ABSTRACT

This report from Johnson County Community College (JCCC) contains detailed fall enrollment data as of the 20th day of the fall semester. The data are considered a benchmark for reporting demographic information about students and assessing the number of students enrolled at JCCC and the percentage attending full-time. The report provides tables, graphs, and narrative summaries focusing on student characteristics in fall 1990 compared to fall 1994; historical enrollment trends; enrollment characteristics by age; and enrollment characteristics by entry status and enrollment status. Selected findings include the following: (1) headcount enrollment at JCCC for fall 1994 was 15,035, an increase of over 9% from fall 1990; (2) while the majority of students attended JCCC part-time (69%), full-time students accounted for over half of all credit hours (54%); (3) freshmen accounted for 54% of total enrollment in fall 1994, down from 56% in fall 1990; (4) while the number of minority students attending JCCC remained small in absolute terms, enrollments of several ethnic groups saw marked increases between 1990 and 1994; (5) courses in math, English, and biology accounted for one-third of total student credit hours in fall 1994; (6) between 1987 and 1993, full-time headcount grew at a faster rate than part-time headcount; (7) female students first outnumbered male students in fall 1976, and continued to outnumber them since that time; (8) traditional aged students (age 18-23) accounted for nearly 55% of total student credit hours, but less than half (42%) of total headcount; (9) nearly 38% of new students were first-time college students; and (10) nearly 64% of degree/certificate-seeki..g students, and more than half of the transfer-oriented students were attending part-time. PREFACE

Two reports detailing Johnson County Community College enrollments are compiled by the Office of Institutional Research each year: the fall enrollment report and the academic year enrollment report.

The fall enrollment report contains detailed enrollment data as of the 20th day of the fall semester. These data should be considered "typical" or benchmark data for reporting demographic information about students and answering such questions as, "How many students are enrolled at JCCC?" or "What percentage of JCCC students attend full-time?"

The academic year report contains summary data for the three semesters that comprise the academic year: summer, fall and spring. That report is more appropriately used to answer questions concerning credit hours generated during an academic year. It also is designed to provide data about programs rather than about student characteristics.

These two reports complement one another and together contain the enrollment data required for most reporting and inquiry purposes.

If you have any questions, please call:

- * Headcount enrollment at JCCC for fall 1994 was 15,035, an increase of over 9% from the fall 1990 headcount enrollment of 13,744.
- * While the majority of students continued to attend JCCC part-time (69%), full-time students accounted for over half of all credit hours (54%) (see Figure 1).
- * JCCC retained a slightly greater percent of its students in fall 1994 than in fall 1990. Continuing students accounted for 55% of headcount enrollment in fall 1994 compared to 53% in fall 1990.
- * Freshman continued to account for over half of total enrollment (54%) in fall 1994, down from 56% in fall 1990.
- * Students attending JCCC in fall 1994 were primarily residents of Johnson County. Most of the Johnson County residents resided in Overland Park, Olathe, Lenexa and Shawnee.
- * While the number of miniority students attending JCCC remains small in absolute terms, enrollments of several ethnic categories have seen marked increases between 1990 and 1994 (Hispanic 63%, Asian/Pacitic Islander 35%, African-American 26%).
- * Nearly 37% of fall 1994 students attended JCCC with the intention of transferring to another college or university. In fall 1990, 41% of the students indicated they planned to transfer to another college or university.

- * Courses in math, English, and biology accounted for one-third of total student credit hours in fall 1994 compared to 31% in fall 1990.
- * Betweeen 1987 and 1993, full-time headcount enrollment grew at a faster rate than part-time headcount enrollment.
- * Female students first outnumbered male students in the fall of 1976 and have continued to outnumber male students since that time (see Figure 2).

Note: NA = not available.

- * Traditional students (age 18-23) accounted for nearly 55% of total student credit hours but less than half (42%) of total headcount enrollment (see Figure 3).
- * JCCC continued to attract older students. The average age was 27 years, reflecting the large number of older students enrolled at JCCC (48% of students are over 23 years of age).
- * The average female student was nearly two years older than the average male student (27.9 years for females compared to 26.1 years for males in fall 1994).
- * Full-time students were primarily 18-23 years of age (74%) while 60% of part-time students were over 23 years of age.
- * The average student credit hour load was 7.8; 8.2 for male students compared to 7.5 for female students.
- * Over 46% of JCCC students were seeking a degree or certificate and, of those, over 40% were 18-23 years of age.
- * The majority of traditional college age students intended to transfer to another college or university (54%).

 Those over age 23 were more interested in preparing to enter the job market, improving skills for their present job and preparing to change careers (47%).

DEFINITIONS

Attendance Status

Day Student: A student enrolled exclusively in classes that begin before 5 p.m.

Day and Evening Student: A student enrolled in classes that begin both before and after 5

p.m.

Evening Student: A student enrolled exclusively in classes that begin at or after 5 p.m.

Enrollment Status

Full-time Student: A student enrolled in 12 or more credit hours.

Part-time Student: A student enrolled in less than 12 credit hours.

Entry Status

First-time College: A student who has not previously attended any college.

Transfer: A student who attended another college in the previous semester.

Previous Other Collège: A student who attended another collège in the past but did not attend any collège during the previous semester.

Previous JCCC: A student who attended JCCC in the past but did not attend any college during the previous semester.

College Now/Quick Step: A student earning college credit while still attending high school.

Full-time Equivalent (FTE): The total number of credit hours in which students are enrolled divided by 15 (the credit hour load of a typical "full-time" student).

Headcount Enrollment: An unduplicated count of the number of individual students enrolled.

Student Level

Freshman: A student who had completed less than 26 credit hours at the beginning of the semester.

Sophomore: A student who had completed 26 to 64 credit hours at the beginning of the emester.

Special Student: A student who had completed more than 64 credit hours at the beginning of the semester.
