## ABSTRACT

Under the authority of Section 406A of the General Education Provisions Act (GEPA), the U.S. Department of Education (ED) collects information on how funds are distributed under federal education programs that are administered by the states. ED collected information from the 50 states and the District of Columbia for the fiscal year 1980. This report provides information on the state distribution of subgrants under the following state-administered federal education programs: Chapter 1 Formula Grants to Local Education Agencies; Chapter 1 Formula Grants to State Education Agencies for Neglected or Delinquent Children; Chapter 1 Formula Grants to State Education Agencies to Meet the Special Educational Needs of Migratory Children; Chapter 1 State Administration; Chapter 1 Aid to States for Education of Handicapped Children in State-Operated and State-Supported Schools; Education of the Handicapped Act (EHA), Handicapped Grants to States Program; Education of the Handicapped Act (EHA), Preschool Grants for Handicapped Children; Federal, State, and Local Partnership for Educational Improvement (Chapter 2); Dwight D. Eisenhower Mathematics and Science Education, State Grant Program; Carl D. Perkins Vocational Education Act, Basic Grants to States; Adult Education Act, Grants to States; Transition Program for Refugee Children, Formula Grants to State Education Agencies; The Emergency Immigrant Education Act; and Library Services and Construction Act (LSCA), Grants to State Library Agencies. The following information is provided for each program: (1) the allocation and reported amount granted by state; (2) nationally, the types of agencies receiving funds, including the percent of reported subgrants and reported subgrant funds going to each type of agency; and (3) nationally, the size of reported subgrants. Forty-six tables are included. Appendices contain subgrant amounts for each program, by agency and type, and subgrant amounts for the Library Services and Construction Act, by state. (LMI)

## EXECUTIVE SUMMARY

### Fourteenth Annual Report to Congress on the Distribution of State-Administered Federal Education Program Funds

Under the authority of Section 406A of the General Education Provisions Act (GEPA), the U.S. Department of Education (ED) collects information on how funds are distributed under Federal education programs that are administered by the States, including Chapter 1 Formula Grants to Local Education Agencies (LEAs); Chapter 1 Formula Grants to State Education Agencies for Neglected or Delinquent Children; Chapter 1 Formula Grants to State Education Agencies to Meet the Special Educational Needs of Migratory Children; Chapter 1 State Administration; Chapter 1 Aid to States for Education of Handicapped Children in State-Operated and State-Supported Schools; Education of the Handicapped Act (EHA), Handicapped Grants to States Program (EHA has since been replaced by the Individuals with Disabilities Education Act (IDEA)); Education of the Handicapped Act (EHA), Preschool Grants for Handicapped Children; Federal, State, and Local Partnership for Educational Improvement (Chapter 2); Dwight D. Eisenhower Mathematics and Science Education, State Grant Program; Carl D. Perkins Vocational Education Act, Basic Grants to States; Adult Education Act, Grants to States; Transition Program for Refugee Children, Formula Grants to State Education Agencies; The Emergency Immigrant Education Act; and Library Services and Construction Act (LSCA), Grants to State Library Agencies.<sup>1</sup>

ED collected information from the 50 States and the District of Columbia. Grant information for Puerto Rico and ancillary areas was not collected. The reader is cautioned that a caveat appears throughout this report stating that the information reported by the States under GEPA 406A is not always complete or accurate for all States and for all programs. The Department of Education as well as the Congress have expressed concern regarding the quality of the reported information, and a bill introduced in the 101st Congress (HR5115) proposed changes to GEPA that are directed towards improving the content and quality of the required information. While this bill did not become law, ED is working with the Congress and other interested parties to improve the data collected under GEPA 406A.

Information for Federal appropriation year FY 1988, which corresponds roughly to the 1988-89 school year, is reported here. It is important to note that under GEPA 406A, the States are required to report the "grant for 1988-89 school year and summer" (OMB No. 1880-0518). Although the funding for the 1988-89 subgrants is based primarily on the FY88 appropriation, some funding may come from unobligated funds from earlier appropriation years (since the Tydings Amendment allows for State-administered Federal education program monies to be carried over from one year to the next). Therefore, for each program, the total grant amount for all recipients in school year 1988-89 reported by a State will not necessarily equal the State allocation for FY88.

---

<sup>1</sup> Program titles used in this report are those in effect for FY 1988.

---

The State-reported data may not be complete or accurate for all States and for all programs.

Under Chapter 1 Formula Grants to LEAs, we found that:

- The vast majority of subgrants (99 percent) and of subgrant dollars (nearly 100 percent) went to public school districts.
- Public school districts also may receive funds indirectly, through intermediate agencies or cooperative arrangements. About 1 percent of Chapter 1 funds were distributed through this arrangement.
- Although some Chapter 1 subgrants were small--about 6 percent were for under \$10,000, 43 percent of the subgrants were for \$100,000 or more.

Under Chapter 1 Formula Grants to State Education Agencies for Neglected or Delinquent Children, we found that:

- Sixty-seven percent of the subgrants and 95 percent of the subgrant funds went to State agencies or institutions.
- Few subgrants--about 11 percent--were under \$5,000. Thirty-four percent of the subgrants were for \$10,000 to \$49,999, and 33 percent were for \$100,000 or more.

Under Chapter 1 Formula Grants to State Education Agencies to Meet the Special Educational Needs of Migratory Children, we found that:

- Three States--California, Florida, and Texas--received about 62 percent of the program funds.
- The majority of subgrants (90 percent) went to public school districts, which also received most of the funds (87 percent).
- Few subgrants (6 percent) were for under \$10,000. Thirty-six percent of the subgrants were for \$10,000 to \$49,999.

Under Chapter 1 State Administration, we found that:

- States received \$36.9 million in Chapter 1 State Administration funds, and virtually all the funds went to State agencies.

---

The State-reported data may not be complete or accurate for all States and for all programs.

