities
- promote accommodations which enable full participation by people with disabilities in regular, as well as specialized, postsecondary programs;
- recommend strategies which encourage participation in the least restrictive and most productive environment possible for each individual.

To accomplish these goals, HEATH has an extensive publication program, a toll-free telephone service, and a professional staff which participates in a strong network of colleagues across the country.

Information from HEATH is a newsletter published three times a year and distributed nationally, free of charge, to subscribers. The newsletter highlights campus programs, provides information about new or pending legislation, and offers reviews of new publications and other media products. HEATH resource papers, monographs, guides, and directories focus on disability-related issues as they emerge on college campuses or in vocational-technical training schools, adult education programs, independent living centers, and other community-based training programs. Single copies of HEATH publications are free and may be reproduced. Most are available by request on audiocassette tape or computer disk.

HEATH's constituency is comprised of postsecondary administrators and service providers, teachers and instructors, high school and vocational rehabilitation counselors, government officials, librarians, health professionals, journalists, as well as those with disabilities and their families. The toll-free telephone line is available to encourage direct interaction with HEATH staff.

Participation by HEATH staff in national, regional, and statewide conferences and training workshops has led to the development of a national network of professionals across the nation. This network enables staff to suggest speakers, access options, audiovisual materials, and other resources to enhance such meetings.

HEATH staff can be reached Monday-Friday, 9 a.m.-5 p.m. Eastern Time at (800) 544-3284; or, in the Washington, DC metropolitan area, at (202) 939-9320; both lines are available for Voice or TDD calls.

Inquiries may also be mailed to HEATH at One Dupont Circle, Suite 800, Washington, DC 20036. Inquiries will receive prompt attention.

HEATH Resource Center is a program of the American Council on Education.

RESOURCE DIRECTORY

1991-1992

THE RESOURCE DIRECTORY

The **HEATH Resource Directory** is a biannual selection of resources in the major areas of interest in the field of postsecondary education and disability, rather than a comprehensive list of such resources. Many of the organizations included can respond to questions about an individual's own situation, and most can provide published materials. In addition, staff may be asked about sources of assistance close to the caller's location.

The Table of Contents of the **Directory** provides an outline of its organization. At the end of many sections there are a few Additional Resources, which include books or directories, magazines, and/or other organizations which HEATH staff find helpful. Because many of the listed organizations have multiple purposes and can provide more than one type of service, readers of a particular section are referred to other organizations in other sections of the **Directory** ("See Also:"). The Index lists names of organizations described in each section, and the list of Toll-free Telephone Services reproduces only numbers from this Directory. **HEATH has resource papers on many of the Directory topics. Publications may be ordered, free of charge, by writing or calling the Center.**

Ann R. Davie, Editor; Rhona C. Hartman, Director, HEATH Resource Center; Dottie Jones, Production Assistant; June, 1991.

The **HEATH Resource Directory** has been prepared under Cooperative Agreement No. H030C0000190A with the United States Department of Education, awarded to the American Council on Education. The contents do not necessarily reflect the views of the U.S. Government, nor does mention of products or organizations imply endorsement by the U.S. Government. This **Directory** is free by request to the HEATH Resource Center, One Dupont Circle, NW, Suite 800, Washington, DC 20036.

ADVOCACY, ACCESS, and AWARENESS

ADVOCACY ACROSS-DISABILITY

American Association of Disability Communicators (AADC)

c/o National Easter Seal Society
70 E. Lake Street
Chicago, IL 60601
(312) 726-6200
(312) 726-4258 (TDD)

AADC is an information network among communicators (such as writers, reporters, and television/radio news broadcasters) who address issues relevant to people with disabilities. Examples of these issues are media coverage, media access, transportation access, and the language used to describe people with disabilities.

Clearinghouse on Disability Information

Office of Special Education and
Rehabilitative Services (OSERS)
U.S. Department of Education
Room 3132, Switzer Building
Washington, DC 20202-2524
(202) 732-1241

The Clearinghouse responds to inquiries on a wide range of topics. Information is especially strong in the areas of federal funding for programs serving people with disabilities, federal legislation affecting the disability community, and federal programs benefitting people with handicapping conditions. The Clearinghouse staff are knowledgeable about who has information and refers inquirers to appropriate sources.

