#### **ABSTRACT**

As part of the program evaluation and review process at William Rainey Harper College (WRHC) in Illinois, a follow-up study was conducted of students who had enrolled in the college's Word Processing Program between summer 1989 and spring 1994. A survey was mailed to 500 former students, receiving a response rate of 37.6%. Study findings included the following: (1) 95% of Word Processing students were female: (2) their average age was 31.3, and 70% were over 21; (3) 38% were attempting to secure a new job, while 19% were improving their current job skills; (4) students' grade point average at WRHC was 2.99, and they had earned an average of 23 credit hours: (5) 78% had been enrolled for 2 or more years, and 42% had been enrolled at least 5 years; (6) 73% had taken advanced WordPerfect 5.1 and 51% had already taken DeskTop Publishing with WordPerfect 5.1; (7) students showed interest in future courses including Advanced WordPerfect 6.0 for Windows, Advanced WordPerfect 6.0 DOS, DeskTop Publishing with Word?erfect 6.0, and Advanced Microsoft Word for Windows; (8) two-thirds of the former students were employed full time, 19% were employed part time, and 4% were unemployed; (9) students' first full-time jobs paid an average of about \$21,000 per year and first part-time jobs paid an average of \$8.90 per hour; (10) mean salaries of current full-time jobs was \$27,700, while the mean wage rate for current part-time jobs was \$9.38 per hour; and (11) students rated the word processing courses as of high value and felt well prepared for their jobs. The survey instrument is included. (KP)

#### **ABSTRACT**

The purpose of this study was to follow up former students in the Word Processing Program to examine their employment and continued education and evaluation of Word Processing courses.

A survey instrument developed jointly by the Office of Planning and Research and the Coordinator of the Word Processing Program was mailed to a sample of 500 former students who had enrolled in at least one-Word Processing Course.

After two mailings, 188 completed forms were received for a 38 percent response rate.

Results of the survey showed that students enroll in Word Processing courses for a variety of reasons and are above average in academic ability and tend to stay around Haper for a long time. A major reason is to keep up with new software versions and changes in technology. At present, most had taken WordPerfect 5.1 but wanted to take the 6.0 version in the future along with Microsoft Word for Windows. For the most part they could get the type of job they wanted in the location desired. Their current mean full-time annual salary was \$27,700. They rated the Word Processing courses as of high value and felt well prepared for their jobs. They also offered constructive suggestions for improvement.

#### **Purpose**

The purpose of this study was to follow up former students in Word Processing to examine their employment and continued education and their evaluation of Word Processing courses. This was part of the Program Review process and the study was requested by the Coordinator of Word Processing.

#### Methodology and Population Surveyed

The survey instrument shown in the Appendix was developed jointly by the Office of Planning and Research and the Coordinator of the Word Processing Program. The sample was developed by first drawing all 1,966 students from the student database who had enrolled in a Word Processing course between the summer of 1989 and the spring of 1994. From this population a random stratified sample of 500 was drawn insuring there was a reasonable number of students taking each of the courses in the program. After two mailings, 188 completed forms were returned for a response rate of 37.6 percent. In addition, information from the student database was collected on all 500 in the sample.

#### Profile of the Sample

Information on the student database indicated 5 percent were male and 95 percent were female. Eleven percent were minority (5% Asian, 2% Black, 3% Hispanic and 1% Foreign). Eleven percent reported some type of disability. Their average age was 31.3 at the time they entered Harper with 70 percent being 21 or older. Some 36 percent had transferred in credit from other colleges attended prior to enrolling at Harper College.

The reasons these students attended Harper varied. The largest segment (38%) were attempting to secure a new job while 19 percent were improving their current job skills. Another 17 percent were preparing to transfer while 12 percent were enrolled for personal interest and 9 percent were exploring possible fields of interest.

In terms of academic ability and performance, 35 percent were from the top quarter of their graduating class. Their average GPA at Harper was 2.99 and they had average earning 23 credit hours. Amazingly, 78 percent of the sample had been enrolled for two or more years and 42 percent had been enrolled at Harper at least 5 years. Finally, 16 percent had achieved a degree or certificate.

#### **Discussion of Survey Results**

In examining the Word Processing courses taken by the respondents, 73 percent had taken advanced WordFerfect 5.1 and 51 percent had already taken DeskTop Publishing with WordPerfect 5.1. In terms of their interest in future courses, the most popular topics are Advanced WordPerfect 6.0 for Windows, Advanced WordPerfect 6.0 DOS, DeskTop Publishing with WordPerfect 6.0 and Advanced Microsoft Word for Windows.

Preferences for times for courses indicated 71 percent liked week nights, 39 percent liked Saturdays, and 23 percent liked weekdays. Typically, students indicated they spent 4-5 hours her week on assignments outside of classtime. Some 89 percent said they had access to a

#### Discussion of Survey Results (continued)

computer outside of Harper and 93 percent said computers were available most of the time in the open labs.

Among the 16 percent who completed some program at Harper, the most often achieved certificates or degrees were Office Re-Entry, Executive Secretarial AAS and AA degree. In the future, the most sought after certificates and degrees were Executive Secretarial AAS, the AA or the Business Transfer degree. However, a variety of other certificates were also listed as being aspired to.

Describing their employment situation, two-thirds of the respondents were employed full time and another 19 percent were employed part time while only 4 percent were unemployed searching for employment. Among those employed part time, 90 percent said this was the preferred option at this point in their life. Two-thirds of those employed were in jobs identical or closely related to word processing. In fact, 54 percent said they spent over half of their job time on word processing. There was a wide variety of reasons why persons were not working on jobs related to word processing. Almost all (over 90%) were employed in Harper's District or surrounding suburbs.

