ABSTRACT

This report represents an updated edition (fiscal years 1989-90 data are combined) of the State Higher Education Profiles (SHEP) report providing statistics and indicators on enrollment, revenues and costs, financial aid, degrees and other formal awards conferred, and faculty compensation for accredited institutions throughout the United States and Puerto Rico. It also indexes each state's statistics to the national average for that statistic and ranks states on selected statistics for the 1990 year. Twelve basic data tables for fiscal year 1989 and 13 tables for fiscal year 1990 are included for each state, the District of Columbia, and the nation. Data are presented in three chapters. Chapter 1 provides national data for 1988-89 and 1989-90 fall enrollment numbers, educational and general revenues and expenditures, degrees conferred, and faculty salaries. Chapters 2 and 3 examine the same data at the state level, with chapter 2 presenting state rankings and chapter 3 providing the state profiles. Appendices supply a glossary of terms, a listing of SHEP institutions by state; the response rates for each of the surveys by control, level of institution, and by state; and a profile section on Puerto Rico. ## Acknowledgments

Many individuals made significant contributions to SHEP. The authors gratefully acknowledge their efforts. The State Higher Education Executive Officers (SHEEO)/National Center for Education Statistics (NCES) Network Advisory Committee for Fiscal Year 1987 (SHEEO/NCES Network) provided suggestions for the broad content of the first edition of SHEP. An advisory group composed primarily of current and former state higher education finance officers took part in the initial detailed planning and design. They were: Brenda Albright (Tennessee), Lucie Lapovsky (Maryland), Tom McCord (New York), J. Michael Mullen (Virginia), C. Gail Norris (Utah), and James C. Wallace (New Jersey), as well as Robert D. Newton of Penn State University, and John Wittstruck, Director of the SHEEO/NCES Network from 1981 to 1988. Lucie Lapovsky, Brenda Albright, and John Wittstruck reviewed the tables and interim drafts of the first edition. Thomas Fallon (Director of Research, Information Systems and Assessment, Massachusetts Higher Education Coordinating

Council), John Wittstruck (now Associate Commissioner for Policy Analysis and Data Services at the Missouri Coordinating Board for Higher Education), and Meredith Ludwig (of the American Association of State Colleges and Universities) served on the final technical review committee for the combined fifth and sixth editions of SHEP.

In addition, critical technical review was provided by NCES staff members Mike Cohen, Gerald Malitz, and Tom Snyder. Editorial review and publication support were provided by Gerard Devlin, Mark Travaglini and Phil Carr of the Publications Branch of the Public Information Division. The staff of the Institutional Studies Branch in the Postsecondary Education Statistics Division of NCES supervised the collection and file construction of the 1988-89 and 1989-90 IPEDS data used in this report; and Clevie Gladney provided technical consultation for the data processing and presentation.

## Foreword

The *State Higher Education Profiles* (SHEP) is the National Center for Education Statistics' annual profile report on higher education for the nation, each of the 50 states, and the District of Columbia. This edition of the SHEP presents data for fiscal years 1989 and 1990 in the same volume and thus is a combined fifth and sixth edition. Like its four predecessors, this edition of the SHEP presents various statistics and indicators that can be used to address a myriad of questions relating to state involvement, support, and performance in higher education. It also indexes each state statistic to the national average for that statistic and ranks states on selected statistics from the 1990 fiscal year.

This report continues to rely almost entirely on data from higher education institutions collected by the Center through its Integrated Postsecondary Education Data System (IPEDS). While the SHEP is generally limited to data for only one fiscal year, the combining of two years' data in this one volume makes the best use of currently available IPEDS data. Additionally, the analytic chapter that has been incorporated in past editions of the SHEP will be published under a separate cover.

As the National Center for Education Statistics continues to broaden its perspective on postsecondary education through individual-based survey systems

and through the continuing evolution of the IPEDS, the Center will gradually expand the scope of SHEP in both its coverage of institutions and its statistical content. For example, this edition includes tables for Puerto Rico in appendix D, but excludes Puerto Rico from the national average tables. We welcome additional suggestions for augmenting the content of this publication or for improving its format or analysis.

In recognition of the responsibility of presenting individual state data and state ranking tables, the introduction suggests several general cautions in the use of the data for comparative purposes and specific caveats are presented preceding each state's data as necessary. Users should be aware of these cautions in interpreting the data. These caveats notwithstanding, we feel sure that anyone with an interest in higher education will find this volume informative and useful.

# Introduction

## Using the Data

The *State Higher Education Profiles Combined Fifth and Sixth Editions* (also known as SHEP) continues to offer a comprehensive look at higher education in the United States. To make SHEP more current, this edition incorporates data from fiscal years 1989 and 1990 into one volume (July 1, 1988–June 30, 1989 and July 1, 1989–June 30, 1990). It is the third of this series to make use of data from the Integrated Postsecondary Education Data System (IPEDS). Previous editions of SHEP (1985 and 1988) and its predecessor, *Higher Education Financing in the Fifty States*, used data from the Higher Education General Information System (HEGIS), which IPEDS superseded. HEGIS collected data from the universe of institutions with accreditation at the college level recognized by the U.S. Secretary of Education. These institutions are generally recognized as higher education institutions.

IPEDS, on the other hand, collects data from the universe of postsecondary institutions in the United States and therefore encompasses all institutions whose primary mission is to provide postsecondary education, regardless of accreditation. That is, IPEDS provides data on all institutions that provide programs designed for individuals who have completed a high school diploma or its equivalent. Higher education institutions are a distinguishable subset of the IPEDS institutional universe.

As with previous editions of the SHEP, the primary focus of this edition is on the higher education institutions in IPEDS, rather than on its more extensive postsecondary institutional universe. This focus was maintained for several reasons. First, there was a strong interest in the postsecondary education community, especially among state agencies, to maintain a consistent universe in the SHEP reporting series. Secondly, as diverse as state organization and control are for higher education institutions, they are even more diverse with regards to non-higher education institutions. As a result, state by state presentations of data for all postsecondary education may not be meaningful or relevant. Finally, institutions in two of the nine IPEDS institutional sectors are surveyed, for all but the Institutional Characteristics Survey, on a sample basis rather than as a census of institutions. Since the sample of these two sectors of institutions is designed to provide national estimates, not state-level estimates, presenting state by state data is not possible.

The book contains 12 basic tables for fiscal year 1989 and 13 tables for fiscal year 1990 for each state, the District of Columbia and the nation. The tables cover higher education enrollment, full-time faculty, revenues, expenditures, financial aid, and degrees and other formal awards conferred. There is no 1988–89 table on full-time faculty salaries because the IPEDS Salary Survey was not conducted in that year. In addition, for each state, the District of Columbia and the nation, the combined *SHEP: Combined Fifth and Sixth Editions* contains two tables (1A for 1988–89 and 1B for 1989–90) that place SHEP's higher education institutions into the context of all postsecondary institutions in each of the 50 states and the District of Columbia. These postsecondary universe tables are possible on a state by state basis because the IPEDS Institutional Characteristics Survey is sent to all known postsecondary institutions in the country.

Some of the basic state tables include or are composed of statistical indicators such as instructional expenditures per full-time equivalent student and research expenditures per full-time faculty member. These indicators depict the status of higher education in a particular institutional sector by adjusting for the size of the sector and alternately defining size as the number of full-time equivalent (FTE) students or the number of full-time faculty. Several indicators also adjust for the size of the population served, defined as the number of individuals 18 years of age or older. The indicators are provided to help educators gauge higher education in the states from several perspectives.

While some indicators adjust for the size of a sector, many other generic factors are not considered in the analysis. These include geographic price differences, economies of scale, the mix of academic programs in a state, the relative distribution of public and private nonprofit institutions in the state, the state's population, and the wealth of the state however defined. Since these factors may account for many of the observed differences among states, comparisons among states and even sectors within a state should be approached tentatively at best, particularly comparisons of the revenues and expenditures (finance) data.

Additionally, while the IPEDS Finance Survey collects some data on states' accounting practices and funding principles (such as the state's treatment of capital expenditures, retirement system payments, and student financial aid),

these data have not been used as explanatory or adjustment factors in this edition of SHEP. It should also be noted that all finance data in the SHEP are presented in current dollars; they have not been adjusted for inflation.

In all basic state tables, each state-level statistic is accompanied by an index. The index is the percentage difference between the state statistic and the national average for the statistic. It was calculated by taking the ratio of the difference between the state statistic and the national average to the national average and multiplying the resulting value by 100. Thus, when a state statistic is equal to the national average, the index has a value of zero. If a state statistic differs from the national average by 10 percent, the index has a value of (+) 10 or (-) 10, depending on whether the state statistic is higher or lower than the national average. This index has a lower bound of -100 and an unlimited upper bound. These indexes put each state's report into a common context and provide a metric on which states can be ordered. State ranking tables present such an ordering by selected statistics. It should be noted that only one set of ranking tables is presented in this edition—for fiscal year 1990. State ranking tables for fiscal year 1989 are available upon request from the author.

In the state ranking tables, states for which a particular statistic was not relevant have an index of -100 for that statistic and are listed alphabetically at the bottom of the table. Appendix C, tables C1A and C1B, lists those states that had no institutions in a particular institutional sector. It should also be noted that in the state ranking tables, states with equal indexes were assigned the same rank. Because indexes were rounded to the nearest whole number, states with different ranks but ostensibly equal indexes are an artifact of the rounding convention used.

In the basic state tables, table 1A (1988-89) and table 1B (1989-90) indicate the number and average size of institutions (in total headcount) that compose the higher education and other postsecondary institutional universes. From table 1A, for example, the percentage of all students (both full- and part-time) enrolled in higher education institutions in 1988-89 (88 percent) may be derived.