Under three Handicapped programs--Chapter 1 Aid to States for Education of Handicapped Children in State-Operated and State-Supported Schools; Education of the Handicapped Act, Handicapped Grants to States Program; and Education of the Handicapped Act Preschool Grants for Handicapped Children, we found that:

- Public school districts received a majority of the subgrants under each of the three programs, and a majority of the subgrant dollars under the Handicapped Grants to States Program and Preschool Grants for Handicapped Children.
- A considerable amount of funding under these programs flowed to intermediate agencies, which, in turn, may provide services to children in public school districts. The percent ranged from 10 percent of Preschool Grants for Handicapped Children subgrant dollars to 18 percent of Chapter 1 Handicapped subgrant dollars.
- About one-third of the subgrants for each of the three programs for handicapped children were for \$10,000 to \$49,999.
- Thirty-three percent of the Handicapped Grants to States Program subgrants were for \$100,000 or more.

Under Federal, State, and Local Partnership for Educational Improvement (Chapter 2), we found that:

- The majority of formula subgrants (97 percent) and discretionary subgrants (93 percent) went to public school districts.
- Chapter 2 formula subgrants were relatively small--37 percent were under \$5,000.

Under the Dwight D. Eisenhower Mathematics and Science, State Grant Program we found that:

- Most of the subgrants under the Elementary/Secondary Formula Grants portion of the program went to public school districts (97 percent), as did the subgrant funds (88 percent). About 8 percent of the subgrant funds for this purpose area went to intermediate agencies; these agencies may, in turn, provide funds or services to additional public school districts.

---

The State-reported data may not be complete or accurate for all States and for all programs.

- Subgrants under the Elementary/Secondary Formula Grants portion of the program tended to be very small--about 78 percent were under \$5,000, and about 32 percent were under \$1,000.

Under the Carl D. Perkins Vocational Education Act, Basic Grants to States, we found that:

- Public school districts received at least 70 percent of the subgrants and over one-half of the subgrant dollars in each of six program areas (Handicapped, Disadvantaged, Adult Training, Sex Equity, Program Improvement, and Consumer and Homemaking).
- Between 17 and 39 percent of the subgrant dollars went to universities and colleges in the eight program areas. (This ranged from 17 percent for Disadvantaged to 39 percent for Single Parents.)
- For six of the program areas, the subgrants tended to be small. Seventy percent of the Consumer and Homemaking subgrants were under \$5,000, and between 30 and 43 percent of the Handicapped, Disadvantaged, Adult Training, Sex Equity, and Program Improvement subgrants were under \$5,000.

Under the Adult Education Act, Grants to States, we found that:

- Public school districts received 71 percent of the subgrants and 63 percent of the subgrant funds.
- About 35 percent of the subgrants were for less than \$10,000.

Under the Transition Program for Refugee Children, Formula Grants to State Education Agencies, we found that:

- Program funds were received by 1,285 public school districts in 46 States and the District of Columbia.
- Subgrants tended to be small; 72 percent of the subgrants were under \$5,000.

Under the Emergency Immigrant Education Program, we found that:

- Five States--California, Florida, Illinois, New York, and Texas--received about 77 percent of the program funds.

---

The State-reported data may not be complete or accurate for all States and for all programs.

Under the Library Services and Construction Act, Grants to State Library Agencies, we found that:

- Sixty-four percent of the Title I subgrants and 42 percent of the Title I subgrant funds went to local libraries. An additional 42 percent of Title I subgrant funds went to State agencies/State libraries for Statewide public library services.
- Local libraries received 33 percent of the Title III subgrants and 26 percent of the subgrant funds. State agencies/State libraries received 22 percent of the Title III subgrants and 54 percent of the subgrant funds.
- For Title I, 40 percent of the subgrants were for \$10,000 to \$49,999, while for Title III, 31 percent of the subgrants were for \$10,000 to \$49,999.
- Twenty-five percent of the Title I subgrants and 35 percent of the Title III subgrants were for less than \$5,000.

---

The State-reported data may not be complete or accurate for all States and for all programs.

## PREFACE

This report is the fourteenth annual response of the Secretary of Education to the requirements of Section 406A of the General Education Provisions Act, as amended. The legislation requires States to submit, by December 30 of each year, a list of all subgrants and contracts made during a given fiscal year with funds from State-administered Federal education programs.

This report provides information for Federal appropriation year FY 1988, which corresponds roughly to the 1988-89 school year.

Questions about the report may be addressed to the GEPA Coordinator, Office of Planning, Budget and Evaluation, U.S. Department of Education, 400 Maryland Ave. SW, Washington, DC 20202.

---

The State-reported data may not be complete or accurate for all States and for all programs.

## I. INTRODUCTION

The U.S. Department of Education (ED) provides funds to educational agencies both through direct grants to the agencies and also through States under "State-administered" programs. Under the State-administered programs, the Federal government allocates funds to States according to a formula, and States distribute the funds to eligible recipient agencies such as public school districts, State agencies, and universities. Section 406A of the General Education Provisions Act (GEPA) authorizes the Department of Education to collect information on how the States distribute the funds. ED collected information from the 50 States and the District of Columbia. Grant information for Puerto Rico and ancillary areas was not collected.

Information for Federal Appropriation Year FY 1988, which corresponds roughly to the 1988-89 school year, is reported here. It is important to note that under GEPA 406A, the States are required to report the "grant for 1988-89 school year and summer" (OMB No. 1880-0518). Although the funding for the 1988-89 subgrants is based primarily on the FY88 appropriation, some funding may come from unobligated funds from earlier appropriation years (since the Tydings Amendment allows for State-administered Federal education program monies to be carried over from one year to the next). Therefore, for each program, the total grant amount for all recipients in school year 1988-89 reported by a State will not necessarily equal the State allocation for FY88.