A wide variation in the size of firms exists for the employing organizations of these former students. Some 18 percent were in firms under ten employees while one third were employed for firms with over 1,000 employees. These former students found their jobs through a variety of means. Twenty-eight percent found their job through the newspaper, 17 percent used networking, 13 percent continued to work for the same firm as they were employed at while enrolled at Harper, 10 percent found their job through temporary employment agency assignments and 10 percent used regular employment agencies.

First full-time jobs - after Harper - averaged about \$21,000 in annual salary while first part-time jobs averaged \$8.90 per hour in wage rates. The mean annual salaries of current full-time jobs was at \$27,700 while the mean wage rate for current part-time jobs was at \$9.38 per hour. The most common job titles were Administrative Assistant, Secretary and Administrative Secretary.

The initial intent of these students indicated 17 percent were preparing to transfer and to date 15 percent have continued their education after leaving Harper. Thus this intent measure seems to be fairly accurate.

When asked what word processing courses were most helpful in their current situation, the most frequently nominated subjects were Basic WordPerfect 5.1, Advanced WordPerfect 5.1, and DeskTop Publishing with WordPerfect 5.1. Most (58%) found out about word processing courses through the semester schedule mailed to their home. In addition, 13 percent found out about word processing courses through a Harper counselor and 8 percent through friends and relatives.

These former students were asked how frequently and how well prepared they were to use various types of equipment, software and skills. The most frequent type of equipment used was the IBM/Compatible 486 and it was used between very often and often.

2

#### Discussion of Results (continued)

WordPerfect 5.1 was the most frequent (very often to often) software used and these former students reported they were very well to well prepared to use it. Other software used occasionally to often were specialized varieties, tables, DeskTop Publishing, merges and macros. These former students were generally well prepared to use these softwares. Among file management skills, changing directories was the skill most frequently used (often used) and these former students said they were well prepared for this task. Within electronic mail, sending and receiving messages was the skill most frequently used but it was done only occasionally and they were only somewhat prepared to undertake such activity.

There were ten possible courses former students could have taken and for everyone that they enrolled in they were asked to fill out a specific survey form evaluating that course. Almost all students said each of the courses covered areas they were interested in and would recommend the course to other students. They were also asked to list most useful topics but most said all the topics were useful but a few specific topic were listed. Former students also listed least useful topics - almost none listed - areas they would like to spend more time, suggestions for improvement of the course and then general comments on the course.

Finally for each course there were 14 statements made and students were asked to indicate if they agreed with the statement. For analysis purposes, we classify agreement as meaning more than 65 percent of the students in that class agreed with that statement. Mixed opinions meant that between 35 and 65 percent of the students in that class agreed with that statement and disagreement meant fewer than 35 percent of the students in that class agreed with that statement. Six statements produced almost unanimous agreement by the students (at most only one class showed mixed opinions). These statements were:

- 1- The instructor was knowledgeable and helpful.
- 2- The class was well organized.
- 3- The class will be helpful to the student on the job.
- 4- The amount of information presented was appropriate for the length of the course.
- 5- The class met the individual needs of the students.
- 6- Material was covered at an appropriate pace.

Several statements had mixed agreements in two to four of the courses and agreement in the others. They were:

- 7- Supplemental handouts were helpful.
- 8- There was the right balance between "hands on" and lecture.
- 9- The pretest helped prepare the student for the final exam.
- 10- The textbook was helpful.
- 11- Students were evaluated often enough.

One statement had mixed opinions in six courses and disagreements in the other four courses. It was:

12- Only one software package should be offered in each course section.

3,

#### Discussion of Survey Results (continued)

The final two statements produced universal disagreement across all courses. They were:

- 13- There should be more graded assignments.
- 14- The course should have been self taught with an instructor available.

The course which produced the most disagreement and mixed opinion on these fourteen statements (7 mixed opinions and 3 disagreements) was SEC/203 - Proofreading and Editing.

#### **Major Conclusions**

Students enroll in Word Processing courses for a variety of reasons and are above average in academic ability and tend to stay around Harper for a long time. A major reason is to keep up with new software versions and changes in technology. At present, most had taken Word-Perfect 5.1 but wanted to take the 6.0 version in the future along with Microsoft Word for Windows. For the most part they could get the type of job they wanted in the location desired. Their current mean full-time annual salary was \$27,700. They rated the Word Processing courses as of high value and felt well prepared for their jobs. They also offered constructive suggestions for improvement.

#### Other Comments

- I was employed at Harper and taught these classes. I am currently teaching full time at College of DuPage in Office Careers.
- Three and a half hours once a week classes preferred. I do temporary work company size varies usually larger. Just bought some of the word processing software listed.
- I cannot answer the questions from No. 26 on because I finished at Harper last week.
- WordPerfect class 6.0 Windows would be helpful. 5.1 WIN with Multiple Software version was not helpful. Independent study computer s/w is not helpful.
- Very recently left job. All questions after No. 12 are answered with regard to my last employment.
- Prefer classes once a week. Just started a new position in previous position 50-70 percent at least.
- I would like to see Harvard Graphics, Windows utilization. I am sure I do not use 75 percent of my Window applications.
- Never use the computer labs. I was employed before taking a course at Harper. Salary is none of your business. I only took two classes. I had a job before attending Harper. This was stupid. Next time check your records to see what classes were taken and what not. Was employed before, during and after Harper at the same job.
- I am sorry I cannot help much. I find it very difficult to get a job for women over 40 computer skills or not.
- What the heck does "Preparedness" mean?
- My main concern at this time is to complete my course. I have the rest of my life to be working full time - no need to rush it. I can always go back to school to further my education in the need arises.

