SEC. 313. SENSE OF THE CONGRESS REGARDING APPROPRIATIONS FOR LIHEAP.

(a) FINDINGS.—Congress finds the following:

(1) Seventy-seven percent of the over 25 million households that were eligible for the Low-Income Home Energy Assistance Program (hereinaster referred to as "LIHEAP") in fiscal year 1992 did not receive assistance due to a lack of funds.

(2) Recent economic distress has caused significant unemployment, which has resulted in a greater need for energy as-

sistance than ever before.

(3) More than 66 percent of LIHEAP household recipients

have an annual income that is below the poverty level.

(4) Forty-three percent of all LIHEAP eligible households

include children.

(5) LIHEAP eligible households with children spend approximately 16 percent of their annual incomes on home energy costs, which is more than 4 times greater than that paid by the average household in the United States, and far beyond their means.

(6) Approximately 40 percent of LIHEAP household recipi-

ents are comprised of elderly or disabled persons.

(7) Congress appropriated \$1,475,000,000 for LIHEAP for fiscal year 1995.

(8) The Pepartment of Energy predicts that the costs of residential fuels will increase at a pace greater than inflation.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress

that-

(1) the maintenance of LIHEAP should be a high priority in order to enable low-income households, especially the working poor, the disabled, and the low-income elderly, who all depend on LIHEAP, to meet their energy costs and needs;

(2) all appropriations made for LIHEAP for fiscal year

1995 should be expended; and
(3) expenditures for LIHEAP for fiscal year 1996 should ensure the provision of services at the level provided in fiscal year 1995.

## JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 2000) to authorize appropriations for fiscal years 1995 through 1998 to carry out the Head Start Act, the Community Services Block Grant Act, the Low-Income Home Energy Assistance Program, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate recedes from its disagreement to the amendment of the House with an amendment which is a substitute for the Senate bill and the House amendment. The differences between the Senate bill, the House amendment, and the substitute agreed to in conference are noted below, except for clerical corrections, conforming changes made necessary by agreements reached by the conferees, and minor drafting and clarifying changes.

## TITLE

Senate bill.—The Senate bill has no comparable provision. House amendment.—The House amendment cites the Act as the "Human Services Amendments of 1994." Conference agreement.—The Senate recedes.

#### TABLE OF CONTENTS

Senate bill.—The Senate bill has no comparable provision. House amendment.—The House amendment includes a Table of Contents for the Act.

Conference agreement.—The Senate recedes wish amendments

as appropriate to reflect the conference substitute.

## TITLE I-HEAD START

## DEFINITION OF POVERTY LINE

Senate bill.-Amends the current law definition of "poverty line" to reference the Community Services Block Grant Act definition.

House amendment.-The House amendment has no com-

parable provision.

Conference agreement.—The House recedes with an amendment to clarify that the current poverty line definition shall be adjusted for family size. The conference substitute included technical amendments resulting from the amendment to the poverty line definition.

## DEFINITION OF MOBILE HEAD START PROGRAM

The Conferees have included in the conference substitute a definition of "mobile Head Start program." The Conferees also wish to clarify that such mobile Head Start programs shall be required to comply with performance standards related to provision of educational, social and other services such as apply to home-based Head Start programs. Although mobile Head Start programs shall not be held to the facilities-related performance standards which apply to center-based models, it is the intent of the Conferees that mobile Head Start programs shall operate in safe and secure areas.

## DEFINITION OF FAMILY LITERACY SERVICES

Senate bill.—The bill includes an illustrative list of activities

in the definition of family literacy services.

House amendment.—The House amendment limits the definition of "family literacy services" to specified activities, and references training in English as a second language activities as one of the parent literacy activities.

Conference agreement.—The Senate recedes.

## DEFINITIONS OF LEA, MIGRANT HEAD START, AND SEA

Senate bill.—The Senate bill has no comparable provision. House amendment.-The House amendment includes definitions of "local education agency," "imigrant Head Start program," and "State educational agency.

Conference agreement.—The Senate recedes with an amend-

ment to strike the "State educational agency" definition.

#### AUTHORIZATION OF FUNDS

The conference substitute authorizes the appropriation of such sums as may be necessary to enhance program quality and expand Head Start services to all eligible children, as consistent with the funding levels authorized in 1990. The Conferees note that while the authorization level for the current fiscal year is \$7.66 billion, the authorization level of "such sums" provides the Congress with the flexibility of making substantial progress towards the goal of reaching every eligible child while taking into consideration new initiatives and current fiscal constraints.

The conference substitute is consistent with the President's fiscal year 1995 budget request for Head Start, including a projected annual increase of \$700 million for each of the next four fiscal years. The Conferees applaud the Administration's commitment to the Head Start program and reaffirm their commitment to serving all eligible families who seek service with due consideration of assisting underserved communities and maintaining a high level of

quality in all Head Start programs.

The conference substitute also authorizes the use of not more than \$3 million for fiscal year 1995 and such sums as may be necessary through fiscal year 1998 for longitudinal studies.

## USES OF QUALITY IMPROVEMENT FUNDS

House amendment.—The House amendment includes a provision that staff training shall include training in working with children of a non-English language background.

Conference agreement.—The Senate recedes.

## ALLOCATION OF QUALITY IMPROVEMENT FUNDS

Senate bill.—The Senate bill provides for the allocation of qual-

ity improvement funds among states.

House amendment.—The House amendment includes a technical amendment to include territories in the allocation of quality improvement funds.

Conference agreement.—The Senate recedes.

## RANGE OF COLLABORATION GRANT ACTIVITIES

Senate bill.—The Senate bill funds a broad range of Head Start collaboration activities with state-wide organizations and initiatives designed to "target" low-income children and families.

House amendment.—The House amendment funds only collaboration activities between Head Start and State governments which are "designed to benefit" low-income children and families.

Conference agreement.—The House recedes with an amendment to fund a broad range of activities "which are 'designed to benefit' low-income" children and families. The Conferees believe that the limited resources available for these collaboration grants will be maximized by allowing the Head Start liaison to coordinate with state-wide initiatives that give the collaboration the broadest reach.

