## ABSTRACT

This document is intended to help school districts in Oregon develop procedures for the operation of local special education programs. The guide is formatted to show legal requirements in the left column of each page with sample procedures in the right column. The sample procedures are not required and are intended to work in conjunction with the Local Education Agency Comprehensive Application (the formal presentation of the district's policies and operating procedures for special education required by federal regulations). The document addresses the following 13 areas: (1) child identification; (2) confidentiality; (3) full educational opportunity goal; (4) comprehensive system of personnel development; (5) parent involvement; (6) participation in regular education; (7) individual education program; (8) procedural safeguards; (9) evaluation procedures; (10) private schools; (11) free appropriate public education; (12) application available to the public; and (13) nondiscrimination. Two appendices provide similar sample procedures for the areas of related services and discipline. A glossary completes the document. (DB)

## FOREWORD

The purpose of this document is to help school districts in Oregon develop procedures for the operation of local special education programs. The first edition was written in 1991 by Department of Education staff with consultation from the Western Regional Resource Center at the University of Oregon, the National Association of State Directors of Special Education and field input from over 150 school district administrators, teachers, parents and others from across the state. The second edition was completed in 1994 providing legal updates. Consultation was also received on this edition from the Western Regional Resource Center and input was provided by the field during public meetings.

The document is formatted to show the legal requirements in the left column of each page with the sample procedures in the right column. School districts must follow the regulations shown on the left side. ***It is optional whether a district uses the sample procedures on the right side. The sample procedures are not required.*** Each district must have policies and procedures for special education which conform to the requirements of state and federal legislation. Final responsibility for the development of the required policies and procedures rests with each local district.

The sample procedures contained in the document work in unison with the Local Education Agency (LEA) Comprehensive Application. The Comprehensive Application is a school district application that contains the district's policies and operating procedures for special education required by federal regulations. If a district already has special education policies and procedures, or wants to develop its own, the policies and procedures must meet the criteria established by the Department of Education. The other option available to a district is to adopt the sample procedures found in this document.

The document contains the same thirteen areas as the LEA Comprehensive Application and is in the same order. The appendices include two additional areas for which there are no federal requirements for local district policies and procedures. However, districts may want to have procedures in these areas.

### Section 3: FULL EDUCATIONAL OPPORTUNITY GOAL

#### Federal and State Legal Obligations

#### Sample Procedures

Each application must:

- (a) Include a goal of providing full educational opportunity to all children with disabilities, aged birth through 21; and
- (b) Include a detailed timetable for accomplishing the goal.

(Authority: 20 U.S.C. 1414(a)(1)(C), (D))

#### 34 CFR 300.304 Full educational opportunity goal.

- (a) Each SEA shall ensure that each public agency establishes and implements a goal of providing full educational opportunity to all children with disabilities in the area served by the public agency.
- (b) Subject to the priority requirements of Secs. 300.320-300.324, an SEA or LEA may use Part B funds to provide facilities, personnel, and services necessary to meet the full educational opportunity goal.

(Authority: 20 U.S.C. 1412(2)(A); 1414(a)(1)(C))

*Note: In meeting the full educational opportunity goal, the Congress also encouraged LEAs to include artistic and cultural activities in programs supported under this part, subject to the priority requirements of Secs. 300.320-300.324. This point is addressed in the following statements from the Senate Report on Public Law 94-142: The use of the arts as a teaching tool for the handicapped has long been recognized as a viable, effective way not only of teaching special skills, but also of reaching youngsters who had otherwise been unteachable. The Committee envisions that programs under this bill could well include an arts component and, indeed, urges that local educational agencies include the arts in programs for the handicapped funded under this Act. Such a program could cover both appreciation of the arts by the handicapped youngsters, and the utilization of the arts as a teaching tool per se.*

*NOTE: Sample policies and administrative regulations to accompany the procedures in this section can be found in the OSBA documents coded IGBA and IGBA-AR.*

#### I. Full Education Opportunity Goal

- A. The school district has established a goal of providing full educational opportunity to each student with a disability, ages five through twenty-one years of age, regardless of the severity of the student's disability. (The State Department of Education fulfills the requirement of providing full educational opportunity for eligible children birth to school age.)
- B. Implementation of the full educational opportunity goal for students with disabilities, ages five through twenty-one, will be completed by the school district in September of each school year. All federal and state regulations will be followed with this implementation.
  1. Special education services for students ages 19 through 21 are provided to eligible students who have not received a regular diploma.
  2. Special education services for students ages 19 through 21 are provided to eligible students who have received a regular diploma if the IEP team decides that the services will assist in achieving the student's IEP goals and objectives.
  3. Local school district application procedures apply to students addressed in (1) and (2) above.
  4. If an eligible student turns 21 during the school year, the student may complete that school year.

## Federal and State Legal Obligations

## Sample Procedures

*Museum settings have often been another effective tool in the teaching of handicapped children. For example, the Brooklyn Museum has been a leader in developing exhibits utilizing the heightened tactile sensory skill of the blind. Therefore, in light of the national policy concerning the use of museums in federally supported education programs enunciated in the Education Amendments of 1974, the Committee also urges local educational agencies to include museums in programs for the handicapped funded under this Act.*

## Section 6: PARTICIPATION IN REGULAR EDUCATION

### Federal and State Legal Obligations

### Sample Procedures

#### 34 CFR 300.227 Participation in regular education programs.

- (a) Each application must include procedures to ensure that to the maximum extent practicable, and consistent with Secs. 300.550-300.553, the LEA provides special services to enable children with disabilities to participate in regular educational programs.
- (b) Each application must describe:

*NOTE: Sample policies and administrative regulations to accompany the procedures in this section can be found in the OSBA documents coded IGBAE and IGBAE-AR.*

#### I. Participation

- A. To the maximum extent appropriate, eligible students, including students in public or private educational agencies, shall be educated with noneligible students.
- B. The provision of special classes, programs, separate schooling or other removal of eligible students shall occur only when the nature or severity of the disability is such that education in regular classes, with the use of supplemental aids and services, cannot be achieved satisfactorily.

#### II. Continuum of Alternative Placements

- A. A continuum of alternative placements and service options are available to meet the needs of eligible students. The continuum includes instruction in regular classes, special classes, special schools, home instruction, and instruction in hospitals and institutions.
- B. Provisions for supplementary services for regular class placement shall be made as follows:
  1. Reviewing the goals and objectives;
  2. Identifying what is necessary for implementation of the IEP;
  3. Determining if the IEP can be implemented in the regular program without supplementary aids and services; and, if not, identifying and recording on the IEP the supplementary aids and services that are needed;

sary to afford children with disabilities an equal opportunity for participation in those services and activities.

- (b) Nonacademic and extracurricular services and activities may include counseling services, athletics, transportation, health services, recreational activities, special interest groups or clubs sponsored by the public agency, referrals to agencies that provide assistance to individuals with disabilities, and employment of students, including both employment by the public agency and assistance in making outside employment available.

(Authority: 20 U.S.C. 1412(2)(A); 1414(a)(1)(C))

### 34 CFR 300.533 Placement procedures.

- (a) In interpreting evaluation data and in making placement decisions, each public agency shall:
- (1) Draw upon information from a variety of sources, including aptitude and achievement tests, teacher recommendations, physical condition, social or cultural background, and adaptive behavior;
  - (2) Ensure that information obtained from all of these sources is documented and carefully considered;
  - (3) Ensure that the placement decision is made by a group of persons, including persons knowledgeable about the child, the meaning of the evaluation data, and the placement options; and
  - (4) Ensure that the placement decision is made in conformity with the LRE rules in Secs. 300.550-300.554.
- (b) If a determination is made that a child has a disability and needs special education and related services, an IEP must be developed for the child in accordance with Secs. 300.340-300.350.

(Authority: 20 U.S.C. 1412(5)(C); 1414(a)(6))

4. If not, identifying and recording on the IEP those supplementary aids and services that are needed;
5. Identifying and recording on the IEP those supplementary aids and services that can be provided in the regular class;
6. If not all the aids and services can be provided in the regular classroom, defining and recording on the IEP those that must be provided outside the regular classroom; and
7. For those aids and services that must be provided outside the regular classroom, defining and recording on the IEP where, on the continuum from least to most restrictive, the services can be provided.

### III. Placements

- A. Each eligible student's placement is determined at least once every 365 days.
- B. Each eligible student's placement is based on his/her individualized education program.
- C. If a student's IEP requires a placement in a setting other than the school the student would attend if noneligible, the placement will be in a school as close to home as possible.
- D. Various alternative placements following the continuum in II.
  - A. of this section are available to implement the individualized education programs for eligible students.
- E. Unless the individualized education program requires some other arrangement, the student is educated in the school he or she would attend if not eligible.
- F. In selecting the placement, consideration is given to any potential harmful effect on the student or on the quality of services he/she needs.

*Note: Paragraph (a)(1) of this section includes a list of examples of sources that may be used by a public agency in making placement decisions. The agency would not have to use all the sources in every instance. The point of the requirement is to ensure that more than one source is used in interpreting evaluation data and in making placement decisions. For example, while all of the named sources would have to be used for a child whose suspected disability is mental retardation, they would not be necessary for certain other children with disabilities, such as a child who has a severe articulation impairment as his primary disability. For such a child, the speech-language pathologist, in complying with the multiple source requirement, might use: (1) A standardized test of articulation, and (2) observation of the child's articulation behavior in conversational speech.*

**34 CFR 300.550 General.**

- (a) Each SEA shall ensure that each public agency establishes and implements procedures that meet the requirements of Secs. 300.550-300.556.
- (b) Each public agency shall ensure:
  - (1) That to the maximum extent appropriate, children with disabilities, including children in public or private institutions or other care facilities, are educated with children who are nondisabled; and
  - (2) That special classes, separate schooling or other removal of children with disabilities from the regular educational environment occurs only when the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

(Authority: 20 U.S.C. 1412(5)(B); 1414(e)(1)(C)(v))

**Sec. 300.551 Continuum of alternative placements.**

**44(a)** Each public agency shall ensure that a continuum of alternative placements is available to meet the needs of children with disabilities for special education and related services.

**IV. Nonacademic settings**

- A. Eligible students shall participate with noneligible students in nonacademic and extracurricular services and activities to the maximum extent appropriate to meet the needs of each student. These services and activities include:
  - 1. Counseling services;
  - 2. Health services;
  - 3. Transportation;
  - 4. Special interest groups or clubs;
  - 5. Athletics;
  - 6. Recreational activities;
  - 7. Referrals to agencies which provide assistance to persons with disabilities; and
  - 8. Employment of students.

(b) The continuum required in paragraph (a) of this section must:

- (1) Include the alternative placements listed in the definition of special education under Sec. 300.17 (instruction in regular classes, special classes, special schools, home instruction, and instruction in hospitals and institutions); and
- (2) Make provision for supplementary services (such as resource room or itinerant instruction) to be provided in conjunction with regular class placement.

(Authority: 20 U.S.C. 1412(5)(B))

### 34 CFR 300.552 Placements.

Each public agency shall ensure that:

(a) The educational placement of each child with a disability:

- (1) Is determined at least annually;
- (2) Is based on his or her IEP; and
- (3) Is as close as possible to the child's home.

(b) The various alternative placements included at Sec. 300.551 are available to the extent necessary to implement the IEP for each child with a disability.

(c) Unless the IEP of a child with a disability requires some other arrangement, the child is educated in the school that he or she would attend if nondisabled.

(d) In selecting the LRE, consideration is given to any potential harmful effect on the child or on the quality of services that he or she needs.

(Authority: 20 U.S.C. 1412(5)(B))

*Note: Section 300.552 includes some of the main factors that must be considered in determining the extent to which a child with a disability can*

be educated with children who are nondisabled. The overriding rule in this section is that placement decisions must be made on an individual basis. The section also requires each agency to have various alternative placements available in order to ensure that each child with a disability receives an education that is appropriate to his or her individual needs.

The requirements of Sec. 300.552, as well as the other requirements of Secs. 300.550-300.556, apply to all preschool children with disabilities who are entitled to receive FAPE. Public agencies that provide preschool programs for nondisabled preschool children must ensure that the requirements of Sec. 300.552(c) are met. Public agencies that do not operate programs for nondisabled preschool children are not required to initiate such programs solely to satisfy the requirements regarding placement in the LRE embodied in Secs. 300.550-300.556. For these public agencies, some alternative methods for meeting the requirements of Secs. 300.550-300.556 include:

1. Providing opportunities for the participation (even part-time) of preschool children with disabilities in other preschool programs operated by public agencies (such as Head Start);
  2. Placing children with disabilities in private school programs for nondisabled preschool children or private school preschool programs that integrate children with disabilities and nondisabled children; and
  3. Locating classes for preschool children with disabilities in regular elementary schools.
- In each case the public agency must ensure that each child's placement is in the LRE in which the unique needs of that child can be met, based upon the child's IEP, and meets all of the other requirements of Secs. 300.340-300.350 and Secs. 300.550-300.556.

