#### ABSTRACT

This report appraises a 3-year project that sought to develop leadership teams in 10 schools so as to assist schools in revitalizing their guidance programs around a developmental approach. The focus was to create a guidance curriculum that was proactive rather than reactive and for the program to be installed in the school's regular curriculum. The programs were evaluated both externally and internally, with a consultant ranking counselor effort and participants evaluating three major events: (1) Revitalization of Guidance Class; (2) the Conference on Competency Based Guidance (a program for central office personnel, building level administrators, counselors, and directors of guidance); and (3) the Fall Dissemination Conference. Participants gave all of these events a positive ranking. The project staff themselves reported that 9 out of the 10 schools made significant grogress in their guidance programs. Two schools had dramatically restructured their programs and 9 out of the 10 schools' model components proved useful to other districts. The major finding for the project was that for change to take place, existing paradigms must be explored, owned, and changed. An appendix lists the dissemination efforts for this program. (RJM)

#### INTRODUCTION

The Revitalization of Guidance in Northeast Ohio Project was a three year project funded by the Cleveland and George Gund Foundations. The project was coordinated and implemented by the Department of Education Specialists, College of Education, Cleveland State University, with the support of the State of Ohio Department of Education, Guidance and Counseling Section, and the American Association for Counseling and Development. The assumptions underlying the project were that guidance programs have not improved or adopted new ideas because of a lack of guidance leadership. Thus, the purpose of the project was to develop leadership teams to assist schools in Northeast Ohio in revitalizing their guidance programs around a developmental approach. The focus was to create a guidance curriculum that was proactive rather than reactive and become a component of the school's regular curriculum. The goals of the project as outlined in the proposal were:

- Offering a course on guidance leadership for teams from 10 schools.
- Providing consultation to the 10 schools in developing their total program and model component.
- 3. Dissemination of the knowledge developed in the project.

#### **PROCEDURES**

#### Year I - 1987-88

The project was staffed by Dr. Frank O'Dell, (Department of Educational Specialists, Cleveland State University), Dr. Carl Rak (Cleveland Public

.1

Schools), Mr. Joel Chermonte (Fairview Park Schools), and Ms. Anne Hamlin (Graduate Assistant, Department of Educational Specialists). Dr. Lewis Patterson, one of the initiators of the project was not able to be directly involved in the project because of his duties as associate Dean, but did provide consulting assistance. An Advisory Board was established to provide guidance for the project and select the 10 3chools to be involved. The Advisory Board consisted of:

1.	Dr. James Costaneza	Mentor Schools
2.	Ms. Evelyn Kirby	Cleveland Schools
3.	Dr. Nancy Taylor	Cleve. Hts/Univ. Hts School
4.	Dr. Vic Smole	Rocky River Schools

A call for proposals was sent to all schools in Northeast Ohio. From the proposals submitted, the Advisory Board selected 10 schools to be involved. The following criteria were used in selecting the 10 participating schools:

- 1. Innovative quality of the proposal
- 2. Transferability of the project to other schools
- 3. Meeting a recognized student or program need
- 4. Equal distribution of the projects over the geographic sections (urban to suburban) of Northeast Ohio and school levels (elementary, middle/jr.high , high school)

The Advisory Committee selected the following ten schools to be a part of the project:

1.	Cleveland Elementary	Your Self-Esteem Builders
2.	Cleveland Rhodes H.S.	School-Wide Motivational Guidance Plan
3.	Cleveland Heights	A Change Process For High School Guidance
4.	Mentor	Self Concept As A Basis For Career
		Decision Making
5.	Wickliffe	Educational And Career Decision Making
		Model
6.	Bay Village	Parent-School Partnerships For The 1990's
7.	Fairview	Comprehensive Group Guidance Program
8.	Lakewood	Effective Academic And Social Transition
	•	From Middle To High School
9.	Medina	Issues Of The 80's - Meeting The Needs Of
		Students, Parents, And Faculty
10.	N. Olmsted	The Boost Club

Each of the 10 schools designated a guidance leadership team composed of 3 members. Project requirements called for one member of the team to be a counselor and a second member to an administrator. The third member could hold any school position that the participating schools felt appropriate. The project staff, with the assistance of outside consultants, provided a series of ten inservice programs. The main theme of the inservice series was preparing the teams for their role as mid-level managers in the change process. Such topics as new guidance conceptualizations, implementation plans and strategies, and organizational change methods were covered. (See Appendix A for complete listing).