Tables 2A, 2B, 3A and 3B describe enrollment in higher education institutions from two different perspectives: the distribution of full-time equivalent (FTE) students, by control and level of institution; and the distribution of students by level within institutions of a given control and level.

Tables 4A, 4B, 5A, and 5B are concerned with education and general (E&G) revenues. Tables 4A and 4B present the percentage distribution of E&G revenues by source, as well as the percentage of total E&G revenues that are

restricted. Tables 5A and 5B present indicators that are selected E&G revenues adjusted for the number of FTE students and/or the size of the population served.

Tables 6A, 6B, 7A, and 7B display how institutions spend their money in terms of the percentage of total E&G expenditures allocated to various functions and the level of expenditures per FTE student for each of the various functions.

The first part of tables 8A and 8B present scholarship and fellowship expenditures per FTE student by the source of the funds for the expenditures. The second part of the tables present selected functional expenditures per full-time faculty.

Tables 9A and 9B indicate the labor-intensiveness of each higher education institutional function by presenting salaries as a percentage of expenditures for total E&G expenditures and separately for each appropriate function. These tables also display fringe benefits as a percentage of total compensation (salary plus fringe benefits) aggregated over all employees.

Tables 10A through 12B present the distribution of degrees and other formal awards conferred by level of award and by the program area in which the degrees were conferred. This includes a disaggregation of less-than-4-year awards into associate degrees and all other less-than-4-year awards.

Table 13 presents the average salary of full-time faculty in 1989-90, by rank of faculty and length of contract as well as the number of full-time faculty that were used in computing the average.

Prior to finalizing the data in SHEP, each state higher education finance officer was asked to review his or her state's data to provide comments that would explain any anomalies in them and to note factors that would make the state's data even less comparable to data from other states. These individuals were also asked to review the data for accuracy and reasonableness. Except for editorial changes, comments explaining anomalies appear as received by NCES in the notes preceding presentation of the state's data. They should be read carefully.

In all cases where comments concerning the accuracy and reasonableness of the state's data were received, the events that went into processing the problematic data were thoroughly examined to determine the source of the problem. If the source of the problem was in the processing or tabulation rather than in the reporting, adjustments were made to resolve the problem and the data were subsequently re-analyzed.

## Special Considerations in Using the Data

In examining the data for each state, the reader is urged to consider all of a state's data in their entirety and not focus just on one or another specific measure. The reader is also cautioned not to form conclusions simply from the state's rank in a given table without checking to see if there are state data or explanatory notes preceding the presentation of the state's data which may furnish an added dimension to the interpretation of its rank. For example, in some states (e.g., Massachusetts, New Jersey) there is only one public doctoral institution with a medical school, and it is a free-standing institution. That is, there are few or no undergraduate students and most full-time faculty are clinical faculty that are not reported on the IPEDS Salary Survey. For this institutional sector, these states will have extreme per FTE student and per full-time faculty revenue and expenditure values and indexes.

The reader should also pay special attention to the definitions of specific terms used in this report to fully understand the data. They appear in the Glossary of Terms, appendix A.

Finally, it should be noted that the statistics on higher education in this report are, for the most part, input measures rather than measures of the outcomes of higher education. They represent the results of much planning, numerous deliberations on providing services in light of competing demands for limited resources, and vastly different perspectives on the objectives of higher education and the needs of students. All these factors must be considered when interpreting the data in the report.

## The Data and the Approach to the Analysis

Since this report describes higher education in both the 1989 and 1990 fiscal years, it should be noted that the most recent of these data are two years old as of this writing and should be viewed in that context.

The data in this report are based almost entirely on information reported to the National Center for Education Statistics through its Integrated Postsecondary Education Data System (IPEDS). There are two exceptions to this: the appropriations data in state ranking table Y; and the population statistics used to develop indicators adjusted for the size of the population served. The source and reliability of these data are presented in the Technical Notes, appendix C.

IPEDS collects data on institutional characteristics, enrollment, finance, staff, full-time faculty, institutional activity, and completions for the universe of

institutions with accreditation at the college level recognized by the U. S. Secretary of Education, that is, higher education institutions. While this set of institutions may change from one fiscal year to the next, it is consistent within the same fiscal year.

For the national data in tables 1A and 1B, as noted previously, the institutional universe is all institutions in the 50 states and the District of Columbia whose primary purpose is the provision of postsecondary education except for U. S. service schools (e.g. West Point). This includes all higher education institutions (institutions with recognized accreditation) as well as all other postsecondary institutions. It should be noted with regard to tables 1A and 1B that the number of higher education institutions in the nation or in any individual state may have changed from 1988-89 to 1989-90 because institutions were added to, or deleted from, the higher education institutional universe. The total number of postsecondary institutions may have changed because two or more institutions or campuses merged into a single institution or a single institution was split into two or more institutions or campuses, or institutions opened or closed.

For all tables in this report except table 1A and 1B, the SHEP institutional universe is a subset of the higher education institutional universe. It includes only nonprofit institutions in the 50 states and the District of Columbia that are either publicly or privately controlled. Higher education institutions that are operated for-profit (proprietary), U.S. service schools and military academies, and institutions in outlying areas including Puerto Rico were excluded as were all other postsecondary institutions.

The list of institutions included in the SHEP universe is available in appendix B by the state in which the institutions are located and by their institutional classification for 1989-90. Institutions that changed classification from 1988-89 to 1989-90 are noted in the appendix.

Data for Puerto Rico are available in appendix D. These data were not included in developing national averages or U.S. totals to maintain consistency in the data series. However, interested readers can compare the status of higher education in Puerto Rico with that of the aggregated 50 states and the District of Columbia, or with any individual state.

The data collected through IPEDS for any one year represent two distinct time periods. The institutional characteristics, enrollment, and full-time faculty data represent an institution at one point in time, the fall of the school year; the finance, institutional activity and completions data cover the entire 12-month period of the fiscal year. Therefore, for some indicators fall data are used in

conjunction with 12-month data in this report, and readers should be cognizant of the differences in time period represented.

This report presents four types of statistics: actual counts (of individuals or dollars), percentage distributions, ratios (means and indicators), and indexes. For a full explanation of how these statistics were derived for this report, please see the Technical Notes, appendix C.

# **Chapter One**

## **The National Data**

Table 1A.— Number of institutions and mean size, by SHEP status and by control and level

Control and level of institution	SHEP institutions		Non-SHEP institutions	
	Number	Mean size	Number	Mean size
Total	3,168	4,053	7,503	225
Public	1,544	6,569	582	586

Notes.— To prevent identification of individual faculty, average salaries based on fewer than three cases are not reported.

— Indexes are based on U.S. average of 0.

# Arizona

The reader is advised of the following conditions reported by Arizona about its data.

Tuition and fees revenues are collected by each university, remitted to the state and reallocated back to the universities as part of their state and local appropriations. Applicable to the public 4-year-and-above sector for tables 4a, 4b, 5a and 5b.

Notes.— To prevent identification of individual faculty, average salaries based on fewer than three cases are not reported.  
 — Indexes are based on U.S. average of 0.

# Arkansas

The reader is advised of the following conditions reported by Arkansas about its data.

1. Finance data include the teaching hospital of the University of Arkansas Medical Sciences Campus and indigent care for the teaching hospital. Applicable to the public doctoral with medical sector for tables 4A and 4B through 9A and 9B.
2. Finance data include the System Administration, the Agricultural Experiment Station, the Cooperative Extension Service, and the Archaeological Survey of the University of Arkansas Main Campus. Applicable to the public doctoral without medical sector for tables 4A and 4B through 9A and 9B.

Notes.— To prevent identification of individual faculty, average salaries based on fewer than three cases are not reported.  
— Indexes are based on U.S. average of 0.

# California

The reader is advised of the following conditions reported by California about its data.

Data for San Diego State and San Francisco State are included with public doctoral without medical level institutions. However, the doctoral programs for these two institutions were jointly administered with the University of California. San Diego State and San Francisco State are not considered traditional doctoral level institutions. Applicable to the public doctoral without medical sector for tables 1A and 1B through 9A and 9B and table 13.

Notes.— To prevent identification of individual faculty, average salaries based on fewer than three cases are not reported.  
 - Indexes are based on U.S. average of 0.

# Colorado

The reader is advised of the following conditions reported by Colorado about its data.

1. Tuition and fee revenues reflect a large number of out-of-state students paying out-of-state tuition. Applicable to the public sector for tables 4A, 4B, 5A and 5B.
2. The state legislature provides no general fund appropriations for out-of-state students. Applicable to the public sector for tables 4A, 4B, 5A and 5B.

Notes.— To prevent identification of individual faculty, average salaries based on fewer than three cases are not reported.  
— Indexes are based on U.S. average of 0.

# Connecticut

The reader is advised of the following conditions reported by Connecticut about its data.

Expenditures from general fund appropriations do not include fringe benefit expenses. These costs are paid by another state agency. Also does not include expenses of the central administrative offices of State universities, regional community colleges, and State technical colleges. Applicable to the public sector for tables 6A and 6B through 9A and 9B.

### Fall Enrollment 1988-89

Notes.— To prevent identification of individual faculty, average salaries based on fewer than three cases are not reported.  
- Indexes are based on U.S. average of 0.

# Delaware

The reader is advised of the following conditions reported by Delaware about its data.

The high percentage of out-of-state students enrolled at the University of Delaware distorts, for interstate comparisons, the ratio of tuition and fees revenue to state and local government appropriations. Applicable to the public doctoral without medical sector for tables 4A, 4B, 5A and 5B.

## Fall Enrollment 1988-89

# Hawaii

The reader is advised of the following conditions reported by Hawaii about its data.