The analysis of the regulations for Section 504 of the Rehabilitation Act of 1973 (34 CFR part 104—Appendix, Paragraph 24) includes several points regarding educational placements of children with disabilities that are pertinent to this section:

1. With respect to determining proper placements, the analysis states:

*... it should be stressed that, where a handicapped child is so disruptive in a regular classroom that the education of other students is significantly impaired, the needs of the handicapped child cannot be met in that environment. Therefore regular placement would not be appropriate to his or her needs . . . .*

- 2. With respect to placing a child with a disability in an alternate setting, the analysis states that among the factors to be considered in placing a child is the need to place the child as close to home as possible. Recipients are required to take this factor into account in making placement decisions. The parents' right to challenge the placement of their child extends not only to placement in special classes or separate schools, but also to placement in a distant school, particularly in a residential program. An equally appropriate education program may exist closer to home; and this issue may be raised by the parent under the due process provisions of this subpart.*

**34 CFR 300.553 Nonacademic settings.**

In providing or arranging for the provision of nonacademic and extracurricular services and activities, including meals, recess periods, and the services and activities set forth in Sec. 300.306, each public agency shall ensure that each child with a disability participates with nondisabled children in those services and activities to the maximum extent appropriate to the needs of that child.

(Authority: 20 U.S.C. 1412(5)(B))

*Note: Section 300.553 is taken from a requirement in the final regulations for Section 504 of the Rehabilitation Act of 1973. With respect to this requirement, the analysis of the Section 504 Regulations includes the following statement: "[This paragraph] specifies that handicapped children must also be provided nonacademic services in as integrated a setting as possible. This requirement is especially important for children whose educational needs necessitate their being solely with other handicapped children during most of each day. To the maximum extent appropriate, children in residential settings are also to be provided opportunities for participation with other children." (34 CFR part 104—Appendix, Paragraph 24.)*

**34 CFR 300.554 Children in public or private institutions.**

Each SEA shall make arrangements with public and private institutions (such as a memorandum of agreement or special implementation procedures) as may be necessary to ensure that Sec. 300.550 is effectively implemented.

(Authority: 20 U.S.C. 1412(5)(B))

*Note: Under section 612(5)(B) of the statute, the requirement to educate children with disabilities with nondisabled children also applies to children in public and private institutions or other care facilities. Each SEA must ensure that each applicable agency and institution in the State implements this requirement. Regardless of other reasons for institutional placement, no child in an institution who is capable of education in a regular public school setting may be denied access to an education in that setting.*

**OAR 581-15-059 Requirement for Least Restrictive Environment.**

School districts shall ensure that:

- (1) To the maximum extent appropriate, handicapped children are educated with children who are not handicapped.
- (2) Removal of handicapped children from the regular educational environment in any way occurs only when the nature or severity of the handicap is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

Stat. Auth.: ORS Ch. 343  
Hist.: IEB 269, f. & ef. 12-22-77

**OAR 581-15-060 Alternative Placements and Supplementary Services.**

School districts shall ensure that a continuum of alternative placements is available to meet the needs of handicapped children for special education and related services, which continuum must:

- (1) Include as alternative placements instruction in regular classes, special classes, special schools, home instruction and instruction in hospitals and institutions.
- (2) Provide for supplementary services (such as resource room or itinerant instruction) to be provided in conjunction with regular class placement.

Stat. Auth.: ORS Ch. 343  
Hist.: IEB 269, f. & ef. 12-22-77

**OAR 581-15-061 Placement of the Child.**

School districts shall ensure that:

- (1) Each handicapped child's educational placement:
  - (a) Is determined annually;
  - (b) Is based on his or her individualized education program; and
  - (c) Is as close as possible to the child's home.
- (2) The alternative placements under OAR 581-15-060 are available to the extent necessary to implement the individualized education program for each handicapped child.
- (3) Unless a handicapped child's individualized educational program requires some other arrangement, the child is educated in the school which he or she would attend if not handicapped.

- (4) Consideration be given, in selecting the least restrictive environment, to any potential harmful effect on the child or on the quality of services which he or she needs.

Stat. Auth.: ORS Ch. 343

Hist.: 1EB 269, f. & ef. 12-22-77

#### **OAR 581-15-062 Nonacademic Settings.**

School districts shall ensure that each handicapped child participates with nonhandicapped children to the maximum extent appropriate to the needs of that child, in nonacademic and extracurricular services and activities.

Stat. Auth.: ORS Ch. 343

Hist.: 1EB 269, f. & ef. 12-22-77

#### **OAR 581-15-073 Interpretation and Placement.**

- (1) In interpreting evaluation data and in making placement decisions, school districts shall:
- (a) Draw upon information from a variety of sources, including aptitude and achievement tests, teacher recommendations, physical condition, social or cultural background and adaptive behavior;
  - (b) Ensure that information obtained from all these sources is documented and carefully considered; and
  - (c) Ensure that the placement decision is made by a group of persons, including persons knowledgeable about the child, the meaning of the evaluation data and the placement options.
- (2) If a determination is made that a child is handicapped and needs special education and related services, an individualized education program must be developed for the child in accordance with OAR 581-15-068.

## Section 7: INDIVIDUAL EDUCATION PROGRAM

### Federal and State Legal Obligations

### Sample Procedures

#### 34 CFR 300.1 Purpose.

The purpose of this part is:

- (a) To ensure that all children with disabilities have available to them a free appropriate public education that includes special education and related services to meet their unique needs;
- (b) To ensure that the rights of children with disabilities and their parents are protected;
- (c) To assist States and localities to provide for the education of all children with disabilities; and
- (d) To assess and ensure the effectiveness of efforts to educate those children.

(Authority: 20 U.S.C. 1401 Note)

#### 34 CFR 300.130(a)-(b)(1) Individualized education programs.

- (a) Each State plan must include information that shows that each public agency in the State maintains records of the IEP for each child with disabilities, and each public agency establishes, reviews, and revises each program as provided in Secs. 300.340-300.350.
- (b) Each State plan must include:
  - (1) A copy of each State statute, policy, and standard that regulates the manner in which IEPs are developed, implemented, reviewed, and revised.

*NOTE: Sample policies and administrative regulations to accompany the procedures in this section can be found in the OSBA documents coded IGBAF and IGBAF-AR.*

#### I. When IEPs Must be in effect

- A. The school district shall ensure that:
1. At the beginning of each school year an IEP shall be in effect for each eligible child;
  2. The IEP shall be in effect before special education and related services are provided to a student; and
  3. The IEP shall be implemented as soon as possible following the IEP meeting.

#### II. Meetings

- A. The school district initiates and conducts IEP meetings for the purpose of developing, reviewing and revising an eligible student's IEP.
- B. Meetings are conducted within 30 calendar days of determination that the student needs special education and related services.
- C. Each eligible student's IEP is periodically reviewed. This is done at least once a year.
- D. An IEP meeting is initiated for the purpose of identifying alternative strategies to meet the transition objectives and, if necessary, revising the IEP, if a participating agency fails to provide agreed upon transition services contained in the IEP.

#### III. Participants in Meetings

- A. Team members must include the following:

## Sample Procedures

1. A representative of the school district, other than the student's teacher, who is qualified to provide or supervise the provision of special education and is knowledgeable about program options, academic, nonacademic, and extracurricular activities. A representative of the district shall have the authority to commit district resources to ensure that whatever services are set out in the IEP can be delivered.
2. The student's current teacher, or if the student does not have a regular teacher, a teacher qualified to teach a student the same age.
3. One or both of the student's parents, guardian or persons in a parental relationship. Characteristics of a person in a parental relationship include the following:
  - a. When the person has physical custody and control of the student;
  - b. When the person supplies the student with food, clothing, shelter or other incidental necessities;
  - c. When the person provides the student with care, education, and discipline; or
  - d. When the person may authorize ordinary medical, dental, psychiatric, psychological, hygienic or other remedial care and treatment for the student and, in an emergency where the student's safety appears to urgently require it, the person may authorize surgery or other extraordinary care.

4. The student, when appropriate.
5. Other individuals at the discretion of the parent or district.
6. For a student who has been evaluated for the first time, a member of the evaluation team or some other person who

Each application must include procedures to assure that the LEA complies with §§ 300.340-300.350.

[Authority: 20 U.S.C. 1414(a)(5)]

**34 CFR 300.300 Timelines for free appropriate public education.**

- (a) General. Each State shall ensure that FAPE is available to all children with disabilities aged 3 through 18 within the State not later than September 1, 1978, and to all children with disabilities aged 3 through 21 within the State not later than September 1, 1980.
- (b) Age ranges 3-5 and 18-21. This paragraph provides rules for applying the requirement in paragraph (a) of this section to children with disabilities aged 3, 4, 5, 18, 19, 20, and 21:
  - (1) If State law or a court order requires the State to provide education for children with disabilities in any disability category in any of these age groups, the State must make FAPE available to all children with disabilities of the same age who have that disability.
  - (2) If a public agency provides education to nondisabled children in any of these age groups, it must make FAPE available to at least a proportionate number of children with disabilities of the same age.
  - (3) If a public agency provides education to 50 percent or more of its children with disabilities in any disability category in any of these age groups, it must make FAPE available to all its children with disabilities of the same age who have that disability. This provision does not apply to children aged 3 through 5 for any fiscal year for which the State receives a grant under section 619(a)(1) of the Act.

## Federal and State Legal Obligations

(4) If a public agency provides education to a child with a disability in any of these age groups, it must make FAPE available to that child and provide that child and his or her parents all of the rights under Part B of the Act and this part.

(5) A State is not required to make FAPE available to a child with a disability in one of these age groups if:

- (i) State law expressly prohibits, or does not authorize, the expenditure of public funds to provide education to nondisabled children in that age group; or
- (ii) The requirement is inconsistent with a court order that governs the provision of free public education to children with disabilities in that State.

(c) Children aged 3 through 21 on reservations. With the exception of children identified in Sec. 300.709(a)(1) and (2), the SEA shall be responsible for ensuring that all of the requirements of Part B of the Act are implemented for all children aged 3 through 21 on reservations.

(Authority: 20 U.S.C. 1411(i); 1412(2)(B); S. Rep. No. 94-168, p. 19 (1975))

*Note 1: The requirement to make FAPE available applies to all children with disabilities within the State who are in the age ranges required under Sec. 300.300 and who need special education and related services. This includes children with disabilities already in school and children with less severe disabilities, who are not covered under the priorities under Sec. 300.321.*

*Note 2: In order to be in compliance with Sec. 300.300, each State must ensure that the requirement to identify, locate, and evaluate all children with disabilities is fully implemented by public agencies throughout the State. This means that before September 1, 1978, every child who has been referred or is on a waiting list for evaluation (including children in school as well as those not receiving an education) must be evaluated in accordance with Secs. 300.530-300.533. If, as a result of the evaluation, it is determined that a child needs special education and related services, an*

is knowledgeable about the evaluation procedures used and familiar with the evaluation results.

7. If the purpose of the IEP meeting includes the consideration of transition services, the school district will invite (1) the student, and (2) a representative of any other agency that is likely to be responsible for providing or paying for transition services.

8. If the school district has referred or placed a student in an ESD, State Operated Program, private facility, or any other program, the school district must take steps and document those steps that a representative from those agencies participates in any IEP meetings. Participation may consist of attending the meeting or a conference call.

## IV. Parent Participation

A. The school district makes sure that parents participate in IEP meetings by:

1. Notifying parents of the meeting a minimum of seven days before it is to take place. This does not restrict a meeting taking place during those seven days if agreeable to all parties. The notice shall inform participants of the purpose of the meeting, the time, who will be in attendance, and the location.

2. Scheduling mutually agreed upon time and place.

3. If the purpose of the meeting is the consideration of transition services for a student, the notice must also indicate this purpose, indicate that the district is inviting the student, and identify any other agency that is invited to send a representative.

B. The school district uses other methods to ensure parent participation such as individual or conference telephone calls.