One of the 10 sessions was devoted to competency based guidance and featured Dr. Sherry Johnson (Howard Co. Maryland) and Dr. Clarence

Johnson (Anne Arundel Co. Maryland). In order to have a greater impact on Northeast Ohio an instructional conference featuring the Johnsons was held for both administrators and counselors. Approximately 170 educators attended. Both the inservice series and the invitational conference were well received (See Appendix C for evaluative material).

#### Year II - 1988 -1989

During the second year the project staff provided consultation services to assist the 10 leadership teams in two tasks. The first was to restructure their total guidance program around a developmental model. The second task was to develop one component of their program to serve as a model for other schools. The consulter used information from the 87-88 inservice series and Dr. Glenn Saltzman (Medical School of Northeast Ohio), the outside evaluator, to assist in the development of the school projects.

#### Year III 1989 - 1990

The third year of the project was devoted to the dissemination of program findings and subsequent materials developed. A conference featuring Dr. Norman Gysbers (University of Missouri: Columbia) was held in the Fall. Dr. Gysbers, a national leader in revitalizing guidance programs, presented his competency based guidance approach developed from the projects in Missouri, Texas, Alaska, and Connecticut. Each of the ten leadership teams also presented the results of their project and distributed materials (See Appendix D for Programs and Evaluation material).

To further disseminate the data and materials from the project, each team prepared a portfolio of materials. These portfolios are

available on loan from the Cleveland State University Library or schools may purchase them from the CSU Educational Development Center at printing and service cost.

Other dissemination efforts conducted by the project staff included:

- Presentations at three All Ohio Counseling Conferences (1988, 1989, 1990)
- A national presentation at the American Association for Counseling and Development (March 1990)
- 3. Five regional guidance skills workshops conducted by the Ohio Department of Education (April, May 1990) (See Appendix D)

The project staff is now in the process of reviewing the findings of each project and when those reviews are completed they will be submitted for publication.

#### PROJECT EVALUATION

#### Outside Evaluator

Dr. Glenn Saltzman was appointed by the foundations as the outside evaluator. In his report Dr. Saltzman rated each of the projects on a 1 to 10 scale in several areas. In the area of counselor effort the range was from 4.5 to 10 with a mean rating of 8.05 and a mode rating of 10.

#### Participants Evaluation

Each of the events in the project were evaluated by the participants.

The three major events were:

1. Revitalization of Guidance Class

- 2. Conference on Competency Based Guidance
- 3. Fall Dissemination Conference

#### Revitalization of Guidance Class

All class activities were evaluated by the participants using a 5 point scale:

- 1. Not Useful
- 2. Marginally Useful
- 3. Good Material
- 4. Very Useful
- Excellent

The mean rating for individual sessions ranged from 2.17 to 4.18

The overall mean program rating was 3.45 for content, 3.50 for speakers and 3.47 for organization (See Appendix B for complete evaluation).

#### Conference on Competency Based Guidance

The Competency Based Guidance Conference was not planned in the original proposal but, as evidenced by the program evaluations, it was a needed and useful addition. The conference featured Dr. Sherry Johnson and Dr. C.D. Johnson. There was a morning session for central office administrators and an afternoon session for building level administrators, counselors, and directors of guidance. Both sessions were evaluated by the participants using the standard evaluation of the Greater Cleveland Educational Development Center who coordinated the-conference for the project. The form contains 6 questions which evaluated the content and process for the conference on a 1 to 6 scale with 6 being high. The mean evaluation for the morning was 5.25 and for

the afternoon it was 5.11 (See appendix C for a complete summary of evaluation).

#### Fall Dissemination Conference

The participants in the Fall Dissemination Conference evaluated the conference using a modified form of the evaluation instrument used for the competency based guidance workshop. This form contained 5 questions which evaluated the content and process of the conference. The mean evaluation for the conference was 5.05 on the 6 point scale. (See Appendix D for a complete summary of the evaluation.

