ABSTRACT

This document provides information on implementation procedures of Public Law 101-301, which amends Public Law 100-297 (Hawkins Stafford Act 1988). P.L. 101-301 permits tribes and authorized tribal grant schools to request that Congressionally appropriated funds for facilities operation and maintenance, including construction funds for elementary and secondary education, be included in grants as authorized by P.L. 100-297. This amendment does not change the manner in which funds are administered, but allows the transfer of funds and involves minimal changes to existing instructions and forms. The document also includes: (1) information on P.L. 95-224 (Federal Grant and Cooperative Agreement Act of 1977) that defines the use of contracts, grants, and cooperative agreements between the federal government and the award recipient; (2) instructions for completing the P.L. 101-301 facilities construction application form; (3) a standard form for computing budget information for construction programs; (4) government assurances for construction programs; (5) financial reporting requirements; (6) information on 43 CFR Part 12 that involves administrative and audit requirements and cost principles for assistance programs; and (7) sections of 43 CFR Part 12 relevant to P.L. 101-301 facilities construction grant requirements and implementation. CONSULTATION ITEM/TOPIC:

Public Law 101-301 "Miscellaneous Indian Law Amendments"

POTENTIAL ISSUE OR CHANGE:

P.L. 101-301 permits Tribes and authorized Tribal Grant Schools to request that Congressionally appropriated funds for Facilities Operation and Maintenance; Minor Improvement and Repair (Health/Safety Abatement); Major Facilities Improvement and Repair and Facilities Construction funds for elementary and secondary education be included in grants as authorized by P.L. 100-297.

REASON FOR PROPOSING ISSUE OR CHANGE:

To clarify the process the BIA will use to implement the inclusion of education facilities programs and school construction projects in P.L. 101-297 grants. This process will not change the way Facilities Operation and Maintenance funds are administered.

CURRENT OPTION(S) BEING CONSIDERED BY THE BUREAU:

To use the P.L. 100-297 grant document as the vehicle to transfer funds under this amendment. Only minimal changes will be made to existing instructions and forms to include construction accounts.

To incorporate into the P.L. 100-297 process, 43 CFR Part 12 - Single Audit Act and Administrative and Audit Requirements and Cost Principals for Assistance Programs, as the procedures for applying for construction and FI&R grants.

The procedures under 43 CFR Part 12 provide for the use of Standard Form 424 as the application form.

BACKGROUND

=====

The Bureau of Indian Affairs established a team composed of representatives of Tribal P.L. 100-297 grant schools; the Office of Construction Management; Office of Indian Education Programs; the Bureau's Facilities Management Construction Center; Bureau of Indian Affairs Contracts Officer, and the Department of Interior's Office of the Solicitor, to develop recommended implementation procedures relative to the authorities contained in P.L. 100-297, as amended by P.L. 101-301.

As a result of the Team's work, the Bureau of Indian Affairs is proposing to incorporate into the P.L.100-297 grant process 43 CFR Part 12, A-D, as the application process which outlines the facilities construction grants requirements.

Rationale:

- a. These requirements were promulgated prior to the enactment of P. L. 100-297 and have been incorporated into the OMB Audit and Reporting Requirements.
- b. These requirements apply to all Department of the Interior grants and treat applicants equally.
- c. The Department of the Interior and other Federal agencies have awarded grants to Federally recognized tribes using this established application process. Thus, Tribes are familiar with the requirements.

The Bureau of Indian Affairs is not proposing to change how appropriated facilities funding or construction projects are identified and prioritized as a result of the P.L. 101-301 amendments to P.L. 100-297. The amendments did not create a separate priority ranking process for P.L. 100-297 grant schools to obtain appropriated facilities funding. However, once facilities funds or a construction project is identified for a grant school and funds are appropriated by Congress for the project, the Tribe or its authorized representatives may request the funds be included in their school grant.

For several of the facilities construction accounts, prioritization of projects is based on deficiencies identified in the BIA facilities inventory, the FACCOM system. For new school construction, P.L. 100-297 grant schools will still be required to submit applications and compete under the priority ranking procedures for new school construction with other BIA-funded schools. The Bureau of Indian Affairs is not proposing to change or supersede these established prioritization processes.

MISCELLANEOUS INDIAN LAW AMENDMENTS

The following is the amending language from P.L. 101-301 to P.L. 100-297 with regard to facilities accounts:

(g) (1) Paragraph (2) of subsection 5205(a) of the Tribally Controlled Schools Act of 1988 (25 U.S.C. 2504 (a)) is amended to read as follows: (2) to the extent requested by such

Indian tribe or tribal organization, the total amount of funds provided from operations and maintenance accounts and, notwithstanding section 105 of the Indian Self-determination Act (25 U.S.C. 450j), or any other provision of law, other facilities accounts for such schools for such fiscal year including but not limited to all those referenced under section 1126(d) of the Education Amendments of 1978, or any other law), and, (2) Subsection (b) of section 5205 of the Tribally Controlled Schools Act of 1988 (25 U.S.C. 2504(b) is amended by adding the following new paragraph:

"(4) Notwithstanding the provision of paragraph 5204(a)(2) of the Tribally Controlled Schools Act of 1988 (25 U.S.C. 2503(a)(2), with respect to funds from facilities improvement and repair, alteration and renovation (major or minor), health and safety, or new construction accounts included in the grant under such paragraph (a)(2), the grantee shall maintain a separate account for such funds and shall, at the end of the period designated for the work covered by the funds received, render a separate accounting of the work done and the funds used to the Secretary. Funds received from these accounts may only be used for the purposes for which they were appropriated and for the work encompassed by the application or submission under which they were received.....

THE IMPLEMENTATION PROCESS

The following is an outline of the proposed implementation process for Tribal Governments or their officially sanctioned representatives regarding applications and grants under P.L. 100-297, as amended by P.L. 101-301:

- 1. Congress passes Department of Interior, Bureau of Indian Affairs Construction Appropriations.**
- 2. Facilities Management and Construction Center (FMCC) notifies affected Tribes of projects and the amount of funding which may be granted.**
- 3. The Tribal government or officially sanctioned representative of the Tribe identified in the tribal resolution requests that facilities construction project funds be included in the P.L. 100-297 Grant by submission of Standard Form 424 and all other information required under 43 CFR Part 12, A-D, to the Office of Indian Education Programs line officer.**
- 4. The Office of Indian Education Programs line officer convenes a meeting of the Agency/Area/and FMCC technical facilities construction experts to review the facilities construction grant application and make a determination on the capabilities of the applicant to perform the identified project following the provisions outlined in 43 CFR Part 12, A-D. Once a determination is made, the applicant will be notified in writing of the determination and a negotiation meeting will be arranged to determine the specific requirements of the project.**
- 5. Once the negotiations are finalized, a construction award will be implemented for a specific designated phase (planning, design or construction) of the total project and authorization for transfer of the negotiated amount for that phase of the project to the P.L.100-297 grant will be made.**

6. Upon completion of one phase of the project, the same procedures will be employed to negotiate the next phase of the project and so on until the project is complete.

An Act:

To distinguish Federal grant and cooperative agreement relationships from Federal procurement relationships, and for other purposes.

Feb. 3, 1978
[H.R. 7691]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act be cited as the "Federal Grant and Cooperative Agreement Act of 1977".

FINDINGS AND PURPOSE

Sec. 2. (a) The Congress finds that—

(1) there is a need to distinguish Federal assistance relationships from Federal procurement relationships and thereby to standardize usage and clarify the meaning of the legal instruments which reflect such relationships;

(2) uncertainty as to the meaning of such terms as "contract", "grant", and "cooperative agreement" and the relationships they reflect causes operational inconsistencies, confusion, inefficiency, and waste for recipients of awards as well as for executive agencies; and

(3) the Commission on Government Procurement has documented these findings and concluded that a reduction of the existing inconsistencies, confusion, inefficiency, and waste is feasible and necessary through legislative action.

(b) The purposes of this Act are—

(1) to characterize the relationship between the Federal Government and contractors, State and local governments, and other recipients in the acquisition of property and services and in the furnishing of assistance by the Federal Government so as to promote a better understanding of Federal spending and help eliminate unnecessary administrative requirements on recipients of Federal awards;

(2) to establish Government-wide criteria for selection of appropriate legal instruments to achieve uniformity in the use by the executive agencies of such instruments, a clear definition of the relationships they reflect, and a better understanding of the responsibilities of the parties;

(3) to promote increased discipline in the selection and use of types of contract, grant agreement, and cooperative agreements and to maximize competition in the award of contracts and encourage competition, where deemed appropriate, in the award of grants and cooperative agreements; and

(4) to require a study of the relationship between the Federal Government and grantees and other recipients in Federal assistance programs and the feasibility of developing a comprehensive system of guideline for the use of grant and cooperative agreements, and other forms of Federal assistance in carrying out such programs.

Federal Grant
and Cooperative
Agreement Act of
1977.
41 USC 501 note.
41 USC 501.

DEFINITIONS

41 USC 502.

Sec. 3. As used in this Act, the term—

(1) "State government" means any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, any agency or instrumentality of a State, and any multi-State, regional, or interstate entity which has governmental functions;

(2) "local government" means any unit of government within a State, a county, municipality, city, town, township, local public authority, special district, intrastate district, council of governments, sponsor group representative organization, other interstate government entity, or any other instrumentality of a local government;

(3) "other recipient" means any person or recipient other than a State or local government who is authorized to receive Federal assistance or procurement contracts and includes any charitable or educational institution;

(4) "executive agency" means any executive department as defined in section 101 of title 5, United States Code, a military department as defined in section 102 of title 5, United States Code, an independent establishment as defined in section 104 of title 5, United States Code (except that it shall not include the General Accounting Office), a wholly owned Government corporation; and

(5) "grant or cooperative agreement" does not include any agreement under which only direct Federal cash assistance to individuals, a subsidy, a loan, a loan guarantee, or insurance is provided.

USE OF CONTRACTS

41 USC 503.

Sec. 4. Each executive agency shall use a type of procurement contract as the legal instrument reflecting a relationship between the Federal Government and a State or local government or other recipient—

(1) whenever the principal purpose of the instrument is the acquisition, by purchase, lease, or barter, of property or services for the direct benefit or use of the Federal Government; or

(2) whenever an executive agency determines in a specific instance that the use of a type of procurement contract is appropriate.

USE OF GRANT AGREEMENTS

41 USC 504.

Transfers.

Sec. 5. Each executive agency shall use a type of grant agreement as the legal instrument reflecting a relationship between the Federal Government and a State or local government or other recipient whenever—

(1) the principal purpose of the relationship is the transfer of money, property, services, or anything of value to the State or local government or other recipient in order to accomplish a public purpose of support or stimulation authorized by Federal statute, rather than acquisition, by purchase, lease, or barter, of property or services for the direct benefit or use of the Federal Government; and

(2) no substantial involvement is anticipated between the executive agency, acting for the Federal Government, and the State or local government or other recipient during performance of the contemplated activity.

contracts, grants, or cooperative agreements, but it does require that the choice and use of these legal instruments reflect the type of basic relationship expected between the Federal and non-Federal parties.

P.L. 95-224 authorizes Executive agencies to enter into contracts, grant agreements, or cooperative agreements. It also requires consistency in selecting and using these instruments by Executive agencies so that they will reflect basic Federal/non-Federal relationships. Maximum practical competition in the award of instruments is encouraged.

A comprehensive two-year study requirement was embodied in the Act to examine alternate methods of implementing Federal assistance programs and to determine the feasibility of developing a comprehensive guidance system for using grants, cooperative agreements, and other forms of Federal assistance. The study was to include development of a description of a central system of guidance for Federal assistance programs, as well as a plan for developing such a system. A report of the study, entitled Managing Federal Assistance in the 1980s, was submitted to the Congress on March 5, 1980.

To ensure that the legislation does not unintentionally interfere with existing programs, the Act contains the following provisions:

1. Any existing legal Federal/non-Federal arrangement, or one entered into up to one year after enactment, will not be affected.
2. Nothing in the Act requires the establishment of a single relationship between the Federal Government and a State or local government, or other recipient, on a jointly funded project involving funds from more than one program or appropriation. Where different relationships would otherwise be appropriate within the different components of a project, the establishment of multiple relationships will be allowed.
3. The Director of OMB will be authorized to exempt individual transactions or programs of any Executive agency from the provisions of the Act. This authority will expire March 5, 1981, one year after the report of the mandated study was received by Congress.

USE OF CONTRACTS, GRANTS, AND COOPERATIVE AGREEMENTS

Sections 4, 5, and 6 of the Act set forth the criteria that require the use of either a procurement contract, a grant agreement, or a cooperative agreement as the legal instrument between the Federal Government and the recipient of a Federal award. These sections require that the legal instruments employed in transactions between Federal agencies and non-Federal recipients of awards reflect the basic character of the relationships established. The exact terms, conditions, and clauses that are contained in these instruments are not necessarily determined by these criteria.

The sections identify the following basic relationships found in transactions between Federal agencies and recipients of contracts and Federal assistance awards:

<u>Relationship</u>	<u>Instrument</u>
• The principal purpose of the relationship is the acquisition, by purchase, lease, or barter, of property or services for the direct benefit or use of the Federal Government. This is Federal purchase for Federal or third-party use.	Contract
• The principal purpose of the relationship is the transfer of money, property, services, or anything of value to the recipient in order to accomplish a public purpose of support or stimulation; there will be no substantial involvement between the Federal agency and the recipient during performance of the activity. The Federal agency is a "patron" of the grantee.	Grant
• The principal purpose of the relationship is the transfer of money, property, services, or anything of value to the recipient to accomplish a public purpose of support or stimulation; there will be substantial involvement between the Federal agency and the recipient during performance of the activity, establishing the agency as a "partner" during performance.	Cooperative Agreement

The following explanation will further clarify the distinctions among these three instruments:

Contracts: The term contract should be restricted to procurement relationships. It should not be used to express assistance-type relationships. Price competition considerations should be kept in the procurement area. The justifications required for selection of award in the procurement process should not be allowed to complicate the processing of an assistance transaction. A contract should be used to effect a procurement relationship, regardless of who the parties are (i.e., contracts should be used for procurements accomplished by Federal grantees under their grants.)

Grant: The term grant should be restricted to assistance relationships in which the performance responsibility rests basically with the recipient and little or no Federal involvement or participation is required.

Cooperative Agreements: Cooperative or participatory Federal/non-Federal assistance relationships in which Federal involvement is needed during performance are distinct from grants or contracts. The term cooperative agreement should be used.

FINANCIAL REPORTING REQUIREMENTS

1. This Attachment prescribes uniform reporting procedures for grantees to: summarize expenditures made and Federal funds unexpended for each award, report the status of Federal cash advanced, request advances and reimbursement when the letter-of-credit method is not used; and promulgates standard forms incident thereto. Grantees when obtaining financial information required by Federal agencies from subgrantees are not required to use the forms contained in this Attachment.

2. The following definitions apply for purposes of this Attachment:

a. Accrued expenditures. Accrued expenditures are the charges incurred by the grantee during a given period requiring the provision of funds for: (1) goods and other tangible property received; (2) services performed by employees, contractors, subgrantees, and other payees; and (3) other amounts becoming owed under programs for which no current services or performance is required such as annuities, insurance claims, and other benefit payments.

b. Accrued income. Accrued income is the sum of (1) earnings during a given period from (i) services performed by the grantee; and (ii) goods and other tangible property delivered to purchasers; and (2) amounts becoming owed to the grantee for which no current services or performance is required by the grantee.

c. Federal funds authorized. Federal funds authorized are the total amount of Federal funds obligated by the Federal Government for use by the grantee. This amount may include any authorized carryover of unobligated funds from prior fiscal years when permitted by law or agency regulation.

d. In-kind contributions. In-kind contributions are defined in Attachment F to this Circular.

e. Obligations. Obligations are the amounts of orders placed, contracts and grants awarded, services received, and similar transactions during a given period that will require payment by the grantee during the same or a future period.

(No. A-102)

f. Outlays. Outlays or expenditures represent charges made to the project or program. They may be reported on a cash or accrual basis. For reports prepared on a cash basis, outlays are the sum of actual cash disbursements for direct charges for goods and services, the amount of indirect expense charged, the value of in-kind contributions applied, and the amount of cash advances and payments made to subgrantees. For reports prepared on an accrual basis, outlays are the sum of actual cash disbursements for direct charges for goods and services, the amount of indirect expense incurred, the value of in-kind contributions applied, and the net increase (or decrease) in the amounts owed by the grantee for goods and other property received, for services performed by employees, contractors, subgrantees and other payees and other amounts becoming owed under programs for which no current services or performance are required such as annuities, insurance claims, and other benefit payments.

g. Program income. Program income is defined in Attachment E of this Circular. It may be reported on a cash or accrual basis, whichever is used for reporting outlays.

h. Unobligated balance. The unobligated balance is the portion of the funds authorized by the Federal agency that has not been obligated by the grantee and is determined by deducting the cumulative obligations from the cumulative funds authorized.

i. Unliquidated obligations. For reports prepared on a cash basis, unliquidated obligations represent the amount of obligations incurred by the grantee that has not been paid. For reports prepared on an accrued expenditure basis, they represent the amount of obligations incurred by the grantee for which an outlay has not been recorded.

3. Only the following forms will be authorized for obtaining financial information from grantees.

a. Financial Status Report (Exhibit 1).