## Federal and State Legal Obligations

## Sample Procedures

*IEP must be developed for the child by September 1, 1978, and all other applicable requirements of this part must be met.*

*Note 3: The requirement to identify, locate, and evaluate children with disabilities (commonly referred to as the "child find system") was enacted on August 21, 1974, under Pub. L. 93-380. While each State needed time to establish and implement its child find system, the four year period between August 21, 1974, and September 1, 1978, is considered to be sufficient to ensure that the system is fully operational and effective on a State-wide basis.*

*Under the statute, the age range for the child find requirement (0-21) is greater than the mandated age range for providing FAPE. One reason for the broader age requirement under "child find" is to enable States to be aware of and plan for younger children who will require special education and related services. It also ties in with the full educational opportunity goal requirement that has the same age range as child find. Moreover, while a State is not required to provide FAPE to children with disabilities below the age ranges mandated under Sec. 300.300, the State may, at its discretion, extend services to those children, subject to the priority requirements of Secs. 300.320-300.324.*

**34 CFR 300.340 Definitions.**

- (a) As used in this part, the term "individualized education program" means a written statement for a child with a disability that is developed and implemented in accordance with Secs. 300.341-300.350.
- (b) As used in Secs. 300.346 and 300.347, "participating agency" means a State or local agency, other than the public agency responsible for a student's education, that is financially and legally responsible for providing transition services to the student.

(Authority: 20 U.S.C. 1401(a)(20))

C. The school district may conduct an IEP meeting without the parent if the district is unable to convince the parents to attend. In this case, the district develops a record of its attempts to arrange a mutually agreed upon time and place such as:

1. Detailed records of phone calls made or attempted;
  2. Copies of correspondence sent and any responses received; and
  3. Detailed records of visits made to the parents' home or place of employment.
- D. The school district arranges for interpreters as needed and takes any action necessary to ensure that the parent understands the proceedings at a meeting.

E. The school district provides the parent a copy of the IEP upon request.

F. If the purpose of an IEP meeting is the consideration of transition services and (1) the student does not attend, the school district will take other steps to ensure that the student's preferences and interests are considered, or (2) if the representative of an invited agency does not attend, the school district will take other steps to obtain the participation of the other agencies in the planning of any transition services.

**V. Content of the IEP**

A. The team must develop an IEP for each eligible student that contains the following components:

1. A statement of present level of performance that is individualized for each student.

a. The statement shall accurately describe the student's abilities and the effects of his/her performance on any area of education that is affected, including academic

## Federal and State Legal Obligations

**34 CFR 300.341 State educational agency responsibility.**

- (a) Public agencies. The SEA shall ensure that each public agency develops and implements an IEP for each of its children with disabilities.
- (b) Private schools and facilities. The SEA shall ensure that an IEP is developed and implemented for each child with a disability who:
- (1) Is placed in or referred to a private school or facility by a public agency; or
  - (2) Is enrolled in a parochial school or other private school and receives special education or related services from a public agency.

(Authority: 20 U.S.C. 1412 (4), (6); 1413(a)(4))

*Note: This section applies to all public agencies, including other State agencies (e.g., departments of mental health and welfare) that provide special education to a child with a disability either directly, by contract or through other arrangements. Thus, if a State welfare agency contracts with a private school or facility to provide special education to a child with a disability, that agency would be responsible for ensuring that an IEP is developed for the child.*

**34 CFR 300.342 When individualized education programs must be in effect.**

- (a) At the beginning of each school year, each public agency shall have in effect an IEP for every child with a disability who is receiving special education from that agency.
- (b) An IEP must:
- (1) Be in effect before special education and related services are provided to a child; and

and nonacademic areas (e.g., social-emotional, general intelligence, academic performance, communicative status, vocational attitude, or motor abilities). Labels such as "mentally retarded" or "deaf" cannot be used as a substitute for the description of the present levels of educational performance;

- b. The present level shall describe the results of any tests administered and the results from nontest-based evaluations, and progress on the previous IEP;
  - c. The present level of performance shall be clearly linked to the other components of the annual goals and objectives;
  - d. The statement should be written in easy to understand language.
2. Annual goals are based on the needs identified in the present level of performance and evaluation data and are expressed in terms of:
- a. What the student can be expected to accomplish within a 12-month period of time as a result of special education;
  - b. Skills that reflect what the student is to learn;
  - c. Goals which are clearly linked to the statement in the present level of performance;
  - d. Development and maintenance of skills leading to growth in personal independence, self-sufficiency, and social integration and participation when completion of the regular academic program is not ultimately anticipated;
  - e. Anticipated outcomes for participation in extracurricular/nonacademic activities, which require specially designed instruction or modifications;

*Note: Under paragraph (b)(2) of this section, it is expected that the IEP of a child with a disability will be implemented immediately following the meetings under Sec. 300.343. An exception to this would be (1) when there are circumstances that require a short delay (e.g., working out transportation arrangements). However, there can be no undue delay in providing special education and related services to the child.*

## 34 CFR 300.343 Meetings.

- (a) General. Each public agency is responsible for initiating and conducting meetings for the purpose of developing, reviewing, and revising the IEP of a child with a disability (or, if consistent with State policy and at the discretion of the LEA, and with the concurrence of the parents, an individualized family service plan described in section 677(d) of the Act for each child with a disability, aged 3 through 5).
- (b) [Reserved]
- (c) Timeline. A meeting to develop an IEP for a child must be held within 30 calendar days of a determination that the child needs special education and related services.
- (d) Review. Each public agency shall initiate and conduct meetings to review each child's IEP periodically and, if appropriate, revise its provisions. A meeting must be held for this purpose at least once a year.

(Authority: 20 U.S.C. 1412(2)(B), (4), (6); 1414(a)(6))

*Note: The date on which agencies must have IEPs in effect is specified in Sec. 300.342 (the beginning of each school year). However, except for new children with disabilities (i.e., those evaluated and determined to need*

3. Short-term instructional objectives are measurable intermediate steps for each annual goal expressed in terms of:
- Anticipated outcomes or improvements toward meeting each annual goal;
  - Measurable intermediate steps between the present level of performance and the annual goals that have been established;
  - A logical breakdown of the major components of the annual goals and serve as "milestones" for indicating progress toward meeting the goals;
  - Measurable indicators to determine the annual progress (criteria);
  - A statement of how often the student's progress will be reviewed during the annual IEP (schedule); and
  - A statement of the methods and procedures used to measure the annual progress toward the short-term objectives (evaluation procedures).
4. A description of special education and related services to be provided in support for each identified goal and short-term objective and the extent to which the child will be able to participate in regular education programs.
5. A statement as to the initiation and anticipated duration of special education to be provided.
6. A description of curricular or instructional approaches, or modifications that are necessary for the student to participate in the regular education program.

*In order to have IEPs in effect at the beginning of the school year, agencies could hold meetings either at the end of the preceding school year or during the summer prior to the next school year. Meetings may be held any time throughout the year, as long as IEPs are in effect at the beginning of each school year.*

*The statute requires agencies to hold a meeting at least once each year in order to review and, if appropriate, revise each child's IEP. The timing of those meetings could be on the anniversary date of the child's last IEP meeting, but this is left to the discretion of the agency.*

### 34 CFR 300.344 Participants in meetings.

(a) General. The public agency shall ensure that each meeting includes the following participants:

- (1) A representative of the public agency, other than the child's teacher, who is qualified to provide, or supervise the provision of, special education.
- (2) The child's teacher.
- (3) One or both of the child's parents, subject to Sec. 300.345.
- (4) The child, if appropriate.
- (5) Other individuals at the discretion of the parent or agency.

(b) Evaluation personnel. For a child with a disability who has been evaluated for the first time, the public agency shall ensure:

9. The amount of time spent in the regular education program described by the hours per week spent in the program or the percentage of time per week spent in the program.
10. Consideration of the need for extended school year programming.
11. A statement of the needed transition services for students beginning no later than age 16 (and at a younger age, if appropriate) and annually thereafter and a statement of each participating agency's responsibilities, or linkages, or both, before the student leaves the school setting. If the team determines that transition services are not needed in the areas of instruction, community experiences, and the development of employment and other post-school adult living objectives, the IEP shall include a statement to that effect and the basis upon which the determination was made.

### VI. Placement in Another Public Agency for Services

- A. Upon determining that a student, whether disabled or not, will attend another district for his or her education, the resident district will initiate a contract with the district or agency which the student will attend. Attending districts or agencies with which a contract will be initiated include:
  1. another school district,
  2. an ESD when the student is enrolled for the majority of his or her education program with the ESD and/or is served outside the district attendance area,

- (c) Transition services participants.
- (1) If a purpose of the meeting is the consideration of transition services for a student, the public agency shall invite:
    - (i) The student; and
    - (ii) A representative of any other agency that is likely to be responsible for providing or paying for transition services.
  - (2) If the student does not attend, the public agency shall take other steps to ensure that the student's preferences and interests are considered; and
  - (3) If an agency invited to send a representative to a meeting does not do so, the public agency shall take other steps to obtain the participation of the other agency in the planning of any transition services.

*Note 1: In deciding which teacher will participate in meetings on a child's IEP, the agency may wish to consider the following possibilities: (a) For a child with a disability who is receiving special education, the teacher could be the child's special education teacher. If the child's disability is a speech impairment, the teacher could be the speech-language pathologist. (b) For a child with a disability who is being considered for placement in special education, the teacher could be the child's regular teacher, or a teacher qualified to provide education in the type of program in which the child may be placed, or both. (c) If the child is not in school or has more than one teacher, the agency may designate which teacher will participate in the meeting. Either the teacher or the agency representative should be qualified in the area of the child's suspected disability. For a child whose primary disability is a speech or language impairment, the evaluation personnel participating under paragraph (b)(1) of this section would normally be the speech-language pathologist.*

  4. a regional program when the student is enrolled for the majority of his or her education with the regional program and/or is served outside the district attendance area.
- B. The signed contract will stipulate the role and responsibilities for the resident district and attending district or agency as follows.
1. Resident districts shall stipulate through the agreement that:
    - a. The resident district shall retain all responsibility for ensuring that the parents and the child are afforded all special education rights and procedural safeguards under federal and state law, including;
      - (1) Childfind, the evaluation for eligibility, for special education if the resident district suspects that a child has a disability and needs special education;
      - (2) Individualized education program (IEP). The attending district may initiate and conduct IEP meetings for the review of an IEP if requested to do so in writing by the resident district. A representative of the resident district shall attend all IEP meetings;
      - (3) Educational placement of the child;
      - (4) Provision of Free, Appropriate Public Education;
      - (5) Prior written notice to the parents when the resident district proposes or refuses to initiate the identification, evaluation, or educational placement of the child or the provision of a free, appropriate public education including change in placement if the contract is rescinded;

## Sample Procedures

*Note 2: Under paragraph (c) of this section, the public agency is required to invite each student to participate in his or her IEP meeting, if a purpose of the meeting is the consideration of transition services for the student. For all students who are 16 years of age or older, one of the purposes of the annual meeting will always be the planning of transition services, since transition services are a required component of the IEP for these students.*

*For a student younger than age 16, if transition services are initially discussed at a meeting that does not include the student, the public agency is responsible for ensuring that, before a decision about transition services for the student is made, a subsequent IEP meeting is conducted for that purpose, and the student is invited to the meeting.*

**34 CFR 300.345 Parent participation.**

- (a) Each public agency shall take steps to ensure that one or both of the parents of the child with a disability are present at each meeting or are afforded the opportunity to participate, including:
  - (1) Notifying parents of the meeting early enough to ensure that they will have an opportunity to attend; and
  - (2) Scheduling the meeting at a mutually agreed on time and place.
- (b) (1) The notice under paragraph (a)(1) of this section must indicate the purpose, time, and location of the meeting and who will be in attendance;
- (2) If a purpose of the meeting is the consideration of transition services for a student, the notice must also:
  - (i) Indicate this purpose;
  - (ii) Indicate that the agency will invite the student; and
  - (iii) Identify any other agency that will be invited to send a representative.

- (6) Stay-put which allows the child to remain in his or her present educational placement at the attending district during the pendency of any education due process or judicial proceeding unless the resident district and the parents of the child agree otherwise.
  - (7) The resident district shall be the school district of record for any special education due process hearing or judicial proceeding arising out of the child's placement or program.
2. The attending district shall stipulate through the agreement that:
    - a. Allow the child to remain in his or her present educational placement at the attending district during the pendency of any education due process or judicial proceeding unless the resident district and the parents of the child agree otherwise.
    - b. Immediately notify the resident district if the attending district suspects that the child may have a disability and may need special education services.
    - c. Immediately notify the resident district if the child, whether he or she is a special education student or not, has engaged in conduct that may lead to suspension or expulsion.
    - d. Immediately notify the resident district of any complaint made by the parents of the child regarding the child's regular or special education program at the attending district.

**VII. Private School Placements**

- A. In developing IEPs for students placed by the school district in private schools, the district follows these procedures:
  1. Before the student is placed, the district initiates and conducts a meeting to develop an IEP;

## Federal and State Legal Obligations

- (c) If neither parent can attend, the public agency shall use other methods to ensure parent participation, including individual or conference telephone calls.
- (d) A meeting may be conducted without a parent in attendance if the public agency is unable to convince the parents that they should attend. In this case the public agency must have a record of its attempts to arrange a mutually agreed on time and place such as:
  - (1) Detailed records of telephone calls made or attempted and the results of those calls;
  - (2) Copies of correspondence sent to the parents and any responses received; and
  - (3) Detailed records of visits made to the parent's home or place of employment and the results of those visits.
- (e) The public agency shall take whatever action is necessary to ensure that the parent understands the proceedings at a meeting, including arranging for an interpreter for parents with deafness or whose native language is other than English.
- (f) The public agency shall give the parent, on request, a copy of the IEP.