This report provides information on the State distribution of subgrants under the following State-administered Federal education programs<sup>2</sup>:

- Chapter 1 Formula Grants to Local Education Agencies (LEAs);
- Chapter 1 Formula Grants to State Education Agencies for Neglected or Delinquent Children;
- Chapter 1 Formula Grants to State Education Agencies to Meet the Special Educational Needs of Migratory Children;
- Chapter 1 State Administration;

---

<sup>2</sup> Program titles used in this report are those in effect for FY 1988.

---

The State-reported data may not be complete or accurate for all States and for all programs.

- Chapter 1 Aid to States for Education of Handicapped Children in State-Operated and State-Supported Schools;
- Education of the Handicapped Act (EHA), Handicapped Grants to States Program (EHA has since been replaced by the Individuals with Disabilities Education Act (IDEA));
- Education of the Handicapped Act (EHA), Preschool Grants for Handicapped Children;
- Federal, State, and Local Partnership for Educational Improvement (Chapter 2);
- Dwight D. Eisenhower Mathematics and Science Education, State Grant Program;
- Carl D. Perkins Vocational Education Act, Basic Grants to States;
- Adult Education Act, Grants to States;
- Transition Program for Refugee Children, Formula Grants to State Education Agencies;
- The Emergency Immigrant Education Act; and
- Library Services and Construction Act (LSCA), Grants to State Library Agencies.

Information for these programs was collected by the Office of Management, Financial Management Service, and reported by the Office of Planning, Budget and Evaluation. In this report we include information for each program on:

- the allocation and the reported amount granted, by State;
- nationally, the types of agencies receiving funds, including the percent of reported subgrants and reported subgrant funds going to each type of agency; and
- nationally, the size of reported subgrants.

The types of recipient agencies from the GEPA 406A reporting are:

- Public school districts.

---

The State-reported data may not be complete or accurate for all States and for all programs.

- Institutions, which include private schools, homes for the elderly, and orphanages. Does not include State agencies.
- Intermediate administrative agencies, which include organizations below the State level which provide cooperative services to public school districts, such as regional districts, regional agencies, and cooperatives.
- State agencies, which include the State education agency, and other State level organizations, boards, commissions, and departments.
- Universities or colleges.
- Public libraries.

The remainder of the report presents this information by program. Two appendices are also included to provide detailed information on the distribution of State-administered Federal education funds to each subgrant recipient. The reader is cautioned that a caveat appears throughout this report stating that the information reported by the States under GEPA 406A is not always complete or accurate for all States and for all programs. The Department of Education, as well as the Congress, has expressed concern regarding the quality of the reported information, and a bill introduced in the 101st Congress (HR5115) proposed changes to GEPA that are directed towards improving the content and quality of the required information. While this bill did not become law, ED is working with the Congress and other interested parties to improve the data collected under GEPA 406A.

---

The State-reported data may not be complete or accurate for all States and for all programs.

## II. CHAPTER 1 FORMULA GRANTS TO LOCAL EDUCATION AGENCIES

### OVERVIEW OF THE PROGRAM

This chapter provides information on Chapter 1 of Title I of the Elementary and Secondary Education Act of 1965, enacted as part of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, P.L. 100-297 (expires September 30, 1993), Formula Grants to Local Education Agencies (referred to as Chapter 1 Formula Grants in the remainder of this chapter). This program provides financial assistance to public school districts to meet the special needs of educationally deprived children who live in low-income areas. State allocations are calculated according to a formula which takes into account, among other factors, the number of 5- to 17-year-old children in low-income families.

### FINDINGS

Table II-1 presents information on the State allocations and subgrants in 1988-89. In 1988-89, the 50 States and the District of Columbia received close to \$3.7 billion for distribution to subgrantees.

Table II-2 provides information on the distribution of subgrants and subgrant dollars by agency type. We found that:

- As expected, the vast majority of subgrants (99 percent) and of subgrant funds (almost 100 percent) went to public school districts.
- Public school districts also may receive funds indirectly, through intermediate agencies or cooperative arrangements. Almost 1 percent of Chapter 1 Formula Grant funds were distributed through this arrangement.

Table II-3 shows the distribution of subgrants by subgrant size. We found that:

- Although some Chapter 1 subgrants were small--about 6 percent were for under \$10,000--over one-third of the subgrants (43 percent) were for \$100,000 or more, and 10 percent were for \$500,000 or more.

---

The State-reported data may not be complete or accurate for all States and for all programs.

	=====	=====	
	3,660,609,012	3,908,865,393	

\* The percent granted figures are calculated as follows: the sum of the subgrants reported for school year 1988-89 is divided by the FY88 allocation (school year 1988-89). Although the funding for the 1988-89 subgrants is based primarily on the FY88 allocation, some funding may come from unobligated funds from earlier appropriation years. Thus, the percent granted figures may exceed 100 percent.

The allocation figures for 1988-89 were obtained from the ED Budget Service.

The State-reported data may not be complete or accurate for all States and for all programs.

### III. CHAPTER 1 FORMULA GRANTS TO STATE EDUCATION AGENCIES FOR NEGLECTED OR DELINQUENT CHILDREN

#### OVERVIEW OF THE PROGRAM

In this chapter we discuss Chapter 1 of Title I of the Elementary and Secondary Education Act of 1965, enacted as part of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, P.L. 100-297 (expires September 30, 1993), Formula Grants to State Education Agencies for Neglected or Delinquent Children (referred to as Chapter 1 State Neglected or Delinquent in the remainder of this chapter). This program provides financial assistance to meet the special educational needs of children in institutions for neglected or delinquent children, neglected or delinquent children attending community day programs, and children in adult correctional institutions for whom the SEA is directly responsible for providing free public education. The SEAs, in turn, award funds to eligible State applicant agencies (SAAs) that are responsible for providing free public education to these children. The SAAs are most often a department of correction or a division of youth services providing services to children in institutions.

The "first-line" recipients of funds distributed by SEAs are SAAs; however, under GEPA 406A, States are asked to report the distribution of funds (i.e., shares of subgrant funds) at the level of the service provider.