#### AGENCIES INVOLVED IN COLLABORATION

Senate bill.—The Senate bill describes the activities to be undertaken by the collaboration liaison.

House amendment.—The House amendment includes State and local educational agencies as entities with whom the States

must liaison under the collaboration grant program.

Conference agreement.—The House recedes with an amendment to include local education agencies in the list of agencies to participate in collaboration through these grants. The conference substitute also includes an amendment to the collaboration grant language to provide for collaboration with family literacy services providers.

## CRITERIA FOR AWARD OF EXPANSION FUNDS

Senate bill.—the Senate bill requires HHS to take into consideration the extent of an applicant's consultation with a range of other agencies and other criteria when awarding expansion funds.

House amendment.—The House amendment adds consultation with State agencies administering early childhood programs, references to ESL organizations, and consideration of the need for full

day, full year services to the Senate list.

Conference agreement.—The Senate recedes with an amendment to include organizations serving families in non-English language homes, consultation with the local affiliates of appropriate State agencies, and the extent to which the applicant's family and

community needs assessment reflects a need for full day and full

year services in the Senate list.

The Conferees are aware of situations in which agencies have been designated as Head Start sponsors in communities that are outside the area in which the Head Start sponsor agency is located. The Conferees ask the Secretary to identify situations in which replacement grantees are operating Head Start programs in adjacent communities and to examine whether the existing arrangements serve the best interests of the communities involved and of the Head Start program. The Conferees ask HHS to examine the feasibility of negotiating changes in existing sponsorship arrangements where such arrangements are not meeting the needs of children and families.

# FLEXIBILITY IN MEETING MINIMUM HOUR OF OPERATIONS REQUIREMENTS

Senate bill.—The Senate bill contains no comparable provision. House amendment.—The House amendment contains a provision requiring HHS to allow grantees flexibility in meeting minimum Head Start hours of operation requirements.

Conference agreement.—The Senate recedes with an amendment to clarify that the flexibility granted shall not reduce the minimum hours of service per day, days of service per week, or days of service per year.

#### PRIORITY TO MIGRANT GRANTEES

Senate bill.—The Senate bill contains no comparable provision. House amendment.—The House amendment requires HHS to give priority to migrant grantees that serve children in families that must relocate most frequently in awarding funding to Migrant Head Start grantees.

Conference agreement.—The Senate recedes.

#### DESIGNATION OF INDIAN HEAD START SERVICE AREA

Senate bill.—The Senate bill includes members of Indian tribes living near the reservation in the population to be served by Indian Head Start grantees.

House amendment.—The House amendment includes Indians in any area designated by the Bureau of Indian Affairs as near-reservation in the population to be served by Indian Head Start grantees.

Conference agreement.—The Senate recedes.

## CONSIDERATIONS IN DESIGNATING NEW HEAD START AGENCIES

Senate bill.—The Senate bill details the criteria which must be taken into consideration by HHS when designating new Head Start agencies.

House amendment.—The House amendment includes Even Start programs as one of the programs that prospective grantees would be expected to coordinate with in order to receive designation as a Head Start agency.

Conference agreement.—The Senate recedes.

#### ENTITIES ELIGIBLE FOR FAMILY LITERACY SERVICE REFEELALS

Senate bill.—The Senate bill includes Even Start programs as entities to which families may be referred to receive family literacy services and skills training.

House amendment.—The House amendment adds public and school libraries as entities to which families may be referred to re-

ceive family literacy services and skills training.

Conference agreement.—The Senate recedes with an amendment to include family resource programs as entities to which fami-

lies may be referred for the specified services.

In order to avoid duplication of services and maximize the use of limited resources, Head Start agencies are strongly encouraged to develop formal collaborations, linkages, and other forms of coordination with existing education and training agencies, including those funded under the Job Training Partnership Act.

## CRITERIA FOR DESIGNATION AS A NEW HEAD START GRANTEE

Senate bill.—The Senate bill details the criteria which must be taken into consideration by HHS when designating new Head Start

agencies.

House amendment.— ne House amendment adds training in nonpunitive discipline techniques, training in basic child development, development of communication skills, opportunities for parents to share experiences, and activities designed to help parents understand the importance of their involvement in their children's education to the list of activities that HHS would have to consider in selecting grantees.

Conference agreement.—The Senate recedes with an amendment that creates the following list of activities which HHS must consider in selecting grantees: training in basic child development, assistance in developing communication skills, opportunities for parents to share experiences with other parents, substance abuse counseling, and activities designed to help parents become full

partners in the education of their children.

## SERVICES TO NON-ENGLISH LANGUAGE CHILDREN

Senate bill.—The Senate bill retains the current law elements of designees' plans with respect to services to non-English language children.

House amendment.—The House amendment expands the scope of plans required to include non-English language background children and their families.

Conference agreement.—The Senate recedes.

# QUALITY STANDARDS; MONITORING OF HEAD START AGENCIES AND PROGRAMS

Senate bill.—The Senate bill details the programmatic and administrative areas for which HHS must develop quality standards within one year of enactment.

House amendment.—The House amendment includes transition to elementary school, record keeping and file maintenance as

areas for which HHS must develop quality standards.

Conference agreement.—The House recedes with an amendment to include performance standards pertaining to the transition

activities referenced in section 642(d) of the Act.

The conference substitute includes transition-to-elementary school among the areas for which the Secretary is to establish quality standards. The quality standards should describe the types of activities (e.g., transfer of records to elementary schools, parent-child orientation activities, etc.) which all Head Start programs are

expected to implement.

The Conferees wish to emphasize that these standards are not intended to include academic requirements. These standards should only address those activities for which Head Start agencies are reasonably responsible, and should seek to hold Head Start programs accountable only for the activities which are within their control. The Conferees believe that coordination and cooperation with public schools is a critically important aspect of transition, but recognize that Head Start programs are limited in their abilities to carry out transition activities without the full support and cooperation of the local public school system.

The Conferees would also like to direct the Secretary's attention to the questions of record keeping and file maintenance practices identified in the Inspector General's report. Appropriate performance standards addressing these issues should be developed.

