ABSTRACT

A tech prep program in financial services, called Chicago Academy of Finance, was developed at Jones Metropolitan High School of Business and Commerce in Chicago, Illinois. The program was designed to integrate vocational and academic skills, with an emphasis on critical thinking skills. Of the 39 students initially enrolling in the first 11th-grade tech prep class, 34 (87%) completed their first year. Most program completers were either African American (73.2%) or Hispanic (24.4%) and female (82.9%). More than 90% of these students completed the program with a grade-point average of C or better. All students eligible for internships were successfully placed in paid summer positions. A pre-academy for 9thand 10th-grade students at Jones High School was also launched in September 1992. The program benefited from significant participatory planning and involvement of a local summer youth jobs program and business advisory council and received the Connections 2000 award for innovative curriculum integration development. (Appendixes include the following: project brochures and publicity materials; a list of implementation team members; student performance standards by program year; learning objectives, standards, and evaluation methods; program philosophy and academic and social policy statements; and reports on the project appearing in the school's newspaper.) (MN)

FINAL REPORT ABSTRACT

Official Project Title: Tech Prep Program in Financial Services

DAVIE Funding Agreement Number: N/A Project Director: Diana L. Robinson

Funded Agency: Jones Metropolitan High School of Business and Commerce Location of Funded Agency: 606 South State Street, Chicago, Illinois, 60605

Time Period Covered: September 1, 1991 - August 31, 1992

Goals of Project and Relevancy to Vocational Education: This first year Tech Prep implementation grant incorporates the goals stipulated under the federal Carl D. Perkins Vocational and Applied Technology Act of 1990:

- Integration of vocational and academic skills, with an emphasis on critical thinking skills;
- Teaching of "all aspects of the industry";
- Provision of services to special needs students;
- Participatory planning of students, parents, school staff, community representatives and business in developing programs.

Minor changes have been made to improvi

Points of view or opinions stated in this document do not necessarily represent officier OER; position or policy

Major Accomplishments of the Project:

- Of the 39 students initially enrolling in the first 11th grade Tech Prep class at Jones High School, 34 (87%) completed the first year.
- Seven new students were enrolled in the program early in the school year, bringing the total completing the first year to 41.
- A majority of these 41 students were either African-American (73.2%) or Hispanic (24.4%) and female (82.9%), thereby providing career opportunities to groups historically underrepresented in professional financial services positions.
- More than 90% of these students completed with a GPA of "C" or better.
- All of the students eligible for internships were successfully placed in paid summer positions.
- Program planning and student recruitment occurred for the launch of a Pre-Academy for 9th and 10th grade students at Jones in September 1992.
- Significant participatory planning and involvement occurred through the Chicago Academy of Finance Advisory Board, the Career Preparation Initiative in Financial Services, Corporate Chicago "Hire the Future" (a summer youth jobs program), and the Business Advisory Council and Local School Council of Jones High School.
- The Tech Prep Program in Financial Services at Jones High School received the Connections 2000 Award for innovative curriculum integration development.

Products Delivered:

- Portfolio of Progress, 1 copy, delivered to CPS in May 1992

- Final Report, 2 copies, delivered to CFS on July 10, 1992 - Videotape, 3 copies, to be delivered to CPS by July 31, 1992

- Employer brochure and multi-purpose marketing kit, 15 copies, to be delivered to CPS by July 31

2. MAJOR ACCOMPLISHMENTS AND SIGNIFICANT FINDINGS OF THE PROJECT

This program year witnessed the successful launch of a Tech Prep program in financial services at Jones Metropolitan High School. The community college partner of his program is Harold Washington College, one of the eight City Colleges of Chicago. F charter class of 39 students was recruited, screened and enrolled; teachers were selected and a curriculum implemented; special activities to introduce students to professionals and careers in financial services were provided; and paid summer internships were developed for all students who completed the program with at least a "C" average. All but two of the eight program outcomes identified in the grant proposal have been accomplished, with the remaining two nearly completed.

This Tech Prep program, called the Chicago Academy of Finance (CAF), is unique in three respects: (1) it is located in the only two-year public business high school in the nation; (2) it is based on an academy model of academic and vocational preparation developed by the National Academy Foundation; and (3) it is being significantly strengthened through the work of a public-private employer committee named the Implementation Team (I-Team) of the Career Preparation Initiative in Financial Services (CPI-FS).

Program activity during this first year of operation clustered in four categories: the recruitment, selection and education of the charter Tech Prep class; program support provided by the CAF Advisory Board; the program enhancement work of the CPI-FS I-Team; and the development and launch of a pre-Academy for 9th and 10th graders at Jones High School. Activity highlights are provided below for each of these categories.

A. Recruitment, Selection and Education of Charter Class

- 39 students were screened, interviewed and enrolled as the charter CAF class (see Attachment A, recruitment brochure). Another 7 were admitted early in the school year. Forty-one students completed the first year.
- Of these 41 students, a majority were either African-Anerican (73.2%) or Hispanic (24.4%) and female (82.8%), thereby preparing these youth for careers in which they have historically been underrepresented.
- 4 teachers were selected and prepared to teach core academic and vocational courses.
- Special activities were planned and executed to complement the academic offerings: monthly breakfasts with financial services employers; election of CAF class officers; assignment of mentors; visitation by the Atlanta Academy of Finance; and special events to launch the program (Attachment B) and honor students who completed their first year of the program.

B. Program Support Provided by CAF Advisory Board

- The 17-member CAF Advisory Board met monthly to review progress of the Tech Prep program and offer assistance (see Attachment C, Advisory Board list).
- To demonstrate their support and enthusiasm for the program, the Advisory Board agreed to provide \$2,000 college scholarships for every student in the charter class who completes the program with a 3.5 or better GPA and at least a 95% attendance rate.
- The companies on the Advisory Board provided speakers and corporate material at monthly breakfasts with students.