(1) Each Federal agency shall require grantees to use the standardized Financial Status Report to report the status of funds for all nonconstruction projects or programs. The Federal agencies may, however, have the option of not requiring the Financial Status Report when the Request for Advance or Reimbursement (paragraph 4a) or Report of Federal Cash Transactions (paragraph 3b) is determined to provide adequate information to meet their needs, except that a final Financial Status Report shall be required at the completion of the project

(No. A-102)

when the Request for Advance or Reimbursement form is used only for advances.

(2) The Federal agency shall prescribe whether the report shall be on a cash or accrual basis. If the Federal agency requires accrual information and the grantee's accounting records are not normally kept on the accrual basis, the grantee shall not be required to convert its accounting system, but shall develop such accrual information through an analysis of the documentation on hand.

(3) The Federal agency shall determine the frequency of the Financial Status Report for each project or program considering the size and complexity of the particular project or program. However, the report shall not be required more frequently than quarterly or less frequently than annually except as provided in subparagraph 3a(1) above. A final report shall be required at the completion of the grant.

(4) Federal agencies shall require grantees to submit the Financial Status Report (original and no more than two copies) no later than 30 days after the end of each specified reporting period for quarterly and semi-annual reports, and 90 days for annual and final reports. Extensions to reporting due dates may be granted upon request of the recipient.

b Report of Federal Cash Transactions (Exhibit 2).

(1) When funds are advanced to grantees through letters of credit or with direct Treasury checks, the Federal agencies shall require each grantee to submit a Report of Federal Cash Transactions. The Federal agency shall use this report to assist them in monitoring advances to grantees and to obtain disbursement information for each agreement from the grantee. Grantees under the Regional Disbursing Office (RDO) system shall not be required to submit a Report of Federal Cash Transactions. For these grantees Federal agencies shall use information contained in the Request for Payment to monitor grantee cash balances and to get disbursement information.

(2) Federal agencies may require forecasts of Federal cash requirements in the "Remarks" section of the report.

(3) When practical and deemed necessary, the Federal agencies may require grantees to report in the "Remarks" section the amount of excess cash advances in the hands of subgrantees

(No. A-102)

and to provide short narrative explanations of actions taken by the grantees to reduce the excess balances.

(4) Grantees shall be required to submit not more than the original and two copies of the Report of Federal Cash Transactions 15 working days following the end of each quarter. The Federal agencies may require a monthly report from those grantees receiving advances totaling \$1 million or more per year.

(5) Federal agencies may waive the requirement for submission of the Report of Federal Cash Transactions when monthly advances do not exceed \$10,000 per grantee, provided that such advances are monitored through other forms contained in this Attachment, or if, in the Federal agency's opinion, the grantee's accounting controls are adequate to minimize excessive Federal advances.

4. Except as noted below, only the following forms will be authorized for grantees in requesting advances and reimbursements.

a. Request for Advance or Reimbursement (Exhibit 3).

(1) Each Federal agency shall adopt the Request for Advance or Reimbursement as a standardized form for all nonconstruction programs when letters-of-credit or predetermined advance methods are not used. Federal agencies, however, have the option of using this form for construction programs in lieu of the Outlay Report and Request for Reimbursement for Construction Programs (subparagraph 4b).

(2) Grantees shall be authorized to submit requests for advances and reimbursements at least monthly when letters-of-credit are not used. Federal agencies shall not require the submission of more than the original and two copies of the Request for Advance or Reimbursement.

b. Outlay report and request for reimbursement for construction programs (Exhibit 4).

(1) Each Federal agency shall adopt the Outlay Report and Request for Reimbursement for Construction Programs as the standardized format to be used for requesting reimbursement for construction programs. The Federal agencies may, however, have the option of substituting the Request for Advance or Reimbursement Form (subparagraph 4a) when the Federal agencies

(No. A-102)

determine that it provides adequate information to meet their needs.

(2) Grantees shall be authorized to submit requests for reimbursement at least monthly when letters-of-credit are not used. Federal agencies shall not require more than the original and two copies of the Outlay Report and Request for Reimbursement for Construction Programs.

5. When the Federal agencies need additional information in using these forms or more frequent reports, the following shall be observed:

a. When additional information is needed to comply with legislative requirements, Federal agencies shall issue instructions to require grantees to submit such information under the "Remarks" section of the reports.

b. When a Federal agency has determined that a grantee's accounting system does not meet the standards for financial management contained in Attachment G to this Circular, additional pertinent information to further monitor grants and other agreements may be obtained upon written notice to the grantee until such time as the system is brought up to standard.

c. The Federal agency, in obtaining information as in paragraphs a and b above, must comply with reports clearance requirements of the Office of Management and Budget Circular No. A-40, as revised.

6. Federal agencies have the option of shading out any line item on any report that is unnecessary for decision-making purposes.

7. Federal agencies should accept the identical information from the grantees in machine usable format or computer printouts in lieu of prescribed formats.

8. Federal agencies may provide computer outputs to grantees when it will expedite or contribute to the accuracy of reporting.

9. The standard forms can be obtained from the General Services Administration.

REPORTS

FINANCIAL REPORTING

The OMB Circulars establish uniform reporting procedures to summarize expenditures, Federal funds expended, status of Federal cash advanced, and reimbursements.

There are three types of forms prescribed for financial reporting:

- The Financial Status Report (Standard Form 269);
- The Federal Cash Transactions Report (Standard Form 272 and 272a); and
- The Request for Advance or Reimbursement (Standard Form 270).

The Financial Status Report is the basic report for accounting for agreement expenditures and Federal funds. It provides a breakdown of expenditures by major program functions and activities as reflected in the agreement budget. It is therefore important that consideration be given to the capabilities of the financial management systems of the recipient institutions at the time guidelines for development of the agreement budgets are prepared. Within the constraints imposed in Federal agency guidelines, an agreement budget should be structured so that reporting against the budget can be accomplished through the basic accounting system. To the extent that the Federal Agency requires an activity structure different from that normally provided by the basic accounting systems, the recipient should be alerted to plan for such reporting.

The Financial Status Reports provide the final accounting for the project as well as such interim reports as are required for agreements management and project evaluation. They may not be required more frequently than quarterly.

The Federal Cash Transactions Report is used to provide interim reports of the status of Federal cash, gross disbursements, program income, letter of credit withdrawals and treasury checks payments. It does not provide details

of expenditures by programs, functions or activities and is therefore only a gross indicator of the financial progress of the program. It is also used to project future cash requirements.

The Request for Advance or Reimbursement is used where no letter of credit or prescheduled treasury check advances have been established. It provides an interim report of the expenditures and status of Federal funds and estimates of future fund requirements. It can be used to make interim reports of expenditures by programs, functions and activities. Recipients who do not receive prescheduled advances or a letter of credit against which to draw cash may submit this request as often as monthly to be reimbursed for expenditures and to obtain such advances as may be approved.

Financial reports serve three main purposes. First, they provide the Federal agency with indicators of the recipient's need for cash. They are used to establish amounts of letters of credit or to determine the amount and timing of Treasury check advances and reimbursement. For this purpose, it is important that they be accurate and timely. Secondly, financial reports are used in the evaluation of project progress. They provide indicators of level of effort as well as of shifts in program emphasis. Thirdly, financial reports are used as part of the accountability for Federal funds. They indicate the extent of compliance with budget constraints in agreement awards and provide part of the basis for reporting back to the Treasury Department, the Office of Management and Budget, and the Congress.

TECHNICAL AND PROGRESS REPORTS

There is probably nothing more burdensome to principal investigators or project managers than the preparation of technical or progress reports. It takes time away from supervision of, and participation in, the project and reminds them that they are being supervised by someone outside their own organization. Consequently, technical and progress reports should be as brief as possible while still providing necessary information for program monitoring. The technical and progress reports should supplement rather than duplicate financial reports, required approvals, and site visits. Under OMB Circulars A-102 and A-110, reporting should provide, for each activity identified in the agreement award or application:

- A comparison of actual performance to goals (quantified if possible);
- Reasons why established goals were not met; and
- Other pertinent information such as explanation of cost overruns and high unit costs.

Technical and progress reports are to be submitted at the same time as financial reports and are to cover the same periods. If the reports are set up with the same set of activities, it is possible to use the two reports together to make some preliminary assessments of performance, problems, and possible future budget revisions. Special reports are required for events with significant impact on the project or program, and when the performance review indicates the need for a budget revision, a request must be submitted to the assistance official's office.

Proposed technical and performance reports must be approved by the Office of Management and Budget under 5 CFR 1320 (formerly OMB Circular A-40). This approval prevents the establishment of highly detailed and burdensome reporting requirements. In addition, OMB has standardized financial reports in such a way as to limit the amount of detail which can be provided.

While these limits may seem overly restrictive, they do have the effect of encouraging agencies to make proper use of site visits and audits.

Some agencies schedule the receipt of performance reports and financial status reports to coincide with receipt of applications for continuations and renewals. This assures current progress and financial information at the time of application review, but it may impose more frequent reporting than would otherwise be necessary in order to reconcile financial and progress reporting on a program-year basis.

ADMINISTRATIVE AND AUDIT

REQUIREMENTS AND COST PRINCIPLES

FOR ASSISTANCE PROGRAMS

plume containing the released substance becomes elongated. The time the plume might take to pass a particular point downstream may be estimated using the following equation:

$$T_p = 9.25 \times 10^4 W_p / (Q C_p)$$

where

T_p is the time estimate, in hours, and W_p , C_p , and Q are defined above.

EXAMPLE 2: A release occurs and most of the oil or hazardous substance enters a creek, stream, or river very slowly or over a long time period (sustained input assumed). The maximum concentration at any downstream location, past the initial mixing distance, is estimated by:

$$C_m = C_p(Q) / (Q + q)$$

where C_p and Q are defined above.

C_p is the average concentration of the released substance during the period of release, in mg/L, and

q is the discharge rate of the release into the streamflow, in cubic feet/second.

For the above computations, the initial mixing distance may be estimated by:

$$L_m = (1.7 \times 10^{-5}) V_p B^2 / (D^{1/4} S^{1/2})$$

where

L_m is the initial mixing distance, in miles.

V_p is defined above.

B is the average stream surface width, in ft.

D is the mean depth of the stream, in ft. and

S is the estimated water-surface slope, in ft./ft.

EXAMPLE 3: A release occurs and the oil or hazardous substance enters a pond, lake, reservoir, or coastal body of water. The concentration of soluble released substance in the surface water body may be estimated by:

$$C_s = C V_p / (V_s + V_p)$$

where

C_p and C are defined above.

V_p is the estimated total volume of substance released, in volumetric units, and

V_s is the estimated volume of the surface water body, in the same volumetric units used for V_p .

§ 12.12 Suspension.

The rule supersedes the requirements of Attachment P, "Audit Requirements," dated October 22, 1979, in Circular A-102, "Uniform requirements for grants to State or local governments for grants to State and local governments," among recipients of assistance for which the Department of the Interior is the cognizant audit agency.

§ 12.13 Background.

The Single Audit Act builds upon earlier efforts to improve audits of Federal aid programs. The Act requires State or local governments that receive \$100,000 or more a year in Federal funds to have an audit made for that year. Section 7505 of the Act requires the Director of the Office of Management and Budget to prescribe policies, procedures and guidelines to implement the Act. It specifies that the Director shall designate "cognizant" Federal agencies, determine criteria for making appropriate charges to Federal programs for the cost of audits, and provide procedures to assure that small firms or firms owned and controlled by disadvantaged individuals have the opportunity to participate in contracts for single audits.

§ 12.14 Policy.

The Single Audit Act requires the following:

- (a) State or local governments that receive \$100,000 or more a year in Federal financial assistance shall have an audit made in accordance with this Circular.
- (b) State or local governments that receive between \$25,000 and \$100,000 a year have an audit made in accordance with this Circular, or in accordance with Federal laws and regulations governing the programs they participate in.
- (c) State or local governments that receive less than \$25,000 a year shall be exempt from compliance with the Act and other Federal audit require-

(g) *Internal controls* means the plan of organization and methods and procedures adopted by management to ensure that:

- (1) Resource use is consistent with laws, regulations, and policies;
- (2) Resources are safeguarded against waste, loss, and misuse; and
- (3) Reliable data are obtained, maintained, and fairly disclosed in reports.

(h) *Indian tribe* means any Indian tribe, band, nation, or other organized group or community, including any Alaskan Native village or regional or village corporations (as defined in, or established under, the Alaskan Native Claims Act) that is recognized by the United States as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

(i) *Local government* means any unit of local government within a State, including a county, a borough, municipality, a city, town, township, parish, local public authority, special district, school district, intrastate district, council of governments, and any other instrumentality of local government.

(j) *Major Federal assistance program*, as defined by Public Law 98-502, is described in the appendix to this rule.

(k) *Public accountants* means those individuals who meet the qualification standards included in generally accepted government auditing standards for personnel performing government audits.

(l) *State* means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, the Commonwealth of the Northern Mariana Islands, and the trust Territory of the Pacific Islands, any instrumentality thereof, and any multi-State regional, or interstate entity that has governmental functions and any Indian tribe.

(m) *Subrecipient* means any person or government department, agency, or establishment that receives Federal financial assistance to carry out a program through a State or local government, but does not include an individual that is a beneficiary of such a program. A subrecipient may also be a con-

tracting recipient of Federal financial assistance.

§ 12.16 Scope of audit.

The Single Audit Act provides generally accepted government auditing standards covering financial compliance audits.

(a) The audit shall be made by dependent auditor in accordance with the option of that government, it may cover departments, cities or establishment that receive funded, or otherwise administered financial assistance during the year. However, if a State or local government receives \$25,000 or more in General Revenue Sharing Fund fiscal year, it shall have an audit of entire operations. A series of audit individual departments, agencies, establishments for the same year may be considered a single audit.

(c) Public hospitals and public colleges and universities may be excluded from State and local audits and requirements of this rule. However, such entities are excluded, and those entities shall be made in accordance with statutory requirements grants to universities, hospitals other nonprofit organizations.

(d) The auditor shall determine:

(1) The financial statements of government, department, agency establishment present fairly its financial position and the results of its financial accounting principles;

(2) The organization has internal control and other control systems provide reasonable assurance that managing Federal financial assistance programs in compliance with applicable laws and regulations; and

(3) The organization has compliance with laws and regulations that have a material effect on its financial statements and on each major Federal financial assistance program.

§ 12.17 Frequency of audit.

Audits shall be made annually unless the State or local government has, by January 1, 1987, a con-

tional or statutory requirement for internal audits. For those government cognizant agency shall permit biennial audits, covering both years of the government so requests. It shall honor requests for biennial audits by governments that have administrative policy calling for audits less frequent than annual, but only for fiscal years beginning before January 1, 1987.

§ 12.18 Internal control and compliance reviews.

The Single Audit Act requires that the independent auditor determine and report on whether the organization has internal control systems to provide reasonable assurance that it is managing Federal assistance programs in compliance with applicable laws and regulations.

(a) *Internal control review.* In order to provide this assurance the auditor must make a study and evaluation of internal control systems used in administering Federal assistance programs. The study and evaluation must be made whether or not the auditor intends to place reliance on such systems. As part of this review, the auditor shall:

- (1) Test whether these internal control systems are functioning in accordance with prescribed procedures.
- (2) Examine the recipient's system for monitoring subrecipients and obtaining and acting on subrecipient audit reports.

(b) *Compliance review.* The law also requires the auditor to determine whether the organization has complied with laws and regulations that may have a material effect on each major Federal assistance program.

(1) In order to determine which major programs are to be tested for compliance, State and local governments shall identify in their accounts all Federal funds received and expended and the programs under which they were received. This shall include funds received from Federal agencies and through other State and local governments.

(2) The review must include the selection and testing of a representative number of charges from each major Federal assistance program. The selec-

tion and testing of transactions shall be based on the auditor's professional judgment considering such factors as the amount of expenditures for the program and the individual awards; the newness of the program or changes in its conditions; prior experience with the program, particularly as revealed in audits and other evaluations (e.g., inspections, program reviews); the extent to which the program is carried out through subrecipients; the extent to which the program contracts for goods or services; the level to which the program is already subject to program reviews or other forms of independent oversight; the adequacy of the controls for ensuring compliance; the expectation of adherence or lack of adherence to the applicable laws and regulations; and the potential impact of adverse findings.

(1) In making the test of transactions, the auditor shall determine whether:

The amounts reported as expenditures were for allowable services, and The records show that those who received services or benefits were eligible to receive them.

(II) In addition to transaction testing, the auditor shall determine whether:

Matching requirements, levels of effort and earmarking limitations were met, and Federal financial reports and claims for advances and reimbursements contain information that is supported by the books and records from which the basic financial statements have been prepared, and

Amounts claimed or used for matching were determined in accordance with OMB Circular A-87, "Cost principles for State and local governments," and Attachment F of Circular A-102, "Uniform requirements for grants to State and local governments."

(III) The principal compliance requirements of the largest Federal aid programs may be ascertained by referring to *Compliance Supplement for Single Audits of State and Local Governments*, issued by OMB and available from the Government Printing Office. For those programs not covered in the Compliance Supplement, the auditor may ascertain compliance requirements by researching the stat-

Office of the Secretary of the Interior

utes, regulations, and agreements governing individual programs.

(3) Transactions related to other Federal assistance programs that are selected in connection with examinations of financial statements and evaluations of internal controls shall be tested for compliance with Federal laws and regulations that apply to such transactions.