#### Other Comments (cont'd).

- I took a WordPerfect course out of curiosity. I am retired and have been for at least five years after doing secretarial work for more than 40 years. We do not have a computer at home which I found was essential for practice. Therefore, I did not continue and will not. Please remove my name from your mailing list -- thank you.
- I am a graduate of the Office Re-entry Program and I loved it! Thanks to Dale Herrick and Kathy Mindrup.
- Have enjoyed all courses I have taken at Harper. Feel I have not been too helpful here as I am not in the workforce. Just enjoy using the computer for personal and club work. Too involved in such the past year and a half to attend classes. Hope to start again by Spring semester 1995.
- Since I was already at retirement age when I took this course and the economic crunch happened at the same time, there was no temporary work available for an older person. I just retired and use my knowledge for personal and volunteer work.
- After taking WordPerfect classes, my company choose to standardize to Microsoft Word.
- I like the way Mr. Zilkowski taught the class. I got the most out of his class in WP. I would like to thank the wonderful teachers at Harper College for all of their help. When I started at Harper College I did not know how to type well and I did not know how to turn a computer on. I really feel good about how I did thanks to them. As a matter of fact I am kind of shocked to see myself doing these things. I would have never believed that I would be able to do the things on the computer that I am doing now. Harper College is a wonderful school and I tell everyone how great it is. Thank you so much -- It is a miracle!
- All of my word processing classes have given me great opportunities.
- Harper has the least expensive, best courses over anyone. I highly recommend them to everyone. The teachers are great. I have had two friends take them from my recommendation. Could you branch out into more the graphics programs other than WordPerfect?
- Also took LOTUS
- Harper has been a wonderful source of learning for me. Teachers have been excellent and I plan to return soon.
- Also took EXCEL Macros
- Have not used File Management since I took classes.
- My courses were excellent also noters -. I took courses at Harper not to be left in the dust in our computer world. I wanted to take a DOS course but the class I could take timewise was canceled.
- The following response to No. 30 to your survey reflects a student who did not complete WordPerfect 5.0 due to:
  - 1- Frustration in having to use WP5.0 text with computers programmed for WP5.1
  - 2- A new part-time job in a floral company
  - 3- A need to gain speed at the keyboard
  - 4- No computer at home to practice at my convenience
  - 5- My realizing at my "senior age" I would not be starting in a low-paying office career.

Presently I am unemployed - outside the home.

Areas Students in SEC/133 Would Have Liked to Spend More Time On

 $N_{-}$ Ν Macros 15 Lab was too cold 1 Merges 11 Graphics All areas covered enough 10 **LOTUS Windows** 1 File Management 3 AML PRO 1 Spend More Time on Everything 2 Directories WordPerfect 6.0/Windows WordPerfect Electronic Mail 1 How to make envelopes Teach Course/16 week format 1 Memorandums More lecture from instructor 1 Current business letter writing More help from instructor 1 More "hands on" Advanced features 1 DeskTop Publishing 1 Tabs 1 Windows Applications 1

#### Suggestions for Improvement of Course/Instructor

- No suggestions -- 7
- Be warm and open to new students. Some students were already well versed. He took from those of us who were new and had no idea they could handle word processing.
- No, I liked the format for 133.
- Some instructors were more patient and thorough
- Instructor should be more readily available for questions/problems. Student/teacher ratio was deplorable. Suitable for only "quick studies".
- Bettie Folik provided an excellent foundation for me in WP and enabled me to educate the rest of my office co-workers in Word Processing environment.
- Learn more of WP5.1 in advanced classes and regular WP5.1.
- Pre-test and final should have been proof read better and presented in a better format.
- Maybe have this course be a 16-week course with the beginning and advance level I right after the other.
- Lecture could have been longer for the length of class and time of night. Lots of free time to work and with the computer available at home I felt some time was wasted working at school.
- The class should have been more instruction by a teacher instead of a self-taught structure.
- Mr. Zilkowski is the best instructor for WP and Dale Herrick is the best program coordinator. They are the best teachers I have ever met. I wished I could have had them for all courses.
- Instructor a little too impatient.
- To move at a faster pace very remedial beginning course.
- Limit class from 12-15 students. Instructors time is spread too thinly among students when help is needed longer class time.
- More practical office type worksheets.
- Typing should be done before class so that the class time can be used to begin the different topics instead of using valuable class time to teach typing.
- Class should be worth at least two credits.
- As I said before, at least one lab aide so the instructor does not have to go crazy. If there is one instructor and 16 students, think about just how much help you get.

#### Suggestions for Improvement of Course/Instructor (cont'd)

- Introduce some concepts of advanced word processing envelopes, i.e., basics with the complements, letters with envelope or label generation after a merge.
- I felt sort of lost in this class. Not enough help and too fast paced.
- Continue to be patient
- Slower pace
- When teaching two softwares causes too much confusion teacher is pushed for time. She tried to do the best she could.
- Very pleased the way it was taught to someone new to computers.
- More time for responding to questions relating to material we are learning.
- More computer time in class.
- The teacher was wonderful interesting and helpful she knew her material.
- Instructor needs to understand disability need more time for test. She failed my course because I was not finished with my exam.
- Dale Herrick and Kathy Mindrup were both wonderful and cared so much about all of us.
- She was an excellent instructor because of family obligations, illness, I could not complete the course.
- Yes, a list of available equipment which would expedite routine office work more efficiently.
- I believe there are too many WordPerfect classes when there are a lot of companies.
- Have more lecture time.
- Use more handouts, less textbook due to cost.