(Authority: 20 U.S.C. 1401(a)(20); 1412 (2)(B), (4), (6); 1414(a)(5))

*Note: The notice in paragraph (a) of this section could also inform parents that they may bring other people to the meeting. As indicated in paragraph (c) of this section, the procedure used to notify parents (whether oral or written or both) is left to the discretion of the agency, but the agency must keep a record of its efforts to contact parents.*

### 34 CFR 300.346 Content of individualized education program.

- (a) General. The IEP for each child must include:

## Sample Procedures

- 2. The district ensures that a representative of the private school being considered as a placement option attends the meeting. If this isn't possible, the district shall use other methods to ensure participation by the private school, including individual or conference calls;
  - 3. For any student placed before the effective date of PL 94-142, the school district will make sure that an IEP is in place.
- B. In reviewing IEPs for students placed by the school district in private schools, the district follows these procedures:
- 1. Any meetings to review and revise the IEP after the student is enrolled may be initiated and conducted by the private school at the discretion of the district.
  - 2. If the private school initiates and conducts the meetings, the district will ensure that the parents and a district representative:
    - a. Are involved in any decision about the student's IEP; and
    - b. Agree to any proposed changes in the program before those changes are implemented.
  - C. In developing and reviewing IEPs for students placed by the district in private schools, the district takes responsibility for compliance with federal regulations.

### VIII. Students With Disabilities in Parochial or Other Private Schools

- A. If a student is enrolled in a parochial or other private school and receives special education from the school district, the district:
  - 1. Initiates and conducts meetings to develop, review, and revise an IEP in accordance with 34 CFR 300.343; and

## Federal and State Legal Obligations

- (1) A statement of the child's present levels of educational performance;
  - (2) A statement of annual goals, including short-term instructional objectives;
  - (3) A statement of the specific special education and related services to be provided to the child and the extent that the child will be able to participate in regular educational programs;
  - (4) The projected dates for initiation of services and the anticipated duration of the services; and
  - (5) Appropriate objective criteria and evaluation procedures and schedules for determining, on at least an annual basis, whether the short-term instructional objectives are being achieved.
- (b) Transition services.
- (1) The IEP for each student, beginning no later than age 16 (and at a younger age, if determined appropriate), must include a statement of the needed transition services as defined in Sec. 300.18, including, if appropriate, a statement of each public agency's and each participating agency's responsibilities or linkages, or both, before the student leaves the school setting.
  - (2) If the IEP team determines that services are not needed in one or more of the areas specified in Sec. 300.18 (b)(2)(i) through (b)(2)(iii), the IEP must include a statement to that effect and the basis upon which the determination was made.

(Authority: 20 U.S.C. 1401 (a)(19), (a)(20); 1412 (2)(B), (4), (6); 1414(a)(5))

*Note 1: The legislative history of the transition services provisions of the Act suggests that the statement of needed transition services referred to in paragraph (b) of this section should include a commitment by any participating agency to meet any financial responsibility it may have in the provision of transition services. See House Report No. 10544, p. 11 (1990).*

## Sample Procedures

2. Ensures a representative of the private school attends the meetings. If this isn't possible, the district shall use other methods to ensure participation by the private school, including individual or conference calls.

## IX. Extended School Year (ESY) Services

- A. ESY services are considered by the IEP team if the issue is raised by school personnel or the parent of an eligible student.
- B. ESY services are determined by the IEP team and all procedural safeguards pertaining to IEP development and meetings apply. Recommendation can be made by the student's MDT.
- C. The IEP team considers:
  1. Documented evidence of the student's regression and recoupment of skills which resulted from an interruption in the instructional program;
  2. Predictors of future regression and recoupment, if there is no evidence;
  3. All areas of need including those essential for minimal independence, academics, areas necessary for community living, and needed related services; and
  4. All eligible students, and not only those with severe or profound disabilities.
- D. The IEP team's decisions about the type and amount of services are based on the individual student needs and not on the services that are available.
- E. The consideration of ESY and the ESY services that are provided to eligible students are documented on the IEP or on another form attached to the IEP.
- F. If a parent requests that ESY services be considered and the IEP team determines that ESY services are not needed, written prior notice is given to the parent.

*Note 2: With respect to the provisions of paragraph (b) of this section, it is generally expected that the statement of needed transition services will include the areas listed in Sec. 300.18 (b)(2)(i) through (b)(2)(iii). If the IEP team determines that services are not needed in one of those areas, the public agency must implement the requirements in paragraph (b)(2) of this section. Since it is a part of the IEP, the IEP team must reconsider its determination at least annually.*

*Note 3: Section 602(a)(20) of the Act provides that IEPs must include a statement of needed transition services for students beginning no later than age 16, but permits transition services to students below age 16 (i.e., "... and, when determined appropriate for the individual, beginning at age 14 or younger"). Although the statute does not mandate transition services for all students beginning at age 14 or younger, the provision of these services could have a significantly positive effect on the employment and independent living outcomes for many of these students in the future, especially for students who are likely to drop out before age 16. With respect to the provision of transition services to students below age 16, the Report of the House Committee on Education and Labor on Public Law 101-476 includes the following statement:*

*Although this language leaves the final determination of when to initiate transition services for students under age 16 to the IEP process, it nevertheless makes clear that Congress expects consideration to be given to the need for transition services for some students by age 14 or younger. The Committee encourages that approach because of their concern that age 16 may be too late for many students, particularly those at risk of dropping out of school and those with the most severe disabilities. Even for those students who stay in school until age 18, many will need more than two years of transitional services. Students with disabilities are now dropping out of school before age 16, feeling that the education system has little to offer them. Initiating services at a younger age will be critical. (House Report No. 101-544, 10 (1990).)*

#### **34 CFR 300.347 Agency responsibilities for transition services.**

- (a) If a participating agency fails to provide agreed-upon transition services contained in the IEP of a student with a disability, the

public agency responsible for the student's education shall, as soon as possible, initiate a meeting for the purpose of identifying alternative strategies to meet the transition objectives and, if necessary, revising the student's IEP.

- (b) Nothing in this part relieves any participating agency, including a State vocational rehabilitation agency, of the responsibility to provide or pay for any transition service that the agency would otherwise provide to students with disabilities who meet the eligibility criteria of that agency.

(Authority: 20 U.S.C. 1401 (a)(1), (a)(19), (a)(20); 1412(2)(B))

- (d) Immediately notify the resident district of any complaint made by the parents of the child regarding the child's regular or special education program at the attending district.

#### **34 CFR 300.348 Private school placements by public agencies.**

- (a) Developing individualized education programs.
  - (1) Before a public agency places a child with a disability in, or refers a child to, a private school or facility, the agency shall initiate and conduct a meeting to develop an IEP for the child in accordance with Sec. 300.343.
  - (2) The agency shall ensure that a representative of the private school or facility attends the meeting. If the representative cannot attend, the agency shall use other methods to ensure participation by the private school or facility, including individual or conference telephone calls.
  - (3) [Reserved]
- (b) Reviewing and revising individualized education programs.

  - (2) If the private school or facility initiates and conducts these meetings, the public agency shall ensure that the parents and

an agency representative:

- (i) Are involved in any decision about the child's IEP, and
  - (ii) Agree to any proposed changes in the program before those changes are implemented.
- (c) Responsibility. Even if a private school or facility implements a child's IEP, responsibility for compliance with this part remains with the public agency and the SEA.

## Section 8: PROCEDURAL SAFEGUARDS

### Federal and State Legal Obligations

### Sample Procedures

#### 34 CFR 300.237 Procedural safeguards.

Each application must provide assurance satisfactory to the SEA that the LEA has procedural safeguards that meet the requirements of Secs. 300.500- 300.515.

(Authority: 20 U.S.C. 1414(a)(7))

#### 34 CFR 300.502 Opportunity to examine records.

The parents of a child with a disability shall be afforded, in accordance with the procedures of Secs. 300.562-300.569, an opportunity to inspect and review all education records with respect to:

- (a) The identification, evaluation, and educational placement of the child; and
- (b) The provision of FAPE to the child.

(Authority: 20 U.S.C. 1415(b)(1)(A))

#### 34 CFR 300.503 Independent educational evaluation.

##### (a) General.

- (1) The parents of a child with a disability have the right under this part to obtain an independent educational evaluation of the child, subject to paragraphs (b) through (e) of this section.
- (2) Each public agency shall provide to parents, on request, information about where an independent educational evaluation may be obtained.
- (3) For the purposes of this part:

*NOTE: Sample policies and administrative regulations to accompany the procedures in this section can be found in the OSBA documents coded IGBAG and IGBAG-AR.*

#### I. Opportunity to Examine Records

- A. The school district will inform parents of their right to inspect and review all educational records with respect to the identification, evaluation, and educational placement of the student, and the provision of a free appropriate public education.

#### II. Independent Educational Evaluation

- A. Parents have a right to request an independent evaluation of their child, at school district expense, when they disagree with an evaluation obtained by the school district. The request should be documented in writing.
- B. The district will provide a list of independent educational evaluators to the parent upon request.
- C. If a parent requests an independent educational evaluation and the school district disagrees with the parent's request, the district may request a due process hearing to show that the district's evaluation is appropriate.
- D. If the hearings officer's decision is that the district's evaluation is appropriate, the parent still has the right to an independent evaluation, but not at the district's expense.
- E. If the parent obtains an independent educational evaluation at private expense, the results of the evaluation:
  1. Must be considered by the school district in any decision made with respect to the provision of a free appropriate public education to the student; and
  2. May be presented as evidence at a due process hearing.

- (i) "Independent educational evaluation" means an evaluation conducted by a qualified examiner who is not employed by the public agency responsible for the education of the child in question.
- (ii) "Public expense" means that the public agency either pays for the full cost of the evaluation or ensures that the evaluation is otherwise provided at no cost to the parent, consistent with Sec. 300.361.
- (b) Parent right to evaluation at public expense. A parent has the right to an independent educational evaluation at public expense if the parent disagrees with an evaluation obtained by the public agency. However, the public agency may initiate a hearing under Sec. 300.506 to show that its evaluation is appropriate. If the final decision is that the evaluation is appropriate, the parent still has the right to an independent educational evaluation, but not at public expense.
- (c) Parent initiated evaluations. If the parent obtains an independent educational evaluation at private expense, the results of the evaluation:
- (1) Must be considered by the public agency in any decision made with respect to the provision of FAPE to the child; and
  - (2) May be presented as evidence at a hearing under this subpart regarding that child.
- (d) Requests for evaluations by hearings officers. If a hearings officer requests an independent educational evaluation as part of a hearing, the cost of the evaluation must be at public expense.
- (e) Agency criteria. Whenever an independent evaluation is at public expense, the criteria under which the evaluation is obtained, including the location of the evaluation and the qualifications of the examiner, must be the same as the criteria which the public agency uses when it initiates an evaluation.

(Authority: 20 U.S.C. 1415(b)(1)(A))

- F. A hearings officer may request that an independent evaluation be conducted as a part of the hearing, and the school district shall pay the cost of the evaluation.
- G. Whenever an independent evaluation is at public expense, the criteria under which the evaluation is obtained, including the location of the evaluation and the qualifications of the examiner, must be the same as the criteria which the school district uses when it initiates an evaluation.
- III. Prior Notice and Parent Consent**
- A. The school district will provide written notice to the parents of students with disabilities a minimum of seven days before the school district:
1. Proposes to initiate or change the identification, evaluation, or educational placement of the student or the provision of a free appropriate public education to the student; or
  2. Refuses to initiate or change the identification, evaluation, or educational placement of the student or the provision of a free appropriate public education to the student.
- B. Parental consent will be obtained before:
1. Conducting a preplacement evaluation;
  2. Initial placement of a student with a disability in a program providing special education and related services; or
  3. The administration of individual intelligence tests and all tests of personality to the student.
- C. Except for preplacement evaluation and initial placement, parent consent may not be required as a condition of any benefit to the student.