§ 12.19 Subrecipients.

State or local governments that receive Federal financial assistance and provide \$25,000 or more of it in a fiscal year to a subrecipient shall:

(a) Determine whether State or local subrecipients have met the requirements of this rule as subrecipients covered by Circular A-110, "Uniform requirements for grants to universities, hospitals, and other nonprofit organizations," have met that requirement;

(b) Determine whether the subrecipient spent Federal assistance funds provided in accordance with applicable laws and regulations. This may be accomplished by reviewing an audit of the subrecipient made in accordance with this rule, OMB Circular A-110, or through other means (e.g., program reviews) if the subrecipient has not yet had such an audit.

(c) Ensure that appropriate corrective action is taken within six months after receipt of the audit report in instances of noncompliance with Federal laws and regulations;

(d) Consider whether subrecipient audits necessitate adjustment of the recipient's own records; and

(e) Require each subrecipient to permit independent auditors to have access to the records and financial statements as necessary to comply with this rule.

§ 12.20 Relation to other audit requirements.

The Single Audit Act provides that an audit made in accordance with this rule shall be in lieu of any financial or financial compliance audit required under individual Federal assistance programs. To the extent that a single audit provides Federal agencies with information and assurances they need to carry out their overall responsibilities,

§ 12.21

ties, they shall rely upon and use such information. However, a Federal agency shall make any additional audits which are necessary to carry out its responsibilities under Federal law and regulation. Any additional Federal audit effort shall be planned and carried out in such a way as to avoid duplication.

(a) The provisions of this rule do not limit the authority of Federal agencies to make, or contract for audits and examinations of Federal financial assistance programs, nor do they limit the authority of any Federal agency Inspector General or other Federal audit official.

(b) The provisions of this rule do not authorize any State or local government or subrecipient thereof to constrain Federal agencies, in any manner, from carrying out additional audits.

(c) A Federal agency that makes or contracts for audits made by recipients pursuant to this rule shall, consistent with other applicable laws and regulations, arrange for funding the cost of such additional audits. Such additional audits include economy and efficiency audits, program results audits, and program evaluations.

§ 12.21 Department of the Interior responsibilities.

The Single Audit Act provides for cognizant Federal agencies to oversee the implementation of OMB Circular A-128 and this rule.

(a) The Office of Management and Budget will assign cognizant agencies for States and their subdivisions. Other Federal agencies may participate with an assigned cognizant agency, in order to fulfill the cognizance responsibilities. Smaller governments not assigned a cognizant agency will be under the general oversight of the Federal agency that provides them the most funds whether directly or indirectly.

(b) A cognizant agency shall have the following responsibilities:

(1) Ensure that audits are made and reports are received in a timely manner and in accordance with the requirements of this rule.

(2) Provide technical advice and liaison to State and local governments and independent auditors.

(3) Obtain or make quality control reviews of selected audits made by non-Federal organizations and provide the results, when appropriate, to other interested organizations.

(4) Promptly inform other affected Federal agencies and appropriate Federal law enforcement officials of any reported illegal acts or irregularities.

They should also inform State or local law enforcement and prosecuting authorities, if not advised by the recipient, of any violation of law within their jurisdiction.

(5) Advise the recipient of audits that have been found not to have met the requirements set forth in this rule. In such instances, the recipient will be expected to work with the auditor to take corrective action. If corrective action is not taken, the cognizant agency shall notify the recipient and Federal awarding agencies of the facts and make recommendations for followup action. Major inadequacies or repetitive substandard performance of independent auditors shall be referred to appropriate professional bodies for disciplinary action.

(6) Coordinate, to the extent practicable, audits made by or for Federal agencies that are in addition to the audits made pursuant to this rule; so that the additional audits build upon such audits.

(7) Oversee the resolution of audit findings that affect the programs of more than one agency.

§ 12.22 Illegal acts or irregularities.

If the auditor becomes aware of illegal acts or other irregularities, prompt notice shall be given to recipient management officials above the level of involvement. (See also § 12.23(a)(3) of this part for the auditor's reporting responsibilities.) The recipient, in turn, shall promptly notify the cognizant agency of the illegal acts or irregularities and of proposed and actual actions, if any. Illegal acts and irregularities include such matters as conflicts of interest, falsification of records or reports, and misappropriations of funds or other assets.

§ 12.23 Audit reports.

Audit reports must be prepared at the completion of the audit. Reports serve many needs of State and local governments as well as meeting the requirements of the Single Audit Act.

(a) The audit report shall state that the audit was made in accordance with the provisions of OMB Circular A-128. The report shall be made up of at least:

(1) The auditor's report on financial statements and on a schedule of Federal assistance; the financial statement; and a schedule of Federal assistance, showing the total expenditures for each Federal assistance program as identified in the Catalog of Federal Domestic Assistance. Federal programs or grants that have not been assigned a catalog number shall be identified under the caption "other Federal assistance."

(2) The auditor's report on the study and evaluation of internal control systems must identify the organization's significant internal accounting controls, and those controls designed to provide reasonable assurance that Federal programs are being managed in compliance with laws and regulations. It must also identify the controls that were evaluated, the controls that were not evaluated, and the material weaknesses identified as a result of the evaluation.

(3) The auditor's report on compilation containing:

A statement of positive assurance with respect to those items tested for compliance, including compliance with law and regulations pertaining to financial reports and claims for advances and reimbursements.

Negative assurance on those items not tested;

Summary of all instances of noncompliance; and

An identification of total amounts questioned, if any, for each Federal assistance award, as a result of noncompliance.

(b) The three parts of the audit report may be bound into a single report, or presented at the same time as separate documents.

(c) All fraud, abuse, or illegal acts or indications of such acts, including all questioned costs found as the result of

§ 12.24 Security of the interior

these acts of which the auditors become aware, should normally be covered in a separate written report submitted in accordance with paragraph (1) of this section.

(d) In addition to the audit report, the recipient shall provide comments on the findings and recommendations in the report, including a plan for corrective action taken or planned and comments on the status of corrective action taken on prior findings. If corrective action is not necessary, a statement describing the reason it is not should accompany the audit report.

(e) The reports shall be made available by the State or local government for public inspection within 30 days after the completion of the audit.

(f) In accordance with generally accepted government audit standards, reports shall be submitted by the auditor to the organization audited and to those requiring or arranging for the audit. In addition, the recipient shall submit copies of the reports to each Federal department or agency that provided Federal assistance funds to the recipient. Subrecipients shall

submit copies to the recipients that provided them Federal assistance funds. The reports shall be sent within 30 days after the completion of the audit, but no later than one year after the end of the audit period unless a longer period is agreed to with the cognizant agency.

(g) Recipients of more than \$100,000 in Federal funds shall submit one copy of the audit report within 30 days after issuance to a central clearinghouse to be designated by the Office of Management and Budget. The clearinghouse will keep completed audits on file and follow up with State and local governments that have not submitted required audit reports.

(h) Recipients shall keep audit reports on file for three years from their issuance.

§ 12.27 Sanctions.

The Single Audit Act provides that no cost may be charged to Federal assistance programs for audits required by the Act that are not made in accordance with OMB Circular A-128. In cases of continued inability or unwillingness to have a proper audit, the Department of the Interior will consider other appropriate sanctions including:

sponsibility of the recipient and that alternate arrangements may be made on a case-by-case basis by agreement among the agencies concerned. Resolution shall be made within six months after receipt of the report by the Federal departments and agencies. Corrective action should proceed as rapidly as possible.

§ 12.26 Audit workpapers and reports.

Workpapers and reports shall be retained for minimum of three years from the date of the audit report, unless the auditor is notified in writing by the cognizant agency to extend the retention period. Audit workpapers shall be made available upon request to the cognizant agency or its designee or the General Accounting Office, at the completion of the audit.

§ 12.26 Audit costs.

The cost of audits made in accordance with the provisions of this Circular are allowable charges to Federal assistance programs.

(a) The charges may be considered a direct cost or an allocated indirect cost, determined in accordance with the provision of Circular A-87, "Cost principles for State and local governments."

(b) Generally, costs charged to Federal assistance programs for a single portion of Federal funds to total funds expended by the recipient. These costs may be exceeded, however, if appropriate documentation demonstrates higher actual costs.

(c) The cost charged to any one program shall be reasonably proportionate to the cost of the audit effort devoted to that program.

Office of the Secretary of the Interior

§ 12.43

Withholding a percentage of assistance payments until the audit is satisfactorily completed, or disallowing overhead costs, and suspending the Federal assistance agreement until the audit is made.

§ 12.28 Auditor selection.

In arranging for audit services, State and local governments shall follow the procurement standards prescribed by Attachment O of Circular A-102, "Uniform Requirements for Grants to State and local governments." The standards provide that while recipients are encouraged to enter into intergovernmental agreements for audit and other services, analysis should be made to determine whether it would be more economical to purchase the services from private firms. In instances where use of such intergovernmental agreements are required by State statutes (e.g., audit services) these statutes will take precedence.

§ 12.29 Small and minority audit firms.

Small audit firms and audit firms owned and controlled by socially and economically disadvantaged individuals shall have the maximum practicable opportunity to participate in contracts awarded to fulfill the requirements of this rule. Recipients of Federal assistance provided by this Department shall take the following steps to further this goal:

(a) Assure that small audit firms and audit firms owned and controlled by socially and economically disadvantaged individuals are used to the fullest extent practicable.

(b) Make information on forthcoming opportunities available and arrange timetables for the audit so as to encourage and facilitate participation by small audit firms owned and controlled by socially and economically disadvantaged individuals.

(c) Consider in the contract process whether firms competing for larger audits intend to subcontract with small audit firms and audit firms owned and controlled by socially and economically disadvantaged individuals.

(d) Encourage contracting with small audit firms or audit firms owned and controlled by socially and eco-

nomically disadvantaged individuals which have traditionally audited government programs and, in such cases where this is not possible, assure that these firms are given consideration for audit subcontracting opportunities.

(e) Encourage contracting with consortiums of small audit firms as described in paragraph (a) of this section when a contract is too large for an individual small audit firm or audit firm owned and controlled by socially and economically disadvantaged individuals.

(f) Use the services and assistance, as appropriate, of such organizations as the Small Business Administration in the solicitation and utilization of small audit firms or audit firms owned and controlled by socially and economically disadvantaged individuals.

The Department of the Interior will report to the Director of OMB on or before March 1, 1987, and annually thereafter on the effectiveness of State and local governments in carrying out the provisions of Circular A-128. The report must identify each State or local government or Indian tribe that, in the opinion of the agency, is failing to comply with the circular.

§ 12.30 Reporting.

The Department of the Interior will report to the Director of OMB on or before March 1, 1987, and annually thereafter on the effectiveness of State and local governments in carrying out the provisions of Circular A-128. The report must identify each State or local government or Indian tribe that, in the opinion of the agency, is failing to comply with the circular.

§ 12.43 Definitions.

As used in this part: "Accrued expenditures" mean charges incurred by the grantee during a given period requiring the provision of funds for: (1) Goods and other tangible property received; (2) services performed by employees, contractors, subgrantees, subcontractors, and other payees; and (3) other amounts becoming owed under programs for which no current services or performance is required, such as annuities, insurance claims, and other benefit payments.

"Accrued income" means the sum of: (1) Earnings during a given period from services performed by the grantee and goods and other tangible property delivered to purchasers, and (2) amounts becoming owed to the grantee for which no current services or performance is required by the grantee.

on the basis of the costs it incurs, with or without a fee.

Equipment means tangible, non-pendable, personal property having a useful life of more than one year and an acquisition cost of \$5,000 or more per unit. A grantee may use its own definition of equipment provided that such definition would at least include all equipment defined above.

Expenditure report, means: (1) For nonconstruction grants, the SF-269 "Financial Status Report" (or other equivalent report); (2) for construction grants, the SF-271 "Outlay Report and Request for Reimbursement" (or other equivalent report).

Federally recognized Indian tribe; government means the governing body of an Indian tribe, band, nation, or other organized group or community (including any Native village as defined in section 3 of the Alaska Native Claims Settlement Act, 85 Stat 688) certified by the Secretary of the Interior as eligible for the special programs and services provided by him through the Bureau of Indian Affairs.

Government means a State or local government or a federally recognized Indian tribal government.

Grant means an award of financial assistance, including cooperative agreements, in the form of money, or property in lieu of money, by the Federal Government to an eligible grantee. The term does not include technical assistance which provides services instead of money, or other assistance in the form of revenue sharing, loans, loan guarantees, interest subsidies, insurance, or direct appropriations. Also, the term does not include assistance, such as a fellowship or other lump sum award, which the grantee is not required to account for.

Grantee means the government to which a grant is awarded and which is accountable for the use of the funds provided. The grantee is the entire legal entity even if only a particular component of the entity is designated in the grant award document.

Local government means a county, municipality, city, town, township, local public authority (including any public and Indian housing agency under the United States Housing Act

of 1937) school district, special district, intrastate district, council of governments (whether or not incorporated as a nonprofit corporation under state law), any other regional or interstate government entity, or any agency or instrumentality of a local government.

OMB means the U.S. Office of Management and Budget.

Outlays (expenditures) mean charges made to the project or program. They may be reported on a cash or accrual basis. For reports prepared on a cash basis, outlays are the sum of actual cash disbursement for direct charges for goods and services, the amount of indirect expense incurred, the value of in-kind contributions applied, and the amount of cash advances and payments made to contractors and subgrantees. For reports prepared on an accrued expenditure basis, outlays are the sum of actual cash disbursements, the amount of indirect expenses incurred, the value of in-kind contributions applied, and the new increase (or decrease) in the amounts owed by the grantee for goods and other property received, for services performed by employees, contractors, subcontractors, and other payees, and other amounts becoming owed under programs for which no current services or performance are required, such as annuities, insurance claims, and other benefit payments.

Percentage of completion method refers to a system under which payments are made for construction work according to the percentage of completion of the work, rather than to the grantee's cost incurred.

Prior approval means documentation evidencing consent prior to incurring specific cost.

Real property means land, including land improvements, structures and appurtenances thereto, excluding movable machinery and equipment.

Share, when referring to the awarding agency's portion of real property, equipment or supplies, means the

funds awarded on the basis of the grantee's underestimate of the unbilled balance in a prior period; (2) Withdrawal of the unbilled balance as of the expiration of a grant; (3) Refusal to extend a grant or award additional funds, to make a competing or noncompeting continuation, renewal, extension, or supplemental award; or (4) voiding of a grant upon determination that the award was obtained fraudulently, or was otherwise illegal or invalid from inception.

Terms of a grant or subgrant mean all requirements of the grant or subgrant, whether in statute, regulations, or the award document.

Third party in-kind contributions mean property or services which benefit a federally assisted project or program and which are contributed by non-Federal third parties without charge to the grantee, or a cost-type contractor under the grant agreement. **Unliquidated obligations** for reports prepared on a cash basis mean the amount of obligations incurred by the grantee that has not been paid. For reports prepared on an accrued expenditure basis, they represent the amount of obligations incurred by the grantee for which an outlay has not been recorded.

Unobligated balance means the portion of the funds authorized by the Federal agency that has not been obligated by the grantee and is determined by deducting the cumulative obligations from the cumulative funds authorized.

§ 12.44 Application.

(a) General. Subparts A-D of this part apply to all grants and subgrants to governments, except where inconsistent with Federal statutes or with regulations authorized in accordance with the exception provision of § 12.46, or:

(1) Grants and subgrants to State and local institutions of higher education or State and local hospitals.

PRE-AWARD REQUIREMENTS**§ 12.50 Forms for applying for grants.**

(a) *Scope*. (1) This section prescribes forms and instructions to be used by governmental organizations (except hospitals and institutions of higher education operated by a government) in applying for grants. This section is not applicable, however, to formula grant programs which do not require applicants to apply for funds on a project basis.

(2) This section applies only to applications to Federal agencies for grants, and is not required to be applied by grantees in dealing with applicants for subgrants. However, grantees are encouraged to avoid more detailed or burdensome application requirements for subgrants.

(b) *Authorized forms and instructions for governmental organizations*. (1) In applying for grants, applicants shall only use standard application forms or those prescribed by the granting agency with the approval of OMB under the Paperwork Reduction Act of 1980.

(2) Applicants are not required to submit more than the original and two copies of preapplications or applications.

(3) Applicants must follow all applicable instructions that bear OMB clearance numbers. Federal agencies may specify and describe the programs, functions, or activities that will be used to plan, budget, and evaluate the work under a grant. Other supplementary instructions may be issued only with the approval of OMB to the extent required under the Paperwork Reduction Act of 1980. For any standard form, except the SF-424 facesheet, Federal agencies may shade out or instruct the applicant to disregard any line item that is not needed.

(4) When a grantee applies for additional funding (such as a continuation or supplemental award) or amends a previously submitted application, only the affected pages need be submitted. Previously submitted pages with information that is still current need not be resubmitted.

(5) Has a history of unsatisfactory performance, or

(2) Is not financially stable, or

(3) Has a management system which does not meet the management standards set forth in this part, or

Office of the Secretary of the Interior**§ 12.52**

(b) *Scope*. The statutes for some programs require States to submit plans before receiving grants. Under regulations Implementing Executive Order 12372, "Intergovernmental Review of Federal Programs," States are allowed to simplify, consolidate and substitute plans. This section contains additional provisions for plans that are subject to regulations implementing the Executive Order.

