TEACHER TIPS ◆ **SESSION 2**

This session is to familiarize students with abbreviations, symbols and acronyms that they see around them.

Most of the handouts can be done in groups.

- **Abbreviations** – handout
To introduce the concept of teamwork, a good idea with this handout is to have students work individually for five minutes answering those that they know. Then have them team up with a partner to expand their answers. Follow incrementally until the whole class is working as a team, and has all the answers.
- **Abbreviations** – handout
A good follow-up to this sheet is to bring in a newspaper and have students decipher their own advertisements from the Classified section.
- **Acronyms** – handout
Use same strategy as with the first Abbreviations handout.
- **Symbols**
Discuss what symbols students see around them.
- **Complete Sentences**
Introduce the elements of a complete sentence and generate student examples. Then discuss the completed worksheet.

SYMBOLS ON MACHINES

PART I

To help you operate machines, the buttons or keys often have *symbols*.

For example, a calculator has keys with symbols on them. Write the symbol next to the operation:

1. Addition _____
2. Subtraction _____
3. Division _____
4. Multiplication _____
5. Equals _____
6. Percentage _____

PART II

A copying machine also has keys with symbols. Here are the symbols below. What do you think the symbols stand for?

Chicago:Contemporary Books, 1991.

COMPLETE SENTENCES

- ◆ A *complete sentence* must have the following:
 1. Subject
 2. Verb
 3. Complete thought

Also, the sentence must start with a CAPITAL letter and end with a period.

COMPLETE SENTENCES

Look at the sentences below and say whether they are *complete* sentences. If they are not, make them complete.

1. The company is closed for the holiday.
2. Hoping to return.
3. The machine, a large and noisy collater.
4. In the cafeteria, there are new tables.

10. However, like this job best.

READING AND WRITING ◆ **SESSION 3****OBJECTIVES:**

In order to write clear sentences, at the end of this session students will be able to:

- Recognize and use nouns
- Recognize and use verbs
- Use singular and plural forms of both regular and irregular nouns
- Fix run ons

METHODS:

- Guided discussion
- Group work
- Worksheets

EVALUATION:

- Correct completion of worksheets

Students will communicate in complete and correct sentences, thereby creating fewer errors on the job. Also, they will become more competent spellers as a result of worksheet practice and will become more confident writers.

MATERIALS:

- Worksheets

TEACHER TIPS ◆ *SESSION 3*

- **Parts of Speech** – handout
Review the parts of speech using examples.
- **Subjects and Verbs** – handout
Do not merely read through this handout. Rather generate sentences together with students from their own experiences, to demonstrate concepts.
- **Plural Forms of Nouns** – handouts
These reinforce spelling rules with irregular plurals as well as subject/verb agreement.
- **Run-Ons** – handouts
These complement the earlier exercises on complete sentences.

PARTS OF SPEECH

<i>NOUN</i>	Word, phrase that names such things as these: person, place, object, idea, activity, or quality.
<i>VERB</i>	Word or word group that either names the main action of the idea or is used to link a subject to something stated about it.
<i>PRONOUN</i>	Word that is used to replace a noun.
<i>ADJECTIVE</i>	Any word, phrase, or clause that tells which, what kind of, or how many about a noun or pronoun.
<i>ADVERB</i>	Any word, phrase, or clause that tells when, where, why, how, or how much about an action verb, adjective, or other adverb.
<i>PREPOSITION</i>	Any word or word group that connects a noun or pronoun to some other word in the sentence: of, to, from, for, with, by, under, over.
<i>CONJUNCTION</i>	Any word that connects two things: for, and, but, or, so, yet

SUBJECTS AND VERBS

- ◆ **Verbs** are action words. In a complete sentence, you need a subject who **does** the action. Look at these examples and consider a) what is the action and b) **who** (or what) is doing the action.

The assembler works on the line.
Some people have a lot of money.
Our teacher drives a red car.
The supervisor was pleased with production this week.
The plant will be closed on the 5th of July.
The machine has broken down three times this week.