- Coopers & Lybrand hosted a reception honoring students who completed the first year of the program (Attachment D).

 Advisory Board companies provided almost one-third of the paid summer internships needed for students.

C. Program Enhancement Work of CPI-FS I-Team

The 40 member Implementation Team (I-Team) of the Career Preparation Initiative in Financial Services (see Attachment E, I-Team list) met throughout this grant year and accomplished the following:

- Identified and validated industry-wide 138 performance standards in six skill areas that students should master by the completion of the four-year Tech Prep program (Attachment F).
- Translated these performance standards into 30 learning objectives (Attachment G).
- Drafted an academic philosophy (Attachment H) and a student social and academic policy (Attachment I).
- Hired a consultant to produce a videotape intended to recruit CEO-level support to the program, an employer-directed brochure, and a multi-purpose marketing piece. (To be forwarded by July 31, 1992.)
- Convened a Curriculum Development Committee to ensure that all performance standards and learning objectives are adequately addressed in the four-year curriculum (Attachment J. Scope of Work).

D. Pre-Academy of Finance

To ensure that students are academically prepared to enter the Chicago Academy of Finance at Jones High School in the 11th grade, Jones will launch a pre-Academy for 9th and 10th grade students in the fall of 1992. This will be the first class of 9th graders to enroll at Jones. Related activities included:

- Development of a recruitment brochure (Attachment K).
- A breakfast meeting with school principals and counselors (Attachment L).

Eight objectives were identified for this Tech Prep grant. They are listed below with a brief assessment of progress toward each.

A. Relevant and comprehensive set of industry performance standards identified.

Progress. ACCOMPLISHED. Through the CPI-FS I-Team, 138 performance standards were identified in six skill categories. These have been validated by a representative cross-section of the financial services industry through the use of focus groups in three sectors not strongly represented on the I-Team: real estate, insurance, and securities/commodities/brokerage.

B. Comprehensive set of measurable student competency outcomes for program are established.

<u>Progress.</u> ACCOMPLISHED. Thirty learning objectives were developed by the Competency Development Committee of the I-Team and approved by the full I-Team. These specify standards of performance and evaluation methods.

C. Students learn industry-identified performance standards.

<u>Progress.</u> ACCOMPLISHED. The learning objectives described above correlate to the industry-identified performance standards. A team of academic and vocational instructors at the secondary and post-secondary levels are currently reviewing existing curriculum materials to ensure that these objectives are effectively addressed in the Tech Prep curriculum.

D. Classroom teaching is reinforced and complemented by experiential learning.

<u>Progress.</u> ACCOMPLISHED. The 34 students who completed the first year of their academic and vocational preparation and remain in the program have all been placed in summer internships. Students will work for a minimum of six weeks and at least 20 hours per week. Employers include:

Aon Corporation
Central City Productions
Chicago Tokyo Bank
Chicago Tribune
CitiBank
City of Chicago
Ernst & Young
First National Bank of Chicago
Gardner Rich & Co.
Harris Bank

Illinois Bell
Kemper Securities, Inc.
LaSalle Bank Lakeview
Leo Burnett
Midwest Stock Exchange
The Northern Trust Company
Northwestern Railroad
Prudential Realty Group
Shearson Lehman Brothers, Inc.
South Shore Bank

These work experiences will enable students to apply on-the-job the skills and knowledge they acquired in the classroom. In addition, monthly breakfasts with various financial services representatives have allowed students to meet and discuss career options and workplace requirements directly with employers.

E. Students actively use academic skills in the vocational setting.

Progress. NEARLY COMPLETED. The main thrust of the curriculum development activity currently under way is to integrate basic academic skills into vocational curriculum. This work will implement the mandate of the Career Preparation Initiative I-Team to build a solid academic foundation into the Tech Prep Program.

All curriculum integration recommendations will be formulated by the end of the summer for implementation during the '92-'9? academic year.

F. Instructors are able to effectively teach the Tech Prep curriculum.

Progress. PARTIALLY ACCOMPLISHED. All teachers involved with the Tech Prep Program at Jones High school have participated in planning meetings and received satisfactory evaluations from the Principal's Office. Two areas will be emphasized next year: assessing the college Tech Prep component in terms of instructional techniques and assessing in detail teachers' technical assistance needs at both the secondary and post-secondary levels.

G. Student retention and completion of the Tech Prep program is high.

Progress. ACCOMPLISHED. Of the 39 students who initially enrolled in the Tech Prep Program this year, only five dropped out of the program before the end of the first year resulting in a retention rate of 87%. Seven new students were admitted into the program over the course of the school year, resulting in an enrollment of 41 students at the end of the

summer. Of these 41 students, four transferred out at the end of the school year, resulting in a net enrollment of 37 students.

As evident in the following grade point distribution, academic achievement of the Tech Prep students was significant. Only four of the 41 students completing the first year of the Tech Prep program earned a GPA below 2.0 (on a 4.0 scale).

	No. of	% of
G.P.A.	Students	Total
3.5 - 4.0	4	9.8
3.0 - 3.49	12	29.2
2.5 - 2.99	12	29.2
2.0 - 2.49	9	22.0
Below 2.0	4	9.8
Total	41	100.0

H. Effective student and employer recruitment strategies are in place.

Progress. ACCOMPLISHED. As a result of student screening and targeted outreach, more applicants than program slots were generated for this first class. The resulting enrollment was at the desired level. Adequate employer involvement has been forthcoming through the Chicago Academy of Finance Advisory Board, the CPI-FS Implementation Team, and Corporate Chicago Hire the Future, a private sector summer jobs program for Chicago youth.