(b) *Requirements*. A State need meet only Federal administrative or grammatical requirements for a plan that are in statutes or codified regulations.

(c) *Assurances*. In each plan the State will include an assurance that the State shall comply with all applicable Federal statutes and regulations in effect with respect to the periods for which it receives grant funding. For this assurance and other assurances required in the plan, the State may:

(1) Cite by name the statutory or regulatory provisions requiring the assurances and affirm that it gives the assurances required by those provisions.

(2) Repeat the assurance language in the statutes or regulations, or

(3) Develop its own language to the extent permitted by law.

(d) *Amendments*. A State will amend a plan whenever necessary to reflect:

(1) New or revised Federal statutes or regulations or (2) a material change in any State law, organization, policy, or State agency operation. The State will obtain approval for the amendment and its effective date but need submit for approval only the amended portions of the plan.

§ 12.52 Special grant or subgrant conditions for "high-risk" grantees.

(a) A grantee or subgrantee may be considered "high risk" if an awarding agency determines that a grantee or subgrantee:

(1) Has a history of unsatisfactory performance, or

(2) Is not financially stable, or

(3) Has a management system which does not meet the management standards set forth in this part, or

(4) Has not conformed to terms and conditions of previous awards, or
 (5) Is otherwise not responsible; and if the awarding agency determines that an award will be made, special conditions and/or restrictions shall correspond to the high risk condition and shall be included in the award.

(b) Special conditions or restrictions may include:

- (1) Payment on a reimbursement basis.

- (4) Additional project monitoring;
- (5) Requiring the grantee or subgrantee to obtain technical or management assistance; or
- (6) Establishing additional prior approvals.

(c) If an awarding agency decides to impose such conditions, the awarding official will notify the grantee or subgrantee as early as possible, in writing, of:

- (1) The nature of the special conditions/restrictions;
- (2) The reason(s) for imposing them;
- (3) The corrective actions which must be taken before they will be removed and the time allowed for completing the corrective actions and
- (4) The method of requesting reconsideration of the conditions/restrictions imposed.

POST-AWARD REQUIREMENTS

Financial Administration

§ 12.60 Standards for financial management systems.

(a) A State must expand and account for grant funds in accordance with State laws and procedures for expending and accounting for its own funds. Fiscal control and accounting procedures of the State, as well as its subgrantees and cost-type contractors, must be sufficient to—

- (1) Permit preparation of reports required by this part and the statutes authorizing the grant, and
- (2) Permit the tracing of funds to a level of expenditures adequate to establish that such funds have not been

used in violation of the restrictions and prohibitions of applicable statutes.

(b) The financial management systems of other grantees and subgrantees must meet the following standards:

- (1) *Financial reporting.* Accurate, current, and complete disclosure of the financial results of financially assisted activities must be made in accordance with the financial reporting requirements of the grant or subgrant.
- (2) *Accounting records.* Grantees and subgrantees must maintain records which adequately identify the source and application of funds provided for financially-assisted activities. These records must contain information pertaining to grant or subgrant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, and income.
- (3) *Internal control.* Effective control and accountability must be maintained for all grant and subgrant cash, real and personal property, and other assets. Grantees and subgrantees must adequately safeguard all such property and must assure that it is used solely for authorized purposes.
- (4) *Budget control.* Actual expenditures or outlays must be compared with budgeted amounts for each grant or subgrant. Financial information must be related to performance or productivity data, including the development of unit cost information whenever appropriate or specifically required in the grant or subgrant agreement. If unit cost data are required, estimates based on available documentation will be accepted whenever possible.

(5) *Allowable cost.* Applicable OMB cost principles, agency program regulations, and the terms of grant and subgrant agreements will be followed in determining the reasonableness, allowability, and allocability of costs.

(6) *Source documentation.* Accounting records must be supported by such source documentation as checks, paid bills, payrolls, time and attendance records, contract and subgrant award documents, etc.

(7) *Cash management.* Procedures for minimizing the time elapsing be-

tween the transfer of funds from the U.S. Treasury and disbursement by grantees and subgrantees must be followed whenever advance payment procedures are used. Grantees must establish reasonable procedures to ensure the receipt of reports on subgrantees' cash balances and cash disbursements in sufficient time to enable them to prepare complete and accurate cash transactions reports to the awarding agency. When advances are made by letter-of-credit or electronic transfer of funds methods, the grantee must make drawdowns as close as possible to the time of making disbursements. Grantees must monitor cash drawdowns by their subgrantees to assure that they conform substantially to the same standards of timing and amount as apply to advances to the grantees.

(c) An awarding agency may review the adequacy of the financial management system of any applicant for financial assistance as part of a preaward review or at any time subsequent to award.

§ 12.61 Payment.

(a) *Scope.* This section prescribes the basic standard and the methods under which a Federal agency will make payments to subgrantees and contractors.

(b) *Basic standard.* Methods and procedures for payment shall minimize the time elapsing between the transfer of funds and disbursement by the grantee or subgrantee, in accordance with Treasury regulations at 31 CFR Part 205.

(c) *Advances.* Grantees and subgrantees shall be paid in advance, provided they maintain or demonstrate the willingness and ability to maintain procedures to minimize the time elapsing between the transfer of funds and their disbursement by the grantee or subgrantee.

(d) *Reimbursement.* Reimbursement shall be the preferred method when the requirements in paragraph (c) of this section are not met. Grantees and subgrantees may also be paid by reimbursement for any construction grant.

(e) *Effect of program income, refunds, and audit recoveries on payment.* (1) Grantees and subgrantees shall disburse repayments to and interest earned on a revolving fund before requesting additional cash payments for the same activity.

(2) Except as provided in paragraph (f)(1) of this section, grantees and subgrantees shall disburse program income, rebates, refunds, contract settlements, audit recoveries and interest earned on such funds before requesting additional cash payments.

(f) *Withholding payments.* (1) Unless otherwise required by Federal statute, awarding agencies shall not withhold payments for proper charges incurred by grantees or subgrantees unless—

(i) The grantee or subgrantee has failed to comply with grant award conditions, or

(ii) The grantee or subgrantee is indebted to the United States.

(2) Cash withheld for failure to comply with grant award condition,

43 CFR Subtitle A (10-1-92 Edition)

but without suspension of the grant, shall be released to the grantee or subsequent compliance. When a grant is suspended, payment adjustments will be made in accordance with § 12.63(c).

(3) A Federal agency shall not make payment to grantees for amounts that are withheld by grantees or subgrantees from payment to contractors to assure satisfactory completion of work. Payments when the grantees or subgrantees actually disburse the withheld funds to the contractors or to escrow accounts established to assure satisfactory completion of work.

(h) **Cash depositaries.** (1) Consistent with the national goal of expanding the opportunities for minority business enterprises, grantees and subgrantees are encouraged to use minority banks (a bank which is owned at least 50 percent by minority group members). A list of minority owned banks can be obtained from the Minority Business Development Agency, Department of Commerce, Washington, DC 20230.

(2) A grantee or subgrantee shall maintain a separate bank account only when required by Federal-State agreement.

(1) **Interest earned on advances.** Except for interest earned on advances of funds exempt under the Intergovernmental Cooperation Act (31 U.S.C. 6501 et seq.) and the Indian Self-Determination Act (23 U.S.C. 450), grantees and subgrantees shall promptly, but at least quarterly, remit interest earned on advances to the Federal agency. The grantee or subgrantee may keep interest amounts up to \$100 per year for administrative expenses.

§ 12.62 Allowable costs.

(a) **Limitation on use of funds.** Grant funds may be used only for:

(1) The allowable costs of the grantee, subgrantees and cost-type contractors. Including allowable costs in the form of payments to fixed-price contractors; and

(2) Reasonable fees or profit to cost-type contractors but not any fee or profit (or other increment above all

allowable costs) to the grantee or subgrantee.

(b) **Applicable cost principles.** For each kind of organization, there is a set of Federal principles for determining allowable costs. Allowable costs will be determined in accordance with the cost principles applicable to the organization incurring the costs. The following chart lists the kinds of organizations and the applicable cost principles.

For the costs of—	Use the principles in—
State, local or Indian tribal government.	OMB Circular A-87. OMB Circular A-122.

Educational institutions.....	For-profit organization other than a hospital and an organization named in OMB Circular A-122 as not subject to that circular.

§ 12.63 Period for availability of funds.

(a) **General.** Where a funding period is specified, a grantee may charge to the award only costs resulting from obligations of the funding period unless carryover of unbilled balances is permitted, in which case the carryover balances may be charged for subsequently resulting from obligations of the subsequent funding period.

(b) **Liquidation of obligations.** A grantee must liquidate all obligations incurred under the award not later than 90 days after the end of the funding period (or as specified in a program regulation) to coincide with the submission of the annual Financial Status Report (SF-289). The Federal agency may extend this deadline at the request of the grantee.

§ 12.64 Matching or cost sharing.

(a) **Basic rule: Costs and contributions acceptable.** With the qualifications and exceptions listed in paragraph (b) of this section, a matching

Office of the Secretary of the Interior

or cost sharing requirement may be satisfied by either or both of the following:

(1) Allowable costs incurred by the grantee, subgrantee or a cost-type contractor under the assistance agreement. This includes allowable costs borne by non-Federal grants or by others cash donations from non-Federal third parties.

(2) The value of third party in-kind contributions applicable to the period to which the cost sharing or matching requirements applies.

(b) **Qualifications and exceptions—**

(1) **Costs borne by other Federal grant agreements.** Except as provided by Federal statute, a cost sharing or matching requirement may not be met by costs borne by another Federal grant. This prohibition does not apply to income earned by a grantee or subgrantee from a contract awarded under another Federal grant.

(2) **General revenue sharing.** For the purpose of this section, general revenue sharing funds distributed under 31 U.S.C. 6702 are not considered Federal grant funds.

(3) **Cost or contributions counted towards other Federal cost-sharing requirements.** Neither costs nor the values of third party in-kind contributions may count toward satisfying a cost sharing or matching requirement if they have been or will be counted towards satisfying a cost sharing or matching requirement of a grant agreement if they have been or will be counted towards satisfying a cost sharing or matching requirement of another Federal grant agreement, a Federal procurement contract, or any other award of Federal funds.

(4) **Costs financed by program income.** Costs financed by program income, as defined in § 12.65, shall not count towards satisfying a cost sharing or matching requirement unless they are expressly permitted in the terms of the assistance agreement. (This use of general program income is described in § 12.65(g).)

(5) **Services or property financed by income earned by contractors.** Contractors under a grant may earn income from the activities carried out under the contract in addition to the amounts earned from the party awarding the contract. No costs of services or property supported by this income

§ 12.64

may count toward satisfying a cost sharing or matching requirement unless other provisions of the grant agreement expressly permit this kind of income to be used to meet the requirement.

(6) **Records.** Costs and third party in-kind contributions counting towards satisfying a cost sharing or matching requirement must be verifiable from the records of grantees and subgrantees or cost-type contractors. These records must show how the value placed on third party in-kind contributions was derived. To the extent feasible, volunteer services will be supported by the same methods that the organization uses to support the availability of regular personnel costs.

(7) **Special standards for third party in-kind contributions.** (i) Third party in-kind contributions count towards satisfying a cost sharing or matching requirement only where, if the party receiving the contributions were to pay for them, the payments would be allowable costs.

(ii) Some third party in-kind contributions are goods and services that, if received by the grantee, subgrantee, or contractor for them, the payments would have been an indirect costs. Costs sharing or matching credit for such contributions shall be given only if the grantee, subgrantee, or contractor has established, along with its regular indirect cost rate, a special rate for allocating to individual projects or programs the value of the contributions.

(iii) A third party in-kind contribution to a fixed-price contract may count towards satisfying a cost sharing or matching requirement only if it results in:

(A) An increase in the services or property provided under the contract (without additional cost to the grantee or subgrantee); or
(B) A cost savings to the grantee or subgrantee.

(iv) The values placed on third party in-kind contributions for cost sharing or matching purposes will conform to the rules in the succeeding sections of this part. If a third party in-kind contribution is a type not treated in those sections, the value placed upon it shall be fair and reasonable.

(c) **Valuation of donated services—**

(1) **Volunteer services.** Unpaid services provided to a grantee or subgrantee by individuals will be evaluated at rates consistent with those ordinarily paid for similar work in the grantee's or subgrantee's organization. If the grantee or subgrantee does not have employees performing similar work, the rates will be consistent with those ordinarily paid by other employers for similar work in the same labor market. In either case, a reasonable amount for fringe benefits may be included in the valuation.

(2) **Employees of other organizations.** When an employer other than a grantee, subgrantee, or cost-type contractor furnishes free of charge the services of an employee in the employee's normal line of work, the services will be valued at the employee's regular rate of pay exclusive of the employee's fringe benefits and overhead costs. If the services are in a different line of work, paragraph (c)(1) of this section applies.

(d) **Valuation of third party donated supplies and loaned equipment or space.** (1) If a third party donates supplies, the contribution will be valued at the market value of the supplies at the time of donation.

(2) If a third party donates the use of equipment or space in a building but retains title, the contribution will be valued at the fair rental rate of the equipment or space.

(e) **Valuation of third party donated equipment, buildings, and land.** If a third party donates equipment, buildings, or land, and title passes to a grantee or subgrantee, the treatment of the donated property will depend upon the purpose of the grant or subgrant, as follows:

(1) **Awards for capital expenditures.** If the purpose of the grant or subgrant is to assist the grantee or subgrantee in the acquisition of property, the market value of that property at the time of donation may be counted as cost sharing or matching.

(2) **Other awards.** If assisting in the acquisition of property is not the purpose of the grant or subgrant, paragraphs (e)(2) (1) and (ii) of this section apply:

rental value be set by an independent appraiser; and that the value or rate be certified by the grantee. This requirement will also be imposed by the grantee on subgrantees.

§ 12.65 Program income.

(a) **General.** Grantees are encouraged to earn income to defray program costs. Program income includes income from fees for services performed, from the use or rental of real or personal property acquired with grant funds, from the sale of commodities or items fabricated under a grant agreement, and from payments of principal and interest on loans made with grant funds. Except as otherwise provided in regulations of the Federal agency, program income does not include interest on grant funds, rebates, credits, discounts, refunds, etc., and interest earned on any of them.

(b) **Definition of program income.** Program income means gross income received by the grantee or subgrantee directly generated by a grant supported activity, or earned only as a result of the grant agreement during the grant period. "During the grant period" is the time between the effective date of the award and the ending date of the award reflected in the final financial report.

(c) **Cost of generating program income.** If authorized by Federal regulations or the grant agreement, costs incident to the generation of program income may be deducted from gross income to determine program income.

(d) **Government revenues.** Taxes, special assessments, levies, fines, and other such revenues raised by a grantee or subgrantee are not program income unless the revenues are specifically identified in the grant agreement or Federal agency regulations as program income.

(e) **Royalties.** Income from royalties and license fees for copyrighted material, patents, and inventions developed by a grantee or subgrantee is program income only if the revenues are specifically identified in the grant agreement or Federal agency regulations as program income. (See § 12.74.)

(f) **Property.** Proceeds from the sale of real property or equipment will be

handled in accordance with the requirements of § 12.71 and § 12.72.

(g) **Use of program income.** Program income shall be deducted from outlays which may be both Federal and non-Federal as described below, unless to Federal agency regulations or to grant agreement specify another alternative (or a combination of the alternatives). In specifying alternatives, the Federal agency may distinguish between income earned by the grant and income earned by subgrantees and between the sources, kinds,

amounts of income. When Federal agencies authorize the alternatives, paragraphs (g) (2) and (3) of this section, program income in excess of a limit stipulated shall also be deductible from outlays.

(1) **Deduction.** Ordinarily, program income shall be deducted from the allowable costs to determine the allowable costs. Program income shall be used for current costs unless Federal agency authorizes otherwise. Program income which the grantee did not anticipate at the time of award shall be used to reduce the Federal agency and grantee contributions rather than to increase the funds committed to the project.

(2) **Addition.** When authorized, program income may be added to funds committed to the grant agreement by the Federal agency and grantee. The program income shall be used for the purposes and under conditions of the grant agreement.

(3) **Cost sharing or matching.** When authorized, program income may be used to meet the cost sharing matching requirement of the grant agreement. The amount of the grant award remains the same.

(h) **Income after the award period.**

There are no Federal requirements governing the disposition of program income earned after the end of award period (i.e., until the end date of the final financial report), or paragraph (a) of this section, or the terms of the agreement or Federal agency regulations otherwise.

43 CFR Subtitle A (1984 Edition)**§ 12.66 Non-Federal audit.**

(c) **Auditor selection.** In arranging for audit services, § 12.36 shall be followed.

CHANGES, PROPERTY, AND SUBAWARDS**§ 12.70 Changes.**

(a) **General.** Grantees and subgrantees are permitted to rebudget within the approved direct cost budget to meet unanticipated requirements and may make limited program changes to the approved project. However, unless waived by the awarding agency, certain types of post-award changes in budgets and projects shall require the prior written approval of the awarding agency.

(b) **Relation to cost principles.** The applicable cost principles (see § 12.62) contain requirements for prior approval of certain types of costs. Except where waived, those requirements apply to all grants and subgrants even if paragraphs (c) through (f) of this section do not.