- ◆ **Subjects can be singular or plural:** For example, "the assembler" in the first sentence is a singular subject; "people" in the second sentence is a plural subject.

Notice the difference between the verbs (present tense):

The assembler comes to work on time.
The assemblers come to work on time.

The first subject is singular, yet its verb ends with an "s" -- that means that the verb is singular. This is the opposite for making nouns plural. The singular HE/SHE/IT is the only form that takes the "S" in the present tense.

The second subject is plural, and the verb does not take an "S".

Make sure that singular nouns have singular verbs, and plural nouns have plural verbs.

SUBJECTS AND VERBS

- ◆ **Subjects can be compound:** you can have two singular subjects added together to make a plural. Remember, $1 + 1 = 2$.

Lorna *and* Carol come to the company every day.
The copier *and* the printer were broken yesterday.
The supervisor *and* the assembler did not have the key to the supply room.

However:

Lorna *or* Carol comes to the company every day.
Either the copier *or* the printer **was** broken.
Neither the supervisor *nor* the assembler **has** the key to the supply room.

- ◆ **Subjects that are collective nouns take singular verbs:** collective nouns may seem plural since they include a group, but they act as singular nouns and take a singular verb.

The *team* **is** making a decision about the production changes.
The *safety committee* **meets** twice a month.

- ◆ **Singular nouns that end in "s" :** sometimes we use nouns that have an "S" at the end but they are really singular in concept and take a singular verb.

Mathematics **is** offered through the MCCC program.
The United States **is** committed to training its workforce.

SUBJECTS AND VERBS

◆ **Some nouns are always plural:** even though they relate to only *one* item: if you can use "pair of _____" with something, then it is singular; however, if you use the item by itself, it is plural and fits into this category.

My pair of safety glasses is in my pocket.
My safety glasses are in my pocket.

◆ **Be careful of the word "of " :** attached to nouns, it does not change the original subject.

The *book* **is** on the desk.
The *book of matches* **is** on the desk.
But -- *the matches* **are** on the desk.

The *board of directors* **controls** the company.
But -- *the directors* **control** the company.

PLURAL FORMS OF NOUNS

The sentences below are written in the singular. Make the necessary corrections to make them plural.

1. The man on the line worked on in spite of the crisis.
2. The person put up the shelf while he ate his sandwich with tomato.
3. The fire chief confirmed his belief that a match could have started the fire.
4. The secretary typed up the list to show the students who were in the class.
5. A hero is a phenomenon of the past. Today, a boy doesn't have the same role model that he used to.

PLURAL FORMS OF NOUNS

Singular nouns that end in s

athletics
 economics, mathematics, physics
 news
 politics
 the United States

Nouns that are always plural

clothes
 glasses
 jeans, pants, shorts, slacks, trousers
 scissors
 police

Collective nouns are singular when they refer to a group acting as one

audience	band	class
club	collection	committee
crowd	faculty	family
group	jury	orchestra
public	staff	team

Write sentences using 2 singular, 2 plural and 2 collective nouns. Make sure your verbs agree with your subjects

RUN-ONS

There are three ways to fix a run-on:

1. Make it into two separate sentences by adding a period and a capital letter.
2. Make it into a compound sentence by adding a coordinating conjunction (for, and, nor, but, or yet, so).
3. Make it into a complex sentence by adding a subordinating conjunction (because, when, before, while, since, etc.).

RUN-ONS

Find and correct the run-ons in the sentences below, using a combination of the three methods.

1. Employees should notify the personnel department they plan to take vacation time.
2. You must tidy your work station after each job you must also tidy it at the end of the day.
3. Assemblers must wear heavy work shoes these shoes must conform to company safety standards.
4. Some machinery is very noisy some people prefer to wear ear plugs.
5. Most benefit books are very boring to read and difficult to understand people don't bother to read them.
6. Some people like to listen to music when they work others prefer to work in silence.

READING AND WRITING ◆ **SESSION 4****OBJECTIVES:**

- Use a dictionary
- Break down words into prefixes, roots and suffixes

- Correct completion of crossword

Students will be more competent in reading workplace material and in dealing with unfamiliar vocabulary. They will make fewer mistakes following instructions and deciphering unfamiliar terms.

