ABSTRACT

This document provides an overview of a family literacy demonstration project conducted to offer family literacy classes in three public schools in Philadelphia. The project was designed to help adults meet their own needs and to enable them to support their children's learning. The whole-language, learner-centered approach was used. Background materials included in this document include the following: description of the instructional model and the correspondence of instruction to the Philadelphia School District's kindergarten and first grade curricula (depicted in an extensive grid) and a bibliography listing 67 recommended children's books; 27 resources for parents and educators; 7 resources for educators, 15 resources related to adult themes; and 5 family literacy resources. ## Acknowledgments

This manual was developed as part of the Center for Literacy's Family Literacy Demonstration Project funded by the National Institute for Literacy. The educators who worked on the project were Joanna Carty, Roslyn Don, Vanessa Watson-Martinez and Monty Wilson. Ros and Vanessa taught classes for parents during the school year. Joanna and Monty joined the team for the summer learning camps. All of their efforts are reflected in *Parents, Children and Learning*.

Dorothy Miller-Clemmons, the first family literacy coordinator, planned and supported the early part of the project. When Dorothy left, Debra Cherkas took over as the coordinator. Her efforts were particularly important in planning and implementing the summer program.

Alisa Belzer, the program evaluator, went far beyond the requirements of her role in the project. She encouraged the staff to continue in its struggle to define family literacy and supported their efforts to meet the needs of parents in the program. Kathy Luna worked as evaluator over the summer supporting staff with her insights and suggestions.

Catherine DeLong Smith and Yvette Walls shared their instructional ideas and editorial insights.

Rose Brandt, director of educational planning, played a key role in helping staff to explore ways to mirror the kindergarten and first grade curricula and in finalizing these curriculum materials.

JoAnn Weinberger, executive director, worked with the project from the initial planning through to the completion of the final report and curriculum materials.

The principals and staff of the William Dick, William B. Mann and the General Philip Kearny Elementary Schools welcomed us into their schools and assisted us in many ways. Over the summer their facilities and materials made the days more pleasurable.

Special thanks to the parents and children at William Dick, William B. Mann and General Philip Kearny Schools who participated in the classes. It was their program and their commitment is reflected in these pages.

## Overview of the Program

The Center for Literacy's (CFL) Family Literacy Demonstration Project was funded by the National Institute for Literacy to offer family literacy classes in three public schools in the Philadelphia School District. Instruction was offered in two phases, from January through June, for parents and in July, for parents and children together.

The goals of the first phase of the Family Literacy Demonstration Project were to provide instruction to help adults meet their needs and to enable them to support their children's learning. The instructional program for the adults mirrored the kindergarten and first grade curricula of the Philadelphia School District. For example, in the first grade curriculum, children learn the importance of sequence of events in a story. In CFL's program, parents identified sequence of events in an adult story, and then they looked at children's book and identified the sequence of events in those books. Next the adults engaged in a writing activity, beginning with mapping the sequence of events for their own stories. Finally, the parents made and tried out sequencing games to use with their children.

The second phase of the project brought parents and children together to engage in hands on learning experiences. The activities were designed to be open ended and encourage questioning and exploration. The materials used for the activities were readily accessible which meant that parents were able to continue the activities at home with their children. There was also separate time for instruction for parents and snack time, play time and story time for children. Part of the adult instructional time was spent discussing children's learning. This happened naturally since it followed the time they spent with their children. The remainder of the adult time was based on the mirroring approach used in the school year program.

The program was conducted in three schools selected through a competitive proposal process. Each school provided classroom space, access to computers and, in one case, childcare for young children of participants. Kindergarten and first grade parents were specially targeted because parents of children at those ages are highly motivated to gain the literacy skills necessary to help as their children begin school.