Public institutions deposit tuition revenues into the state general fund for reallocation. Revenues listed under tuition and fees in public institutions represent revenues from fees only. Revenues from state and local government appropriations include actual appropriations and the reallocated tuition revenues. Applicable to the public sector for tables 4A, 4B, 5A and 5B.

**Fall Enrollment 1988-89**

Notes.— To prevent identification of individual faculty, average salaries based on fewer than three cases are not reported.  
— Indexes are based on U.S. average of 0.

# Illinois

The reader is advised of the following conditions reported by Illinois about its data.

1. Those doing trend analysis should note that the data for public 2-year institutions excludes the Chicago Urban Skills Institute. Applicable to the public 2-year sector for tables 1A and 1B through 9A and 9B and table 13.
2. Tuition and fees revenue is initially deposited in the State Income Fund and then appropriated to the public 4-year and above institutions as part of their state and local appropriations. Applicable to the public 4-year and above sector for tables 4A, 4B, 5A and 5B.
3. Includes institutional support expenditures for the University of Illinois Central Administration, although central office expenditures for three other public systems in Illinois are not included. Applicable to the public doctoral with medical sector for tables 6A and 6B through 9A and 9B.
4. Revenues do not include funds appropriated in FY 1989 and FY 1990 to other state agencies for unemployment insurance, workmen's compensation, and health and life insurance of higher education employees. In other states, these funds are included in higher education appropriations. Applicable to the public sector for tables 4A, 4B, 5A and 5B.

**Fall Enrollment 1988-89**

# Kansas

The reader is advised of the following conditions reported by Kansas about its data.

Revenues from federal appropriations include the Haskell Indian Junior College which is a federally funded institution receiving no state or local funds and with only an estimated 3 percent of its students from Kansas. Haskell's federal appropriation revenues for FY 1989 (arrived at through imputation procedures) totalled \$8,775,139 and for FY 1990 (actually reported) totalled \$7,992 043. Applicable to the public 2-year sector for tables 4A, 4B, 5A and 5B.

**Fall Enrollment 1988-89**

Notes.— To prevent identification of individual faculty, average salaries based on fewer than three cases are not reported.

— Indexes are based on U.S. average of 0.

# Kentucky

The reader is advised of the following conditions reported by Kentucky about its data.

1. Revenues from state and local government appropriations include the following: appropriations for debt services; appropriations for medical and dental services provided by the health science centers at the University of Kentucky and the University of Louisville (in accordance with reporting definitions, revenues from hospitals are not included); appropriations for land grant institutions' agriculture research and public service activities; and appropriations for other research and public service activities. These revenues total approximately \$205.7 million in FY 1989 and \$218.8 million in FY 1990. The inclusion of these revenues which are not directly related to student instruction significantly overstate Kentucky's state and local government appropriation per FTE student. Applicable to the public sector for tables 4A, 4B, and 5A and 5B.
2. Although Northern Kentucky University is the one institution in Kentucky categorized as a doctoral without medical institution, it is actually a limited master's institution containing only one professional program (law.) Applicable to the public doctoral without medical and the public master's sectors for tables 1A and 1B through 9A and 9B and table 13.

Notes.— To prevent identification of individual faculty, average salaries based on fewer than three cases are not reported.

— Indexes are based on U.S. average of 0.

# Maryland

The reader is advised of the following conditions reported by Maryland about its data.

The University of Maryland University College, included in the public master's sector of tables 1A and 1B through 9A and 9B, and table 13 has a worldwide program and receives no state appropriations. The enrollment (tables 1A and 1B through 3A and 3B), degree (tables 10A and 10B through 12A and 12B), and faculty (table 13) data in this report reflect only that portion of the University College program offered in Maryland. The finance (tables 4A and 4B through 9A and 9B) data include data from the entire worldwide operation of the University College. This results in a significant overstatement of expenditures and revenues per student at public master's level institutions in Maryland.

Individuals who need further information about the Maryland data should contact Dr. Classie Hoyle, at the Maryland Higher Education Commission, 16 Francis Street, Annapolis, Maryland 21401.

## Fall Enrollment 1988-89

Table 1A.—Number of institutions and mean size, by SHEP status and by control and level

Control and level of institution	SHEP institutions			Non-SHEP institutions		
	Number	Mean size	Index	Number	Mean size	Index
Total	55	4,503	11	183	90	-60
Public	32	6,606	1	1	20	-97
4-year-and-above	13	8,334	-15	0	-	-
Doctoral with medical	1	4,563	-73	-	-	-
Doctoral w/o medical	5	11,480	-20	-	-	-
Master's	6	7,465	9	-	-	-
Baccalaureate	1	1,585	-49	-	-	-

# Michigan

The reader is advised of the following conditions reported by Michigan about its data.

State and local government appropriations include \$38.1 million for FY 1989 and \$40 million for FY 1990 in tables 4A and 4B respectively earmarked for the Cooperation Extension and the Agricultural Experiment Station at Michigan State University. These revenues do not fund student activities and inflate the revenues per FTE student in tables 5A and 5B for public 4-year doctoral with medical institutions. Applicable to the public 4-year doctoral with medical sector for tables 4A, 4B, 5A and 5B.

Table 1A.—Number of institutions and mean size, by SHEP status and by control and level enrollment, by control and level of SHEP institution

Notes.— To prevent identification of individual faculty, average salaries based on fewer than three cases are not reported.  
— Indexes are based on U.S. average of 0.

# New Jersey

The reader is advised of the following conditions reported by New Jersey about its data.

1. New Jersey's faculty salaries and per FTE student and per full-time faculty revenues and expenditures are not comparable to most of the other states ("Special Considerations in Using the Data" on page xiv of the introduction). Applicable to public doctoral with medical sector for tables 4A and 4B through 9A and 9B and table 13.
2. Total state and local scholarship and fellowship expenditures are underreported. New Jersey State student assistance programs provided nearly \$82 million in aid in FY 1989. The \$342 per FTE student shown represents total awards of only about \$79 million. Applicable to all sectors for table 8A.
3. Fringe benefits as a percent of salaries are understated for New Jersey's public 4-year-and-above institutions, and to a lesser extent for the public 2-year institutions. In FY 1989 and FY 1990 central (state) treasury accounts paid fringe benefits of \$177 million and \$211 million respectively. Those amounts were approximately 25 percent and 28 percent of salaries for institutional employees in FY 1989 and FY 1990. Applicable to the public sector for tables 8A and 8B.

Notes.— To prevent identification of individual faculty, average salaries based on fewer than three cases are not reported.  
— Indexes are based on U.S. average of 0.

# New York

The reader is advised of the following conditions reported by New York about its data.

1. State and local grants and contracts revenues are under-reported by \$209.8 million in FY 1989 and by \$230.7 million in FY 1990. Not included are \$50.3 million and \$51.1 million granted, respectively, in FY 1989 and FY 1990 to students at public (CUNY) institutions and \$159.5 million and \$179.6 million granted, respectively, in FY 1989 and FY 1990 to students at private institutions under the New York State Tuition Assistance Program. These amounts are included in tuition and fees revenues. Applicable to all sectors for tables 4A, 4B, 5A and 5B.
2. Scholarships and fellowships expenditures are under-reported by \$209.8 million in FY 1989 and by \$230.7 million in FY 1990. Not included are \$50.3 million and \$51.1 million granted respectively, in FY 1989 and FY 1990 to students at public (CUNY) institutions and \$159.5 million and \$179.6 million granted, respectively, in FY 1989 and FY 1990 to students at private institutions under the New York State Tuition Assistance Program. Applicable to all sectors for tables 6A, 6B, 7A and 7B. Applicable to state and local source for scholarships and fellowships expenditures in tables 8A and 8B.
3. Educational and general mandatory transfers may be understated because the City University (CUNY) 4-year and 2-year colleges and the State University (SUNY) community colleges did not report capital debt service on the IPEDS form. Applicable to the public sector for tables 6A, 6B, 7A and 7B.

 — Indexes are based on U.S. average of 0.

# Oregon

The reader is advised of the following conditions reported by Oregon about its data.

Data for Oregon State University are included with public doctoral with medical level institutions because of Oregon State's veterinary medicine program. However, that program is a cooperative one with Washington State University. The medical part of the program is at Washington State. The Oregon State students are sent to Washington State for that part of the program. Applicable to the public doctoral with medical sector for tables 1A and 1B through 9A and 9B and table 13.

Notes.— To prevent identification of individual faculty, average salaries based on fewer than three cases are not reported.  
 — Indexes are based on U.S. average of 0.

# South Carolina

The reader is advised of the following conditions reported by South Carolina about its data.

1. Enrollment data for FY 1990 were imputed using FY 1989 data. Applicable to all sectors for tables 1B, 2B and 3B.
2. Degrees and other formal awards conferred data for FY 1989 were imputed using FY 1988 data. Applicable to all sectors for tables 10A, 11A and 12A.

Table 2A.— Number of institutions and mean size, by SHEP status and by control and level of enrollment, by control and level of SHEP institution

Notes.— To prevent identification of individual faculty, average salaries based on fewer than three cases are not reported.  
 - Indexes are based on U.S. average of 0.

# Tennessee

The reader is advised of the following conditions reported by Tennessee about its data.

1. The high percentage and high average amounts per student and per faculty member of Federal grants and contracts are attributable, in large part, to the administration of the Job Training Partnership Act program by a number of 2-year institutions. The institutions are reimbursed only for the administrative costs of the program. Applicable to the public 2-year sector of tables 4A, 4B, 5A and 5B.
2. The high percentage and high average amounts per student of public service expenditures are attributable primarily to the administration of the Job Training Partnership Act program by a number of 2-year institutions. Applicable to the public 2-year sector of tables 6A, 6B, 7A and 7B.

**Fall Enrollment 1988-89**

Notes.— To prevent identification of individual faculty, average salaries based on fewer than three cases are not reported.