#### FINDINGS

Table III-1 presents information on the allocations and subgrants in 1988-89 by State. In 1988-89, the 50 States and the District of Columbia received approximately \$32 million for distribution to subgrantees.

Table III-2 provides information on the types of agencies receiving subgrant funds, and Table III-3 shows the distribution of subgrants by subgrant size. We found that:

- Sixty-seven percent of the subgrants and 95 percent of the subgrant funds went to State agencies or institutions.

---

The State-reported data may not be complete or accurate for all States and for all programs.

- Few subgrants--about 11 percent--were under \$5,000. Thirty-four percent of the subgrants were for \$10,000 to \$49,999, 33 percent were for \$100,000 or more, and 9 percent were for \$500,000 or more.

---

The State-reported data may not be complete or accurate for all States and for all programs.

## IV. CHAPTER 1 FORMULA GRANTS TO STATE EDUCATION AGENCIES TO MEET THE SPECIAL EDUCATIONAL NEEDS OF MIGRATORY CHILDREN

### OVERVIEW OF THE PROGRAM

This chapter presents information on Chapter 1 of Title I of the Elementary and Secondary Education Act of 1965, enacted as part of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, P.L. 100-297 (expires September 30, 1993), Formula Grants to State Education Agencies to Meet the Special Educational Needs of Migratory Children (referred to as Chapter 1 Migrant in the remainder of this chapter). This program provides formula grants to State education agencies to meet the special educational needs of migratory children of migrant agricultural workers or migrant fishers. State allocations are based on the number of full-time-equivalent migrant children aged 5 to 17 years residing in the State over a 12 month period, the State's average per-pupil expenditure, and the relative size of the State's per-pupil expenditure. An SEA may apply to operate a State migrant program directly, or through subgrants to public school districts or public or nonprofit-private agencies. Two or more SEAs may apply jointly for a grant to support a migrant education program that benefits eligible migrant children in those States.

### FINDINGS

Table IV-1 presents information on the allocations and subgrants in 1988-89 by State. We found that:

- In 1988-89, the allocations ranged from \$42,296 for South Dakota to \$89,710,004 for California. (Hawaii did not receive a grant.)
- Three States--California, Florida, and Texas--received about 62 percent of the Chapter 1 Migrant funds.

Table IV-2 shows the distribution of subgrants by agency type. We see that:

- The majority of subgrants (90 percent) went to public school districts, which also received most of the funds (87 percent).

---

The State-reported data may not be complete or accurate for all States and for all programs.

- Intermediate agencies, which may provide services to children in public school districts, received 5 percent of the subgrants and 8 percent of the subgrant funds.

Table IV-3 displays information on the size of subgrants. We found that:

- Few subgrants--about 6 percent--were under \$10,000.
- Thirty-six percent of the subgrants were for \$10,000 to \$49,999, while 35 percent of the subgrants were for \$100,000 or more, and 8 percent were for \$500,000 or more.

---

The State-reported data may not be complete or accurate for all States and for all programs.

The State-reported data may not be complete or accurate for all States and for all programs.

## V. CHAPTER 1 STATE ADMINISTRATION

### OVERVIEW OF THE PROGRAM

In this chapter we present information on Chapter 1 of Title I of the Elementary and Secondary Education Act of 1965, enacted as part of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, P.L. 100-297 (expires September 30, 1993), State Administration (referred to as Chapter 1 State Administration in the remainder of this chapter). This program provides payments for State administration for all Chapter 1 programs. State education agencies are responsible for such activities as application approval, State rulemaking, technical assistance and dissemination of information, monitoring, complaint resolution, audits and audit resolution, and reporting.

According to the Hawkins-Stafford Amendments, States are authorized to receive the greater of: (1) 1 percent of the amount allocated to the State education agency and its public school districts and to other State agencies as determined for that year under Parts A and D (Chapter 1 Formula Grants, Chapter 1 Migrant, Chapter 1 State Neglected or Delinquent, and Chapter 1 Handicapped); or (2) \$325,000 (in the case of the 50 States, the District of Columbia, and Puerto Rico).

The 1988 appropriation provided \$38,296,000 specifically for State administration for the 50 States, the District of Columbia, Puerto Rico and the outlying territories. At that level, the Department distributed State administration funds based on each State's proportion of its total State Chapter 1 allocation, with no State receiving less than the prescribed State minimum amount.<sup>3</sup>

### FINDINGS

Table V-1 presents information on the State allocations and subgrants in 1988-89. In 1988-89, the 50 States and the District of Columbia received about \$36.9 million for State administration. The distribution of these funds by agency type is shown in Table V-2 and by subgrant size in Table V-3.

---

<sup>3</sup> The minimum amount was \$225,000 under Chapter 1 of the Education Consolidation and Improvement Act of 1981 (ECIA), the law that was still in effect when the FY88 allocations were determined.

---

The State-reported data may not be complete or accurate for all States and for all programs.

We see that virtually all the funds went to State agencies, and that, as would be expected, most of the grants were for over \$100,000.

---

The State-reported data may not be complete or accurate for all States and for all programs.

	=====	=====	
	36,938,395	16,703,506	

\* The percent granted figures are calculated as follows: the sum of the subgrants reported for school year 1988-89 is divided by the FY88 allocation (school year 1988-89). Although the funding for the 1988-89 subgrants is based primarily on the FY88 allocation, some funding may come from unobligated funds from earlier appropriation years. Thus, the percent granted figures may exceed 100 percent.

The allocation figures for 1988-89 were obtained from the ED Budget Office.

The State-reported data may not be complete or accurate for all States and for all programs.

Table V-2

Distribution of Chapter 1 State Administration Subgrants in 1988-89,  
by Type of Agency Receiving the Subgrant\*

Agency Type	Number of Reported Subgrants	Percent of Reported Subgrants	Percent of Reported Subgrant Dollars
Public School Districts	7	16	0
State Agencies	36	84	100
Total	43		

\* Based on data from 36 States and the District of Columbia. Arizona, California, Florida, Illinois, Maine, Michigan, Mississippi, New York, Pennsylvania, South Carolina, South Dakota, Texas, Utah, and Washington did not report for this program.