MATERIALS:

- Dictionaries
- Lists of prefixes, roots and suffixes

TEACHER TIPS ◆ **SESSION 4**

- Discussion on what they do when students come across unfamiliar vocabulary.
 1. use dictionary
 2. break down words – prefixes, roots and suffixes
 3. guess by meanings of other words, context clues

- What does a dictionary tell us?
 1. meaning
 2. part of speech
 3. how to pronounce word

- **Dictionary Work** – handouts
Distribute dictionaries to the students. Have them identify symbols and abbreviations.
Do groupwork with vocabulary lists and dictionaries.
Notice similarities and link to **prefixes, roots and suffixes**.

- **Prefixes, Roots and Suffixes** – handout
Select those examples that are relevant to the students. Have them look at reading material where they can identify examples.

- **Crossword**
Explain to students that a crossword builds up, and clues should be attempted in blocks where they already have letters, rather than linearly.

DICTIONARY WORK

Sometimes the dictionary can cause more confusion than clarity! Use this list of terms to help you figure out what a dictionary listing means.

<i>n</i>	=	noun (person, place, thing)
<i>vb</i>	=	verb (action word)
<i>adj</i>	=	adjective (describes a noun)
<i>adv</i>	=	adverb (describes a verb)
<i>pron</i>	=	pronoun (replaces a noun)
<i>abbr</i>	=	abbreviation
<i>pl</i>	=	plural form of noun

DICTIONARY WORK

Figuring out how a word should be pronounced can be a problem too! Use this list of pronunciation symbols and explanations to help you figure out how to pronounce a new word in the dictionary.

SYLLABLES = the word is broken down into syllables, or parts, so that you know where to stop and start

EXAMPLE: volcano = vol * ca * no
this word has three syllables

EXAMPLE: coordinate = co * or * din * ate
this word has four syllables

In the dictionary, the word is broken down twice:

Once with syllables broken down using dots or *

Next between reversed backslashes \ \

This breakdown gives pronunciation pointers and accent mark.

DICTIONARY WORK

ACCENT MARK = ' .

This mark shows where the stress falls in a word, on which syllable.
It always appears in front of the syllable to be stressed.

EXAMPLES: volcano = \val - 'ka - no\
create = \kre - 'at\
=

Vowel sounds change depending on what surrounds them in the word. For example, a vowel followed by a consonant is usually a short vowel sound; a vowel followed by a consonant and another vowel is usually a long vowel sound.

SHORT vowel

hat
pet

not
us

LONG vowel

When we add parts to words, sometimes we have to *double* the consonant so the sound of the vowel remains the same.

pat
let
hit
hop
put
sum

patting
letting
hitting
hopping
putting

Remember: If the original word ends in "E" the vowel sound is long and you want to keep it long when you add a suffix that starts with a vowel. So drop the "E" and do not double the consonant.

A **paragraph** has several parts:

INTRODUCTION

This is the first sentence of the paragraph. It tells you what the paragraph will be about (subject) and the author's point (main idea).

BODY

This is made up of the middle sentences of the paragraph. It is the support that the author gives for his main idea. The support can take many forms: examples, a process, a story, or a definition.

CONCLUSION

This is the last sentence of the paragraph. It can be a restatement of the introduction, or it can be a comment on the main idea.

PARAGRAPHS

EXAMPLE:

In the past there was no guarantee that workers would be told about the chemical hazards they might face on the job. Container labels and warning sheets, even when they were provided, didn't always give enough information on potential hazards, what to do in an emergency, or where to turn for help. That's why the federal government decided to set a uniform hazard communication standard. Now everyone knows what information has to be provided to keep you safe.

Now, using the newspaper and material provided, work in groups to find three examples of paragraphs. Find the main idea, the support, and the conclusion.

- ongoing evaluation by teacher
- evaluating each other's diagrams and instructions

Students will read maps and give directions correctly in the workplace. Also they will understand the parts of a whole job and be able to put them into sequence. This understanding will lead to a broader view of where their jobs fit into the whole picture.