— Indexes are based on U.S. average of 0.

# Utah

The reader is advised of the following conditions reported by Utah about its data.

Financial data and related calculations are omitted for the private nonprofit doctoral without medical sector. The only Utah institution in this sector is Brigham Young University which did not respond to the IPEDS financial surveys. Applicable to the private nonprofit doctoral without medical sector for tables 4A and 4B through 9A and 9B and table 13.

Notes.— To prevent identification of individual faculty, average salaries based on fewer than three cases are not reported.  
 - Indexes are based on U.S. average of 0.

# Washington

The reader is advised of the following conditions reported by Washington about its data.

1. Data for Bastyr College are included with private nonprofit doctoral with medical level institutions. Although this college grants a doctoral degree in naturopathic medicine, it is not comparable to the more traditional medical degrees granted by the two public universities in the State. Applicable to the private doctoral with medical sector for tables 1A and 1B through 9A and 9B and table 13.
2. Tuition and fees revenues are collected by the state and appropriated to all institutions in the public sector as part of their state and local appropriations. Applicable to the public sector for tables 4A and 4B and 5A and 5B.

Fall Enrollment 1988-89

# Wisconsin

The reader is advised of the following conditions reported by Wisconsin about its data.

1. Enrollment data for FY 1990 were imputed using FY 1989 data. Applicable to the public 4-year and above sector for tables 1B, 2B and 3B.

2. Degrees and other formal awards conferred data for FY 1989 were imputed using FY 1988 data. Applicable to the public 4-year and above sector for tables 10A, 11A and 12A.

## Glossary of Terms

1403  
COPY

1403  
COPY

**Academic Rank** (Assistant Professor, Associate Professor, Professor, and Other). The academic ranks of assistant professor, associate professor, and professor are defined by the institutions. "Other" includes instructors, lecturers, and faculty with no academic rank as defined, again, by the institutions.

**Academic Support** (expenditures). Expenditures for the support services that are an integral part of the institution's primary mission of instruction, research, or public service. Includes expenditures for museums, galleries, audiovisual services, academic computing support, ancillary support, academic administration, personnel development, and course and curriculum development. Also includes expenditures for veterinary and dental clinics if their primary purpose is to support the institutional program. Excludes expenditures for libraries. [Note: This definition is an operational definition used in this and all previous editions of SHEP and may not be consistent with the terms used in the 1987 IPEDS glossary.]

**Appropriations of State Tax Funds For Operating Expenses of Higher Education.** Under "Appropriations Data (table Y)" in Appendix C, see explanation of data collected in the description of survey and methodology.

**Associate's Degree.** An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

**Attendance Status.** Designates students as either full-time or part-time. See definitions of "full-time student" and "part-time student."

**Baccalaureate Institution.** Any institution whose highest degree awarded in the fiscal year for which data are being reported was a baccalaureate degree.

**Bachelor's Degree.** An award that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes all bachelor's degrees conferred in a cooperative or work study plan or program.

A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows the student to combine actual work experience with college studies. Also includes bachelor's degrees in which the normal 4 years of work is completed in 3 years.

**Control of Institution.** Includes public, private nonprofit, and private for-profit institutions.

**Doctor's Degree.** An award that requires work at the graduate level and terminates in a doctor's degree. The doctor's degree classification includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Doctor of Philosophy degree in any field such as agronomy, food technology, education, engineering, public administration, ophthalmology, or radiology. For the Doctor of Public Health degree, the prior professional degree is generally earned in the closely related professional field of medicine or of sanitary engineering.

**Doctoral with Medical Institution.** Any institution that awarded a medical degree during the fiscal year for which data are being reported. Medical degree programs include dentistry, medicine, osteopathy, and veterinary medicine.

**Doctoral without Medical Institution.** Any institution that awarded a doctoral degree or first-professional degree, other than a medical degree (see above), during the fiscal year for which the data are being reported.

**Educational and General (E&G) Expenditures.** Educational and general expenditures include current fund expenditures for instruction, research, public service, academic support, student services, institutional support, operation and maintenance of plant, scholarships and fellowships, and educational and general mandatory transfers. Educational and general expenditures exclude expenditures for auxiliary enterprises, hospitals, and independent operations. Pell Grants are excluded.

**Educational and General (E&G) Mandatory Transfers** (expenditures). Those transfers that must be made to fulfill a binding legal obligation of the institution. Includes mandatory debt-service provisions relating to academic and administrative buildings, including (1) amounts set aside for debt retirement and interest, and (2) required provisions for renewal and replacements to the extent not financed from other sources. Also includes the institutional matching portion for Perkins Loans when the source of funds is current revenue.

**Educational and General (E&G) Revenues.** Consists of current fund revenues from federal, state, and local appropriations; tuition income; government grants and contracts; private gifts, grants, and endowment income; sales and services of educational activities; and other revenues. Excluded from E&G revenues are income from sales and services of auxiliary enterprises,

sales and services of hospitals, independent operations, and revenues for capital purposes. E&G funds include only those funds intended for operating purposes. Pell Grants are excluded.

**Endowment Income** (revenues). Includes the unrestricted income of endowment and similar funds; restricted income of endowment and similar funds to the extent expended for current operating purposes; and income from funds held in trust by others under irrevocable trusts. Does not include capital gains or losses. Such gains when spent for current operations are treated as transfers, not revenues.

**Enrollment Level.** The level of the degree toward which a student is working and/or the number of years of postsecondary education the student has completed as reflected by the number of credit hours earned. Includes undergraduate, first-time first-year, other undergraduates, first-professional, and graduate students.

**Federal Appropriations** (revenues). Includes dollars appropriated or made available by the federal government to public or private institutions of higher education for current operating expenses and not for specific projects or programs. Examples are federal land-grant appropriations and federal revenue sharing funds. Federal appropriations received through state channels are included in the total for federal appropriations. Federal grants and contracts are excluded.

**Federal Grants and Contracts** (revenues). Includes revenues from federal agencies that are for specific research projects or other types of programs such as administrative allowances for student aid. Examples are research projects, training programs, and similar activities for which amounts are received or expenditures are reimbursable under the terms of a government grant or contract. Includes indirect costs recovered. Pell Grants awarded to student are excluded, although the administration allowance for Pell Grants are included.

**Field of Study** (based upon the program codes provided in *A Classification of Instructional Programs*, NCES, 1981, Washington, D.C.)

**Agriculture.** Includes *Classification of Instructional Programs* (CIP) 2-digit program codes 01 (Agribusiness and Agricultural Production), 02 (Agricultural Science), 03 (Renewable Natural Resources) and 31 (Parks and Recreation).

**All Other** (table 11). Includes CIP 2-digit program codes 04 (Architecture and Environmental Design), 05 (Area and Ethnic Studies), 12 (Consumer, Personal, and Miscellaneous Services), 21 (Industrial Arts), 22 (Law), 24 (Liberal/General Studies), 25 (Library and Archival Sciences), 28 (Military Sciences), 29 (Military Technologies), 30 (Multi/Interdisciplinary Studies), 32 (Basic Skills), 33 (Citizenship/Civic Activities), 34 (Health-Related Activities), 35 (Interpersonal Skills), 36 (Leisure and Recreational Activities), 37 (Personal Awareness), 41 (Science Technologies), 46 (Construction Trades), 47 (Mechanics and Repairers), 48 (Precision Production), and 49 (Transportation and Material Moving).

**All Other** (table 12). Includes CIP 2-digit program codes 04 (Architecture and Environmental Design), 05 (Area and Ethnic Studies), 12 (Consumer, Personal, and Miscellaneous Services), 16 (Foreign Languages), 21 (Industrial Arts), 22 (Law), 23 (Letters), 25 (Library and Archival Sciences), 26 (Life Sciences), 27 (Mathematics), 28 (Military Sciences), 29 (Military Technologies), 30 (Multi/Interdisciplinary Studies), 32 (Basic Skills), 37 (Personal Awareness), 38 (Philosophy and Religion), 39 (Theology), 40 (Physical Sciences), 41 (Science Technologies), and 42 (Psychology).

**Business.** Includes CIP 2-digit program codes 06 (Business and Management), 07 (Business and Office), and 08 (Marketing and Distribution).

**Chiropractic.** Includes CIP 6-digit program code 18.0301 (Chiropractic).

**Communications.** Includes CIP 2-digit program codes 09 (Communications) and 10 (Communication Technologies).

**Computer and Information Sciences.** Includes CIP 2-digit program code 11 (Computer and Information Sciences).

**Dentistry.** Includes CIP 6-digit program code 18.0401 (Dentistry, General).

**Education.** Includes CIP 2-digit program code 13 (Education).

**Engineering.** Includes CIP 2-digit program codes 14 (Engineering) and 15 (Engineering and Engineering-Related Technologies).

**Foreign Languages.** Includes CIP 2-digit program code 16 (Foreign Languages).

**Health.** Includes CIP 2-digit program codes 17 (Allied Health) and 18 (Health Sciences).

**Home Economics.** Includes CIP 2-digit program codes 19 (Home Economics) and 20 (Vocational Home Economics).

**Law.** Includes CIP 6-digit program code 22.0101 (Law).

**Letters.** Includes CIP 2-digit program code 23 (Letters).

**Liberal (General Studies).** Includes CIP 2-digit program code 24 (Liberal/General Studies).

**Life Sciences.** Includes CIP 2-digit program code 26 (Life Sciences).

**Mathematics.** Includes CIP 2-digit program code 27 (Mathematics).

**Medicine, General.** Includes CIP 6-digit program code 18.1001 (Medicine, General).

**Optometry.** Includes CIP 6-digit program code 18.1201 (Optometry).

**Osteopathic Medicine.** Includes CIP 6-digit program code 18.1301 (Osteopathic Medicine).

**Other.** Includes CIP 6-digit program code 80.9999. (Specify: The "Other" category is used for first-professional degrees within the 10 professions except for those specifically named in connection with those professions.)