Note: Percents may not add to 100 due to rounding.

The State-reported data may not be complete or accurate for all States and for all programs.

Table V-3

## VI. PROGRAMS FOR THE HANDICAPPED

### OVERVIEW OF THE PROGRAMS

The Department of Education administers three State-administered programs for handicapped children:

- Education of the Handicapped Act (EHA), Part B, P.L. 91-230, as amended, Handicapped Grants to States Program (referred to as Handicapped Grants to States Program in the remainder of this chapter). (EHA has since been replaced by the Individuals with Disabilities Education Act (IDEA).)
- Education of the Handicapped Act (EHA), Part B, Section 619, P.L. 91-230, as amended, Preschool Grants for Handicapped Children (referred to as Preschool Grants for Handicapped Children in the remainder of this chapter).
- Chapter 1 of Title I of the Elementary and Secondary Education Act of 1965, enacted as part of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, P.L. 100-297 (expires September 30, 1993), Aid to States for Education of Handicapped Children in State-Operated and State-Supported Schools (referred to as Chapter 1 Handicapped in the remainder of this chapter).

The Handicapped Grants to States Program provides funds for special education and related services needed to make a free appropriate public school education available to all handicapped children. This program, funded at slightly under \$1.4 billion in 1988-89, is by far the largest of the three programs. The Handicapped Grants to States Program provides grants to States to help pay for part of the cost incurred by State education agencies and public school districts in providing special education and related services to handicapped children aged 0 to 21.

Preschool Grants for Handicapped Children are provided to stimulate State education agencies and public school districts to expand educational services to preschool children with disabilities aged 3 through 5, thereby increasing their opportunities to benefit from early educational intervention.

---

The State-reported data may not be complete or accurate for all States and for all programs.

Chapter 1 Handicapped provides formula grants to State education agencies to meet the special needs of handicapped children in State-operated or State-supported programs as well as to handicapped children in public school districts (if certain conditions are met).

## FINDINGS

Tables VI-1 through VI-3 show, for each of the programs, allocations and subgrants for 1988-89.

Tables VI-4 through VI-6 present, by program, the distribution of subgrants and subgrant dollars by agency type. We found that:

- Public school districts received a majority of the subgrants under each of the programs. Ninety-one percent of Handicapped Grants to States Program subgrants, 89 percent of Preschool Grants for Handicapped Children subgrants, and 65 percent of Chapter 1 Handicapped subgrants went to public school districts.
- Public school districts received a majority of the subgrant dollars under the Handicapped Grants to States Program (84 percent) and the Preschool Grants for Handicapped Children (82 percent).
- A considerable portion of the subgrant dollars under each of the programs flowed to intermediate agencies, which, in turn, may provide services to children in public school districts. Thirteen percent of Handicapped Grants to States Program subgrant dollars, 10 percent of Preschool Grants for Handicapped Children subgrant dollars, and 18 percent of Chapter 1 Handicapped subgrant dollars went to intermediate agencies.

Tables VI-7 through VI-9 show, by program, the distribution of subgrants by subgrant size. We found that:

- Thirty-three percent of the Handicapped Grants to States Program subgrants were for \$100,000 or more, while only 8 percent of the Preschool Grants for Handicapped Children subgrants and 9 percent of the Chapter 1 Handicapped subgrants were for \$100,000 or more.
- About one-third of the subgrants for each of the three programs for handicapped children were for \$10,000 to \$49,999.

---

The State-reported data may not be complete or accurate for all States and for all programs.

## VII. FEDERAL, STATE, AND LOCAL PARTNERSHIP FOR EDUCATIONAL IMPROVEMENT (CHAPTER 2)

### OVERVIEW OF THE PROGRAM

This chapter provides information on Chapter 2 of Title I of the Elementary and Secondary Education Act of 1965, enacted as part of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, P.L. 100-297 (expires September 30, 1993), Federal, State, and Local Partnership for Educational Improvement (referred to as Chapter 2 in the remainder of this chapter). This program is designed to assist State education agencies and public school districts improve elementary and secondary education, meet the special educational needs of at-risk students, and support effective school programs. The 1988-89 school year was a transition year for this program, and SEAs were able to operate under the provisions of either the previous or the current statute.

The distribution of funds to public school districts is based on the number of children aged 5 to 17, with weighting by the States for high-cost factors such as poverty and sparsity. States are required to distribute at least 80 percent of the funds as formula grants; the other 20 percent may be retained for State use, distributed as discretionary grants, or distributed through contracts to public school districts, institutions of higher education, and other public and private nonprofit agencies, organizations, or institutions.

### FINDINGS

Table VII-1 shows allocations and subgrants for 1988-89. In 1988-89, the 50 States and the District of Columbia received approximately \$465 million for distribution to subgrantees. Nineteen States reported making discretionary grants for 1988-89.

Tables VII-2 and VII-3 show the distribution of formula subgrants and discretionary subgrants by agency type. We found that:

- About 97 percent of the formula subgrants and 94 percent of the formula subgrant funds went to public school districts.

---

The State-reported data may not be complete or accurate for all States and for all programs.

- Of the discretionary grants reported, about 93 percent of the subgrants and 37 percent of the subgrant dollars went to public school districts. Intermediate agencies, which may provide services to children in public school districts, received about 4 percent of the discretionary subgrants and 25 percent of the subgrant funds.

Tables VII-4 and VII-5 show the distribution of subgrants by size of the subgrant. Thirty-seven percent of the formula subgrants were under \$5,000. Thirty-four percent were for \$10,000 to \$49,999, while 10 percent of the subgrantees received formula subgrants for \$50,000 or more. Sixty-seven percent of the discretionary subgrants were for less than \$5,000. Seventeen percent were for \$10,000 to \$49,999.