(c) **Budget changes—(1) Nonconstruction projects.** Except as stated in other regulations or an award document, grantees or subgrantees shall obtain the prior approval of the awarding agency whenever any of the following changes is anticipated under a nonconstruction award:

(i) Any revision which would result in the need for additional funding.

(ii) Unless waived by the awarding agency, cumulative transfers among direct cost categories, or, if applicable, among separately budgeted programs, projects, functions, or activities which exceed or are expected to exceed ten percent of the current total approved budget, whenever the awarding agency's share exceeds \$100,000.

(iii) Transfer of funds allotted for training allowances (i.e., from direct payments to trainees to other expense categories).

(2) **Determine whether the subgrantee spent Federal assistance funds provided in accordance with applicable laws and regulations.** This may be accomplished by reviewing an audit of the subgrantee made in accordance with the Act, Circular A-10, or through other means (e.g., program reviews) if the subgrantee has not had such an audit.

(3) **Ensure that appropriate corrective action is taken within six months after receipt of the audit report in instance of noncompliance with Federal laws and regulations:**

(4) **Consider whether subgrantee audits necessitate adjustment of the grantee's own records;** and

(5) **Require each subgrantee to have** permit independent auditors to have access to the records and financial statements.

(c) **Auditor selection.** In arranging for audit services, § 12.36 shall be followed.

(a) **Basic rule.** Grantees and subgrantees are responsible for obtaining audits in accordance with the Single Audit Act of 1984 (31 U.S.C. 7501-7) and Federal agency implementing regulations. The audits shall be made by an independent auditor in accordance with generally accepted government auditing standards covering financial and compliance audits.

(b) **Subgrantees.** State or local governments, as those terms are defined for purposes of the Single Audit Act, that receive Federal financial assistance and provide \$25,000 or more of it in a fiscal year to a subgrantee shall:

(i) Determine whether State or local subgrantees have met the audit requirements of the Act and whether subgrantees covered by OMB Circular A-10, "Uniform Requirements for Grants and Other Agreements with Institutions of Higher Education, Hospitals and Other Nonprofit Organizations" have met the audit requirements. Commercial contractors (private for-profit and private and governmental organizations) providing goods and services to State and local governments are not required to have a single audit performed. State and local governments should use their own procedures to ensure that the contractor has complied with laws and regulations affecting the expenditure of Federal funds;

(2) Determine whether the subgrantee spent Federal assistance funds provided in accordance with applicable laws and regulations. This may be accomplished by reviewing an audit of the subgrantee made in accordance with the Act, Circular A-10, or through other means (e.g., program reviews) if the subgrantee has not had such an audit.

(3) Ensure that appropriate corrective action is taken within six months after receipt of the audit report in instance of noncompliance with Federal laws and regulations:

(4) Consider whether subgrantee audits necessitate adjustment of the grantee's own records; and

(5) Require each subgrantee to have

must obtain prior written approval from the awarding agency before making any fund or budget transfer from nonconstruction to construction or vice versa.

(d) **Programmatic changes.** Grantees or subgrantees must obtain the prior approval of the awarding agency whenever any of the following actions is anticipated:

(1) Any revision of the scope or objectives of the project (regardless of whether there is an associated budget revision requiring prior approval).

(2) Need to extend the period of availability of funds.

(3) Changes in key persons in cases where specified in an application or a grant award. In research projects, a change in the project director or principal investigator shall always require approval unless waived by the awarding agency.

(4) Under nonconstruction projects, contracting out, subgranting (if authorized by law) or otherwise obtaining the services of a third party to perform activities which are central to the purposes of the award. This approval requirement is in addition to the approval requirements of § 12.76 but does not apply to the procurement of equipment, supplies, and general support services.

(e) **Additional prior approval requirements.** The awarding agency may not require prior approval for any budget revision which is not described in paragraph (c) of this section.

(f) **Requesting prior approval.** (1) A request for prior approval of any budget revision will be in the same budget formal the grantee used in its application and shall be accompanied by a narrative justification for the proposed revision.

(2) A request for a prior approval under the applicable Federal cost principles (see § 12.62) may be made by letter.

(3) A request by a subgrantee for prior approval will be addressed in writing to the grantee. The grantee will promptly review such request and shall approve or disapprove the request in writing. A grantee will not approve any budget or project revision which is inconsistent with the purpose or terms and conditions of the Federal

grant to the grantee. If the revision, requested by the subgrantee would result in a change to the grantee's approved project which requires Federal prior approval, the grantee will obtain the Federal agency's approval before approving the subgrantee's request.

§ 12.71 Real property.

(a) **Title.** Subject to the obligations and conditions set forth in this section, title to real property acquired under a grant or subgrant will vest upon acquisition in the grantee or subgrantee respectively.

(b) **Use.** Except as otherwise provided by Federal statutes, real property will be used for the originally authorized purposes as long as needed for that purpose, and the grantee or subgrantee shall not dispose of or encumber its title or other interests.

(c) **Disposition.** When real property is no longer needed for the originally authorized purpose, the grantee or subgrantee will request disposition instructions from the awarding agency. The instructions will provide for one of the following alternatives:

(1) **Retention of title.** Retain title after compensating the awarding agency. The amount paid to the awarding agency will be computed by applying the awarding agency's percentage of participation in the cost of the original purchase to the fair market value of the property. However, in those situations where a grantee or subgrantee is disposing of real property acquired with grant funds and acquiring replacement real property under the same program, the net proceeds from the disposition may be used as an offset to the cost of the replacement property.

(2) **Sale of property.** Sell the property and compensate the awarding agency. The amount due to the awarding agency will be calculated by applying the awarding agency's percentage of participation in the cost of the original purchase to the proceeds of the sale after deduction of any actual and reasonable selling and fixing-up expenses. If the grant is still active, the net proceeds from sale may be offset against the original cost of the property. When a grantee or subgrantee

tee is directed to sell property, sales procedures shall be followed that provide for competition to the extent practicable and result in the highest possible return.

(3) *Transfer of title.* Transfer title to the awarding agency or to a third-party designated/approved by the awarding agency. The grantee or subgrantee shall be paid an amount calculated by applying the grantee or subgrantee's percentage of participation in the purchase of the real property to the current fair market value of the property.

§ 12.72 Equipment.

(a) *Title.* Subject to the obligations and conditions set forth in this section, title to equipment acquired under a grant or subgrant will vest upon acquisition in the grantee or subgrantee respectively.

(b) *States.* A State will use, manage, and dispose of equipment acquired under a grant by the State in accordance with State laws and procedures. Other grantees and subgrantees will follow paragraphs (c) through (e) of this section.

(c) *Use.* (1) Equipment shall be used by the grantee or subgrantee in the program or project for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. When no longer needed for the original program or project, the equipment may be used in other activities currently or previously supported by a Federal agency.

(2) The grantee or subgrantee shall also make equipment available for use on other projects or programs currently or previously supported by the Federal Government, providing such use will not interfere with the work on the projects or program for which it was originally acquired. First preference for other use shall be given to other programs or projects supported by the awarding agency. User fees should be considered if appropriate.

(3) Notwithstanding the encouragement in § 12.65(a) to earn program income, the grantee or subgrantee must not use equipment acquired with grant funds to provide services for a fee to compete unfairly with private

companies that provide equivalent services, unless specifically permitted or contemplated by Federal statute.

(4) When acquiring replacement equipment, the grantee or subgrantee may use the equipment to be replaced as a trade-in or sell the property and use the proceeds to offset the cost of the replacement property, subject to the approval of the awarding agency.

(d) *Management requirements.* Procedures for managing equipment (including replacement equipment), whether acquired in whole or in part with grant funds, until disposition takes place will, as a minimum, meet the following requirements:

(1) Property records must be maintained that include a description of the property, a serial number or other identification number, the source of property, who holds title, the acquisition date, and cost of the property, percentage of Federal participation in the cost of the property, the location, use and condition of the property, and any ultimate disposition data including the date of disposal and sale price of the property.

(2) A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.

(3) A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft shall be investigated.

(4) Adequate maintenance procedures must be developed to keep the property in good condition.

(5) If the grantee or subgrantee is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return.

(e) *Disposition.* When original or replacement equipment acquired under a grant or subgrant is no longer needed for the original project or program or for other activities currently or previously supported by a Federal agency, disposition of the equipment will be made as follows:

(1) Items of equipment with a current per-unit fair market value of less than \$5,000 may be retained, sold or otherwise disposed of with no further obligation to the awarding agency.

(2) Items of equipment with a current per unit fair market value in excess of \$5,000 may be retained or sold and the awarding agency shall have a right to an amount calculated by multiplying the current market value or proceeds from sale by the awarding agency's share of the equipment.

(3) In cases where a grantee or subgrantee fails to take appropriate disposition actions, the awarding agency may direct the grantee or subgrantee to take excess and disposition actions.

(f) *Federal equipment.* In the event a grantee or subgrantee is provided federally-owned equipment:

(1) Title will remain vested in the Federal Government.

(2) Grantees or subgrantees will manage the equipment in accordance with Federal agency rules and procedures, and submit an annual inventory listing.

(3) When the equipment is no longer needed, the grantee or subgrantee will request disposition instructions from the Federal agency.

(g) *Right to transfer title.* The Federal awarding agency may reserve the right to transfer title to the Federal Government or a third party named by the awarding agency when such a third party is otherwise eligible under existing statutes. Such transfers shall be subject to the following standards:

(1) The property shall be identified in the grant or otherwise made known to the grantee in writing.

(2) The Federal awarding agency shall issue disposition instruction within 120 calendar days after the end of the Federal support of the project for which it was acquired. If the Federal awarding agency fails to issue disposition instructions within the 120 calendar-day period the grantee shall follow 12.72(e).

(3) When title to equipment is transferred, the grantee shall be paid an amount calculated by applying the percentage of participation in the purchase to the current fair market value of the property.

(a) *Procurement.* When procuring property and services under a grant, a State will follow the same policies and procedures it uses for procurements from its non-Federal funds. The State will ensure that every purchase order or other contract includes any clauses required by Federal statutes and executive orders and their implementing regulations. Other grantees and subgrantees will follow paragraphs (b) through (l) in this section.

(b) *Procurement standards.* (1)

Grantees and subgrantees will use

their own procurement procedures

which reflect applicable State and

local laws and regulations, provided

upon acquisition, in the grantee or subgrantee respectively.

(b) *Disposition.* If there is a residual inventory of unused supplies exceeding \$5,000 in total aggregate fair market value upon termination or completion of the award, and if the supplies are not needed for any other federally sponsored programs or projects, the grantee or subgrantee shall compensate the awarding agency for its share.

§ 12.74 Copyrights.

The Federal awarding agency reserves a royalty-free, nonexclusive, and irrevocable license to reproduce, publish or otherwise use, and to authorize others to use, for Federal Government purposes:

(a) The copyright in any work developed under a grant, subgrant, or contract under a grant or subgrant; and

(b) Any rights of copyright to which a grantee, subgrantee or a contractor purchases ownership with grant support.

§ 12.75 Subawards to debarred and suspended parties.

Grantees and subgrantees must not make any award or permit any award (subgrant or contract) at any tier to any party which is debarred or suspended or is otherwise excluded from or ineligible for participation in Federal assistance programs under Executive Order 12345, "Debarment and Suspension."

§ 12.76 Procurement.

(a) *States.* When procuring property and services under a grant, a State will follow the same policies and procedures it uses for procurements from its non-Federal funds. The State will ensure that every purchase order or other contract includes any clauses required by Federal statutes and executive orders and their implementing regulations. Other grantees and subgrantees will follow paragraphs (b) through (l) in this section.

(b) *Procurement standards.* (1)

Grantees and subgrantees will use

their own procurement procedures

which reflect applicable State and

local laws and regulations, provided

upon acquisition, in the grantee or subgrantee respectively.

(b) *Disposition.* If there is a residual inventory of unused supplies exceeding \$5,000 in total aggregate fair market value upon termination or completion of the award, and if the supplies are not needed for any other federally sponsored programs or projects, the grantee or subgrantee shall compensate the awarding agency for its share.

§ 12.74 Copyrights.

The Federal awarding agency reserves a royalty-free, nonexclusive, and irrevocable license to reproduce, publish or otherwise use, and to authorize others to use, for Federal Government purposes:

(a) The copyright in any work developed under a grant, subgrant, or contract under a grant or subgrant; and

(b) Any rights of copyright to which a grantee, subgrantee or a contractor purchases ownership with grant support.

§ 12.75 Subawards to debarred and suspended parties.

Grantees and subgrantees must not make any award or permit any award (subgrant or contract) at any tier to any party which is debarred or suspended or is otherwise excluded from or ineligible for participation in Federal assistance programs under Executive Order 12345, "Debarment and Suspension."

§ 12.76 Procurement.

(a) *States.* When procuring property and services under a grant, a State will follow the same policies and procedures it uses for procurements from its non-Federal funds. The State will ensure that every purchase order or other contract includes any clauses required by Federal statutes and executive orders and their implementing regulations. Other grantees and subgrantees will follow paragraphs (b) through (l) in this section.

(b) *Procurement standards.* (1)

Grantees and subgrantees will use

their own procurement procedures

which reflect applicable State and

local laws and regulations, provided

43 CFR Subtitle A (10-1-92 Edition)

that the procurements conform to applicable Federal law and the standards identified in this section.

(2) Grantees and subgrantees will maintain a contract administration system which ensures that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.

(3) Grantees and subgrantees will maintain a written code of standards of conduct governing the performance of their employees engaged in the award and administration of contracts. No employee, officer or agent of the grantee or subgrantee shall participate in selection, or in the award or administration of a contract supported by Federal funds if a conflict of interest, real or apparent, would be involved. Such a conflict would arise when:

- The employee, officer or agent,
- Any member of his immediate family,
- His or her partner, or
- An organization which employs, or is about to employ, any of the above, has a financial or other interest in the firm selected for award. The grantee's or subgrantee's officers, employees or agents will neither solicit nor accept gratuities, favors or anything of monetary value from contractors, potential contractors, or parties to subagreements. Grantee and subgrantees may set minimum rules where the financial interest is not substantial or the gift is an unsolicited item of nominal intrinsic value. To the extent permitted by State or local law or regulations, such standards or conduct will provide for penalties, sanctions, or other disciplinary actions for violations of such standards by the grantee's and subgrantee's officers, employees, or agents, or by contractors or their agents. The awarding agency may in regulation provide additional prohibitions relative to real, apparent, or potential conflicts of interest.

(4) Grantee and subgrantee procedures will provide for a review of proposed procurements to avoid purchase of unnecessary or duplicative items. Consideration should be given to consolidating or breaking out procurements to obtain a more economical purchase. Where appropriate, an analysis will be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

(5) To foster greater economy and efficiency, grantees and subgrantees are encouraged to enter into State and local intergovernmental agreements for procurement or use of common goods and services.

(6) Grantees and subgrantees are encouraged to use Federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

(7) Grantees and subgrantees are encouraged to use value engineering clauses in contracts for construction projects of sufficient size to offer reasonable opportunities for cost reductions. Value engineering is a systematic and creative analysis of each contract item or task to ensure that its essential function is provided at the overall lower cost.

(8) Grantees and subgrantees will make awards only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

(9) Grantees and subgrantees will maintain records sufficient to detail the significant history of a procurement. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

(10) Grantees and subgrantees will use time and material type contracts only—

- After a determination that no other contract is suitable, and
- If the contract includes a ceiling price that the contractor exceeds at its own risk.

(11) Grantees and subgrantees alone will be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurement.

ments. These issues include, but are not limited to source evaluation, protests, disputes, and claims. These standards do not relieve the grantee or subgrantee of any contractual responsibilities under its contracts. Federal agencies will not substitute their judgment for that of the grantee or subgrantee unless the matter is primarily a Federal concern. Violations of law will be referred to the local, State, or Federal authority having proper jurisdiction.

(12) Grantees and subgrantees will have protest procedures to handle and resolve disputes relating to their procurements and shall in all instances disclose information regarding the protest to the awarding agency. A protestor must exhaust all administrative remedies with the grantee and subgrantee before pursuing a protest with the Federal agency. Reviews of protests by the Federal agency will be limited to:

(i) Violations of Federal law or regulations and the standards of this section (violations of State or local law will be under the jurisdiction of State or local authorities) and

(ii) Violations of the grantee's or subgrantee's protest procedures for failure to review a complaint or protest. Protests received by the Federal agency other than those specified above will be referred to the grantee or subgrantee.

(c) Competition. (1) All procurement transactions will be conducted in a manner providing full and open competition consistent with the standards of § 12.76. Some of the situations considered to be restrictive of competition include but are not limited to:

(i) Placing unreasonable requirements on firms in order for them to qualify to do business.

(ii) Requiring unnecessary experience and excessive bonding.

(iii) Noncompetitive pricing practices between firms or between affiliated companies.

(iv) Noncompetitive awards to consultants that are on retainer contracts, experience and excessive bonding.

(v) Organizational conflicts of interest.

(vi) Specifying only a "brand name" product instead of allowing "an equal" product to be offered and describing

(vii) Any arbitrary action in the procurement process.

(2) Grantees and subgrantees will conduct procurements in a manner that prohibits the use of statutorily imposed in-State local geographical preferences in evaluation of bids or proposals, except as statutes expressly mandate or encourage geographic preference.

In those cases where applicable State statutes expressly mandate or encourage geographic preference, in this section preempts State laws. When contracting for architectural and engineering services, geographic location may be a selection criteria provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for contract.