**34 CFR 300.504 Prior notice; parent consent.**

- (a) Notice. Written notice that meets the requirements of Sec. 300.505 must be given to the parents of a child with a disability a reasonable time before the public agency:
- (1) Proposes to initiate or change the identification, evaluation, or educational placement of the child or the provision of FAPE to the child; or
  - (2) Refuses to initiate or change the identification, evaluation, or educational placement of the child or the provision of FAPE to the child.
- (b) Consent; procedures if a parent refuses consent.
- (1) Parental consent must be obtained before:
    - (i) Conducting a preplacement evaluation; and
    - (ii) Initial placement of a child with a disability in a program providing special education and related services.
  - (2) If State law requires parental consent before a child with a disability is evaluated or initially provided special education and related services, State procedures govern the public agency in overriding a parent's refusal to consent.
  - (3) If there is no State law requiring consent before a child with a disability is evaluated or initially provided special education and related services, the public agency may use the hearing procedures in Secs. 300.506-300.508 to determine if the child may be evaluated or initially provided special education and related services without parental consent. If it does so and the hearing officer upholds the agency, the agency may evaluate or initially provide special education and related services to the child without the parent's consent, subject to the parent's rights under Secs. 300.510-300.513.

- D. The school district may use the state due process hearing procedures to determine if a student may be evaluated or initially provided special education and related services when parental consent is not granted.

**IV. Content of Notice**

- A. The notice will include:
1. A full explanation of all of the procedural safeguards available to the parents under Subpart E of EHA-B and IDEA (the district may use the sample "Parental Rights in Special Education" brochure published by ODE);
  2. A description of the action proposed or refused by the district, an explanation of why the agency proposes or refuses to take the action, and a description of any options the district considered and the reasons why those options were rejected;
  3. A description of each evaluation procedure, test, record, or report the agency uses as a basis for the proposal or refusal; and
  4. A description of any other factors which are relevant to the district's proposal or refusal.
- B. The notice will be:
1. Written in language understandable to the general public; and
  2. Provided in the native language of the parent or other mode of communication used by the parent, unless it is clearly not feasible to do so.
- C. If the native language or other mode of communication of the parent is not a written language, the district will take steps to see that:

(c) Additional State consent requirements. In addition to the parental consent requirements described in paragraph (b) of this section, a State may require parental consent for other services and activities under this part if it ensures that each public agency in the State establishes and implements effective procedures to ensure that a parent's refusal to consent does not result in a failure to provide the child with FAPE.

(d) Limitation. A public agency may not require parental consent as a condition of any benefit to the parent or the child except for the service or activity for which consent is required under paragraphs (b) or (c) of this section.

(Authority: 20 U.S.C. 1415(b)(1)(C), (D); 1412(2), (6))

*If the parent refuses to consent and the public agency determines that the service or activity in dispute is necessary to provide FAPE to the child, paragraph (c) of this section requires that the agency must implement its procedures to override the refusal. This section does not preclude the agency from reconsidering its proposal if it believes that circumstances warrant.*

- D. The assigning of a surrogate will be made as follows:
  - 1. The Special Education Director or designee shall maintain a list of individuals with the knowledge and skills necessary to effectively represent a student who is, or might be, eligible for special education throughout the educational decision-making process.

  - (b) The child is a ward of the state and there is reasonable cause to believe that the child has a disability.
- (2) In determining the need for a surrogate, the school district shall consider whether it is likely to take any action regarding the child which would require notice under OAR 581-15-075 to the parents, substitute care provider, or state agency which has legal guardianship of the child.
- (3) Each school district shall secure nominations of persons to serve as surrogates. The nominees must be approved by the school district which shall use criteria for selection of a surrogate that ensures that each nominee:

- (a) A parent does not wish to participate or circumstances clearly make it not feasible for the parent to participate in protecting the special education rights of the child; or
- (b) The parent lives at such a distance from the child's educational placement that it is not practicable to participate in protecting the special education rights of the child.
- (9) When a parent requests that a surrogate be appointed, the parent retains all parental rights to receive notice under OAR 581-15-067(1) and 581-15-075 and all of the information provided to the surrogate. ### Federal and State Legal Obligations

### Sample Procedures

#### 34 CFR 300.530 General.

- (a) Each SEA shall ensure that each public agency establishes and implements procedures that meet the requirements of Secs. 300.530-300.534.
- (b) Testing and evaluation materials and procedures used for the purposes of evaluation and placement of children with disabilities must be selected and administered so as not to be racially or culturally discriminatory.

(Authority: 20 U.S.C. 1412(5)(C))

#### 34 CFR 300.531 Preplacement evaluation.

Before any action is taken with respect to the initial placement of a child with a disability in a program providing special education and related services, a full and individual evaluation of the child's educational needs must be conducted in accordance with the requirements of Sec. 300.532.

(Authority: 20 U.S.C. 1412(5)(C))

#### 34 CFR 300.532 Evaluation procedures.

State educational agencies and LEAs shall ensure, at a minimum, that:

- (a) Tests and other evaluation materials:
- (1) Are provided and administered in the child's native language or other mode of communication, unless it is clearly not feasible to do so;
  - (2) Have been validated for the specific purpose for which they are used; and

*NOTE: Sample policies and administrative regulations to accompany the procedures in this section can be found in the OSBA documents coded IGBAH and IGBAH-AR.*

#### I. Preplacement Evaluation

- A. Before any action is taken with respect to the initial placement into special education, a full and individual evaluation of the student's educational needs must be conducted.

#### II. Evaluation Procedures

- A. All tests and other evaluation instruments used by the school district must be:
1. Written and/or administered in the native language or conducted in the mode of communication most familiar to the person being evaluated, unless it is clearly not feasible to do so;
  2. Validated for the specific purpose(s) for which they are used and administered by trained personnel in conformance with instructions provided by their producer;
  3. Tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient;
  4. Selected to ensure that when a test is administered to a student with impaired sensory, manual or speaking skills, the test results accurately reflect the student's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflect the student's impaired sensory, manual or speaking skills;
  5. Appropriate for the age and stage of development of each student to whom they are administered; and

Federal and State Legal Obligations

- (3) Are administered by trained personnel in conformance with the instructions provided by their producer.
- (b) Tests and other evaluation materials include those tailored to assess specific areas of educational need and not merely those that are designed to provide a single general intelligence quotient.
- (c) Tests are selected and administered so as best to ensure that when a test is administered to a child with impaired sensory, manual, or speaking skills, the test results accurately reflect the child's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the child's impaired sensory, manual, or speaking skills (except where those skills are the factors that the test purports to measure).
- (d) No single procedure is used as the sole criterion for determining an appropriate educational program for a child.
- (e) The evaluation is made by a multidisciplinary team or group of persons, including at least one teacher or other specialist with knowledge in the area of suspected disability.
- (f) The child is assessed in all areas related to the suspected disability, including, if appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status, and motor abilities.

(Authority: 20 U.S.C. 1412(5)(C))

*Note: Children who have a speech or language impairment as their primary disability may not need a complete battery of assessments (e.g., psychological, physical, or adaptive behavior). However, a qualified speech-language pathologist would: (1) Evaluate each child with a speech or language impairment using procedures that are appropriate for the diagnosis and appraisal of speech and language impairments, and (2) if necessary, make referrals for additional assessments needed to make an appropriate placement decision.*

Sample Procedures

- 6. Free of racial, cultural, language or gender bias.
- B. When evaluating a student, no single procedure will be used as the sole criterion for determining an appropriate educational program for the student.
- C. The evaluation for each student is made by a multidisciplinary team or group of persons, including at least one teacher or other specialist with knowledge in the area of the suspected disability.
- D. For each student suspected of having a disability, the district will assess in all areas related to the suspected disability, including where appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status, and motor abilities.
- E. In evaluating a student suspected of having a specific learning disability, the multidisciplinary team will also include the student's regular teacher; or if the child does not have a regular teacher, a regular classroom teacher qualified to teach a student of his or her age and at least one person qualified to conduct individual diagnostic examinations of students, such as a school psychologist, speech-language pathologist, or remedial reading teacher.

III. Placement Procedures

- A. In interpreting evaluation data and in making placement decisions, the multidisciplinary team will:
  - 1. Draw upon information from a variety of sources, including aptitude and achievement tests, teacher recommendations, physical condition, social or cultural background and adaptive behavior;
  - 2. Ensure that information obtained from all these sources is documented and carefully considered;

## Federal and State Legal Obligations

## Sample Procedures

**34 CFR 300.533 Placement procedures.**

- (a) In interpreting evaluation data and in making placement decisions, each public agency shall:
- (1) Draw upon information from a variety of sources, including aptitude and achievement tests, teacher recommendations, physical condition, social or cultural background, and adaptive behavior;
  - (2) Ensure that information obtained from all of these sources is documented and carefully considered;
  - (3) Ensure that the placement decision is made by a group of persons, including persons knowledgeable about the child, the meaning of the evaluation data, and the placement options; and
  - (4) Ensure that the placement decision is made in conformity with the least restrictive environment rules in 34 CFR 300.550-.554.
- B. If the district determines that a student has a disability and needs special education and related services, an individualized education program will be developed for the student.

**IV. Reevaluation**

- A. Each eligible student's IEP is reviewed annually.
- B. A reevaluation of each eligible student is conducted every three years or more frequently if conditions warrant, or if the student's parent or teacher requests an evaluation.

- (b) If a determination is made that a child has a disability and needs special education and related services, an IEP must be developed for the child in accordance with Secs. 300.340-300.350.

(Authority: 20 U.S.C. 14.145(c); 1414(a)(5))

*Note: Paragraph (a)(1) of this section includes a list of examples of sources that may be used by a public agency in making placement decisions. The agency would not have to use all the sources in every instance. The point of the requirement is to ensure that more than one source is used in interpreting evaluation data and in making placement decisions. For example, while all of the named sources would have to be used for a child whose suspected disability is mental retardation, they would not be necessary for certain other children with disabilities, such as a child who has a severe articulation impairment as his primary disability. For such a child, the speech-language pathologist, in complying with the multiple source requirement, might use: (1) A standardized test of articulation, and (2) observation of the child's articulation behavior in conversational speech.*

**34 CFR 300.534 Reevaluation.**

Each SEA and LEA shall ensure:

- (a) That the IEP of each child with a disability is reviewed in accordance with Secs. 300.340-300.350; and
- (b) That an evaluation of the child, based on procedures that meet the requirements of Sec. 300.532, is conducted every three years, or more frequently if conditions warrant, or if the child's parent or teacher requests an evaluation.

(Authority: 20 U.S.C. 1412(5)(c))

**Additional Procedures for Evaluating Children With Specific Learning Disabilities****34 CFR 300.540 Additional team members.**

In evaluating a child suspected of having a specific learning disability, in addition to the requirements of Sec. 300.532, each public agency shall include on the multidisciplinary evaluation team:

- (a) (1) The child's regular teacher; or
- (2) If the child does not have a regular teacher, a regular classroom teacher qualified to teach a child of his or her age; or
- (3) For a child of less than school age, an individual qualified by the SEA to teach a child of his or her age; and
- (b) At least one person qualified to conduct individual diagnostic examinations of children, such as a school psychologist, speech-language pathologist, or remedial reading teacher.

(Authority: 20 U.S.C. 1411 note)

**34 CFR 300.541 Criteria for determining the existence of a specific learning disability.**

- (a) A team may determine that a child has a specific learning disability if:
- (1) The child does not achieve commensurate with his or her age and ability levels in one or more of the areas listed in paragraph (a)(2) of this section, when provided with learning experiences appropriate for the child's age and ability levels; and
  - (2) The team finds that a child has a severe discrepancy between achievement and intellectual ability in one or more of the following areas:
    - (i) Oral expression;
    - (ii) Listening comprehension;
    - (iii) Written expression;
    - (iv) Basic reading skill;
    - (v) Reading comprehension;
    - (vi) Mathematics calculation; or
    - (vii) Mathematics reasoning.
- (b) The team may not identify a child as having a specific learning disability if the severe discrepancy between ability and achievement is primarily the result of:
- (1) A visual, hearing, or motor impairment;
  - (2) Mental retardation;
  - (3) Emotional disturbance; or

- (4) Environmental, cultural or economic disadvantage.

(Authority: 20 U.S.C. 1411 note)

### 34 CFR 300.542 Observation.

- (a) At least one team member other than the child's regular teacher shall observe the child's academic performance in the regular classroom setting.
- (b) In the case of a child of less than school age or out of school, a team member shall observe the child in an environment appropriate for a child of that age.

(Authority: 20 U.S.C. 1411 note)

### 34 CFR 300.543 Written report.

- (a) The team shall prepare a written report of the results of the evaluation.
- (b) The report must include a statement of:
- (1) Whether the child has a specific learning disability;
  - (2) The basis for making the determination;
  - (3) The relevant behavior noted during the observation of the child;
  - (4) The relationship of that behavior to the child's academic functioning;
  - (5) The educationally relevant medical findings, if any;
  - (6) Whether there is a severe discrepancy between achievement and ability that is not correctable without special education and related services; and

- (7) The determination of the team concerning the effects of environmental, cultural, or economic disadvantage.
- (c) Each team member shall certify in writing whether the report reflects his or her conclusion. If it does not reflect his or her conclusion, the team member must submit a separate statement presenting his or her conclusions.