Disabled Veterans of America (DAV)

807 Maine Avenue, SW
Washington, DC 20024
(202) 554-3501

DAV is a national membership organization of service-oriented disabled veterans, their families, and survivors. Its National Service Program (NSO) advises members and non-members across the country. Without charge, DAV NSOs act as advocates for individuals to obtain the benefits to which they are entitled. DAV works to lower the rate of unemployment among disabled veterans and the level of discrimination against them. The Voluntary Service Program (VAVS) operates nationwide, as does the Transportation Network.

National Council on Disability
800 Independence Avenue, SW, Suite 814
Washington, DC 20591
(202) 267-3846 (Voice)
(202) 267-3232 (TDD)

The National Council is an independent federal agency comprised of 15 members appointed by the President and confirmed by the Senate. It is charged with addressing, analyzing, and making recommendations on issues of public policy which affect people with disabilities. The National Council originated and developed the first draft of the Americans with Disabilities Act, which was signed into law by President Bush on July 26, 1990. The National Council distributes a free newsletter, **FOCUS**, and welcomes requests for copies of policy papers. Publications include **On the Threshold of Independence (1988)**, **An Assessment of Federal Laws and Programs Affecting Persons with Disabilities—Legislative Recommendations** (no cost).

National Easter Seal Society

70 East Lake Street
Chicago, IL 60601
(312) 726-6200
(312) 726-4258 (TDD)

1350 New York Avenue, NW
Washington, DC 20005
(202) 347-3066

The National Easter Seal Society is a nonprofit, community-based health agency dedicated to increasing the independence of people with disabilities. Easter Seals offers a wide range of quality services, research and programs to assist adults and children with disabilities and their families. The centers offer employment opportunities for physical, occupational, speech, and other rehabilitation professionals. The Washington office monitors federal legislation and regulations, and it publishes a quarterly newsletter **Washington Watch Line**. A publications list is available.

National Organization on Disability (NOD)

910 16th Street, NW, Suite 600
Washington, DC 20006
(202) 293-5960
(202) 293-5968 (TDD)

NOD promotes the fuller participation of Americans with disabilities in all aspects of community life. Its primary program is the Community Partnership Program, a network of 2000 towns, cities, and counties nationwide. NOD's Community Partnerships undertake many different activities to improve attitudes toward people with disabilities; to

expand educational and employment opportunities; and to eliminate physical barriers and expand participation in religious, cultural, and recreational activities. The quarterly newsletter, REPORT, is available upon request.

World Institute on Disability (WID)

510 16th Street
Oakland, CA 94612
(415) 763-4100 (Voice/TDD)

WID is a public policy institute seeking solutions to major problems faced by disabled people of all ages. Founded in 1983, it offers information on independent living, personal attendant care, and study results of the IDEAS project in foreign countries.

ARCHITECTURAL ACCESS

American Institute of Architects (AIA)

c/o Information Center
1735 New York Avenue, NW
Washington, DC 20006
(202) 626-7493

The Institute has published two annotated bibliographies of material on barrier-free design. One bibliography lists 60 books, and the other offers 13 pages of references to periodical articles. Both are free to AIA members (\$10.00 each for non-members) upon request.

Architectural and Transportation Barriers Compliance Board (ATBCB)

1111 18th Street, NW, Suite 501
Washington, DC 20036-3894
(202) 653-7834 (Voice/TDD)
(800) 872-2253 (Voice/TDD)

ATBCB is an independent agency charged with ensuring that certain facilities designed, constructed, leased or altered with Federal funds since September 1969 are accessible to and usable by persons with disabilities. In addition, the Office of Technical and Information Services provides technical assistance on barrier-free design and the removal of barriers. It answers questions concerning architectural, transportation, communication, and attitudinal barriers affecting persons with disabilities.

Association of Higher Education Facilities Officers (APPA)

1446 Duke Street
Alexandria, VA 22314
(703) 684-1446

APPA (formerly Association of Physical Plant Administrators) is an international association whose purpose is to promote excellence in the administration, care, operation, planning, and development of higher education facilities. Regional directors throughout the country can provide referrals to speakers on the topic of accessibility in educational facilities.

5999 Stevenson Avenue
Alexandria, VA 22304
(703) 823-9800
(703) 370-1943 (TDD)

AACD is the parent organization for counselors from educational and social service settings across the country who have joined one or more of 15 subdivisions of AACD. Included are postsecondary, secondary, and elementary school counselors; vocational counselors; mental health, employment, and diagnostic/evaluation rehabilitation counselors; and other interested professionals. Each group has its own newsletter, publications, and conferences. AACD can furnish a publications list.

