ABSTRACT

Two separate reports combined here present the fifth and sixth annual salary surveys of the academic libraries of Pennsylvania. Questionnaires were sent to libraries at 141 two-year, baccalaureate, comprehensive, and doctoral granting colleges and universities. Responses were received from 96 institutions for a return rate of 68% to the 1992 survey. Responses to the 1993 survey were received from 86 institutions for a return rate of 61%. The survey follows the Association of Research Libraries (ARL) Salary Survey model. The results of the survey are reported in 14-15 tables. The following information is included: professional staff by salary bracket; distribution of beginning professional salaries; distribution of professional staff by experience; number and average salaries of academic librarians by years of experience; average salaries and experience by metropolitan area; number and average salaries and experience by institution and position; number and average experience of librarians by position; average salaries for experience cohorts in selected positions; number and average salaries of librarians by American Association of University Professors (AAUP) category; number and average salaries of librarians by type of institution; number and average salary of minority librarians by position; distribution of minority librarians by metropolitan area; and number and average experience of minority librarians by position. A list of the participating libraries and the questionnaire are included in the appendices. (JLB)

INTRODUCTION

This is the report of the fifth annual salary survey of the academic libraries of Pennsylvania. The survey is funded and sponsored by the College and Research Libraries Division of the Pennsylvania Library Association (PLA) as a service to its membership and the academic librarians of the Commonwealth.

The survey itself continues to follow the ARL Salary Survey model. In some tables the number of positions listed in the bodies of the tables may not sum to the total positions noted at the bottom of each table. This is due to the suppression of data for some entire position categories where fewer than four cases were reported. As always, when displaying compiled data we have suppressed any data representing fewer than four cases so as to avoid compromising confidentiality. However, the total position count and the average salaries displayed at the bottom of these tables, corresponding to the heading "Total Filled Positions", does encompass all individuals in each category, including those position titles suppressed in the body of the table. It should also be noted that not all respondents provided full data. Some totals are affected by these instances of incomplete reporting.

This year questionnaires were sent to libraries at 141 two-year, baccalaureate, comprehensive, and doctoral granting colleges and universities. Responses were received from 96 institutions, a return rate of 68%. In total, 854 or 73.6% of the estimated 1160 academic library positions within the Commonwealth are represented by the survey results.

This is the fifth year for the survey and although 96 libraries responded to the survey there is a change in the institutions responding from last year. Obviously this makes specific year to year comparisons difficult, yet we continue to believe that the data are in themselves valuable for institutional comparisons and other administrative purposes. For those seeking to review results from past years, the survey is now available on ERIC microfiche [ERIC No. ED 352069].

The Pennsylvania Library Association's College and Research Libraries Division is pleased to present this report as a tangible service to its membership. Anecdotal evidence suggests that salary data linking positions to local market conditions, as this survey does, can be a significant tool in the hands of library directors campaigning for salary adjustments for professional librarians. For that reason, we would like to thank all who have contributed to this and past years surveys through timely submission of completed questionnaires. Please direct to me any questions that you may have concerning this survey or the incorporated data.

Joyce Combs of Pennsylvania State University Libraries has once more provided essential support to the project both in terms of administering the questionnaire and in disseminating the final document.

Academic Library SALARY SURVEY 1992
Library Questionnaire
Part 1: Summary Data

Reporting Library _____

Report prepared by (name) _____

Phone number _____ Date returned _____

1. Estimate of beginning professional salary for 1992 fiscal year:

\$ _____

2. Is your professional non-administrative staff part of a bargaining unit?

_____ Yes

_____ No

3. Does your professional non-administrative staff have:

- _____ 1. Faculty status with academic rank
_____ 2. Faculty status without academic rank
_____ 3. Neither of above

4. Parent institution's status:

_____ Public (state or county)

_____ State related

_____ Private, non-sectarian

_____ Private, church-related

5. Parent institution's status (AAUP Categories):

Category I:

_____ Doctoral

Category IIA:

_____ Comprehensive

Category IIB:

_____ Baccalaureate

Category III:

_____ 2 year with academic rank

Category IV:

_____ 2 year without academic rank

Ronald Dow, Pattee Library, University Park, PA 16802

**Pennsylvania Library Association
Academic Library SALARY SURVEY 1992
Library Questionnaire**

General Instructions for Completing the Questionnaire

1. This survey is concerned with professional positions only. Since the criteria for determining professional status vary among libraries, there is no attempt to define the term "professional." Each library should report the salaries of those staff members it considers professionals, irrespective of faculty status or membership in a collective bargaining unit. Include, when appropriate, staff who are not librarians in the strict sense of the term, such as computer experts, audiovisual professionals, budget officers, etc.
2. Salaries should be reported for both full-time and part-time professional positions. However, salaries for part-time positions should be converted to their full-time equivalents before reporting. **Do not report the actual part-time salary paid.**
3. The purpose of the survey is to collect comparable data; therefore, salaries should normally be reported on a 12-month basis. If an appointment is for 9 or 10 months at the option of the employee, the actual salary paid should be increased to its 12-month equivalent. However, if appointments of less than 12 months are required by the employer, report the actual salary paid.
4. The salaries for all professional positions should be included, regardless of whether the salaries come from regular library budget funds or from special funds such as research grants.
5. The salary figures should be straight gross salary figures. Do not include fringe benefits.
6. The questionnaire should be returned to Ronald F. Dow, Pattee Library, Pennsylvania State University, University Park, PA 16802 by December 15, 1992. Please mark envelope **PERSONAL AND CONFIDENTIAL**. A postcard acknowledgment will be returned to you within two weeks of the receipt of the questionnaire. Please call 814-863-0325 if you **DO NOT** receive this confirmation.

Instructions for Completing Part I: Summary Data

1. Part I of this survey deals with summary information for filled and temporarily vacant professional positions for the 1992 fiscal year.
2. Question 1. The Beginning Professional Salary is the salary that would be paid to a professional entry-level librarian, i.e., **no post-MLS experience**. Please use a figure which is **USED OR LIKELY TO BE USED** by your library.
3. Be sure to fill in the name of the reporting library and the name of the person who prepares the report.

Instructions for Completing Part II: Individual Data

1. Part II of this survey requests salary information on all filled or temporarily vacant positions for fiscal year beginning 1992. In addition, information on sex, minority status, and years of experience is requested for filled positions. The form requests information for individuals; aggregate data for each institution will be generated by computer. Please photocopy additional sheets and number them if you cannot list all professional positions in the space provided.
2. The column to the left of the perforation labeled "Staff Member I.D." has been provided so the form can also serve as a work sheet. After the forms have been completed, the left-hand column should be removed along the perforation to ensure anonymity of the data. The order in which staff members are entered on the form is not important; enter them in the order most convenient for you.
3. After entering the identification of the individual, enter his/her salary as of the start of the 1992 fiscal year. If the library normally increases salaries at a date later than the start of the fiscal year, yet prior to receipt of this questionnaire, report salary as of that later date. Please refer to general instructions before recording salaries.
4. Salaries should be reported for all filled positions and all positions that are temporarily vacant. If an exact salary figure for a vacant position is established, that figure should be reported. If you do not have an exact salary for a vacancy, estimate the salary level at which the position is most likely to be filled.
5. Position code. The position categories used in this survey are intended to correspond roughly with the activities carried on in libraries, not with any particular pattern of staff organization or nomenclature. Please use these categories in the manner you feel best applies to your library. Indicate a position title by means of one of the following codes:

DIRLIB	Director of Libraries (or equivalent title)
ASCDIR	Associate Director
ASTDIR	Assistant Director
HDMED	Head, Medical Library
HDLAW	Head, Law Library
ADMIN	Administrative Support
HDBR	Head, Other Branch Library
SSPEC	Subject Specialist
HDRS	Head, Public or Readers Services
HDTS	Head, Technical Services
HDACQ	Head, Acquisitions Department
HDREF	Head, Reference Department
HDCAT	Head, Catalog Department
HDSER	Head, Serials Department
HDDOC	Head, Documents Department
HDCIRC	Head, Circulation
HDRBM	Head, Rare Book/Manuscripts Department
HDCOMP	Head, Library Computer Systems

HDAV	Head, Media Center or Audio Visual Department
HDOTR	Head, Other Department/Service/Agency
CAT	Catalogers, both General and Specialized
REF	Reference Librarians, both General and Specialized
PUBS	Public Services, non-Supervisory, <u>except</u> Reference Librarians
TECH	Technical Services, non-Supervisory, <u>except</u> Catalogers

If any individual has responsibilities described by more than one of the above categories, choose the category which is most typical of his/her general duties.

