ABSTRACT

This survey was developed in 1991 by Marilyn Gillespie, David Spener, and JoAnn Crandall at the Center for Applied Linguistics (CAL), and was used for a 2-year project with funding from the National Center for Adult Literacy, established at the University of Pennsylvania by the U.S. Department of Education. The survey was used to collect information about the nature and extent of native language literacy instruction being offered in the United States. The survey was designed to elicit responses that would help practitioners, researchers, and policymakers in their efforts to plan native language and English-as-a-Second-Language literacy instruction for adults and out-of-school youth. Mother Tongue and ESL Literacy Program Survey Marilyn Gillespie 1991

The Mother Tongue and ESL Literacy Program Survey was developed in 1991 by Marilyn Gillespie, David Spener, and JoAnn Crandall at the Center for Applied Linguistics, and was used for a two-year project with funding from the National Center for Adult Literacy, established at the University of Pennsylvania by the U.S. Department of Education. The survey was used to collect information about the nature and extent of native language literacy instruction being offered in the United States. Other activities conducted by CAL included a review of the literature, a research colloquium on biliteracy, and a two-day Working Group Meeting that brought together teachers, administrators, and researchers from key programs identified by the survey.

Mother Tongue and ESL Literacy **Program Survey**

Thank you for taking time out to complete this survey. Your program is one of more than a hundred U.S. programs we have identified as offering instructional services in non-English mother tongues. As one of many research projects undertaken through the National Center for Adult Literacy (established by the U.S. Department of Education at the University of Pennsylvania) we hope the findings of this survey will help practitioners, researchers and policy makers in their efforts to plan native language and ESL literacy instruction for adults and out-of-school youth.

PLEASE RETURN AS SOON AS POSSIBLE.