#### Subjective Evaluations

The project staff feels very good about the progress made by 9 out of 10 of the involved schools. Two of the schools have dramatically restructured their total program and 9 out of the 10 have developed model components that are of value to other districts in improving their guidance programs. This is evidenced by the good attendance at our conferences and workshops and the overwhelming requests that we have had to share materials. One goal of the project was to bring more visibility to guidance programs. As further evidence of the project's success, Dr. O'Dell received the Meritorious Service Award from the Ohio School Counselor Association and Mrs. Eleanor Walther (leader of the North Olmsted Team) received the Outstanding Teacher of the Year Award for the North Olmsted City Schools.

#### SUMMARY AND RECOMMENDATIONS

Rapid technological changes have made everything easier except

planning for the future. Many of today's students will have unlimited opportunities if they are educationally prepared, but many problems in our society, such as the breakdown of families, the use of drugs, and child abuse are obstacles to students' full development. Guidance programs have two obligations:

- 1. Help students acquire skills and information that will prepare them to take advantage of their opportunities.
- Help students address problems that may hinder their development.

The old model for a guidance program was a combination of college placement and a mental health center. This model served the needs of a few very well, but in its' limited responsive mode did not serve all students. There is a national trend to abandon this model and move to a curricular model for guidance. This project tried to create a balance between the old and the new using the following model:

#### NEW GUIDANCE MODEL

Adapted From Dagley, John "A New Look At Developmental Guidance". The School Counselor, Nov. 1987)

I. Curriculum Based

Courses

Mini-Courses

Psychological Education

Career Education

Group Guidance

II. Individual Counseling
Groups For Development and Special Needs
Group Counseling
Consultation and Staff Referral
Peer Counseling

The experience of this program demonstrates that guidance programs can change greatly, so that they better serve the educational, career and personal-social needs of all young people. The major finding of the project was that for change to take place the paradigms must change. Paradigms are the ways of thinking and rules upon which our professional practices are based. Paradigms can be very helpful or they can be stifling. We found that in many cases it was the stifling paradigms that prevented school guidance programs from changing and improving. These paradigms could be classified as either program paradigms or counselor paradigms. We found that when counselors and administrators were willing to explore, own, and change paradigms, progress could be made. In contrast, we found that when counselors and administrators were not willing to explore, own, or change paradigms that little or no progress was made and in fact the stifling paradigms lead to a paralysis that caused programs to deteriorate. The following is a summary of old paradigms that stifle progress and new paradigms which promote positive change:

#### PROGRAM PARADIGMS

- Old Historically guidance has been an add-on program.
   New The guidance program must be an integrated component of education.
- 2. Old Counselors, administrators and Board Members all viewed guidance as ancillary.
  - New Guidance services must become a formal component of the curriculum through board approval and administrative support.

- 3. Old Guidance offers an ever-expanding array of services without considering the objectives of those services.
  - New Guidance must offer realistic services based upon objectives developed from student needs.
- 4. Old The guidance office was an in-house mental health agency attempting to respond to all student problems in-house.
  - New Standardized procedures must be established for referring students for problems that are beyond the ability of counselors or beyond the scope of the guidance program.
- 5. Old Guidance programs do not change or evaluate, they just add on.
  New Guidance programs have built-in features of program evaluation and revision.
- 6. Old Guidance programs served only students with special needs or problem students.
  - New Guidance programs must exist for all students.
- 7. Old Guidance services were offered solely by counselors and existed in a vacuum at the point of crisis.
  - New Guidance services must be a team effort with counselors, other educators, parents, and community members working together to prevent crisis.
- 8. Old Program change was predicated upon external community pressure and complaints.
  - New Program change must be based upon assessment and evaluation and the utilization of a number of external consultants.
- 9. Old An ideal program can be developed.

  New A good program is continually evolving.

#### COUNSELOR PARADICMS

- 1. Old The role and function of the school counselors was vague at best.
  - New The role and function of the school counselors must be clearly defined and district specific.
- 2. Old Counselors reacted to student problems.
  - New Counselors are proactive in developing student competencies in the educational, personal social and career domains to prevent possible problems.
- Old Counselors did not see themselves as program leaders.
   New Counselors must see themselves as change agents and middle managers.
- 4. Old Counselors and administrators were adversaries.
  - New Counselors and administrators must function cooperatively to meet student guidance needs.