---

The State-reported data may not be complete or accurate for all States and for all programs.

Wyoming	2,368,078	2,202,279	165,760	2,368,039	100.0
	===== 464,752,800	===== 412,997,327	===== 20,992,649	===== 433,989,976	

\* The percent granted figures are calculated as follows: the sum of the subgrants reported for school year 1988-89 is divided by the FY88 allocation (school year 1988-89). Although the funding for the 1988-89 subgrants is based primarily on the FY88 allocation, some funding may come from unobligated funds from earlier appropriation years. Thus, the percent granted figures may exceed 100 percent.

The allocation figures for 1988-89 were obtained from the ED Budget Office.

The State-reported data may not be complete or accurate for all States and for all programs.

## VIII. DWIGHT D. EISENHOWER MATHEMATICS AND SCIENCE EDUCATION STATE GRANT PROGRAM

### OVERVIEW OF THE PROGRAM

In this chapter we present information on the Education for Economic Security Act (EESA), Title II, P.L. 98-377 as amended (in April 1988) by Title II of the Elementary and Secondary Education Act, enacted as part of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, P.L. 100-297 (expires September 30, 1993), Dwight D. Eisenhower Mathematics and Science Education State Grant Program (referred to as the Eisenhower Math and Science State Grant Program in the remainder of this chapter). The 1988-89 school year was a transition year for this program--the amended statute contained a transition provision that the Eisenhower Math and Science State Grant Program funds were to be distributed under the requirements of EESA.

Therefore, EESA provided assistance in FY 1988 to State education agencies and public school districts, State higher education agencies, institutions of higher education, and private nonprofit organizations to improve instruction in mathematics, science, computer learning, and foreign languages.

In FY 1988, close to \$106 million was allocated to the States to be distributed under the EESA requirements -- 70 percent of the funds were earmarked for support of elementary and secondary programs and 30 percent for higher education programs. States were required under EESA to distribute the funds in the following manner:

Of the 70 percent that was for elementary and secondary education,

- 70 to 75 percent was to be distributed by formula to public school districts,
- at least 20 percent was to be retained by the SEA for demonstration and exemplary teacher training programs and for other specified purposes,
- at least 5 percent was for technical assistance, and

---

The State-reported data may not be complete or accurate for all States and for all programs.

- no more than 5 percent could be used by the SEA for administration, evaluation, and a required assessment of the status of mathematics, science, foreign language, and computer learning within the State.

Of the 30 percent for higher education,

- at least 75 percent was to be used for competitive grants to institutions of higher learning,
- at least 20 percent was reserved for cooperative programs to improve student understanding and performance in science, mathematics, and critical foreign languages, and
- no more than 5 percent could be used for administration, evaluation, and the required State assessment.

## FINDINGS

Table VIII-1 shows the allocations and subgrants in 1988-89 by State and by purpose area as follows:

- Elementary/Secondary Formula Grants to LEAs,
- Elementary/Secondary Exemplary Programs,
- Elementary/Secondary Technical Assistance,
- Elementary/Secondary State Administration,
- Higher Education Competitive Grants,
- Higher Education Cooperative Programs, and
- Higher Education Administration and Evaluation.

Table VIII-2 shows the types of agencies receiving subgrants under each part of the program.

We see that:

- Most of the Elementary/Secondary Formula Grants to LEAs went to public school districts (97 percent of the subgrants and 88 percent of the funds). About 8 percent of the subgrant funds for this purpose went to intermediate agencies.

---

The State-reported data may not be complete or accurate for all States and for all programs.

- Public school districts received about 71 percent of the Elementary/Secondary Exemplary Program subgrants and 26 percent of the subgrant funds. Thirty-seven percent of the Elementary/Secondary Exemplary Program subgrant funds went to intermediate agencies and 25 percent went to State agencies.
- Eighty-one percent of the Higher Education subgrant funds for Competitive Grants and 74 percent of the Higher Education subgrant funds for Cooperative Programs went to colleges and universities.

Table VIII-3 provides information on the distribution of subgrants by the size of the subgrant.

We found that:

- The Elementary/Secondary Formula Grants to LEAs subgrants tended to be very small--about 78 percent were under \$5,000 and 32 percent were under \$1,000.
- The Elementary/Secondary Exemplary Program subgrants also tended to be small--45 percent of the subgrants were for under \$5,000, and 39 percent of the subgrants were for \$1,000 to \$4,999.
- The majority of the Higher Education subgrants for Competitive Grants and for Cooperative Programs were \$10,000 to \$49,999 (62 percent and 51 percent, respectively).

---

The State-reported data may not be complete or accurate for all States and for all programs.

\* The percent granted figures are calculated as follows: the sum of the subgrants reported for school year 1988-89 is divided by the FY88 allocation (school year 1988-89). Although the funding for the 1988-89 subgrants is based primarily on the FY88 allocation, some funding may come from unobligated funds from earlier appropriation years. Thus, the percent granted figures may exceed 100 percent.

The allocation figures for 1988-89 were obtained from the ED Budget Service.

## IX. VOCATIONAL EDUCATION PROGRAM

### OVERVIEW OF THE PROGRAM

This chapter provides information on the Carl D. Perkins Vocational Education Act, P.L. 98-524, as amended (expires September 30, 1991), Basic Grants to States (referred to as Vocational Education in the remainder of this chapter). This program provides funding to States to support vocational education programs. Information was collected on the following sections of the Carl D. Perkins Vocational Education Act:

#### Title II-A:

- Handicapped,
- Disadvantaged,
- Adult Training,
- Single Parents,
- Sex Equity,
- Correctional,

#### Title II-B:

- Program Improvement, and

#### Title III-B:

- Consumer and Homemaking.

### FINDINGS

Title IX-1 presents information on the allocations and subgrants in 1988-89. In 1988-89, the 50 States and the District of Columbia received approximately \$783 million under Titles II-A and II-B and approximately \$32 million under Title III-B.