## Philosophy

The Center for Literacy uses a whole language, learner-centered approach to instruction. In whole language instruction, reading and writing activities are active and involve making meaning. The materials read or written are authentic, related to learners' lives. Math is taught holistically using learners' everyday experiences and needs. Learner-centered instruction responds to the needs and interests of the participants. It encourages learners to take control of the content and process of learning.

CFL's experience is that most adults who have children express an interest in supporting their children's learning. This project was planned to enable parents to take a more active role in their children's learning. It was felt that a family literacy program based on the kindergarten and first grade curricula and located in the school would be relevant to learners' goals, provide information which learners could apply immediately with their children and be convenient for parents dropping off or picking their children up from school. The summer program was intended to help parents and children learn together and to give parents an opportunity to become more aware of how their children learn.

## Implementation

### Phase One

Parents were recruited by school staff particularly principals and home and school coordinators. Workshops were offered to present the idea of the program to potential participants. Flyers were sent home and posters were hung in schools. Presentations were made at parents' meetings and the adult teachers met and spoke with parents in the halls as they dropped off their children.

The classes were held for 2.5 hours four days a week. The student population ranged from single mothers, to married women and grandparents; from school dropouts, to high-school graduates, to college

educated. This large cross section of participants required a variety of approaches and teaching styles.

While recruitment was focused on parents of kindergarten and first grade children, parents who came to the class also had other children whose needs they wanted to address. In addition, word of mouth brought participants with children of other ages into the program.

### Phase Two

Parents who had participated in the school year program were given first preference for participation in the Summer Learning Camp. After it was clear that there was still space available, registration forms were sent home with kindergarten and first grade children.

Staffing was increased from one teacher for phase one to three teachers for the summer program. This level of staffing was necessary for supporting the learning station model being used with parents and children together and even more so for providing safe supervision of children during play time when parents and children were engaged in separate activities.

## Using the Materials

Parents, Children and Learning is intended to be used to help parents meet their own educational goals and support their children's learning.

The curriculum consists of three parts.

- Part One, Background Materials, provides an overview of the program and specifics on the instructional model and the correspondence of instruction to the Philadelphia School District's kindergarten and first grade curricula.
- Part Two contains instructional materials for use with parents. These materials were used during the school year and in the parents'

portion of the summer program. The adult activities address the following:

- Theme 1 An Exploration of Patterns
- Theme 2 Sequencing
- Theme 3 Home Budget and Money Math
- Theme 4 Fractions and Manipulative Objects
- Theme 5 Percents and Probability
- Theme 6 Categorizing
- Theme 7 Science Explorations
- Theme 8 Family Histories
- Theme 9 Family Writing
- Theme 10 Child Development

- Part Three contains the activities used with parents and children together in the summer program. It contains the following:

**Beginning Unit**

- Parent's Handout
- No Cook Play Dough
- Documentation Through Pictures
- Building Blocks
- Paints
- Storytelling
- Interconnecting Blocks

**Aquatic Unit**

- Parent's Handout
- Fish Mobiles
- The Shell Game
- Sink or Float Boat Making
- Crayon and Watercolor Fish
- Aquatic Trip Sheet

**Hands on Learning Unit**

- Parent's Handout
- Body Pictures
- The Butterfly
- Junk Sculptures
- The Money Game

**Farm Unit**

- Parent's Handout
- Making Butter
- Bean Collages
- Animal Masks
- Farm Scavenger Hunt

**Recreation Unit**

Parent's Handout

Balance Scale

Sense Boxes

Differently Abled Activities

The materials in Parents, Children and Learning are meant to be used as presented or adapted according to the needs of individual learners and programs.

## Mirroring the Kindergarten and First Grade Curricula Scope and Sequence Grid

The following grid shows the correspondence of Parents, Children and Learning to the Philadelphia School District's Kindergarten and First Grade Curricula.

Kindergarten and First Grade skills are listed to the left of the grids.

Adult lessons line the top of the grid. Correspondence with the curricula is marked with a bullet•.