3. EVALUATION AND IMPACT

Evidence of program effectiveness is provided by:

- a student retention rate of 87%;
- a student academic achievement rate of 91.2% receiving a "C" or better GPA;
- a 100% student placement rate for summer internships;
- significant employer support and involvement through the CAF Advisory Board and the CPI-FS Implementation Team.

4. RESOURCE LISTINGS

- A. Attachment M contains an itemized list of all instructional materials purchased through this grant.
- B. The following individuals were paid by the grant:

Diana Robinson, Director, Chicago Academy of Finance Annie Miller, Teacher Specialist/CAF Coordinator, Jones High School Linda Hannah, Women Employed (mentor program)

- C. Paid Participants: Same as 4.B. above
- D. Unpaid Participants: See Attachments C and E for lists of individuals serving in an advisory capacity to the program.

In addition to CAF Advisory Board members, the following individuals participated in the monthly breakfasts and spoke to the students about careers in financial services.

Lauren Claire, Auditor, Arthur Andersen & Co. Dallas Creitlon, Tax Consultant, Arthur Andersen & Co.

Lawrence Geraghty, Senior Vice President, Shearson Lehman Bros.
Felicia Haraway, Ernst & Young
Karen Jones, Manager of Travel Services, American Express Co.
Marya Kovacik, Corporate Training, The Northern Trust Company
James Lowry, First Scholar, First National Bank of Chicago
Sharon Marioka, Financial Services Representative, American Express Co.
James Mason, First Schola:, First National Bank of Chicago
Eric Nance, Ernst & Young
Michael Richards, Manger, Arthur Andersen & Co.
Levoyd Robinson, Corporate Banking Office, First Chicago
Michael Skinner, Vice President, Shearson Lehman Bros.
Al Thomas, Financial Consultant, Shearson Lehman Bros.
Bruce J. Williams, Staff, Arthur Andersen & Co.

The only significant problem encountered during the grant period was a delay in the start-up of the curriculum development effort. This was due to the work plan of the CPI-FS I-Team, who did not sign off on the learning objectives until April 1992. However, a team of secondary and post-secondary academic and vocational teachers has been assembled for this project and work will be completed by the beginning of the '92-'93 academic year.

6. CONCLUSIONS AND RECOMMENDATIONS

- A Tech Prep program can succeed only if all three partners the community college, high school, and employer community — are actively involved in program planning and implementation.
- An important benefit of an effective Tech Prep planning process is the education and sensitization of the partners to each others' perspective, issues, and capabilities.
- There is significant employer support for a Tech Prep program in financial services provided that employers have validated student competencies, are involved in program development, and have confidence in the educational partners' ability to deliver on their responsibilities.
- Employer commitments should be sought for student work experiences at least six months prior to the start of such experiences to ensure timely placement and start-up.

7. PUBLICITY

The activities of the Jones Tech Prep program were regularly covered in the school newspaper, copies of which are appended as Attachment N.

The Jones Tech Prep program received a Connections 2000 award from the Illinois State Board of Education for innovative curriculum integration development efforts.

The only other publicity consisted of the placement of a recruitment advertisement in the <u>Chicago Sun-Times</u>, the <u>Polish Daily News</u>, the "Stardust" (a digest of National Eastern Star/Masonic/Shriner news and events), and the Burnham Park "1992 Directory." Attachment O presents the advertisement appearing in these publications.

Visitors to the project site not listed elsewhere in this report included the following individuals:

Adrienne Bailey, Deputy Superintendent, Chicago Public Schools Atlanta Academy of Finance, Director and Students Business Advisory Council Members, Jones High School Local School Council Members, Jones High School Phyllis Frankfort, Executive Director, National Academy Foundation Grady Jordan, High School District Superintendent Ted Kimbrough, Superintendent, Chicago Public Schools Shirley Macklin, Interim Manager, Tech Prep, Chicago Public Schools Bernadette Toomey, Vice President, National Academy Foundation Susan Zimny, Program Director, National Academy Foundation

Seighility Requirements

Any Chicago high school student, whether in a private or public school, who has a "B" average and 95% attendance rate is eligible for CAF. To be accepted into the program you must complete the CAF application, interview with the CAF Coordinator at Jones Metropolitan High School, and sign a two-year agreement to follow the CAF program and its requirements. The student's parents must also sign a consent form.

imited Space - Apply Now!

A limited number of students are accepted into the Chicago Academy of Finance.
Applications are accepted year-round and are considered in the order of their receipt.
Students are encouraged to apply early in their sophomore year. To receive an application form, complete the enciosed request form or contact:

A Gran Business Program for Public II & chool Students

The Chicago Academy of Finance (CAF) is a unique sigh school business program designed to help 11th and 12th grade students learn about Chicago's inancial services industry both in the classroom and on-the-job.

CAF introduces students to the array of sectors omprising Chicago's world-class financial community: ccounting, banking, securities and commodities archanges, brokerage, insurance, and real estate.

AAF Prepares Students for College or the Workforce

tudents who successfully complete the CAF program to Jones Metropolitan High School are strongly necouraged to attend college to pursue their business tudies. One option is a two-year Chicago Academy of inance program offered at Harold Washington College or students interested in acquiring an Associate Degree. From there, students may transfer to a senior astitution to obtain their baccalaureate degree.

iraduates of CAF at Jones Metropolitan High School re also qualified for a variety of entry-level ositions throughout the financial services industry.

Inique Features

program of the National Academy Foundation, CAF one of 45 finance academies across the United tates. Several unique features characterize all cademies of Finance:

Specialized classes in finance developed by business experts.

Paid summer internships after the 11th year of high school.

College-level class experience in the senior vear.

 Opportunities to establish personal contacts with professionals in the industry.