Specialists. These are of two kinds: **Subject Specialists**, who primarily build collections (but may also offer specialized reference and bibliographic services); and **Administrative Specialists**, who are experts in management fields such as personnel, fiscal matters, systems, etc. Specialists may not be, strictly speaking, professional librarians (i.e., have the MLS).

Department Heads. Department Heads not specifically included in the above list should be included under the category "Head, Other Department/Service/Agency." Head, Catalog Department should be used either for the department that does original cataloging only, or for a department that handles all cataloging. A Department Head who is responsible for cataloging from LC Copy, OCLC, etc., but not for original cataloging should be included in the category "Head, Other Department/Service/Agency." List the head of library automation and computer systems, applications, programming, etc. as HDCOMP unless that person is also an Associate or Assistant Director, in which case use the appropriate administrative code. If there is an intermediate level of management between an Associate or Assistant Director and the professionals who actually carry out the analysis, programming, etc., use HDCOMP to define that intermediate level. Professionals who carry out the analysis, programming, etc., should be listed as functional specialists (FSPEC).

Head, Acquisitions Department. Use HDACQ for all of the following positions: a) head of a department which is responsible for the selection of material (or management of selection activities carried out on a basis encompassing more than a single organizational unit), but not responsible for the placement of orders, payment of invoices, etc; b) head of a department responsible for the placement of orders, maintaining on-order files, payment of invoices, etc., but not responsible for selection decisions; c) head of a department responsible for both the selection decisions (or coordination of selection activities) and for acquiring the material. Libraries which split these two functions between two departments should report more than one professional with the position HDACQ.

Assistant Department Heads. Assistant Department Heads who are responsible for major units and spend the bulk of their time in supervision and revision of the work of others should also be listed as "Head, Other Department/Service/Agency." However, Assistant Head positions for small units or for supervision only in the absence of the head should be reported as non-supervisory or specialist positions as appropriate.

6. Sex. Indicate either **M** or **F**, for male and female, respectively, or **V** if the position is vacant.
7. Affirmative action status code. Indicate status by means of one of the following code numbers:
 1. Black
 2. Hispanic
 3. Asian or Pacific Islander
 4. American Indian or Native Alaskan
 5. Caucasian
8. Total years of professional experience. Define "professional" experience as indicated in the general instructions; for most professional staff members this will mean counting the years of experience since the MLS degree was awarded. When counting, do not subtract interim periods when an individual was not engaged in professional library employment if these periods are short in relation to the overall professional career. Count an academic year contract period as a full year. Be sure to include professional experience in previous positions and in other institutions.

CONFIDENTIALITY OF INFORMATION

Confidentiality of information will be strictly maintained. No individual salaries will be reported. Salary statistics for individual institutions will be limited to beginning professional salary, average salary and median salary. Aggregate data only will be reported; for example, you will be able to compare salaries of your reference librarians with the average salaries of all reference librarians from the reporting institutions. However, information will be reported only in categories with four or more individuals. The submitted data will be retained for three years and will then be destroyed in a manner appropriate to confidential information.

INTRODUCTION

This is the report of the sixth annual salary survey of the academic libraries of Pennsylvania. The survey is funded and sponsored by the College and Research Libraries Division of the Pennsylvania Library Association (PLA) as a service to its membership and the academic librarians of the Commonwealth.

The survey itself continues to follow the ARL Salary Survey model. In some tables the number of positions listed in the bodies of the tables may not sum to the total positions noted at the bottom of each table. This is due to the suppression of data for some entire position categories where fewer than four cases were reported. As always, when displaying compiled data we have suppressed any data representing fewer than four cases so as to avoid compromising confidentiality. However, the total position count and the average salaries displayed at the bottom of these tables, corresponding to the heading "Total Filled Positions," does encompass all individuals in each category, including those position titles suppressed in the body of the table. It should also be noted that not all respondents provided full data. Some totals are affected by these instances of incomplete reporting.