- Old All guidance, programming is done by counselors.
   New Teachers, parents, professionals, administrators, and community members must be involved in the guidance process.
- 6. Old Counselor inservice is the responsibility of the counselor and any relevance to program was coincidental.

  New Inservice is the responsibility of the program and should be

in relationship to program development.

Effective guidance programs of the future need to utilize the skills and expertise of their respective staffs and to risk changing the present worn out paradigms to innovative ones that are proactive and serve all students.

Mr. Henry Doll The George Gund Foundation 1 Erieview Plaza Cleveland, OH 44114

Dear Mr. Doll:

The following is a summary of the evaluations of the Revitalization of Guidance Project for the 1987-1988 school year. The rating scale used was as follows:

1 = Not Useful

2 = Marginally Useful

3 = Good Material

4 = Very Useful

5 = Excellent

The first session received a 3.67 rating overall. The individual presentations received a 3.5. The second session received an overall rating of 4.11, individual presentations were rated 3.85, and Dr. Fleming's presentation on grant writing received a rating of 4.45. Session Three was given an overall rating of 4.11, as was Mr. Blake's presentation on change agents.

Session Four, the panel discussion received an overall rating of 3.69. Session Five received an overall rating of 2.56, with individual presentations receiving a mean of 2.13. and Dr. Sheehan's presentation on program evaluation receiving a mean of 2.17. The overall rating for Session Six was 3.86 and Dr. O'Dell's presentation on preventing burnout received a rating of 4.08. For Session Eight, the overall rating was 3.64. Dr. Hollinger's presentation on Self Concept/Self-Esteem was rated at 4.00, Dr. Rak's presentation on populations at risk received a rating of 4.18 and Ms. Ziglar's presentation on public relations received a rating of 2.65.

The seventh session on "Student Competency Based Guidance" presented by the Johnsons which was rated on scale 1 (poor) to 6 (excellent) received an overall rating of 4.412. The usefulness of the presentation was rated at 4.800.

The rating of the overall program was 3.45 for the content, 3.50 for the speakers, and 3.47 for the model.

Sincerely,

Ann Hamlin

APPENDIX C

COMPETENCY BASED

GUIDANCE CONFERENCE:

PROGRAM AND EVALUATION

## "Student Competency Based Guidance" -

What:

Across the country and around the world there is a new movement to change guidance from an ancillary, crisis oriented service to an organized program based on student goals. This new guidance conceptualization is called "Student Competency Based Guidance." The objective of this half-day workshop is to acquaint central office administrators, building principals, counselors, and others charged with responsibility for guidance programs with a Student Competency Based Guidance approach. It is designed to enable participants to understand the basic principles of a results based model. Participants will come away with the capacity to implement a program. This workshop, presented by Dr. and Mrs. Johnson, who have implemented the model in two counties in Maryland. will clearly identify those aspects of service delivery, accountability, and sense of purpose that are the hallmarks of a Competency Based Guidance program.

For Whom:

Session I (8:30 a.m. to 10:00 a.m.):

hom: Superintendents, Directors of Pupil Personnel,

Curriculum Coordinators, and Staff Development

Coordinators.

Session II (10:30 a.m. to 12:00 p.m.): Building Level Administrators, Directors of

Guidance, and Counselors.

When:

Friday, April 22, 1988

Session I — (8:30 a.m. to 10:00 a.m.) Session II — (10:30 a.m. to 12:00 p.m.)

Where:

University Hall Ballroom

Cleveland State University

2605 Euclid Ave.

Cost:

Individual Sessions:

GCEDC member districts: \$10.00/participant/session

Non-member districts: \$15.00/participant/session

Session I and II:

GCEDC member districts: \$20.00/participant Non-member districts: \$30.00/participant

\*Please note registration deadline on registration form.

Dr. C.D. Johnson and Mrs. Sharon Johnson

#### **About the Presenters:**

C.D. "Curly" Johnson is currently the Coordinator of Guidance and Career Education for the Anne Arundel County Public Schools in Annapolis, Maryland. He received his doctorate in leadership and human behavior from the United States International University in San Diego, his master's in counseling from the University of Southern California, and his bachelor's of science from Portland State College. He has co-authored and authored books and articles in areas of group leadership, therapeutic techniques, and career education. He has worked as a junior high and senior high school counselor, county coordinator of guidance, a full and part-time college instructor, has consulted with over a hundred educational agencies, and is a Marriage, Family, and Child Counselor.

