ABSTRACT

This 19th annual report describes characteristics of State University of New York (SUNY) students, including age group, sex, level (undergraduate/graduate), and load (full-time/part-time). Part I contains headcount data and percent distribution for the entire state university system as well as each institution and institutional type. Part II displays headcount and percentage arrays of students by age group for each institution and institution type. Tables are presented for undergraduates, graduates, and first-time students by load. Part III summarizes historical trend data on all students from Fall 1987 through Fall 1993. The trend reports are grouped into sections by undergraduate/graduate level, with headcount and percentage distributions for total, full-time, and part-time students. Age and sex trend tables are available for standard institutional clusters. Part IV displays age and sex trend data by level and load indexed to Fall 1987. Part V displays change and percent of change in the age and sex trends by student level and load from Fall 1987. Data for parts IV and V are divided into two age groups: under 25, and 25 and over. Part VI contains a map locating the institutions of the State university system, a chronology of dates of establishment of SUNY institutions, and a list of publications of the Central Staff Office of Institutional Research. ## **INTRODUCTION**

This is the nineteenth annual report on student characteristics as described by age group and sex published by the Central Staff Office of Institutional Research.

The major tables included in this report array four fundamental student characteristics:

Age Group  
Sex  
Level (Undergraduate/Graduate)  
Load (Full-time/Part-time)

The main body of this report is divided into five sections:

- Part I (Pages 1 - 170) - contains data for the entire system, as well as, each institution and institutional type. For each of the headcount tables in this section there is a corresponding table providing percent distribution arrays of the headcount data. Each institution or institution type is displayed on one page for all components.
- Part II (Pages 171 - 218) - displays headcount and percentage arrays of students by age group for each institution and institution type. Tables are available for undergraduates, graduates and first-time students by load. Multiple institutions are displayed on a single page for a given component.
- Part III (Pages 219 - 248) - summarized historical trend data on all students from Fall 1987 through Fall 1993. The trend reports are grouped into sections by level (undergraduate/graduate). Each level has both headcount and percentage distributions for total, full-time and part-time students. The age and sex trend tables are not available for individual institutions, but are available for all standard institutional clusters.
- Part IV (Pages 249 - 281) displays age and sex trend by level and load indexed to Fall 1987. The data for this and the following section is divided into two age groups; those under 25, and 25 and over.
- Part V (Pages 282 - 314) displays change and percent of change in the age and sex trends by student level and load from Fall 1987.

Part VI of the report contains a map locating the institutions of the State University, Chronology of Dates of Establishment of Institutions of the State University of New York and a list of this office's publications.

We would like to thank those individuals on the campuses who are responsible for providing this office with timely and accurate data. The collection of this data required their extensive cooperation and continued effort. Our gratitude is also extended to this office's statistical staff of Mr. Spoor and Mr. Toomey who were responsible for editing and verifying the data; the support staff of Mrs. Bartoszewicz, Mrs. Mazzone and who prepared the final typescript and were responsible for the proper distribution of the publication.