## DEVELOPMENT OF QUALITY STANDARDS

Senate bill.—The Senate bill details the programmatic and administrative areas for which HHS must develop quality standards within one year of enactment.

House amendment.—The House amendment includes services to families with very young children in the list of performance

standards to be developed.

Conference agreement.—The House recedes.

The Conferees wish to note that performance standards guiding the provision of services to families with very young children will be developed by December 30, 1994 as part of the 0-3 initiative and expect that Head Start programs serving families with very young children will be guided by those standards.

#### CONSULTATION WITH EXPERTS

Senate bill.—The Senate bill describes the range of experts with whom HHS must consult in developing quality standards.

House amendment.—The House amendment includes child health experts and clarifies that experts in the field of family services also includes experts in providing family services for non-English language children and families.

Conference agreement.—The Senate recedes with an amendment to clarify that knowledge of linguistically and culturally appropriate services shall be among the areas of expertise to be

drawn upon in developing standards.

The Conferees wish to emphasize the importance of assisting non-English language families in becoming literate in English. However, this is not intended to prevent programs from utilizing a bilingual approach or from assisting the large number of Hispanic families who receive services under this Act in becoming lit-

erate in Spanish, nor to prevent efforts by Indian or Native Alaskan or Hawaiian programs to promote literacy in indigenous languages.

## CONSIDERATIONS IN DEVELOPING QUALITY STANDARDS

Senate bill.—The Senate bill details the factors which should be taken into consideration in developing new quality standards.

House amendment.—The House amendment includes guidelines and standards to promote child health services, changes in the population of eligible children, and the need for local policies and activities to promote transition in the list of factors to be taken into consideration.

Conference agreement.—The Senate recedes.

## HEAD START MONITORING PROCESS

Senate bill.—The Senate bill clarifies the process of monitoring

Head Start grantees.

House amendment.—The House amendment requires monitoring reviews to be conducted by HHS employees who are knowledgeable about the diverse (including linguistic and cultural) needs of eligible children and families.

Conference agreement.—The Senate recedes with an amendment to clarify that each monitoring team should include members who are not only knowledgeable about the Head Start program but are also knowledgeable about the diverse (including linguistic and cultural) needs of eligible children and families.

## PUBLICATION OF MONITORING SUMMARY REPORTS

Senate bill.—The Senate bill requires the Secretary to publish annually a summary report of the outcomes of triennial grantee reviews.

House amendment.—The House amendment sets an annual time frame of 90 days within which the Secretary is to issue the

summary.

Conference agreement.—The Senate recedes with an amendment to extend the deadline to 120 days.

# ENHANCED PARENT INVOLVEMENT AND TRANSITION COORDINATION WITH SCHOOLS

The Conferees agreed that Section 109 of the Senate bill shall be referred to as "Enhanced Parent Involvement and Transition Coordination with Schools."

#### TECHNICAL AMENDMENT

Senate bill.—The Senate bill incorporates amendments on transition and parent involvement into an existing section in the Head Start Act.

House amendment.—The House amendment rewrites a section of the Act to incorporate amendments on transition and parent involvement.

Conference agreement.—The Senate recedes.

#### PARENT INVOLVEMENT ACTIVITIES

Senate bill.—The Senate bill details parent involvement activi-

ties that are to be provided by Head Start programs.

House amendment.—The House amendment includes additional parent involvement activities to be provided that are not included in the Senate bill. It would require grantees to establish procedures for participation in program decisions, provision of technical and other support to help them secure assistance, establishment of procedures to seek reimbursement from other agencies for services that Head Start provides, and to provide or consider providing other services. The House amendment also makes references to training in nonpunitive discipline techniques and other training.

Conference agreement.—The Senate recedes with an amendment to include a list of parent involvement services similar to that in the section on plans for parent involvement taken into account

in designating new Head Start grantees.

#### TRANSFER OF RECORDS

Senate bill.—The Senate bill requires Head Start programs to transfer essential records to each child's elementary school upon graduation from Head Start.

House amendment.—The House amendment requires parental

consent in transferring Head Start records to schools.

Conference agreement.—The Senate recedes.

## TRANSITION ACTIVITIES

Senate bill.—The Senate bill details the list of required transition activities.

House amendment.—The House amendment includes in its coordination requirements provisions that Head Start agencies coordinate the provision of transportation and use of facilities and the provision of noneducational services to children at the request of the local educational agency.

of the local educational agency.

Conference agreement.—The Senate recedes with an amendment to clarify that Head Start programs and local education agencies may work together to coordinate transportation and use of facilities and exchange information regarding the provision of non-

educational services to children.

#### TRANSITION PROGRAM EVALUATION

Senate bill.—The Senate bill requires HHS to assess the re-

sults of the Head Start transition program.

House amendment.—The House amendment requires HHS to evaluate the effectiveness of the transition program, and to disseminate the evaluation information and other information on effective transition activities, and to provide technical assistance to Head Start grantees to adopt and implement effective transition practices.

Conference agreement.—The Senate recedes.

## FACILITIES AND ADMINISTRATIVE REQUIREMENTS

Senate bill.—The Senate bill allows Head Start grantees in low-income communities to construct facilities if there are no other

facilities available, if the lack of facilities will inhibit the operation of the program, and if construction is more cost effective than purchase of available facilities. The bill also permits Head Start grantees to make capital expenditures (including amortizing the principal and paying the interest on loans) for construction of facilities, major renovation of facilities, and purchase of vehicles used for programs located at Head Start facilities.

House amendment.-The House amendment has no com-

parable provision.

Conference agreement.—The House recedes.

## PARTICIPATION

Senate bill.—The Senate bill allows Head Start to serve children for more than one year.

House amendment. The House amendment contains no com-

parable provision.

Conference agreement.-The House recedes with an amendment to clarify that Head Start programs may serve children from age 3 to compulsory school age for more than one year.

## PROGRAMS FOR INFANTS AND TOUDLERS

Senate bill.—The Senate bill describes the new 0-3 initiative. House amendment.—The House amendment requires infant and toddler programs to coordinate services with programs including transition to school programs and local educational agency programs.

Conference agreement.—The House recedes.

