TITLE Report Card, 1994: The State of School Systems in North Carolina.

INSTITUTION North Carolina State Board of Education, Raleigh.

PUB DATE Jan 95

NOTE 499p.

PUB TYPE Statistical Data (110) -- Reports - Evaluative/Feasibility (142)

EDRS PRICE MF02/PC20 Plus Postage.

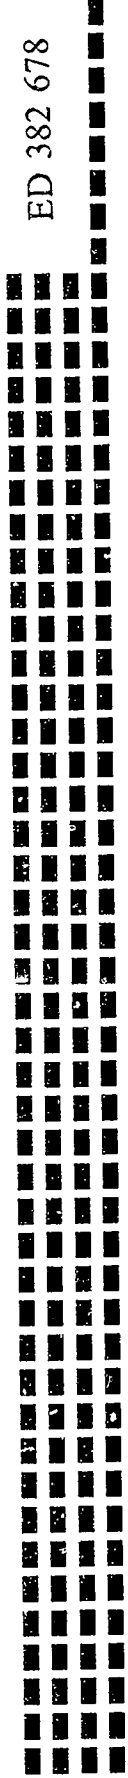

DESCRIPTORS *Academic Achievement; Elementary Secondary Education; Graduation Requirements; Outcomes of Education; *School Districts; Standards; State Programs; Tables (Data); Testing Programs; *Test Results

IDENTIFIERS Educational Indicators; *North Carolina; Performance Based Evaluation

ABSTRACT

This publication is the fifth issue of "Report Card" in a series that provides information about how well North Carolina schools are serving the youth of the state. The "Report Card" presents information related primarily to the outcomes of education based on student achievement. Statewide performance results are presented along with individual reports for the 119 local school systems. The first part of the report, "1994 Student Performance Summary," presents information on elementary and middle school performance and high school performance on state tests, along with the school system's state accreditation status. The second part, "1994 Student Attendance Indicators," and the third part, "Student Outcome Indicators," provide information about a number of additional school performance measures. Information in the report is presented in terms of set standards designated as grade level for elementary and middle schools and as proficiency level for high school end-of-course test indicators. One hundred nineteen tables present data for the school systems. (SLD)

1994 REPORT CARD The State of School Systems in North Carolina

Introduction

This publication is the fifth issue of *Report Card, The State of School Systems in North Carolina*, a report required by the School Improvement and Accountability Act, enacted by the North Carolina General Assembly in 1989. It is one of several annual reports published to examine how well North Carolina public schools are serving the children and youth of the state.

The *Report Card* presents information that is related primarily to the outcomes of education based upon student achievement. It is intended to inform the public and to provide policy makers and operational decision makers with information for improving achievement. This volume includes a report on statewide performance results for North Carolina and individual reports for all 119 local school systems.

There are three parts to the report. The first part, "1994 Student Performance Summary," presents information about elementary/middle school performance and high school performance on state tests, along with the school system's state accreditation status. The second part, "1994 Student Attendance Indicators," and the third part, "Student Outcome Indicators," provide information about a number of additional school system performance measures.

In the 1994 *Report Card*, information about student performance is presented in terms of a set standard. The standard is designated as "grade level" for elementary school and middle school end-of-grade test indicators and as "proficient level" for high school end-of-course test indicators. Except where noted, this comparison to established criteria is now the standard for reporting school system student achievement. Reporting is in terms of the percentage of students in the school system achieving at either grade level or at the proficient level on state end-of-grade and end-of-course tests. It should be noted that "grade level" performance and "proficient level" performance are based upon the collective judgment of teachers who administered the state tests in 1993. For consistency in showing growth from year to year, the 1993 levels will continue as a constant standard for several years.

The *Report Card* is prepared by the Office of Accountability Services in the Department of Public Instruction and is issued by the State Board of Education.

Each of the state's local school systems will issue a companion publication entitled *1994 Report Card Administrative Supplement*. It will contain detailed data for that school system related to information presented in the *1994 Report Card*.

January 1995

Interpreting the 1994 Report Card

1994 Student Performance Summary

Elementary and Middle School Performance

- Reading, mathematics and social studies end-of-grade test results in grades 3 through 8 have been combined into one indicator for each subject. The indicator is the percent of all students who took the tests who scored at or above their grade level.
- The results for writing tests in grades 4, 6, and 8 are shown independently. Technical characteristics of the tests preclude combining the percentages into a single score at this time.
- Percentile scores are shown for science tests. A score at the 60th percentile, for example, means that, on the average, students in that school system scored higher than 60 percent of students statewide on that test.
- Scores shown for all of the performance measures are based on single-year 1994 data.

High School Performance

- Test performance for high school courses is shown as the percent of students taking the tests who scored at or above the proficient level.
- The core courses of Algebra I, Biology, Economic/Legal/Political Systems, English I, Physical Science, and U.S. History are taken by most students in every school system. One combined indicator represents the percent proficient for all of these tests. Scores are comparable across systems.
- Schools vary in numbers of students who enroll in advanced courses. Thus, a participation index is included with performance information for state tests given to students taking advanced courses. Performance and participation must be considered together when comparing school systems.
- Data for geometry and algebra II are combined, as are data for chemistry and physics.

1994 Student Attendance Indicators

- Percent Attendance is calculated as the ratio of average daily attendance to average daily membership. • The Dropout Rate is for grades 7-12.

1994 Student Outcome Indicators

- "Graduates" receive diplomas based upon successful completion of all graduation requirements. • "Certificates" are presented to those who successfully complete all requirements except the competency test. • The Scholastic Aptitude Test score is the average of the combined verbal and mathematics sections of the test. • Advanced Placement Examinations are national tests administered in high school by The College Board; higher education institutions usually grant college credit for scores of 3 or higher on a 5-point scale. • "Vocational Education Completers" are students who complete at least one two-year sequence in a vocational education program. • "N. C. Scholars" receive a seal of recognition attached to their diplomas for completing an academically challenging high school program. • Students should complete five or more units each year to be on schedule for graduation in four years. • UNC admissions requirements include 4 units of English, 3 of math (algebra I, algebra II, geometry (including biology), and 2 of social studies

Accreditation

- Overall state accreditation status for the school system is shown; a detailed report itemizing performance for each indicator is prepared by the Department of Public Instruction for all school systems and presented in a separate report.
- The total number of local school systems accredited by the State Board of Education is shown on the North Carolina Summary.