---

The State-reported data may not be complete or accurate for all States and for all programs.

Table IX-2 shows the types of agencies receiving subgrants under each part of the program.

We found that:

- Public school districts received at least 70 percent of the subgrants and over 50 percent of the subgrant dollars in each of six program areas (Handicapped, Disadvantaged, Adult Training, Sex Equity, Program Improvement, and Consumer and Homemaking).
- Between 17 and 39 percent of the subgrant dollars went to colleges and universities in the eight program areas. (This ranged from 17 percent for Disadvantaged to 39 percent for Single Parents.)

Table IX-3 provides information on the distribution of subgrants by subgrant size. We found that:

- For six of the program areas, the subgrants tended to be small. Seventy percent of the Consumer and Homemaking subgrants were under \$5,000, and between 30 and 43 percent of the Handicapped, Disadvantaged, Adult Training, Sex Equity, and Program Improvement subgrants were under \$5,000.
- Fifty-two percent of the Single Parents subgrants and 63 percent of the Correctional subgrants were for \$10,000 to \$49,999.

---

The State-reported data may not be complete or accurate for all States and for all programs.

## X. ADULT EDUCATION ACT

### OVERVIEW OF THE PROGRAM

In this chapter we present information on the Adult Education Act, P.L. 91-230, as amended (expires September 30, 1993), Grants to States (referred to as Adult Education in the remainder of this chapter). This program is designed to expand educational opportunities for adults to encourage the establishment of programs of adult education that will enable educationally disadvantaged adults to acquire basic skills necessary to function in society, to complete secondary school, and to profit from employment-related training. States are allotted funds based on the ratio of the number of adults in a State who do not have a certificate of graduation from a school providing secondary education and who are not currently required to be enrolled in school to the number of such adults in the nation, plus \$250,000. States then distribute funds to districts or other non-profit organizations based on State-run competitions.

### FINDINGS

Table X-1 shows the allocations and subgrants for 1988-89, and Table X-2 presents information on the number of subgrant recipients by agency type. We found that:

- Public school districts received 71 percent of the subgrants and 63 percent of the subgrant funds.
- Colleges and universities received about 14 percent of the subgrants and 19 percent of the subgrant funds.

Table X-3 shows the number of subgrants by size of the subgrant. We see that 35 percent of the subgrants were for less than \$10,000, and 45 percent were for \$10,000 to \$49,999.

---

The State-reported data may not be complete or accurate for all States and for all programs.

Table X-1

Distribution of Adult Education Allocations  
and Subgrants in 1988-89, by State\*

Washington	1,595,498	1,412,378	88.5
West Virginia	1,307,994	1,253,533	95.8
Wisconsin	2,118,331	2,203,184	104.0
Wyoming	394,125	394,267	100.0
	=====	=====	
	112,004,247	111,263,026	

\* The percent granted figures are calculated as follows: the sum of the subgrants reported for school year 1988-89 is divided by the FY88 allocation (school year 1988-89). Although the funding for the 1988-89 subgrants is based primarily on the FY88 allocation, some funding may come from unobligated funds from earlier appropriation years. Thus, the percent granted figures may exceed 100 percent.

The allocation figures for 1988-89 were obtained from the ED Budget Service.

The State-reported data may not be complete or accurate for all States and for all programs.

## XI. TRANSITION PROGRAM FOR REFUGEE CHILDREN

### OVERVIEW OF THE PROGRAM

This chapter provides information on the Transition Program for Refugee Children, Formula Grants to State Education Agencies, The Refugee Act of 1980, Section 412, P.L. 96-212 and the Refugee Assistance Extension Act of 1986, P.L. 99-605 (expired September 30, 1989) (referred to as the Transition Program for Refugee Children in the remainder of this chapter). This program provides assistance to State education agencies and public school districts to meet the special educational needs of eligible refugee children enrolled in elementary and secondary schools. The grant may be used to develop capacity through funding special curriculum materials, bilingual teachers and aides, remedial classes, and guidance and counseling services to bring these children into the mainstream of the American education system. The program is administered by the Department of Education via an interagency agreement with the Department of Health and Human Services. ED determines the subgrant allocations; therefore, we do not collect this from the States, but, rather, use ED files. According to ED records, 46 States and the District of Columbia received about \$15.2 million in FY88 (school year 1988-89).

### FINDINGS

Table XI-1 shows the allocations for 1988-89. State allocations ranged from \$8,700 in Vermont to \$5,058,100 in California.

Table XI-2 shows the distribution of subgrants and subgrant funds by agency type, and Table XI-3 shows the distribution of subgrants by subgrant size. In 1988-89, 1,285 public school districts received subgrants--nearly 100 percent of subgrants and subgrant dollars. Programs subgrants tended to be small--72 percent of the subgrants were under \$5,000, and 96 percent were under \$50,000.

---

The State-reported data may not be complete or accurate for all States and for all programs.

## XII. EMERGENCY IMMIGRANT EDUCATION PROGRAM

### OVERVIEW OF THE PROGRAM

In this chapter we discuss the Emergency Immigrant Education Act, Title VI, Part D of the Augustus F. Hawkins-Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988, P.L. 100-297 (expires September 30, 1993) (referred to as the Emergency Immigrant Education Program in the remainder of this chapter). This program provides assistance to State education agencies and public school districts for the provision of supplementary education services for immigrant children enrolled in elementary and secondary public and nonpublic schools. ED determines the subgrant allocations; therefore, we do not collect this information from the States, but, rather, use ED files. According to ED records, 29 States and the District of Columbia received \$28.5 million in FY88 (school year 1988-89). States receive 1.5 percent of their allocation for State administration and the remaining funds are distributed to public school districts.