Summer lessons are listed along the bottom of the grid. Correspondence with the curricula is marked with an asterisk\*.

Lessons are represented by the numbers below:

### Adult Lessons

- 1 Exploration of Patterns
- 2 Sequencing
- 3 Home Budget and Money Math
- 4 Fractions and Manipulative Objects
- 5 Percents and Probability
- 6 Categorizing
- 7 Science Exploration
- 8 Family Stories
- 9 Family Writing
- 10 Child Development

### Summer Camp Lessons

- |                                  |                     |
|----------------------------------|---------------------|
| 1 Playdough                      | 11 Body Parts       |
| 2 Documentation Through Pictures | 12 Butterfly        |
| 3 Building Blocks                | 13 Junk Sculptures  |
| 4 Paints                         | 14 The Money Game   |
| 5 Storytelling                   | 15 Making Butter    |
| 6 Interconnecting Blocks         | 16 Bean Collages    |
| 7 Fish Mobiles                   | 17 Animal Mask      |
| 8 Shell Game                     | 18 Balancing Scale  |
| 9 Sink and Float                 | 19 Sense Boxes      |
| 10 Crayon and Watercolor         | 20 Differently Able |

**Note:** Field trips and accompanying scavenger hunt sheets are not included in the grid, although these do cover skills listed in the curricula.

<b>Reading/Literature</b>																				
Uses multiple choice format with vocabulary words																				
Genre: Fables, legends *Hears, reads independently and responds to literature		•			*															
Predicts outcomes	•	•			*	•	•													
Genre: Fanciful Tales *Hears, reads independently and responds to literature		•																		
Distinguishes between reality and fantasy					*	•														
Draws conclusions	•	•			*	•		•												
Becomes familiar with table of contents and index of newspaper					*	•														
Uses Cloze procedure to comprehend word meaning																				
Genre: Legends, plays *Hears, reads independently and response to literature																				
Makes evaluations					*	•														
Makes Judgements	•	•			*	•														
Visits school and local library					*	•														
Practices true/ false questions																				
Listens and responds to speech and environmental sounds	•	•				•		•	•											*

<b>Oral/Written Composing</b>																				
Listens and responds to simple oral directions	•	•	•	•		•	•	•	•											
Interprets pictures (main ideas, details)	•	•				•	•													
Listens and responds to a variety of poems and fairy tales (draws)	•	•				•														
Participates in prewriting activities (makes drawing)	•					•	•	•	•											
Dictates as teacher records experiences, stories, rhymes	•	•				•	•	•	•											
Makes drawings, prints letters or words in journal							•	•	•											
Copies words from fairy tales or experiences from samples printed by teacher		•							•											
Copies labels for pictures		•				•			•											
Identifies colors, shapes, objects, numbers (classification, comparison)	•	•	•	•			•													
Listens and responds to literature (role plays)	•	•				•														
Compares fairy tales to real life stories and own experiences	•					•		•												
Discusses plot, sequence, characters, experiences		•				•														
Participates in prewriting activities (brainstorming)	•	•				•	•	•	•											
Draws, prints in journal	•	•				•	•	•	•											
Dictates experience story (teacher records, children copy)		•						•	•											
		•								•		•							•

Oral/Written Composing	Adult Themes: represented by *																			
	1	2	3	4	5	6	7	8	9	10										
Classifies pictures in categories and copies labels for pictures as teacher dictates		*				*		*										*		
Listens and responds to historical stories (role play, dramatization)								*												
Makes comparisons in literature and content, discusses cause and effect of actions and events	*	*				*		*												
Tells story in sequence		*						*												
Discusses plot, character, setting, of stories		*				*														
Gives simple information about home and family		*				*		*	*											
Participates in prewriting activity (mapping)		*				*		*	*											
Participates in language experience activity		*						*	*										*	*
Classifies words in categories						*		*										*		*
Takes dictation								*	*											
Composes with class and teacher sentences that contain complete thoughts		*				*		*	*											
Listens and responds to animal stories (puppetry)						*		*												
Retells story in sequence		*						*										*		
Discusses inferences pictures, stories		*			*	*		*												
Speaks in sentences	*	*			*	*	*	*	*									*		*