#### **General Comments**

- The class that was extremely worthwhile was the 8-week class. The class that was telescoped into Friday evening and all day Saturday was not particularly beneficial. I don't recall which class was which.
- Certain teachers were better than others more explanation, more warmer.
- I don't want open entry for requirement. Please note -- Data Base should be taught on main campus as it is requirement for degree.
- Re: only one software should be offered in each class section -- this would allow the teacher to be focused on one topic. Not 3 or 4 going on at the same time.
- This questionnaire should have been sent out immediately after completing the course. I don't remember the specifics of the course content after all this time has passed. Also, didn't we fill out evaluations the last day of class that asked many of these same questions? Why don't you utilize the information from those evaluations instead of asking us to fill out these similar forms again 2-3 years later?
- Don't remember any of this.
- The textbook was appropriate and useful Instruction could be clearer.

#### Topics in Course They Found Helpful on the Job

- This is a beginning course everything taught is necessary.
- All of WP and proofing and editing.
- Have used most often.
- My WordPerfect knowledge since the company I am working for was converting to Word-Perfect from Multi-Mate. I am considered the WP Pro at work thanks to Harper.
- Yes, all topics, had no knowledge of WP5.1 at all.
- Formatting.
- General computer navigation

#### Topics in Course They Found Helpful on the Job (cont'd)

- I use the information learned in this class everyday of my business life. Cannot live without it.
- Just knowing Basic WP5.1.
- Planning office day was excellent we should learn to deal with more interruptions like real office world.
- Tables, simple merging etc., mail merging letters, etc.
- None 3
- All of it -- 3
- I do not work just use it for my own enjoyment.
- Additional knowledge always important in temporary work.
- Everything I used WordPerfect to create letters on a volunteer job. The course covered the commands necessary to do this and the instructor was terrific. She gave me the confidence to explore WordPerfect capabilities not covered by the course.
- Prepared me for my present position.
- I use most of the topics I studied every day.
- I am sure that all of the topics will eventually be needed.
- Yes, Basic WordPerfect
- All word processing
- I was totally foreign to it before I started everything was helpful.
- Taught me all computer basics that are necessary to know on all computers.
- Merge macros.
- Yes, use of WP programs.
- I use the table feature a lot for sales reports.
- Merges creating letters sending them to vast number of customers on one database.
- As we do not have software like this at all -- this is to prepare me for job change.
- All applications were used.
- Yes, everything covered in the class.
- Merging allowed time saving and fields allowed personalizing each letter.
- Business letters.
- Merge all
- No specific one but all around use has increased my efficiency and allowed me to help co-workers with their use of WP5.1.
- Tables I use them many times a day.
- Probably everything.
- Everything was helpful
- Increased my knowledge.
- Almost everything
- Assisted me in getting into present position which required WP5.1 experience. Stress reveal codes -- I benefited greatly by instructor's insistence on knowing "reveal codes".
- All topics are helpful in my job because it gave me the knowledge and concept of computers. What I use is not WordPerfect but I can adapt because of what I have learned.
- Almost everything mostly format.
- The field trip to Motorola helped to see a modern office. The mock interviews really helped to prepare us for the real thing.
- Office Re-entry program.
- WordPerfect Bold and underlines
- I knew nothing about WordPerfect learned everything I need to do my job.

#### Topics in Course They Found Helpful on the Job (cont'd)

- All of WP
- As a legal secretary, I use my DeskTop Publishing skills frequently on many documents.
- Letters tables labels envelopes maintaining address lists I work for H.R. and do rejection letters up to 150 plus at different times.
- Tables are invaluable.
- Yes, they all helped. For once, I had taken the classes I was able to get temporary assignments through my temporary agencies, making me more hireable, upping my income potential considerably.

#### Topics in Course Student Found Helpful On the Job

- Use WordPerfect in job
- Did not specify

Tables

- I can now do many of my reports on the computer that were previously done by hand.
- All of the topics were helpful in that I worked through a temporary agency. This made me more hireable and increased my hourly wage.

1

#### Suggestions for Improvement of Course/Instructor

- Teach don't supervise the typing pool.
- Take more time.
- Do not mix people in courses. The instructor spent the majority of her time with the WordPerfect people because they had the largest number of people to train. We worked at our own pace with the textbook. The teacher was very good though!
- More lecture time would be appreciated.

#### General Comments

- The print in the books was ridiculously small.
- There were only two of us in class for MicroSoft Word. Everyone else was in for WordPerfect.
- Do not remember! This was too long ago.

25

## Topics in Course Student Found Helpful On the Job

- DOS
- General overview helped
- All
- DOS basics and computer basic information
- General topics

- Ail topics in this course helped me with the job because it gave me an overview of it so that I have some basic understanding of it.
- How to use my computer

- E-Mail is used every day format and copying disk.

#### Suggestions for Improvement of Course/Instructor

- Allow more time
- No suggestions
- Need some pre-requisite
- This was a Friday night Saturday morning class. It went too fast for me and covered more than I could comprehend in that short of time.
- Kathy Mindrup was great.