(3) Grantees will have written procedures for procurement transactions. These procedures ensure that all solicitations:

(i) Incorporate a clear and accurate description of the technical requirements for the material, products or service to be procured. Such description shall not, in competitive procurements, contain features which unreasonably restrict competition. The description may include a statement of the nature of the material, products or service to be procured, and necessary, shall set forth those minimum essential characteristics standards to which it must conform. It is to satisfy its intended use of the product specifications shown.

(ii) Identify all requirements which must be clearly stated by offerors.

(iii) Ensure that all prequalified

persons, firms, or products which used in acquiring goods and services.

43 CFR Subtitle A (10-1-92 Edition)

(D) A firm fixed-price contract award will be made in writing to the lowest responsible and responsible bidder where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of; and

(E) Any or all bids may be rejected if there is a sound documented reason.

(3) Procurement by competitive proposals. The technique of competitive proposals is normally conducted with more than one source submitting an offer, and either a fixed price or cost-reimbursement type contract is awarded. It is generally used when conditions are not appropriate for the use of sealed bids. If this method is used, whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction. If the conditions in § 12.76(d)(2) apply,

(i) In order for sealed bidding to be feasible, the following conditions should be present:

(A) A complete, adequate, and realistic specification or purchase description is available;

(B) Two or more responsible bidders are willing and able to compete effectively for the business; and

(C) The procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.

(ii) If sealed bids are used, the following requirements apply:

(A) The invitation for bids will be publicly advertised and bids shall be solicited from an adequate number of known suppliers, providing them sufficient time prior to the date set for opening the bids;

(B) The invitation for bids, which will include any specifications and pertinent attachments, shall define the items or services in order for the bidder to properly respond;

(C) All bids will be publicly opened at the time and place prescribed in the invitation for bids;

43 CFR Subtitle A (10-1-92 Edition)**Office of the Secretary of the Interior**

(D) A firm fixed-price contract award will be made in writing to the lowest responsible and responsible bidder where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of; and

(E) Any or all bids may be rejected if there is a sound documented reason.

(3) Procurement by small purchase procedures. Small purchase procedures are those relatively simple and informal procurement methods for securing services, supplies, or other property that do not cost more than \$25,000 in the aggregate. If small purchase procurements are used, price or rate quotations will be obtained from an adequate number of qualified sources.

(2) Procurement by sealed bids (formal advertising). Bids are publicly solicited and a firm-fixed-price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction. If the conditions in § 12.76(d)(2) apply,

(i) In order for sealed bidding to be feasible, the following conditions should be present:

(A) A complete, adequate, and realistic specification or purchase description is available;

(B) Two or more responsible bidders are willing and able to compete effectively for the business; and

(C) The procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.

(ii) If sealed bids are used, the following requirements apply:

(A) The invitation for bids will be publicly advertised and bids shall be solicited from an adequate number of known suppliers, providing them sufficient time prior to the date set for opening the bids;

(B) The invitation for bids, which will include any specifications and pertinent attachments, shall define the items or services in order for the bidder to properly respond;

(C) All bids will be publicly opened at the time and place prescribed in the invitation for bids;

- (v) Using the services and assistance of the Small Business Administration, and the Minority Business Development Agency of the Department of Commerce; and
- (vi) Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (e)(2) (i) through (v) of this section.
- (f) Contract cost and price. (1) Grantees and subgrantees must perform a cost or price analysis in connection with every procurement action including contract modifications. The method and degree of analysis is dependent on the facts surrounding the particular procurement situation, but as a starting point, grantees must make independent estimates before receiving bids or proposals. A cost analysis must be performed when the offeror is required to submit the elements of his estimated cost, e.g., under professional, consulting, and architectural engineering services contracts. A cost analysis will be necessary when adequate price competition is lacking, and for sole source procurements, including contract modifications or change orders, unless price reasonableness can be established on the basis of a catalog or market price of a commercial product sold in substantial quantities to the general public or based on prices set by law or regulation. A price analysis will be used in all other instances to determine the reasonableness of the proposed contract price.
- (2) Grantees and subgrantees will negotiate profit as a separate element of the price for each contract in which there is no price competition and in all cases where cost analysis is performed. To establish a fair and reasonable profit, consideration will be given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.
- (3) Costs or prices based on estimated costs for contracts under grants will be allowable only to the extent that costs incurred or cost estimates included in negotiated prices are consistent with Federal cost principles (see

- (A) The item is available only from a single source;
- (B) The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation.
- (C) The awarding agency authorizes noncompetitive proposals; or
- (D) After solicitation of a number of sources, competition is determined inadequate.
- (ii) Cost analysis, i.e., verifying the proposed cost data, the projections of the data, and the evaluation of the specific elements of costs and profit, is required to submit the proposed procurement to the awarding agency for pre-award review in accordance with paragraph (g) of this section.
- (iii) Grantees and subgrantees may be required to submit the proposed procurement to the awarding agency for pre-award review in accordance with paragraph (g) of this section.
- (e) Contracting with small and minority firms, women's business enterprise and labor surplus area firms. (1) The grantee and subgrantees will take all necessary affirmative steps to assure that minority firms, women's business enterprises, and labor surplus area firms are used when possible.
- (2) Affirmative steps shall include:
- (i) Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
- (ii) Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
- (iii) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business, and women's business enterprises;
- (iv) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority business, and women's business enterprises;
- (v) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority business, and women's business enterprises;

- (f) Contracting with small and minority firms, women's business enterprise and labor surplus area firms. (1) The grantee and subgrantees will have a method for conducting technical evaluations of the proposals received and for selecting awardees;
- (iv) Awards will be made to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered; and
- (v) Grantees and subgrantees may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.
- (4) Procurement by noncompetitive proposals is procurement through so-

43 CFR Subtitle A (10-1-92 Edition)

(1) Grantees may reference their own cost principles that comply with the applicable Federal cost principles.

(4) The cost plus a percentage of cost and percentage of construction cost methods of contracting shall not be used.

(g) **Awarding agency review.** (1) Grantees and subgrantees must make available, upon request of the awarding agency, technical specifications on proposed procurements where the awarding agency believes such review is needed to ensure that the item and/or service specified is the one being proposed for purchase. This review generally will take place prior to the time the specification is incorporated into a solicitation document. However, if the grantee or subgrantee desires to have the review accomplished after a solicitation has been developed, the awarding agency may still review the specifications, with such review usually limited to the technical aspects of the proposed purchase.

(2) Grantees and subgrantees must on request make available for awarding agency pre-award review I. delete "..." procurement documents, such as requests for proposals or invitations for bids; independent cost estimates, etc., when:

(i) A grantee's or subgrantee's procurement procedures or operation fails to comply with the procurement standards in this section; or

(ii) The procurement is expected to exceed \$25,000 and is to be awarded without competition or only one bid or offer is received in response to a solicitation; or

(iii) The procurement, which is expected to exceed \$25,000, specifies a "brand name" product; or

(iv) The proposed award over \$25,000 is to be awarded to other than the apparent low bidder under a sealed bid procurement; or

(v) A proposed contract modification changes the scope of a contract or increases the contract amount by more than \$25,000.

(3) A grantee or subgrantee will be exempt from the pre-award review in paragraph (g)(2) of this section if the awarding agency determines that its procurement systems comply with the standards of this section.

(1) **Contract provisions.** A grantee's and subgrantee's contracts must contain provisions in paragraph (1) of this section. Federal agencies are permitted to require changes, remedies, changed conditions, access and records retention, suspension of work, and other clauses approved by the Office of Procurement Policy.

(1) Administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate. (Contracts other than small purchases)

(7) Notice of awarding agency requirements and regulations pertaining to reporting.

(8) Notice of awarding agency requirements and regulations pertaining to patent rights with respect to any discovery or invention which arises or is developed in the course of or under such contract

(9) Awarding agency requirements and regulations pertaining to copy rights and rights in data.

(10) Access by the grantee, the subgrantee, the Federal grantor agency, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the contractor which are directly pertinent to that specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

(11) Retention of all required records for three years after grantees or subgrantees make final payments and all other pending matters are closed.

(12) Compliance with all applicable standards, orders, or requirements issued under section 306 of the Clean Air Act (42 U.S.C. 1857(h)), section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and Environmental Protection Agency regulations (40 CFR part 15). § 12.77 Subgrants.

(a) States, States shall follow state law and procedures when awarding and administering subgrants (whether on a cost reimbursement or fixed amount basis) of financial assistance to local and Indian tribal governments. States shall:

(1) Ensure that every subgrant includes any clauses required by Federal statute and executive orders and their implementing regulations;

(2) Ensure that subgrantees are aware of requirements imposed upon

(h) **Bonding requirements.** For construction or facility improvement contracts or subcontracts exceeding \$100,000, the awarding agency may accept the bonding policy and requirements of the grantee or subgrantee provided the awarding agency has made a determination that the awarding agency's interest is adequately protected. If such a determination has not been made, the minimum requirements shall be as follows:

(1) A bid guarantee from each bidder equivalent to five percent of the bid price. The "bid guarantee" shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

(2) A performance bond on the part of the contractor for 100 percent of the contract price. A "performance bond" is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under such contract.

(3) A payment bond on the part of the contractor for 100 percent of the contract price. A "payment bond" is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and

material in the execution of the work provided for in the contract.

(1) **Contract provisions.** A grantee's and subgrantee's contracts must contain provisions in paragraph (1) of this section. Federal agencies are permitted to require changes, remedies, changed conditions, access and records retention, suspension of work, and other clauses approved by the Office of Procurement Policy.

(1) Administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate. (Contracts other than small purchases)

them by Federal statute and regulation:

(3) Ensure that a provision for compliance with § 12.82 is placed in every cost reimbursement subgrant; and

(4) Conform any advances of grant funds to subgrantees substantially to the same standards of timing and amount that apply to cash advances by Federal agencies.

(b) *All other grantees.* All other grantees shall follow the provisions of this part which are applicable to awarding agencies when awarding and administering subgrants (whether on a cost reimbursement or fixed amount basis) of financial assistance to local and Indian tribal governments. Grantees shall:

(1) Ensure that every subgrant includes a provision for compliance with this part;

(2) Ensure that every subgrant includes any clauses required by Federal statute and executive orders and their implementing regulations; and

(3) Ensure that subgrantees are aware of requirements imposed upon them by Federal statutes and regulations.

(c) *Exceptions.* By the own terms, certain provisions of this part do not apply to the award and administration of subgrants:

(1) Section 12.50;

(2) Section 12.51;

(3) The letter-of-credit procedures specified in Treasury Regulations at 31 CFR part 205, cited in § 12.61; and

REPORTS, RECORDS RETENTION, AND ENFORCEMENT

§ 12.80 Monitoring and reporting program performance.

(a) *Monitoring by grantees.* Grantees are responsible for managing the day-to-day operations of grant and subgrant supported activities. Grantees must monitor grant and subgrant supported activities to assure compliance with applicable Federal requirements and that performance goals are being achieved. Grantee monitoring must cover each program, function or activity.

(b) *Nonconstruction performance reports.* The Federal agency may, if it

Office of the Secretary of the Interior

decides that performance information available from subsequent applications contains sufficient information to meet its programmatic needs, require the grantee to submit a performance report only upon expiration or termination of grant support. Unless waived by the Federal agency this report will be due on the same date as the final Financial Status Report.

(1) Grantees shall submit annual performance reports unless the awarding agency requires quarterly or semi-annual reports. However, performance reports will not be required more frequently than quarterly. Annual reports shall be due 90 days after the grant year, quarterly or semi-annual reports shall be due 30 days after the reporting period. The final performance report will be due 90 days after the expiration or termination of grant support. If a justified request is submitted by a grantee, the Federal agency may extend the due date for any performance report. Additionally, performance reports for unnecessary performance reports may be waived by the Federal agency.

(2) Performance reports will contain, for each grant, brief information on the following:

(i) A comparison of actual accomplishments to the objectives established for the period. Where the output of the project can be quantified, a computation of the cost per unit of output may be required if that information will be useful.

(ii) The reasons for slippage if established objectives were not met.

(iii) Additional pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs.

(3) Grantees will not be required to submit more than the original and two copies of performance reports.

(4) Grantees will adhere to the standards in this section in prescribing performance reporting requirements for subgrantees.

(c) *Construction performance reports.* For the most part, on-site technical inspections and certified percentage-of-completion data are relied on heavily by Federal agencies to monitor progress under construction grants and subgrants. The Federal agency

will require additional formal performance reports only when considered necessary, and never more frequently than quarterly.

(d) *Significant developments.* Events may occur between the scheduled performance reporting dates which have significant impact upon the grant or subgrant supported activity. In such cases, the grantee must inform the Federal agency as soon as the following types of conditions become known:

(1) Problems, delays, or adverse conditions which will materially impair the ability to meet the objective of the award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation.

(2) Favorable developments which enable meeting time schedules and objectives sooner or at less cost than anticipated or producing more beneficial results than originally planned.

(e) Federal agencies may make site visits as warranted by program needs.

(f) *Waivers, extensions.* (1) Federal agencies may waive any performance report required by this part if not needed.

(2) The grantee may waive any performance report from a subgrantee when not needed. The grantee may extend the due date for any performance report from a subgrantee if the grantee will still be able to meet its performance reporting obligations to the Federal agency.

§ 12.81 Financial reporting.

(a) *General.* (1) Except as provided in paragraphs (a) (2) and (5) of this section, grantees will use only the forms specified in paragraphs (a) through (e) of this section, and such supplementary or other forms as may from time to time be authorized by OMB, for:

(1) Submitting financial reports to Federal agencies, or

(ii) Requesting advances or rebursements when letters of credit are not used.

(2) Grantees need not apply the forms prescribed in this section in dealing with their subgrantees. However, grantees shall not impose more burdensome requirements on subgrantees.

(3) Grantees shall follow all applicable standard and supplemental Federal agency instructions approved by OMB to the extent required under the Paperwork Reduction Act of 1980 for use in connection with forms specified in paragraphs (b) through (e) of this section. Federal agencies may issue substantive supplementary instructions only with the approval of OMB. Federal agencies may shade out or

construct the grantee to disregard a line item that the Federal agency finds unnecessary for its decisionmaking purposes.

(4) Grantees will not be required to submit more than the original and two copies of forms required under this part.

(5) Federal agencies may provide computer outputs to grantees to expedite or contribute to the accuracy of reporting. Federal agencies may accept the required information from grantees in machine usable formats instead of computer printouts instead of prescribed forms.

(6) Federal agencies may waive report required by this section if needed.

(7) Federal agencies may extend due date of any financial report upon receiving a justified request from grantee.

(b) *Financial Status Report.* Grantees will use Standard Form 269 or 269A, Financial Status Report, to report the status of funds for all nonconstruction grants and construction grants when required in accordance with § 12.81(e)(2)(III).

(2) *Accounting basis.* Each grant will report program outlays and grant income on a cash or accrual basis as prescribed by the awarding agency. If the Federal agency requires accrual accounting records are not normally kept on the accrual basis, the grant shall not be required to convert its accounting system but shall develop such accrual information through analysis of the documentation

(3) *Frequency.* The Federal agency may prescribe the frequency of report for each project or program. However, the report will not be required more frequently than quarterly

§ 12.81 43 CFR Subtitle A (10-1-92 Edition)

(y) If the Federal agency does not specify the frequency of the report, it will be submitted annually. A final report will be required upon expiration or termination of grant support.

(4) Due date. When reports are required on a quarterly or semiannual basis, they will be due 30 days after the reporting period. When required on an annual basis, they will be due 90 days after the grant year. Final reports will be due 90 days after the expiration or termination of grant support.

(c) **Federal Cash Transactions Report**—(1) Form. (i) For grants paid by letter or credit, Treasury check advances or electronic transfer of funds, the grantee will submit the Standard Form 272, Federal Cash Transactions Report, and when necessary, its continuation sheet, Standard Form 272A, unless the terms of the award exempt the grantee from this requirement.

(ii) These reports will be used by the Federal agency to monitor cash advanced to grantees and to obtain disbursement or outlay information for each grant from grantees. The format of the report may be adapted as appropriate when reporting is to be accomplished with the assistance of automatic data processing equipment provided that the information to be submitted is not changed in substance.

(2) **Forecasts of Federal cash requirements.** Forecasts of Federal cash requirements may be required in the "Remarks" section of the report.

(3) **Cash in hands of subgrantees.** When considered necessary and feasible by the Federal agency, grantees may be required to report the amount of cash advances in excess of three days' needs in the hands of their subgrantees or contractors and to provide short narrative explanations of actions taken by the grantee to reduce the excess balances.

(4) **Frequency and due date.** Grantees must submit the report no later than 15 working days following the end of each quarter. However, where an advance either by letter of credit or electronic transfer of funds is authorized at an annualized rate of one million dollars or more, the Federal agency may require the report to be

submitted within 15 working days following the end of each month.

(d) **Request for advance or reimbursement—(1) Advance payments.** Requests for Treasury check advance payments will be submitted on Standard Form 270, Request for Advance or Reimbursement. (This form will not be used for drawdowns under a letter of credit, electronic funds transfer or when Treasury check advance payments are made to the grantee automatically on a predetermined basis.)

(2) **Reimbursements.** Requests for reimbursement under nonconstruction grants will also be submitted on Standard Form 270. (For reimbursement requests under construction grants, see paragraph (e)(1) of this section.)