### FINDINGS

Table XII-1 shows the allocations for 1988-89. We found that:

- State allocations ranged from \$37,666 in Oklahoma to \$13,535,052 in California.
- Five States--California, Florida, Illinois, New York, and Texas--received about 77 percent of the Emergency Immigrant Education Program funds.

Table XII-2 shows the distribution of subgrants and subgrant funds by agency type, and Table XII-3 shows the distribution of subgrants by size of the subgrant.<sup>4</sup> In 1988-89, 88 percent of subgrants and 99 percent of subgrant dollars reported went to public school districts. State agencies received 12 percent of subgrants and 2 percent of subgrant dollars. About one-third of the subgrants were for \$10,000 - \$49,999, while 25 percent were for \$50,000 or more.

---

<sup>4</sup> Data on individual subgrants were available from ED files for nine States (Florida, Kansas, Minnesota, New Jersey, New Mexico, Tennessee, Utah, Virginia, and Washington).

---

The State-reported data may not be complete or accurate for all States and for all programs.

### XIII. LIBRARY SERVICES AND CONSTRUCTION ACT

#### OVERVIEW OF THE PROGRAM

In this chapter we provide information on the Library Services and Construction Act (LSCA), Titles I and III, P.L. 98-480, as amended (expired September 30, 1990), Grants to State Library Agencies (referred to as the Library Services and Construction Act in the remainder of this chapter).

Title I of LSCA provides funding to State library administrative agencies for four main purposes:

1. to develop and improve public library services in various geographic areas and to groups of persons with inadequate service;
2. to provide library services for patients and inmates of State-supported institutions, for physically handicapped individuals, for disadvantaged persons in low-income areas, and for those who have limited English-speaking ability;
3. to strengthen metropolitan and urban public libraries which function as regional and national resource centers; and
4. to strengthen the capacity of State library agencies to provide statewide services.

Title III of LSCA provides grants to State Library Administrative Agencies for the planning, establishment, and maintenance of cooperative networks of libraries at the local, regional or inter-State level. Such cooperative networks are intended to provide for the systematic and effective coordination and sharing of resources of school, public, academic and special libraries, and information centers in order to improve the library services to the special clientele served by each type of library or center.

Staff of the Office of Education Research and Improvement (OERI) compiled the necessary subgrant information from State LSCA Financial and Performance Reports available for FY89 (funds for October 1, 1988-September 30 1989). Those States whose reports were received by September 1, 1990 are included in this report. For Title I, 43 States and the District of Columbia are included, and for Title III, 43 States are included.

---

The State-reported data may not be complete or accurate for all States and for all programs.

## FINDINGS

Table XIII-1 shows the allocations for FY89. The Title I allocation for FY89 was nearly 78 million dollars and the Title III allocation for the same period was approximately 18.4 million dollars.

Table XIII-2 presents the distribution of subgrants and subgrant dollars by agency type. We found that:

- Sixty-four percent of the Title I subgrants and 42 percent of the Title I subgrant funds went to local libraries. An additional 42 percent of Title I subgrant funds went to State agencies/State libraries for Statewide public library services.
- Local libraries received 33 percent of the Title III subgrants and 26 percent of the subgrant funds. State agencies/State libraries received 22 percent of the Title III subgrants and 54 percent of the subgrant funds.

Table XIII-3 shows the distribution of subgrants by size of the subgrant. We see that:

- For Title I, 40 percent of the subgrants were for \$10,000 to \$49,999, while for Title III, 31 percent of the subgrants were for \$10,000 to \$49,999.
- Twenty-five percent of the Title I subgrants and 35 percent of the Title III subgrants were for less than \$5,000.

---

The State-reported data may not be complete or accurate for all States and for all programs.

100

#### XIV. SUMMARY

This chapter presents summary tables displaying State subgrantee distributions by each State-administered Federal education program. Table XIV-1 shows this information for all programs except the Library Services and Construction Act (LSCA), and Table XIV-2 provides this information for LSCA.

The subgrant amounts in these tables are reported as provided by the SEAs for all programs except the Transition Program for Refugee Children, the Emergency Immigrant Education Program, and the Library Services and Construction Act; subgrant information for the latter three programs is collected from ED files. Those SEAs that did not report subgrant information for entire programs or for particular parts of a program are noted in the tables in previous chapters.

---

The State-reported data may not be complete or accurate for all States and for all programs.

## APPENDIX A

### Subgrant Amounts for Each State-Administered Federal Education Program, by State and Agency Type

This appendix presents, in tabular form, a listing of the funding amounts granted to subgrant recipients for the State-administered Federal education programs presented in this document. The grant amounts are reported as provided by the SEAs for all programs except the Transition Program for Refugee Children and the Emergency Immigrant Education Program, for which subgrant information is collected from ED files. (Subgrant information for the Library Services and Construction Act is presented in Appendix B.)

The tables are organized by State, and, within State, by the type of agency receiving the subgrants. The order of agency types is as follows:

- public school districts,
- institutions,
- intermediate agencies,
- State agencies,
- colleges and universities,
- public libraries, and
- other.

The reader should keep in mind several items when examining these tables. First, any blanks in the tables may represent one of two situations:

- the recipient did not receive a subgrant for any particular program, or
- the SEA did not report a subgrant amount for the recipient for any particular program.

Second, those SEAs that did not report subgrant information for entire programs or for particular parts of a program are noted in the text tables.

---

The State-reported data may not be complete or accurate for all States and for all programs.

## APPENDIX B

### Subgrant Amounts for the Library Services and Construction Act, by State

This appendix presents, in tabular form, a listing of the funding amounts granted to subgrant recipients for the Library Services and Construction Act. Subgrant information for this program is collected from ED files.

For this program, the types of agencies differ slightly from those shown for the other Federal education programs. Here, the types of agencies receiving the subgrants are:

- local libraries,
- institutions,
- intermediate agencies/regional libraries,
- state agencies/state libraries,
- universities,
- multitype, and
- other.

---

The State-reported data may not be complete or accurate for all States and for all programs.