The Conferees wish to express their intent that Head Start 0-3 programs collaborate with appropriate local service providers, including Part H and other programs, as needed to ensure the provision of a comprehensive array of health, mental health, and social services.

## DEVELOPMENT OF PROGRAM GUIDELINES

Senate bill.—The Senate bill describes the range of programs whose experiences must be taken into consideration in developing

guidelines for the new infant and toddler program.

House amendment.-The House amendment requires that consideration also be given to the knowledge and experience gained from migrant Head Start programs that serve a large number of infants and toddlers.

Conference agreement.-The Senate recedes.

## REPEALS

Senate bill.—The Senate bill contains no comparable provision. House amendment.-The House amendment repeals conforming references in Part E of title II of the Elementary and Secondary School Amendments of 1988, Subchapter F of chapter 8 of subtitle A of title VI of the Omnibus Budget Reconciliation Act of 1981, and contains a conforming amendment to section 638 of the Head Start

Conference agreement.—The Senate recedes.

The Conferees intend to give the Secretary and the 0-3 working group latitude to design appropriate models for the 0-3 initiative. Therefore, the Congress has not statutorily delineated specific funding cycles or monitoring provisions of 0-3 grant recipients. It is the intent of the Congress that existing CCDP and PCC programs be grandfathered as part of the 0-3 initiative through 1997, and that, beginning in 1998, these grantees shall be treated in a manner which is consistent with the status of the other 0-3 grantees.

## APPEALS, NOTICE AND HEARING

The conference substitute includes technical amendments to clarify that the administrative hearing described as part of the mediation process for settling disputes between grantees and their policy councils or directors is to be held only in the case of adverse actions resulting from unresolved disputes.

GOALS AND PRIORITIES FOR TRAINING AND TECHNICAL ASSISTANCE

Senate bill.—The Senate bill lists the goals and priorities for training and technical assistance.

House amendment.—The House amendment adds assisting programs in developing full day and full year programs, assisting programs in better serving the needs of families with very young children, and giving special consideration to entities that have demonstrated effectiveness in educational programming for preschool children that includes components for parental involvement

and care provider training to the Senate list.

Conference agreement.—The Senate recedes with an amendment to clarify that Head Start agencies should be assisted with developing full day and full year programming where a community need for such services has been clearly identified. With respect to the provision of training and technical assistance for the Migrant Head Start agencies, special consideration shall be given to entities which have a demonstrated experience and understanding of the unique needs of the migrant and seasonal farmworker population and the necessity for a specialized service delivery approach.

The Conferees recognize that community-based service providers and certain federal agencies have specialized expertise in areas that are essential for Head Start agencies if they are to effectively include children with severe disabilities in their programs. The Conferees expect that Head Start agencies will actively seek technical assistance necessary to serve children with disabilities from a variety of resources, and that such technical assistance will not be guided solely by any one agency, organization, or activity.

The conference substitute also includes amendments to the training and technical assistance section to allow provision of training and technical assistance to grantees in developing innovative

Head Start models such as home based and mobile programs.

## STAFF QUALIFICATIONS AND DEVELOPMENT

Senate bill.—The Senate bill lists the programs which should be given priority in establishing mentor teacher positions.

House amendment.—The House amendment adds a priority for grantees who lack staff able to communicate in the languages of the children enrolled when establishing mentor teacher positions.

Conference agreement.—The Senate recedes with an amendment to clarify that programs which lack staff of a similar cultural background to participating children shall be included among the delineated priorities.

#### MODEL CURRICULA FOR MENTOR TEACHERS

Senate bill.—The Senate bill contains no comparable provision. House amendment.—The House amendment requires HHS to promote the development of a model curricula for mentor teachers.

Conference agreement.—The Senate recedes with an amendment to clarify that the curricula shall be developed to ensure the attainment of appropriate competencies by mentor teachers in the Head Start program. The Conferees wish to note that HHS should build on existing mentor teacher programs and curricula in the development of its model curricula for Head Start, but that the curricula developed for Head Start should take into consideration the unique aspects of Head Start services and performance standards.

#### DEGREE REQUIREMENTS FOR CLASSROOM TEACHERS

The Conferees wish to clarify that Section 648A identifies four different ways to meet the degree requirements for classroom teachers. Each is intended as an alternative to the others. Therefore, although both options B and D identify a state-awarded certificate, they should not be considered to be identical. Option B specifies a state-awarded certificate which is intended to cover individuals possessing state teacher certification covering instruction of preschool-aged children. Option D is intended to cover individuals who possess a degree in a related field but which incorporates coursework covering the growth, development and education of preschool aged children.

The conference substitute includes amendments to the demonstration program language to suggest that demonstrations be designed to include innovative non-center-based program models such

as home based and mobile Head Start programs.

#### REPORTS

Senate bill.—The Senate bill contains no comparable provision. House amendment.—The House amendment requires HHS to conduct a study of the availability and delivery of Head Start services to Indian children and children of migrant and seasonal farmworkers.

Conference agreement.—The Senate recedes with an amendment to study Head Start services to Indian children, the children of Alaska natives, and children of migrant and seasonal farm-

workers.

The Conferees wish to point out the unique needs of programs serving Indian, Native Alaskan, and migrant and seasonal farmworker children and families. Many are extremely rural programs with transportation and other costs which are disproportionately high. Nearly 40% of the children served by Migrant Head Start

programs are infants and toddlers, yet the Head Start programs are given the same per-child funding for young children as they receive to provide services to four year olds. No reliable information about the number of children eligible for Migrant Head Start services is available. These funding constraints and special circumstances have a direct impact on quality of services provided. The Conferees direct the Secretary to examine the Head Start services provided to Indian, Native Alaskan, and migrant and seasonal farmworker children in light of these concerns.

## STUDY OF BENEFITS FOR HEAD START EMPLOYEES

Senate bill.—The Senate bill requires HHS to study the feasibility of providing Head Start employee benefits through the federal retirement system.

House amendment.—The House amendment contains no com-

parable provision.

Conference agreement.—The House recedes.

#### AUTOMATIC ELIGIBILITY OF HEAD START PARTICIPANTS

Senate bill.—The Senate bill makes Head Start income-eligible enrollees automatically eligible for meals under the child care food program.

