ABSTRACT

This report provides statistical data showing enrollment trends for the State University of New York (SUNY) from 1948 to 1992 in two areas: credit course enrollment (headcount); and degrees granted. The section on credit course enrollment provides headcount enrollment data for the individual institutions and institutional types of the State University as well as system-wide data. Enrollment data in this section is for the fall term of each year and is arrayed by student load (full-time/part-time) and student level (undergraduate/graduate). The section on degrees granted provides data for the State University as a whole, as well as for individual institutions and institutional types and covers all degrees awarded over a 12-month period. Data in this section is provided separately for each degree type: associate; bachelor's; master's; doctoral; and first-professional degrees. An appendix contains a map of the state showing the university system, a chronology of dates of the establishment of its institutions, and a SUNY publications list. (GLR)

## INTRODUCTION

This report is a reissue of our Trends in Enrollment and Degrees Granted. The current report covers the period from 1948 to 1992.

The report is divided into two major sections: Credit Course Enrollment (Headcount), and Degrees Granted.

The Credit Course Enrollment section provides headcount enrollment data for the individual institutions and institutional types of the State University as well as system-wide data. The enrollment data in this section is for the fall term of each year and is arrayed by student load (full-time/part-time) and student level (undergraduate/graduate).

Degrees granted data is also provided for the State University system as a whole, as well as for individual institutions and institutional types. Unlike the enrollment data, which is point-in-time data, the degrees granted information covers all degrees awarded over a twelve-month period. The twelve-month census period for degrees granted is from the first of July of a given year through June thirtieth of the following year. Data in this section is provided separately for each degree type; viz., Associate, Bachelor's, Master's, Doctoral and First-professional Degrees. It should be remembered that the information presented here is a count of degrees conferred and does not include other formal awards such as undergraduate certificates and diplomas, and graduate certificates.

In interpreting enrollment and degrees granted data over a period of time, one of the major considerations to be taken into account is changes in the numbers of institutions which comprise the State University of New York. For example, in examining the enrollment history of the University, it is important to know that as of July 1, 1975, the Community Colleges sponsored by the New York City Board of Higher Education ceased to be under the program of the State University of New York and became solely a part of the City University of New York. Because this change involves a substantial number of students, two special tables (93/902 and 93/903) have been added to this report. Table 93/902 provides system-wide enrollment data but with the enrollment component from Community Colleges sponsored by the New York City Board of Higher Education systematically removed; Table 93/903 provides the analogous information for degrees granted. In order to provide comprehensive information regarding the institutional history of the State University of New York in a convenient format, this report contains, in the Appendix, a chronology of dates of establishment for institutions of the State University.

This report should serve as a convenient reference for basic data regarding the enrollment and degrees granted history of the State University. As is always the case, the significance of data depends on the needs and priorities of the user of the data. The report has been designed to provide maximum flexibility, and hence, utility, to a wide spectrum of users. We welcome suggestions for the improvement of this report.

We would like to thank those individuals on the campuses who are responsible for providing this office with timely and accurate data. The collection of this data required their extensive cooperation and continued effort. Our gratitude is also extended to the statistical staff of Mr. Spoor and Mr. Toomey who were responsible for editing and verifying the data; and the typing staff of Mrs. Fleming and Mrs. Mazzone who prepared the final transcript for publication and distribution.

Tommy Annas  
Assistant Vice Chancellor

Gary Blose  
Associate for  
Institutional Research

## FOOTNOTES

<sup>a</sup>Original constituent institutions of the State University of New York at its establishment in 1948.

<sup>b</sup>Date of establishment as a state college or institution.

<sup>c</sup>Date of incorporation into State University of New York.

<sup>d</sup>As of July 1, 1975, New York City Community College and the other community colleges (not shown here) sponsored by the New York City Board of Higher Education were no longer a part of the State University of New York.

NOTE: Dates preceding date indicated for establishment as a state college or institution refer to institutional antecedents of the present college or university. These may have been private institutions or controlled by a governmental entity other than the state. Intermediate institutional developments such as other college affiliation or date of first baccalaureate program offering have been omitted for the sake of brevity.

\*The Health Sciences Centers at Buffalo and Stony Brook are shown separately here from their respective core campuses.