This year questionnaires were sent to libraries at 141 two-year, baccalaureate, comprehensive, and doctoral granting colleges and universities. Responses were received from 86 institutions, a return rate of 61%. In total, 825 or 71% of the estimated 1160 academic library positions within the Commonwealth are represented by the survey results.

This is the sixth year for the survey and although 86 libraries responded to the survey there is a change in the institutions responding from last year. Obviously this makes specific year to year comparisons difficult, yet we continue to believe that the data are in themselves valuable for institutional comparisons and other administrative purposes. For those seeking to review results from past years, the 1990 and 1991 surveys are now available on ERIC microfiche [ERIC No. ED 352069] and 1992 and 1993 have been submitted to the Clearing House for future inclusion.

The Pennsylvania Library Association's College and Research Libraries Division is pleased to present this report as a tangible service to its membership. Anecdotal evidence suggests that salary data linking positions to local market conditions, as this survey does, can be a significant tool in the hands of library directors campaigning for salary adjustments for professional librarians. For that reason, we would like to thank all who have contributed to this and past years surveys through timely submission of completed questionnaires. Please direct to me any questions that you may have concerning this survey or the incorporated data.

Joyce Combs of Pennsylvania State University Libraries has once more provided essential support to the project both in terms of administering the questionnaire and in disseminating the final document.

1993 Salary Survey of Pennsylvania Academic Libraries

Appendix I: Participating Libraries

Academy of the New Church	Lebanon Valley College
Albright College	Lehigh County Community College
Alvernia College	Lock Haven University of Pennsylvania
American College	Lutheran Theology Seminary, Philadelphia
Baptist Bible College & School of Theology	Luzerne County Community College
Backnell University	Manor Junior College
Bucks County Community College	Mary Immaculate Seminary
Butler County Community College	Mercyhurst College
Carlow College	Messiah College
Carnegie-Mellon University	Moravian College
Cedar Crest College	Mount Aloysius College
Chestnut Hill College	Neumann College
Cheyney University	Northampton Community College
Clarion University of Pennsylvania	Pennsylvania College of Optometry
Community College of Allegheny County, Monroeville	Pennsylvania College of Technology
Community College of Allegheny County, West Mifflin	Pennsylvania State University
Community College of Philadelphia	Philadelphia College of Bible
Curtis Institute of Music	Philadelphia College, Pharmacy and Science
Delaware County Community College	Philadelphia College, Textile and Science
Delaware Valley College	Point Park College
Dickinson College	Robert Morris College
Dickinson School of Law	Rosemont College
East Stroudsburg University	Saint Charles Borromeo
Eastern Baptist Theology Seminary	Saint Francis College
Edinboro University of Pennsylvania	Saint Josephs University
Elizabethtown College	Seton Hill College
Evangelical School of Theology	Shippensburg University of Pennsylvania
Franklin and Marshall College	Susquehanna University
Gannon University	Swarthmore College
Geneva College	Temple University
Hahnemann University	Thaddeus Stevens State School of Technology
Harcum College	University of the Arts
Harrisburg Community College	University of Pittsburgh
Haverford College	Valley Forge Christian College
Holy Family College	Valley Forge Military Academy
Immaculata College	Villanova University
Juniata College	Washington & Jefferson College
Kings College	Westminster Theology Seminary
Kutztown University of Pennsylvania	Westmoreland County Community College
Lackawana Junior College	Widener University
Lafayette College	Wilkes University
Lancaster Bible College	Wilson College
Lancaster Theological Seminary	York College of Pennsylvania
LaSalle University

