ABSTRACT

The 1992 activities in support of the goals described in the Guam State Plan for Adult Education focused on curriculum development and evaluation. Three major programs offered 48 daytime and 101 evening classes for students at 6 sites. The primary components of the adult education instructional programs were adult high school, General Educational Development (GED) preparation and testing, and adult basic education. Ten classes in GED preparation or from the adult high school program were offered within the Adult Correctional Facility. Survival skills and basic literacy formed the core of services provided for the Mental Health Facility and Goodwill Industries. A Work Place Literacy Program at a hotel concluded. The Job Opportunities and Basic Skills Program provided child care assistance and tuition for welfare recipients. The needs of adult immigrants centered on English as a Second Language (ESL). A third-party evaluation of the entire adult education program was completed; the final report commended the reliable self-evaluations. Cooperative agreements with government agencies and community-based organizations provided adult basic, literacy, ESL, GED, and adult high school opportunities for their clients. (Eight statistical tables illustrate enrollment profiles, functioning levels, reasons for separation, status upon entry, participant achievement, time and locations of classes, and personnel. Two financial reports are provided.) (YLB)

## INTRODUCTION

Adult education programs, funded by Guam Community College as the State and Local Agency for Adult Education, provide adults who have less than a high school education with continuing opportunities to acquire basic skills necessary to function more effectively in society. By offering programs in GED Preparation, Adult Basic Skills, Literacy, Adult High School, and English as a Second Language, the College seeks to fulfill the goals stated in Guam's Adult Education State Plan for fiscal years 1992-1995.

With a population of 146,000 Guam had an unemployment rate of 3.1 percent as of March 1991. The multi-ethnic work force includes laborers from Korea, Japan, the Philippines, China, the Commonwealth of the Marianas, Trust Territories and other Pacific Island groups. Public service agencies plus private industries seek the assistance of the State Agency in meeting the educational needs of their clients and employees.

During the 1992 program year, enrollment in Adult Education programs increased to 1,998; with 95.4% of enrollees being of Asian or Pacific Islander ethnicity. Additionally, 64% of the students were between the ages of 16 and 24, and 32% between 25 and 44.

## **Adult Education Program Goals**

The Guam State Plan for Adult Education describes six goals for the delivery of services. The 1992 activities in support of these goals focused on curriculum development and evaluation.

- **GOAL 1:** Provide a comprehensive adult education instructional program which is flexible and responsive to the basic employment skill needs of the adult population.
- **GOAL 2:** Increase enrollment and expand services for special groups.
- **GOAL 3:** Establish a means of continuous needs assessment of targeted educationally disadvantaged adults.
- **GOAL 4:** Promote awareness and involvement with outside agencies and organizations to address the needs of the educationally disadvantaged adult.
- **GOAL 5:** Implement special projects and teacher training programs.
- **GOAL 6:** Provide leadership for efficient management and implementation of the Adult Education State Plan.

These goals are achieved by the State Agency through the work of 4 full time and 74 part time employees, including 59 adjunct faculty, who taught 149 adult education classes during the program year. Full time personnel are defined as those who spend 75% or more of their time involved with adult education programs. The faculty qualifications include 10% with doctorates, 56% had masters degrees and 34% had bachelors degrees.

Most classes were filled, and enrollment was limited by the available facilities. The State Agency is directly involved with plans for a new community college facility, located near the most populous area of Guam. The new facility will include offices, classrooms, and testing areas in support of the Adult Education Programs.

## **Comprehensive Instructional Programs**

Three major programs offered 48 classes during the day and 101 during the evening for students at 6 different sites. The primary components of the Adult Education instructional programs were:

- *Adult High School*, a secondary program leading to a high school diploma.
- *GED Preparation and Testing*, providing screening, preparation classes, and administration of the GED test.
- *Adult Basic Education*, providing instruction in survival skills, literacy, communication, ESL, and computational skills.

### ***Adult High School***

The majority of individuals enrolled in Adult High School classes do so on a sporadic basis and for personal enrichment. Over 200 students have a designated goal of an Adult High School diploma. Eighty-nine (89) classes were held at three sites for the 1170 enrollees. On May 23, 1992, a formal graduation ceremony was held for the 65 AHS graduates.