Intensive Academic and Vocational Preparation

Students accepted into CAF follow a two-year academic and vocational program. Following are the classes required for each year.

Junior Year

World of Finance/Securities Operations
Typing I

Business English I

Electronic Business Procedures Computer Math Fundamentals/Applications High School Reading Improvement/Oral

Communications and Speach Accounting I and II Foreign Language Physical Education

Senior Year

Banking and Credit/Financial Planning United States History
Business English II
College-Level Business Class
Foreign Language
Physical Education

Special CAF Activities

Students enrolled in the Chicago Academy of Finance also participate in numerous special activities designed to further their understanding of the financial services sector. These include:

- Stock Market Game
- Speakers from the financial services industry
 - Trips to local financial services companies
 - Business skills workshops
- · Exchange trips to other Academy of Finance schools (outside of Chicago)
 - Special graduation ceremony (scnior year)

Local and National Business Resources

An Advisory Board consisting of senior executives in Chicago's financial services industry and local educators keeps the Chicago Academy of Finance up-to-date and relevant to today's workplace.

The National Academy Foundation (NAF) provides additional resources from anational perspective. NAF was established in 1982 to encourage and support partnerships between business and education to strengthen the preparedness of the American workforce. NAF provides professional development opportunities for teachers; a national network among students, teachers and business participants; and copyrighted curriculum material in financial services operations.

The Academy of Finance Works!

Based on a national random survey of graduates from Academies of Finance, the following findings emerged:

• 92% of the program graduates reported that the Academy of Finance helped them to make concrete career decisions.

- 90% said that the program prepared them for employment.
- * 95% of all graduates went on to college.
- 68% of program graduates are working, and half of them in the financial services area.
- * The Academy of Finance has proven an excellent vehicle for young women and minority youth to access nontraditional, well-paying jobs with career potential. These graduates performed as well in post-secondary education and employment outcomes as other youth in the program.

FINANCIAL SERVICES CAREER TRAINEE PROPOSED PERFORMANCE STANDARDS BY PROGRAM YEAR

Following is a proposed list of suggested performance standards to be addressed by the Career Preparation Initiative in Financial Services (CPI-FS) over the four years of education and training comprising that program. The focus of these standards is the knowledge and skills necessary to master any entry level position within the financial services industry. It is expected that students will acquire additional knowledge and skills required by the Illinois Board of Education and Illinois Community College Board in the course of their educational programs.

Standards reflected in this inventory are taken from five sources:

- existing curriculum material from the Chicago Public Schools, the City Colleges of Chicago, and the National Academy Foundation;
- basic skills identified by employer representatives on the CPI-FS Implementation Team;
- a DACUM ("Developing a Curriculum") process conducted for CPI-FS;
- skills identified by the national Secretary's Commission on Achieving Necessary Skills (SCANS); and
- a series of focus groups held with representatives of the insurance, real estate and securities/commodities/brokerage sectors in December 1991.

These performance standards have been validated by a cross-section of Chicago's financial services industry and reflect three key dimensions:

- 1. The level of attainment: partial knowledge ("PK") or mastery ("M").
- 2. The point at which the standard should be attained (years 11-12 or 13-14, the latter two years occurring in the community college system).
- 3. Whether some amount of learning should occur in the workplace and during which years of the program. This is indicated by a "Yes" in the column under "Workplace".

LEARNING OBJECTIVES, STANDARDS AND EVALUATION METHODS CAREER PREPARATION INITIATIVE IN FINANCIAL SERVICES

BASIC ACADEMIC SKILLS

- 1. Reading. The student locates, understands, and interprets written information in prose and documents by identifying explicitly stated facts, drawing accurate inferences, and formulating appropriate generalizations necessary to perform college-level work.
- Writing. The student writes thoughts, ideas, information, and messages by using correct grammar, spelling, capitalization, and punctuation and structuring sentences and paragraphs appropriately, organizing main and subordinate ideas, and recognizing basic writing conventions as measured by a grade of "B" or better in college English 101 (Composition I) or a "C" or better in college English 105 (Business Writing).
- 3. Speaking. The student communicates thoughts, ideas, information, and messages orally by speaking fluent standard English with individuals or groups and using appropriate behaviors such as eye contact, posture, and gestures as measured by a minimum grade of "B" in college Speech 101 (Fundamentals of Speech Communication) or a "C" or better in college Speech 160 (Business and Professional Speech).
- 4. Math. The student demonstrates computational skills and knowledge of basic mathematical functions (adding, subtracting, multiplying, and dividing whole numbers, decimals and fractions; computing percents; and interpreting charts and graphs) by choosing appropriately from a variety of mathematical techniques to solve practical problems as measured by a "C" grade or better in a college-level intermediate algebra class or a higher level math class.

THINKING SKILLS

- 5. <u>Problem-Solving.</u> The student recognizes problems and devises and implements plans of action by writing short papers, answering essay questions, and analyzing case studies in group discussions, role playing, and simulations in the classroom and through monthly evaluations by workplace supervisors.
- 6. <u>Decision-Making</u>. The student makes decisions by defining goals and obstacles, generating and evaluating alternatives, and choosing the best plan of action by writing short papers, answering essay questions, and analyzing case studies in group discussions, role playing, and simulations in the classroom and through monthly evaluations by workplace supervisors.
- 7. <u>Learning</u>. The student evaluates efficient learning techniques and uses them to acquire and apply new knowledge and skills by successfully completing a series of workshops on learning styles.

GENERAL VOCATIONAL SKILLS

8. <u>Information Processing</u>. The student demonstrates understanding of information processing by correctly identifying a variety of methods and formats for organizing information/data, efficiently organizing data for entry, accurately entering and storing documents and files, correctly printing and distributing information, and checking documents for spelling, grammar, and accuracy as measured by a "C" grade or better in required course(s) and the satisfaction of the workplace supervisor.

