ABSTRACT

Drawing from data submitted by the Wisconsin Vocational, Technical, and Adult Education (VTAE) districts on their 1993-94 actual cost allocation schedules, this report provides information on district and statewide program and unit costs. First, introductory material provides a statewide summary by aid category of the actual unit costs and ratios for headcount enrollments and full-time equivalent (FTE), indicating that the total unduplicated headcount for the district was 438,396 students and that the cost per headcount student was \$1,094. FTE figures indicate an enrollment of 60,715 students at a cost of \$7,898 per student and total operational costs for the district are cited at \$479,502.7. The bulk of the report contains cost schedules illustrating: (1) district operational costs and total budget; (2) district total expenditure and revenues; (3) district staff costs; (4) district materials fees and FTE student enrollments; (5) statewide costs and FTE enrollment by district; (6) statewide costs per FTE by aid category; (7) costs per FTE by district for college parallel, associate degree, vocational programs, vocational/adult programs, and community services; (8) FTE students and cost by district for agriculture, business, graphics, home economics, industrial, service and health, technical, television, and general education; (9) FTE enrollment and operational cost percentages; (10) cost ratios per FTE student; and (11) FTE student enrollment percentages. FOREWORD

The information contained in this summary was derived from data submitted by the technical colleges on their 1993-94 actual cost allocation schedules.

Cost allocation information is used to calculate the distribution of state aids to the colleges, and prepare financial and enrollment reports including state statistical summaries and reports on the financing of Wisconsin's technical colleges. The data is also used to answer requests for information from the Governor, the Legislature and the public. In addition, the costs by instructional division are used in preparing Wisconsin's State Plan for Vocational Education required by federal statute.

The table below provides a statewide summary by aid category of the 1993-94 actual unit costs and ratios for both headcount and full-time equivalent (FTE) students:

| | College Parallel | Postsecondary | | Continuing Education | | Total |

| Cost per FTE Ratios | .67 | .94 | 1.23 | .98 | .60 | 1.00 |

The financial and enrollment information reported in this summary will not be finalized until after completion of the required audits in the following fiscal year. Enrollments may not agree on all schedules due to rounding of some district figures. Differences in unit costs appearing in the schedules which follow reflect the interplay of factors unique to each technical college, including the mix of programs, the number of locations where courses are offered, enrollment levels, and the average number of credits for which students enroll.

¹Enrollment is duplicated among categories, except for the total which is unduplicated.

²An FTE student represents 30 credits in each aid category.

³In thousands.

¹The numbers vary because of differing organizational structures among the colleges. This position classification includes the college president and other certified administrators who are responsible for the overall educational program of the college or for an assigned portion of the overall educational program.

²This is the sum or average of the four previous staff classifications.

³The (#) columns indicate number of staff. The top portion contains each college's percentage distribution of staff which adds horizontally, except for the total column which adds vertically. NOTE: The staff numbers cannot be compared to any cost allocation Schedule A-3 Staff Analysis Summary prior to the actual 1989-90 count. Beginning with the 1989-90 actual summary, the staff counts are computed on a different basis using workload percentages reported by the colleges for employees in all funds and functions.

⁴The (\$) columns indicate average compensation: The top portion contains amounts that are the mean personal services cost of salary plus fringe benefits for each staff classification; the total represents the statewide mean personal services cost for that classification; the bottom portion contains each college's rank for that classification.

¹Figures rounded as follows: full-time equivalent (FTE) students to nearest tenth, and average (arithmetic mean) materials fees per credit to nearest nickel.

²Computed as follows: each college's materials fees by aid category were divided by the FTE students, and that cost per FTE quotient was divided by 30 to yield the materials fees per credit. This amount will vary according to each college's program mix and number of exemptions by aid category.