Academic Library SALARY SURVEY 1993
Library Questionnaire
Part 1: Summary Data**

Reporting Library _____

Report prepared by (name) _____

Phone number _____ Date returned _____

1. Estimate of beginning professional salary for 1993 fiscal year:

\$ _____

2. Is your professional non-administrative staff part of a bargaining unit?

_____ Yes

_____ No

3. Does your professional non-administrative staff have:

_____ 1. Faculty status with academic rank

_____ 2. Faculty status without academic rank

_____ 3. Neither of above

4. Parent institution's status:

_____ Public (state or county)

_____ State related

_____ Private, non-sectarian

_____ Private, church-related

5. Parent institution's status (AAUP Categories):

Category I:

_____ Doctoral

Category IIA:

_____ Comprehensive

Category IIB:

_____ Baccalaureate

Category III:

_____ 2 year with academic rank

Category IV:

_____ 2 year without academic rank

Ronald Dow, Pattee Library, University Park, PA 16802

**Pennsylvania Library Association
Academic Library SALARY SURVEY 1993
Library Questionnaire**

General Instructions for Completing the Questionnaire

1. This survey is concerned with professional positions only. Since the criteria for determining professional status vary among libraries, there is no attempt to define the term "professional." Each library should report the salaries of those staff members it considers professionals, irrespective of faculty status or membership in a collective bargaining unit. Include, when appropriate, staff who are not librarians in the strict sense of the term, such as computer experts, audiovisual professionals, budget officers, etc.
2. Salaries should be reported for both full-time and part-time professional positions. However, salaries for part-time positions should be converted to their full-time equivalents before reporting. **Do not report the actual part-time salary paid.**
3. The purpose of the survey is to collect comparable data; therefore, salaries should normally be reported on a 12-month basis. If an appointment is for 9 or 10 months at the option of the employee, the actual salary paid should be increased to its 12-month equivalent. However, if appointments of less than 12 months are required by the employer, report the actual salary paid.
4. The salaries for all professional positions should be included, regardless of whether the salaries come from regular library budget funds or from special funds such as research grants.
5. The salary figures should be straight gross salary figures. Do not include fringe benefits.
6. The questionnaire should be returned to Ronald F. Dow, Pattee Library, Pennsylvania State University, University Park, PA 16802 by January 17, 1994. Please mark envelope PERSONAL AND CONFIDENTIAL. A postcard acknowledgment will be returned to you within two weeks of the receipt of the questionnaire. Please call 814-863-0325 if you DO NOT receive this confirmation.

Instructions for Completing Part I: Summary Data

1. Part I of this survey deals with summary information for filled and temporarily vacant professional positions for the 1993 fiscal year.
2. Question 1. The Beginning Professional Salary is the salary that would be paid to a professional entry-level librarian, i.e., **no post-MLS experience**. Please use a figure which is **USED OR LIKELY TO BE USED** by your library.
3. Be sure to fill in the name of the reporting library and the name of the person who prepares the report.

Instructions for Completing Part II: Individual Data

1. Part II of this survey requests salary information on all filled or temporarily vacant positions for fiscal year beginning 1993. In addition, information on sex, minority status, and years of experience is requested for filled positions. The form requests information for individuals; aggregate data for each institution will be generated by computer. Please photocopy additional sheets and number them if you cannot list all professional positions in the space provided.
2. The column to the left of the perforation labeled "Staff Member I.D." has been provided so the form can also serve as a work sheet. After the forms have been completed, the left-hand column should be removed along the perforation to ensure anonymity of the data. The order in which staff members are entered on the form is not important; enter them in the order most convenient for you.
3. After entering the identification of the individual, enter his/her salary as of the start of the 1993 fiscal year. If the library normally increases salaries at a date later than the start of the fiscal year, yet prior to receipt of this questionnaire, report salary as of that later date. Please refer to general instructions before recording salaries.
4. Salaries should be reported for all filled positions and all positions that are temporarily vacant. If an exact salary figure for a vacant position is established, that figure should be reported. If you do not have an exact salary for a vacancy, estimate the salary level at which the position is most likely to be filled.
5. Position code. The position categories used in this survey are intended to correspond roughly with the activities carried on in libraries, not with any particular pattern of staff organization or nomenclature. Please use these categories in the manner you feel best applies to your library. Indicate a position title by means of one of the following codes:

DIRLIB	Director of Libraries (or equivalent title)
ASCDIR	Associate Director
ASTDIR	Assistant Director
HDMED	Head, Medical Library
HDLAW	Head, Law Library
ADMIN	Administrative Support
HDBR	Head, Other Branch Library
SSPEC	Subject Specialist
HDRS	Head, Public or Readers Services
HDTs	Head, Technical Services
HDACQ	Head, Acquisitions Department
HDREF	Head, Reference Department
HDCAT	Head, Catalog Department
HDSER	Head, Serials Department
HDDOC	Head, Documents Department
HDCIRC	Head, Circulation
HDRBM	Head, Rare Book/Manuscripts Department
HDCOMP	Head, Library Computer Systems

HDAV	Head, Media Center or Audio Visual Department
HDOTR	Head, Other Department/Service/Agency
CAT	Catalogers, both General and Specialized
REF	Reference Librarians, both General and Specialized
PUBS	Public Services, non-Supervisory, <u>except</u> Reference Librarians
TECH	Technical Services, non-Supervisory, <u>except</u> Catalogers

If any individual has responsibilities described by more than one of the above categories, choose the category which is most typical of his/her general duties.

Specialists. These are of two kinds: **Subject Specialists**, who primarily build collections (but may also offer specialized reference and bibliographic services); and **Administrative Specialists**, who are experts in management fields such as personnel, fiscal matters, systems, etc. Specialists may not be, strictly speaking, professional librarians (i.e., have the MLS).

Department Heads. Department Heads not specifically included in the above list should be included under the category "Head, Other Department/Service/Agency." Head, Catalog Department should be used either for the department that does original cataloging only, or for a department that handles all cataloging. A Department Head who is responsible for cataloging from LC Copy, OCLC, etc., but not for original cataloging should be included in the category "Head, Other Department/Service/Agency." List the head of library automation and computer systems, applications, programming, etc. as HDCOMP unless that person is also an Associate or Assistant Director, in which case use the appropriate administrative code. If there is an intermediate level of management between an Associate or Assistant Director and the professionals who actually carry out the analysis, programming, etc., use HDCOMP to define that intermediate level. Professionals who carry out the analysis, programming, etc., should be listed as functional specialists (FSPEC).

Head, Acquisitions Department. Use HDACQ for all of the following positions: a) head of a department which is responsible for the selection of material (or management of selection activities carried out on a basis encompassing more than a single organizational unit), but not responsible for the placement of orders, payment of invoices, etc; b) head of a department responsible for the placement of orders, maintaining on-order files, payment of invoices, etc., but not responsible for selection decisions; c) head of a department responsible for both the selection decisions (or coordination of selection activities) and for acquiring the material. Libraries which split these two functions between two departments should report more than one professional with the position HDACQ.

Assistant Department Heads. Assistant Department Heads who are responsible for major units and spend the bulk of their time in supervision and revision of the work of others should also be listed as "Head, Other Department/Service/Agency." However, Assistant Head positions for small units or for supervision only in the absence of the head should be reported as non-supervisory or specialist positions as appropriate.

6. Sex. Indicate either **M** or **F**, for male and female, respectively, or **V** if the position is vacant.
7. Affirmative action status code. Indicate status by means of one of the following code numbers:
 1. Black
 2. Hispanic
 3. Asian or Pacific Islander
 4. American Indian or Native Alaskan
 5. Caucasian
8. Total years of professional experience. Define "professional" experience as indicated in the general instructions; for most professional staff members this will mean counting the years of experience since the MLS degree was awarded. When counting, do not subtract interim periods when an individual was not engaged in professional library employment if these periods are short in relation to the overall professional career. Count an academic year contract period as a full year. Be sure to include professional experience in previous positions and in other institutions.

CONFIDENTIALITY OF INFORMATION

Confidentiality of information will be strictly maintained. No individual salaries will be reported. Salary statistics for individual institutions will be limited to beginning professional salary, average salary and median salary. Aggregate data only will be reported; for example, you will be able to compare salaries of your reference librarians with the average salaries of all reference librarians from the reporting institutions. However, information will be reported only in categories with four or more individuals. The submitted data will be retained for three years and will then be destroyed in a manner appropriate to confidential information.