- 9. <u>Basic Computer Operations</u>. The student demonstrates understanding and application of basic microcomputer concepts and operations by entering, editing, and storing data in appropriate formats as measured by a "C" grade or better in the required course(s).
- 10. <u>Spreadsheet Software</u>. The student applies basic concepts and knowledge of spreadsheet software by modifying existing spreadsheets, creating formulas and new spreadsheets, and printing the spreadsheet with two or fewer minor errors according to specified formats and parameters provided by the instructor or workplace supervisor.
- 11. <u>Database Software</u>. The student applies basic concepts and knowledge of database management software by modifying existing databases, creating new ones, and printing reports with two or fewer minor errors according to specified formats and parameters provided by the instructor or workplace supervisor.
- 12. <u>Keyboarding</u>. The student has keyboarded at 40 words per minute with a maximum of three errors on a three-minute timed writing.
- 13. <u>Processes Mail</u>. The student sorts, prioritizes and routes a variety of incoming and outgoing mail and describes the various procedures for sending outgoing mail (e.g. UPS, Federal Express, messenger service) to the satisfaction of the workplace supervisor.
- 14. <u>Business Etiquette</u>. The student displays a cooperative, helpful attitude by greeting visitors/clients, making introductions, escorting them appropriately, and offering assistance resulting in visitor/client satisfaction on an ongoing basis to the satisfaction of the workplace supervisor.
- 15. <u>Telecommunications</u>. The student performs telecommunications activities by demonstrating basic knowledge of telephone functions, exhibiting proper telephone etiquette and procedures, taking and leaving clear and coherent voice mail messages, and correctly preparing documents to be faxed on an ongoing basis to the satisfaction of the workplace supervisor.
- 16. Office Equipment. The student displays familiarity with basic office equipment by identifying, using, and performing simple maintenance on a 10-key calculator, photocopying machine, microcomputer printer, typewriter, fax machine, and multi-line telephone to the satisfaction of the workplace supervisor.
- 17. <u>Filing</u>. The student demonstrates filing skills by establishing an alphabetic, geographic, subject, and numeric filing system and retrieving materials from these systems as measured by a passing grade in a filing test in an office procedures class.
- 18. Written Business Communication. The student creates mailable business documents by generating business letters, memoranda, research themes, formal business reports, meeting minutes, simple procedural documents, job descriptions and performance evaluations in clear and grammatically correct writing which effectively uses business vocabulary and proper formats to the satisfaction of the workplace supervisor.
- 19. Oral Business Communication. The student delivers effective oral business communication by making recommendations to supervisors and co-workers, giving directions clearly and concisely in routine and pressure situations, responding appropriately to nonverbal or implied communication, speaking tactfully, and not using slang as evaluated by the workplace supervisor.
- 20. <u>Trains Employees</u>. The student effectively orients his/her peers to their job duties as measured by a satisfactory evaluation by the workplace supervisor.

21. <u>Customer Relations</u>. The student demonstrates effective customer relations skills by establishing a positive rapport with customers, offering options/alternatives to meet a customer's needs, referring customers to appropriate departments, and resolving misunderstandings and conflicts or referring the problem on as measured by customer and workplace supervisor satisfaction on an ongoing basis.

INDUSTRY-SPECIFIC KNOWLEDGE AND SKILLS

- 22. General Business Concepts. The student demonstrates proficiency in basic concepts of general business organization; economics; marketing, sales and distribution; management; personal investment fundamentals; and business law by achieving a minimum cumulative 2.5 grade point average in academic courses covering these areas.
- 23. <u>Financial Services Concepts</u>. The student demonstrates understanding of the financial services industry by describing the basic function and operations of the finance, insurance, real estate, brokerage, and accounting sectors and identifying career opportunities in each sector as measured by a "C" grade or better in an Introduction to Business class.
- 24. Accounting/Bookkeeping. The student understands basic accounting principles by recording entries in journals and ledgers according to generally accepted accounting principles as measured by a "C" grade or better in an accounting fundamentals class.
- 25. <u>Vocational Area</u>. The student demonstrates understanding of technical terminology, basic operations, and if appropriate, relevant information sources for research purposes for a specific vocational area as measured by the satisfaction of the teacher and workplace supervisor on his/her summary report on each workplace experience.

EMPLOYABILITY SKILLS

- 26. <u>Consumer Economics</u>. The student incorporates the principles of sound consumer economics by developing a workable personal budget which reflects a realistic salary as measured by a passing grade on his or her budget project.
- 27. <u>Job-Seeking</u>. The student demonstrates effective job-seeking skills by identifying employment opportunities, applying employment-seeking skills, and interpreting employment capabilities as evaluated by interviewer(s) for work placements.
- 28. On-the-Job. The student exhibits sound on-the-job practices by demonstrating appropriate work behavior, attendance, and punctuality; accurately completing forms; understanding personal corporate benefits; maintaining a safe and healthy environment; maintaining a businesslike image; and demonstrating flexibility as measured by a satisfactory evaluation by the student's workplace supervisor.

PERSONAL QUALITIES

29. The student displays desirable attitudes including responsibility, self esteem, sociability, self management, integrity, honesty, enthusiasm, and a willingness to learn by satisfactorily completing the prescribed coursework and work-based learning experiences required through the Career Preparation Initiative with a minimum cumulative grade point average of 2.5 and adhering to the program's social and academic policies.

32

CAREER PREP EDUCATIONAL PHILOSOPHY

The Career Preparation Initiative in Financial Services is designed to provide students with both career competencies in the financial services industry and a foundation of basic academic skills, emphasizing thinking skills, decision-making skills, and communication skills. Through this joint venture between business and our schools, personal qualities leading to professional success are developed and the student is prepared for employment, a professional career, and continuing education.