#### **General Comments**

- Do not remember any of this.
- There were so many topics in the amount of classroom it began to be a little overwhelming on the second day of each weekend.
- Good, as an overview.
- Do not remember.
- Student did not answer any questions on this survey.
- Too long ago to remember any details.

#### The Topics in Course Student Found Helpful on the Job

- All -- 6
- All enabled me to perform more tasks confidently.
- As in 93 above, all we used regularly in my business I could not function without them.
- Everything
- All of it prepared me for my job.
- Use tables and merges often.
- I do use it in writing newsletters, etc., for groups I serve in church, etc.
- Mostly everything taught is used.
- Labels envelopes.
- Merge features were helpful.
- Merging, creating directories, and sub-directories, tables.
- Just general day to day responsibilities.
- No specific one just an enhanced understanding.
- Every topic except formulas helped organize files and speed productivity.
- Better understanding of WordPerfect 5.1
- Labels yes I needed to learn how to merge a primary document and secondary document on to labels.
- Teacher gave lots of hints and showed us importance of using and working within the reveal codes and looking for our errors there.
- The whole course.
- I have used everything I learned at one time or another in my job. I put graphics in every possible document i create.
- Letter merges, tables, and columns.
- Keyboarding
- All at one time or another.
- Creating documents and tables, and LOTUS setting up spreadsheets.

#### Suggestions for Improvement of Course/Instructor

- Instructor I had was terrible she was very uninterested seemed to be one page ahead of us.
- More time perhaps 10 weeks instead of cramming it in eight.
- None -- 3
- Kathy Mindrup did an excellent job. Her handouts are at the office always available as a resource.
- Teach more about macros how to use their wording to create special brackets, etc.
- Have students with difficulties come back or see them after class instead of holding up the class presentations to accommodate an individual.
- Too short of class for material covered needed maybe 2 or 3 more sessions.
- The class is set up just fine. Any more detail has to be done in other classes.
- The material was very good. The instructor I had seemed somewhat unsure of herself, knowledge wise.
- Instructor was great.
- I had Sue Schneider and felt she knew all there was to know about assisting me. Bravo!
- I took Intro WP5.1 summer 1993, Advanced WP5.1 early fall 1993, and signed up but later dropped WP5.1 Intermediate early winter 1994. Three courses in 9 months and they all required 3 different text books! Why not one textbook for all 3 courses with relevant "hand-out" sheets?

#### **General Comments**

- This questionnaire should have been sent out immediately after completing the course. I do not remember the specifics of the course content after all this time has passed.
- Do not remember.
- This questionnaire should have been sent out immediately after completing the course. Also, didn't we fill out evaluations the last day of class that asked many of these same questions? Why didn't you utilize the information from those evaluations instead of asking us to fill out these similar forms again, 2-3 years later?
- This class was substituted for another class I had previously taken.

#### The Topics in Course Student Found Helpful on the Job

- All topics
- Yes it made my work appear more professional.
- DeskTop Publishing I prepared a monthly newsletter.
- General computer navigation
- Just knowing Basic WordPerfect 5.1
- Tables and labels were used in my job as a volunteer for manuals and mass mailings.
- Tables they come in very useful for numerous projects.
- All of the topics will eventually be needed.
- They all furthered my ability to understand and utilize the software for my personal life and my job.
- Merges and macros.
- Tables indexes, T of C tabs.
- Yes, they apply directly to what I do document assembly, mass mailings, sorting.
- All of them 3
- I am not using the computer professionally yet.
- All applications were used.
- Do not use WordPerfect.
- Tables sorting
- Macros merges
- Everything
- No, sad to say. I took a job not using my skills.
- Merging and all aspects of this class are useful labels, envelopes.
- Macro setting up for certain packages Graphics use a lot.
- I sometimes have to make tables using WordPerfect when I prepare memorandums.
- Yes use of the mouse and windows.
- Not employed.

#### Suggestions for Improvement of Course/Instructor

- Did not care for the textbook preferred another I had from a previous class.
- I think advanced and tables are learned by simply following step-by-step instruction. Students need to first try to think how will I accomplish this task then discuss why, why not. Then give out instructions. It is not imbedded in brain. Anyone should be able to follow step by step instructions.
- Instructor should be more readily available for questions/problems. Student/teacher ratio was deplorable only suitable for "quick studies".
- Learn more of WP5.1 in advanced classes and regular WP5.1

- No - excellent as it is.

#### Suggestions for Improvement of Course/Instructor (continued)

- I think that this could have been a 16-week course.
- Kathy used her time wisely and lectures and hands-on went real well. Great instructor.
- Cover graphics as used in creating tables so we won't have to take another course. (DeskTop Publishing) just to learn how to create a border.
- None the instructor was excellent he definitely has a way of helping a student learn. I cannot believe I can do all of these things I am very happy.
- Need to at least introduce columns problem. Also incorporate more macros, and merges and make these subjects available at night -- Please.
- Too much out-of-class time expected to complete assignments. When I took the courses there were not enough laser printers to accommodate all the students, hence the need for more out-of-class homework and the need to come back to campus to "try" to get an open computer during open lab time.
- Slow pace for students who understood the material.
- Week 6 had too much material, more time on macros.
- Yes for some reason, the instructors go at lightening speed with the result that most all of what you do in class is pound out keystrokes, you don't have any idea of what you are doing or why. A lot more explanatory material both in lectures and on handouts would be immensely helpful.
- No
- Class should be worth at least two credits.
- I felt course was too fast paced. Book was difficult to follow.
- Instructor was excellent. She should teach "ail" computer classes.
- Build in more time for answering questions, responding to those of us with "fogged thinking"!
- A little smaller class so instructor has more time to help.
- More demonstration on computer.
- No the class and instructor were great.
- More knowledgeable people in the lab for respective course.