American Association for the Advancement of Science (AAAS)

Project on Science, Technology, and Disability
1333 H Street, N.W.
Washington, DC 20005
(202) 326-6667 (Voice/TDD)

The Project addresses the concerns of scientists and engineers with disabilities, and offers suggestions about improving accessibility of science programs for students with disabilities. **The Directory of Scientists and Engineers with Disabilities** (2nd Edition, 1987) lists people in various parts of the country who are available for consultation (\$10.00, plus \$3.00 postage). **Science for Handicapped Students in Higher Education** is out of print but available in many college libraries. **Scientific and Engineering Societies: Resources for Career Planning**, edited by Martha Redden and Virginia Stern, offers counselors and students an overview of the wide range of career possibilities and level of education required in science and engineering (\$6.00, prepaid to AAAS Sales Dept.) **Access to the Science and Engineering Laboratory and Classroom** (1986) is available free from AAAS or from HEATH. Available free is a 1991 series entitled **Barrier-Free in Brief**, covering four topics: workshops and conferences for scientists and engineers, classrooms and laboratories in science and engineering, access in word and deed, and access to science literacy.

American Association of Collegiate Registrars and Admissions Officers (AACRAO)

One Dupont Circle, Suite 330
Washington, DC 20036
(202) 293-9161

AACRAO is a non-profit, voluntary, professional, education association of degree-granting postsecondary institutions, government agencies, private educational organizations, and education-oriented businesses in the United States and abroad. Its goal is to promote higher education and further the professional development of members working in admissions, enrollment management, financial aid, institutional research, records and registration. AACRAO and HEATH have jointly published **Recruitment, Admissions, and Handicapped Students**. This guide provides practical suggestions for implementation of the law. It is available free from either organization.

Princeton, NJ 08541-6226
(609) 771-7137
(609) 771-7150 (Voice/TDD)

Through its Admissions Testing Program, the College Board provides special arrangements to minimize the possible effects of disabilities on test performance. Two plans are available. Plan A (Special Accommodations) is for students with documented hearing, learning, physical, and/or visual disabilities. It permits special test editions, special answer sheets, extended testing time, aids, and flexible test dates. Plan B, which offers extended time only, is for those with documented learning disabilities. Plan B permits additional testing time for the SAT and TSWE (Test of Standard Written English). Call or write for **Information for Students with Special Needs**, or **Information for Counselors and Admissions Officers**.

Educational Equity Concepts Resource Center
114 East 32 Street
New York, NY 10016
(212) 725-1803

The Resource Center furthers educational opportunities for women and girls with disabilities by systematically collecting information and making it available to educational institutions and organizations as well as to individuals. A database is being created and a Guide to Educational Services will result. It is a project of the Women's Educational Equity Act Program of the U.S. Department of Education.

Educational Resources Information Center (ERIC)

ERIC is an information system providing access to journal and document literature dealing with education in 16 specialized areas including: higher education; adult, career and vocational education; tests, measurement and evaluation; rural education and small schools; reading and communications skills; science, mathematics and environmental education; handicapped and gifted children; and teacher education. Entries are all annotated, and many can be obtained on microfiche or paper copy reproduction through ERIC. Reprints of most articles can be obtained through University Microfilms International. A computer search of the ERIC database can be made by subject. To access the system, go to one of the 800 subscribing libraries found throughout the country, or seek further information at the nearest college or university library. If unable to find information there, contact ERIC Clearinghouse on Higher Education, George Washington University, One Dupont Circle, NW, Suite 630, Washington, DC 20036, (202) 296-2597; or ERIC Clearinghouse on Handicapped And Gifted Children, 1920 Association Drive, Reston, VA 22091, (703) 620-3660.

Foundation for Science and the Handicapped (FSH)

1141 Iroquois Drive #114
Naperville, IL 60563

FSH is an organization of scientists and professionals in various fields, many of whom have disabilities, who offer their skills to help solve disability-related problems. Inquirers will be referred to members who can respond to requests for guidance, problem clarification, or career suggestions. Members assist educational institutions and industry to create favorable conditions for people with disabilities. They also publish a book by S.P. Stearner, **Able Scientists—Disabled Persons** (\$12.95). Some grants are available to disabled students who are: college seniors or beyond; already accepted or enrolled in graduate or professional school; and are in science, mathematics or engineering. (Send requests for information on grants to: Rebecca F. Smith, 115 S. Brainard Avenue, LaGrange, IL 60625).