MATERIALS:

- worksheets
- company map
- game

TEACHER TIPS ◆ ***SESSION 11***

This session focuses on diagrams and maps in the workplace. Obtain maps or diagrams relevant to the particular industry or plant. Read through these samples with the students (using the reading strategy) and have them generate their own diagrams from the workplac. . Using the map, have students give and take correct directions.

DIAGRAMS - FIRE EXTINGUISHER

Echaore-Yoon, Susan. **Reading Skills That Work: Book 1.**
Chicago: Contemporary Books, 1991.

DIAGRAMS

In groups, make a diagram of a tool or piece of machinery that you use everyday.

With this diagram, you should be able to instruct someone who has never used this. Be sure to consider the parts and their functions.

MAPS

Look at the map. Answer the following questions.

1. What is the subject of the map?
2. This map has several purposes. List as many as you can find.

TEAM BUILDING

When building a working team, you must consider several elements.

TEAM PURPOSE

- **Individual purpose:** why are you involved in the team? what are your personal goals for the team and for yourself within that team?
- **Collective purpose:** why is the team being formed? what does it seek to accomplish? what are its goals?
- **Team limitations:** are there financial limitations? spacial limitations? time frame limitations? who do you answer to?

TEAM BUILDING

TEAM MECHANICS and DYNAMICS

- **Organization:** is there a spokesperson for the team? is there a note taker for the team? is there a researcher for the team? have roles been clearly defined?

- **Participation:** is participation voluntary? are the guidelines for participation clearly defined by the group?

- **Problem identification:** has the team defined the problem well? has each member participated in its description? has each member fully understood the problem?

- **Solution:** has brainstorming occurred? has each member contributed?

- **Consensus:** has the team come to a group agreement? has the team evaluated the solution? if there has been dissatisfaction with the solution, has it been re-evaluated?

The Case Study

CASE STUDY

You are part of a *work team* that has been assigned to order new **fire extinguishers** for the plant. Read the information provided. Then discuss what you consider to be the important aspects: your company's products, what materials and chemicals are used in different areas of the plant, how large an area needs to be protected, how many extinguishers you need for each area and for the total plant, and the costs.

You might want to examine what kinds of extinguishers are already in use and see whether you can make any improvements.

CASE STUDY

You are part of a *work team* that has been assigned to order new fire extinguishers for the **paint shop**, the **coil area** and the **administration offices**.

Read the information provided. Then discuss what you consider to be the important aspects:

- your company's products
- what materials are used in these areas
- the size of these areas
- how many extinguishers you will need
- what type

You will first be assigned to a smaller committee, where you will be asked to look at a particular aspect. Then you will elect a spokesperson to work with the main team to present your findings to management.

STRATEGY FOR PROBLEM SOLVING

- STEP 1:** **Define the problem**
Ask yourself, "What is it that I want to get done?"
- STEP 2:** **Identify the parts to the problem**
What questions do you need to answer?
- STEP 3:** **Determine what information you need to solve the problem**
Do you have all the **materials and resources**?
Clear up any details that you don't understand
- STEP 4:** **Examine the options and identify the possible solutions**
Weigh pros and cons and prioritize, where necessary
- STEP 5:** **Make your choices**
- STEP 6:** **Evaluate the results**
Ask yourself, "Did I achieve what I set out to achieve?"

READING FOR INFORMATION

- Define your **purpose** for reading
- **Preview** passage to be read to organize your thinking around the topic
- **Skim** the text quickly for general information and main ideas.
- Look for **clues** - look at headings, sub-headings, anything bolded, in italics or underlined, pictures, charts, graphs
- Read first and last paragraphs and first sentences from other paragraphs
- Write **questions** from headings, sub-headings etc.
- Read the article carefully, underlining **key words and phrases**
- Answer your questions in your own words
- **Evaluate** your interpretation. Have you understood what you have read?
Can you achieve your purpose? If not, have you misinterpreted the information?

CONTEXT OF WORDS

If you come across a word that you don't know, don't panic! Look around the word and look at the setting in which it is used. That is the **context** of the word.