This education is effectively developed and delivered only through a genuine partnership at all levels between the educational and employer communities. Both demonstrate their commitment to this educational approach by identifying and delivering essential responsibilities and resources.

Within the educational community, the secondary and post-secondary partners are committed to delivering a quality educational program. The curriculum is articulated so that students are provided with a "seamless" or continuous education. Technical and academic curricula are integrated throughout, with a focus on thinking skills to empower students to actively construct knowledge for themselves. Cooperative problem-solving is also essential, and students learn the importance and benefits of teamwork and interpersonal skills.

A representative cross-section of the financial services community identifies and endorses career competencies which support and complement the educational partnership. These competencies are measurable, and student achievement toward them is assessed at regular intervals. Periodic internships in financial services companies allow students to learn skills in the context of real problems. Internships are sequenced so as to build upon the preceding work experience and are integrated into the total curriculum.

Teachers and workplace supervisors are equipped with the knowledge and skills needed to make this program successful. To this end, they work with the employer and educational communities in identifying and securing the resources they require to develop and provide a quality educational program.

CAREER PREPARATION INITIATIVE - FINANCIAL SERVICES PROPOSED ACADEMIC AND SOCIAL POLICY

To encourage the development of desirable attitudes and job behaviors on the part of students in the Career Preparation Initiative in Financial Services (CPI-FS) such as responsibility, self-esteem, sociability, self management, integrity, honesty, and a willingness to learn, the following academic and social guidelines are recommended.

To remain a student in good standing:

- 1) 95% of all assignments are completed;
- 2) 90% of all classes are attended;
- 3) dress and grooming codes are followed; and
- 4) a cumulative grade point average of 2.5 in CPI-FS classes is maintained after the first semester in high school and college.

Students are withdrawn for violations of disciplinary policy of participating educational institutions, including but not limited to cheating, theft, fighting, or excessive tardiness or absenteeism. Students' academic performance will be reviewed periodically and academic probation will occur if improvement is not made within the specified timeframe.

Ali students are to review this policy with a program administrator or faculty member and sign a form indicating their understanding and agreement to abide by its terms.

CPI-FS CURRICULUM COMMITTEE Scope of Work and Assignments

- 1. Review existing programs of study and course outlines for the Chicago Academy of Finance at the high school and community college levels to determine:
 - a. where learning objectives are addressed (by class and within course outline)
 - b. identify which, if any, objectives are not addressed
 - c. recommend new classes to address these objectives
 - d. recommend substitution of classes which do not address objectives
 - e. recommend changes to course outlines
 - f. recommend timing and programming for three work-based learning experiences
 - C. Brown, D. Brownstein, C. Franz, R. Johnson, M. McPherson
- Develop a work-based learning component which identifies specific, measurable objectives to be addressed by students' supervisors and assessment instruments for each of the three work experiences. Also recommend appropriate training, training resources, timetable and materials for supervisors.
 - J. Lombard
- 3. Recommend teacher training/development activities, methods, resources and timetable at the high school and college levels.

Entire Committee

4. Write an academic philosophy describing our targeted student.

Entire Committee

5. Develop a student portfolio assignment that will span the entire four year program and reflect individual growth and mastery of many of the CPI-FS competencies. A work journal should be incorporated into this and at least one face-to-face student evaluation should be included.

Entire Committee

6. Identify external resources and internal/external support needed to achieve curriculum-related products described above.

Effective Management Technologies

Initiation Of The Academy Of Finance

by Anabel Andrango

As all of us waited anxiously for the commencement of the program. I was able to talk to a parent and ask her reaction to this ceremony for the students who are part of Academy of Finance.

She was very proud of her daughter and she was so excited as she had never experienced such an occasion.

Finally, Mrs. Buckney came up to the podium and requested everyone's attention to the beginning of the program. First she expressed her emotions about the Academy of Finance. "We have worked diligently with the Business Council for over six months to be able to have this moment."

Donald E. Brown, Chair of the Chicago Academy of Fina ce Advisory Board was next on the podium. His expressions of endearment were something like this: "I feel like a proud father today! For six months I have been waiting for this baby." The surprise was that each and every single student of the Academy of Finance would qualify for a scholarship which would in turn enable them to go to any coilege they would like to attend. The requirements were: 1) The student must be eager enough to want to go to college. 2) A student must be enrolled in the Academy of Finance curriculum. 3) Also the students who are satisfactorialy in the curriculum will also have a paid summer internship which will be in the business community, 4) The student, in order to receive a scholarship. must have a B plus average, and have a 95 percent attendance rate to qualify.

After the presentation by Mr. Brown, Mrs. Buckey and Ms. Ann Miller introduced the charter class of the Arademy of Finance.

The students were: William Alexander, Norma Aranda, Lakeisha Beans, Asantewaa Beasles, Lakeisa Boyd, Nicole Clark, Willie Curry, Peliar Durden, Giovanna Espinoza,

Cherrie Little, Jacquelyne Little, Venita Lockett, Famara Mckenzie, Latre Morrow, Shaneen Newton, Timothy Parker, Tekenya Peek, Ivy Porter, Hubert Ptak, Deborah Rainey, Shelley Riggs, Esmeralda Roque, Helen Rucker, Beatriz Sanchez, Irma Sanchez, Patricia San Martin, Howard Sanchez, Patricia San Martin, Howard Sochabow, Cheryl Scott, Tasha Underwood, Jaime Villanueva, Tamara Wright.