ADDITIONAL RESOURCES

Community Colleges and Students with Disabilities, A Directory of Services and Programs (1988) was published jointly by the American Association of Community and Junior Colleges (AACJC) and the American Council on Education (ACE), through the HEATH Resource Center. It may be obtained by sending \$5.00, plus \$2.50 postage/handling, to AACJC, One Dupont Circle, Suite 410, Washington, DC 20036.

Directory of College Facilities and Services for the Disabled (1991) includes information about more than 1300 colleges and universities in the U.S. and Canada. Approximate numbers of students with disabilities, specific services available in each disability category, and other comments are given. While a directory is no substitute for actual visits to schools, this is an excellent resource with which to begin one's own investigation. It is available in many libraries or from the publisher for \$95.00. Oryx also publishes other related titles of interest. The Directory is available from Oryx Press, 2214 North Central at Encanto, Phoenix, AZ 85004. (602) 254-6156.

Handbook of Trade and Technical Careers and Training is a listing of accredited postsecondary career schools throughout the U.S. The schools are arranged according to states, and annotations tell what programs are offered at each school. It is available free from **National Association of Trade and Technical Schools**, 2251 Wisconsin Ave., NW, Washington, DC 20007. (202) 333-1021.

HEATH Resource Center offers the following relevant resources papers free of charge:

Access to the Science and Engineering Laboratory and Classroom
Career Planning and Placement Strategies for Postsecondary Students with Disabilities
Guide to Postsecondary Vocational Education for Students with Disabilities
How to Choose a College: Guide for the Student with a Disability
Measuring Student Progress in the Classroom
Strategies for Advising Students (with Disabilities)
Vocational Rehabilitation Services—A Student Consumer's Guide

FEDERAL LAWS AND REGULATIONS

Increasing numbers of students with disabilities are attending American colleges, universities, vocational-technical programs, proprietary schools, independent living centers, adult education programs, and other places where people continue to learn after high school. Over the past decade and a half, there has been a dramatic growth of opportunities and a crumbling of barriers on campuses and in workplaces.

Students have been assisted in their education and adult training by a range of accommodations that make full participation possible for many. Examples of these accommodations are: relocation of classes and additional time for tests; support services including interpreters, readers, notetakers,

taped tests, and job coaches; and technological equipment such as talking calculators, Braille typewriters, and voice or light beam-operated computer terminals. With such assistance, people with disabilities have been able to make great strides toward managing their lives; and they have been increasingly successful in a variety of postsecondary programs alongside their non-handicapped peers. This kind of success has been achieved gradually, following passage of laws reflecting society's growing awareness of and appreciation for citizens who have disabilities.

Rehabilitation Act and Regulations

Section 504 of the the Rehabilitation Act of 1973 (P.L. 93-112), together with the implementing regulations of 1977 which were reissued by the U.S. Department of Education in 1980, prohibits discrimination on the basis of physical and mental handicap in elementary and secondary and postsecondary education, including postsecondary vocational education, programs and activities that receive Federal funds. Section 504 provides that "no qualified handicapped person shall, on the basis of handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity which receives or benefits from Federal financial assistance." According to the regulations, a "qualified" individual with handicaps, with respect to postsecondary and vocational education, is defined as one "who meets the academic and technical standards requisite to admission or participation in the recipient's education program or activity."

Section 504 enumerates specific programs and activities which must be operated in a nondiscriminatory manner, such as recruitment, testing, admissions, and treatment after admission. For example, institutions must assure that admissions tests are selected and administered to applicants with impaired sensory, manual, or speaking skills in such a manner as is necessary to avoid unfair distortion of test results. Colleges, universities, and other postsecondary institutions are required to make academic adjustments so that qualified students with disabilities can fulfill academic requirements. An institution also has the responsibility to ensure that a qualified handicapped student is provided with auxiliary aids so that the student can effectively participate in the institution's program. Institutions can usually meet the latter obligation by assisting students in obtaining auxiliary aids through other sources, such as state vocational rehabilitation agencies and private charitable organizations.

Under the Section 504 regulation, no qualified individual with disabilities shall be subjected to discrimination under any program or activity because a recipient's program and facilities are inaccessible to or unusable by them. Architectural

modifications need not be made to facilities constructed prior to the June 3, 1977, effective date of the regulation, where alternative methods are effective in making recipients' programs and activities, when viewed in their entirety, readily accessible to individuals with handicaps. That is to say, postsecondary institutions are not required to make *all* older facilities accessible, but may instead use such means as the redesign of equipment, assignment of aides, or relocation of classes to achieve program accessibility. Facilities or parts of the facilities constructed, or alterations made after June 3, 1977, must be readily accessible to and usable by individuals with disabilities. Effective January 18, 1991, all new construction and alterations must be designed in conformance with the Uniform Federal Accessibility Standards or equivalent standards.