#### General Comments

- I would recommend this course to other students but I would like to see format revised.
- It was 1-1/2 years ago that I finished the course next time get to the individual sooner.
- If only one software were offered in each class section this would allow for the teacher to be focused on only one subject at a time. More handouts can be given out. You never know when you will go to them for a resource. I felt that the class could have been given a pre-test than a mid-form, then the final. I think that it could of been neat if our printed daily assignments could have been graded.
- Will take this course in the fall.
- Instructor is needed to teach not so much grading but maybe a teacher's approval of work would be fine. I have text anxiety. It is too much pressure. I can do the work.
- This questionnaire should have been sent out immediately after completing the course. I do not remember the specifics of the course content after all this time has passed. Also, didn't we fill out evaluations the last day of class that asked many of these same questions? Why didn't you utilize the information from those evaluations instead of asking us to fill out these similar forms again, 2-3 years later?

#### General Comments (continued)

- I have chosen to take these computer classes at Harper to increase my computer skills and to work myself back into the working world. I am currently a mom raising two boys. Therefore my schedule changes with the seasons and their activities. I have been taking courses that you offer at times that fit into our family scheduling. I currently work as a lunch supervisor for District No. 54 between the hours of 11:00 a.m. - 1:00 p.m. This has been a very valuable job choice as I am in touch with my children's environment. My husband's job takes him traveling frequently which also limits my "study time". At this time I would like to reassure you I have not left Harper College to pursue a career or change colleges. I have been dropped from the DeskTop Publishing w/WordPerfect 5.1 three times due to lack of enrollment. At each time I have been offered other classes that were still available. At one time I chose LOTUS 1-2-3 open entry. The other two times the courses that were available were not appropriate for our family schedule. Therefore, I will continue to be a Harper student as often as our schedules coincide. I have enjoyed all the classes I have taken and I feel good about what I have learned. I have been able to put into practice what I have learned in my PTA responsibilities and helping my husband prepare his weekly reports. I am looking forward to becoming an active student at Harper again some time soon.
- I would recommend this course to other students depending on needs of person who was asking for recommendation.
- Perhaps I would recommend this course to other students. I think there is better software to do this.

#### Topics in Course Students Found Helpful on the Job

- Not yet, maybe in the future.
- No, but the class was interesting.
- Creating newsletter I had to do one monthly.
- General computer navigation.
- I liked having the portfolio.
- Graphics I do a lot of work with graphics.
- Graphics fonts
- Yes I create newsletters and this was a most excellent class for that.
- All DeskTop basics.
- Fonts
- Kind of because this is the kind of thing I would like to have as a career.
- All of them.
- All tables, graphics, etc.
- Short cuts
- Creating brochures and newsletters.
- I do not use word processor every day but I use the table feature, the merge, and the resource book.
- No, as yet not using this at current job. This course for preparation of job change.
- The resume I did in this class and my portfolio helped me get the job.
- I do not use DeskTop Publishing at my job.
- All doing bulletins, etc.

#### Suggestions for Improvement of Course/Instructor

- Nothing for my instructor, Mary Ellen Peterson. She was great. I cannot think about anything for the course either.
- Instructor should be more readily available for questions/problems. Student/Teacher ratio was deplorable. Only suitable for "quick studies".
- There should be advanced DeskTop Publishing.
- Instructor was extremely helpful in advising and helping with problems from work and suggesting different methods to get a desired output.
- Too much material to be learned in such a short period of time.
- Some in the class had difficulty keeping up I did not.
- More serious instructor would not take a course if she was the instructor.
- Instructor goes too fast and does not speak loudly enough. Feel like you are just blowing out keystroke without knowing why or to what purpose. Need more information as to purpose of what you are doing and how it can help in other ways.
- Should be worth two credits.
- None Ms. Peterson was outstanding.
- The book was too wordy and not easy to eye or for reference or for learning new applications. The instructor presented some material way too fast and assumed we were familiar with material. Sl.e taught and expected us to implement too many things at once. There was not enough one-on-one time with her. Third of classtime was to wait for her help. This is indicative of not going over material thoroughly so students had a working understanding. She would help and tell you what to do to fix the error instead of ask questions so student could learn. I felt it was very frustrating and if I was called to utilize this software again that I did not "learn" it at all. It was merely to get through the class. Very disorganized in presentation of topic to be taught. Instructor not clear, concise or speaking audibly. Too lasse faire!

#### Suggestions for Improvement of Course/Instructor (continued)

- One problem person took up all of the instructors time DeskTop Publishing.
- Kathy Mindrup made this class the most fun and creative class I took at Harper.
- The class and instructor were very good.
- More handouts less textbook.

#### **General Comments**

- I would like to apply knowledge to 6.0.
- I would like to see you offer MicroSoft Word for McIntosh.
- Only if they were required to know a graphics package to create such things for the job. I have forgotten a lot of what I was taught since I have taken the class.
- I felt the class was very informative and stimulating.
- If I would recommend this course to others is questionable maybe if different instructor.
- I have been taking classes since 1989 and don't remember details from these courses.
- Well done job.
- Instructor it seemed as if it was a night out for her not organized not an instructor. It was very frustrating. It was actually self-taught. System ran out of memory too often.
- I would recommend this class yes and no depending on the mentality of person and his/her needs.
- Disorganized teacher 5.1. Someone in our class did not know keyboard.
- An elderly maiden aunt took sick and I was unable to complete this course. I also want to express my ability to work for a temporary agency was through and because of the classes I took this, in turn, led to my full-time job. My work at Harper made me job ready. I was taught by competent teachers and think highly of the school and will continue. I am enrolled for summer school class.