(Authority: 20 U.S.C. 1411 note)

### **OAR 581-15-072 Evaluation Procedures.**

- (1) Procedures and tests and other evaluation materials used for evaluating children with disabilities:
  - (a) Are selected and administered so as not to be racially or culturally discriminatory;
  - (b) Are provided and administered in the child's native language or other mode of communication, unless it is clearly not feasible to do so;
  - (c) Have been validated for the specific purpose for which they are used; and
  - (d) Are administered by trained personnel in conformance with the instructions provided by their producer.
- (2) Tests and other evaluation materials include those tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient.
- (3) Tests are selected and administered so as best to assure that, when a test is administered to a child with impaired sensory, manual or speaking skills, the test results accurately reflect the child's aptitude or achievement level or whatever factors the test purports to

## Federal and State Legal Obligations

measure rather than reflecting the child's impaired skills, except where those skills are the factors which the test purports to measure.

- (4) No single procedure is used as the sole criterion for determining an appropriate educational program for the child.
- (5) The evaluation is made by a multidisciplinary team or group of persons, including at least one teacher or other specialist with knowledge in the area of suspected disability; and
- (6) The child is assessed in all areas related to the suspected disability, including, where appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status and motor abilities.

- (1) "Consent" means that:
  - (a) The parent has been fully informed of all information relevant to the activity for which consent is sought, in the parent's native language or other mode of communication;
  - (b) The parent understands and agrees in writing to the carrying out of the activity for which consent is sought, and the consent describes the activity and lists the records (if any) which will be released and to whom; and
  - (c) The parent understands that the granting of consent is voluntary on the part of the parent and may be revoked at any time.

- (2) "Decision" means the decision of the hearing officer which shall be final, unless appealed to a state or federal court of competent jurisdiction.
- (3) "Determination" means the determination by the school district concerning the identification, preplacement or other evaluation, individualized education program or placement of a child with a disability in a program paid for by the district.
- (4) "Evaluation" means procedures used to ascertain the aptitude and achievement of the child, as well as to determine whether the child is disabled, and the nature and extent of the special education that the child needs. The term refers to procedures used selectively with the individual child and does not include basic tests administered to or procedures used with all children in school, grade, or class.
- (5) "Children with Disabilities" includes children who require special education in order to obtain the education of which they are capable, because of mental, physical, emotional or learning problems. These groups include, but are not limited to, those categories that traditionally have been designated: Mental retardation, hearing impairment, including, hard of hearing and deafness, deaf/blind, speech or language impairments, visual impairments, serious emotional disturbances, orthopedic or other health impairments, autism, traumatic brain injury, and specific learning disabilities:
- (a) "Autism" means a developmental disability typically affecting the processing, integrating, and organizing of information that significantly impacts communication, social interaction, functional skills, and educational performance. Essential features, generally appearing during the first three years, may include:
    - (A) Inconsistencies or discrepancies in the development of physical, language, social, or cognitive skills;
    - (B) Unusual responses to sensory information;
    - (C) Impaired verbal/nonverbal language or social communication;
    - (D) Impaired ability to relate to people or the environment; and

- (E) The term does not apply if a child's educational performance is adversely affected primarily because the child has a serious emotional disturbance. However, a child who qualifies for special education under the category of autism may also have a serious emotional disturbance as a secondary disability if the child meets the criteria under serious emotional disturbance.
- (b) "Deafness" means a hearing impairment which is so severe that the child's hearing, with amplified sound, is nonfunctional for the purposes of educational performance;
- (c) "Deaf-blind" means concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational problems that the child cannot be accommodated in special education programs designed solely for students having hearing or visual impairments;
- (d) "Hard of hearing" means a hearing condition, which is functional with or without amplified sound, and adversely affects a child's educational performance;
- (e) "Mental retardation" means significantly subaverage general intellectual functioning, and includes a student whose intelligence test score is two or more standard deviations below the norm on a standardized individual test, existing concurrently with deficits in adaptive behavior and manifested during the developmental period;
- (f) "Orthopedic impairment" means a child who has a motor disability caused by an anomaly, disease or impairment by other conditions (e.g., cerebral palsy, spina bifida, muscular dystrophy or traumatic injury) and who requires specialized and integrated services in order to benefit from an educational program;
- (g) "Other health impairment" means limited strength, vitality, or alertness, due to chronic or acute health problems such as a heart condition, tuberculosis, rheumatic fever, nephritis,

asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, or diabetes, which adversely affect a child's educational performance;

- (h) "Serious emotional disturbance" means an emotional problem which affects a child's educational performance to the extent that the child cannot make satisfactory progress in the regular school program;
- (i) "Specific learning disability" means a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which may manifest itself in an imperfect ability to listen, think, speak, read, write, spell or do mathematical calculations. Children with a specific learning disability are unable to profit from regular classroom methods and materials without special educational help, and are, or will become, extreme underachievers. These deficits may be exhibited in mild to severe difficulties with perception (the ability to attach meaning to sensory stimuli), conceptualization, language, memory, motor skills, or control of attention. Specific learning disability includes such conditions as perceptual handicaps, brain injury, dyslexia, minimal brain dysfunction, and developmental aphasia. The term does not include children who have learning problems which are primarily the result of visual, hearing, or motor disabilities, mental retardation, emotional disturbance, or environmental, cultural, or economic disadvantage;
- (j) "Speech or language impairment" is the impairment of speech articulation, voice and/or fluency or the impairment or deviant development of comprehension and/or use of a spoken, written and/or other symbol system that adversely affects educational performance. The language impairment may be manifested by any combination of the following components of language: form (phonology, morphology, syntax), content (semantics) and use/function (pragmatics);
- (k) "Traumatic brain injury" means an acquired injury to the brain caused by an external physical force resulting in total or partial functional disability or psychosocial impairment, or both, that

adversely affects a child's educational performance. The term includes open or closed head injuries resulting in impairments in one or more areas, including cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual, and motor abilities; psychosocial behavior; physical functions, information processing; and speech. The term does not include brain injuries that are congenital or degenerative, or brain injuries induced by birth trauma;

**VIII. Separate Classes Prohibited**

- A. The school district does not use program funds for classes that are organized separately on the basis of school enrollment or religion if the classes are at the same site and the classes include students enrolled in public schools and students enrolled in private schools.

(Authority: 20 U.S.C. 1221e-3(a)(1))

## Federal and State Legal Obligations

## Sample Procedures

*This includes children with disabilities already in school and children with less severe disabilities, who are not covered under the priorities under Sec. 300.321.*

*Note 2: In order to be in compliance with Sec. 300.300, each State must ensure that the requirement to identify, locate, and evaluate all children with disabilities is fully implemented by public agencies throughout the State. This means that before September 1, 1978, every child who has been referred or is on a waiting list for evaluation (including children in school as well as those not receiving an education) must be evaluated in accordance with Secs. 300.530-300.533. If, as a result of the evaluation, it is determined that a child needs special education and related services, an IEP must be developed for the child by September 1, 1978, and all other applicable requirements of this part must be met.*

*Note 3: The requirement to identify, locate, and evaluate children with disabilities (commonly referred to as the "child find system") was enacted on August 21, 1974, under Pub. L. 93-380. While each State needed time to establish and implement its child find system, the four year period between August 21, 1974, and September 1, 1978, is considered to be sufficient to ensure that the system is fully operational and effective on a State-wide basis.*

*Under the statute, the age range for the child find requirement (0-21) is greater than the mandated age range for providing FAPE. One reason for the broader age requirement under "child find" is to enable States to be aware of and plan for younger children who will require special education and related services. It also ties in with the full educational opportunity goal requirement that has the same age range as child find. Moreover, while a State is not required to provide FAPE to children with disabilities below the age ranges mandated under Sec. 300.300, the State may, at its discretion, extend services to those children, subject to the priority requirements of Secs. 300.320-300.324.*

#### **34 CFR 300.301 Free appropriate public education—methods and payments.**

- (a) Each State may use whatever State, local, Federal, and private sources of support are available in the State to meet the require-

ments of this part. For example, when it is necessary to place a child with a disability in a residential facility, a State could use joint agreements between the agencies involved for sharing the cost of that placement.

- (b) Nothing in this part relieves an insurer or similar third party from an otherwise valid obligation to provide or to pay for services provided to a child with a disability.

(Authority: 20 U.S.C. 1401 (18); 14122(XB))

### **34 CFR 300.302 Residential placement.**

If placement in a public or private residential program is necessary to provide special education and related services to a child with a disability, the program, including non-medical care and room and board, must be at no cost to the parents of the child.

(Authority: 20 U.S.C. 14122(XB); 1413(a)(4)(B))

*Note: This requirement applies to placements that are made by public agencies for educational purposes, and includes placements in State-operated schools for children with disabilities, such as a State school for students with deafness or students with blindness.*

### **34 CFR 300.305 Program options.**

Each public agency shall take steps to ensure that its children with disabilities have available to them the variety of educational programs and services available to nondisabled children in the area served by the agency, including art, music, industrial arts, consumer and homemaking education, and vocational education.

(Authority: 20 U.S.C. 14122(XA); 1414(a)(1)(C))

*Note: The above list of program options is not exhaustive, and could include any program or activity in which nondisabled students participate.*

**34 CFR 300.306 Nonacademic services.**

- (a) Each public agency shall take steps to provide nonacademic and extracurricular services and activities in such manner as is necessary to afford children with disabilities an equal opportunity for participation in those services and activities.
- (b) Nonacademic and extracurricular services and activities may include counseling services, athletics, transportation, health services, recreational activities, special interest groups or clubs sponsored by the public agency, referrals to agencies that provide assistance to individuals with disabilities, and employment of students, including both employment by the public agency and assistance in making outside employment available.

(Authority: 20 U.S.C. 1412(a)(1)(C))

**34 CFR 300.307 Physical education.**

- (a) General. Physical education services, specially designed if necessary, must be made available to every child with a disability receiving FAPE.
- (b) Regular physical education. Each child with a disability must be afforded the opportunity to participate in the regular physical education program available to nondisabled children unless:
  - (1) The child is enrolled full time in a separate facility; or
  - (2) The child needs specially designed physical education, as prescribed in the child's IEP.
- (c) Special physical education. If specially designed physical education is prescribed in a child's IEP, the public agency responsible for the education of that child shall provide the services directly, or make arrangements for those services to be provided through other public or private programs.

## Federal and State Legal Obligations

## Sample Procedures

- (d) Education in separate facilities. The public agency responsible for the education of a child with a disability who is enrolled in a separate facility shall ensure that the child receives appropriate physical education services in compliance with paragraphs (a) and (c) of this section.

(Authority: 20 U.S.C. 1401(a)(16); 1412(5)(B); 1414(a)(6))

*Note: The Report of the House of Representatives on Public Law 94-142 includes the following statement regarding physical education: Special education as set forth in the Committee bill includes instruction in physical education, which is provided as a matter of course to all nonhandicapped children enrolled in public elementary and secondary schools. The Committee is concerned that although these services are available to and required of all children in our school systems, they are often viewed as a luxury for handicapped children.*

\*The Committee expects the Commissioner of Education to take whatever action is necessary to assure that physical education services are available to all handicapped children, and has specifically included physical education within the definition of special education to make clear that the Committee expects such services, specially designed where necessary, to be provided as an integral part of the educational program of every handicapped child.

## Appendix A: RELATED SERVICES

### Federal and State Legal Obligations

### Sample Procedures

#### 34 CFR 300.16 Related services.

- (a) As used in this part, the term "related services" means transportation and such developmental, corrective, and other supportive services as are required to assist a child with a disability to benefit from special education, and includes speech pathology and audiology, psychological services, physical and occupational therapy, recreation, including therapeutic recreation, early identification and assessment of disabilities in children, counseling services, including rehabilitation counseling, and medical services for diagnostic or evaluation purposes. The term also includes school health services, social work services in schools, and parent counseling and training.

*NOTE: Sample policies and administrative regulations to accompany the procedures in this section can be found in the OSBA documents coded IGBAL and IGBAL-AR.*

#### I. Determination of Related Services Under PL 94-142 and PL 101-476

Participants in the IEP team meetings shall determine if any developmental, corrective or other supportive services (including transportation) are required to assist the student to benefit from special education. Such service(s) must be written into the IEP as related service(s).