1. underline the new word
2. read the sentence
3. get the *main idea* of the sentence
4. ask how the new word *relates* to that idea
(same meaning? example? opposite?)
5. guess at the meaning of the new word

USING A COMPANY MAP

RECOGNIZING DIFFERENCES IN PEOPLE

Problem solving as a group takes on the added factors of team building. And one of the key elements to reaching a satisfactory goal is to have an understanding of personalities and how people go about problem solving differently.

Let's consider 4 profiles:

Remember: One type is not better than the other, nor one right/one wrong.

1. The "A" type:
 - *persuasive, risk taker, confident, outgoing (strengths)
 - *impatient, dominating, pushy (limitations)
2. The "B" type:
 - *practical, orderly, organized, traditional (strengths)
 - *stubborn, lives by the rules, insensitive (limitations)
3. The "C" type:
 - *team oriented, caring, enthusiastic, peacemaker (strengths)
 - *indecisive, hesitant, vulnerable (limitations)
4. The "D" type:
 - *exacting, factual, reserved, has high standards (strengths)
 - *slow to get things done, perfectionist (limitations)

In our Case Study we will need to determine which type of fire extinguisher is needed for the stated location and how many will be required for that particular area. Imagine Person A, Person B, Person C, and Person D attempting to solve this problem. Do you think they would reach a solution easily? Why? If no, why not?

◆ Which combination do you think would lend itself to getting the most ideas and arriving at a good solution? Why?

◆ What if you have...

two "B's" and two "C's"?

or

two "A's", one "D" and two "C's"?

◆ Which combination do you think would get "stuck" and have a hard time reaching agreement?

READING AND WRITING ◆ **SESSION 16****OBJECTIVES:**

In order to respond to a problem at work, by the end of this session students will be able to work as a team to:

- identify problems
- devise strategies for solving the problem
- take appropriate action

TOPICS:

- reading information relevant to the subject
- using previously learned reading strategies
- taking appropriate action

METHODS:

- research
- individual writing
- discussion

EVALUATION:

- teacher's evaluation of individual performance

Students will be more competent tackling work problems and researching materials in order to solve the problems individually. They will be able to strategize and put their solutions into writing.

MATERIALS:

- case study material
- post class exercise

TEACHER TIPS ◆ **SESSION 16**

- Case study material is used to generate ideas from the class members who must now be evaluated individually solve a particular problem. At this stage, the teacher should step back as much as possible and allow the students to direct themselves. These case studies must be industry-based and deal with realistic problems that concern the students.

READING AND WRITING ◆ **CASE STUDY**

Post Class Exercise

Part I:

Using the reading techniques that we learned in class, read the "What You Should Know about **First Aid**" pamphlet and answer the following questions.

1. If someone goes into shock, what 4 steps should you take?

2. What are the 5 symptoms of a heart attack?

3. What are the three degrees of burns? Which is the worst?

READING AND WRITING ◆ **CASE STUDY****Part II:**

Using the reading material as information, write a paragraph of instructions for *one* of these situations. Be sure to include introduction, clear steps, and a conclusion. Also, make sure that you let the reader know of any equipment or materials that are necessary to complete the instructions.

SITUATION 1:

Bill, a co-worker, has just eaten lunch. Usually he brings his own food to work, but today he went out for Chinese food. Now, he is breaking out in hives. He says that he feels weak and you see that his throat is swelling up. He is starting to have breathing problems and he must sit down. What is his problem? What steps would you take to help Bill?

SITUATION 2:

Karen was carrying a large box of envelopes upstairs when she started feeling dizzy. She had a shortness of breath and a sharp pain in her chest. She collapsed at the top of the stairs. When you found her a few moments later, she looked ashen and was wet with perspiration. What is her problem? How could you help her?

SITUATION 3:

Stan was using the collator when he put his hand inside to remove an excess cover sheet. His right hand got sliced by the machine and he is bleeding profusely. You are afraid that he is losing a lot of blood. What would you do to help Stan? By the way, what would you do to help Stella who witnessed the accident and is ready to faint in the corner?