(3) The frequency for submitting payment requests is treated in § 12.81(b)(3).

(e) **Outlay report and request for reimbursement for construction programs—(1) Grants that support construction activities paid by reimbursement method.** (i) Requests for reimbursement under construction grants will be submitted on Standard Form 271, Outlay Report and Request for Reimbursement for Construction Programs. Federal agencies may, however, prescribe the Request for Advance or Reimbursement form, specified in § 12.81(d), instead of this form.

(ii) The frequency for submitting reimbursement requests is treated in § 12.81(b)(3).

(2) **Grants that support construction activities paid by letter of credit, electronic funds transfer or Treasury check advance.** (i) When a construction grant is paid by letter of credit, electronic funds transfer or Treasury check advances, the grantee will report its outlays to the Federal agency using Standard Form 271, Outlay Report and Request for Reimbursement for Construction Programs. The Federal agency will provide any necessary special instruction. However, frequency and due date shall be governed by § 12.81(b)(3) and (4).

(ii) When a construction grant is paid by Treasury check advances based on periodic requests from the grantee, the advances will be requested on the form specified in § 12.81(d).

Office of the Secretary of the Interior

§ 12.82

- (iii) The Federal agency may substitute the Financial Status Report specified in § 12.81(b) for the Outlay Report and Request for Reimbursement for Construction Programs.
- (3) **Accounting basis.** The accounting basis for the Outlay Report and Request for Reimbursement for Construction Programs shall be governed by § 12.81(b)(2).
- § 12.82 Retention and access requirements for records.**
- (a) **Applicability.** (1) This section applies to all financial and programmatic records, supporting documents, statistical records, and other records of grantees or subgrantees which are:
- (i) Required to be maintained by the terms of this part, program regulations or the grant agreement, or
- (ii) Otherwise reasonably considered as pertinent to program regulations or the grant agreement.
- (2) This section does not apply to records maintained by contractors or subcontractors. For a requirement to place a provision concerning records in certain kinds of contracts, see § 12.78(b)(10).
- (b) **Length of retention period.** (1) Except as otherwise provided, records must be retained for three years from the starting date specified in paragraph (c) of this section.
- (2) If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.
- (3) To avoid duplicate recordkeeping, awarding agencies may make special arrangements with grantees and subgrantees to retain any records which are continuously needed for joint use. The awarding agency will request transfer of records to its custody when it determines that the records possess long-term retention value.
- When the records are transferred to or maintained by the Federal agency, the 3-year retention requirement is not applicable to the grantee or subgrantee.
- (i) If submitted for negotiation. If the proposal, plan, or other computation is required to be submitted to the Federal Government (or to the grantee) to form the basis for negotiation of the rate, then the 3-year retention period for its supporting records starts from the date of such submission.
- (ii) If not submitted for negotiation. If the proposal, plan, or other computation is not required to be submitted
- (c) **Starting date of retention period—(1) General.** When grant support is continued or renewed at annual or other intervals, the retention period for the records of each funding period starts on the day the grantee or subgrantee submits to the awarding agency its single or last expenditure report for that period. However, if grant support is continued or renewed quarterly, the retention period for each year's records starts on the day the grantee submits its expenditure report for the last quarter of the Federal fiscal year. In all other cases, the retention period starts on the day the grantee submits its final expenditure report. If an expenditure report has been waived, the retention period starts on the day the report would have been due.
- (2) **Real property and equipment records.** The retention period for real property and equipment records starts from the date of the disposition or replacement or transfer at the direction of the awarding agency.
- (3) **Records for income transactions after grant or subgrant support.** In some cases grantees must report income after the period of grant support. Where there is such a requirement, the retention period for the records pertaining to the earning of the income starts from the end of the grantee's fiscal year in which the income is earned.
- (4) **Indirect cost rate proposals, cost allocations plans, etc.** This paragraph applies to the types of documents and their supporting records; indirect cost rate computations or proposals, cost allocation plans, and any similar accounting computations of the rate at which a particular group of costs is chargeable (such as composite usage chargeback rates or composite fringe benefit rates).

SUSPENSION

§ 12.400 General.

(a) The suspending official may suspend a person for any of the causes in § 12.405 using procedures established in §§ 12.410 through 12.413.

(b) Suspension is a serious action to be imposed only when:

(1) There exists adequate evidence of one or more of the causes set out in § 12.405; and

(2) Immediate action is necessary to protect the public interest.

(c) In assessing the adequacy of the evidence, the agency should consider how much information is available, how credible it is given the circumstances, whether or not important allegations are corroborated, and what inferences can reasonably be drawn as a result. This assessment should include an examination of basic documents such as grants, cooperative agreements, loan authorizations, and contracts.

§ 12.405 Causes for suspension.

(a) Suspension may be imposed in accordance with the provisions of §§ 12.400 through 12.413 upon adequate evidence:

(1) To suspect the commission of an offense listed in § 12.305(a); or

(2) That a cause for debarment under § 12.305 may exist.

(b) Indictment shall constitute adequate evidence for purposes of suspension actions:

§ 12.410 Procedures.

(a) Investigation and referral. Information concerning the existence of a cause for suspension from any source shall be promptly reported, investigated, and referred, when appropriate, to the suspending official for consideration. After consideration, the suspending official may issue a notice of suspension.

§ 12.411 Notice of suspension.

When a respondent is suspended, notice shall immediately be given:

(a) That suspension has been imposed;

(b) That the suspension is based on an indictment, conviction, or other adequate evidence that the respondent has committed irregularities seriously reflecting on the propriety of further Federal Government dealings with the respondent;

(c) Describing any such irregularities in terms sufficient to put the respondent on notice without disclosing the Federal Government's evidence;

(d) Of the cause(s) relied upon under § 12.405 for imposing suspension;

(e) That the suspension is for a temporary period pending the completion of an investigation or ensuing legal, debarment, or Program Fraud Civil Remedies Act proceedings;

(f) Of the provisions of § 12.411 through § 12.413 and any other Department of the Interior procedures, if applicable, governing suspension debarment, and

(g) Of the effect of the suspension.

§ 12.412 Opportunity to contest suspension.

(a) Submission in opposition. Within 30 days after receipt of the notice of suspension, the respondent may submit, in person, in writing, or through a representative, information and argument in opposition to the suspension.

(b) Additional proceedings as to disputed material facts. (1) If the suspending official finds that the respondent's submission in opposition raises a genuine dispute over facts material to the suspension, respondents shall be afforded an opportunity to appear with a representative, submit documentary evidence, present witness testimony, and confront any witness the agency presents, unless:

(i) The action is based on an indictment, conviction or civil judgment, or

(ii) A determination is made, on the basis of Department of Justice advice, that the substantial interests of the Federal Government in pending or contemplated legal proceedings based on the same facts as the suspension would be prejudiced.

(2) A transcribed record of any additional proceedings shall be prepared and made available at cost to the respondent, upon request, unless the respondent and the agency, by mutual agreement, waive the requirement for a transcript.

§ 12.413 Suspending official's decision.

The suspending official may modify or terminate the suspension (for example, see § 12.320(c) for reasons for reducing the period or scope of debarment) or may leave it in force. However, a decision to modify or terminate the suspension shall be without prejudice to the subsequent imposition of suspension by any other agency or debarment by any agency. The decision shall be rendered in accordance with the following provisions:

(a) No additional proceedings necessary. In actions: Based on an indictment, conviction, or civil judgment; in which there is no genuine dispute over material facts; or in which additional proceedings to determine disputed material facts have been denied on the basis of Department of Justice advice, the suspending official shall make a decision on the basis of all the information in the administrative record, including any submission made by the respondent. The decision shall be made within 45 days after receipt of any information and argument submitted by the respondent, unless the suspending official extends this period for good cause.

(b) Additional proceedings necessary. (1) In actions in which additional proceedings are necessary to determine disputed material facts, written findings of fact shall be prepared. The suspending official shall base the decision on the facts as found, together with any information and argument submitted by the respondent.

§ 12.420 Scope of suspension.

(c) The agency shall direct inquiries concerning listed persons to the agency that took the action.

(d) Agency officials shall check the Nonprocurement List before entering covered transactions to determine whether a participant in a primary transaction is debarred, suspended, ineligible, or voluntarily excluded (Tel. #).

(e) Agency officials shall check the Nonprocurement List before approving principals or lower tier participants where agency approval of the principal or lower tier participant is

required under the terms of the trans-action, to determine whether such principals or participants are debarred, suspended, ineligible, or volun-tarily excluded.

(f) At a minimum, this list shall in-clude:

(a) Certification by participants in primary covered transactions. Each participant shall submit the certifica-tion in appendix A to this subpart for its principals at the time the participant submits its proposal in connection with a primary covered transaction, except that States need only complete such certification as to their principals. Participants may decide the method and frequency by which they determine the eligibility of their principals. In addition, each par-ticipant may, but is not required to, check the Nonprocurement List for its principals (Tel. #). Adverse informa-tion on the certification will not neces-sarily result in denial of participation.

However, the certification, and any additional information pertaining to the certification submitted by the partici-pant, shall be considered in the admin-istration of covered transactions.

(b) Certification by participants in lower tier covered transactions. (1) Each participant shall require participants in lower tier covered transac-tions to include the certification in ap-pendix B to this subpart for it and its principals in any proposal submitted in connection with such lower tier cov-ered transactions.

(2) A participant may rely upon the certification of a prospective partici-pant in a lower tier covered transac-tion that it and its principals are not debarred, suspended, ineligible, or vol-un-tarily excluded from the covered transaction by any Federal agency, unless it knows that the certification is erroneous. Participants may decide the method and frequency by which they determine the eligibility of their principals. In addition, a participant may, but is not required to, check the Nonprocurement List for its principals and for participants (Tel. #).

(c) Changed circumstances regard-ing certification. A participant shall pro-vide immediate written notice to the Department of the Interior if at any

time the participant learns that its certification was erroneous when sub-mitted or has become erroneous by reason of changed circumstances. Par-ticipants in lower tier covered transac-tions shall provide the same updated notice to the participant to which it submitted its proposals.

EDITORIAL NOTE: Nomenclature changes for § 12.600 through § 12.635 appear at 55 FR 21702, May 25, 1990.

§ 12.600 Purpose.

(a) The purpose of the drug-free workplace requirements for grants is to carry out the Drug-Free Workplace Act of 1988 by requiring that—

(1) A grantee, other than an individual, shall certify to the agency that it will provide a drug-free workplace;

(2) A grantee who is an individual shall certify to the agency that, as a condition of the grant, he or she will not engage in the unlawful manufac-ture, distribution, dispensing, posses-sion or use of a controlled substance in conducting any activity with the grant.

(b) Requirements implementing the Drug-Free Workplace Act of 1988 for contractors with the agency are found at 48 CFR subparts 9.4, 23.5, and 52.2.

§ 12.605 Definitions.

(a) Except as amended in this sec-tion, the definitions of § 12.105 apply to the drug-free workplace require-ments for grants.

(b) For purposes of the drug-free workplace requirements for grants—

(iii) Temporary personnel and con-sultants who are directly engaged in

the performance of work under the

grant and who are on the grantee's

payroll;

This definition does not include work-

ers not on the payroll of the grantee

matching requirement; consultants or

independent contractors not on the

payroll; or employees of subrecipients

or subcontractors in covered work-

places);

(6) Federal agency or agency means

A determination of such inconsistency may be made only by the agency head or his/her designee.

(c) The provisions of subpart D apply to matters covered by the drug-free workplace requirements for grants, except where specifically modified by the drug-free workplace requirements for grants. § 12.635 Exception provision.

The agency head may waive with respect to a particular grant, in writing, a suspension of payments under a grant, suspension or termination of a grant, or suspension or debarment of a grantee if the agency head determines that such a waiver would be in the public interest. This exception authority cannot be delegated to any other official.

§ 12.630 Certification requirements and procedures.

(a)(1) As a prior condition of being awarded a grant, each grantee shall make the appropriate certification to the Federal agency providing the grant, as provided in appendix C to subpart D.

The prospective primary participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion—Lower Tier Covered Transaction," provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. Subpart A--Administrative and Audit Requirements and Cost Principles for Assistance Programs

&12.18 Internal control and compliance reviews.

The Single Audit Act requires that the independent auditor determine and report on whether the organization has internal control systems to provide reasonable assurance that it is managing Federal assistance programs in compliance with applicable laws and regulations.

(b) Compliance review. The law also requires the auditor to determine whether the organization has complied with laws and regulations that may have a material effect on each major Federal assistance program.

&12.20 Relation to other audit requirements.

The Single Audit Act provides that an audit made in accordance with this rule shall be in lieu of any financial or financial compliance audit required under individual Federal assistance programs. To the extent that a single audit provides Federal agencies with information and assurances they need to carry out their overall responsibilities, they shall rely upon and use such information. However, a Federal agency shall make any additional audits which are necessary to carry out its responsibilities under Federal law and regulation. Any additional Federal audit effort shall be planned and carried out such a way as to avoid duplication.

Termination means permanent withdrawal of the authority to obligate previously awarded grant funds before that authority would otherwise expire. It also means the voluntary relinquishment of that authority by the grantee or subgrantee. "Termination" does not include (1) Withdrawal of funds awarded on the basis of the grantee's underestimate of the unobligated balance to a prior period. PRE-AWARD REQUIREMENTS

& 12.50 Forms for applying for grants.

(a) Scope (1) This section prescribes forms and instructions to be used by governmental organizations ... in applying for grants.

(2) This section applies only to applications to Federal agencies for grants, and is not required to be applied by grantees in dealing with applicants for subgrants.

(b) Authorized forms and instructions for governmental organizations. (1) In applying for grants, applicants shall only use standard application forms or those prescribed by the granting agency with the approval of OMB under the Paperwork Reduction Act of 1980. (2) Applicants are not required to submit more than the original and two copies of preapplications or applications. (3) Applicants must follow all applicable instructions that bear OMB clearance numbers. Federal agencies may specify and describe the programs, functions or activities that will be used to plan, budget and evaluate the work under a grant.

\$12.51 State plans.

(c) Assurances. In each plan the State will include an assurance that the State shall comply with all applicable Federal statutes and regulations in effect with respect to the periods for which it receives grant funding. For this assurance and other assurances required in the plan, the State May:

(1) Cite by number the statutory or regulatory provisions requiring the assurances and affirm that it gives the assurances required by those provisions, (2) Repeat the assurance language in the statutes or regulations, or (3) Develop its own language to the extent permitted by law.

&12.52 Special grant or subgrant conditions those for "high-risk" grantees.

POST AWARD REQUIREMENTS

Financial Administration

&12.60 Standards for financial management systems.

(b) The financial management systems of other grantees and subgrantees must meet the following standards:

(1) Financial reporting. Accurate, current, and complete disclosure of the financial results of financially assisted activities must be made in accordance with the financial reporting requirements of the grant or subgrant. (2) Accounting records. Grantees and subgrantees must maintain records which adequately identify the source and application of funds provided for financially assisted activities. These records must contain information pertaining to grant or subgrant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, and income. (3) Internal control. Effective control and accountability must be maintained for all grant and subgrant cash, real and personal property, and other assets. Grantees and subgrantees must adequately safeguard all such property and must assure that it is used solely for authorized purposes. (4) Budget control. Actual expenditures or outlays must be compared with budgeted amounts for each grant or subgrant. Financial information must be related to performance or productivity data, including the development of unit cost information whenever appropriate or specifically required in the grant or subgrant agreement. If unit cost data are required, estimates based on available documentation will be accepted whenever possible.

(5) Allowable cost. Applicable OMB cost principles, agency program regulations, and the terms of grant and subgrant agreements will be followed in determining the reasonableness, allowability, and allocability of costs.

(6) Source documentation. Accounting records must be supported by

such source documentation as cancelled checks, paid bills, payrolls, time and attendance records, contract and subgrant award documents, etc.

(7) Cash management. Procedures for minimizing the time elapsing between the transfer of funds from the U.S. Treasury and disbursement by grantees and subgrantees must be followed whenever advance payment procedures are used. Grantees must establish reasonable procedures to ensure the receipt of reports on subgrantees' cash balances and cash disbursements in sufficient time to enable them to prepare complete and accurate cash transactions reports to the awarding agency. When advances are made by letter-of-credit or electronic transfer of funds methods, the grantee must make drawdowns as close as possible to the time of making disbursements. Grantees must monitor cash drawdowns by their subgrantees to assure that they conform substantially to the same standards of timing and amount as apply to advances to the grantees.

& 12.61 Payment

(a) Scope. This section prescribes the basic standard and the methods under which a Federal agency will make payments to grantees, and grantees will make payments to subgrantees and contractors.

(b) Basic standard. Methods and procedures for payment shall minimize the time elapsing between the transfer of funds and disbursement by the grantee or subgrantee, in accordance with Treasury regulations of 31 CFR PART 205.

(c) Advances. Grantees and subgrantees shall be paid in advance, provided they maintain or demonstrate the willingness and ability to maintain procedures to minimize the time lapsing between the transfer of the funds and their disbursement by the grantee or subgrantee.

(d) Reimbursement. Reimbursement shall be the preferred method when the requirements in paragraph (c) of this section are not met. Grantees and subgrantees may also be paid by reimbursement for any construction grant. Except as otherwise specified in regulation, Federal agencies shall not use the percentage of completion method to pay construction grants. The grantee or subgrantee may use that method to pay its construction contractor, and if it does, the awarding agency's payments to the grantee or subgrantee will be based on the grantee's or subgrantee's actual rate of disbursement.

