## AIDS Prevention for Nursing Professionals

Guidance Associates  
Communications Park  
Box 3000  
Mount Kisco  
New York, N.Y. 10549  
800/431-2266

Audience: Nurses  
Language: English  
Price: \$166  
Shipping: \$5  
Year: 1988  
Time: 30 Minutes

This film briefly examines the historical background of the human immunodeficiency virus (HIV), the virus that causes AIDS, including its origin and routes of transmission. It compares the occupational transmission of HIV in health care settings to the transmission of Hepatitis B and discusses the extent of on-the-job transmission of HIV to nursing professionals. Basic procedures nursing professionals can use to minimize their on-the-job risk of exposure to HIV are outlined and ways to deal with the added emotional stress of caring for these patients are presented.

Price: \$250  
Year: 1988  
Time: 22 Minutes

*AIDS-Wise, No Lies* introduces 10 young people (not actors) whose lives are affected by AIDS. Speaking in their own words, they share thoughts, feelings, and experiences. This video is not a presentation of facts and statistics: it confronts the realities of AIDS, and its purpose is to affect the decisions young people are facing.

## AIDS/HIV and Seroconversion: What You Should Know

Guidance Associates  
P.O. Box 3000  
Mount Kisco, N.Y. 10549  
800/431-2266

Audience: Nurses  
Language: English  
Price: \$199  
Year: 1988  
Time: 30 Minutes

This video examines the historical background of the spread of human immunodeficiency virus (HIV), the virus that causes AIDS, including its spectrum of infection in the general population. It discusses basic virology and the process by which the HIV retrovirus attacks a host cell. The clinical stages of HIV infection and the gradual attack on a patient's immune system are outlined. It explores the transmissibility of AIDS; its perceived threat to health care workers who come in contact with infected patients, their blood and other body fluids; and explains "universal precautions".

800/234-7878

Audience: Grade 4-9  
Language: English  
Price: \$250  
Year: 1987  
Time: 15 Minutes

This film presents schools a choice of messages based on values. The first part of the film presents basic HIV/AIDS information and states that abstaining from risky behavior is the only certain way to avoid infection. After a long pause, during which the film may be turned off, it explains how condoms offer partial protection from HIV.

## **AIDS: What Everyone Needs to Know\***

Churchill Films  
12210 Nebraska Avenue  
Los Angeles, CA 90025  
800/334-7830

Audience: Junior High-Adults  
Language: English  
Year: 1987  
Time: 19 Minutes

This film presents information on the history of AIDS in the U.S., the spread of AIDS into the general population, high-risk behaviors, and how to avoid infection. Animation is used to describe how the immune system works and how the AIDS virus destroys the body's ability to fight off other diseases. Transmission routes of HIV are discussed. People with AIDS talk about their experiences with the disease.

*\* 1990 revised edition available for \$275 plus \$4 shipping and handling*

## **All of Us and AIDS**

ETR Associates  
P.O. Box 1830

800/321-4407

Audience: Preschool-Secondary  
Language: English  
Price: \$275  
Shipping: \$2  
Year: 1985  
Time: 12 Minutes

This film helps young children learn to identify body parts and leads to honest, accurate adult/child discussion of sexual anatomy. A basic vocabulary is introduced to enhance topics of human sexuality, reproduction, sexual anatomy, and sexual abuse awareness. The video also helps children integrate healthy acceptance of the genitals into a normal, confident acceptance of the total body.

## Black People Get AIDS Too

Multicultural Training Resource Center  
1540 Market Street  
Suite 320  
San Francisco, CA 94102

Audience: Junior High-Adults  
Language: English  
Price: \$199  
Shipping: \$7  
Year: 1988  
Time: 20 Minutes

This video confronts the growing threat of AIDS to the black community and explains how to avoid getting and transmitting HIV. Health professionals, religious leaders, and AIDS patients themselves contribute information. Animation is used to show how the body's immune system works and how HIV invades and destroys it. Prevention and education are stressed as the only ways available to fight AIDS.

## The Body Fights Disease

Churchill Films  
12210 Nebraska Avenue  
Los Angeles, CA 90025  
800/334-7830

Audience: Junior High  
Language: English  
Price: \$230  
Shipping: \$4  
Year: 1988  
Time: 13 Minutes

Animation illustrates how the immune system battles bacteria and viruses and how the AIDS virus can destroy killer cells and fatally weaken the immune system.

## A Challenge To Us All\*

Pediatric AIDS Foundation  
1311 Colorado Avenue  
Santa Monica, CA 90404  
310/395-9051

Audience: Parents  
Language: English  
Year: 1992  
Time: Approximately 20 Minutes per video

*A Challenge To Us All* consists of a guide and two videotapes, *A Parent Meeting* and *Educating Our Children*, designed to assist any adult to set up a parents meeting about HIV/AIDS and to answer children's questions about the virus and disease. The package provides accurate information about HIV/AIDS; allows parents to voice their concerns and fears in a supportive environment; gives examples of appropriate responses to children's questions about HIV; and replaces fears about HIV/AIDS with knowledge and compassion.

\* Not for purchase. For more information, contact either the Pediatric AIDS Foundation, or the Colorado PTA (303/422-2213).

The video offers young people an opportunity to view the impact of the spread of HIV. The main characters are Tim, a high school athlete, and Robin, his girlfriend. The relationship becomes threatened when Tim discovers that his ex-girlfriend, Sherrie, is dying from AIDS. The video deals with Tim's reactions, which range from feelings of anger and denial, to ultimately taking responsibility for his actions. In contrast, Robin's feelings include fear, confusion, and concern. Eventually, both teens seek advice. Ultimately, they both learn that there are no easy solutions to the problems associated with AIDS.

A teacher interacts with a small group of children while teaching about disease prevention. The children, including a child in a wheelchair and a six-year-old who, as a premature infant, contracted HIV through a blood transfusion, learn about germs and the difference between the "AIDS germ" and a "cold germ". Through song, dance, rap tunes, and visual effects, the children discover that AIDS is hard to get—that it's safe to play, share toys, and attend class with someone who has AIDS. The importance of keeping clean and the ways in which doctors, nurses, teachers, parents, and other caring adults help children are stressed.