Sharon K. Johnson is currently the Director of Pupil Services for the Howard County Public Schools in Ellicott City, Maryland. She earned her master's degree in counseling from California State University at Fullerton, her bachelor's of science degree from the University of California at Los Angeles, has done graduate work at the University of Southern California, and is completing her doctorate at Virginia Tech. She has authored and co-authored numerous articles and has consulted with many educational and business organizations in areas of management, group processes, and career development. She has been a part-time instructor at different universities and is a Marriage, Family, and Child Counselor.

## Agenda:

8:00 a.m. Res

Registration/Coffee and Donuts

8:30 a.m.

Session I:

Superintendents, Assistant

Superintendents, and Central Office

Administrators

• Why is it to your advantage to implement a competency based guidance program?

10:00 a.m.

Break

10:15 a.m.

Session II:

Building Level Administrators, Directors

of Guidance, and Counselors

• How can competency based guidance reach every student in your building?

12:00 p.m.

Closure

<ul> <li>16. General comments:</li> <li>* Being an elementary principal with a lack of elementary counselors I can not get involved in implementing such a program. I wish that it was possible.</li> <li>* WELL DONE!</li> </ul>	
* I am excited. I feel this is a direction that we have geen trying to move toward	fo
the last 4 years, but without the leadership to do so. I would be interested	
the "Directors" retreat.	
* Excellent content- would have liked more time. They have much to share-perhaps a	,
follow up can be considered.	
* Thank you. I appreciate the handouts. It would be great if additional materials	
were available for take home today rather than contacting the CSU staff.  * I need more specific information on setting up a program.	
* I'm overwhelmed by all the info. Too much infor in such a short time.	
* This was excellent and very much in accordance with my needs. Q3-Knowlegeable.	
bright, articulate. Q7- The promotional material Didn't tell how outstanding an valuable this is.	.d
* Covered too much material for time period.	

ERIC

#### 16. General comments:

- \* Q2- Not a bad job Frank, Joel et al.
- \* Excellent presentation stimulus eye opener
- \* Useful.
- \* Excellent program slthough too short!! curly was difficult to understand at times.
- \* I wish they would have been allowed more time.
- \* Very interesting concpt. Fits my paradigm!
- \* Great I need more detail.
- \* The beginning presentation from the State Dept. was worthless The two Johnson presenters should have been given more time. The seating was poorly arranged so that people at either end couldn't see.
- \* Good too short agreed with a number of the premise.
- \* More time should be taken to present the program. A lot of material was presented in an awfully short time.
- \* Excellent Presenters needed more time, excellent video.
- \* Hard to hear Mr. Johnson.
- $\star$  The first session (8:30 -10:00 ) were more benefical for me.
- \* I would like to have much more information on this topic. I like the idea of shared responsibilites.
- \* Lots of good material I'd like more!
- \* Material covered a little too quickly.
- \* More time was needed.

THANK YOU FOR TAKING THE TIME TO COMPLETE THIS QUESTIONNAIRE

# "Revitalizing Guidance in Northeast Ohio"

Overview:

Dr. Norman Gysbers, Professor of Educational and Counseling Psychology at the University of Missouri-Columbia, will keynote Session I. His topic will be "Remodeling and Revitalizing Your School Guidance Program While You are Living and Working in It." During Session II, participants will learn about the Revitalizing Guidance Project, a three-year grant funded effort under the direction of Cleveland State University, to change the delivery of guidance services in Northeast Ohio. Nine project districts will present their unique components and discuss programmatic changes that resulted from their participation in the project. Some of the issues addressed will be: results-based guidance, improved service delivery for the average student, improving self-concept for students at risk, development of a parent-intervention handbook, mentoring, competency-based guidance, programmatic change, and marketing your guidance program.

Intended Audience: Superintendents, Directors of Pupil Personnel, Directors of Guidance, Curriculum and Staff Development Coordinators, Building Level Administrators, and Counselors.