The 1991 follow-up survey of 1990 Adult High School graduates revealed student satisfaction with their training. Fifty three percent of the graduates were pursuing additional education. The respondents indicated that 54% were employed full time, 39% were continuing their education on a part time basis and 14% were full time students. None were classified as unemployed, and of those employed:

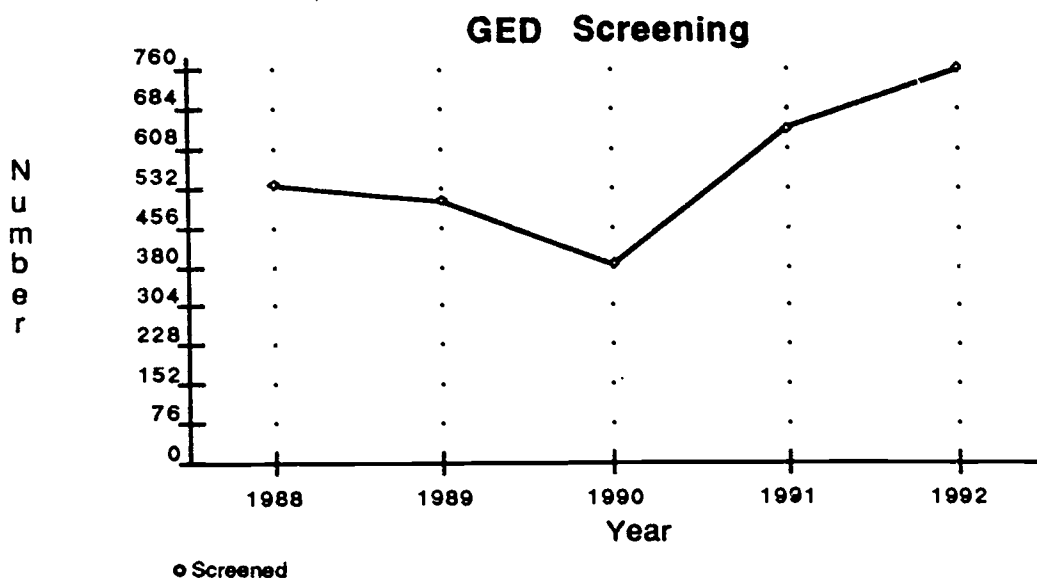

- ◇ 60% were employed with private industry,
- ◇ 27% were employed by the local government, and
- ◇ 13% were employed by the federal government.

### ***GED Testing***

Screening, preparation classes, and testing are three major components of the *GED Testing Program*. During 1992, 759 adults took the screening test to identify their academic needs, a 17% increase over 1991. The number of GED Preparation classes increased from 5 to 15 at four sites, including one class for the parents of Head Start children. Of

the 207 adults who took the actual GED test battery, 98 or 60%, successfully completed them - an increase over the 48% recorded in 1991. For the first time, GED graduates participated in the Adult High School and Post Secondary graduation ceremony.

The number of screening tests taken continued to increase. GED screening tests were administered at the Community College Campus, the Departments of Education, Administration, Corrections, and two military installations. The staff coordinates activities with JTPA and AHRD personnel. Testing brochures were distributed to educational and government agencies, with media announcements before each session.

### **Adult Education Programs**

Adult Education Programs focusing on basic life skills were held for the Department of Mental Health and Substance Abuse, the Mental Health Facility, and the Goodwill Industries Center. Among the basic skills gained by 45 students were knowledge in using the local transit, purchasing food and clothing, and budgeting. Enrollment in basic skills classes increased by 14 over the previous year.

A Basic Skills class in reading and writing was completed by 12 mothers of Head Start children. This ten week summer project was in conjunction with AHRD.

Special projects for the Adult Education program included inservice workshops for mathematics and writing teachers to improve teaching strategies.

## Programs for Special Groups

### *Institutionalized*

Ten classes in GED preparation or from the Adult High School program were offered within the *Adult Correctional Facility*. Enrollment totaled 31. Forty clients withdrew before completing 12 hours of course work. Additionally, 28 Department of Corrections clients were bussed to campus for academic or vocational classes. On May 26, 1992, there were 150 inmates at the Adult Correctional Facility and 27 residents at the Community Corrections Center.

In May, three clients received their high school diploma and one graduate received an Associate Degree in Retailing and Marketing from Guam Community College. A follow up of Adult High School graduates from the Correctional Facility revealed a:

- ◊ 1984 graduate who is now a senior at the University of Guam,
- ◊ 1985 graduate presently a junior at the University of Guam,
- ◊ 1986 graduate received his B.A. in Sociology and entered graduate school, and a
- ◊ 1988 graduate who is a Senior Regent Scholar at UOG, on the National Dean's list and President's List.

A cooperative agreement was revised by the College and Correctional Facility clarifying responsibilities of all concerned parties.

### *Literacy Training*

*Survival skills* and *basic literacy* formed the core of services provided for the Mental Health Facility and Goodwill Industries. Individualized programs were designed for 45 participants. Additionally, eight classes in basic skills and ESL, with 159 enrollees, were held at the Korean First Presbyterian church.

A *Work Place Literacy Program* at a hotel concluded; 4 of the 17 employees passed the GED and received bonuses from the employer. Flexible scheduling, regular communications with supervisors, and changing the description from Basics to Career Advancement improved the program's image.