(e) Working capital advances. If grantee cannot meet the criteria for advance payments described in paragraph (c) of this section, and the Federal agency has determined that reimbursement is not feasible because the grantee lacks sufficient working capital, the awarding agency may provide cash or a working capital advance basis. Under this procedure the awarding agency shall advance cash to the grantee to cover its estimated disbursement needs for an initial period generally geared to the grantee's disbursing cycle. Thereafter, the awarding agency shall reimburse the grantee for its actual cash disbursements. The working capital advance method of payment shall not be used by grantee or subgrantees if the reason for using such method is the unwillingness or inability of the grantee to provide timely advances to the subgrantee to meet the

subgrantee's actual cash disbursements.

(f) Effect of program income, funds and audit recoveries on payment. (1) Grantees and subgrantee shall disburse repayments to and interest earned on a revolving funds before requesting additional cash payments for the same activity.

(2) Except as provided in paragraph (f)(1) of this section, grantees and subgrantees shall disburse program income, rebates, refunds, contract settlements, audit recoveries and interest earned on such funds before requesting additional cash payments.

(g) Withholding payments. Unless otherwise required by Federal statute, awarding agencies shall not withhold payments for proper charges incurred by grantees or subgrantee unless-

(i) The grantee or subgrantee has failed to comply with grant award conditions or (ii) The grantee or subgrantee is indebted to the United States, (2) Cash withheld for failure to comply with grant award condition, but without suspension of the grant, shall be released to the grantee upon subsequent compliance. When a grant is suspended, payment adjustments will be made in accordance with § 43(c).

(3) A Federal agency shall not make payment to grantees for amounts that are withheld by grantees or subgrantees from payment to contractors to assure satisfactory completion of work. Payments shall be made by the Federal agency when the grantees or subgrantees actually disburse the withheld funds to the contractors or to escrow accounts established to assure satisfactory completion of work.

(h) Cash depositories. (1) Consistent with the national goal of expanding the opportunities for minority business enterprises, grantees and subgrantees are encouraged to use minority banks (a bank which is owned at least 50 percent by minority group members). (2) A grantee or subgrantee shall maintain a separate bank account only when required by Federal-State agreement.

(i) Interest earned on advances. Except for interest earned on advances of funds exempt under the Intergovernmental Cooperation Act (31 U.S.C. 6501 et seq.), and the Indian Self-Determination Act (23 U.S.C. 450), grantees and subgrantees shall promptly, but at least quarterly, remit interest earned on advances to the Federal agency.

&12.62 Allowable costs.

(b) Applicable cost principles. For each kind of organization, there is a set of Federal principles for determining allowable costs. Allowable costs will be determined in accordance with the cost principles applicable to the organization incurring the costs.

&12.63 Period for availability of funds.

(a) General. Where a funding period is specified, a grantee may charge to the award only costs resulting from obligations of the funding period unless carryover of unobligated balances is permitted, in which case the carryover balances may be charged for costs resulting from obligations of the subsequent funding period.

(b) Liquidation of obligations. A grantee must liquidate all obligations incurred under the award not later than 90 days after

the end of the funding period (or as specified in a program regulation) to coincide with the submission of the annual Financial Status Report (SF-269). The Federal agency may extend this deadline at the request of the grantee.

CHANGES, PROPERTY, AND SUBAWARDS

&12.70 Changes

(a) General. Grantees and subgrantees are permitted to rebudget within the approved direct cost budget to meet unanticipated requirements and may make limited program changes to the approved project. However, unless waived by the awarding agency, certain types of post-award changes in budgets and projects shall require the prior written approval of the awarding agency.

(b) Relation to cost principles. The applicable cost principles (see &12.62) contain requirements for prior approval of certain types of costs. Except where waived, those requirements apply to all grants and subgrants even if paragraphs (c) through (f) of this section do not.

(2) Construction projects. Grantees and subgrantees shall obtain prior written approval for any budget revision which would result in the need for additional funds.

(d) Programmatic changes. Grantees or subgrantees must obtain the prior approval of the awarding agency whenever any of the following actions is anticipated:

(1) Any revision of the scope or objectives of the project (regardless of whether there is an associated budget revision requiring prior approval).

(2) Need to extend the period of availability of funds.

(f)(3) A request by a subgrantee for prior approval will be addressed in writing to the grantee. The grantee will promptly review such request and shall approve or disapprove the request in writing. A grantee will not approve any budget or project revision which is inconsistent with the purpose or terms and conditions of the federal grant to the grantee. If the revision, requested by the subgrantee would result in a change to the grantee's approved project which requires Federal agency prior approval, the grantee will obtain the Federal agency's approval before approving the subgrantee's request.

&12.71 Real Property.

(a) Title. Subject to the obligation and conditions set forth in this section, title to real property acquired under a grant or subgrant will vest upon acquisition in the grantee or subgrantee respectively.

(b) Use. Except as otherwise provided by Federal statutes, real property will be used for the originally authorized purposes as long as needed for those purposes, and the grantee or subgrantee shall not dispose of or encumber its title or other interests.

(c) Disposition. When real property is no longer needed for the originally authorized purpose, the grantee or subgrantee will request disposition instructions from the awarding agency. The instructions will provide for one of the following alternatives:

(1) Retention of title. Retain title after compensating the awarding agency.

(2) Sale of property. Sell the property and compensate the awarding agency.

(3) Transfer of title. Transfer title to the awarding agency or to a third party designated/approved by the awarding agency. The grantee or subgrantee shall be paid an amount calculated by applying the grantee or subgrantee's percentage of participation in the purchase of the real property to the current fair market value of the property.

&12.72 Equipment.

(a) Title. Subject to the obligations and conditions set forth in this section, title to equipment acquired under grant or subgrant will vest upon acquisition in the grantee or subgrantee respectively.

(c) Use. (1) Equipment shall be used by the grantee or subgrantee in the program or project for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. When no longer needed for the original program or project, the equipment may be used in other activities currently or previously supported by a Federal agency.

(4) When acquiring replacement equipment, the grantee or subgrantee may use the equipment to be replaced as a trade-in or sell the property and use the proceeds to offset the cost of the replacement property, subject to the approval of the awarding agency.

(d) Management requirements. Procedures for managing equipment (including replacement equipment), whether acquired in whole or part with grant funds, until disposition takes place will, as a minimum, meet the following requirements:

(1) Property records must be maintained that include a description of property

(2) A Physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.

(3) A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft shall be investigated.

(4) Adequate maintenance procedures must be developed to keep the property in good condition.

(5) If the grantee or subgrantee is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return.

&12.73 Supplies.

(a) Title. Title to supplies acquired under grant or subgrant will vest, upon acquisition, in the grantee or subgrantee respectively.

&12.75 Subawards to debarred and suspended parties.

Grantees and subgrantees must not make any award or permit any award (subgrant or contract) at any tier to any party which is debarred or suspended or is otherwise excluded from or ineligible

for participation in Federal assistance programs under Executive Order 12549, "Debarment and Suspension".

&12.76 Procurement.

(b) Procurement standards. (1) Grantees and subgrantees will use their own procurement procedures which reflect applicable State and local laws and regulations, provided that the procurements conform to applicable Federal law and the standards identified in this section.

(2) Grantees and subgrantees will maintain a contract administration system which ensures that contractor perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.

(3) Grantees and subgrantees will maintain a written code of standards of conduct governing the performance of their employees engaged in the award and administration of contracts.

(7) Grantees and subgrantees are encouraged to use value engineering clauses in contracts for construction projects of sufficient size to offer reasonable opportunities for cost reductions. Value engineering is a systematic and creative analysis of each contract item or task to ensure that its essential function is provided at the overall lower cost.

(8) Grantees and subgrantees will make awards only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

(9) Grantees and subgrantees will maintain records sufficient to detail the significant history of a procurement. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

(11) Grantees and subgrantees alone will be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to source evaluation, protests, disputes, and claims. These standards do not relieve the grantee or subgrantee of any contractual responsibilities under its contracts. Federal agencies will not substitute their judgment for that of the grantee or subgrantee unless the matter is primarily a Federal concern. Violations of law will be referred to the local, State, or Federal authority having proper jurisdiction.

(12) Grantees and subgrantees will have protest procedures to handle and resolve disputes relating to their procurement and shall in all instances disclose information regarding the protest to the awarding agency. A protestor must exhaust all administrative remedies with the grantee and subgrantee before pursuing a protest with the Federal agency. Reviews of protests by the Federal agency will be limited to:

(i) Violations of Federal law or regulations and the standards of this section (violations of State or local law will be under the

jurisdiction of State or local authorities) and

(ii) Violations of the grantees's or subgrantee's protest procedures for failure to review a complaint or protest. Protest received by the Federal agency other than those specified above will be referred to the grantee or subgrantee.

(c) Competition. (1) All procurement transaction will be conducted in a manner providing full and open competition consistent with the standards of §12.76.

(3) Grantees will have written selection procedures for procurement transactions. These procedures will ensure that all solicitations:

(2) Procurement by sealed bids (formal advertising). Bids are publicly solicited and a firm-fixed-price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction, if the conditions in §12.76(d)(2)(i) apply.

(v) Grantees and subgrantees may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualification are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed efforts.

(f) Contract cost and price. (1) Grantees and subgrantees must perform a cost or price analysis in connection with every procurement action including contract modifications. The method and degree of analysis is dependent on the facts surrounding the particular procurement situation, but as a starting point, grantees must make independent estimates before receiving bids or proposals. A cost analysis must be performed when the offeror is required to submit the elements of his estimated cost, e.g., under professional, consulting, and architectural engineering services contracts. A cost analysis will be necessary when adequate price competition is lacking, and for sole source procurement, including contract modifications or change orders, unless price reasonableness can be established on the basis of a catalog or market price of a commercial product sold in substantial quantities to the general public or based on prices set by law or regulation. A price analysis will be used in all other instances to determine the reasonableness of the proposed contract price.

(g) Awarding agency review. (1) Grantees and subgrantees must make available, upon request of the awarding agency, technical specifications on proposed procurements where the awarding agency believes such review is needed to ensure that the item and/or service specified is the one being proposed for purchase. This

review generally will take place prior to the time the specification is incorporated into a solicitation document. However, if the grantee or subgrantee desires to have the review accomplished after a solicitation has been developed, the awarding agency may still review the specifications, with such review usually limited to the technical aspects of the proposed purchase.

(i) A grantee or subgrantee may request that its procurement system be reviewed by the awarding agency to determine whether its system meets these standards in order for its system to be certified. Generally, these reviews shall occur where there is a continuous high dollar funding, and third party contracts are awarded on a regular basis;

(ii) A grantee or subgrantee may self-certify its procurement system. Such self-certification shall not limit the awarding agency's right to survey the system. Under a self-certification procedure, awarding agencies may wish to rely on written assurances from the grantee or subgrantee that it is complying with these standards. A grantee or subgrantee will cite specific procedures, regulations, standards, etc., as being in compliance with these requirements and have its system available for review.

(h) Bonding requirements. For construction or facility improvements contracts or subcontracts exceeding \$100,000, the awarding agency may accept the bonding policy and requirements of the grantee or subgrantee provided the awarding agency has made a determination that the awarding agency's interest is adequately protected. If such determination has not been made, the minimum requirements shall be as follows:

(1) A bid guarantee from each bidder equivalent to five percent of the bid price. The "bid guarantee" shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

(2) A performance bond on the part of the contractor for 100 percent of the contract price.

(3) A payment bond on the part of the contractor for 100 percent of the contract price.

(i) Contract provisions. A grantee's and subgrantee's contracts must contain provisions in paragraph (i) of this section. Federal agencies are permitted to require changes, remedies, changed conditions, access and records retention, suspension of work, and other clauses approved by the Office of Procurement Policy.

(1) Administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate.

(12) Compliance with all applicable standards, orders, or requirements issued under section 306 of the Clear Air Act (42 U.S.C. 1857(h)), section 508 of the Clean Water Act (33 U.S.C. 1368).....

REPORTS, RECORDS RETENTION AND ENFORCEMENT

&12.80 Monitoring and reporting program performance.

(a) Monitoring by grantees. Grantees are responsible for managing the day to day operations of grant and subgrant supported activities. Grantees must monitor grant and subgrant supported activities to assure compliance with applicable Federal requirements and that performance goals are being achieved. Grantee monitoring must cover each program, functions or activity.

(c) Construction performance reports. For the most part, on-site technical inspections and certified percentage-of-completion data are relied on heavily by Federal agencies to monitor progress under construction grants and subgrants. The Federal agency will require additional formal performance reports only when considered necessary, and never more frequently than quarterly.

(e) Federal agencies may make site visits as warranted by program needs.

(f) Waivers, extensions. (1) Federal agencies may waive any performance report required by this part if not needed.

(2) The grantee may waive any performance report from a subgrantee when not needed.

&12.81 Financial reporting

(e) Outlay report and request for reimbursement for construction programs-(1) Grants that support construction activities paid by reimbursement method. (i) Requests for reimbursement under construction grants will be submitted on Standard Form 271, Outlay Report and Request for Reimbursement for Construction Programs. Federal agencies may, however, prescribe the Request for Advance or Reimbursement form, specified in §12.81(d), instead of this form.

(2) Grants that support construction activities paid by letter of credit, electronic funds transfer or Treasury check advance. (i) When a construction grant is paid by letter of credit, electronic funds transfer or Treasury check advances, the grantee will report its outlays to the Federal agency using Standard Form 271, Outlay Report and Request for Reimbursement for Construction Programs. The Federal agency will provide any necessary special instruction. However, frequency and due date shall be governed by §12.81(b)(3) and (4).

(ii) When a construction grant is paid by Treasury check advances based on periodic requests from the grantee, the advances will be requested on the form specified in §12.81(d).

§12.82 Retention and access requirements for records.

(a) Applicability. (1) This section applies to all financial and programmatic records, supporting documents, statistical records and other records of grantees or subgrantees which are:

(i) Required to be maintained by the terms of this part, program regulations or the grant agreement, or

(ii) Otherwise reasonably considered as pertinent to program regulations or the grant agreement.

(b) Length of retention period. (1) Except as otherwise provided, records must be retained for three years from the starting date specified in paragraph (c) of this section

(c) Starting date of retention period-(1) General. When grant support is continued or renewed at annual or other intervals, the retention period for the records of each funding period starts on the day the grantee or subgrantee submits to the awarding agency its single or last expenditure report for that period

§12.83 Enforcement.

(a) Remedies for noncompliance. If a grantee or subgrantee

materially fails to comply with any term of an award, whether stated in a Federal statute or regulation, an assurance, in a State plan or application, a notice of award, or elsewhere, the awarding agency may take one or more of the following actions, as appropriate in the circumstances:

- (1) Temporarily withhold cash payment pending correction of the deficiency by the grantee or subgrantee or more severe enforcement action by the awarding agency,
- (2) Disallow (that is, deny both use of funds and matching credit for) all or part of the cost of the activity or action not in compliance.
- (3) Wholly or partly suspend or terminate the current award for the grantee's or subgrantee's program,
- (4) Withhold further awards for the program, or
- (5) Take other remedies that may be legally available.

&12.84 Termination for convenience.

Except as provided in &12.83 awards may be terminated in whole or part only as follows:

- (a) By the awarding agency with the consent of the grantee or subgrantee in which case the two parties shall agree upon the termination conditions, including the effective date and in the case of partial termination, the portion to be terminated, or
- (b) By the grantee or subgrantee upon written notification to the awarding agency, setting forth the reasons for such termination, the effective date, and in the case of partial termination, the portion to be terminated. However, if, in the case of a partial termination, the awarding agency determines that the remaining portion of the award will not accomplish the purposes for which the award was made, the awarding agency may terminate the award in its entirety under either &12.83 or paragraph (a) of this section.

AFTER THE GRANT REQUIREMENTS

&12.90 Closeout.

(a) General. The Federal agency will close out the grant when it determines that all applicable administrative actions and all required work of the grant has been completed.

(b) Reports. Within 90 days after the expiration or termination of the grant, the grantee must submit all financial, performance and other reports required as a condition of the grant. Upon request by the grantee, Federal agencies may extend this timeframe

&12.91 Later disallowances and adjustments.

The closeout of a grant does not affect:

- (a) The Federal agency's right to disallow costs and recover funds on the basis of a later audit or other review;
- (b) The grantee's obligation to return any funds due as a result of later refunds, corrections, or other transactions;
- (c) Records retention as required in &12.82;
- (d) Property management requirements in &12.71 and 12.72 and
- (e) Audit requirements in &12.66.

&12.92 Collection of amounts due.

(a) Any funds paid to a grantee in excess of the amount to which the grantee is finally determined to be entitled under the terms of the award constitute a debt to the Federal Government. If not paid within a reasonable period after demand, the Federal agency may reduce the debt by:

(1) Making an administrative offset against other requests for reimbursements.

(2) Withholding advance payments otherwise due to the grantee, or

(3) Other action permitted by law.

(b) Except where otherwise provided by statutes or regulations, the Federal agency will charge interest on an over due debt in accordance with the Federal Claims Collection Standards (4 CFR Ch.II). The date from which interest is computed is not extended by litigation or the filing of any form of appeal.