Individuals with Disabilities Education Act (IDEA), formerly Education for All Handicapped Children Act

In 1975, the **Education of All Handicapped Children Act** (P.L. 94-142) substantially amended the 1969 Education of the Handicapped Act (91-230, Title VI) and established the right of all children to a "free appropriate public education." It requires that education be provided with related services in the least restrictive environment appropriate to each individual child as specified in that child's formal Individualized Education Plan (IEP), which must be written with the involvement and consent of parents and professionals. The legislation also incorporated due process guidelines to safeguard the rights of children with disabilities and their parents. The Education of the Handicapped Act also established a number of discretionary programs for the purpose of improving the education of individuals with disabilities at all levels of schooling.

The Education of the Handicapped Act Amendments of 1983 (P.L.98-199) mandated the establishment of a national clearinghouse on postsecondary education for individuals with handicaps. Since 1984, HEATH Resource Center has operated this clearinghouse as a program of the American Council on Education (ACE).

In October, 1990, Congress passed the Education of the Handicapped Act Amendments of 1990 (P.L. 101-476), which changes the name of the law to **Individuals with Disabilities Education Act (IDEA)**. Many of the discretionary programs authorized under the law have been expanded. Some new discretionary programs were created, including: special programs on transition, improved services for children and youth with serious emotional disturbance, and a research and information dissemination program on attention deficit disorder. In addition, the law now includes transition services and assistive technology services

as new definitions of special education services which must be included in a child's or youth's IEP. Also, rehabilitation counseling and social work services will be included as related services under the law. Finally, the services and rights under this law are expanded to more fully include children with autism and traumatic brain injury.

Carl D. Perkins Vocational and Applied Technology Education Act

The Carl D. Perkins Vocational and Applied Technology Education Act (P.L. 98-524, 1984; amended by P.L.101-392, 1991) concentrates resources on improving educational programs leading to the academic and occupational skill competencies needed to work in a technologically advanced society. The new law expands the term "special populations to include individuals with disabilities, individuals who are economically and educationally disadvantaged (including migrant and foster children), individuals with limited English proficiency, individuals who participate in programs to eliminate sex bias, and those in correctional institutions. P.L. 101-392 is closely interwoven with the IDEA (above) to guarantee full vocational education opportunities for youth with disabilities.

Civil Rights Restoration Act

The Civil Rights Restoration Act of 1987 (P.L.100-259) provides agencies with broader authority to investigate allegations of discrimination than they had under the Supreme Court's decision in 1984 in *Grove City College v. Bell*. Under *Grove City*, an agency had jurisdiction to investigate discrimination only when the specific program or activity within the institution in which the discrimination allegedly existed was receiving Federal financial assistance. The Civil Rights Restoration Act expands the definition of a program or activity so that agencies may investigate allegations of discrimination anywhere in an educational institution, so long as that institution receives Federal financial assistance.

NOTE: The Office for Civil Rights' regional offices listed on the next page are available to respond to requests for technical assistance about Section 504, but not concerning the other two laws.

Center for Applied Special Technology (CAST)
39 Cross Street
Peabody, MA 01960
(508) 531-8555 (Voice)

CAST was founded in 1984 to expand opportunities for individuals with special needs through innovative use of computers and related technology. It works with children and adults whose disabilities interfere with the full expression of their capacities for education, employment, or development. Assessment and training services are offered for individuals with a wide range of special needs.

Instruction and training in CAST's methods are provided to teachers and other professionals at workshops and presentations nationwide. CAST develops assistive technology and serves as a consultant to a variety of hardware and software manufacturers. CAST also offers a Summer Computer Camp Program at its facilities in Peabody, Massachusetts. A new service of CAST, the Mariner Systems, adapts the Macintosh (TM) computer systems to meet individual needs. Each computer system is designed for an individual by a team of professionals. The Mariner Systems service is available nationally or at CAST.

Closing the Gap (CTG)

P.O. Box 68
Henderson, MN 56044
(612) 248-3294

CTG publishes a bimonthly newspaper on microcomputer applications for disabled individuals with an emphasis on special education and rehabilitation uses (\$26.00/year). It provides presentations and hands-on training to special education and rehabilitation professionals throughout North America and at its training center in Minnesota; and it hosts an annual national conference on Computer Technology for the Handicapped each October.