House amendment.-The House amendment has no com-

parable provision.

Conference agreement.—The Senate recedes.

The Conferees are concerned by the burden placed on Head Start programs by the need to establish eligibility for the child care food programs for Head Start-eligible children. Although Head Start-eligible children are income eligible for child care food programs, Head Start spends as much as \$15,000 per year per program paying staff to fill out the paperwork required to establish eligibility. Because the Conferees do not have the authority to address the "pay-go" entitlement spending issues raised by the automatic eligibility provision in the Senate bill, the Conferees have agreed not to address this issue in this legislation at this time. The Conferees urge the Secretary of Health and Human Services and the Secretary of Agriculture to work together to accomplish this goal, to the extent possible, through regulatory changes, and urge the appropriate Committees to address this problem in the context of the reauthorization of other child nutrition programs.

## READY TO LEARN PROGRAM REAUTHORIZATION

Senate bill.—The Senate bill reauthorizes the Ready to Learn program under the Elementary and Secondary Education Act of 1965.

House amendment.-The House amendment contains no com-

parable provision.

Conference agreement.—The Senate recedes with an amendment clarifying the scope of the study and requiring the submission of a report containing the results of the study not later than Janu-

ary 1997.

The Conferees also wish to direct the Secretary to encourage the development and testing of innovative, locally designed options to extend the hours of service to meet local needs. Options may include collaboration with child care and other child and family service programs where such collaborations maintain the quality and integrity of services provided under the Head Start performance standards. Where administrative rules and regulations are a barrier to effectively combining funds from different federal program sources, a timely mechanism for requesting and granting waivers should be put into place.

#### REGULATIONS

Senate bill.—The Senate bill requires the Secretary to issue regulations governing the manner in which states comply with the title.

House amendment.—The House amendment has no com-

parable provision.

Conference Agreement.—The House recedes with an amendment. It is the intent of the managers that this change allow the Secretary only to prescribe procedures for the purpose of assessing the effectiveness of eligible entities in carrying out the purposes of the program. Such procedures may include the collection of data and such other information as may be necessary to satisfy that goal.

#### **EVALUATION INVOLVING WAIVERS**

Senate bill.—The Senate bill has no comparable provision.

House amendment.—The House amendment would amend the current law requirement that the Comptroller General periodically evaluate program expenditures by States, to specifically include States which have received waivers under P.L. 98-139.

#### COMMUNITY DEVELOPMENT CORPORATIONS

Senate bill.—The Senate bill would include management of low-income housing and community development projects as a prin-

cipal purpose of the governing board of an eligible community de-

velopment corporation.

House amendment.-The House amendment would include management of community development projects, but would not in-

clude management of low-income housing.

Conference Agreement.-The House recedes with an amendment clarifying that the eligible entities are those with experience and expertise in developing and managing low-income housing or development projects.

## COMMUNITY INITIATIVE PROGRAM TRAINING AND TECHNICAL ASSISTANCE

Senate bill.—The Senate bill would reserve no more than one percent of Community Initiative Program funds for training and technical assistance.

House amendment.-The House amendment contains no com-

parable provision.

Conference Agreement.—The House recedes.

## MIGRANTS AND SEASONAL FARMWORKERS

Senate bill.—The Senate bill eliminates the migrant and seasonal farmworkers program from the Secretary's discretionary fund, and instead requires each State to address the needs of this population through its regular community services program.

House amendment.—The House amendment maintains in the discretionary fund grants to nonprofit private organizations that serve migrants and seasonal farm workers as eligible rural commu-

nity development activities.

Conference Agreement.—The Senate recedes.

Because of the unique problems associated with providing assistance to migrant and seasonal farmworkers, these programs shall be centrally administered from the national level. No programs and activities supported under this section shall preclude assistance to farmworkers under any other provision of this Act.

## NATIONAL YOUTH SPORTS

Senate bill.—The Senate bill eliminates the National Youth

Sport Program from the Secretary's discretionary fund.

# TITLE III.—LOW-INCOME HOME ENERGY ASSISTANCE PROGRAM

## STATEMENT OF PURPOSE

Senate bill.—The Senate bill places the primary emphasis of the program on meeting the immediate home energy needs of those with low incomes and high relative energy burdens, with a secondary emphasis on reducing the energy needs and costs of such households.

House amendment.—The House amendment places an equal

emphasis on the two purposes.

Conference agreement.—The House recedes with an amendment striking the secondary purpose, leaving the primary purpose of meeting the immediate home energy needs of low-income households. The Conferees believe that activities to reduce home energy needs and costs can be a useful supplement to basic benefits. They note, however, that the decline in funding for the LIHEAP program over the past nine years as well as the continued high percentage of income spent by low-income households on residential energy and understand the need for basic benefits. The Conferees believe that, in a time of scarce resources, every possible dollar and be spent on helping households meet their energy bills.

#### AUTHORIZATION LEVEL

Senate bill.—The Senate bill authorizes the appropriation of

\$2,000,000,000 for each of fiscal years 1995 through 1999.

House amendment.—The House amendment authorizes \$2,000,000,000 for fiscal year 1995 and such sums as may be necessary fiscal years 1996 through 1999.

Conference agreement.—The House recedes.

## HIGHEST HOME ENERGY NEEDS

Senate bill.—The Senate bill defines "highest home energy needs" in the statute to include households with very young children and the frail elderly.

House amendment.—The House amendment defines "highest home energy needs" with slightly different language and includes individuals with disabilities among vulnerable populations.

Conference agreement.—The Senate recedes.

## **EMERGENCY NOTIFICATION**

Senate bill.—The Senate bill contains no comparable provision. House amendment.—The House amendment requires the Secretary of HHS to notify Congress of a proposed allotment under the Emergency Fund provision before the release of such funds.

Conference agreement.—The Senate recedes with an amendment to strike the word "proposed" in the conference agreement.

#### **EMERGENCY ALLOCATION**

The Conferees note that in allocating funds under this section it is the responsibility of the Secretary of HiIS to assure that any formula for allocation of funds is based on information obtained in a manner which is consistent from state to state. If information as to weather conditions or other emergency conditions is derived

from other agencies, the Secretary shall, to the extent practicable, ascertain and make available to the public the methodology by which such information or data was generated.