Currently no literacy volunteer group exists. The SEA is encouraging its development, using the Adult Education Task Force as a resource.

## **Public Assistance Clients**

The JOBS Program, under the Department of Public Health and Social Services, provided child care assistance and tuition for *welfare recipients*. The JOBS program began during fall 1991 with 2 participants, increased to 10 in spring 1992, and 9 during the summer term. Students took adult high school, pre-GED, or GED preparation classes at the main campus.

A joint program with AHRD provided basic academic skills training in math, reading, writing, and keyboarding. The ten week summer course in the "Basic Remedial Education and Training Program" was completed by 49 persons.

## **Special Needs**

For the *disabled adult*, training in auditory discrimination uses auditory conceptualization to increase spoken and written language skills. Adults with poor auditory judgement have special problems and 25 enrolled in Reading Skill Development classes [ADD]. The ADD program has proven to be one of the most successful in meeting needs of handicapped adults with various educational backgrounds. Other disabled adults on the post secondary level included 3 hearing impaired, 1 learning disabled, 1 visually impaired and 1 orthopedically impaired, for a total of 31 adults with special needs.

## **Non-continuing Students**

Guam law requires every student, full and part time, to have a health clearance. Requirements include immunization for measles, rubella, tetanus, diphtheria, and a tuberculosis screening. These must be met within the first three weeks of classes or the College technically withdraws the students from class. This accounts for more than 80% of the over 1000 withdrawals. Others officially withdrawing from classes cited the time of the class or stated they were leaving the area as cause for separating.

Forms to be completed by instructors are being developed by program administrators. These forms will provide more complete student profiles. One such form will attempt to identify the reasons those students who do not officially withdraw, drop out.

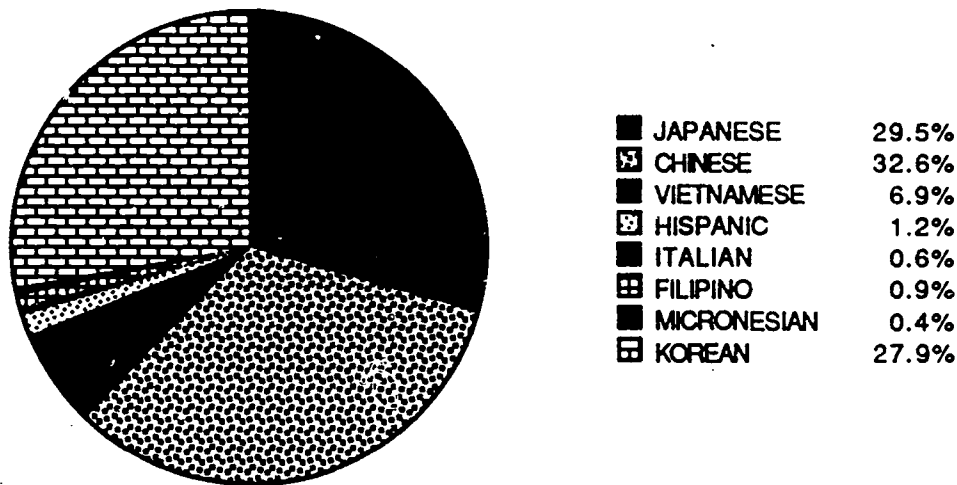

## **Non-English Proficient**

The needs of adult immigrants centered on the *English-as-a-Second Language Program*. The program expanded over 66% from 360 in 1991 to 597 enrollees in 1992. Identified by level: Beginning ESL 303, Intermediate 195, and Advanced 99. For the first time, translations in various languages were provided for class schedules and registration forms. Workshops, audio equipment, course guides, and a resource library were provided for the instructors.

The accepted breakdown of ethnicity combines Asians and Pacific Islanders; over 98% of the students were in that category giving the appearance of a homogeneous group. However, the ethnic composition of Guam's ESL classes included Korean, Chinese, Taiwanese, Japanese, Vietnamese, Filipino, Trukese, Panamanian, and Italian; all with different language, educational, and cultural backgrounds.

### **ESL ETHNIC BREAKDOWN**

**1992**

Language ability ranges from illiterate in their native language to college graduates of the home country. The program expanded from three to four levels of Language competencies. Competency based course guides were developed for 8 areas including multiple levels of Language Functions, Language Structures, and Practical Competencies.

Completion of the Foundations Building permitted offering of daytime classes for ESL students. A language lab is planned for the new campus site.

## **Needs Assessment**

The centralization of data collection is facilitated with the combination of the State and Local Education Agencies. Program planners have direct access to demographics and student achievement reports. The registrar acts as a resource for program managers, advisory committees, community-based organizations, and other state and local agencies.