**Pharmacy.** Includes CIP 6-digit program code 18.1401 (Pharmacy).

**Philosophy, Religion and Theology.** Includes CIP 2-digit program codes 38 (Philosophy and Religion) and 39 (Theology).

**Physical Sciences.** Includes CIP 2-digit program code 40 (Physical Sciences).

**Podiatry.** Includes CIP 6-digit program code 18.1501 (Podiatry).

**Psychology.** Includes CIP 2-digit program code 42 (Psychology).

**Public Affairs and Protective Services.** Includes CIP 2-digit program codes 43 (Protective Services) and 44 (Public Affairs).

**Social Sciences.** Includes CIP 2-digit program code 45 (Social Sciences).

**Theological Studies.** Includes CIP 6-digit program code 39.0601 (Theological Studies).

**Trade and Industrial.** Includes CIP 2-digit program codes 46 (Construction Trades), 47 (Mechanics and Repairs), 48 (Precision Production) and 49 (Transportation and Material Moving).

**Veterinary Medicine.** Includes CIP 6-digit program code 18.2401 (Veterinary Medicine).

**Visual and Performing Arts.** Includes CIP 2-digit program code 50 (Visual and Performing Arts).

**First-Professional Degree.** An award that requires completion of a program that meets all of the following criteria: (1) completion of the academic requirements to begin practice in the profession; (2) at least 2 years of college work before entrance to the program; and (3) a total of at least 6 academic years of college work to complete the degree program, including prior required college work plus the length of the professional program itself.

First-professional degrees may be awarded in the following 10 fields:

Chiropractic (D.C. or D.C.M.)	Pharmacy (D.Pharm.)
Dentistry (D.D.S. or D.M.D.)	Podiatry (Pod.D. or D.F.)
Medicine (M.D.)	Veterinary Medicine (D.V.M.)
Optometry (O.D.)	Law (L.L.B., J.D.)
Osteopathic Medicine (D.O.)	Theology (M.Div. or M.H.L. or B.D.)

**First-Professional Student.** A student enrolled in any of the following degree programs:

Chiropractic (D.C. or D.C.M.) Pharmacy (D.Pharm.)  
 Dentistry (D.D.S. or D.M.D.) Podiatry (Pod.D. or D.P.)  
 Medicine (M.D.) Veterinary Medicine(D.V.M.)  
 Optometry (O.D.) Law (L.L.B., J.D.)  
 Osteopathic Medicine (D.O.) Theology (M.Div. or M.H.L. or B.D.)

**First-Time First-Year Students.** Includes students attending any institution for the first time at the undergraduate level. For institutions that designate first year students as freshmen, includes entering freshmen who have never attended any college, and students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered at the freshman level with advanced standing (college credits earned before graduation from high school). [Note: This definition is an operational definition used in the SHEP:1989 and may not be consistent with the terms used in the 1987 IPEDS glossary.]

**4-Year-and-Above Institution.** Any institution whose highest degree awarded in the fiscal year for which data are being reported was a baccalaureate or higher.

**Fringe Benefits (expenditures).** Cash contributions in the form of supplementary or deferred compensation other than salary. Excludes the employee's contribution.

**Full-Time Enrollment.** See definition of "full-time student."

**Full-Time Equivalent (FTE) Enrollment.** The sum of the number of full-time students and the full-time equivalency of part-time students.

**Full-Time Equivalent (FTE) of Part-Time Enrollment.** Full-time equivalent of part-time enrollment is a numeric conversion through which a student attending part-time is considered some fraction of a full-time student. The actual fraction used on the conversion is a function of the part-time student's enrollment intensity (e.g., number of credits in which enrolled). The sum of the fractions assigned to each part-time student is the total full-time equivalency of part-time students for a given institution or entity. The operational definition is available in Appendix C. Part-time students were converted by data providers into full-time equivalents by one of the following methods:

(1) Use of a method already employed at the institution of the data provider to compute FTEs for some other purpose;

(2) An institution data provider could have totaled the credit hours for part-time students and divided by the normal full-time credit-hour load. The normal full-time credit-hour load was usually determined by dividing the total number of credits required for completing a program by the institutionally defined length of program in terms, or by the number of terms required of a fully engaged student to obtain such credits. Data providers were advised that FTE of part-time students was *not* the minimum number of credit hours required for a student to be classified full-time (75 percent of a normal full-time load). Therefore, the institution data providers divided by the normal full-time load, not by the minimum full-time load. For most institutions, this figure was 15 credit hours (not 12); and

(3) Institutions (data providers) were advised, also, that they could assign a fractional value of full-time to each part-time student, appropriate to the institution, such as 1/4, or 1/2. A student taking 3/4 (75 percent) or more of a normal full-time load could be classified as a full-time student.

**Full-Time Student.**

**Undergraduate:** A student enrolled for 12 or more semester credits; or 12 or more quarter credits; or 24 contact hours a week each term.

**Graduate:** A student enrolled for 9 or more semester credits, or 9 or more quarter credits.

**First-professional:** As defined by the institution.

**Graduate Student.** A student who holds a bachelor's or first-professional degree, or equivalent, and is taking courses at the postbaccalaureate level. These students may or may not be enrolled in a graduate degree program.

**Index.** The amount by which the state figure differs from the national average figure, expressed as a percentage (either plus or minus) of the national figure. It is calculated as follows:

14.0

141.1

State figure minus national figure x 100  
national figure

**Institutional Support** (expenditures). Expenditures for the day-to-day operational support of the institution. Includes expenditures for general administrative services, executive direction and planning, legal and fiscal operations, and public relations/development. Excludes expenditures for physical plant operations.

**Instruction** (expenditures). Expenditures of the colleges, schools, departments, and other instructional divisions of the institution and expenditures for departmental research and public service that are not separately budgeted. Includes expenditures for credit and noncredit activities. Excludes expenditures for academic administration where the primary function is administration (e.g., academic deans). This category also includes general academic instruction, occupational and vocational instruction, special session instruction, community education, preparatory and adult basic education, and remedial and tutorial instruction conducted by the teaching faculty for the institution's students.

**Length of Contract** (9-month and 12-month). Salaries of faculty are reported on either a 9-month or a 12-month basis. Faculty are reported as having 9-month or 12-month salaries on the basis of their contract period, not on the basis of the number of installments in which salaries are paid. The term "9-month salary" applies to faculty who teach for two semesters, three quarters, two trimesters, two 4-month sessions or the equivalent. The term "12-month salary" applies to faculty employed for the entire year. These faculty are usually employed for 11 months of teaching with one month of vacation.

**Less-Than-4-Year Awards.** Awards below the baccalaureate degree level. Includes associate's degree, postsecondary award, certificate or diploma (less than one academic year), postsecondary award, certificate or diploma (at least 1 but less than 2 academic years of full-time equivalent work), and postsecondary award, certificate or diploma (at least 2 but less than 4 academic years of full-time equivalent work). [Note: This definition is an operational definition used in this and all previous editions of SHEP and may not be consistent with the terms used in the 1987 IPEDS glossary.]

**Less-Than-2-Year Institution.** Institutions or subsidiary elements whose purpose is the provision of postsecondary education and all of whose programs are less than 2 years long. These institutions must offer, at a minimum, one program at least 3 months long that results in a terminal occupational award, or is creditable toward a formal 2-year or higher award.

**Level of Institution.** A classification of an institution based on the highest degree certificate or diploma awarded during the fiscal year for which data are being reported.

**Libraries** (expenditures). Expenditures for all print material, microfilm, microfiche, audiovisual materials such as records and films, and computer software. Excludes expenditures for hardware of any kind (e.g., computer terminals, microfiche readers, record players, and projectors).

**Master's Degree.** An award that requires the successful completion of a program of study of at least the full-time equivalent of 1 but not more than 2 academic years of work beyond the bachelor's degree.

**Master's Institution.** Any institution whose highest degree awarded during the fiscal year for which data are being reported was a postbaccalaureate degree or certificate below the doctorate level (includes master's degrees, postbaccalaureate certificates, and post-master's certificates).

**Mean Size of Institutions.** Mean size of the institutions is the total enrollment in a sector divided by the number of institutions reporting enrollment in that sector.

**Operation and Maintenance of Plant** (expenditures). Expenditures for operations established to provide service and maintenance related to campus grounds and facilities used for educational and general purposes.

**Other Sources** (revenues). Includes sales and services of educational activities and revenues derived from the sales of goods or services that are incidental to the conduct of instruction, research, or public service. Examples include film rentals, scientific and literary publications, testing services, university presses, and dairy products. Also includes all items or revenues not covered elsewhere. Examples are interest income and gains (net of losses) from investments of unrestricted current funds. Includes revenues resulting from the sales and

services of internal service departments to persons or agencies external to the institution (e.g., the sale of computer time).

**Other Undergraduate.** First-year students who entered the institution before the summer of 1987, second-year, third-year, and fourth-year and beyond students, unclassified students, and non-degree seeking students.

**Part-Time Student.**

**Undergraduate:** A student enrolled for either 11 semester credits or less, or 11 quarter credits or less, or less than 24 contact hours per week.

**Graduate:** A student enrolled for either 8 semester credits or less, or 8 quarter credits or less.

**Pell Grant Expenditures.** Expenditures for scholarships and fellowships funded by Pell Grants. Pell Grants are a type of federal student financial aid that provides eligible undergraduate students with need-based grants to help them defray the cost of postsecondary education. (Public Law 92-318, as amended, Public Law 94-482, Education Amendments of 1972, Title IV; 20 U.S. Code, Sec. 107a-1976.)