## AUTHORIZED USE OF FUNDS

Senate bill.—The Senate bill in its statement of the authorized use of funds targets households with high relative energy burdens.

House amendment.—The House amendment targets funds to those with the lowest incomes that have a high relative energy burden.

Conference agreement.—The Senate recedes.

## ENCOURAGED REDUCED HOME ENERGY NEEDS

Senate bill.—The Senate bill subjects the activities described in a new paragraph (16) of section 2650(b), which are intended to encourage and enable households to reduce their home energy needs, to the program's 10 percent administrative cost cap as defined in paragraph 9(A). It would also allow for the use of other federal funds to pay for such activities.

House amendment.—The House amendment does not subject the activities described in paragraph (16) to the administrative cost ceiling, and contains no provision comparable to the Senate's provi-

sion regarding the permitted use of other federal funds.

Conference agreement.—The Senate recedes with an amendment limiting the amount that may be spent on such activities to 5 percent of a State's total allocation. The House recedes to the provision to allow the use of other Federal funds for these activities. In addition, States using the option in assurance 16 must report to the Secretary on the impact of such activities on the number of households served, the level of direct benefits provided to those households, and the number of households that remain unserved. The Conference substitute also includes language included in both bills to encourage States to work with vendors to reach agreements that recognize the benefits the vendors receive from LIHEAP payment assistance on behalf of their clients. The Conferees believe such efforts should be particularly directed at unregulated vendors. The Conferees emphasize that these provisions are not meant to infringe on a State's regulatory authority or process regarding residential energy providers. The Conferees intend that no regulated utility covered by the plan shall be required to act in a manner inconsistent with applicable regulatory requirements.

## REMOVAL OF JONSTRAINT ON SECRETARIAL PROGRAM GUIDANCE

Senate bill.—The Senate bill removes the clause that prohibits the Secretary of Health and Human Services from prescribing the manner in which States comply with program provisions.

House amendment.—The House amendment does not have a

comparable provision.

Conference agreement.—The Senate recedes.

#### PERFORMANCE GOALS AND MEASURES

Senate bill.—The Senate bill contains no comparable provision.

House amendment.—The House amendment directs the Secretary of Health and Human Services to develop, in consultation with State, local, and tribal grantees, performance goals and measurements that grantees may use to assess their success in achieving the purposes of the program. The Secretary shall report to Congress on the manner in which grantees are achieving these program goals.

Conference agreement.—The Senate recedes to the House with an amendment. The Conference substitute requires the Secretary to develop model performance goals that states may use at their discretion. The Conferees see these model performance goals as an optional tool for states. They are not mandatory and should not be

a burden on the states.

grantees.

#### TRAINING AND TECHNICAL ASSISTANCE

The Conferees recommend a change in the set-aside for training and technical assistance to state, local and tribal agencies. Given the fluctuations in the appropriations for the program and the significant effect that recent natural disasters have had on program delivery, agencies have expressed a need for more training and technical assistance. However, given the downward trend in funding LIHEAP, this provision ensures that no greater portion of the appropriation is applied to training and technical assistance than is necessary, so that agencies can be trained and guided in the most effective ways of dealing with shrinking program funding, the best way to "do more with less."

The Conferees also recommend that the services provided through the National Center for Appropriate Technology and others be expanded, to the extent practicable, to meet current demand and to address the technical assistance needs of states, local and tribal grantees in making modifications to their programs so as to provide more effective long-term solutions to the problems faced by recipients or program funds and services. The expenditures for conferences and other costly meetings should be considered a second level priority in this set aside and should only be considered when such expenditures will not diminish the provision of services to program recipients or the provision of direct technical assistance to

#### R.E.A.CH. INITIATIVE

Senate bill.—The Senate bill contains no comparable provision. House amendment.—The House amendment establishes a new initiative, the Residential Energy Assistance Challenge (R.E.A.Ch.), and directs the Secretary to set aside, beginning in fiscal year 1996, an amount equal to at least 5 percent of the amount appropriated under section 2607A (the Leveraging Incentive Program) for the purpose of making challenge grants to States that qualify. States may use such grants to achieve performance goals, including the long-term reduction of the energy burden program dependency of households eligible for, or receiving energy assistance, to minimize health and safety risks that result from high energy burdens on low-income Americans, to prevent homelessness as a result of energy usage by low-income families, and for other purposes.

Conference agreement.—The Senate recedes with an amendment to allow up to 25 percent of the Leveraging Incentive program funds for the R.E.A.Ch. program and demonstrations. An incentive fund will be distributed to the Secretary to qualifying programs to encourage and reduce the costs of, innovation. The Secretary is encouraged to use program guidance, rather than regulations, but is authorized for this program only, to disapprove applications for R.E.A.Ch. funds on the basis of such guidance. The Conferes seek to make clear that R.E.A.Ch. services to eligible LIHEAP recipients are provided in addition to regular LIHEAP benefits received by households participating in the program.

## SENSE OF CONGRESS ON APPROPRIATIONS

Senate bill.—The Senate bill contains no comparable provision. House amendment.—The House amendment expresses the sense of Congress that all appropriations made for LIHEAP for fiscal year 1995 be expended in fiscal year 1995, and that appropriations for fiscal year 1996 be at or above the fiscal year 1995 level.

Conference agreement.—The Senate recedes to the House with an amendment stating that expenditures for LIHEAP for FY 1996 should ensure the provision of services at the level provided in FY 1995.

TITLE IV—COMMUNITY-BASED FAMILY RESOURCE PROGRAMS

## STATUTE AMENDED

Senate bill.—The Senate bill amends Section 933 of the Claude

Pepper Young Americans Act.

House amendment.—The House amendment creates a new Community-based Family Support and Family Resource Program and titles the section the "Family Resource and Support Act of 1994".

Conference agreement.—The House recedes with an amendment to amend Title II of the Child Abuse Prevention and Treatment Act and replace it with a new Community-Based Family Resource Program.