### Topics in Course Student Found Helpful On the Job

- All use everyday.
- Look closely at the paragraph and to understand what they are trying to say.
- English usage, proofreading.
- The eye strength and proof reading because I use a computer and send out letters.
- Most of the "comma" rules. All grammar rules.
- Proofreading
- Yes important to proofread every piece of correspondence. Reflects not only on persons, but department and company School District.
- Knowing where to put the punctuation.

### Suggestions for Improvement of Course/Instructor

- Too many tests In the second half of course sometimes we had 3 or 4 tests in one week.
- It would be nice to have some certification as a proofreader. If the class could be extended to accomplish this it would be helpful.
- Try to keep everyone together for a learning experience.
- While doing the editing I was confused with all the rules.
- Very intelligent instructor excellent overall.
- Spend more time learning in the text.
- This class confused me on grammar more than helped me. The book went with too many ridiculous situations.

#### General Comments

- For persons who would utilize it in work place.
- I would recommend this topic for other students, but not the teacher.

# Topics in Course Student Found Helpful on the Job

General Comments

- All - was able to create - very useful macros.

- Teacher was Great!

- All - I can do my job better.

- Definitely has made my job easier with the use of macros.
- Everything that was taught in class I use daily.

### Suggestions for Improvement of Course/Instructor

- The textbook we used was out of date.
- Students should be placed with other students at the same skill level.
- No instructor was very knowledgeable and well organized.
- Would like to learn more or even a refresher on advanced macros. Now that I know them and now I want to use them.
- None keep up the good work.

### Topics in Course Student Found Helpful on the Job

- I use tables almost every day on the job. This class was the most useful. I have taught other people (co-workers) I w to use the tables.
- All I create all the compt by forms and tables has helped. Also, I use tables for many of the monthly reports.
- Tables in general.
- I liked having portfolio.
- Newsletters, organizational charts, surveys.
- Yes, I do the things described.
- Sorting in tables.
- Merging information into tables.
- For volunteering it helped me do our school directory.
- Instructor gave us a FAX macro which I use today incorporated tables and macros.
- Using tables all the time for presentations.
- Yes I do not remember.

### Suggestions for Improvement of Course/Instructor

- More projects to take home and practice not necessarily for the grade just different projects.
- Students should be placed with other students at the same skill level. Class was slowed down when students did not understand instructors.
- Slow down would like to have more information on other ways to use what was taught.
- This was my favorite computer class. I learned a lot from this course. I would encourage others to take this course.
- Should be worth two credits.
- I was not crazy about this instructor not as organized or efficient as others.
- I feel people should have macro class before table class.
- There should be groupings of lessons from which the students could choose a required number of groupings. The student could choose which groups of lessons would directly apply to their job and skip those which they will never use. I find the teachers are usually too brainy and cannot bring themselves to the level of simple application.

#### **General Comments**

- Would recommend this course to others depending on whether the person could tolerate doing the material at warp speed.

- Cover Letter
- Survey Instruments

Spring 1994

#### Dear Student:

At this time, Harper College is following students who took at least one Word Processing Course between the fall of 1989 and the fall of 1993. We would like to know what your are now doing, your evaluation of Harper and the specific courses you took.

In order for Harper College to properly evaluate itself and continue to improve quality of service to students, it is essential to have good information on its students. Your responses to this survey are completely confidential. Your answers will only be used when they are combined with responses of other students. The number on the survey enables us to remove your name from the mailing list when your completed response is received. This saves the cost of unnecessary second mailings and you the bother of receiving a second copy of the survey in addition to a follow-up telephone call to non-respondents.

We greatly appreciate your taking the time to respond to this questionnaire and look forward to receiving your comments. When it comes to Harper, YOU ARE THE EXPERT!

Very truly yours,

Sett 1 a. Licus

John A. Lucas, Director

Office of Planning and Research

Enclosure/s

1-	What courses are you interested in taking at Harper in the future?
	A. Advanced WordPerfect 5.1
	B. Advanced WordPerfect 6.0 for DOS
	C. Advanced Microsoft Word 6.0 for Windows
	D. Advanced Word Perfect 6.0 for Windows
	E. WordPerfect 5.1 Macros
	F. WordPerfect 5.1 Tables
	G. WordPerfect 5.1 Merges
	H. Desktop Publishing w/WordPerfect 5.1
	I Desktop Publishing w/WordPerfect 6 0
	I. Desktop Publishing w/WordPerfect 6.0
	J. Desktop Publishing w/Word for Windows
	K. Proofreading and Editing
	L. Survey of Word Processing Applications
2-	What courses have you already taken or are currently taking at Harper?
	A. Advanced WordPerfect 5.1
	B. Advanced WordPerfect 6.0 for DOS
	C. Advanced Microsoft Word 6.0 for Windows
	D. Advanced Word Perfect 6.0 for Windows
	E. WordPerfect 5.1 Macros
	F. WordPerfect 5.1 Tables
	G. WordPerfect 5.1 Merges
	H. Desktop Publishing w/WordPerfect 5.1
	I. Desktop Publishing w/WordPerfect 6.0
	J. Desktop Publishing w/Word for Windows
	K. Proofreading and Editing
	L. Survey of Word Processing Applications
3-	What day of the week is convenient for you to take a course at Harper? Courses meeting once a week meet for 3-1/2 hours, those meeting twice a week meet for 1 hour and 40 minutes each session. Feel free to check (x) more than one.
	A Monday Wadnasday F Monday
	A. Monday/Wednesday E. Monday
	B. Tuesday/Thursday F. Tuesday
	A. Monday/Wednesday E. Monday  B. Tuesday/Thursday F. Tuesday  C. Wednesday G. Friday  D. Thursday H. Saturday
	D. Thursday H. Saturday
4-	What time of day is convenient for you to take a course at Harper College?
	A. Weekday starting no earlier than a.m. and ending by
	R. Weekday starting no carlier than a.m. and ending by
	B. Weeknight starting no earlier than p.m. and ending by  C. Saturday starting no earlier than and ending by
	C. Saturday starting no earlier than and ending by
5-	Have you completed a certificate or degree at Harper College? If so, what?
6-	Are you interested in completing a certificate or degree at Harper? If so, what
7-	Approximately how many hours did you spend on a computer outside of class doing
,-	class assignments?