In deciding whether a particular developmental, corrective or other supportive service is a related service, the members of the IEP team shall:

- A. Review the student's present level of educational performance, the annual goals and short term instructional objectives.
  - B. Determine whether or not a related service is required to carry out the goals and objectives in the IEP. To determine this, the participants shall determine if the service is an integral part of the annual goals and short term instructional objectives of the IEP.
- The IEP team shall determine that a service is an integral part of the program of instruction if:
1. The service directly affects the ability of the student to acquire knowledge, skills, or abilities identified in the annual goals and short term instructional objectives; or
  2. The instructional success is dependent upon the service (e.g., interpreter services, braille materials, transportation to the instruction).
  - C. If a service needed by, or of benefit to, a student is determined by the IEP team to be a related service, the service shall be

(Authority: 20 U.S.C. 1401(a)(17))

*Note: With respect to related services, the Senate Report states:*

## Federal and State Legal Obligations

*The Committee bill provides a definition of related services, making clear that all such related services may not be required for each individual child and that such term includes early identification and assessment of handicapping conditions and the provision of services to minimize the effects of such conditions.*

(S. Rep. No. 94-168, p. 12 (1976))

*The list of related services is not exhaustive and may include other developmental, corrective, or supportive services (such as artistic and cultural programs, and art, music, and dance therapy), if they are required to assist a child with a disability to benefit from special education.*

*There are certain kinds of services that might be provided by persons from varying professional backgrounds and with a variety of operational titles, depending upon requirements in individual States. For example, counseling services might be provided by social workers, psychologists, or guidance counselors, and psychological testing might be done by qualified psychological examiners, psychometrists, or psychologists, depending upon State standards.*

*Each related service defined under this part may include appropriate administrative and supervisory activities that are necessary for program planning, management, and evaluation.*

**34 CFR 300.17 Special education.**

- (a) (1) As used in this part, the term "special education" means specially designed instruction, at no cost to the parents, to meet the unique needs of a child with a disability, including—
- (i) Instruction conducted in the classroom, in the home, in hospitals and institutions, and in other settings and
  - (ii) Instruction in physical education.
- (2) The term includes speech pathology, or any other related service, if the service consists of specially designed instruction, at no cost to the parents, to meet the unique needs of a child

with a disability, and is considered special education rather than a related service under State standards.

- (3) The term also includes vocational education if it consists of specially designed instruction, at no cost to the parents, to meet the unique needs of a child with a disability.
- (b) The terms in this definition are defined as follows:
- (1) "At no cost" means that all specially designed instruction is provided without charge, but does not preclude incidental fees that are normally charged to nondisabled students or their parents as a part of the regular education program.
- (2) "Physical education" is defined as follows:
- (i) The term means the development of—
- (A) Physical and motor fitness;
  - (B) Fundamental motor skills and patterns; and
  - (C) Skills in aquatics, dance, and individual and group games and sports (including intramural and lifetime sports).
- (ii) The term includes special physical education, adaptive physical education, movement education, and motor development.

(Authority: 20 U.S.C., 1401(e)(16))

- (3) "Vocational education" means organized educational programs offering a sequence of courses that are directly related to the preparation of individuals in paid or unpaid employment in current or emerging occupations requiring other than a baccalaureate or advanced degree. Such programs shall include competency-based applied learning that contributes to an individual's academic knowledge, higher-order reasoning, and problem-solving skills, work attitudes, general employability

skills, and the occupation-specific skills necessary for economic independence as a productive and contributing member of society. Such term also includes applied technology education.

(Authority: 20 U.S.C. 1401(16))

*Note 1: The definition of special education is a particularly important one under these regulations, since a child does not have a disability under this part unless he or she needs special education. (See the definition of children with disabilities in §300.7.) The definition of related services (§300.16) also depends on this definition, since a related service must be necessary for a child to benefit from special education. Therefore, if a child does not need special education, there can be no related services, and the child is not a child with a disability and is therefore not covered under the Act.*

*Note 2: The above definition of vocational education is taken from the Carl D. Perkins Vocational and Applied Technology Education Act (Pub. L. 96-524, as amended by Pub. L. 101-392). Section 118(a)(3)(A)-(B) of this statute further provides—*

*Vocational education programs and activities for individuals with handicaps will be provided in the least restrictive environment in accordance with section 612(5)(B) of the Individuals with Disabilities Education Act and will, whenever appropriate, be included as a component of the individualized education program developed under section 614(a)(5) of such Act. Students with handicaps who have individualized education programs developed under section 614(a)(5) of the Individuals with Disabilities Education Act shall, with respect to vocational education programs, be afforded the rights and protections guaranteed such students under sections 612, 614, and 615 of such Act.*

#### **OAR 581-15-005 Definitions.**

The following definitions apply to OAR 581-15-015 through 581-15-296, unless the context requires otherwise: . . .

- (5) "Children with Disabilities" includes children who require special education in order to obtain the education of which they are capable, because of mental, physical, emotional or learning problems. These

groups include, but are not limited to those categories that traditionally have been designated: Mental retardation, hearing impairment, including, hard of hearing and deafness, deaf/blind, speech or language impairments, visual impairments, serious emotional disturbances, orthopedic or other health impairments, autism, traumatic brain injury, and specific learning disabilities:

- (a) "Autism" means a developmental disability typically affecting the processing, integrating, and organizing of information that significantly impacts communication, social interaction, functional skills, and educational performance. Essential features, generally appearing during the first three years, may include:
- (A) Inconsistencies or discrepancies in the development of physical, language, social, or cognitive skills;
  - (B) Unusual responses to sensory information;
  - (C) Impaired verbal/nonverbal language or social communication; and
  - (D) Impaired ability to relate to people or the environment;
- (E) The term does not apply if a child's educational performance is adversely affected primarily because the child has a serious emotional disturbance. However, a child who qualifies for special education under the category of autism may also have a serious emotional disturbance as a secondary disability if the child meets the criteria under serious emotional disturbance.
- (b) "Deafness" means a hearing impairment which is so severe that the child's hearing, with amplified sound, is nonfunctional for the purposes of educational performance;
- (c) "Deaf-blind" means concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational problems that the child cannot be accommodated in special education programs designed solely for students having hearing or visual impairments;

## Federal and State Legal Obligations

- (d) "Hard of hearing" means a hearing condition, which is functional with or without amplified sound, and adversely affects a child's educational performance;
- (e) "Mental retardation" means significantly subaverage general intellectual functioning, and includes a student whose intelligence test score is two or more standard deviations below the norm on a standardized individual test, existing concurrently with deficits in adaptive behavior and manifested during the developmental period;
- (f) "Orthopedic impairment" means a child who has a motor disability caused by an anomaly, disease or impairment by other conditions (e.g., cerebral palsy, spina bifida, muscular dystrophy or traumatic injury) and who requires specialized and integrated services in order to benefit from an educational program;
- (g) "Other health impairment" means limited strength, vitality, or alertness, due to chronic or acute health problems such as a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, or diabetes, which adversely affect a child's educational performance;
- (h) "Serious emotional disturbance" means an emotional problem which affects a child's educational performance to the extent that the child cannot make satisfactory progress in the regular school program;
- (i) "Specific learning disability" means a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which may manifest itself in an imperfect ability to listen, think, speak, read, write, spell or do mathematical calculations. Children with a specific learning disability are unable to profit from regular classroom methods and materials without special educational help, and are, or will become, extreme underachievers. These deficits may be exhibited in mild to severe difficulties with perception (the ability to attach meaning to sensory stimuli), conceptualization, language, memory, motor skills, or control of attention. Specific learning

disability includes such conditions as perceptual handicaps, brain injury, dyslexia, minimal brain dysfunction, and developmental aphasia. The term does not include children who have learning problems which are primarily the result of visual, hearing, or motor disabilities, mental retardation, emotional disturbance, or environmental, cultural, or economic disadvantage;

- (j) "Speech or language impairment" is the impairment of speech articulation, voice and/or fluency or the impairment or deviant development of comprehension and/or use of a spoken, written and/or other symbol system that adversely affects educational performance. The language impairment may be manifested by any combination of the following components of language; form (phonology, morphology, syntax), content (semantics) and use/function (pragmatics);
- (k) "Traumatic brain injury" means an acquired injury to the brain caused by an external physical force resulting in total or partial functional disability or psychosocial impairment, or both, that adversely affects a child's educational performance. The term includes open or closed head injuries resulting in impairments in one or more areas, including cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual, and motor abilities; psychosocial behavior; physical functions, information processing; and speech. The term does not include brain injuries that are congenital or degenerative, or brain injuries induced by birth trauma;
- (l) "Visual impairment" means a visual impairment which, even with correction, adversely affects a child's educational performance. The term includes those children who are partially sighted or blind. . . .
- (19) "Related services" includes transportation and such developmental, corrective and other supportive services (including speech, pathology and audiology, psychological services, physical and occupational therapy, special equipment, reader service, volunteer services to enhance special educational programs, recreation, counseling

services, including rehabilitation counseling services, social work services in schools, parent counseling and training, school health services and medical services) as are required to assist a child with a disability to benefit from special education, and includes early identification and assessment of disabling conditions in children. Medical services shall be for diagnostic and evaluation purposes only. . . .

- (21) "Special education" means specially designed instruction to meet the unique needs of a child with a disability, including regular classroom instruction, instruction in physical education, home instruction, and instruction in hospitals, institutions, special schools, and other settings.

### ORS 343.035 Definitions.

As used in this chapter unless the context requires otherwise:

- (1) "Children with disabilities" means those school age children who are entitled to an appropriate education as specified by ORS 339.115 and who require special education because they have been evaluated as having one of the following conditions as defined by rules established by the State Board of Education: Mental retardation, hearing impairment including difficulty in hearing and deafness, speech or language impairment, visual impairment, including blindness, serious emotional disturbance, orthopedic or other health impairment, autism, traumatic brain injury or specific learning disabilities.
- (13) "Related services" means transportation and such developmental, corrective and other supportive services as are required to assist a child with disabilities to benefit from special education, and includes speech pathology and audiology, psychological services, physical and

occupational therapy, recreation including therapeutic recreation, early identification and assessment of disabilities in children, counseling services including rehabilitation counseling, and medical services for diagnostic or evaluation purposes. "Related services" also includes school health services, social work services in schools and parent counseling and training.

## Appendix B: DISCIPLINE

Student behavior management and the role of discipline in the school is one of the most critical, perplexing and frustrating problems facing educators today. Discipline of students with disabilities is particularly challenging given federal and state laws which regulate how disciplinary measures are to be used with this population. It is hoped that the information provided in these suggested procedures is useful to you as you develop building and district policy and procedures relative to discipline of students with disabilities.

This section deals primarily with procedures related to the suspension and expulsion of students with disabilities. However, in examining current research on effective schools, it is interesting to note that schools which manage behavior effectively do not place major emphasis on negative or punitive approaches to discipline. Instead, effective schools focus on teaching students how to behave responsibly at school and incorporate prevention strategies which involve teacher adjustments and school supports for ensuring student success and encouraging responsible choices. For further information on proactive student management, please refer to *A Resource Guide for Oregon Educators on Developing Student Responsibility* published by the Oregon Department of Education.

Caution is advised when considering suspension or expulsion with students with disabilities. Suspension may be used sparingly as a teaching tool to address the inappropriate behavior of disabled students but long term suspensions and expulsions have been viewed by the courts as significant changes in placement. The U.S. Department of Education's regulations provide that a school district may not make a significant change in placement without prior notice and an evaluation. See *Honig v Doe* 108 S.Ct. 592 (1988), OCR Memorandum, October 28, 1988 - Long-term Suspension or Expulsion of Disabled Students.

### Federal and State Legal Obligations

#### MDT Team Review

Courts uniformly require that a determination of whether a disabled student's misconduct arises from the student's disability be made by a group of persons, including individuals personally familiar with the student and knowledgeable about special education. This requirement is based upon both 34 CFR 300.533 (3) and 45 CFR 104.35 (a) and (c) (3).

The convening of the MDT to determine the relationship of the behavior to the disability and subsequent program and placement decisions should occur when the student is the subject of expulsion or serial suspensions which total more than ten cumulative school days (OCR Memorandum, October 28, 1988 [EHLR 307:05]). The OCR memorandum notes: "If a proposed exclusion of a disabled child is permanent (expulsion) or for an indefinite period, or for more than 10 cumulative school days, the exclusion constitutes a 'significant change of placement' under Sec. 104.35(a) of the Section 504 regulation." The memorandum further states "... OCR will not consider a series of suspensions that, in the aggregate, are for 10 days or fewer to be a significant change in placement. Among the factors

*NOTE: Sample policies and administrative regulations to accompany the procedures in this section can be found in the OSBA documents coded JGDA/JGEA and JGDA/JGEA-AR.*

#### I. When to Conduct an MDT Review

##### A. Short-term Suspension

1. The MDT may be convened when students are to be or have been suspended. The purpose of the MDT meeting is to review assessment information and determine whether modifications to the IEP, a change of placement or behavioral interventions are needed to alleviate the inappropriate behavior and teach appropriate replacement behaviors.
2. Parents should be notified immediately if their child will be or has been suspended so that they can assist the school in gathering pertinent information relative to the student's behavior and in exploring options to support the student.