Oral/Written Composing	Adult Themes: represented by •																			
	1	2	3	4	5	6	7	8	9	10										
Participates in prewriting activity (circle graphing)						•														
Becomes aware of steps in the writing process										•										
Copies story, poem from sample		*			*					•									*	*
Composes own sentences on a single subject		•				•				•									*	*
Composes rhymes	•	•			*					•	*							*	*	
Listens and responds to literature (flannel board)										•										
Identifies rhyming words in poetry	•					•														
Compares people in biographies (age, sex, race, activities)																				
Discusses mood of poems, character traits in biographies						•														
Discusses inferences, sequences in literature and content					*															
Participates in prewriting activity (fact storming)		•				•		•	•											
Shares experiences	•	•				•	•	•		•										
Writes 2 or 3 sentences on a single subject		*																	*	*
Listens and responds to fanciful tales and other literature (drawing or writing)						•														
Discusses reality and fantasy in stories, films: draws conclusions																				
Listens to a news article read and discusses <u>who, what, where, when</u>									•

<b>Oral/Written Composing</b>																				
Participates in prewriting activities (memory chain)	•	•				•		•	•											
Writes in expanded sentences on a single subject									•											
Listens and responds to literature (singing, dancing)	•	•				•														
Discusses own evaluation of literature						•														
Makes judgements about ideas from content areas, literature, film, cartoon, or news		•				•														
Participates in prewriting activities (variety)		•					•		•	•										
Exhibits classroom courtesy	•	•	•	•	•	•	•	•	•	•									•	•
	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•	•
<b>Language Analysis</b>																				
Recognizes key words from listening to literature and content area lessons	•								•											
Recognizes sight vocabulary, in context, from basals and other sources	•	•							•											
Recognizes letters of the alphabet	•	•				•			•											
Recognizes initial consonants (in context)	•				•			•												
Spells some sight words								•												
Learns formation of manuscript letters Prints first name in manuscript Begins to be aware of standard English through listening to literature, composing/dictating, listening to teacher, taking part in discussions	•								•											
	•	•	•	•	•	•	•	•	•	•										
		•			•		•		•	•	•	•	•	•	•	•	•	•	•	•

<b>Language Analysis</b>																				
Learns inflectional endings, <u>s,es,ed,ing</u>	•					•			•											
Learns use of irregular plurals (man,men)						•			•											
Uses previously presented spelling patterns	•								•											
Uses capitals, end punctuation, comma, apostrophe						•			•											
Recognizes and uses compound words	•					•			•											
Reviews decoding skills in context	•	•							•											
Reviews word attack skills in context	•	•							•											
Reviews previously taught skills									•											
<b>Social Studies</b>																				
Describes the shape of the earth						•														
Identifies the globe as a model of the earth						•														
Distinguishes land and water areas on a globe	•					•														
Identify continents						•														
Recognize the continents of North America and Africa by shape*						•														
Identifies the South Pole as the place farthest north on earth						•														
Identifies the South Pole as the place farthest south on earth						•

<b>Social Studies</b>																				
Identifies the equator as an imaginary line that circles the earth						•														
Recognizes the equator divides the earth in half						•														
Recognizes differences between maps and globes						•														
Identifies Pennsylvania as the state in which they live						•		•	•											
Identifies Philadelphia as the city in which they live						•		•	•											
Names the street on which they live						•		•	•											
Identifies the function of schools						•														
Identifies the terms map and map symbols						•														
Makes a picture map of the classroom						•														
Identifies the terms location, direction, and distance						•														
Defines the word <i>responsibility</i>						•		•												
Gives examples of individual responsibilities in school	*		*	*	*	*		•		•										*
Charts their own responsibilities and levels of school achievement	*		*	*	*	*		•		•										*
Identifies the eyes as the sensory organs that allows to see						•		•												*
Identifies properties of objects that can be seen					*	•		•												*
																				*