**Per 1,000 Capita.** The total population of individuals in a state 18 years of age and older divided by 1,000.

**Postsecondary Award, Certificate or Diploma** (less than 1 academic year). Requires completion of an organized program of study at the postsecondary level in less than 1 academic year (two semesters or three quarters) or in less than 900 contact hours by a student enrolled full-time.

**Postsecondary Award, Certificate or Diploma** (at least 1 but less than 2 academic years). Requires completion of an organized program of study at the postsecondary level in at least 1 but less than 2 full-time equivalent academic years, or designed for completion in at least 30 but less than 60 credit hours, or in at least 900 but less than 1,800 contact hours.

**Postsecondary Award, Certificate or Diploma** (at least 2 but less than 4 academic years) Requires completion of an organized program of study at the postsecondary level in at least 2 but less than 4 full-time equivalent academic

years, or designed for completion in at least 60 but less than 120 credit hours, or in at least 1,800 but less than 3,600 contact hours.

**Private Gifts, Grants, and Contracts** (revenues). Revenues from private donors for which no legal consideration is involved and from private contracts for specific goods and services provided to the funder as stipulation for receipt of the funds. Includes only those gifts, grants, and contracts that are directly related to instruction, research, public service, or other institutional purposes. Includes monies received as a result of gifts, grants, or contracts from a foreign government. Also includes the estimated dollar amount of contributed services.

**Private For-Profit Institution.** An educational institution that is under private control and whose profits, derived from revenues, are subject to taxation.

**Private Nonprofit Institution.** An educational institution which is controlled by an individual or by an agency other than a state, subdivision of a state, or the federal government, which is usually supported primarily by other than public funds, and the operation of whose program rests with other than publicly elected or appointed officials.

**Public Service** (expenditures). Funds budgeted specifically for public service and expended for activities established primarily to provide non-instructional services beneficial to groups external to the institution. Examples are seminars and projects provided to particular sectors of the community, and expenditures for community services and cooperative extension services.

**Public Institution.** Includes all educational institutions under the control of—or affiliated with—federal, state, local, or state-related agencies.

**Research** (expenditures). Funds expended for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution.

**Restricted Educational and General (E&G) Revenues.** Those funds available for financing operations but which are limited by donors and other external agencies to specific purposes, programs, departments, or schools. Externally imposed restrictions are to be contrasted with internal designations imposed by the governing board on unrestricted funds.

1411

**Salaries (expenditures).** Funds expended for salaries and wages. Includes salaries and wages of all personnel, full- and part-time paid through each functional account. Does not include expenditures for employee fringe benefits or for College Work-Study Programs.

**Scholarships and Fellowships (expenditures).** Expenditures given in the form of outright grants and trainee stipends to individuals enrolled in formal coursework, either for credit or not. Excludes Pell Grants. Includes aid to students in the form of tuition or fee remissions. Excludes those remissions that are granted because of faculty or staff status. Also excludes College Work-Study Program expenses.

**Institutional.** Expenditures for scholarships and fellowships from revenues generated by the institution such as tuition and fees revenues, endowment income, sales and services of educational activities, and other sources.

**Other Federal.** Expenditures for scholarships and fellowships, excluding Pell Grants, received from federal government agencies.

**Private.** Expenditures for scholarships and fellowships received from private sources such as businesses, foundations, individuals and foreign governments.

**State and Local.** Expenditures for scholarships and fellowships provided by state and local governments.

**SHEP/Non-SHEP Institutions.** SHEP institutions are either public or private nonprofit and must have awarded at least one associate's degree in 1988-89. These institutions must be accredited at the college level by an agency recognized by the Secretary of Education. All other institutions are considered non-SHEP.

**State and Local Appropriations (revenues).** Dollars appropriated or made available by state and local governments to public or private postsecondary institutions for current operating expenses and not for specific projects or programs. Grants and contracts are excluded. Charges for room, board, and other services rendered by auxiliary enterprises are not included here.

**State and Local Grants and Contracts (revenues).** Includes revenues from state and local government agencies which are for specific research projects or other types of programs such as student aid. Examples are research projects, training programs, and similar activities for which amounts are received or expenditures are reimbursable under the terms of a government grant or contract. Includes indirect costs recovered.

**Student Services (expenditures).** Funds expended for admissions, registrar activities, and activities whose primary purpose is to contribute to students' emotional and physical well-being and to their intellectual, cultural, and social development outside the context of the formal instructional program. Examples are career guidance, counseling, financial aid administration, and student health services (except when operated as a self-supporting auxiliary enterprise).

**Tuition and Fees (revenues).** Charges assessed against students for educational purposes. Includes tuition and fee remissions or exemptions even though there is no intention of collecting from the student. Includes those tuitions and fees that are remitted to the state as an offset to the state appropriation. Excludes charges for room, board, and other services rendered by auxiliary enterprises.

**2-Year Institution.** Any institution whose highest degree awarded during the fiscal year for which data are being reported was an associate's degree, or a certificate, or diploma in a program of at least 2 but less than 4 years in length.

**Undergraduate.** A student enrolled in a 4-year or 5-year bachelor's degree program, in an associate's degree program, or in a vocational or technical program below the baccalaureate.

# Appendix B

## Listing of SHEP Institutions by State

This appendix lists institutions included in the SHEP universe by the state in which the institutions are located and by their institutional classification for fiscal year 1989-90. Institutions that changed classification from fiscal year 1988-89 to 1989-90 are noted with the following codes which appear next to the name of the institution.

<u>Code</u>	<u>1988-89 classification</u>
1	Doctoral with medical
2	Doctoral without medical
3	Master's
4	Baccalaureate
5	2-year
6	Institution was not in the 1988-89 IPEDS universe.
7	Highest degrees awarded in 1988-89 were less-than-2-year certificates.
8	No classification was determined because the institution did not respond to any of the IPEDS surveys in 1988-89.

Institutions that were included in the 1988-89 SHEP universe but not included in the 1989-90 universe are listed in table B1 at the end of this appendix.

# Appendix C

## Technical Notes

Data for the combined fifth and sixth edition of the SHEP came primarily from the 1988-89 and the 1989-90 IPEDS data collection. Data were derived from five different IPEDS surveys for each fiscal year (FY): Fall Enrollment 1988 and 1989; Completions 1988-89 and 1989-90; Finance 1988-89 and 1989-90; Institutional Characteristics 1989-90 and 1990-91; and Faculty Salaries 1989-90 (The IPEDS Faculty Salary Survey was not conducted in 1988-89). In addition to IPEDS data, the number of individuals 18 years of age or older in the nation and in each state that was used as a size adjustment for certain of the indicators in the report was obtained from the U.S. Census Bureau's Current Population Reports Series P-25. Data for FY 1988 and FY 1989 were adjusted by population estimates for the appropriate year. Data on state appropriations for higher education that are used in state ranking table Y were obtained from the Grapevine summary tables for 1990, 1991, and 1992. The Grapevine summary tables are based on a survey of state higher education fiscal agencies conducted by the Center for Higher Education at Illinois State University. This section briefly describes these surveys and their data collection methodology.

Since a given statistic in the SHEP may have been derived from more than one source, this section also provides detailed information on how specific data elements were treated for this report, relevant analytic methodology, and any caveats that might affect the use and interpretation of the data. This information will be included under the data element's primary source.

Data reported in SHEP that were collected in the fall of 1988 and 1989 (such as the number of institutions, enrollment, and faculty data) will differ somewhat from numbers reported in other NCES publications because the data in SHEP are summarized by updated institutional characteristics from the 1988-89 and 1989-90 Completions Survey. This survey is reported at the end of the fiscal year. If an institution had closed during the year it was excluded from SHEP. If an institution merged with another institution during the year but enrollment or faculty data had been reported separately in the fall it was deleted as a separate institution from SHEP and its enrollment and/or faculty data were added to that of the merged institution. However if an institution had merged with another institution but its enrollment and faculty data had been imputed in the fall then not only was the institution excluded but its data were not added to that of the merged institution. This procedure was designed to preclude the possibility of double counting the merged institution's data (i.e., it has been considered a non-responding institution on the fall surveys). If it was found that an institution lost higher education institution accreditation status during the year, the institution would have been classified as a non-SHEP institution and its data would be excluded from all but table 1A and 1B. If an institution gained

accreditation status in the spring, the institution would be classified as a SHEP institution, and its data would be included in all tables.

Additionally, data reported in SHEP will differ from other NCES publications on higher education because private for-profit higher education institutions are not included as SHEP institutions and U.S. service schools (e.g., West Point, Annapolis) are excluded entirely.

## **Institutional Characteristics 1988-89 and 1989-90**

*Description of Survey and Methodology:* This survey makes available data on the characteristics of all postsecondary institutions in the United States and its outlying territories. It is the only universe survey in the IPEDS. A postsecondary institution is defined by IPEDS as any institution that is open to the general public and whose primary mission is to provide formal instructional programs that are designed primarily for students who have completed the requirements for a high school diploma or its equivalent. The key data elements collected and updated annually include such vital information as the institution's address, control, highest level of offering, tuition and required fees, and accreditation status. Responses to items on this survey determine which of the IPEDS surveys, and which form of a survey, an institution will receive. Thus, this survey serves as the basic control file for the entire IPEDS.

The Institutional Characteristics survey is mailed in July, at the beginning of the fiscal year, to the known universe of postsecondary institutions and institutions that are identified as possible additions to the IPEDS universe. Survey responses are edited for internal consistency, but no imputation for missing surveys or items is attempted. Extensive followup for non-response is conducted between mid-September through February. Non-responding institutions are called, and key data elements are collected using a Computer Assisted Telephone Interview. As part of the IC survey process, institutions on the file that do not fit the IPEDS definition of a postsecondary institution are deleted, as are institutions that have closed or are identified as duplicates on the file. Additionally, there is an intensive effort to identify institutions that opened during the 12-month period between IC surveys. Thus, the response rate reflects institutions that have been deleted or added to the IC survey universe and is calculated as the percentage of respondents relative to all in-scope, non-deleted institutions. A summary of response conditions based on the final universe is presented on the following page.