Next up was one of the most influential ladies. Diana Robinson, the Chair for City Colleges of Chicago. She emphasized the fact that Jones Metropolitan High School is the only high school to have such a curriculum and the only one to have an internship program in the business community. The only one in the city of Cheago! What an honor.

Following Diana was the Superintendent of Chicago Public Schools, Ted Kimbrough. He has been in public education for over 36 years and he was also a principal of a school but he mentioned he had never seen such motivation in a class. One thing he made clear was that 95% of the class was a minority. But this was a good sign to the business community, for it shows the minority groups are recognizing the value of an education and especially in the business environment. One of the speakers said she felt as if she had given birth to the greatest thing ever, 'I've just gone through an immaculate conception!" But in general each speaker was proud to say that this was the future generation of the work force. And they're pretty happy it's people with such a background, not only educational terrain but also a wide variety of backgrounds such as ethnic. cultural and basically moral. At the Jones Reporter we hope that these students realize that they have a chance in a lifetime and that they shouldn't waste it. We wish you the best and hope you come out on top just like all Jonesites do when they are doing their

Academy of Finance Breakfast Meeting

THE ACADEMY OF FINANCE SALUTES ARTHUR ANDERSEN

by Liliana Cortez

On Tuesday, October 22, 1991, the Academy of Finance saluted Arthur Andersen & Co. during a breakfast meeting here at Jones Metro.

Although I was a few minutes late for the meeting, I was there on time to listen to the first speaker, Michael J. Richards, with whom I had the pleasure to speak. He spoke of the company's distribution of 300 offices in 36 countries, and its primary business that is accounting. Mr. Richard is the manager and he has many duties besides being manager, such as helping other companies with bookkeeping; providing services to help customers with accounting; and working in the consulting division helping computerized companies to run their systems.

Next up to the podium was Dallas Creitlon, who is a tax consultant for Arthur Andersen & Co.. He works in the consulting division designing computer systems for different companies that will aid them with their personal accounts, and is currently working on a system of personal computers for managers.

Introduced next was Lauren Claire, who works in the Audit Section. She has worked for Arthur Andersen & Co. for two years. In the Audit Section some of their duties are to prove what their clients own and possess is legal and true, and they issue control letters.

Up next was Bruce Williams, who is responsible for staff and works in the tax division. He mestly works helping to set up divisions that strictly work with wealthy families to prepare their tax returns. Their commercial division is a multinational corporation.

After all the guest speakers stepped up to the podium, Ms. Miller made an introduction of the Chicago Academy of Finance Charter Class of 1991, and introduced the Academy staff teachers: Ms. Magie Culver, Accounting; Mr. Joseph Zale, Economies; Ms. Merle Tillery, French; and of course Ms. Miller herself as the Academy of Finance Coordinator.

Afterwards there was a special thanks given to Mr. David Rosen from the Chicago Board of Education and the students had the opportunity to ask questions to the special guest speakers.

Finally, there was a special recognition of the Academy of Finance class officers, who are:

PRESIDENT: Adrienne Farmby. VICE-PRESIDENT: Latrese Hardnick SECRETARY: Cectter Carpenter ASSISTANT SECRETARY: Nora Vera TREASURER: Cheryl Ann Scott

The Academy of Finance students will have the opportunity to participate in a summer internship and each student is guaranteed a \$2,000 scholarship, based upon 95% attendance rate and 3.56 GPA.

All in all, this was a great opportunity for the Academy of Finance students to learn of the great and magnificent job world that awaits them. So, guys and girls, keep up the good work and show you're the best!

Lauren Claire of the Arthur Andersen Co. pictured at the breakfast meeting.

Michael Richards, Manager for Arthur Andersen & Co. and student Salvador Guerrero.

Northern Trust Bank Meets With The Academy Of Finance

by Tamara Wright

The Academy of Finance kicked off another successful breakfast for the month, which took place Wednesday, December 18, 1991. This is the third breakfast that the Academy of Finance has had and this time it was with The Northern Trust Company.

Many encouraging words were said by some important people. Those important people were William Setterstrom, Senior Vice President of Corporate Training; and Marya Kovacik, who designs and teaches courses for choice options. All were welcomed and greeted by the Academy of Finance students, staff and Cozette Buckney, our principal. The Academy of Finance was recognized for some outstanding accimplishments and for the enthusiasm that was shown to our guests. The Academy of Finance is making so many moves right now. This is the Charter Class of Academy of Finance and everyone is rooking over each others backs to help. There's a lot of hard work and the taking of a lot of challenges but by having these breakfasts and meeting these important people, their encouragment helps us and our fellow classmates, and also our teachers, to go turther with the Academy of Finance,

son, she said that "the success of Jones will determine if the AOI program is pands into other high schools." She also gave the three major reasons of why Jones was chosen for the program: (i) for being a unique school and the only high school in the country that's a two-car business high school, (2) Jones is Business; and (3) Jones has serious business lies with the business community, giving many job oppor-

tunities for the students.

Donald E Brown, said of the students that "just being in the program inspires them to deducate themselves."

achievement.

The event began with an indreduction of our principal, Mrs. Buskas, oxide AOF Junior Class President. Agricine Farmby, Mrs. Buskasy gave a welcoming address to the students, staff. and special guest speakers—Donald E. Brown, Chairman of the Chicago Adalems of

FEBRUARY 1992

"Academy Of Finance Salutes First Chicago National Bank"

by Liliana Cortez

On Wednesday, January 29, 1992, the Academy of Finance had the honor to have four guest speakers from the First Chicago National Bank, located in downtown Chicago.