Presenters:

Day I: Dr. Norman C. Gysbers, Professor, University of Missouri-Columbia Day II: Bay Village City Schools: Steve Steinhilber, Sue Andregg, David Wilson. Cleveland Heights/University Heights City Schools: Kaye Price, Larry Peacock, Dave Smith, Jacqueline Harris, Hugh Burkett. Cleveland Public Schools: William Shauver, Carol Tuck, Evelyn Kirby, Lucresia Lemos, Ruvene Whitehead, Donna Gonyon. Cleveland State University: Dr. Carl Rak, Dr. Frank O'Dell. Fairview Park City Schools: Mary Ann Cytlak-Kircher, Joel Chermonte, Chuck Kullik. Lakewood City Schools: Marty Harris, Carol Dolgosh, Charlane Bowden. Medina City Schools: Linda Ocepek, Holly Hallman, Barbara Hershey. Mentor Exempted Village Schools: William Miller, James Wise, Doris Farley, Chris Vannorsdoll, Jim Lefler. North Olmsted City Schools: Eleanor Walther, Linda Ward, Ellen Oakley. Wickliffe City Schools: Mary Sowul, Jim Platz, Joel Eisen.

Dates:

Session I: Thursday, September 21, 1989 Session II: Friday, September 22, 1989

Location:

CSU Main Classroom Building Auditorium 1899 East 22nd Street, Cleveland

Time:

Session I: 2:00 p.m.-5:00 p.m. Session II: 9:00 a.m.-3:30 p.m.

(Registration begins one-half hour before each session)

Cost:

Individual Sessions:

GCEDC Member Districts: \$15.00/participant/session Non-member Districts: \$20.00/participant/session

Sessions I and II:

GCEDC Member Districts: \$20.00/participant Non-member Districts: \$25.00/participant Fees include all materials. Lunch not included.

Registration

Thursday, September 7, 1989

Deadline:

Late registrations will be accepted on an availability basis.

# About the Keynote Presenter:

Norman C. Gysbers: Professor of Educational and Counseling Psychology at the University of Missouri-Columbia, is the editor of the Journal of Career Development. He has written thirty-four journal articles, ten chapters in recently published books, and five books including Developing and Managing your School Guidance Program.

#### Objectives:

The presentation will help participants:

 Understand the need for change in school guidance and counseling K-12.

 Understand the processes involved in organizing and restructuring the overall change process in school guidance and counseling programs.

Understand the four phases of change: 1) planning
 2) designing, 3) implementing, 4) evaluating.

Dr. Norman C. Gysbers

# **Agendas:**

11. Please use the reverse side of this sheet for any comments or suggestions.

Excellent refreshments! Good job!

Thank you! This program was well worth the time. I feel more excited and capable about revising our Amherst guidance plan this year!

Excellent presentations by Fairview and Bay Village.

Medina's was fair - their video was very interesting and I would like to attend it.

Many thanks to CSU for gathering and organizing these presentations. I only attended

Friday, and cannot comment on the Thursday presentation.

Excellent conference. Appreciate materials and research willingly shared by presenters. Being from a Catholic school (extremely small guidance budget and time limitations) it was helpful for me to see what larger systems are doing and now I can adapt those resources to my program.

One of the most valuable workshops I have attended. Excellent handouts. Every presentation was outstanding.

The elementary counselors session was excellent. They were enthusiastic and well prepared.

It was rewarding presenting and participating. Great ideas and feedback.

If another afternoon session only is scheduled, why not consider starting it earlier so it would adjourn by 4:00-4:30. Traffic problems would be much less and people would be encouraged to stay and participate.

It was interesting to note the range of Approaches from Bay's Counselor Assignments tied to one class for four to six years, Cleveland Heights approach of not having a particular caseload. I believe that the ideas presented confirmed some feelings that I have regarding my particular counseling assignment and experiences.

I enjoyed the conference. The keynoter and the presenter were really on target. Many times at conferences such as this someone misses the target. This was certainly not the case. Organization and logistics were excellent. It was really a professional job!

The presentations were very well organized. I found the presentations and handouts most valuable. I appreciate your coordination of this project. It was nice to participate in a guidance conference that was close and had a reasonable time restraint. The opportunities to network with other counselors was most valuable!

I am now more energized than ever before for a change!

It would be good to have advance knowledge of the main speaker. The general outline is done well. Your general information is good. Your directions and parking plan are good. You have excellent program ideas.