<b>Social Studies</b>																				
Relates emotions to different situations						.		.												.
Examines changes that occur with growth		.				.	.													.
Explains how dependency can lessen as maturity develops		.				.														
Classifies pictures of students according to age		.				.														
Associates age classifications with individual capabilities		.				.														
Identifies various ways that families celebrate holidays						.		.												
Names one celebration of another culture, e.g., Kwanza						.		.												
Defines a group						.		.												
Identifies three or more groups to which they belong						.		.												
Explains how it is possible to belong to more than one group at the same time						.		.												
Defines the term <i>family</i>		.				.		.												
Identifies their own family (including ancestors)								.												
Identifies Africa as the first homeland of African Americans*						.		.												
States names of family members						.		.												
Names three different family structures						.		.

Locate position of objects using the proper vocabulary, such as under, over, above, below, up, down	•	•				•	•													
Demonstrate movement to the left, right, front, back	•	•				•	•													
Compare wood pieces with shavings and sawdust						•	•													
Compare the properties of water as a solid and a liquid	•					•	•													
Arrange objects according to: color (darkest to lightest), size (smallest to largest), texture (smoothest to roughest), weight (lightest to heaviest)	•	•				•	•													•
Record observations of weather conditions such as sunny, rainy, cloudy, cold, warm, etc	•					•	•													
Use their senses to identify air as odorless and colorless						•	•													
Identify the changes from summer to fall	•	•				•	•													
Describe changes in temperature from cold to cool to warm to hot	•	•				•	•													
Distinguish the seasons-fall, winter, spring, summer	•	•				•	•													
Describe wind as moving air	•					•	•													
Demonstrate that air moves other objects, such as pinwheels, leaves on trees, and flags	•					•	•													
Demonstrate that air takes up space by filling a balloon, by collecting air in a plastic bag						•	•													
Identify living and non-living objects in the classroom and during neighborhood walks	•					•	•													
Sort pictures of living and non-living things into their proper groups	•					•	•

<b>Science</b>																				
Identify and sort seeds according to: color, size, shape, texture	*					*	*													*
Identify and sort seeds by two or more properties, such as texture and color, color and shape	*					*	*													*
Distinguish seeds from artificial objects of similar appearance, such as candy corn, pumpkin seeds, bits of grape, corn, pea pods	*					*	*													*
Demonstrate that germinating seeds need appropriate amounts of the following to grow: light, moisture, temp., nutrition							*													
Measure and graph height during the growth of plants	*					*	*													
Identify parts of a plant as leaf, stem, and the root						*	*													
Identify the seeds of some common fruits, such as: berries, peaches, apples, watermelon, tomatoes						*	*													
Identify the seeds of some fruits which are commonly called vegetables, such as bean, pea, cucumber, corn	*					*	*													*
Identify seeds of other familiar plants such as nuts, weeds, and trees	*					*	*													
Identify the processes of birth, growth, reproduction, and death by observing an aquarium stocked with guppies, platies, pond snails and live plants							*													
Describe the stages of animals that are hatched from eggs, such as birds, turtles and snails	*					*	*													*
Describe the developmental stages of animals that are born alive, such as puppies are baby dogs, kittens are baby cats, cubs are baby bears, fawns are baby deer. When humans are born, they are called babies; the growth stages are infant, baby toddler, child, teenager, adult	*					*	*													*
State that a habitat is a place where an organism lives						*	*		*		*									*
Identify some habitats where animals live, such as ponds, rivers, forest, grassland						*	*			*		*								*
Match animals to their appropriate habitats such as deer to forest, fish to ponds, squirrels to trees in cities and forest						*	*		*		*								*