The breakfast meeting began with an introduction by AOF Junior Class Secretary, Ceetter Carpenter, who then made for the welcome address by Mrs. Buckney. The first guest to step up to the podium was Steven Capouch, Vice-President of First Chicago. He has been with the corporation for 13 years, and also on the Chicago Academy of Finance Board for 3 years. He stated that the bank has various locations in the country and this past year it had \$49 billion in assets. First Chicago is a large corporate business involved in regular transactions. Next was James Lowry, and after him James Mason, both first Scholars at First Chicago. Both talked about their experiences during the summer internship at First Chicago, and who are now currently employed at the bank. James Lowry attended Princeton University and James Mason attended Washington State University. Last to the pbdium was Levoyd Robinson, Corporate Banking Officer, Mr. Robinson has been with the corporation for three years, and his primry job is to call people who have not paid their loans. He received his M.B.A. from Northwestern University.

In an interview with Steven Capouch and Levoyd Robinson, I learned Mr. Capouch is in charge of the training program, and both stated that it really doesn't matter if you attend a city college. They help companies with their debts and/or figure solutions. Currently there are 17,000 people employed in the corporation, and every year they employ 500-600 people. They are always looking for smart people, butall four strongly emphasized that the main skills to succeed in the working world are to have good communication, writing, and analytical skills, but most importantly good communication skills, since that is what has put First Chicago ahead.

The February breakfast meeting will honor students on academic achievement and perfect attendance. The purpose of these meetings with high corporate executives give students the opportunity to excell and strive for more; a special recognition to the teachers involved in the academy program.

Academy Breakfasts With Shearson Lehman And Atlanta AOF

by Tamara Wright

The Academy of Tinance has been having a tremendous number of successful breakfasts, and now Shearson Lehntan Brothers can be included with the other successes.

Shearson Lehman Brothers attended a breakfast with the Jones AOF on March 27th, in the auditorium foyer, Excellent speakers represented the financial services corporation: Gloria McMahon, Semor Vice-President; Lawrence Geraghty Jr., Senior Vice-President; Michael Skinner, Vice-President; and Al Thomas, Financial Consultant, who left us with this thought, "Going and getting the education is worth it. Stick to your educational goal." Some of the speakers told the AOF how they came to-join Shearson Lehman, as well as about Shearson Lehman's predecessors and the company's history.

Not only was Shearson Lehman Brothers represented at the March breakfast, but the Atlanta Academy of Finance joined us at the same time. The Atlanta group, which had flown in on the 25th, enjoyed Shearson Lehman's presentation as much as the Jonesites did, and continued their trip to Chicago with a sight-seeing tour of the downtown area; they rounded out their day with attendance at the AOF Dance which was held the evening of the 27th in the Jones gymnasium.

The Atlanta AOF had a wonderful time, and told us that they loved Chicago. Thanks to the Advisory Board; Diana Robinson, Director of AOF; Dr. Buckney, and Ms. A. Miller, Coordinator of our AOF, for making all this possible.

A special apology to America Express for their inadvertent onission from last months's issue of the REPORTER. We appreciated American Express' taking the time to speak to the young Jonesites who are always eager to know about the workforce and what it takes to survive.

Academy of Finance Dance

by Duane Porter

The Academy of Finance dance, "You're Breaking My Heart", was held in the Jones gymnasium on Friday, March 27th, and it was a great steeess, due to the hard work of the Academy students and their sponsors, Mrs. Culver and Mrs. Miller.

The dance's success was further insured by the DJ, the one and only Emanuel Pippen, who started the party numping with his musical selections.

Joining the Jones AOF students were members of the Atlanta AOF, tho had joined Jones at the AOF, that with Shearson Leburan Brothers earlier in the day.

The dance was also the setting for the announcement of the choices for Mr. and Ms. Academy of Finance, 1992's Mr. and Ms. Academy of Finance were William Alexander and Lattese Hardnik, Fimothy Parker and Famara Wright were the runners-up.

SONES METROPOLITAN HIGH SCHOOL OF BUSINESS & COMMERCE

JUNE 1992

The Jones Academy of Finance hosted a breakfast for Ernst and Young on April 22, 1992, in the auditorium foyer. Participating (Left to right) were: Ms. M. Culver, accounting teacher; Ms. A. Miller, Jones' AOF coordinator; Gina Griffin, AOF student; Erik Nance, Jr., and Felicia Haraway, Junior Account Executives, Ernst and Young; Diana Robinson, Program Board; and Salvador Guerrero, AOF student.

ACADEMY TO ADMIT FRESHMEN

by LaTrese Hardnick

Jones is going to have another first, this time in September of 1992. This September, we are going to have 28 minth-graders, who will be the Pre-Academy of Finance Students.

Students were selected for the program based on their interest in Pre-Academy programs, academic performance, a 95% attendance rate, and above-average stanine levels on the lowa Test of Basic Skills.

In addition to the required high school classes, the Pre-Academy students will take key boarding and accounting to help prepare them for the intensive two-year Academy program. Students will also be exposed to the unique business environment here at Jones.

This two-year Pre-Academy program will insure that students interested in business are prepared to enter and be successful in the Chicago Academy of Finance.

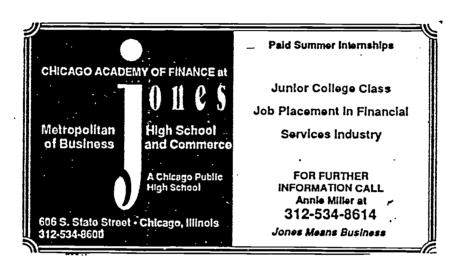

Academy Program Wins Award

On June 11, Jones principal Dr. Buckney accepted the "Connections 2000 Ideas Program" award, presented to educators who have exhibited innovative techniques for integrating curriculum across disciplines, including the integration of avademic and technical content.

The award was presented in Springfield at the Connections 92 Conference for Jones' new Academy of Finance program.

Jones was the only Chicago Public School to receive this award