## **PURPOSES**

Senate bill.—The Senate bill states that the purpose of the program is to develop a systematic approach to prevention and promote innovative funding mechanisms.

House amendment.—The House amendment includes developing a "family centered and family directed" comprehensive system

in collaboration with existing State agencies.

Conference agreement.—The Senate recedes with an amendment to incorporate promotion of innovative funding mechanisms as a purpose of the program.

support and family resource program".

#### INTERAGENCY COORDINATION

Senate bill.—The Senate bill contains no comparable provision. House amendment.—The House amendment includes as a State activity increasing and promoting interagency coordination.

Conference agreement.—The Senate recedes with a technical

amendment.

## REMOVING STATUTORY AND REGULATORY BARRIERS

Senate bill.—The Senate bill does not address efforts to change statutory and regulatory barriers to the integration of services in the authorized activities, but does include them in the State application section.

House amendment.—The House amendment includes as a State activity changing laws, regulations, procedures and organizational structures which impede the provision of family support.

Conference agreement.-The House recedes with an amend-

ment to the relevant paragraph in the application section.

#### MINIMUM GRANT SIZE

Senate bill.—The Senate bill requires that each State receive a minimum grant of \$100,000.

House amendment.—The House amendment requires that each

State receive a minimum of \$1 million.

Conference agreement.—The House recedes with an amendment to clarify that the funds must go to the designated lead agency and to define the leveraged funds that a State may use to qualify for incentive grants. These funds must flow through the mecha-

nism used by the state to establish eligibility for this program and they must be under the control of the lead agency. The Conferees believe the mechanism for integrating funds is the key to the family resource program's ability to be a catalyst for systems change. The Conferees hope that States will channel funds from various federal and State sources through his mechanism, that will in turn channel the funds to the local level to give flexibility in the way families are served. The formula is therefore designed to reward States' efforts to pool or integrate funds.

#### NATURE OF GRANTS AWARDED

Senate bill.—The Senate bill awards all grants to eligible States through a formula based on the number of children under age 18 in a State and the amount of other funds the State is able

to leverage, with a minimum grant size of \$100,000.

House amendment.—The House amendment allows grants to be awarded competitively if less than \$50.4 million is appropriated in any given fiscal year with no grantee receiving less than \$1 million. These competitive grants would be awarded for a 3 year period and each territory approved would received not less than \$100,000.

Conference agreement.—The House recedes.

#### TREATMENT OF EXISTING GRANTS

Senate bill.—The Senate bill allows grantees under the existing Family Resource and Support program and the Temporary Child Care and Crisis Nurseries Program to continue to receive funds under until the end of their grant cycle.

House amendment.—The House amendment allows grantees under the Family Resource and Support Program to continue to re-

ceive funds until the end of their grant cycle.

Conference agreement.—The House recedes with an amendment deleting the Temporary Child Care and Crisis Nurseries Program and adding the Emergency Child Abuse Prevention Grants.

## LEAD AGENCY

Senate bill.—The Senate bill states that the first choice for the State lead agency is the trust fund advisory board or a quasi-public organization with interdisciplinary governance.

House amendment.—The House amendment contains similar

language with technical differences.

Conference agreement.—The House recedes with an amendment to clarify that such an organization does not have to be quasipublic, but does need to be created by either legislation or State statue. The Conferees are aware that in some States the advisory board of the Children's Trust Fund is already supporting family resource programs and would be in an excellent position to guide the development of a network. In other States, however, other interdisciplinary groups, such as a Children's Cabinet, also may be involved in these activities. Some States may have more than one entity that could fill the lead agency role. The Conferees stress that the purpose of this legislation is to encourage more coordination and urge States with several appropriate bodies to move toward in

tegrating their roles in helping build a family resource network. The managers are aware that, in some States individual State agencies currently have responsibility for family resource programs and believe this is appropriate in some cases, as the legislation provides. However, the Managers encourage these States to move toward interdisciplinary governance, including the existing State

agency.

The conferees believe effective service integration and systems change can only come from the involvement of 2 cross-section of agencies, organizations, and individual families in planning and operating these programs. The Conferees are particularly concerned that family resource programs be seen as preventive and family directed and not be closely associated with the formal child welfare system or agencies, or subsidiaries of such agencies. Such an association may deter parents from seeking out the family resource program and interfere with the supportive atmosphere that is its objective.

## CAPACITY OF LEAD AGENCY

Senate bill.—The Senate bill contains no comparable provision. House amendment.—The House amendment requires applications to assure that the designated lead State agency have the capacity to promote a statewide system of family support; and to exercise leadership in capacity building, training and access to and funding for family support services.

Conference agreement.—The Senate recedes with a technical

amendment.

#### COORDINATION REQUIREMENTS

Senate bill.—The Senate bill places all coordination requirements in the planning process with the lead agency to develop the

family resource program.

House amendment.—The House amendment requires the State to assure that the lead entity will coordinate its activities with those of other State councils including those established under the Individuals with Disabilities Education Act (IDEA), the Vocational Rehabilitation Act, the Developmental Disabilities Assistance and Bill of Rights Act and local family support councils. It requires the State also to assure that the lead agency coordinate with the above councils in developing a comprehensive statewide system of family support and family resources services.

Conference agreement.—The Senate recedes with an amendment adding these councils and others, including the Head Start collaboration projects, to the interagency coordinating process required of the lead agency. The House recedes on the assurance.

## STRATEGIC PLANS

Senate bill.—The Senate bill requires the lead agency to develop a plan for establishing a network of family resource programs.

House amendment.—The House amendment contains similar language with technical differences.

Conference agreement.-The House recedes with an amendment requiring a strategic plan that identifies specific measurable goals and objectives. In developing this strategic plan, the Conferees expect States to take appropriate steps to involve a wide cross-section of families and service providers. The strategic plan should include specific goals and objectives for the development of a statewide system of family resource programs, with a strong emphasis on interagency coordination and integration of services, and regular evaluation of the statewide system. If a State has already conducted a statewide review of existing family resource programs and developed a strategic plan relating to family resource programs prior to applying for funds under this Title, the State may present the plan to satisfy the strategic planning requirement, although the Secretary may request additional clarifying information about the plan.