In 1988-89, the CATI system was used to solicit data from the non-respondents in the sample of private less-than-2-year institutions. In 1989-90, the CATI system was expanded to include non-responding institutions from all other sectors for which IPEDS state coordinators are not responsible for followup.

During editing, all forms are checked for CIP (classification of instructional programs) code validity and addition errors. Total lines are generated and compared to the reported totals for each 2-digit program category. If these are within an acceptable range, the generated total replaces the reported total, otherwise institutions are contacted to resolve discrepancies. Also data from higher education institutions are checked for consistency with their prior year's response.

Imputation for institutions that did not respond are based on their previous year's response to the survey. If there are no previous year's data, no imputation is done. Data for 60 institutions in 1988-89, and 18 institutions in 1989-90 were not imputed. Special procedures were used for rabbinical institutions that were non-respondents.

Completions data used in SHEP includes institutions, that submitted or resubmitted survey forms after the final data file was created. A summary of the response conditions is provided below:

### Completions, 1988-89 and 1989-90

*Description of Survey and Methodology:* This survey collects data on the number of recognized completions (degrees or other formal awards) in academic, vocation, and continuing professional education programs in a fiscal year. The survey requests data by sex for each award category and program specialty, and by sex and racial/ethnic categories for each award category and discipline division. The award categories include certificates and diplomas by the length of the program for which they are awarded; as well as associate's, bachelor's, master's, doctoral, and first-professional degrees.

The Completions Survey is mailed in July, and survey results are collected from October through March. Followup for non-response begins in November and is conducted by letter and telephone. The non-responding institution is contacted directly or through an IPEDS state coordinator responsible for the non-responding institution. The Computer Assisted Telephone Interview (CATI) system is used to solicit data from non-respondent institutions. Institutions responding through CATI are asked to provide only the total number of completions, by award level and sex. Racial/ethnic data are not requested.

Sector	1989-90		1990-91	
	Final universe	Respondents Number %	Final universe	Respondents Number %

For-profit	846	640 75.7	1,052	962 91.4
Higher education	3,583	3,212 89.6	3,598	3,385 94.1
Other postsecondary	2,943	1,859 63.2	2,888	2,499 86.5

Response rates by state and by institutional control and level (SHEP classifications) are available in table C1A and C1B.

#### Level of Institution (all tables)

Source: 1988-89 and 1989-90 IPEDS Completions Survey  
1989-90 and 1990-91 IPEDS Institutional Characteristics Survey

An institution's highest level was based on the highest level of degree awarded in the fiscal year as reported on the Completions Survey. If an institution did not respond to this survey or did not have the chance to respond to this survey because it was not part of the sample of less-than-2-year private institutions, the institution's report of its highest level of offering on the IPEDS Institutional Characteristics Survey (a universe survey) was used.

#### Control of Institution (all tables)

Source: 1988-89 and 1989-90 IPEDS Completion Survey  
1989-90 and 1990-91 IPEDS Institutional Characteristics Survey

Since the IPEDS Completions Survey defines the level of institutions used in SHEP and its data were collected late in the data collection cycle, institutional control reported on this survey was considered more accurate than that reported on the earlier, fall surveys. Therefore the Completions Survey file (augmented when necessary with the Institutional Characteristics Survey file) served as the basis for the designation of institution control in this edition.

#### SHEP/Non-SHEP Institutions (tables 1A and 1B)

Source: 1988-89 and 1989-90 IPEDS Completion Survey  
1989-90 and 1990-91 IPEDS Institutional Characteristics Survey

Tables 1A and 1B consist of all postsecondary institutions in the United States. It excludes only U.S. service schools. It divides institutions into SHEP institutions and non-SHEP institutions. SHEP institutions are either public or private nonprofit and must have awarded at least one associate's degree in the fiscal year or must have indicated that an associate's degree was its highest level on the Institutional Characteristics

to be consistent with previous editions of SHEP these institutions must be accredited at the college level by an agency recognized by the Secretary of Education (HEGIS institutions). All other institutions are considered non-SHEP. Non-SHEP institutions include all private for-profit institutions, all non-higher education institutions, and any institution whose highest degree awarded was less than an associate's degree.

## Fall Enrollment, 1988-89 and 1989-90

*Description of survey and methodology:* This survey makes available enrollment data for the fall of an academic or fiscal year for all postsecondary education institutions in the United States and the outlying areas. This survey includes students enrolled in courses creditable toward a degree or other formal award; students enrolled in courses that are part of a vocational or occupational program; and high school students taking regular college courses for credit. Data are collected from all 4- and 2-year institutions by attendance status, level of enrollment, and sex. For less-than-2-year institutions, enrollment data were collected by sex and age. The survey includes data collected from all institutions of higher education accredited at the college level by an agency recognized by the Secretary of Education.

Survey forms are mailed in early September and non-responding institutions are contacted by letter and telephone beginning in December. Institutions are asked to provide total male and female enrollments or at minimum total enrollment. All forms are edited for major reporting and processing errors. Data from institutions that respond to the Fall Enrollment Survey are checked for consistency with the prior year's data. Total lines are generated and compared to reported totals. If differences between these are within an acceptable range, the generated total replaces the reported total. Otherwise institutions are contacted to resolve discrepancies.

Imputation for institutions that do not respond or provide only a partial response are based on prior years' response to the survey. If no prior data are available (e.g., for institutions new to the IPEDS universe) but total enrollment is available, imputations are effected by matching institutions based on sector and state, and applying the selected institution's distribution of enrollment by attendance status and student level to the reported total enrollment. If no prior data are available and there is no reported total enrollment, both the number enrolled and the enrollment distribution of the matched institution is applied to the nonresponding institution.

Fall enrollment data used in SHEP include institutions, that submitted or resubmitted survey forms after the final data file was created. A summary of the response conditions is provided below:

Sector	1988-89		1989-90	
	Final universe	Respondents Number %	Final universe	Respondents Number %
Total	6,751	5163 76.5	6,714	5,185 77.2
4-year				
Public	631	612 97.0	624	570 91.3
Nonprofit	1,882	1562 83.0	1,863	1,530 82.1
2-year				
For-profit	109	65 59.6	106	76 71.7
Public	1,241	1149 92.6	1,211	1,063 87.8
Nonprofit	753	442 58.7	722	415 57.5
For-profit	806	385 47.8	809	476 58.8
Less-than-2-year				
Public	320	194 60.6	284	199 70.1
Nonprofit	79	62 78.5	87	71 81.6
For-profit	931	692 74.3	1,008	785 77.9
Higher education	3,622	3436 94.9	3,588	3,231 90.1
Other postsecondary	3,129	1727 55.2	1,126	1,954 62.5

Response rates by state and institutional control and level (SHEP classifications) are available in tables C2A and C2B.

#### Mean Enrollment (tables 1A and 1B)

Source: 1988-90 and 1989-90 IPEDS Fall Enrollment Survey  
1989-90 and 1990-91 IPEDS Institutional Characteristics Survey

Tables 1A and 1B include all postsecondary institutions found in the IPEDS Institutional Characteristics Survey. To determine the size of an institution, fall enrollment data were used for all 4-year, 2-year, public less-than-2-year institutions, and the sample of private less-than-2-year

institutions from which fall enrollment data had been collected. For non-sampled private less-than-2-year institutions (and any other institution that had no fall enrollment data reported or imputed through the regular survey process), total enrollment or enrollment totaled over the institution's three largest programs reported on the Institutional Characteristics Survey was used. Once an enrollment count was established for each institution in the IPEDS universe, the number of institutions and their enrollments were aggregated by control and level for SHEP institutions and non-SHEP institutions. Mean size was calculated by dividing the total enrollment in a sector by the number of institutions having an enrollment count. If an institution had no enrollment count, it was excluded from the calculation of mean size, but included in the total count of institutions.

#### Full-time Equivalent Enrollment (tables 2A and 2B)

Source: 1988 and 1989 Fall Enrollment Survey

Full-time equivalent enrollment (FTE) reported in tables 2A and 2B and used in the calculation of financial indicators in tables 5A, 5B, 7A, 7B, 8A, and 8B was imputed for all SHEP institutions because institutionally reported FTE was not requested on the Fall Enrollment Survey. Also, institutional total credit/contact hour production data requested on the IPEDS Institutional Activity Survey did not meet NCES reporting standards. Beginning in 1991-92 credit/contact hour production will be collected on the IPEDS Institutional Characteristics Survey and may be used in future editions of SHEP. FTE was imputed as follows:

For each institution the ratio of the full-time equivalent of part-time enrollment reported on the 1985 Fall Enrollment Survey to the part-time enrollment reported in 1985 was calculated separately for undergraduate, graduate, and first-professional students.

If there were no enrollment data for an institution in 1985, ratios, aggregated for all institutions with 1985 data by control and level of institution, were determined and used as that institution's ratio. These ratios were multiplied by the reported 1988 and 1989 part-time enrollment to obtain an estimate of the 1988 and 1989 full-time equivalent of part-time enrollment.

Total FTE is equal to the sum of full-time enrollment and the full-time equivalent of part-time enrollment for all students.

### Number of Students (tables 3A and 3B)

Source: 1988-89 and 1989-90 Fall Enrollment Survey

The number of students by control and level of institution in the fall of 1988 or 1989 will differ somewhat from numbers reported in other NCES publications because the data in SHEP are summarized by updated institutional characteristics and because private for-profit higher education institutions are not included as SHEP institutions.