Assessment of the Adult High School Program is facilitated by annual *Graduate Follow-up and Employer Surveys*. Competency based curriculums are being developed to identify specific skills and achievement levels as programs begin the development of quality performance indicators.

Administrators attended the BEACON Conference in Hawaii focusing on international programs and multi-cultural education, the Technical Assistant meeting in San Francisco, Driver's Education Meeting in Honolulu, the joint ABE Directors and GED Administrators annual meeting in Maryland, a Chief Reader Training and certification for the GED program, and area workshops for State Directors of Adult Education and Literacy in Portland. Much of their training focused on improving evaluation procedures .

### **Statewide Evaluation**

A third - party evaluation of the entire program was completed under the auspices of the *State Council on Vocational and Adult Education*. The final report commended the reliable self-evaluations based on program close-out reports, performance reports, interviews, and observations by the SEA and the commitment to excellence among faculty and administration.

Five recommendations were 1) a full time high level administrator responsible for development and implementation of Adult Education Programs, 2) an Adult Education facility, 3) increased staff training in anticipation of Adult Education instructor certification, 4) development and implementation of a more comprehensive system to report students' classroom progress, and 5) continual adoption of programs to meet Guam's changing demographics including non-English speaking migrants, military dependents, homeless, and high school dropouts.

## **Outside Agencies and Organizations**

Community support continues to grow. A literacy support group is in its infancy. The ABE Programs increased enrollment; however, facilities limited expansion and the SEA developed plans for additional sites. Cooperative agreements with government agencies and community based organizations provided adult basic, literacy, ESL, GED, and AHS opportunities for their clients.

Cooperative activities were continued, revised, or initiated with a variety of public and private organizations. These include:

- ◇ Agency for Human Resource Development - AHRD
- ◇ Guam Department of Corrections
- ◇ Guam Department of Education
- ◇ Guam Department of Mental Health and Substance Abuse
- ◇ Job Training Partnership Council - JTPA
- ◇ Korean First Presbyterian Church
- ◇ Pacific Star Hotel
- ◇ Public Health & Social Services - JOBS clients
- ◇ State Council on Vocational Education - SCOVE
- ◇ U.S. Naval Station and Naval Air Station
- ◇ Vocational Rehabilitation Center - Goodwill Industries

## **Special Projects & Teacher Training**

An ESL Program Development workshop was held for 6 ESL teachers to evaluate the current program, discuss concerns, examine materials, review and make recommendations on revised curriculum guides. The program manager attended a national workshop on "Setting up the English as a Foreign Language Program Abroad", TESOL 1992 Convention, and presented a round table session on "ESL in the Western Pacific" at the 1992 AAACE Annual Adult Education Conference.

Teacher training activities included attendance by a developmental instructor at the Walloon Summer Institute "Reading-Writing Workshop: Creating, Fine Tuning, and Extending the Student Centered Classroom," attendance at a "TPR/Comprehension-Based" workshop in Seattle. A workshop on alternative ways to approach whole number instruction was held for five ABE math instructors. GED scoring standards and procedures were stressed at a workshop for seven reading and GED instructors.

## State Leadership

Guam Community College is unique as the state *and* local agency responsible for the administration of the Adult Education State Plan. The State Director is the President of the College, and the operations are under the direction of the Assistant State Director for Vocational and Adult Education. Currently the College is undergoing a school-wide revision of its organizational structure and fiscal practices.

An Adult Education State Planning Task Force was formed which revised the State Plan to comply with the National Literacy Act of 1991. On the task force were representatives of libraries, ESL programs, Special Needs programs, AHRD, the homeless shelter, the Department of Corrections, the Guam Social Workers Association, the Workplace Literacy Program, the LEA, and SEA. The revised plan had wide distribution, two public hearings, was reviewed by JTPA and the Guam State Clearinghouse before its adoption by the Territorial Board of Control.

Participation in conferences such as the State Literacy Exchange Conference and the Commission on Adult Basic Education, plus attendance at workshops for State directors and GED Administrators enhanced evaluation procedures and data collection among program administrators.

The State Council on Vocational Education [SCOVE] provided support for the Adult Education Task Force and concluded a third-party evaluation of the entire Adult Education Program. The Assistant Director of Vocational and Adult Education is an active participant in SCOVE activities.

### Cost per Student

The cost per student is calculated by using the prescribed formula. For FY92, the cost per student was \$156,127 less \$4,319 for State administrative costs divided by 1,998 the number of participants who received 12 or more hours of instruction, for an average of **\$75.98** per student.

While the number of contact hours per student may vary from program to program, two standards were most common: for basic skills and literacy 1.5 hour sessions four days a week for 10 weeks; GED, ESL, and Adult High School classes two - hour sessions, twice a week, for 15 weeks.