## INCLUSION OF ALL FAMILIES

Senate bill.—The Senate bill specifies the parties to be involved in the lead agency's planning process.

House amendment.—The House amendment contains similar

language with technical differences.

Conference agreement.—The House recedes with an amendment to specify that parents of children with disabilities be included in the planning process. The Conferees wish to stress that Family Resource Programs should be inclusive of all families. Where families, such as those with children with disabilities, have special needs, the Family Resource Program should already have formed the linkages necessary to gain access for those families to other, more specialized service networks.

# STATE AND LOCAL GOVERNMENT REPRESENTATIVES

Senate bill.—The Senate bill requires as participants in the State planning process a number of State and local government representatives.

House amendment.—The House amendment contains a similar

list, but includes vocational rehabilitation.

resource and family support".

Conference agreement.—The Senate recedes.

Senate bill.—The Senate bill requires a plan for training and technical assistance.

House amendment.-The House amendment contains similar

language with technical differences.

Conference agreement.-The House recedes with an amendment to add "networking activities" to the training and technical assistance list.

## STATUTORY AND REGULATORY BARRIERS

Senate bill.—The Senate bill requires a description of proposed actions by the State that will reduce practical and regulatory barriers to the provision of comprehensive services.

House amendment.—The House amendment contains a similar

provision as one of the authorized purposes of the program.

Conference agreement.—The House recedes.

## **OUTREACH SERVICES**

Senate bill.—The Senate bill contains no comparable provision. House amendment.—The House amendment requires a description of the outreach and other activities the State will undertake to promote the participation of racial and ethnic minorities and other underserved or underrepresented groups.

Conference agreement.—The Senate recedes.

## COMMUNITY-BASED PROGRAM

Senate bill.—The Senate bill requires the involvement of a variety of local agencies and organizations in the local community needs assessment.

House amendment.—The House amendment includes vocational rehabilitation as one of the agencies that must be involved.

Conference agreement.-The Senate recedes with an amendment requiring local programs to participate in the statewide network of family resource programs.

## DEFINITION OF FAMILY RESOURCE PROGRAM

Senate bill.—The Senate bill defines "family resource program" as a program that offers community-based services that provide sustained assistance to families.

House amendment.—The House amendment defines "family support and family resource programs", with similar language.

Conference agreement.-The House recedes with an amendment to specify "sustained assistance and support to families".

## OTHER SERVICES TO BE PROVIDED

Senate bill.—The Senate bill defines other services that the family resource program may provide, either directly or through referral, including early childhood services, respite services, education and literacy services, referral for health care, and others.

House amendment.—The House amendment includes a similar list, but adds English as a second language and family literacy

services.

Conference agreement.—The House recedes with an amendment adding family support services for families of children with disabilities in the list of "other services". The managers wish to clarify that, although the community-based planning process should address all family support needs within the community, recipients of funds under this program are not expected to provide services to meet absolutely every need identified. To the maximum extent possible, they should meet identified needs, but they also are expected to help coordinate existing services and resources for families, including those families that have children with disabilities.

## REQUIREMENTS FOR RESPITE SERVICES

Senate bill.—The Senate bill includes respite services in the

list of other services that may be provided.

House amendment.—The House amendment includes as a core service respite care services which are available 24 hours a day and every day of the calendar year.

Conference agreement.—The House recedes.

ment agencies involved in "interdisciplinary governance".

Conference agreement.—The Senate recedes.

#### ADDITIONAL DEFINITIONS

Senate bill.—The Senate bill defines various terms related to family resource programs.

House amendment.—The House amendment adds definitions of culturally competent, children with disabilities, family centered

and family directed, and family support.

Conference agreement.—The Senate recedes with an amendment deleting the definitions of the terms "Commissioner," "Family-Centered and Family-Directed," and "Family Support."

## STRATEGIC PLAN

Senate bill.—The Senate bill contains no comparable provisions.

House amendment.—The House amendment requires the lead agency of each State to prepare a strategic plan to achieve the purposes of this section.

Conference agreement.—The House recedes (see previous

agreement re: strategic plan).

#### DEFINITION OF OUTREACH SERVICES

Senate bill.—The Senate bill amends the definition of outreach services in the Young Americans Act to apply to "other caretakers" as well as "parents".

House amendment.—The House amendment contains no com-

parable provision.

Conference agreement.—The House recedes.

#### AUTHORIZATION LEVEL

Senate bill.—The Senate bill authorizes the Young Americans Act State Grant Program appropriation at such sums as may be necessary for fiscal years 1995—1998; for the Community-Based Family Resource program, and authorizes an appropriation of \$75 million for fiscal years 1996—1998.

House amendment.—The House amendment authorizes an appropriation of \$30 million for 1995 and such sums as may be nec-

essary for each of fiscal years 1996 and 1997.

Conference agreement.—The Senate recedes with an amendment to move the Young Americans Act authorization to a different section and authorize the Community-Based Family Resource Program at \$50 million for fiscal year 1995. Because this new program becomes part of the Child Abuse Prevention and Treatment Act, the Conferees believe it should be on the same reauthorization cycle as that Act, which expires in 1995.

#### REPEALS

Senate bill.—The Senate bill repeals the Community-Based Child Abuse and Neglect Prevention Grants, the Emergency Child Abuse Prevention Services grants, and the Temporary Child Care and Crisis Nurseries grants programs.

House amendment.—The House amendment contains no comparable provision. Instead it repeals Sec. 933 of the Younger Americans Act, which describes the Family Resource and Support Pro-

gram.

Conference agreement.—The Senate recedes with an amendment to also repeal the Emergency Child Abuse Prevention Services grants. The Conferees emphasize that they are consolidating

these programs and therefore expect that the new Community-Based Family Resource Program will receive an appropriation which is at least equal to the sum of the appropriations of the individual programs that are being repealed or replaced.

#### NATIONAL RESOURCE CENTERS

Senate bill .- The Senate bill reauthorizes the National Re-

source Center on Family Resource and Support Programs.

House amendment.—The House amendment reauthorizes the National Center, but adds developing and disseminating information about respite services to its duties.

Conference agreement.—The House recedes.