# O.S.C.A. AWARDS ANNOUNCED

Counselors and a multitude of others joined together Tuesday evening, November 7th, to honor the recipients of the 1989 O.S.C.A. Awards. Smiles and applause greeted this years' award winners, who received their plaques from O.S.C.A. President Dr. Jim Wigtil and A.S.C.A. President Doris Coy during a ceremony conducted by Awards Chairperson Judy Morgan.

Barbara "Bobbi" Webster, school counselor at Mentor Ridge Jr. High in Mentor, was awarded the Charles E. Weaver Life Membership Award. Webster, who was honored for her significant contributions to guidance through her many evident positions, leadership including O.S.C.A. President, was nominated by Dr. Mary Clayton, Guidance Supervisor, Columbus City Schools. The winner of the George E. Hill Meritorious Service Award was Dr. Frank O'Dell of Cleveland State University. Recognized for development of School the Counselor Revitalization Project in Northeastern Ohio and contributions to the profession, Dr. O'Dell was nominated by Dr. Jim Wigtil, Counselor Educator at the Ohio State University.

Mr. David Surrey, Principal of Waverly High School, was named the 1989 recipient of the O.S.C.A. Administrator Award. Nominated by school counselor Cookie Allison, Surrey was recognized for his ongoing support of guidance and counseling and the development of People Assisting Waverly Students (P.A.W.S.) project, which interventions, peer assemblies, visual presentations, and after school programs to address the needs of Waverly High School students.

Congratulations Everyone!

The Cleveland State University Department of Education Specialists is in the closing phase of a project \*Revitalizing Guidance in entitled. Northeast Ohio. The project was funded by the George Gund and Cleveland Foundations. It was based upon the assumption that many schools in Northeast Ohio have not implemented new guidance concepts or models because of a lack of focused

REVITALIZER . . . . frank o'dell

leadership. As part of the project, leadership teams from ten area schools were trained to revitalize their guidance programs around a developmental so that conceptualization, guidance programs could better meet the needs of students and also serve as models for other schools wishing to update their guidance programs.

During the 1987-88 school year, the first year of this three-year project, the project staff composed of Dr. Frank O'Dell, Dr. Lewis Patterson, Dr. Carl Rak and Mr. Joel Chermonte, with the assistance of some outside consultants, provided a series of ten inservice programs on such topics as new guidance conceptualizations, implementation plans and strategies,

team was composed of a school administrator, a counselor, and a third person of the school's choice. Most quidance programs in Northeast Ohio developed around were clinical/college selection conceptualization which serves those students with special needs but does not address the guidance needs of all students. This series of inservice workshops prepared leadership teams to organize their guidance programs around a developmental or curriculum

Elenor Walther with a group of students from Pine Elementary School in North Olmstead that she worked with as part of the project.

and organizational change methods for the guidance leadership teams from the ten involved schools. Each leadership model designed to serve all students in a preventative-developmental manner

(Continued on Page 9)

curriculum, special through the and traditional guidance classes, guidance services.

During the second year, (1988-1989), the project staff provided consultative services to assist the leadership team in two tasks. The first task was to revitalize their guidance program around a developmental mode. The second task was to develop one component of their guidance program to serve as a model for other schools.

This Fall the Department Education Specialists sponsored a conference for all schools in Northeast Ohio. The conference featured Dr. Norman Gysbers, from the University of Missouri: Columbia, a national leader in the revitalization of guidance programs. making at the middle school level:  $3^{-2}$ 

presented the results of their two years in the project. Detailed information on each of the ten projects will be available after June 1990, through the Greater Cleveland Educational Development Center which is part of the CSU College of Education.

The ten leadership teams involved in the project are from Bay Village, Cleveland (two teams, one elementary secondary), Cleveland one Heights/University Heights, Fairview Park, Lakewood, Medina, Mentor, North Olmsted, and Wickliffe. The model components addressed such areas as improving urban self-esteem of elementary school students; motivating at-risk high school students; improving self concept and career decision non-college bound high school parent-school students; initiating partnerships; modernizing transitions from middle-school to high school; helping students, parents, and faculty deal with current issues; motivating atrisk elementary students to improve implementing academically; guidance comprehensive group program, and developing a model for guidance program change.