### Federal and State Legal Obligations

that should be considered in determining whether a series of suspensions has resulted in a significant change of placement are the length of each suspension, the proximity of the suspensions to one another, and the total amount of time the child is excluded from school.<sup>7</sup>

These disciplinary procedures also apply to bus suspensions, whether the student is receiving transportation as a related service in accordance with an IEP, or under a district's regular transportation service. An OCR inquiry response (EHLR 305:51) indicates that "The suspension of a handicapped student from transportation may constitute a 'significant change in placement' if a school district: has been transporting the student...; suspends the student from the transportation as a disciplinary measure; and provides no other form of transportation."

Under Oregon law, a suspension may not exceed seven calendar days [OAR 581-21-065]. The Oregon Department of Education interprets this provision to apply to each offense.

### Determining Whether the Misconduct is Related to the Student's Disability

In *Doe v Maher*, the Ninth Circuit Court stated that the MDT must determine whether the conduct has a direct and substantial relation to the child's handicap. Put another way, a handicapped child's conduct is covered by this definition only if the handicap significantly impairs the child's behavioral controls. Although this definition may, depending on the circumstances, include the conduct of handicapped children who possess the raw capacity to conform their behavior to prescribed standards, it does not embrace conduct that bears only an attenuated relationship to the child's handicap. An example of such attenuated conduct would be a case where a child's physical handicap results in his loss of self-esteem, and the child consciously misbehaves in order to gain the attention, or win the approval, of his peers. Although such a scenario may be common among handicapped children, it is no less common among children suffering from low self-esteem for other, equally tragic reasons. [793 F2d 1470, 1480 8(1986)]

### Sample Procedures

3. Some of the options the school could consider to support the student include:
  - a. Meet with the parents to discuss student needs;
  - b. Conduct a behavioral evaluation;
  - c. Develop a behavioral plan;
  - d. Revise the IEP to reflect behavioral goals for the student and planned interventions, adaptations and responses to behavioral incidents;
  - e. Temporary modification or reassignment of the student's educational program;
  - f. Temporary assignment to alternate in-school location with homework assigned and continuance of special education services.
4. When a student has been suspended more than once, an MDT meeting should be held immediately to evaluate the appropriateness of the student's IEP and placement. The MDT should also review whether the series of suspensions, in their aggregate, may constitute a significant change of placement. The MDT should evaluate this question by examining the following factors:
  - a. The length of each suspension;
  - b. The proximity of the suspensions to one another; and
  - c. The total amount of time the student is excluded from school.
5. If the MDT determines that the suspensions do constitute a change of placement, the MDT must determine whether there is a relationship between the reason for suspension and the student's disability. If such a relationship is found, refer to procedures outlined in II A.

## Federal and State Legal Obligations

**When the Behavior is Related to Student's Disability or Results From Inappropriate Placement/Program**

If the team determines that the behavior resulted from the student's disability or was the result of an inappropriate placement, the district may not expel or suspend the student for longer than ten cumulative school days without initiating change of placement procedures.

Doe v Maher [EHLR 557.353]

Honig v Doe 108 S.Ct. 592 (1988)

OCR Memorandum, October 28, 1988 - Long-term Suspension or Expulsion of Handicapped Students.

**When Behavior Is NOT Related to Student's Disability and/or DOES NOT Result From Inappropriate Placement/Program**

If the MDT team determines that the student's actions, behavior or activity is unrelated to that student's disability and the team determines that the student's program and placement are appropriate, the school district should follow its suspension and/or expulsion policies as applied to students without educational disabilities except that special education services must be continued for that student.

OSERS, in a letter of interpretation [16 EHLR 734, December 1989], responded to questions about whether the Ninth Circuit Court of Appeals Decision in Doe v Maher (which went to the Supreme Court as Honig v Doe) allowed for the cessation of special education services during an expulsion period. OSERS responded by stating: "The department believes the discussion in the Ninth Circuit's Doe v Maher decision is properly determined not to be a manifestation of handicap is to be "dicta" and not holding in that case. As such, we do not believe that this language represents controlling law in the Ninth Circuit. We continue to believe that all states and school districts, including those within the Ninth Circuit, are required by EHA-B and IDEA to ensure that special educational services are provided to children with handicaps during periods of long-term

## Sample Procedures

**B. Long-term Suspension and Expulsion**

1. A change in placement occurs and the MDT must be convened if the student:
  - a. Is suspended for more than seven consecutive calendar days;
  - b. Is suspended for a total of more than ten cumulative school days during a school year; or
  - c. Is expelled.
2. If a student is being considered for any of the disciplinary actions identified above (B 1), the MDT must determine whether the student's misconduct is related to that student's disability or is the result of an inappropriate placement.
3. The MDT must include individuals who are knowledgeable about the student and his or her disability. The parents should be invited to participate in the information-gathering and decision process of the MDT as appropriate. The team should base decisions upon a review of all pertinent information including the student's IEP, current evaluation data, documented behavioral observations, etc.

**C. Bus Suspensions**

Suspensions from the school bus are considered suspensions from school if they effectively prevent the student from accessing the school. As such, all of the above procedures relative to short and long term suspensions apply to bus suspensions.

**II. Decision of the MDT**

- A. Determining Whether the Misconduct is Related to the Student's Disability:

## Federal and State Legal Obligations

suspension or expulsion, regardless of whether the child's misconduct is a manifestation of the handicapping condition."

Since expulsion and extended suspensions as described above constitute a change of placement [Honig v Doe 108 S.Ct. 592 (1988) /Doe v Maher, 793 F.2d 1470 (1986) /S-1 v Turlington, 635 F.2nd 342 (5th Cir. 1981)], the school district is required to follow change of placement procedures [34 CFR Sec. 104.35(a)] including:

1. Parent notification of the change of placement including notification of their rights to administrative and judicial review.
2. An evaluation of the child's needs (may include a review of records and a more formal evaluation if information is not current).
3. Continued special education and related services during the suspension/expulsion period.

If expulsion is being considered, the district must also provide the student and his/her parents the due process rights afforded all students in accordance with ORS 339.240 and 339.250 and OAR 581-21-070.

### OAR 581-21-071 District Information for Parents and Students Regarding the Availability of Alternative Education Programs

2. District school boards shall adopt policies and procedures for notification to students and parents, or guardians of the availability of appropriate and accessible alternative programs. This notification shall be provided in the following situations:
  - (a) Upon the occurrence of a second or any subsequent occurrence of a severe disciplinary problem within a three-year period;
  - (b) When the district finds a student's attendance pattern to be so erratic that the student is not benefiting from the educational program;

## Sample Procedures

1. Before expulsion the MDT must determine whether the misconduct is a manifestation of the student's disabling condition.
  2. The MDT must examine the unique characteristics of the student and determine whether the disability significantly impairs the student's behavioral controls.
- B. When the misconduct is related to the student's disability or results from inappropriate placement/program:
  1. The school district cannot expel or continue to suspend the student.
  2. The MDT shall review the student's educational needs, current IEP and conduct a functional assessment of the student's behavior, if necessary. The MDT should examine whether:
    - a. The IEP goals, objectives and related service provisions are appropriate given the student's current educational needs;
    - b. There is a need for additional special education services;
    - c. Additional related services are necessary for the student to benefit from the special education program;
    - d. Changes are needed in behavior management strategies with the student including alternative measures such as direct teaching of appropriate behavior, consistent home/school contact, behavior plan development, environmental analysis and modification, instructional modifications, adjustments in scheduling, use of study carrels, planned use of time out, etc.;
    - e. The student's educational placement is appropriate;

## Federal and State Legal Obligations

- (c) When the district is considering expulsion as a disciplinary alternative;
- (d) When a student is expelled pursuant to subsection (3) of ORS 339.250; and
- (e) When an emancipated minor, parent, or legal guardian applies for a student's exemption from compulsory attendance on a semiannual basis as provided in ORS 339.030(5).

**Students Exhibiting Dangerous Behavior**

If the school district determines that the student's behavior, which is related to his/her disability, poses imminent danger to others and the parent refuses to agree to a change of placement, the school district may not change the student's placement without a court order.

The U.S. Supreme Court decision in *Honig v Doe* allows for the suspension of students, for up to ten cumulative school days, who pose "an immediate threat to the safety of others." This authority was viewed by the Supreme Court as not only "ensuring that school administrators can protect the safety of others by promptly removing the most dangerous students, it also provides for a cooling down period during which officials can initiate IEP review and seek to persuade the child's parents to agree to an interim placement. And in those cases which the parents of a truly dangerous child adamantly refuse to permit any change in the placement, the ten-day respite gives school officials an opportunity to invoke the aid of the courts under Section 14.15 (e) (2), which empowers courts to grant any appropriate relief."

## Sample Procedure:

- f. There is a need for involvement with community youth-service agencies or organizations such as Children's Services Division, County Mental Health, Juvenile Services, etc.;
  - g. The student is exhibiting behavior which poses a threat of imminent danger to others.
- C. When behavior IS NOT related to student's disability and/or DOES NOT result from inappropriate placement/program:
- 1. A school district may expel or continue to suspend if the MDT has determined that the student's misconduct is not related to his or her disability or is not the result of an inappropriate program or placement.
  - 2. Prior to a proposed expulsion or long-term suspension, a school district shall notify the parents in writing about the following:
    - a. IEP meeting to develop or revise the current IEP;
    - b. Proposed change of placement;
    - c. Parental rights under special education law, including the right to a due process hearing;
    - d. Information about accessible and appropriate alternative educational programs;
    - e. Intent to conduct a hearing to consider expulsion, the reason for proposing expulsion, supporting facts, and the rights of students and parents related to the conduct of the hearing as required by OAR 581-21-070;
    - f. The right of the parents or student, if the student is 18 years or older, to waive the expulsion hearing procedure; and

- g. The determination by the district that the student's misconduct is not related to the student's disability.
3. An IEP team meeting shall be convened to develop an IEP for the suspension/expulsion period. The IEP team should determine whether:
- a. Additional special education and related services are needed to address the inappropriate behavior related to the suspension/expulsion;
  - b. Restructuring of the current IEP will be necessary to prevent regression in student learning; and
  - c. The alternative educational programs proposed by the district will be compatible with the student's special education needs.
4. The IEP team should encourage the development of a regular education "reentry plan" that allows the student to earn credit for his/her academic work during the suspension/expulsion period. The student's regular education program should not be suspended or withdrawn, but instead modified to enable the student to continue working on academic requirements for classes or for high school graduation.
5. The MDT should make the following decisions after an "interim or suspension IEP" has been developed:
- a. Determine whether the proposed educational placement will meet the "least restrictive environment" requirements during the period of the suspension/expulsion. The alternatives may include placement:
    - (1) at another school within the district;
    - (2) in another school district;
    - (3) in an alternative school or program;

- (4) in a private educational agency program;
- (5) in a day treatment program;
- (6) in a residential program; or
- (7) that provides for home instruction.

- b. If home instruction is being considered as a placement option, the MDT should document that this decision was carefully considered and took into account the student's need to be educated with nondisabled students where feasible.
- c. If an alternative educational program is being considered, the MDT should ensure that it will be able to incorporate the special and regular education needs of the student.

### III. Students Exhibiting Dangerous Behavior

- A. If the school district determines that the behavior, which is related to the student's disability, poses imminent danger to others and the parent refuses to agree to a change of placement, the school district may suspend the student for up to seven consecutive calendar days or ten cumulative school days to provide a planning and "cooling off" period. However, the school district may not change the student's placement without parent consent or without securing a court order. A court order may be obtained from a state or federal court and requires that the school demonstrate that the maintenance of the student in his or her current placement poses "an immediate threat to the safety of others."
- B. Since schools are limited in the amount of time they have to secure a court order to change the placement of a student exhibiting dangerous behavior, it is necessary for districts to act quickly if the school believes that the parent(s) are likely to request a due process hearing to prevent such a placement change. Steps to be taken in such an event may include:

1. Contact attorney.
2. Set IEP meeting to review "relatedness question," student needs, IEP and placement as described above.
3. Inform parents of district intention to seek court ordered relief from maintaining the placement.
4. Gather evidence to support the claim that the student poses imminent danger to others. Such evidence may include:
  - a. Evaluation reports relating to student behavior;
  - b. Documentation of direct observations of the student's behavior;
  - c. Teacher-completed incident reports;
  - d. Records of office referrals;
  - e. The student's IEP;
  - f. MDT meeting minutes and notations; or
  - g. Notices to parents related to IEP meetings and proposed changes.
5. Prepare a contingency plan for use in the event that court ordered relief is not obtained.