### Salaries, Tenure and Fringe Benefits of Full-time Instructional Faculty, 1989-90

*Description of Methodology:* This survey collects data on the number of full-time instructional faculty and their salary outlays by contract length (9- or 12-month), sex, and academic rank. It also collects information on the number of tenured faculty, the benefits available to faculty, and institutional outlays for these benefits.

The salary universe was developed by selecting from the 1989-90 IPEDS universe that subset of public and private 4- and 2-year institutions, and public less-than-2-year institutions that had full-time, salaried faculty who were not teaching exclusively in a preclinical or clinical medical program, or who were not contributing services (such as members of a religious order), or were not all military personnel.

The forms are mailed in July and survey results are collected between November and April. Followup for non-response begins in January by telephone and letter. Data are edited for consistency with the prior year's data, when available, and for major reporting and processing errors. Generated totals are compared to the reported totals. If differences between them are within an acceptable range, generated totals replace reported totals; otherwise, institutions are contacted to resolve discrepancies. Data are imputed for total nonresponding institutions only. Partial responses are resolved through editing procedures. Two procedures are used to impute data for nonresponding institutions.

To impute for nonresponding institutions in 1989-90 that had reported faculty data in 1987-88, the rate of change in number of faculty and total salary outlays was determined for institutions of the same level and control that had reported data in both years. Separate rates of change were calculated for faculty on 9-

or 10- and 11- or 12-month contracts by sex and academic rank. These rates of change were then applied to reported 1987-88 faculty and salary data for each academic rank for each 1989-90 non-respondent.

For institutions that did not respond to the 1987-88 Faculty survey a modified hot deck procedure was used. This procedure randomly selected a responding institution of the same level, control and region as the non-respondent and applied the selected institution's distribution of faculty by length of contract and rank to the estimated total number of faculty of the nonresponding institution. The total number of faculty (and total salary outlays) was estimated for non-respondents by determining the non-respondent's expected ratio of total number of faculty to total FTE students enrolled in fall, 1989, based on the known faculty to FTE student ratio in reporting institutions of the same level, control, and region. Tenure status was not imputed, nor was part B of the survey form.

Faculty and salaries data used in SHEP includes institutions, that submitted or resubmitted survey forms after the final data file was created. A summary of the response conditions is provided below:

Sector	1989-90		
	Final universe	Respondents Number	%
Total	4,416	3,197	72.4
4-year			
Public	601	572	95.2
Nonprofit	1,675	1,214	72.5
For-profit	76	29	38.2
2-year			
Public	1,188	1,006	84.7
Nonprofit	612	240	39.2
Less-than-2-year			
Public	264	136	51.5
Higher education	3,205	2,754	85.9
Other postsecondary	1,211	443	36.6

Detailed response rates by state and institutional control and level (SHEP classification) are available in Table C4.

**Federal Grants and Contracts per Full-time Faculty 1988-89**  
(table 5A)

**Selected Expenditures per Full-time Faculty 1988-89**  
(table 8A)

Source: 1989-90 Salaries, Tenure and Fringe Benefits of Full-time Instructional Faculty 1989-90

Because there was no IPEDS Salary survey in 1988-89, total full-time faculty from the 1989-90 survey was used to compute the number of full-time faculty for SHEP institutions in 1988-89. Only those institutions that were in the SHEP 1988-89 universe were included in tables 5A and 8A.

**Finance 1988-89 and 1989-90.**

*Description of Survey and Methodology:* The Finance Survey collects data on multiple aspects of institutional finance. Three of the several parts of the 1988-89 and 1989-90 Finance Surveys were used in this edition of SHEP: restricted, unrestricted and total current operating revenues by the source of the revenue (a subset of current operating revenues are education and general revenues, or E&G revenues, part A); restricted, unrestricted and total current operating expenditures by expenditure function (a subset of current operating expenditures are E&G expenditures, part B); total expenditures for salaries by E&G expenditure function (part B); and scholarship and grant expenditures by source (part E).

Finance survey forms are mailed in July and results are collected from November through April. Followup for non-response begins in February by letter and telephone. When contacted by telephone, institutions are asked to provide current funds revenues and expenditures by selected categories such as tuition and fee revenues, total revenues, instruction and scholarship/fellowship expenditures and total expenditures.

Data are inspected for major reporting and processing errors; however, editing is limited to correcting line and column addition. Generated sums are compared

to the reported totals and replace the reported totals if the differences are less than 10 percent. If the difference are greater than 10 percent the institutions are contacted, to resolve the discrepancies. Also, data are edited for consistency with prior year's data.

Imputation is first based on using reported data from a prior year. A rate of change of current fund revenues and current fund expenditures between the current year's survey and the previous year's survey is calculated for all institutions that responded to both surveys. These rates are calculated by control and level (defined by the highest degree granted) of institution. Nonresponding institutions' previous year's reported revenue and/or expenditure data are then adjusted by the rate of change appropriate to the institution's control and level.

Nonresponding institutions with no previously reported data are sorted into hot deck groups formed as a combination of control, highest degree granted, geographic region, state (if public), and presence of a medical (M.D., D.D.S., D.V.M., O.D. degree) or medical-related (chiropractic, optometric, or podiatric) institution. A donor institution is selected from the same hot deck group as the nonresponding institution. Fall enrollment data from the appropriate year (1988 for the FY 1988 finance data or 1989 for the FY 1989 finance data) are used to compute a full-time equivalent enrollment (FTE) figure for both the nonresponding institution and its matched institution. The ratio of donor institution FTE to the recipient institution FTE is computed. This ratio is multiplied by the donor institution's reported values for those revenue and expenditure items which enrollment directly affects: tuition and fees, government appropriations, grants and contracts, auxiliary operations, instruction, student services and scholarship and fellowship expenditures. All other financial items in parts A, B, and E are imputed without adjustment from the donor record.

Item imputation was performed prior to imputing for nonresponding institutions.

A summary of response conditions of higher education institutions is provided on the following page.

non-zero value for total E&G revenues and also had a non-zero value for full-time equivalent enrollment. Calculations of E&G revenues or expenditures per full-time faculty include only those institutions that had a reported or imputed non-value for E&G revenues, expenditures, and number of full-time faculty.

**Scholarship and Fellowship Expenditures per FTE**  
(tables 7A,7B,8A, and 8B)

Source: Finance Survey, 1988-89 and 1989-90

The scholarship and fellowship expenditures per FTE student in tables 7A and 7B are not equivalent to those reported in tables 8A and 8B for two reasons. First, scholarship and fellowship expenditures per FTE student shown in tables 7A and 7B were calculated by subtracting Pell Grant expenditures from the total scholarship and fellowship expenditures reported in part B of the Finance Survey. In tables 8A and 8B, scholarship and fellowship expenditures per FTE student were calculated from part E of the Finance Survey, expenditures for scholarships and grants by source of expenditure. Total expenditures for scholarships and grants per FTE displayed in tables 8A and 8B include Pell Grant expenditures.

Secondly, institutions with data imputed from reported 1985-86 finance data, were included in tables 7A and 7B, but excluded from the calculation of sources of scholarship and fellowship expenditures per FTE for all sources except those from Pell Grants in tables 8A and 8B. Sources of scholarship and fellowship expenditures were not collected in 1985-86.

**State Tax-Fund Appropriations for Operating Expenses of Higher Education, 1989-90, 1990-91, and 1991-92**

*Description of Survey and Methodology:* Data represent total state tax effort for higher education and include state tax funds appropriated by state legislatures for operating expenses of colleges, universities, community and 2-year colleges, and state tax funds appropriated for other higher education purposes. The Grapevine survey was sent to a higher education fiscal agency in each of the 50 states in 1989-90, 1990-91, and 1991-92; responses were received from all states each

Sector	1988-89		1989-90		
	Final universe	Respondents	Final universe	Respondents	
	Number	%	Number	%	
Higher education	3,600	3,025	84.0	3,113	86.1

Detailed response rates by state and institutional control and level (SHEP classification) are available in tables C3A and C3B.

**Education and General Revenues and Expenditures**  
(tables 4A-7B)

Source: Finance Survey, 1988-89 and 1989-90

To be consistent with previous editions of SHEP, Pell Grant expenditures were excluded from scholarship and fellowship expenditures reported in tables 6A, 6B, 7A and 7B, and excluded from revenues from federal grants and contracts reported in tables 4A, 4B, 5A and 5B. Also, non-mandatory expenditures were excluded from total E&G expenditures in tables 6A, 6B, 7A and 7B.

**Adjusted Education and General Revenues and Expenditures**

(tables 5A,5B,7A,7B,8A, and 8B)

Source: Finance Survey, 1988-89 and 1989-90

Calculations of E&G revenues or expenditures per full-time equivalent student included only those institutions that had a reported or imputed

year, and data were published initially by the Center for Higher Education in its monthly research report, Grapevine. Data include appropriations, not expenditures, and reflect revisions received by the Center for Higher Education as of July 1, 1992.

Data were collected for the total of state tax-fund appropriations for 1) operating expenses of public higher education institutions; 2) state higher education agencies (expenses for coordinating or governing boards including allocations for categorical programs); 3) state aid to community colleges; 4) state support for vocational technical 2-year colleges or institutions which enroll students at the postsecondary level; 5) higher education programs and purposes but appropriated to another state agency, such as appropriations for faculty fringe benefits disbursed by the state treasurer and funds for agricultural and medical/health programs; 6) state scholarship programs and state-supported student financial aid; and 7) state aid to private institutions of higher education. Excluded were appropriations for capital outlays and debt service, and appropriations derived from local tax sources, federal sources, student tuition, auxiliary enterprises, and non-tax sources.