8 -	Do you have access to a computer outside of Harper?
	A. Yes B. No
	C. If yes, what type
	C. 11 yes, what type
9-	When using one of the computer labs, was there a computer available for your use?  A. Most of the time  B. Some of the time
	C. Almost never
10-	
	A. Employed full time B. Employed part time
	C. Enrolled in college - not employed
	D. Not employed but searching for employment
	E. Not employed - raising a family
	F. Not employed by choice for another reasons
11-	If you are employed part time - why? Check (x) one.
	A. I prefer part time at this time in my life.
	B. I would prefer full time but working part time was the only way I could remain in my field.
	C. I would prefer full time but the only acceptable full-time jobs were
	too far away.  D. I would prefer full time but no acceptable full-time jobs were avail-
	able. What made them unacceptable?
12-	Where are you now employed? Check (x) one.
	A. In Harger's District E. 40-100 miles away in Illinois
	B. Surrounding suburbs F. Hore than 100 miles away in C. Downtown Chicago Illinois
	D. Farther away suburbs G. Out-of-State
13-	How related is your job to Word Processing? Check (x) one.
	A. Identical B. Closely related
	C. Somewhat related
	D. Not related
14-	At your present job, how much time is spent doing tasks related to Word Processing? Check (x) one A. 75% - 100%
	B. 50% - 75%
	C. 25% - 50%
	D. 5% - 25% E. 0%
15-	
	A. Found a job I enjoy more.  B. Found a job which pays more.
	C. Found a job which is closer to home.
	D. Other reason for employment in a job unrelated to major at Harper.
	50
	O U

10-	A. Yes B. No
17-	How large is the company or employer you work for? Check (x) one. A. Under 10 employees E. 200 - 499 employees F. 500 - 999 employees F. 500 - 999 employees G. 1,000 and more employees D. 100 - 199 employees
18-	How many office skilled employees work at your employers? Check (x) one.         A. Under 10 employees       E. 200 - 499 employees         B. 10 - 49 employees       F. 500 - 999 employees         C. 50 - 99 employees       G. 1,000 and more employees         D. 100 - 199 employees
19-	If you were employed full time in your first job after leaving Harper, please check (x) what your annual salary was.  A. Under \$7,000 per year or \$3.36 per hour  B. \$7,000 - \$8,999 per year or \$3.37 - \$4.32 per hour  C. \$9,000 - \$9,999 per year or \$4.33 - \$4.80 per hour  D. \$10,000 - \$11,999 per year or \$4.82 - \$5.76 per hour  E. \$12,000 - \$14,999 per year or \$5.77 - \$7.20 per hour  F. \$15,000 - \$19,999 per year or \$7.21 - \$9.61 per hour  G. \$20,000 - \$25,000 per year or \$9.62 - \$12.01 per hour  H. \$25,000 - \$30,000 per year or \$12.02 - \$14.41 per hour  I. \$30,000 - \$35,000 per year or \$14.42 - \$16.82 per hour  J. \$35,000 - \$40,000 per year or \$16.83 - \$19.21 per hour  K. \$40,000 - \$50,000 per year or \$19.23 - \$24.04 per hour  L. Over \$50,000 per year or \$24.04 per hour
20-	If you were employed part time in your first job after leaving Harper, please check (x) your wage rate. A. Under \$3.36 per hour
21-	If you are currently employed full time, please check (x) your annual salary.  A. Under \$7,000 per year or \$3.36 per hour  B. \$7,000 - \$8,999 per year or \$3.37 - \$4.32 per hour  C. \$9,000 - \$9,999 per year or \$4.33 - \$4.80 per hour  D. \$10,000 - \$11,999 per year or \$4.82 - \$5.76 per hour  E. \$12,000 - \$14,999 per year or \$5.77 - \$7.20 per hour  F. \$15,000 - \$19,999 per year or \$7.21 - \$9.61 per hour  G. \$20,000 - \$25,000 per year or \$9.62 - \$12.01 per hour  H. \$25,000 - \$30,000 per year or \$12.02 - \$14.41 per hour  I. \$30,000 - \$35,000 per year or \$14.42 - \$16.82 per hour  J. \$35,000 - \$40,000 per year or \$16.83 - \$19.21 per hour  K. \$40,000 - \$50,000 per year or \$19.23 - \$24.04 per hour  L.