The ideas for this project have come from many sources, but most specifically from the book Improving Guidance Programs by Norman Gysbers and Earl Moore. It is hoped that as a result of the project, the ten involved schools will dramatically improve their guidance programs and that their research will motivate all schools to review and update their guidance programs.

(DUPLICATE AS NEEDED)

AN OPEN INVITATION IS EXTENDED TO SCHOOL ADMINISTRATORS, COUNSELORS, AND TEACHERS TO ATTEND THE 1990 GUIDANCE SKILL WORKSHOPS.

#### **TOPIC DESCRIPTIONS**

#### WORKSHOP #1: REVITALIZATION OF GUIDANCE (a.m.)

A report and discussion of the progress of ten Ohio schools participating in the Revitalization of Guidance Project. Cleveland State University has provided consultative assistance for guidance leadership teams in each of the ten participating schools. Each team developed one component of their guidance program to serve as a model for other schools.

#### WORKSHOP #2: POST SECONDARY ENROLLMENT PROGRAM OPTIONS UPDATE (a.m.)

A current report on the status of the program and a discussion relating to counselor concerns and responsibilities.

#### WORKSHOP #3: PARENTING (a.m.)

Counselors can play a key role in making parent education available in school districts throughout the state. This session will focus on ways to reach parents and will provide suggestions and resources for parent training programs.

#### WORKSHOP #4: OCIS - OHIO'S VITAL CAREER TOOL (a.m.)

This session will include an overview of the system through discussion on the use of commands and ideas on how to use the system to its fullest with either student or adult populations.

# WORKSHOP #5: GUIDANCE SECTION MINI SESSIONS (p.m.)

Brief presentations with useful materials dealing with stress management, self-esteem, learning styles and resources update.

## WORKSHOP #6: HELPING STUDENTS TO IMPROVE ACT/SAT SCORES (p.m.)

A session providing test-taking skills including counselor/parent involvement, ways to reduce test anxiety, and test preparation. Current available materials will be displayed and a bibliography for reference provided.

#### WORKSHOP #7: DEVELOPING AN AWARD-WINNING SUBSTANCE EDUCATION PROGRAM (p.m.)

Representatives from school districts that have received recognition in Ohio as part of the U.S. Drug Free Schools Recognition Program will share the secrets of their success.

# WORKSHOP #8: PROVIDING PROGRAMS FOR MEETING THE NEEDS OF ALL STUDENTS (p.m.)

This presentation will discuss the development of effective school-based systems approaches for meeting the needs of all students in the school. The common characteristics of successful Student Assistance Programs will be identified and demonstrated as applicable to all students.

# WORKSHOP #9: UTILIZING A COLLABORATIVE EFFORT IN MEETING THE NEEDS OF HIGH-RISK YOUTH (SCHOOL/AGENCY/COMMUNITY PARTNERSHIPS) (p.m.)

Representatives from highly successful Ohio High-Risk Youth State and Local Partnership projects will share successful strategies and identify barriers to forming state and local partnerships to target high-risk youth. The partnerships attempt to coordinate multiple federal and state grant funds in order to develop a comprehensive service strategy for specific target populations.

Dr. Frank O'Dell RT 1419 E. 24th & Euclid Cleveland, OH 44115

Dear Dr. 0'Del1:

We are pleased to inform you that your proposal has been selected for presentation at the 1990 AACD Convention in Cincinnati, Ohio, March 16-19th.

The Program Selection Committee was quite impressed with the up-to-date, pertinent content of your program. Participants will certainly acquire valuable knowledge to put to practical use.

Please note the information below regarding your program title, format, and time slot allocation. If you have questions, please feel free to contact AACD (703-823-9800) or Terri Pregitzer (513-831-9170).

We thank you for submitting a fine proposal which will not only enhance the convention, but the participants' professional growth as well.

Sincerely,

Doris

Doris Rhea Coy, ASCA President

STATE WIDE NEEDS

ASSESSMENT

As part of the project dissemination efforts, Dr. Rak, Mr. Chermonte, and Dr. O'Dell presented at five regional state workshops sponsored by the Ohio Department of Education. At those workshops, 216 counselors completed a needs assessment. This appendix contains a summary of the results:

#### REVITALIZATION OF GUIDANCE

## INFORMATION SURVEY
