ABSTRACT

A brief description of Mississippi's 15 public community and junior colleges is presented in this report, along with statistical data for the 1990-91 years on enrollments, degrees and certificates awarded, revenues, expenditures, academic salary ranges, learning resources, transportation services, dormitory utilization, and auxiliary enterprises. Introductory comments are followed by tables providing data on: (1) headcount enrollment trends; (2) enrollment by institution by campus; (3) non-credit enrollment by college; (4) enrollment by residence by college; (5) enrollment by county; (6) enrollment by race by college; (7) comparison of revenue by source and expenditure by program; (8) county tax support; (9) student fees and charges per semester; (10) education and general expenditures by function and object; (11) revenues and expenditures for auxiliary enterprises; (12) expenditure per full-time equivalent student by function; (13) program completions by sex and by race; (14) percentage of program completions by race; (15) academic faculty salary schedule; (16) faculty average salary versus regional average salary; (17) results of a learning resources survey; (18) dormitory utilization; and (19) transportation service. ## FOREWORD

As the first state to establish a system of public community colleges the state has fifteen comprehensive community college districts which provide educational programs and services which are accessible to virtually all Mississippi citizens. This has been a goal of these two-year institutions since the first one began admitting students in 1922. All public community colleges are accredited by the Southern Association of Colleges and Schools and the Mississippi Commission on College Accreditation.

This network of institutions operates both university transfer and occupationally-oriented programs. Over sixty percent of the Mississippi high school graduates who attend college do so at the community colleges. A student may transfer earned credits to four-year institutions without loss of credit if the student has followed the recommended course of study. Studies reveal that community college transfer students perform on a par with the native student at four-year institutions.

Community colleges are the primary delivery mechanism for postsecondary occupational programs in Mississippi. These programs of two-years or less duration are designed to prepare students for immediate employment and for upgrading skills of those currently employed. Training programs in more than one hundred occupational skills are provided by the schools. Community colleges also provide a variety of continuing education, community and public service activities. The institutions are funded by state appropriations, local district taxes, student fees and federal grants.

A characteristic of Mississippi's community colleges is their flexibility to respond to needs of a given segment of the state's society. This sensitivity is the result of an administration and a board of control operating at the local level. Each college district has a local governing board which employs the president and faculty, owns property, establishes budgets for operation and capital improvement, and sets policies for the general governance of the institution. Cooperation by the various institutions on state-wide endeavors is accomplished through the Mississippi Community and Junior College Association, a voluntary organization of the institutions represented by their presidents.

State coordination and oversight is provided by the State Board for Community and Junior Colleges, which on July 1, 1986, was named successor to the Junior College Commission. With regard to the system of community colleges, the State Board establishes standards for operation, administers state appropriations, approves vocational and technical programs and attendance centers, assembles reports, and provides general coordination. The State Board of Education (K-12) serves as the State Board for Vocational Education, and through its Bureau of Vocational and Technical Education administers programs on secondary and post-secondary level.
